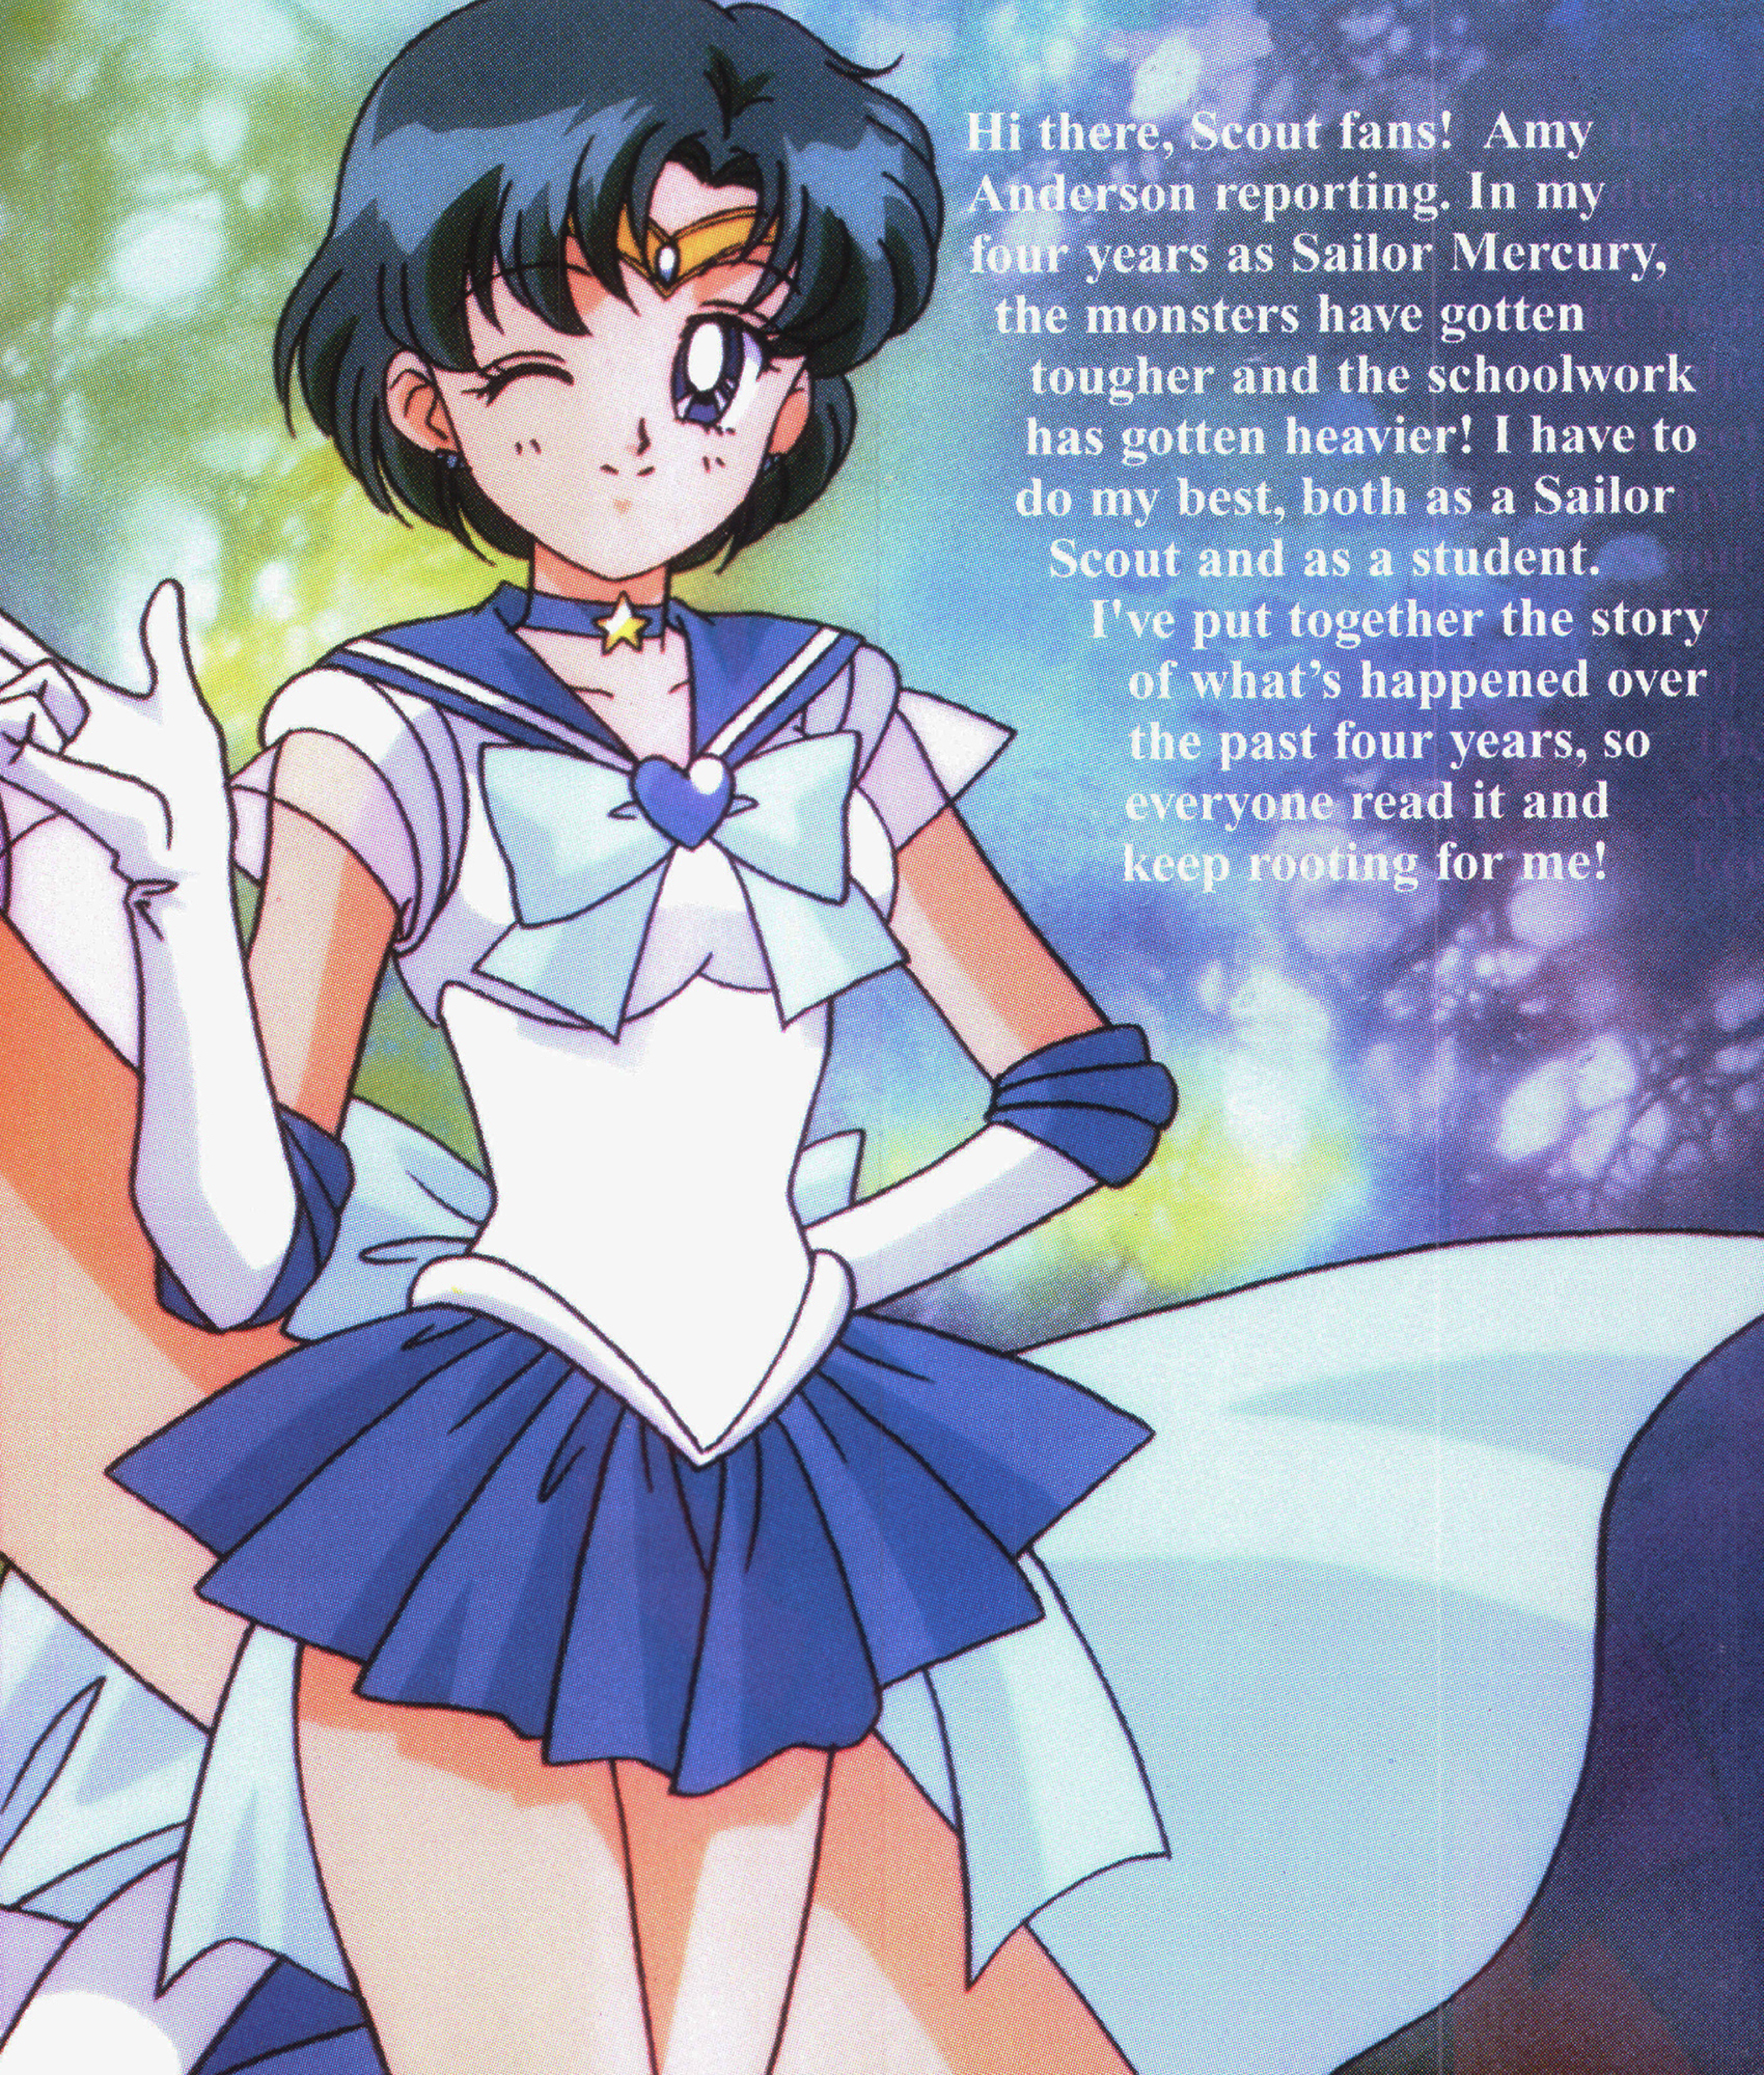
# Sailor Mercury

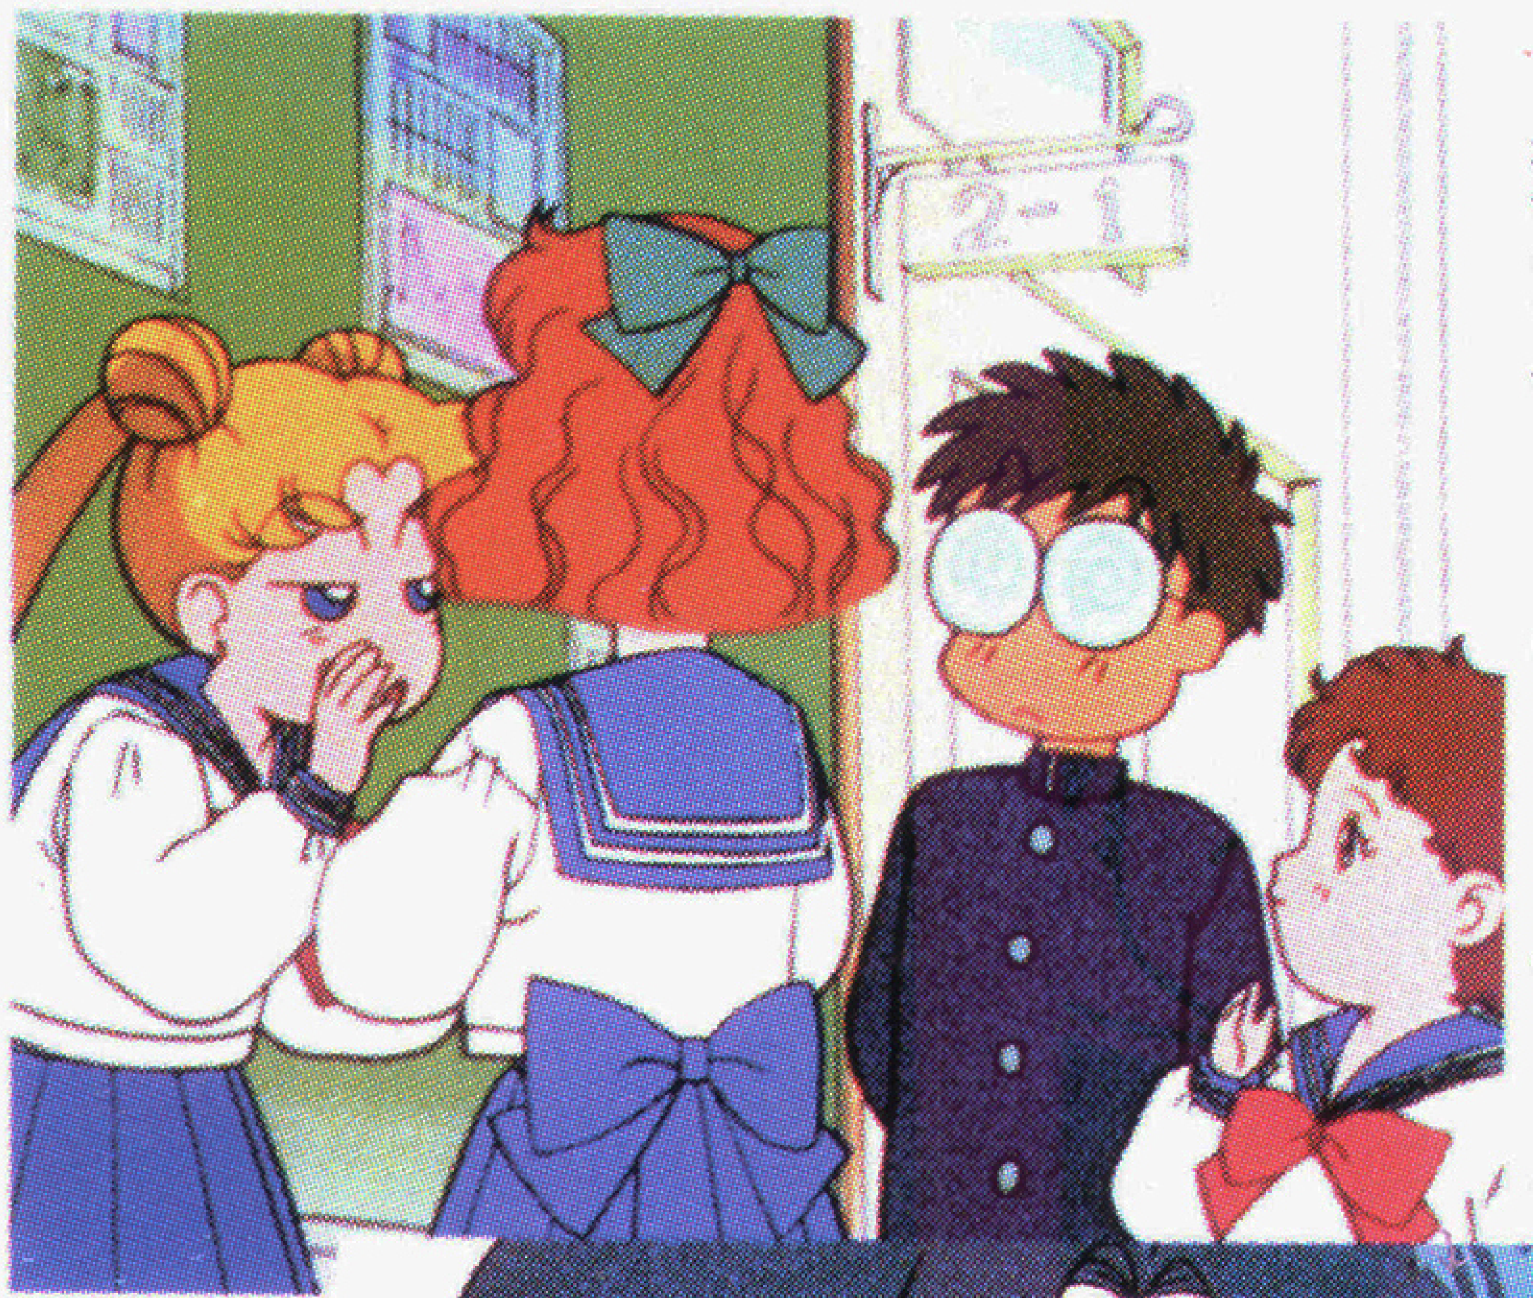
Hi there, Scout fans! Amy Anderson reporting. In my four years as Sailor Mercury, the monsters have gotten tougher and the schoolwork has gotten heavier! I have to do my best, both as a Sailor Scout and as a student. I've put together the story of what's happened over the past four years, so everyone read it and keep rooting for me!



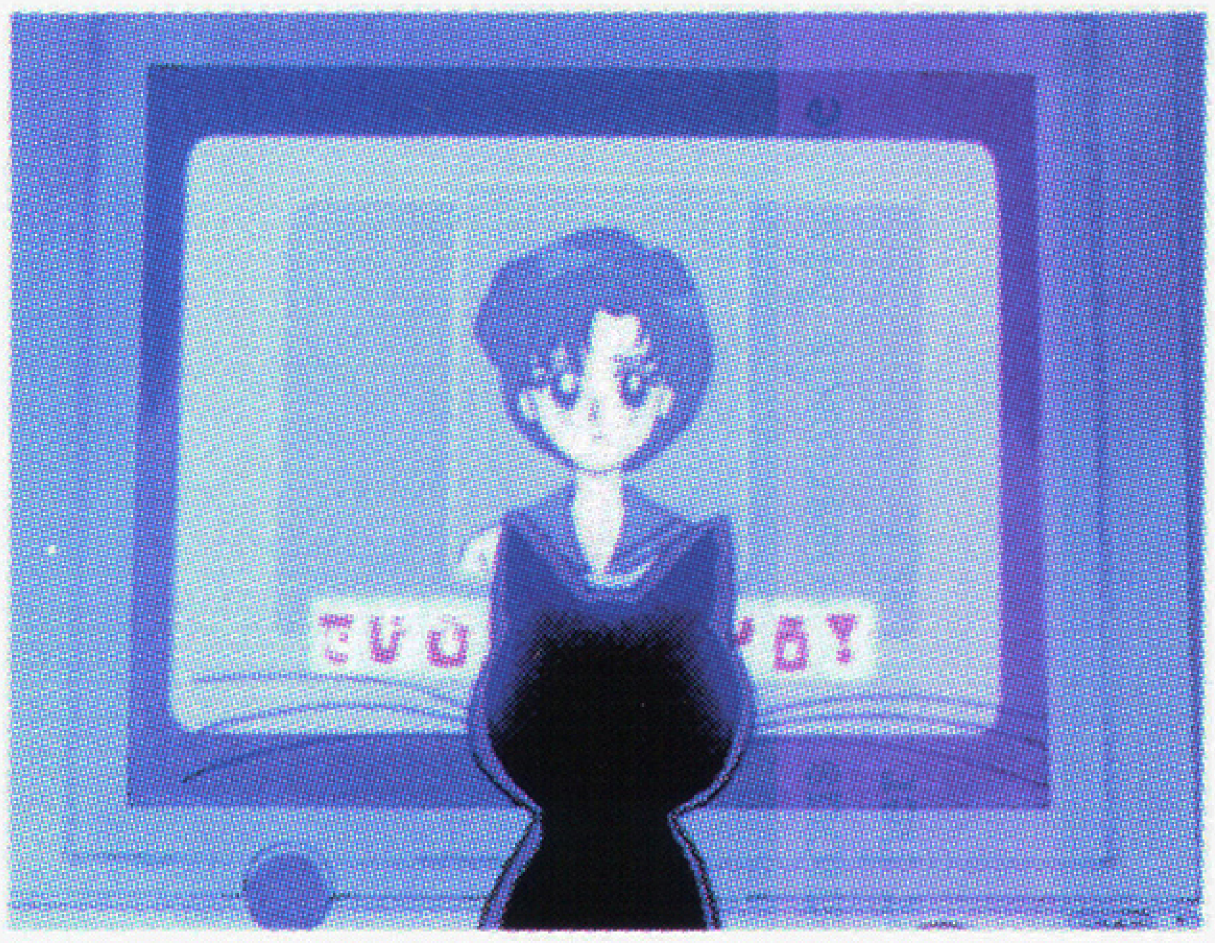
# The Secret Origin of Sailor Mercury

***This incident led to my becoming a Sailor Scout : it was Sailor Mercury's first time out!***

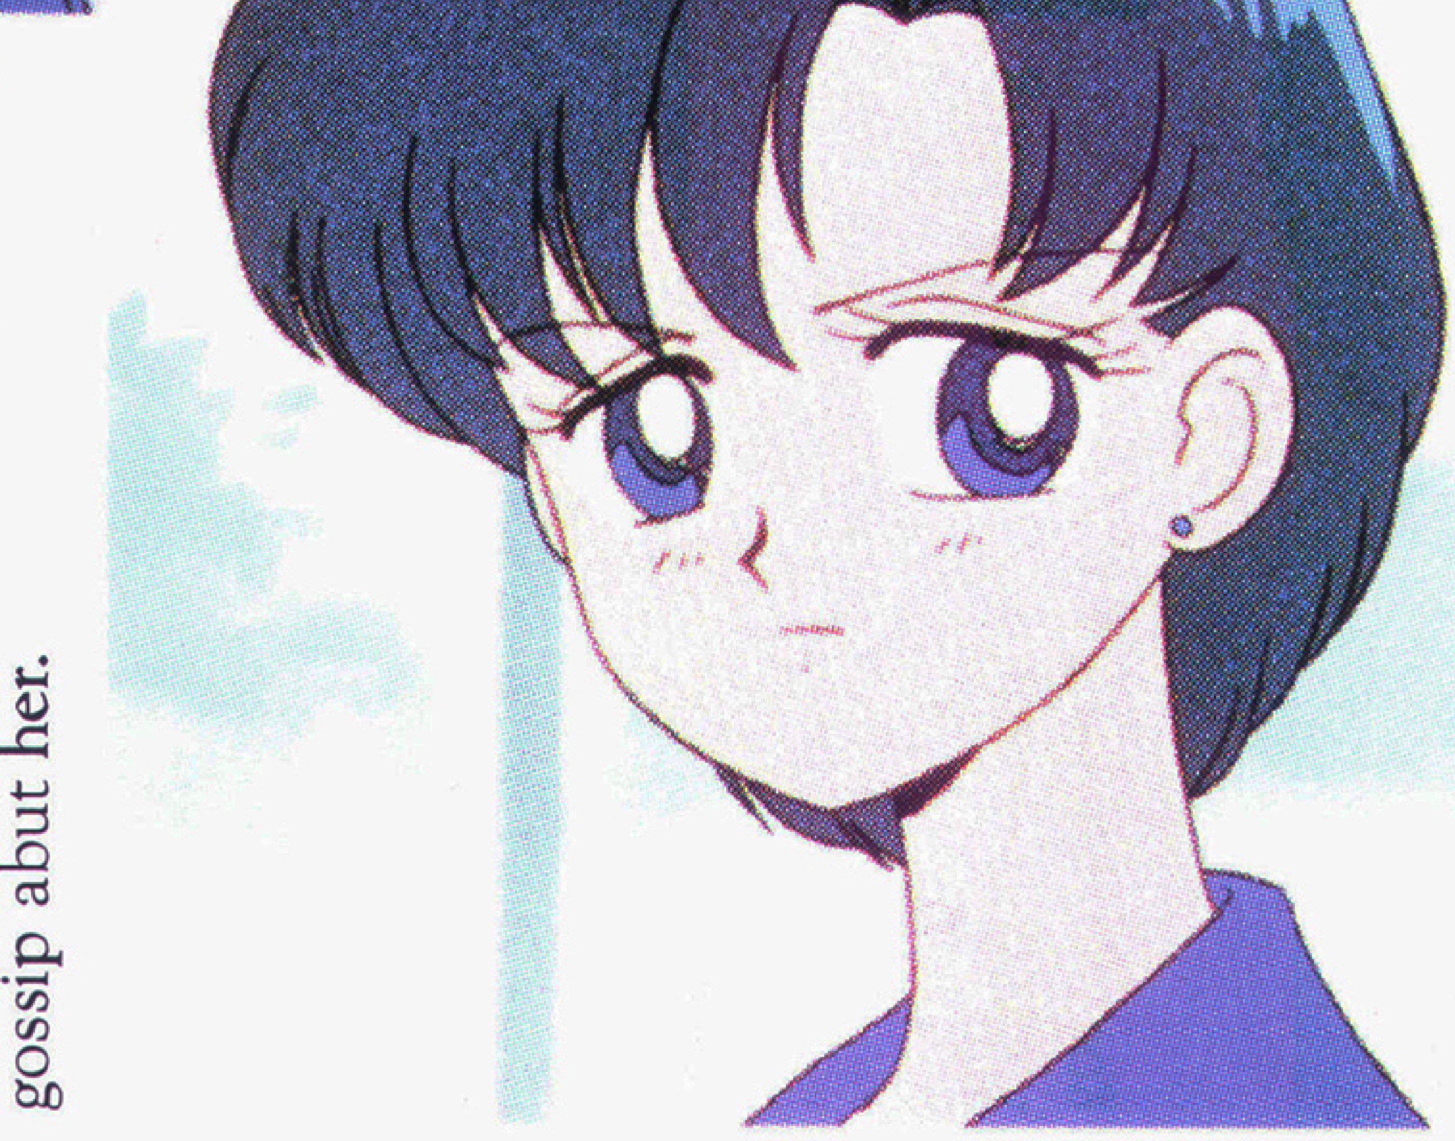
## Scout Guide



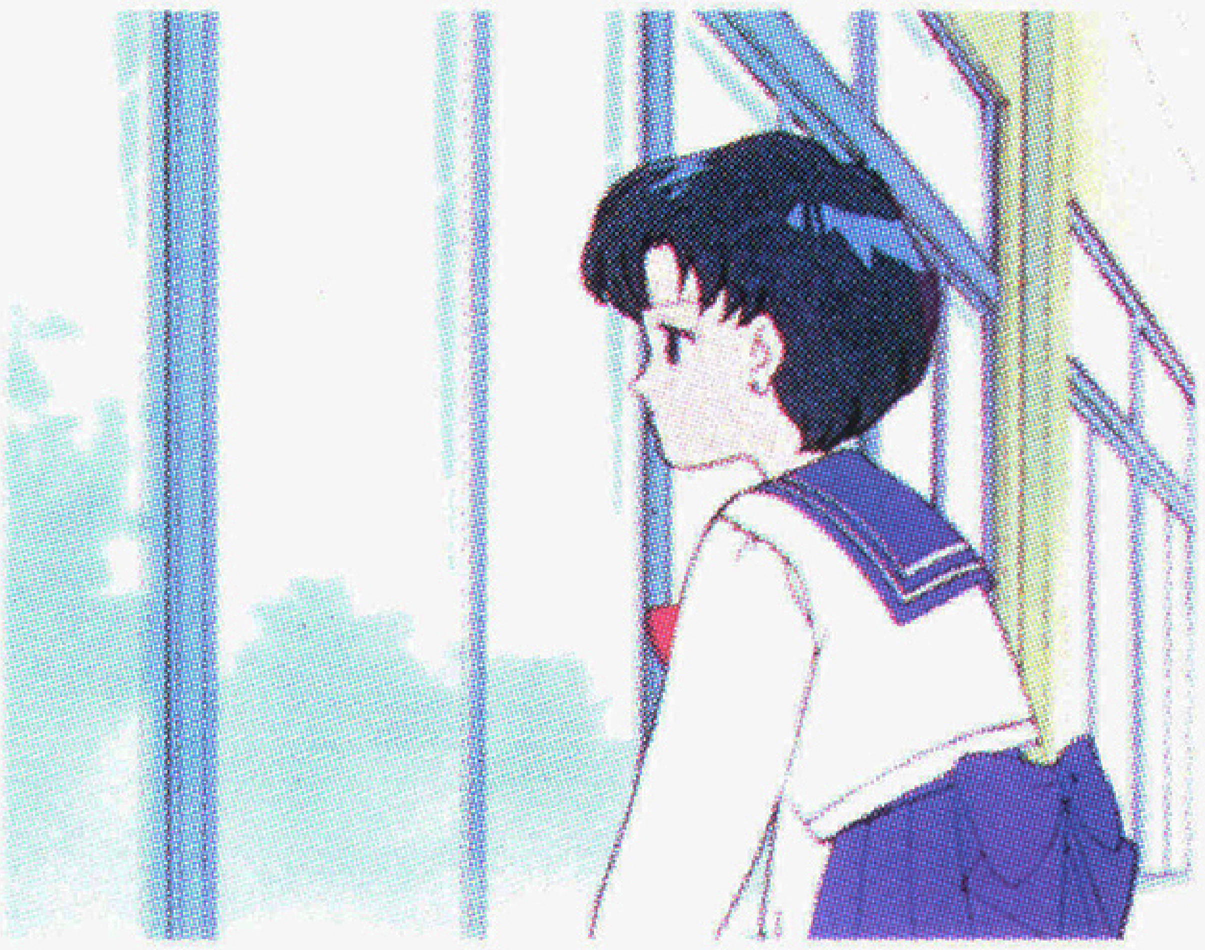
Amy is famous at Crossroads Middle School for her 300 IQ.



Luna's computer shows Amy Anderson as someone to keep an eye on.



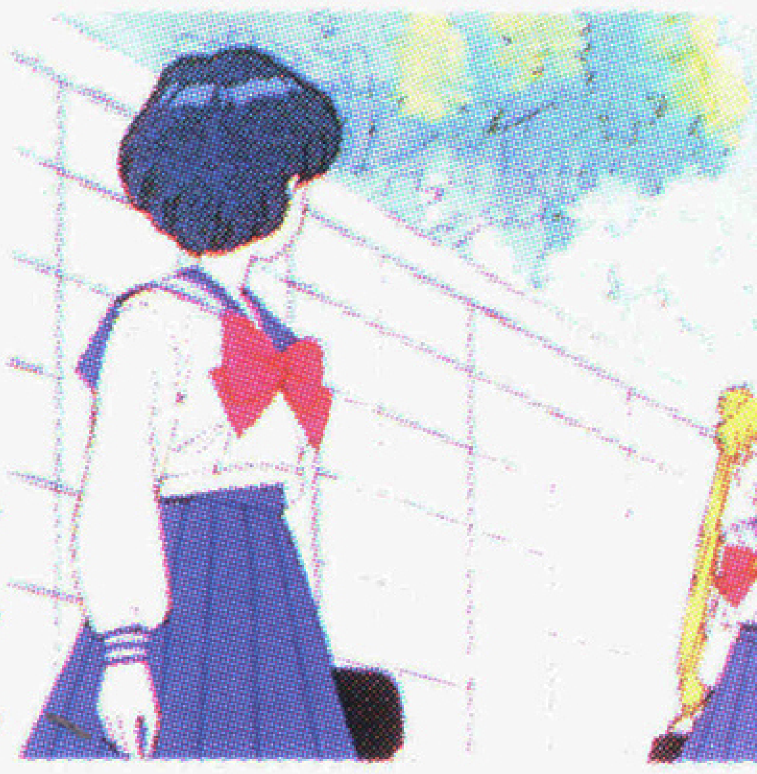
Amy glares at Serena for spreading gossip abut her.



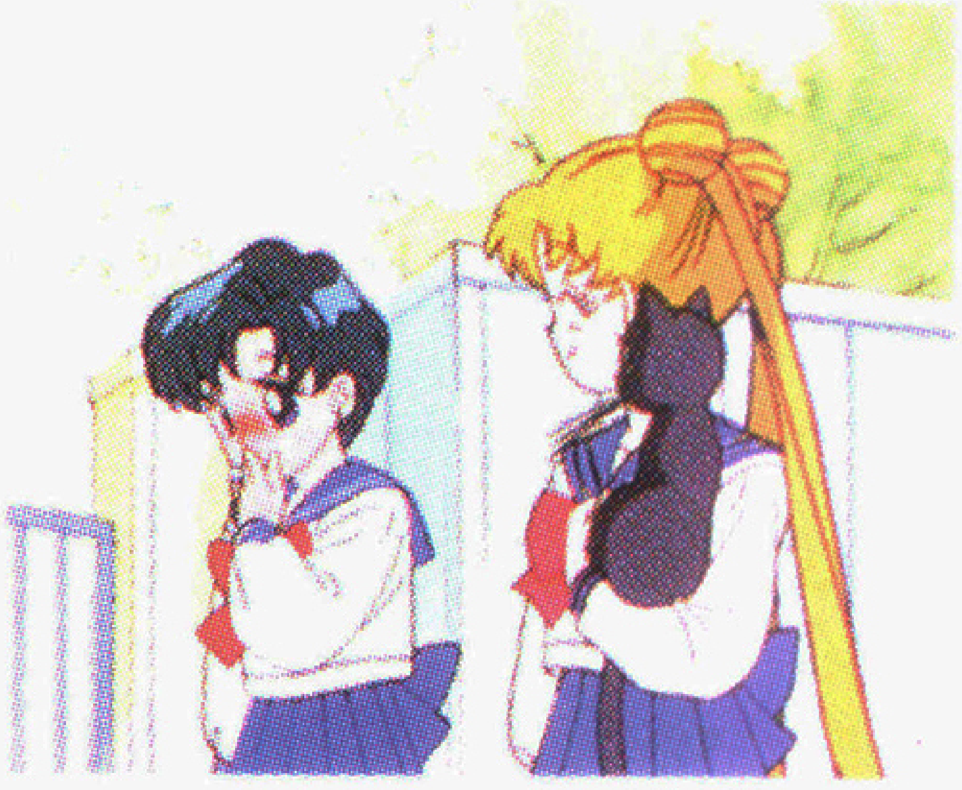
Amy was lonely and didn't have any friends to talk to, even during summer vacation.

***Little Amy, the girl genius, transforms into Sailor Mercury for the first time!***

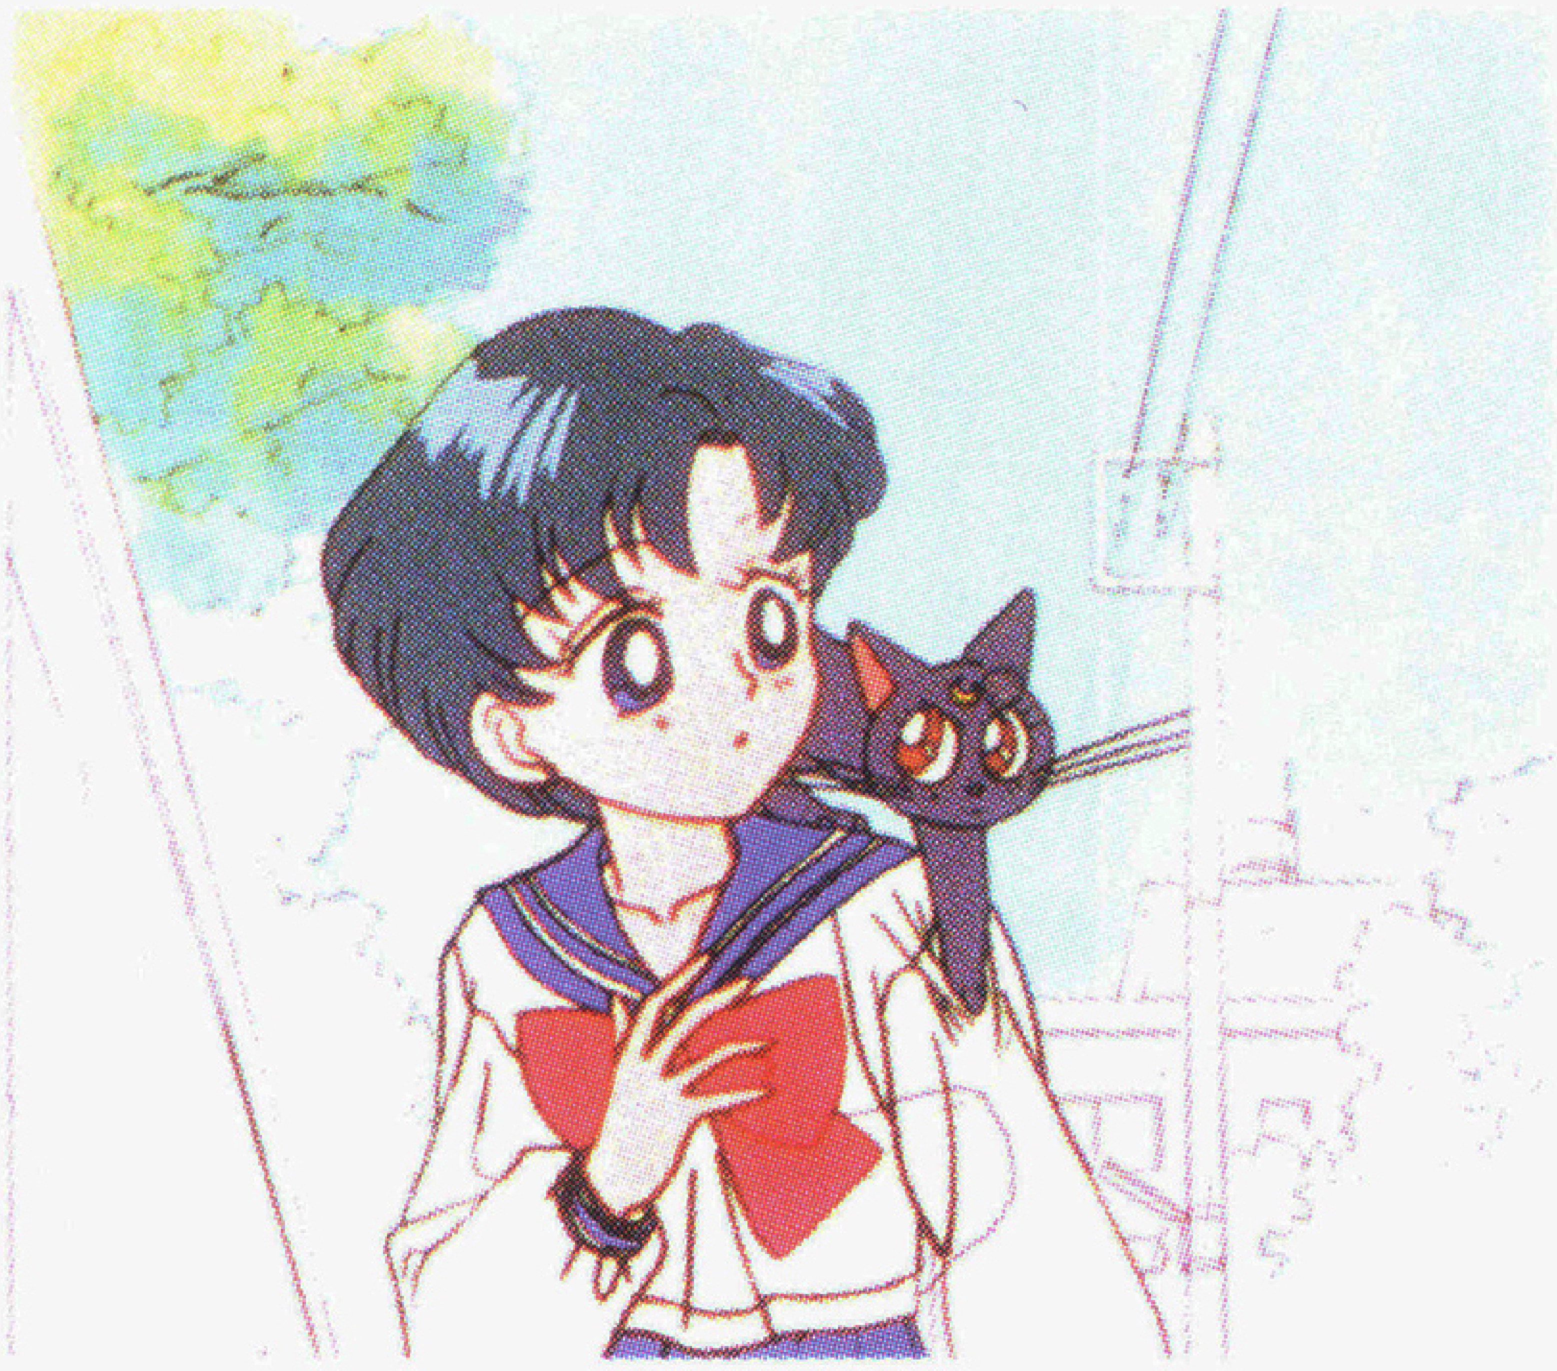
Luna made a special mark by Amy Anderson because of the mysterious energy that surrounds her. Amy grew up alone, resented by others for her good grades. She got to know Serena because of Luna. Soon after they met, Serena found out that a computer disk that Amy had dropped contained a fearsome brainwashing program! Serena followed Amy to her suspicious cram school where she discovered the vicious monster Garoban was feeding on students' energy! When the going got tough, Amy used the transformation pen Luna gave her to transform into the second member of the Sailor Team: Sailor Mercury! Together with Sailor Moon, she defeated the monster.



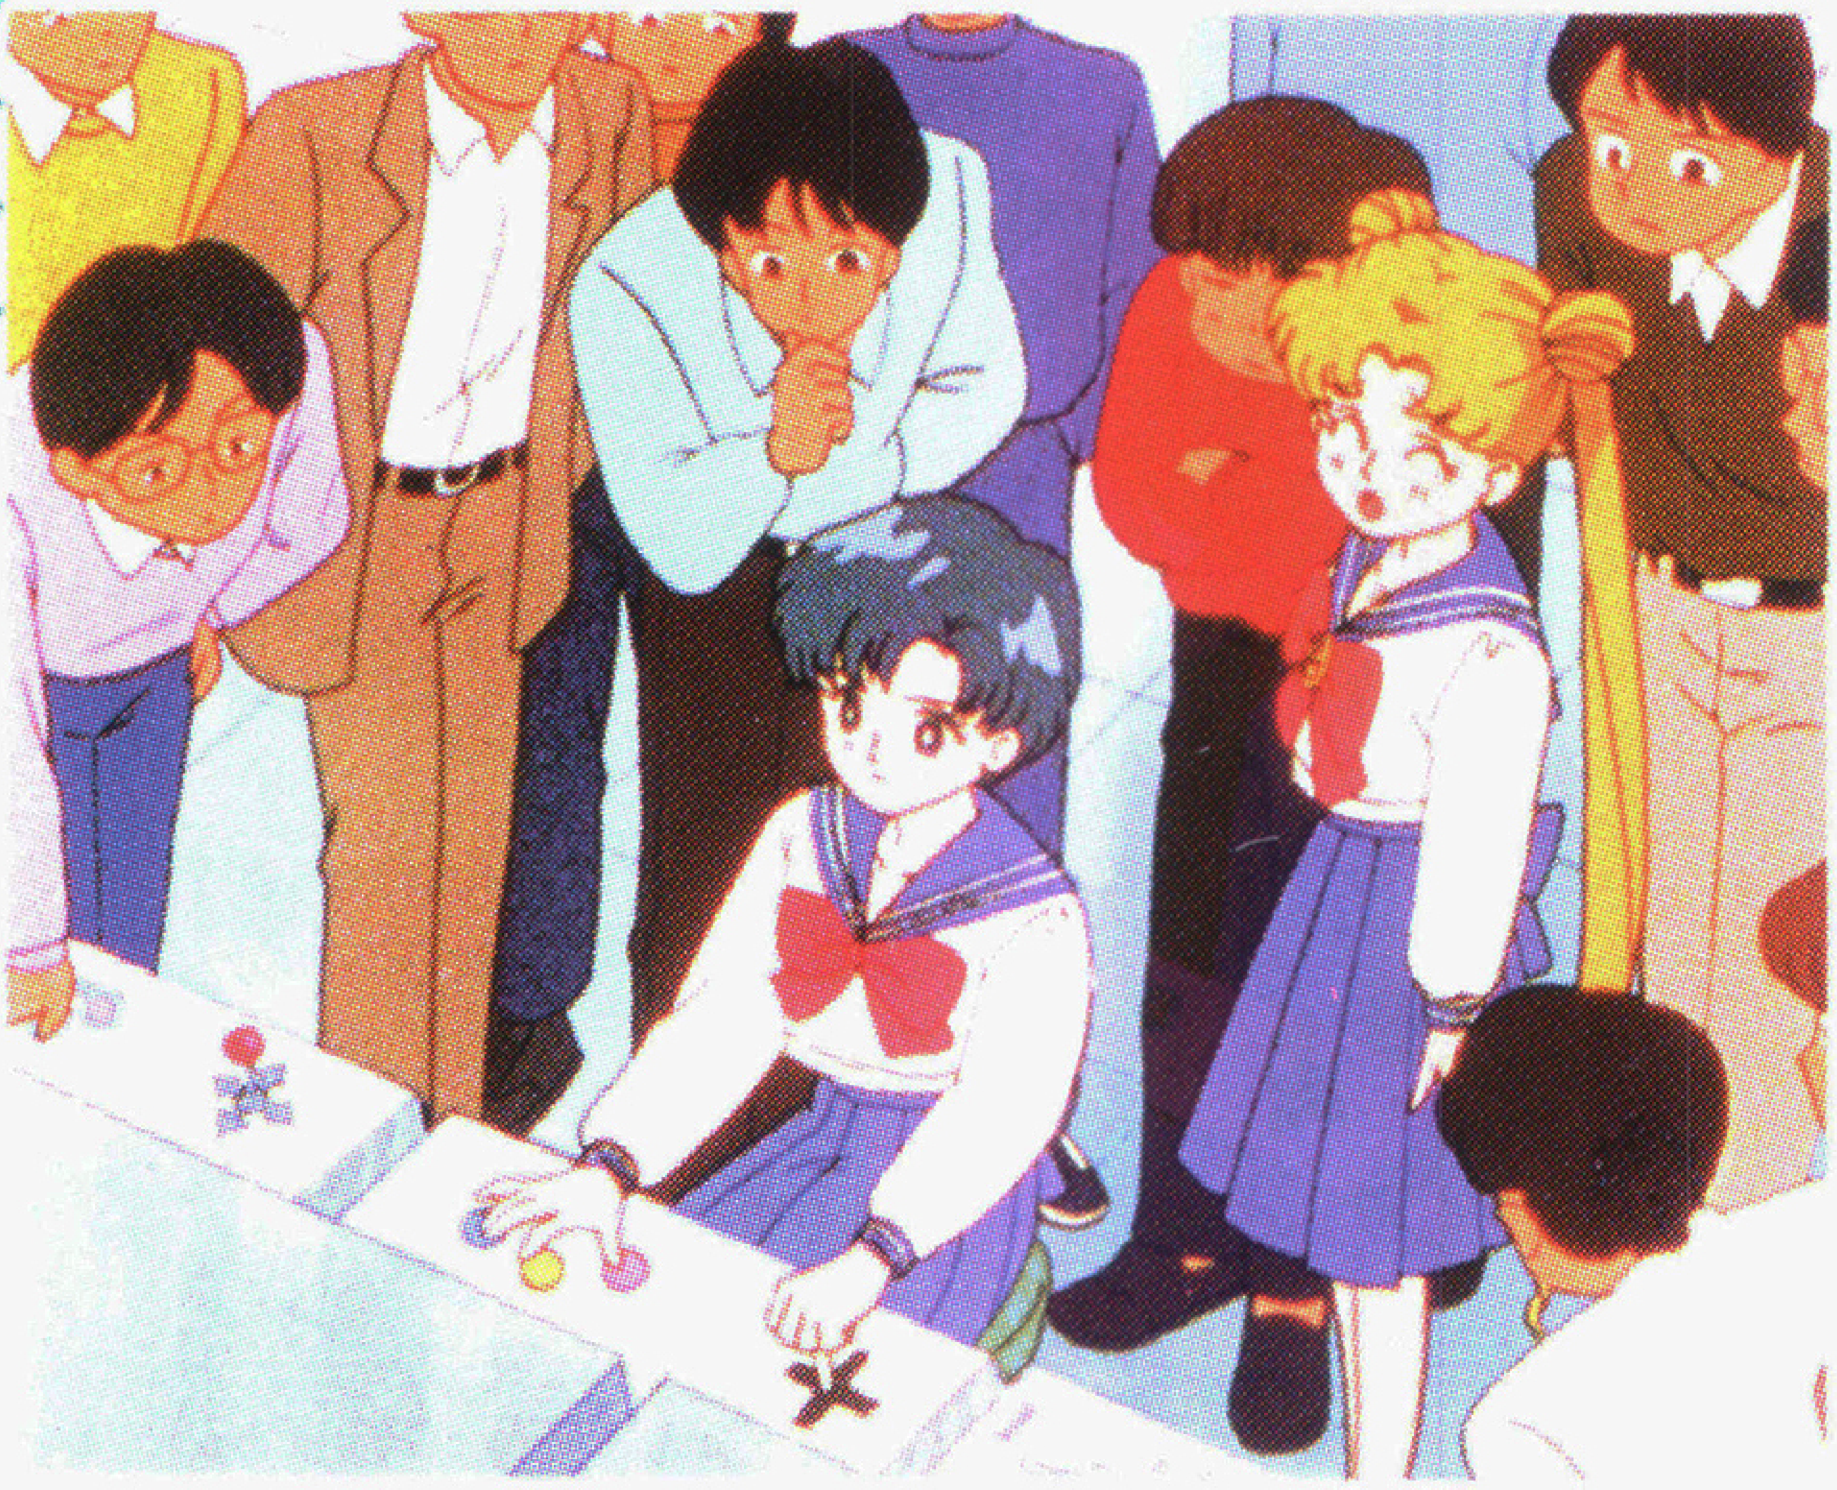
Serena takes the plunge: she introduces herself to to Amy.



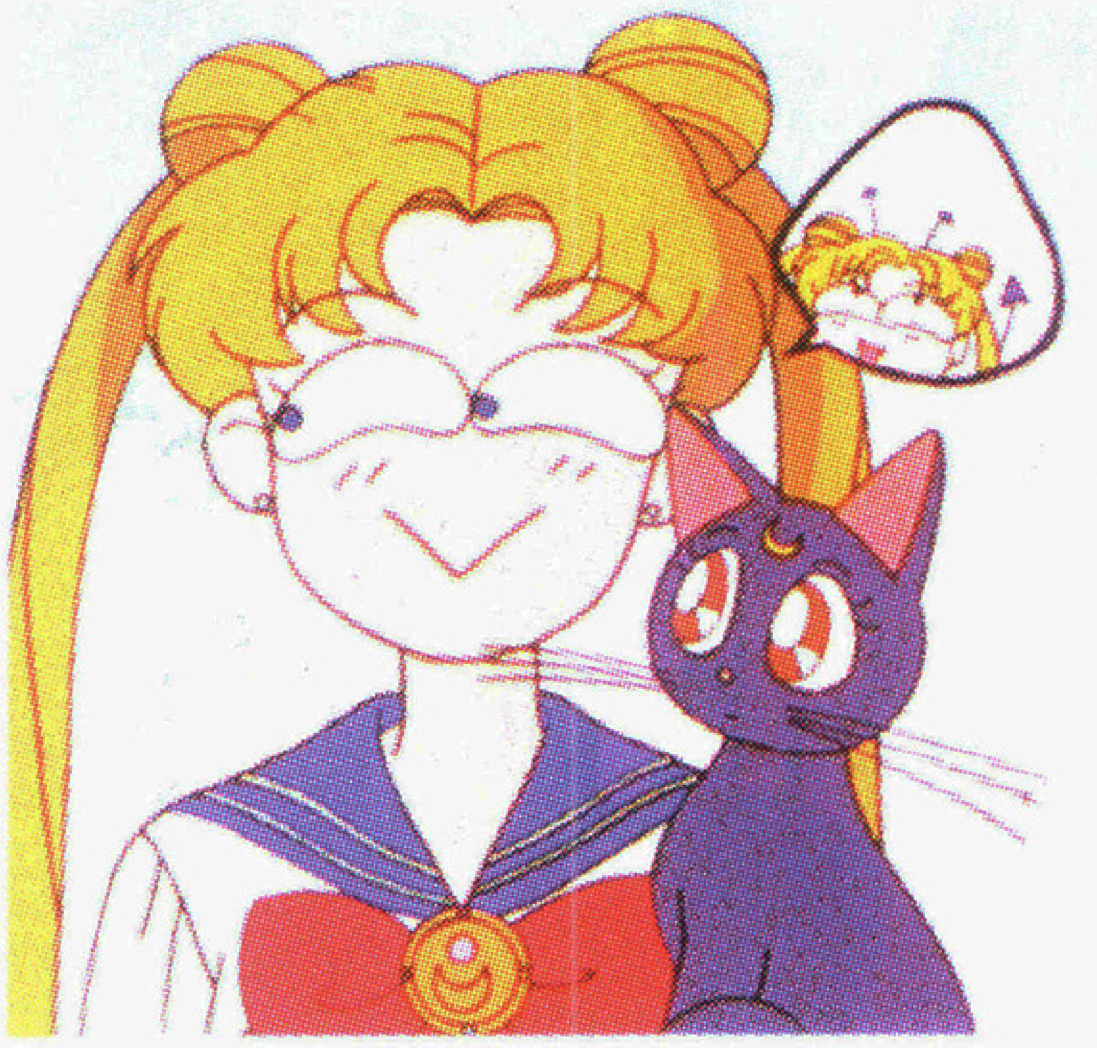
Soon, Serena and Amy talk together like old friends.



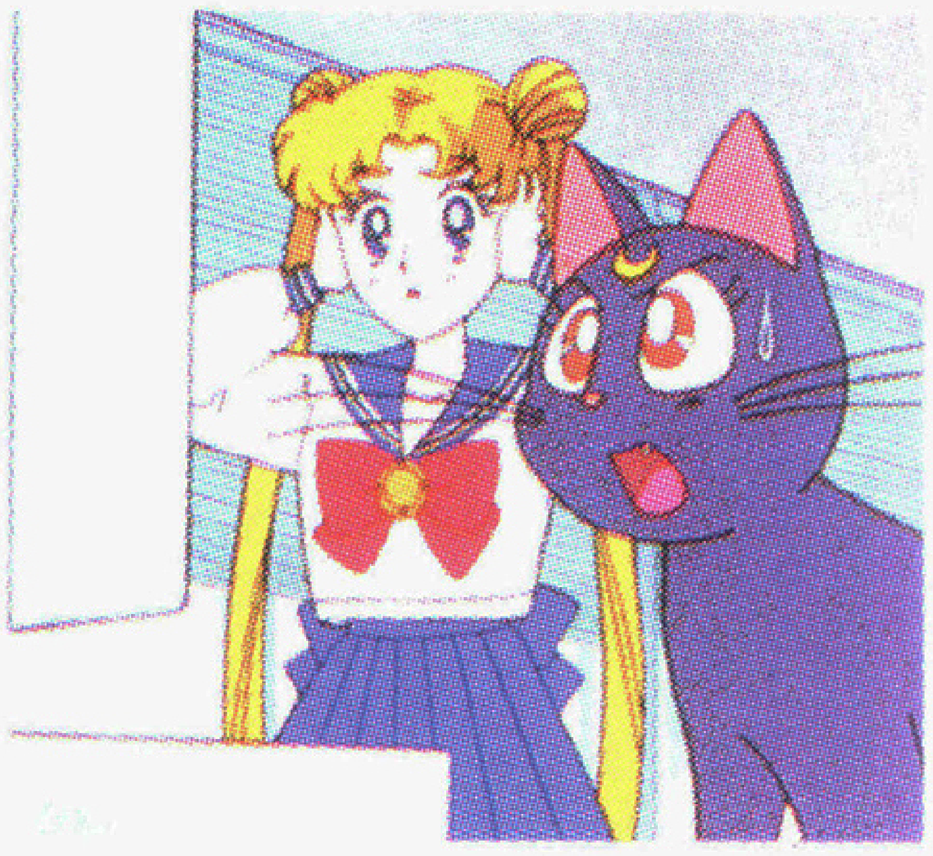
Luna gets to know Amy after she detects a mysterious energy around her.



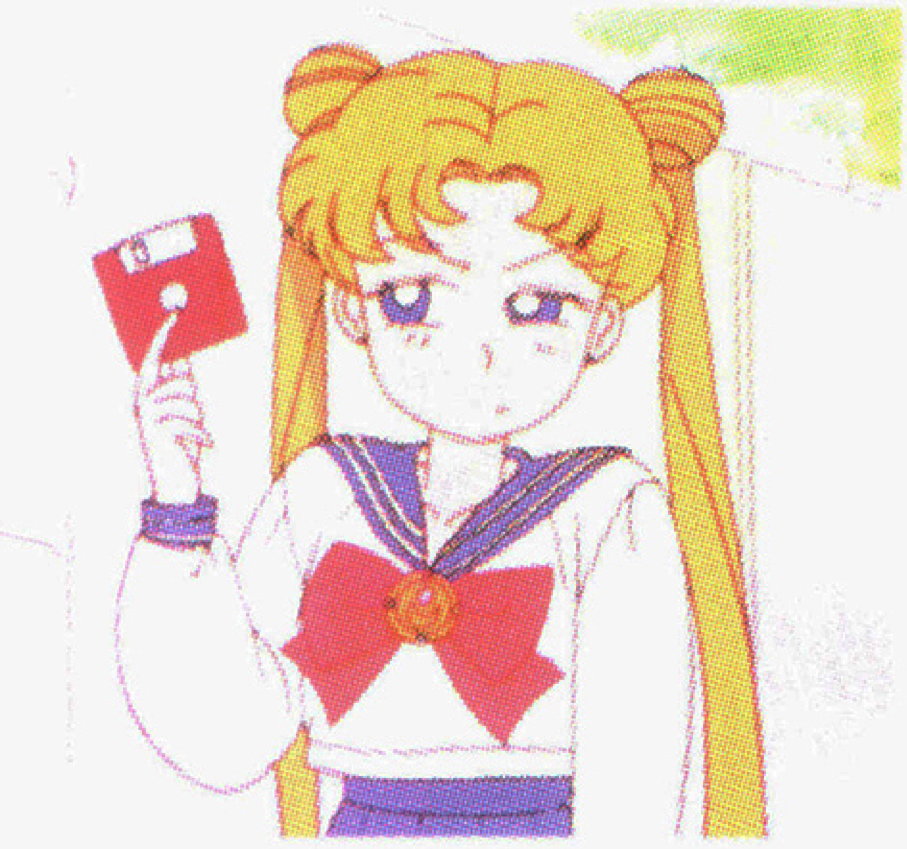
Serena takes Amy to the arcade where she is shocked to discover that her new friend is a natural at video games.



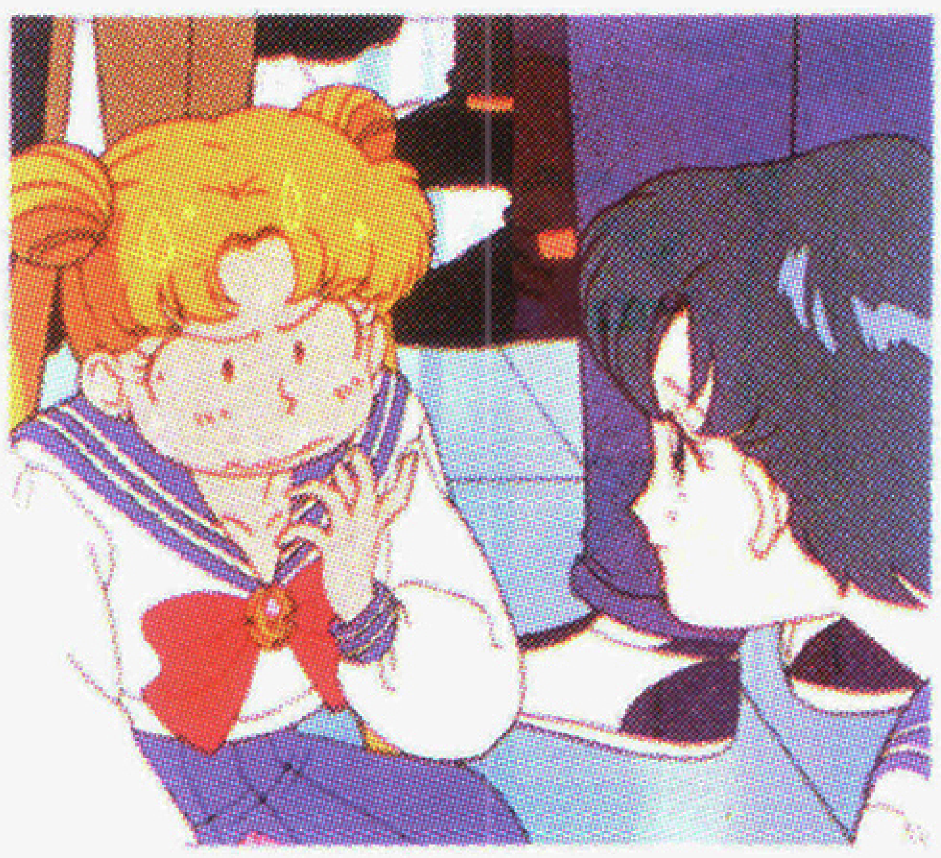
But Serena has an ulterior motive: she wants Amy to help with her homework!



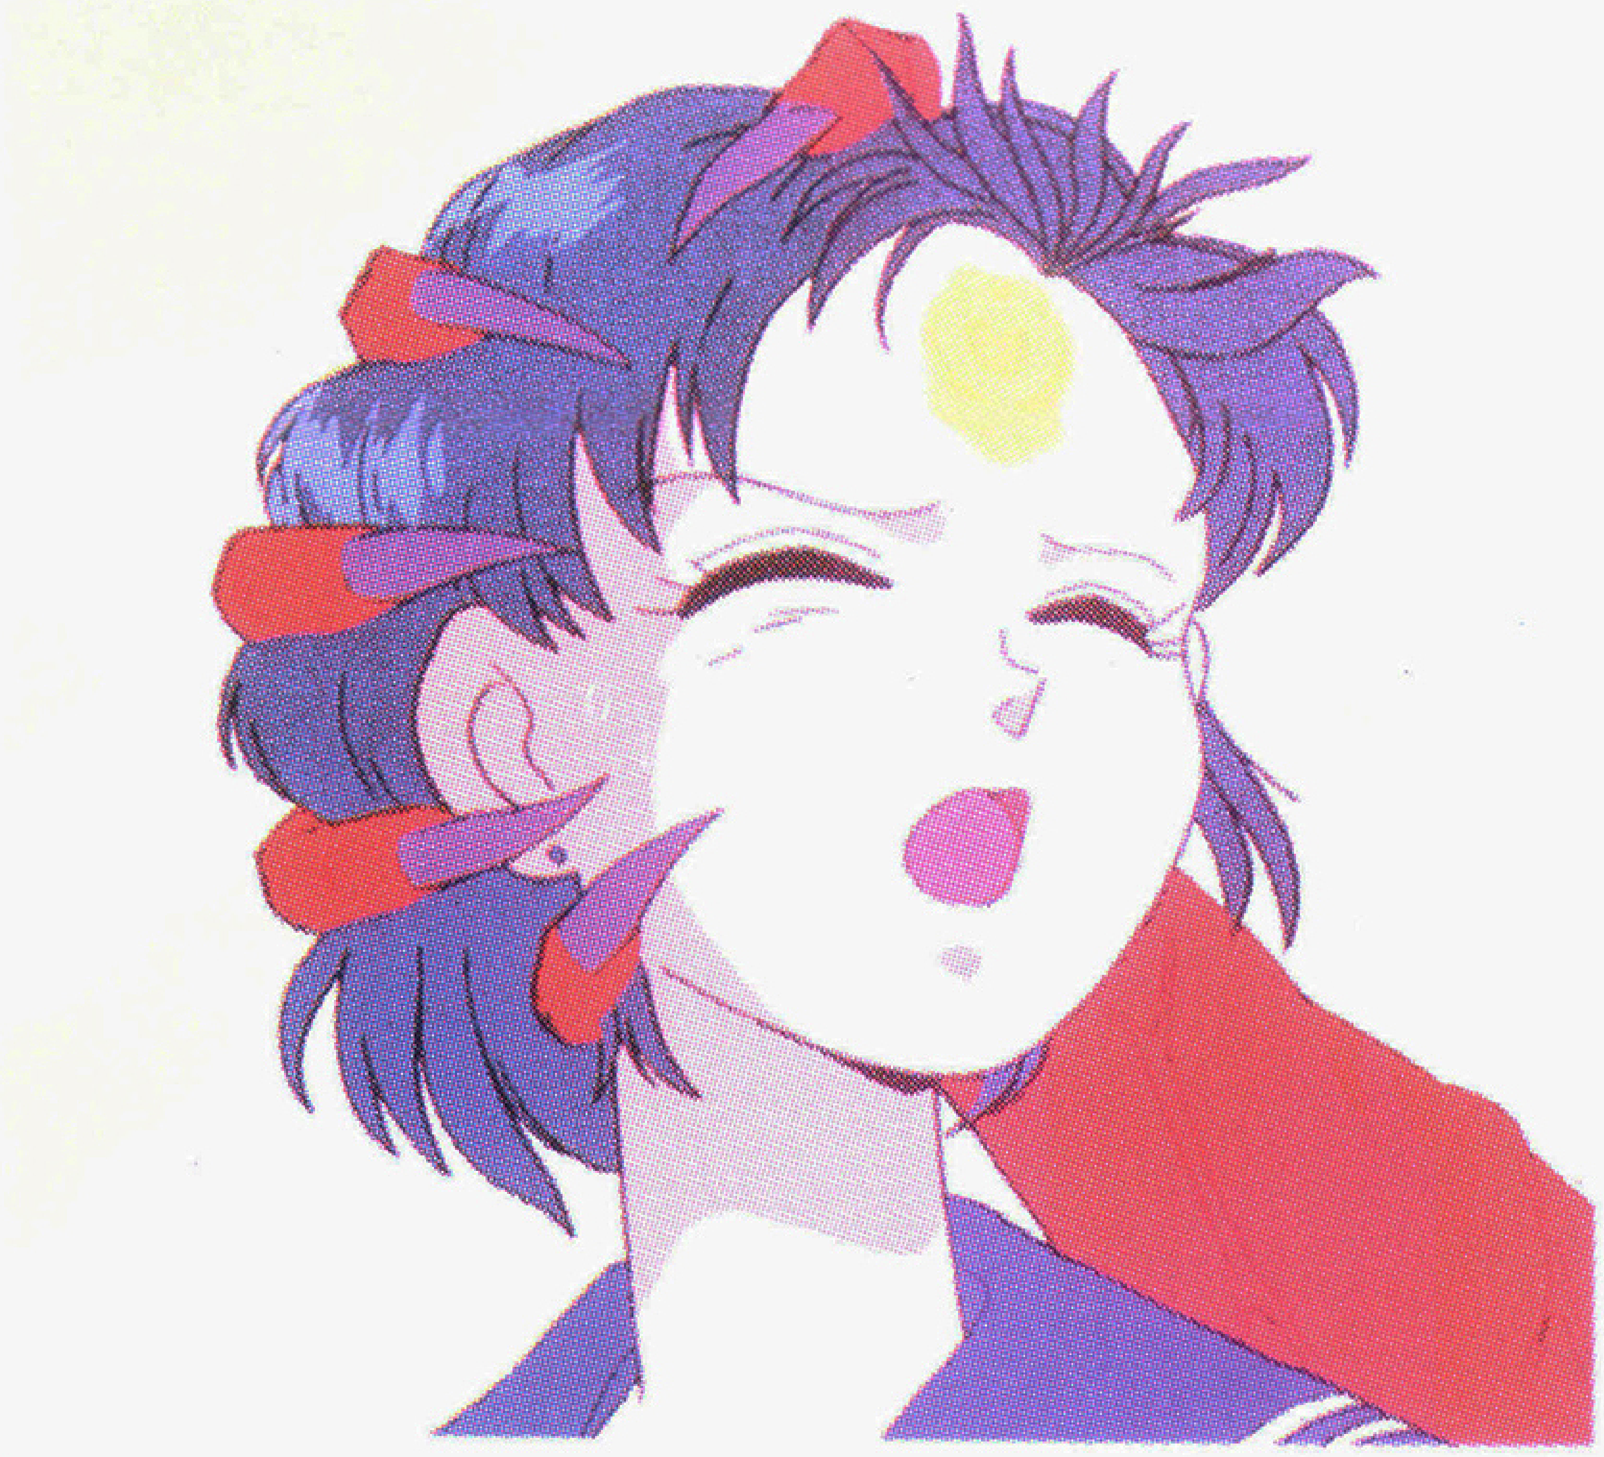
On Amy's disk is a brainwashing program from the Negaverse!



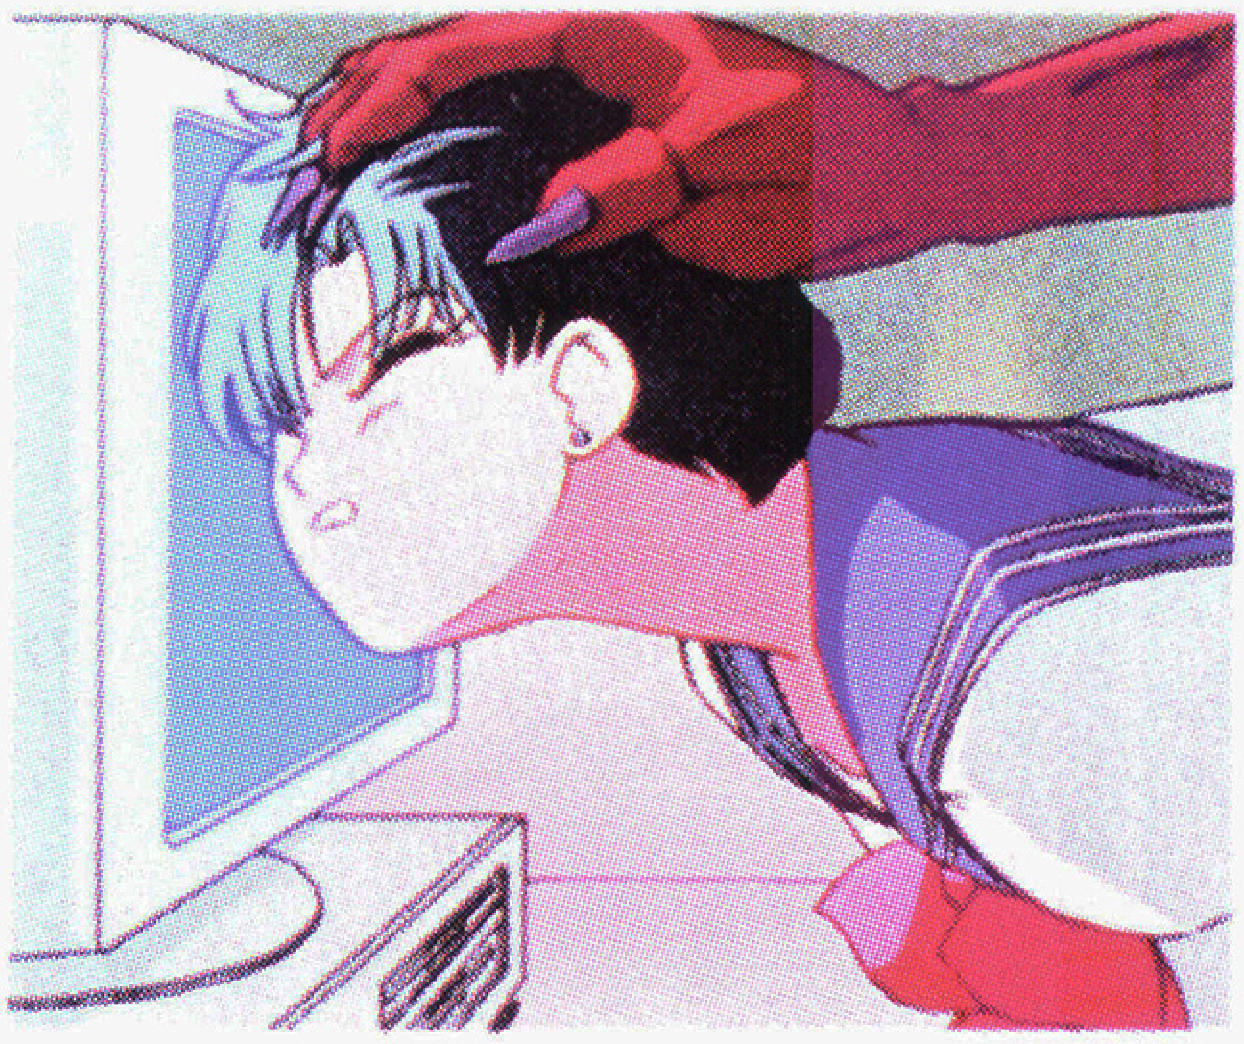
Amy had left her floppy disk behind.



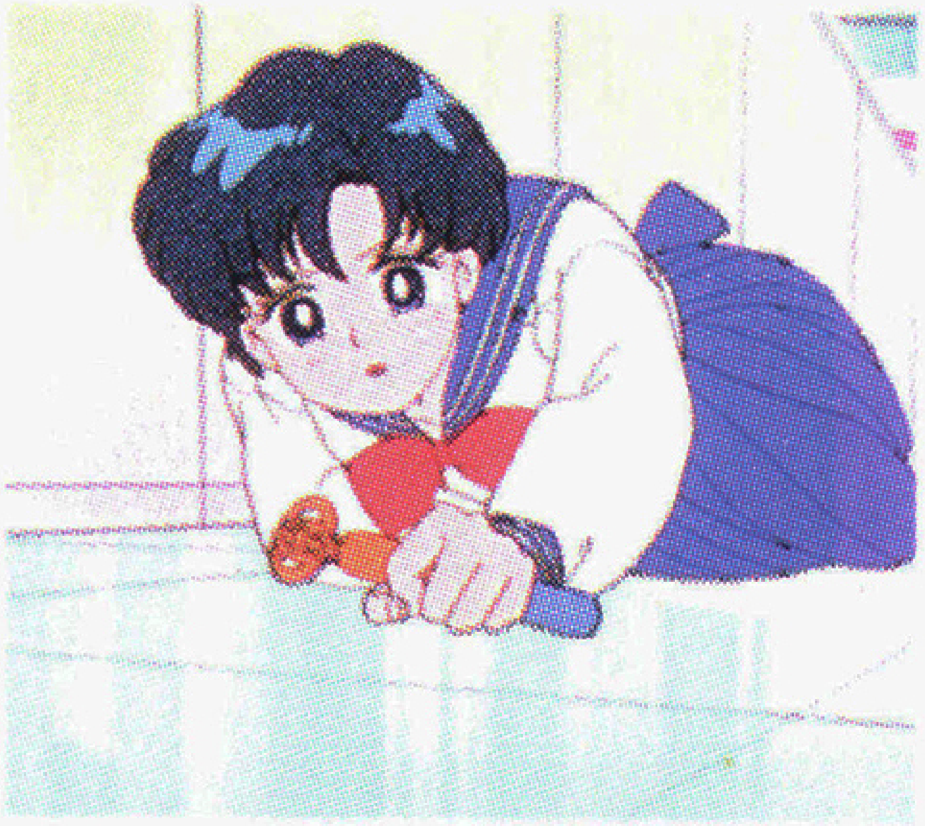
Serena is shocked to find out that Amy goes to a cram school every day!



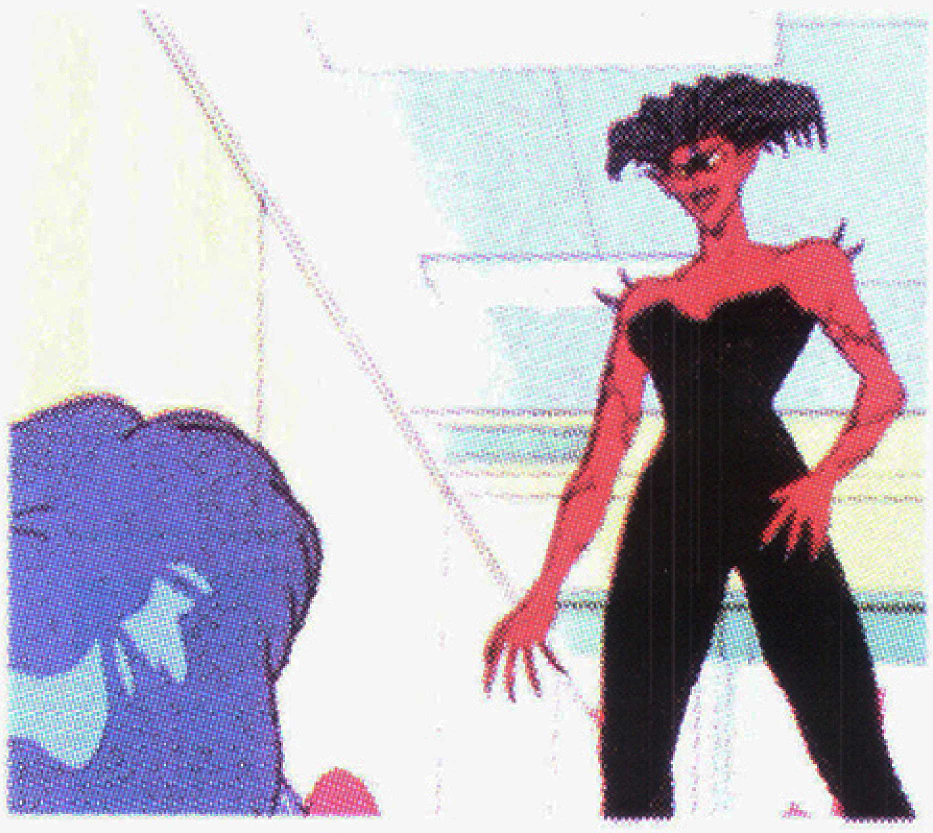
During the crisis, a mysterious symbol appears on Amy's forehead! What could it mean?



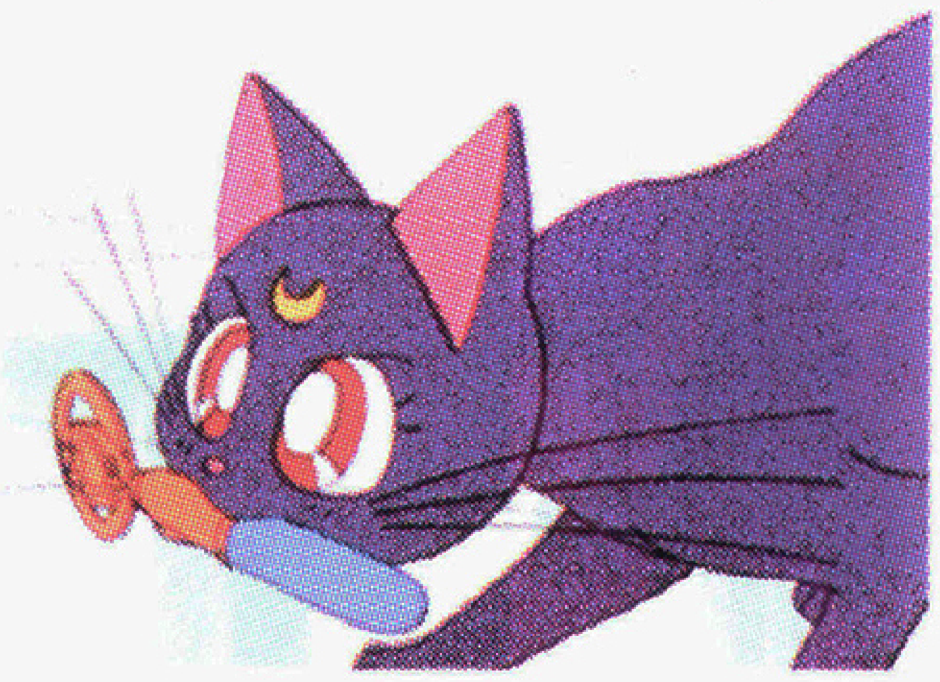
Amy comes close to having her energy stolen, but something prevents the energy from being absorbed.



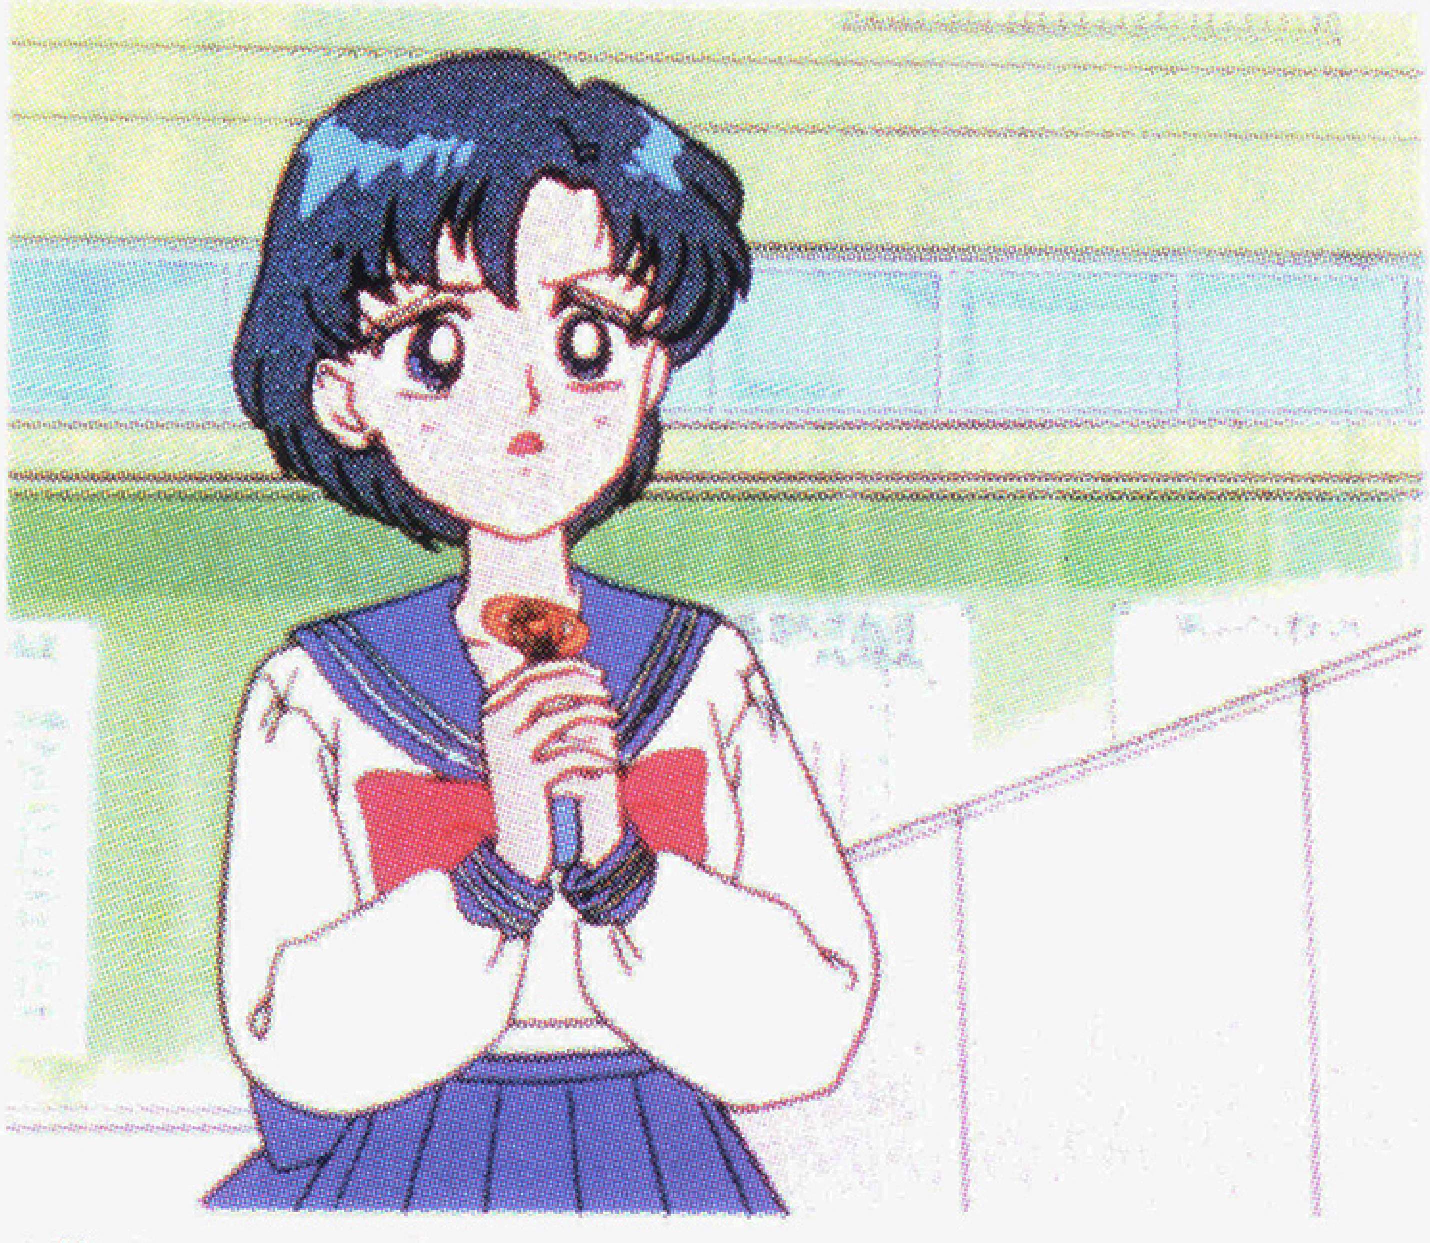
Amy has the transformation pen, but the danger's not over yet!



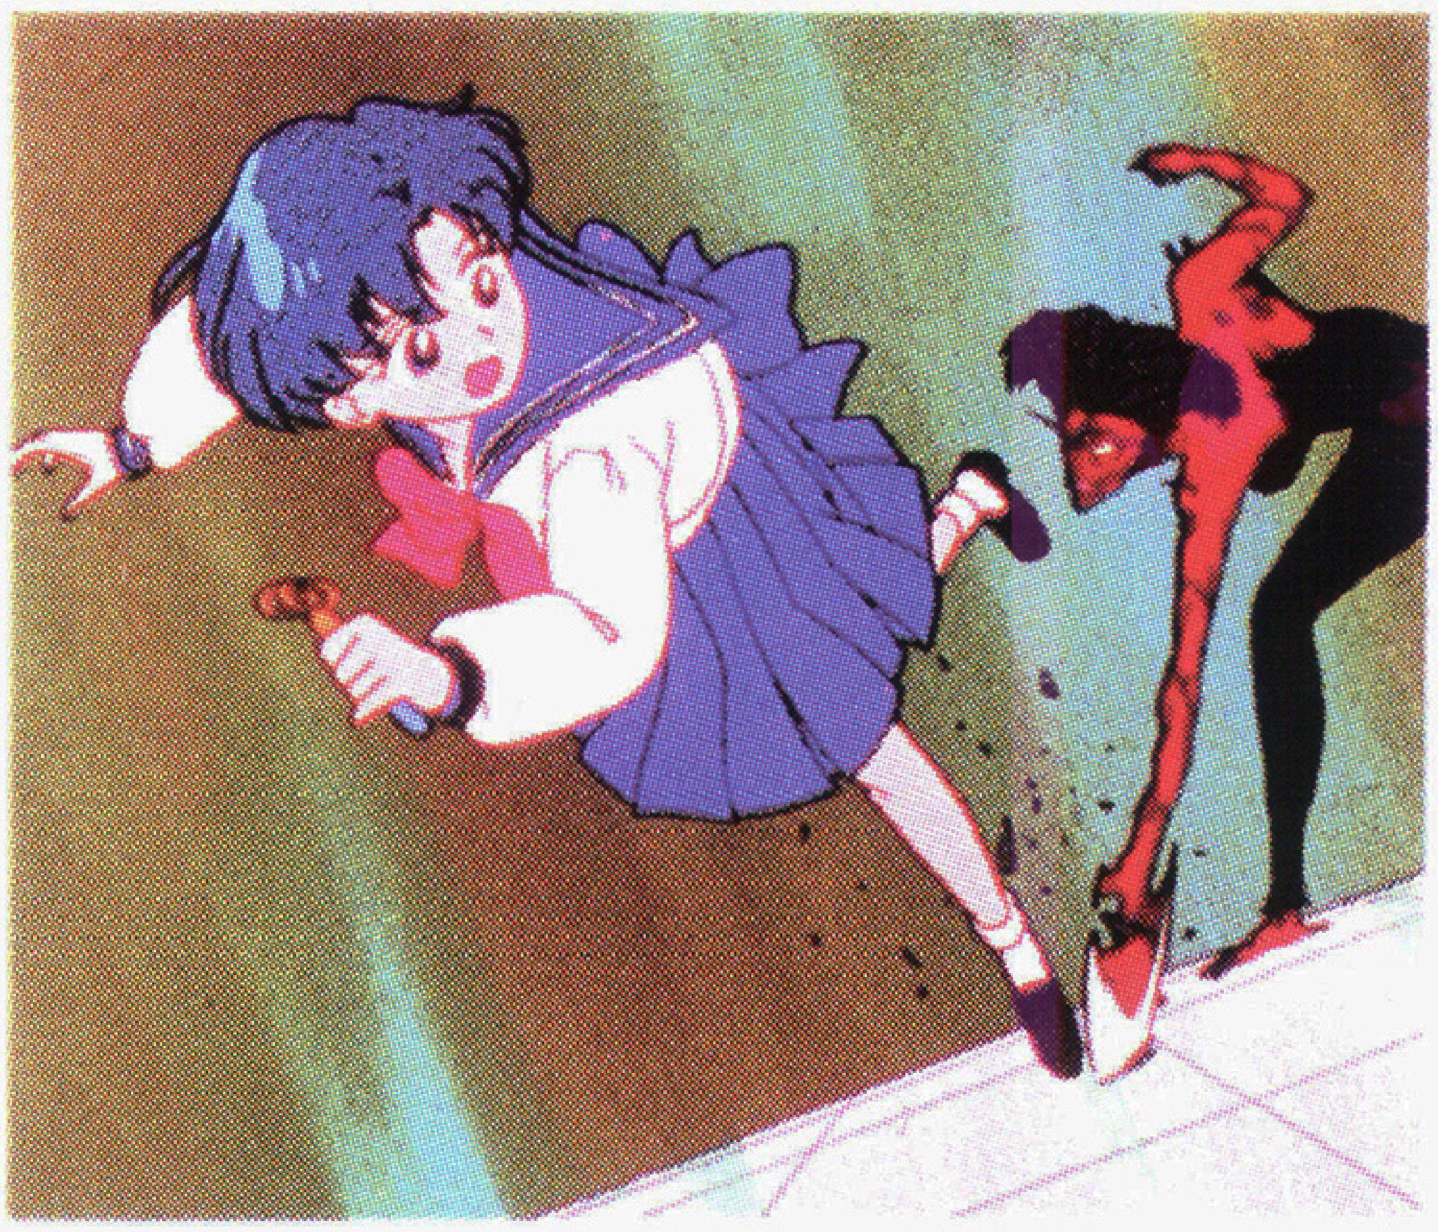
The monster, Garoban, changes his target: he's no longer after her energy, he's after her head!



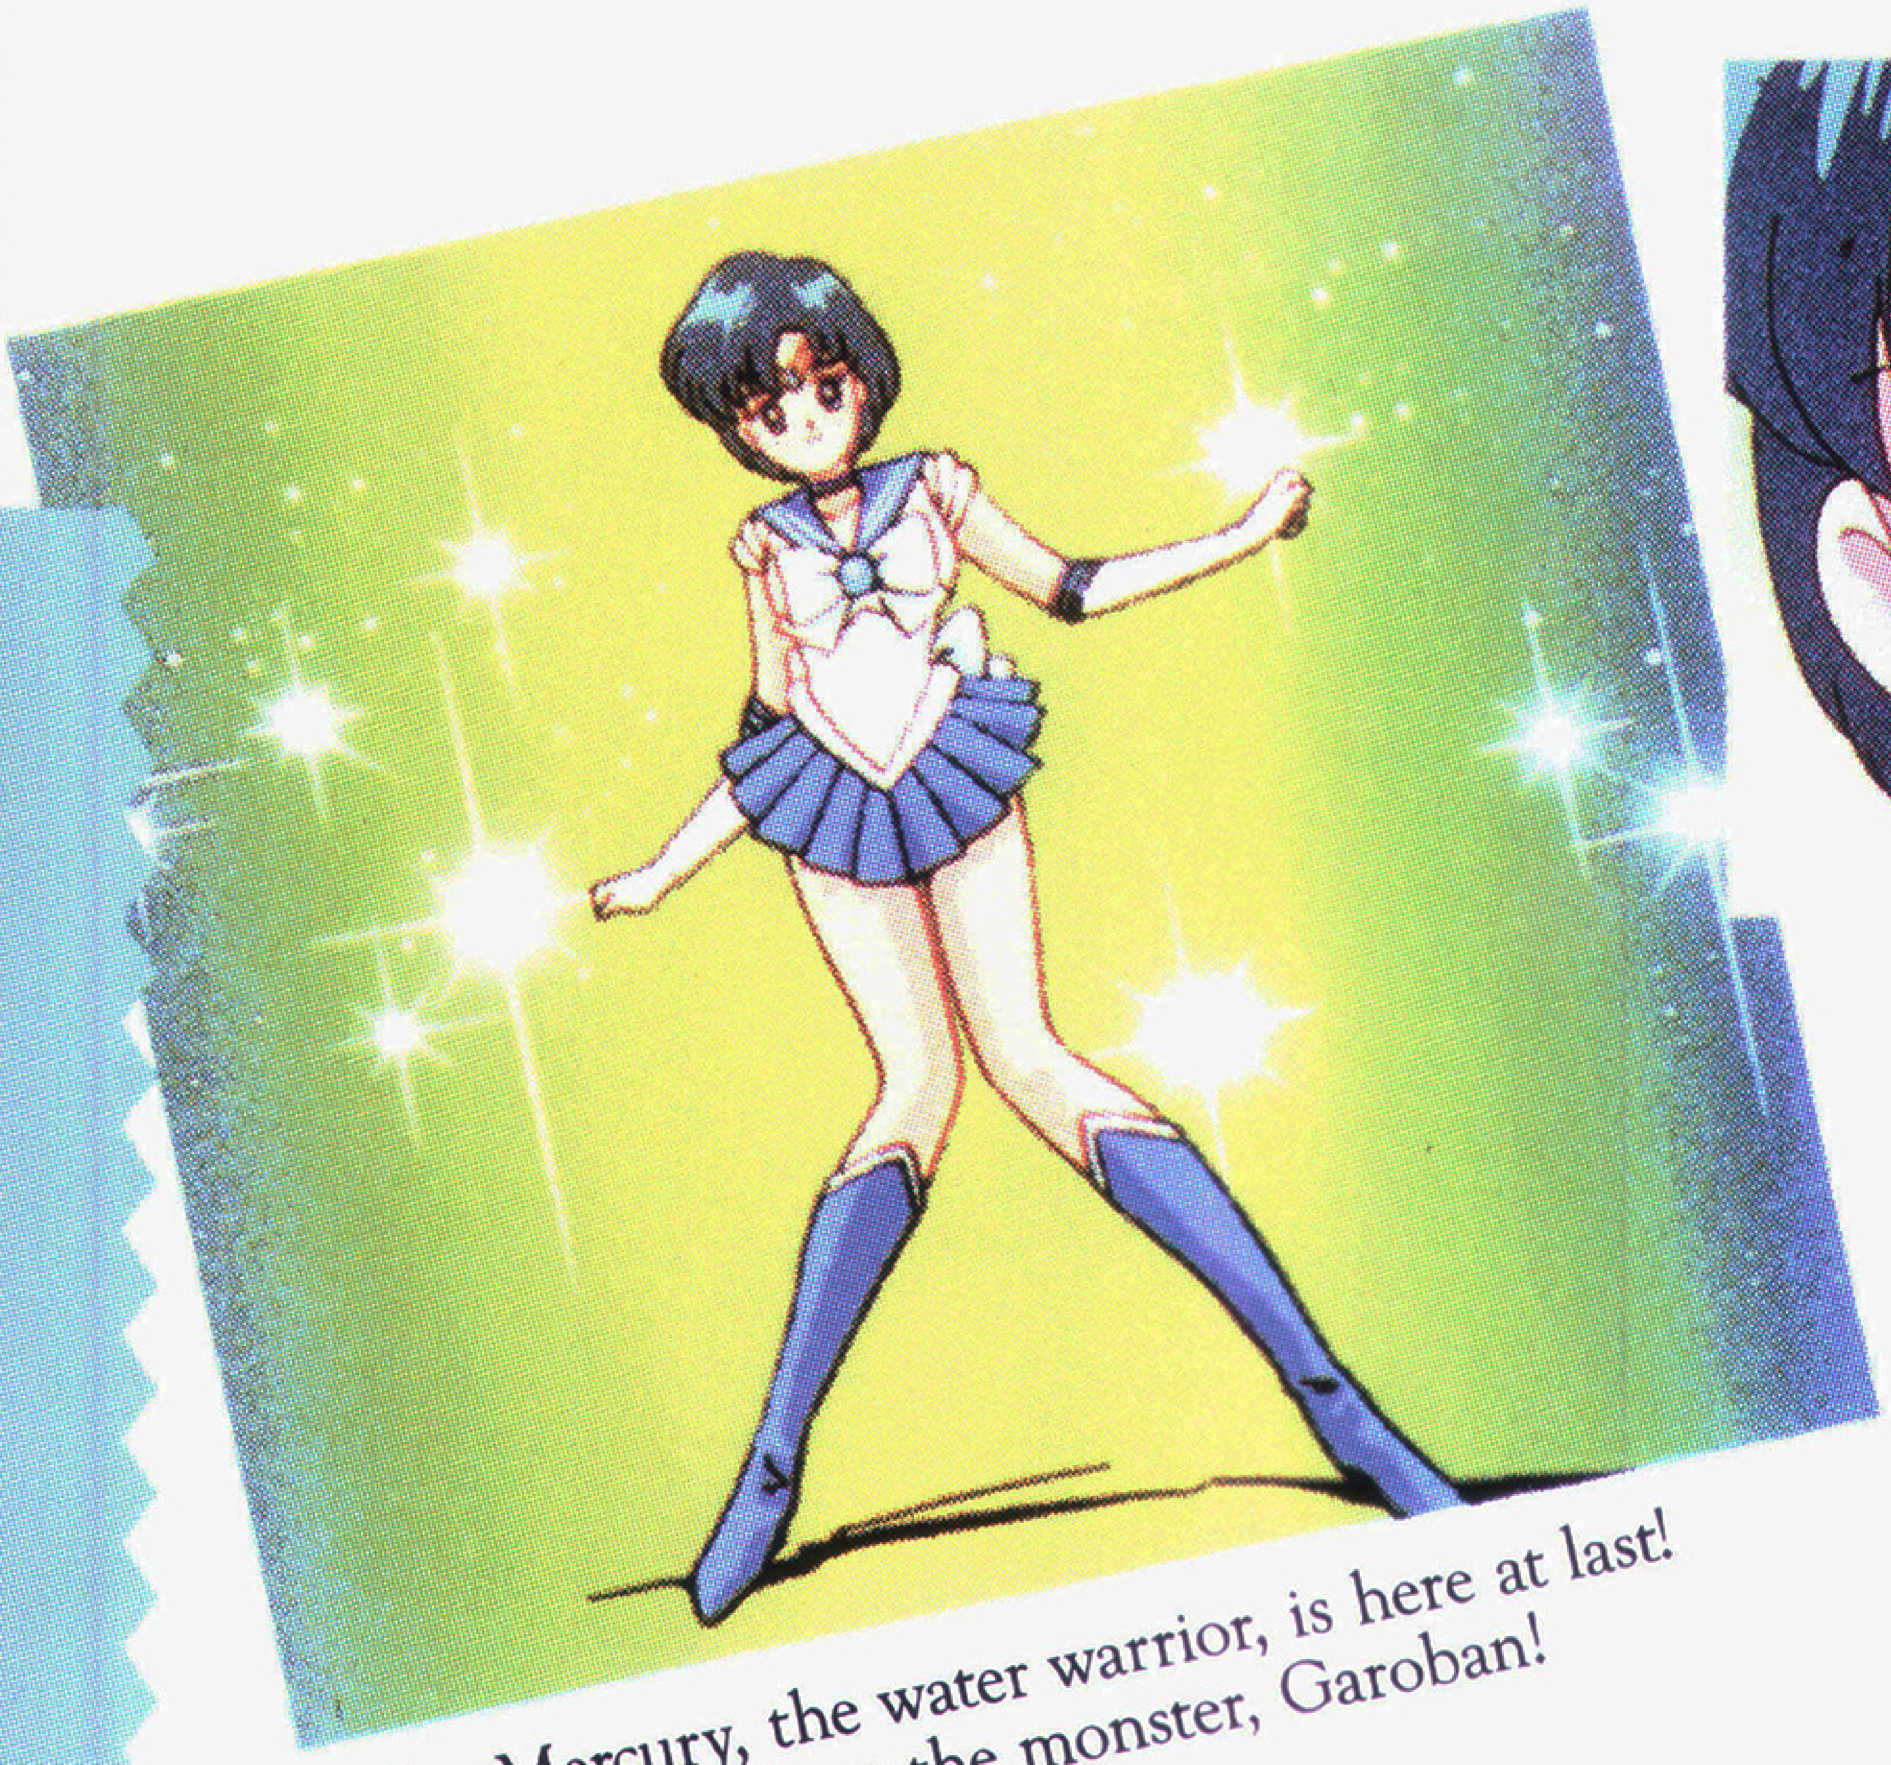
As soon as she sees Amy's symbol, Luna realizes that Amy is the second Sailor Scout.



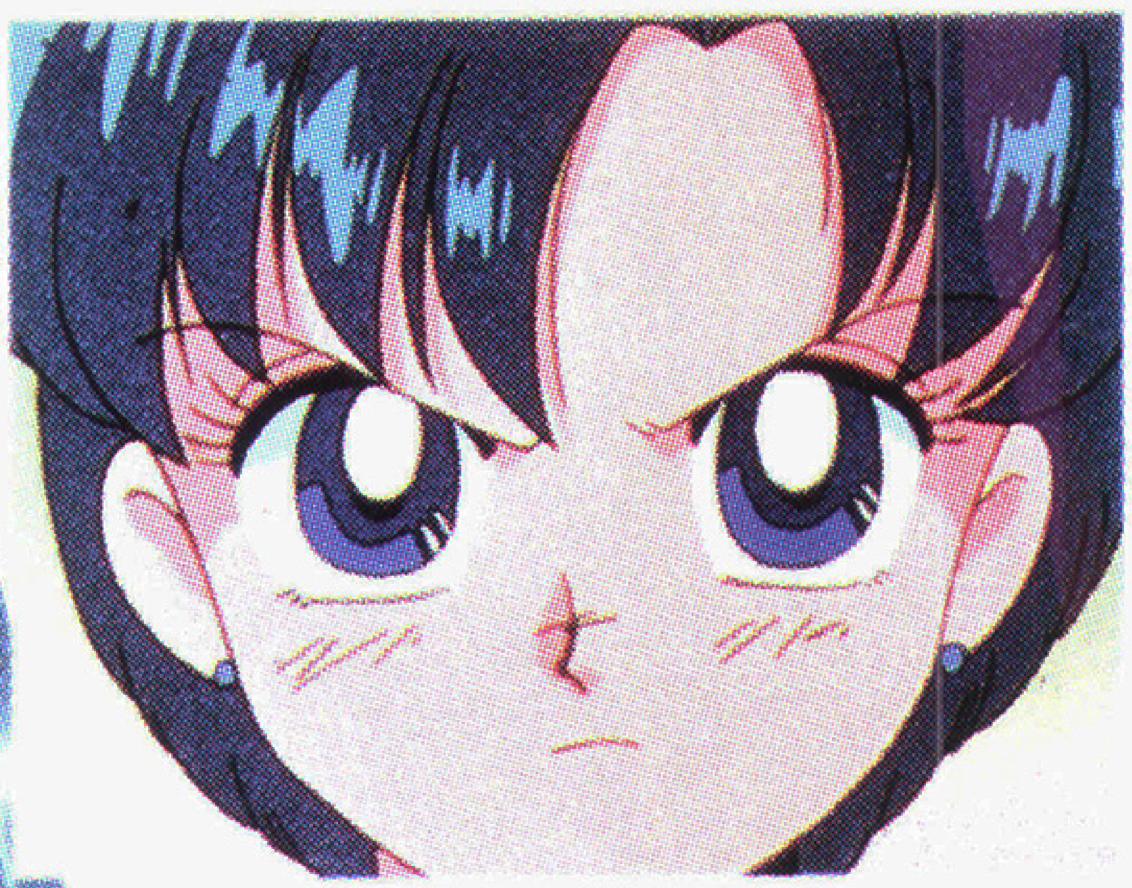
All Amy can do is run away. Luna reveals to her that she can transform into a Sailor Scout; she can become Sailor Mercury!



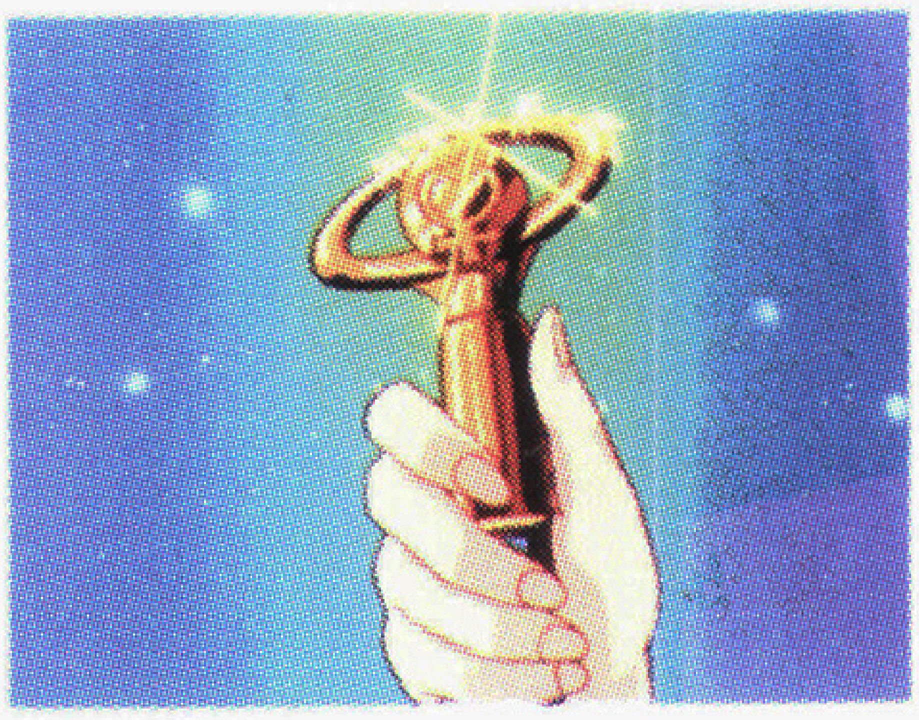
Garoban turns his arm into a sharp blade and swings it at Amy. She's really in trouble now!



Sailor Mercury, the water warrior, is here at last! Now, she must beat the monster, Garoban!

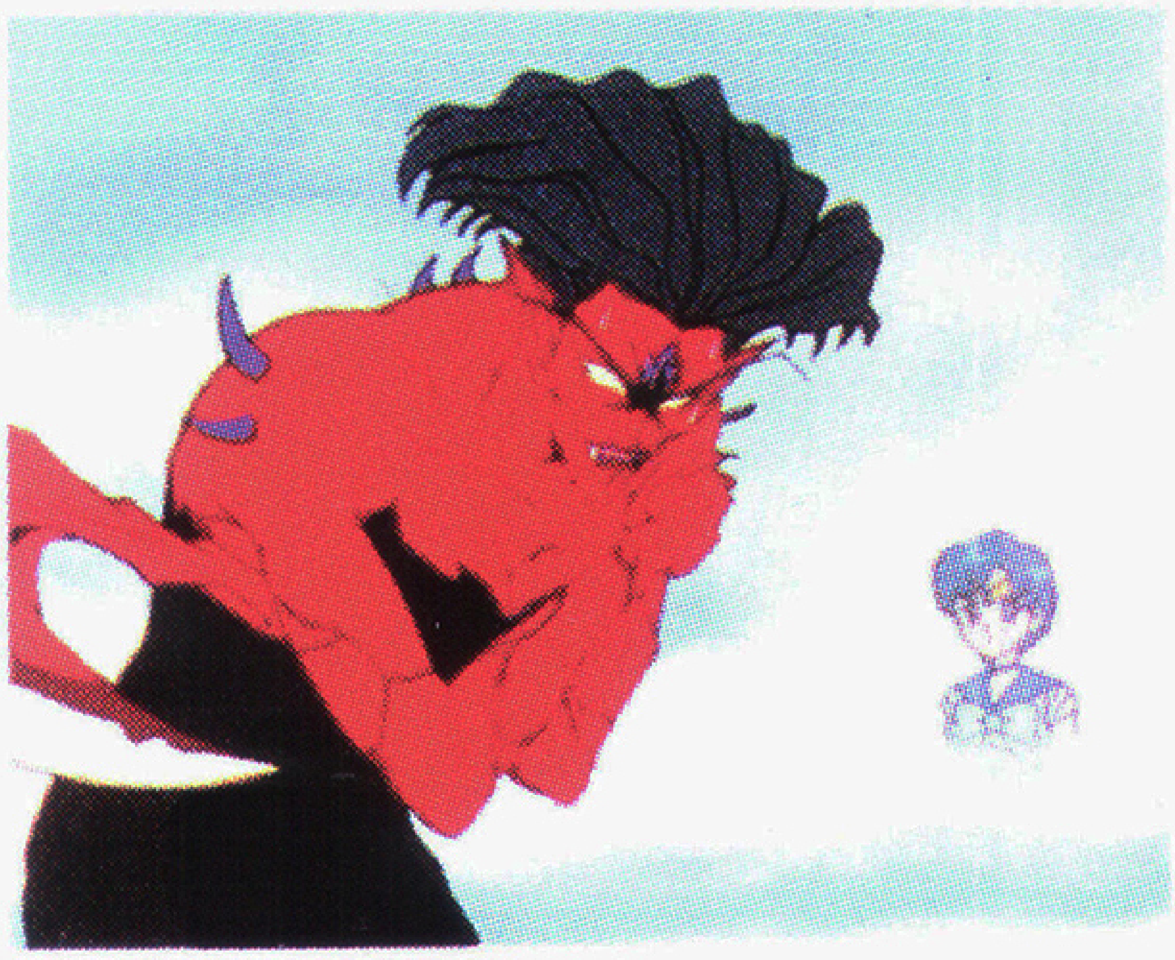


Amy decides to turn and fight the monster.

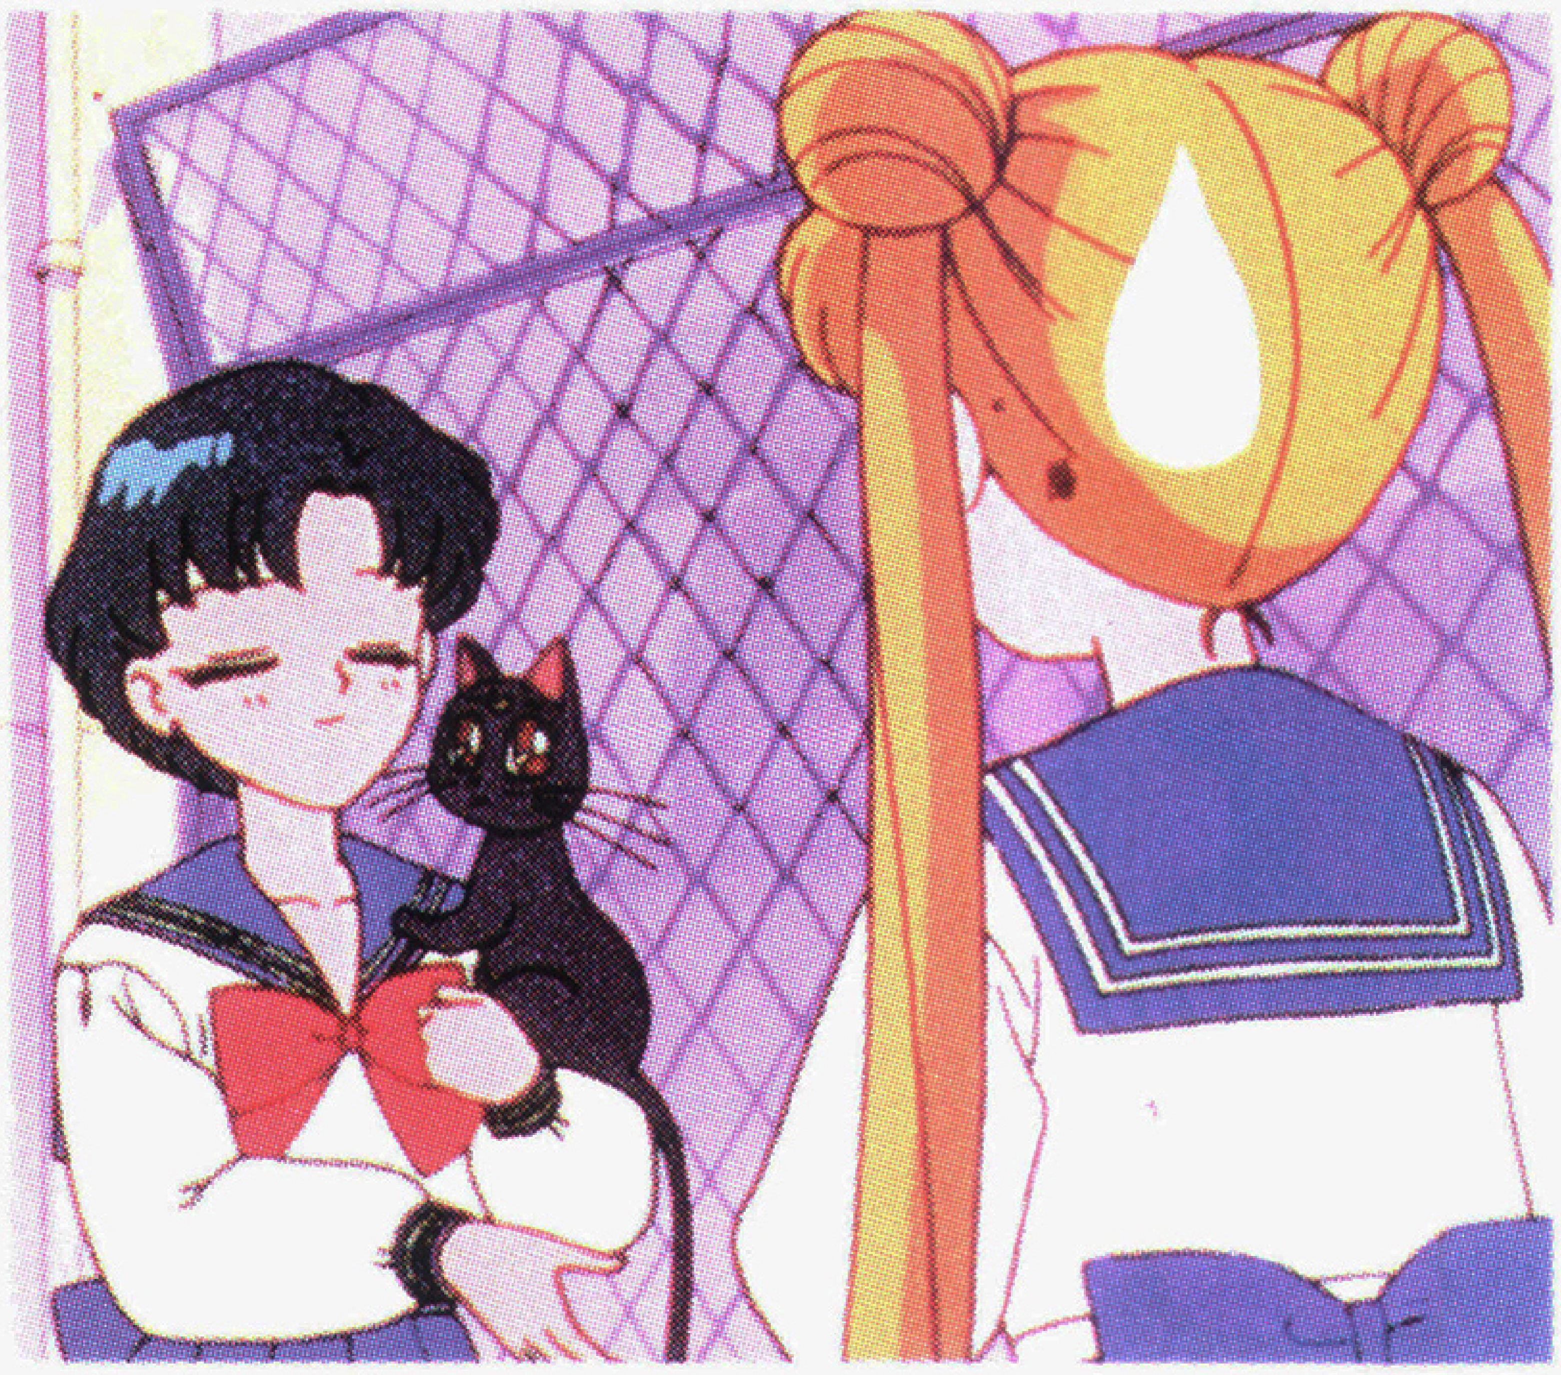


MERCURY POWER MAKE-UP!

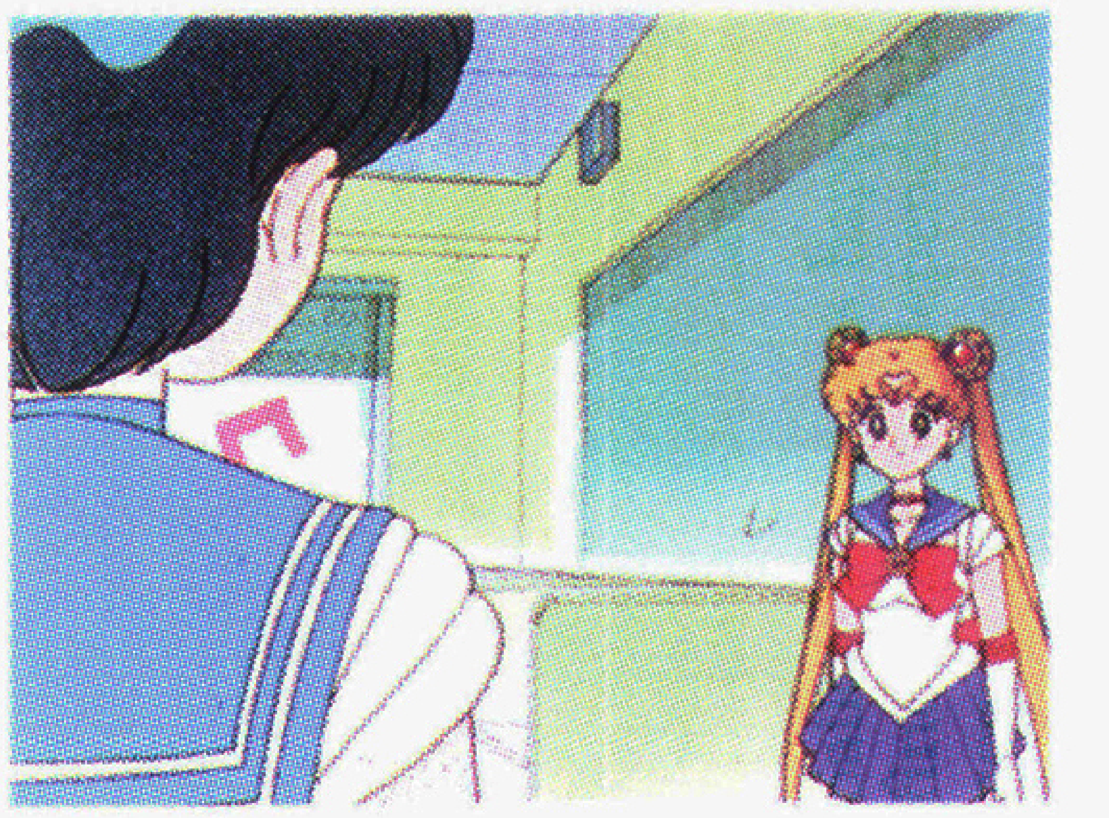
Garoban is defeated, but Sailor Mercury's battles have just begun.



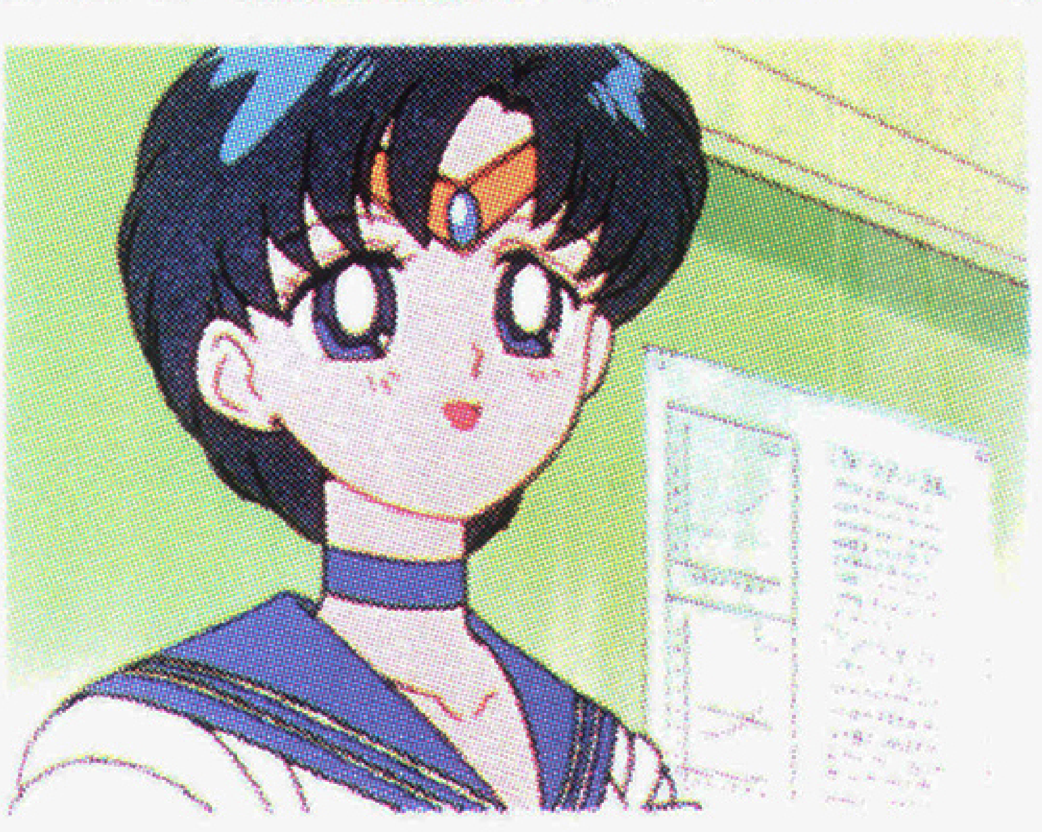
Sailor Mercury fires her Mercury Bubble Blast at Garoban.



Lazy Serena is going to have to get used to having someone as responsible as Amy for a friend!



Sailor Moon was happy to find such a dependable new friend.

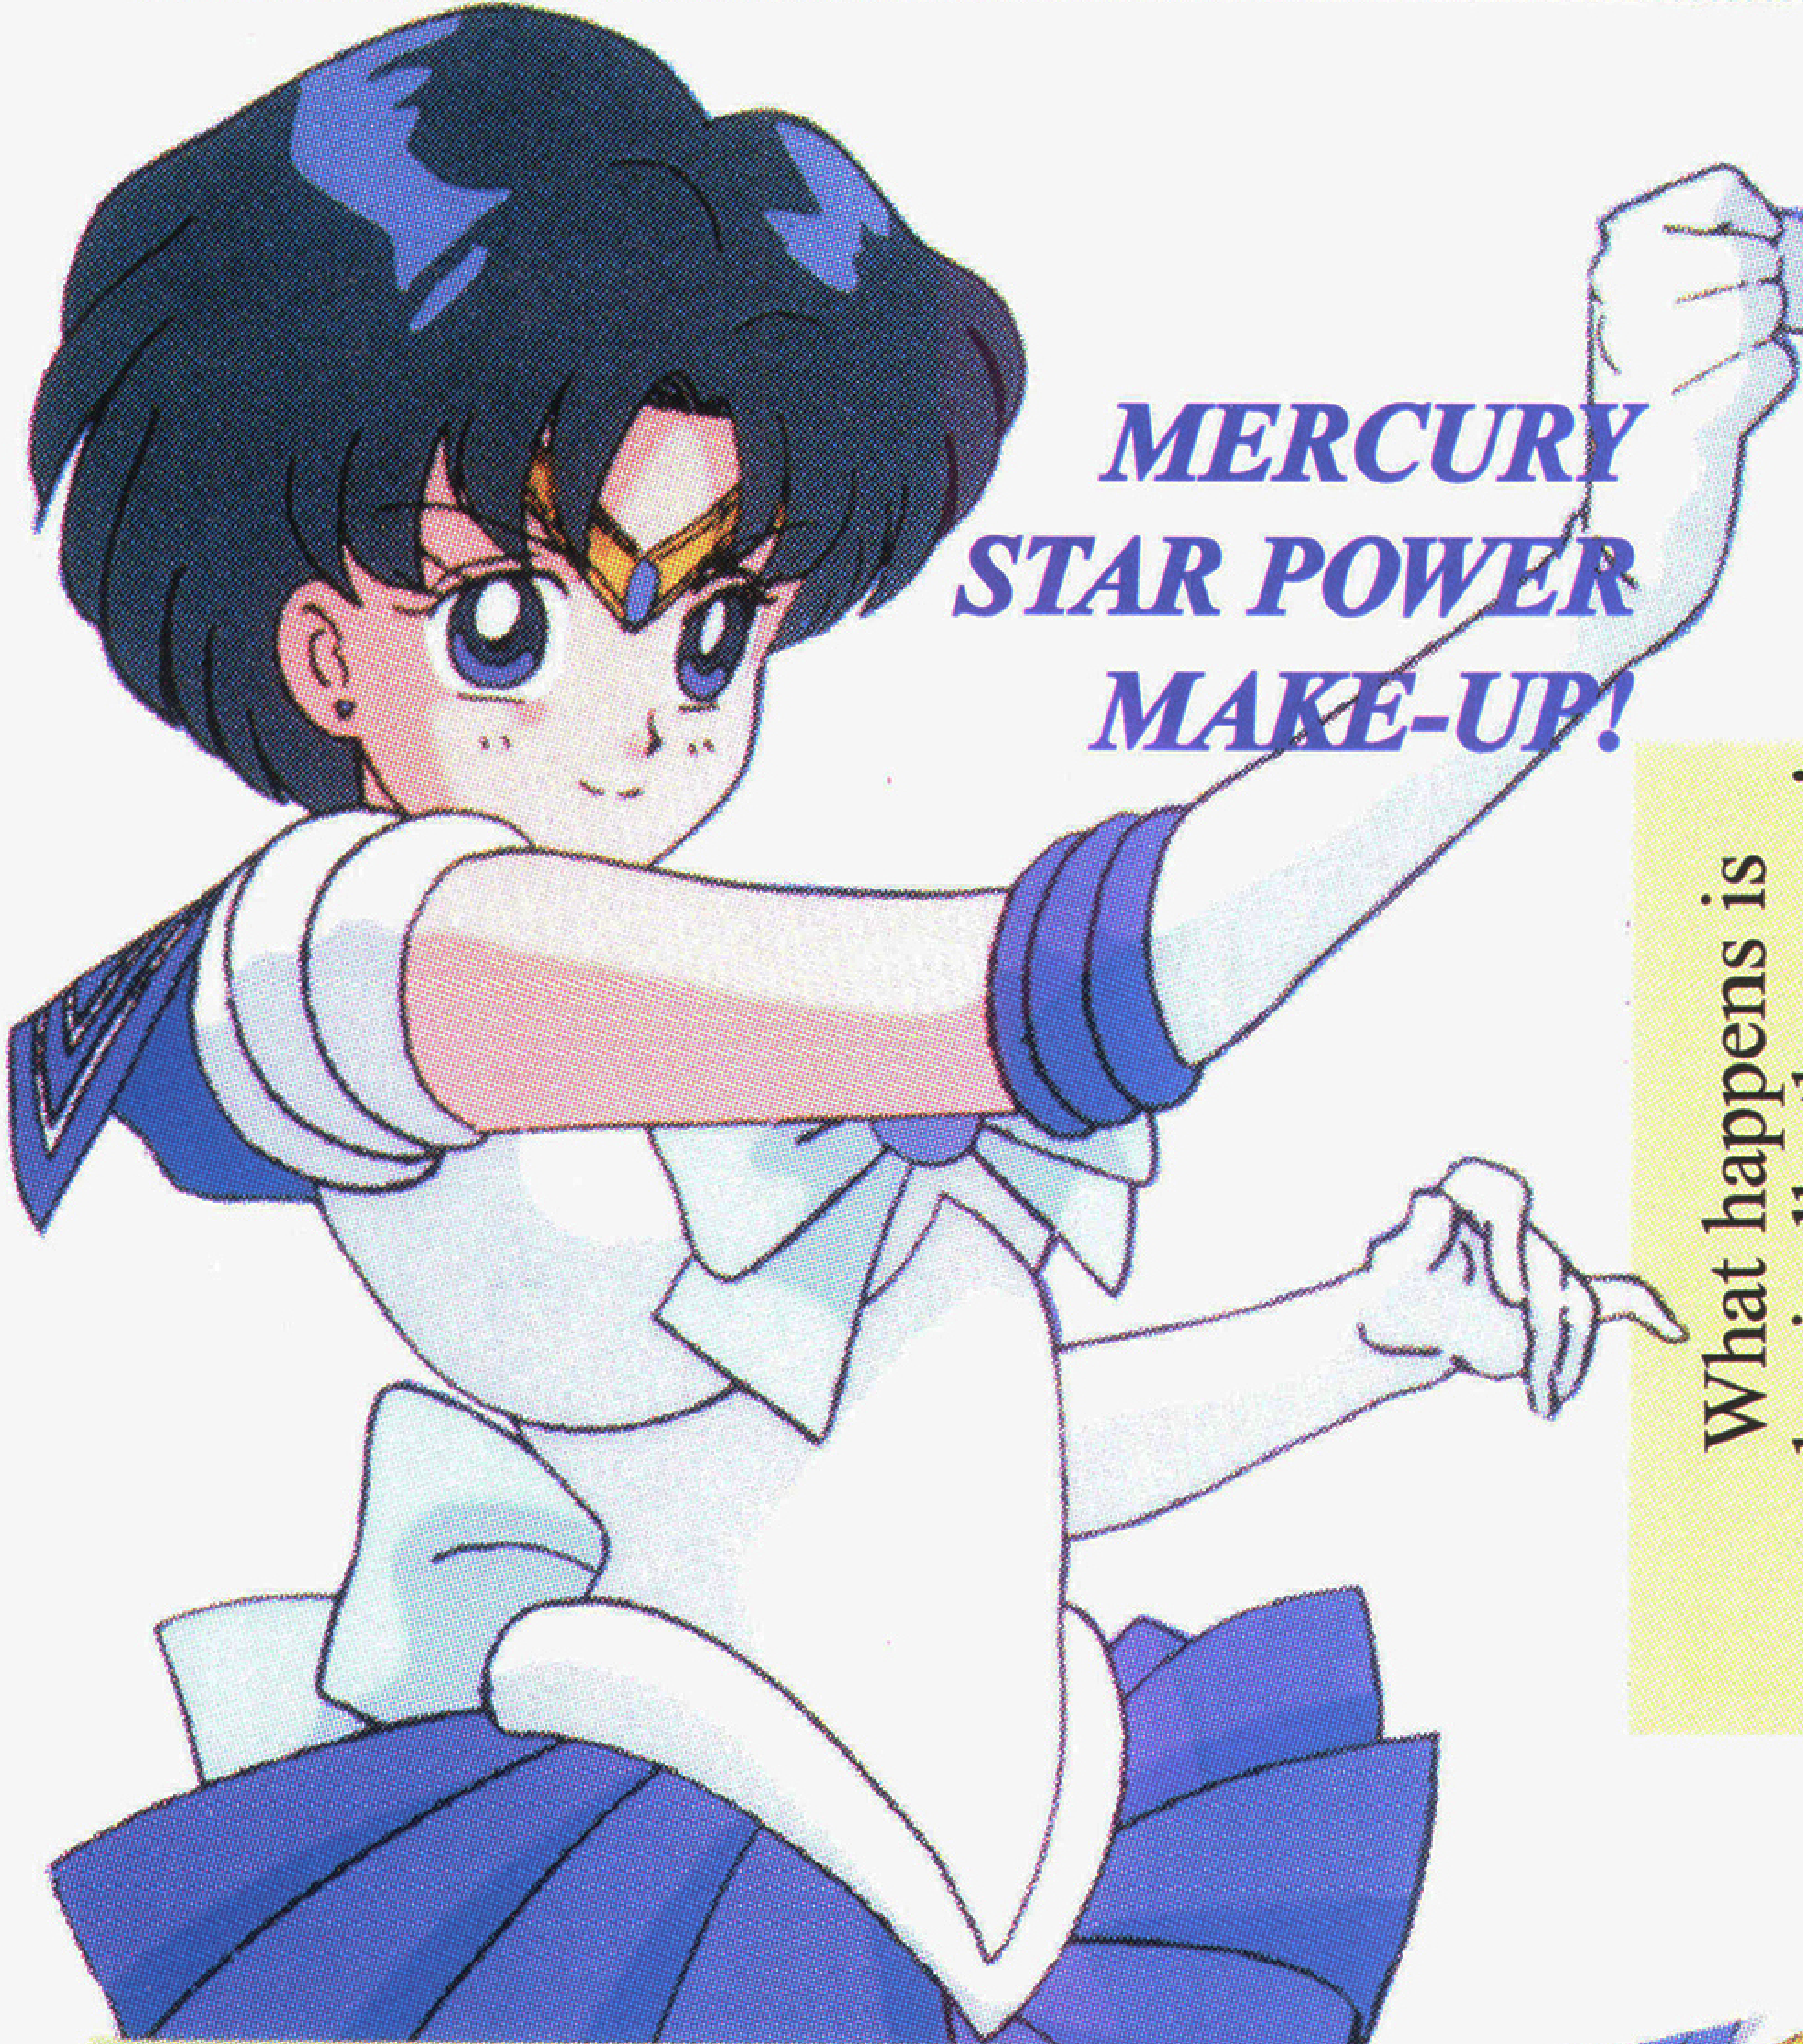


Sailor Mercury promises to continue the fight.

# Sailor Mercury Transformation Gallery: Make Up!

*Here, I'll show you a detailed playback of my transformation scene. This is Mercury Transformation Action, so try to remember it!*

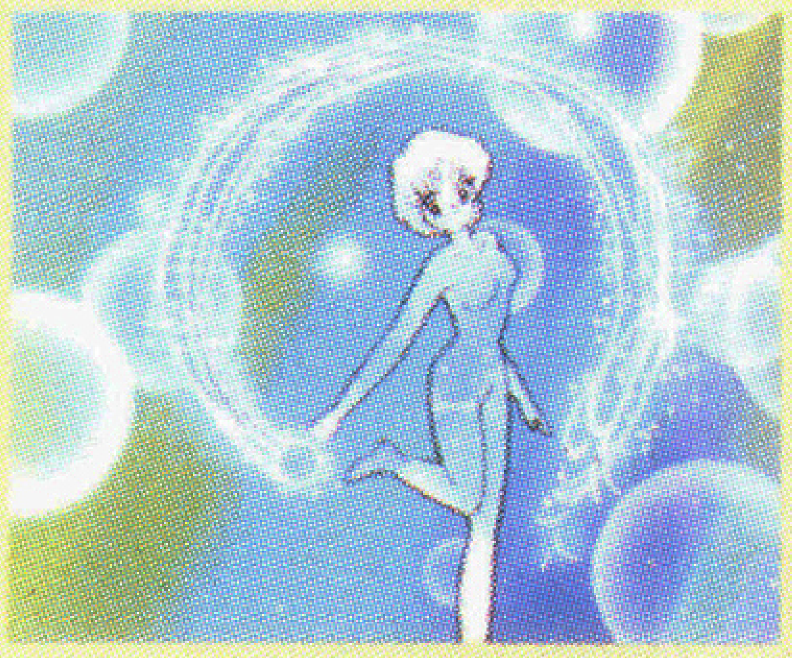
## Scout Guide



I twirl around as if I were doing a ribbon dance, then my body is covered in bubbles. I transform into Sailor Mercury, and then I'm not afraid of anything!

### Mercury Power, Make Up!

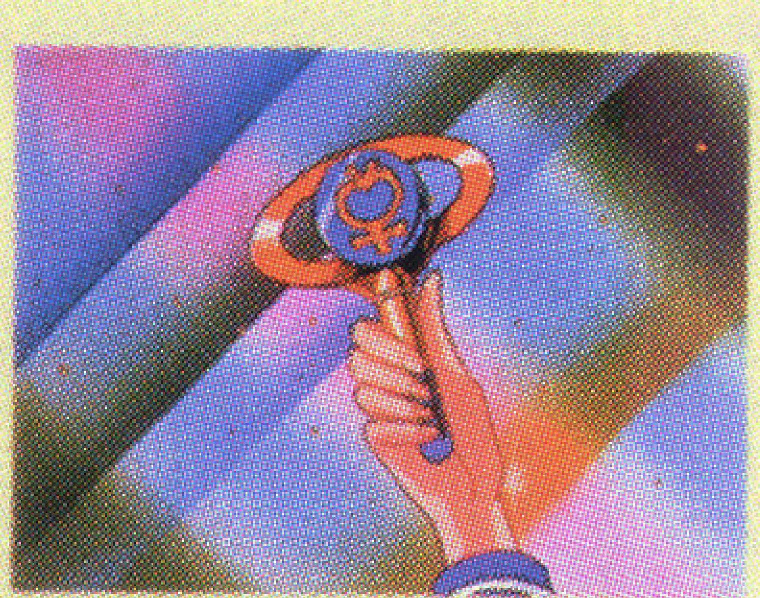
What happens is basically the same!



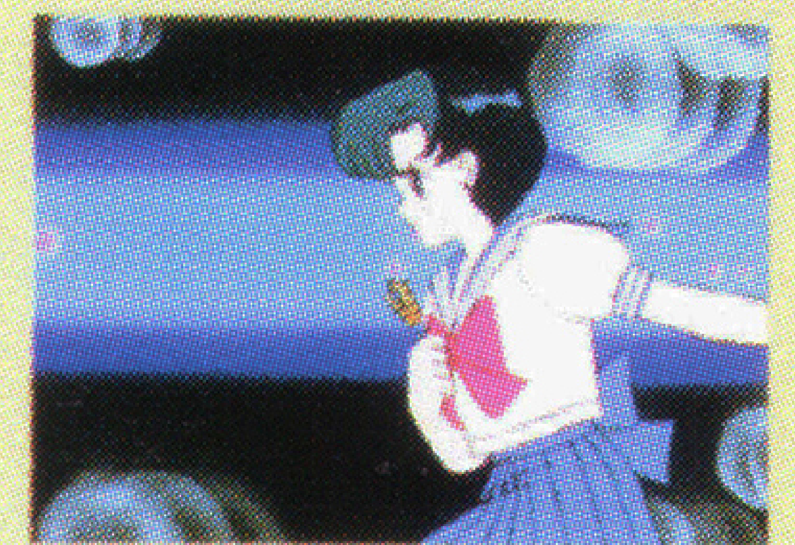
This is the original transformation before Mercury Star Power.

### Transformation Pen

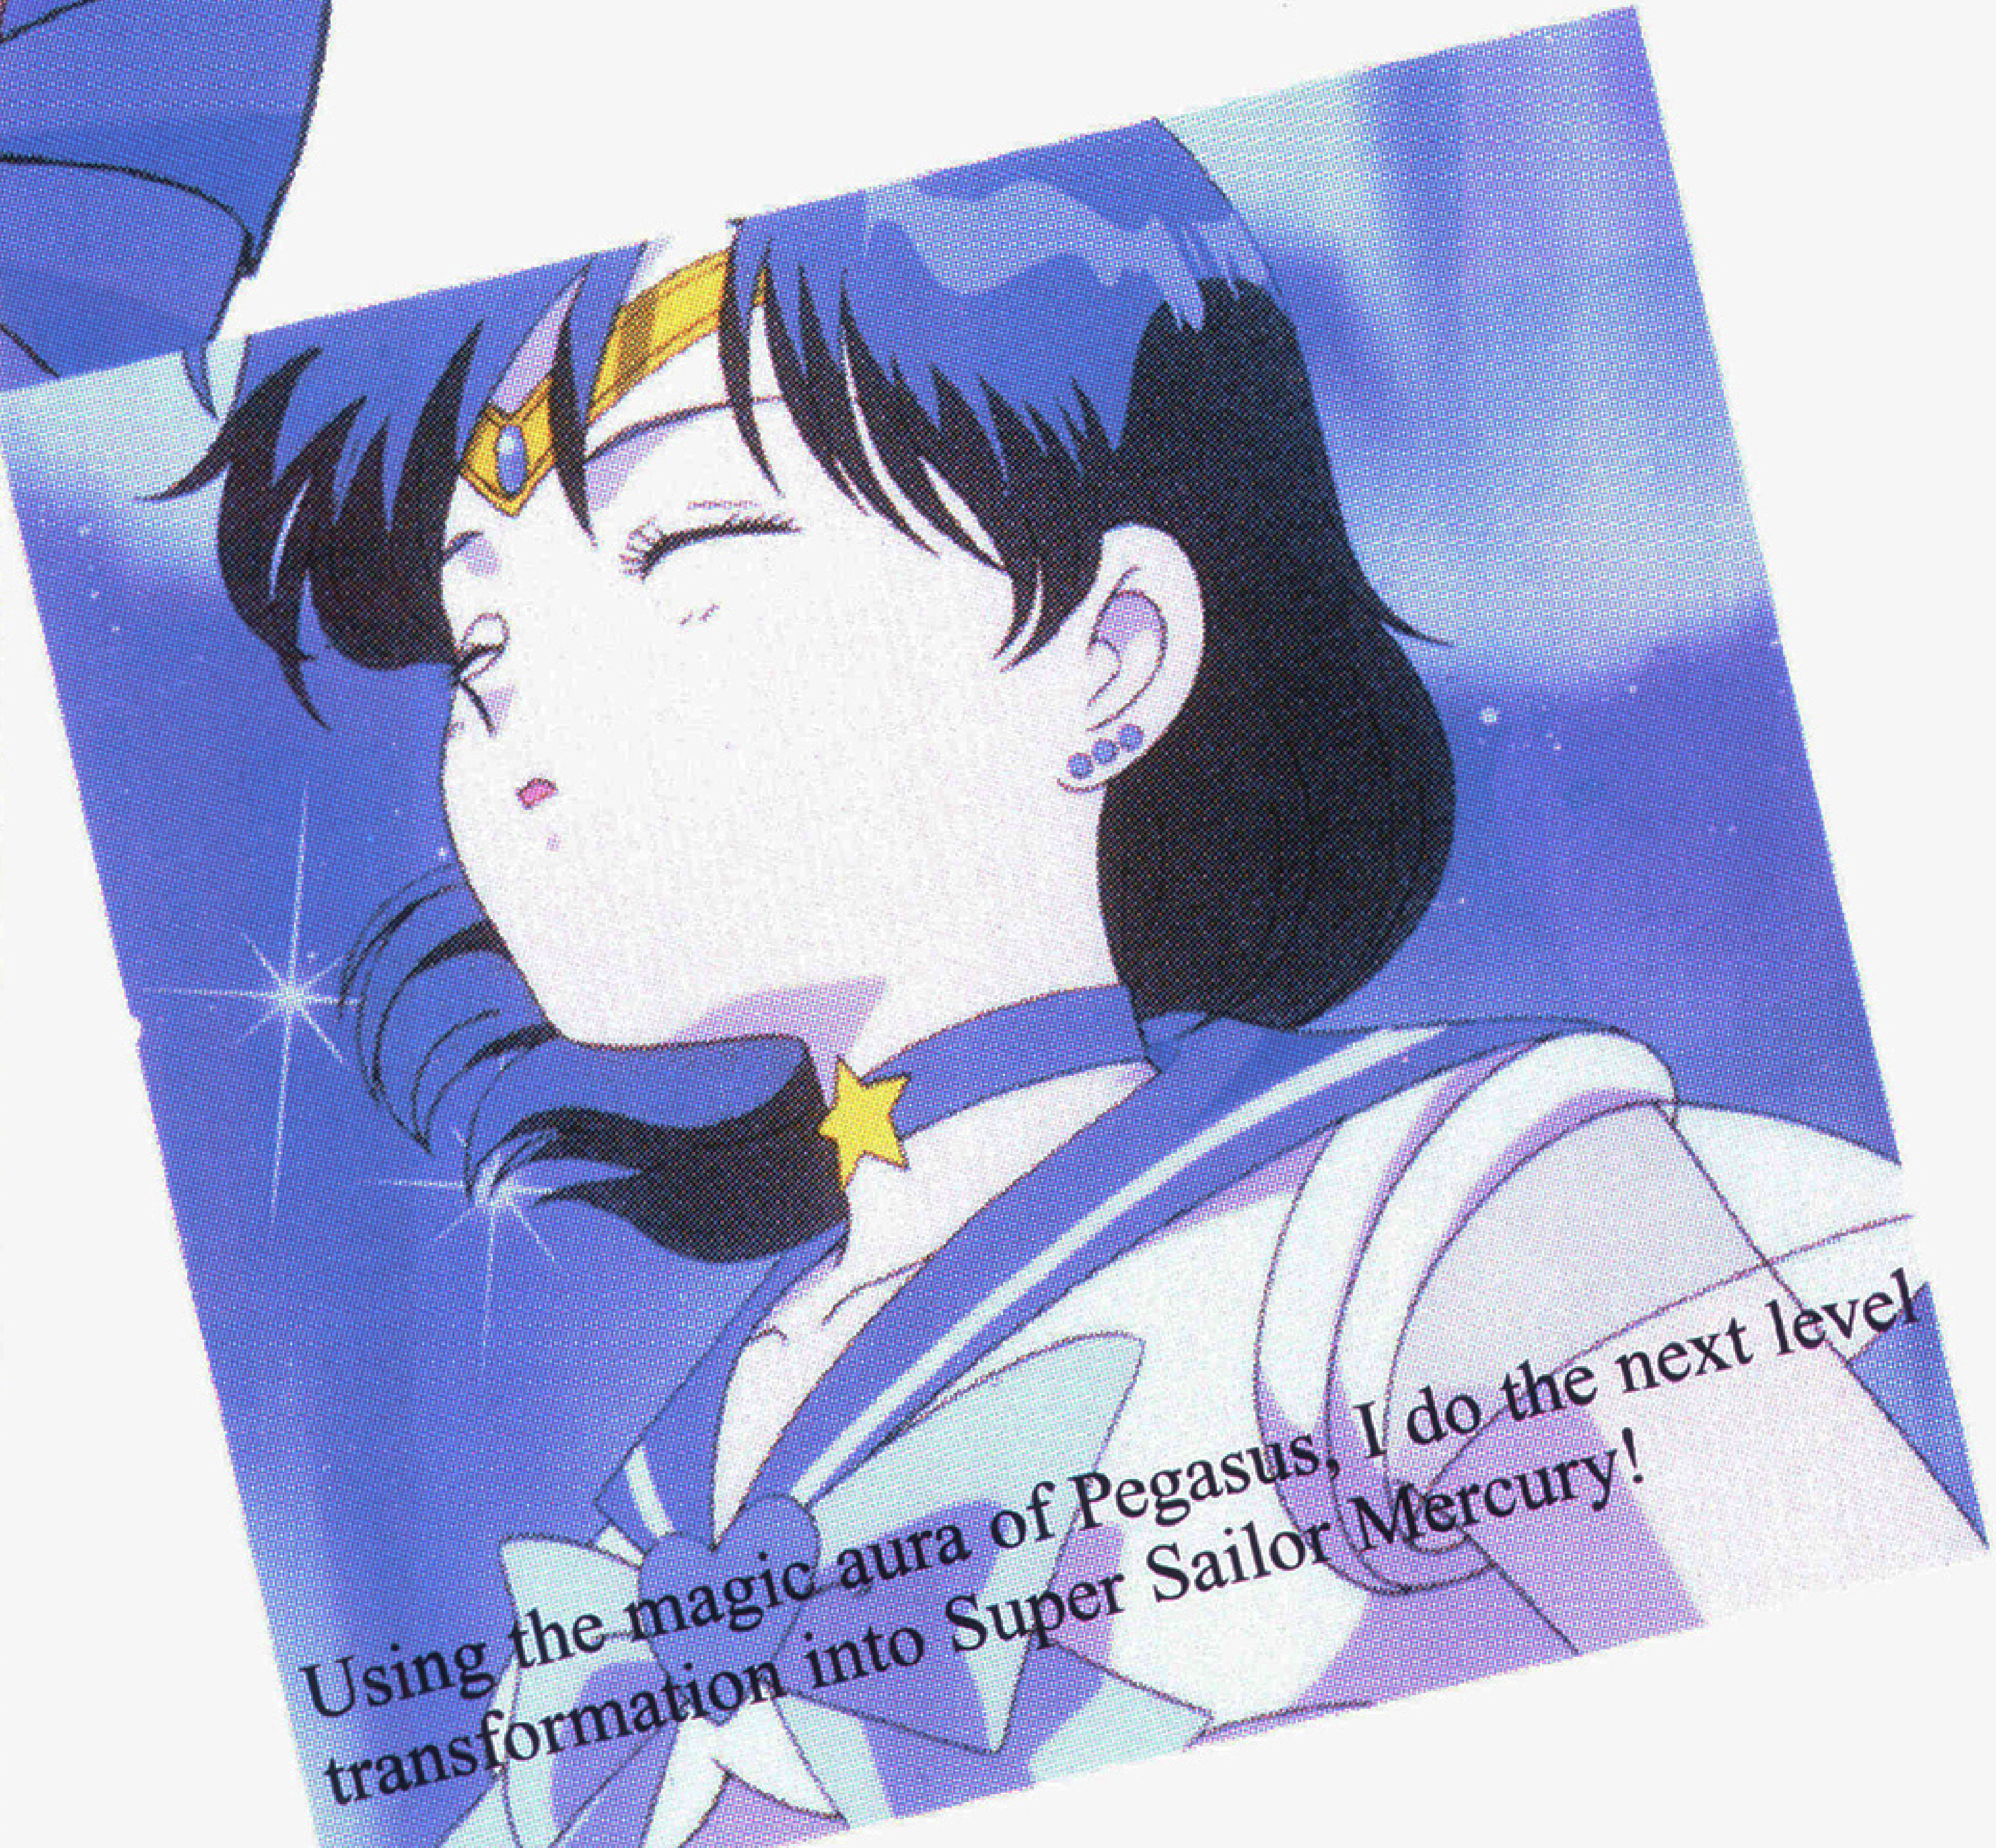
Without the transformation pen, I couldn't transform!



This is the first Transformation Pen Luna gave me.

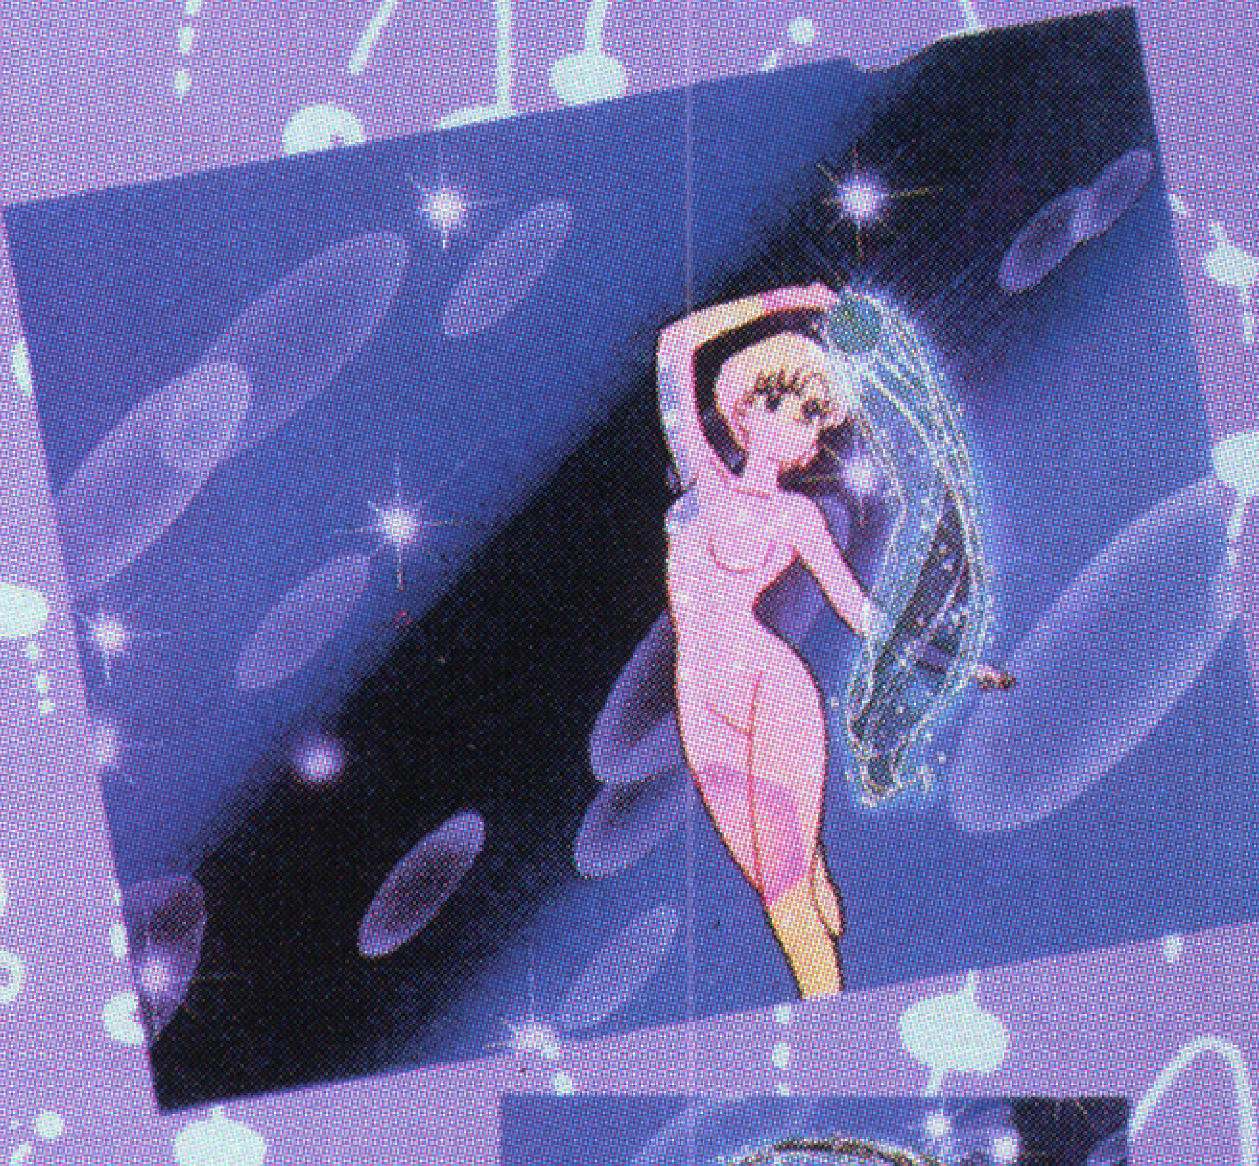


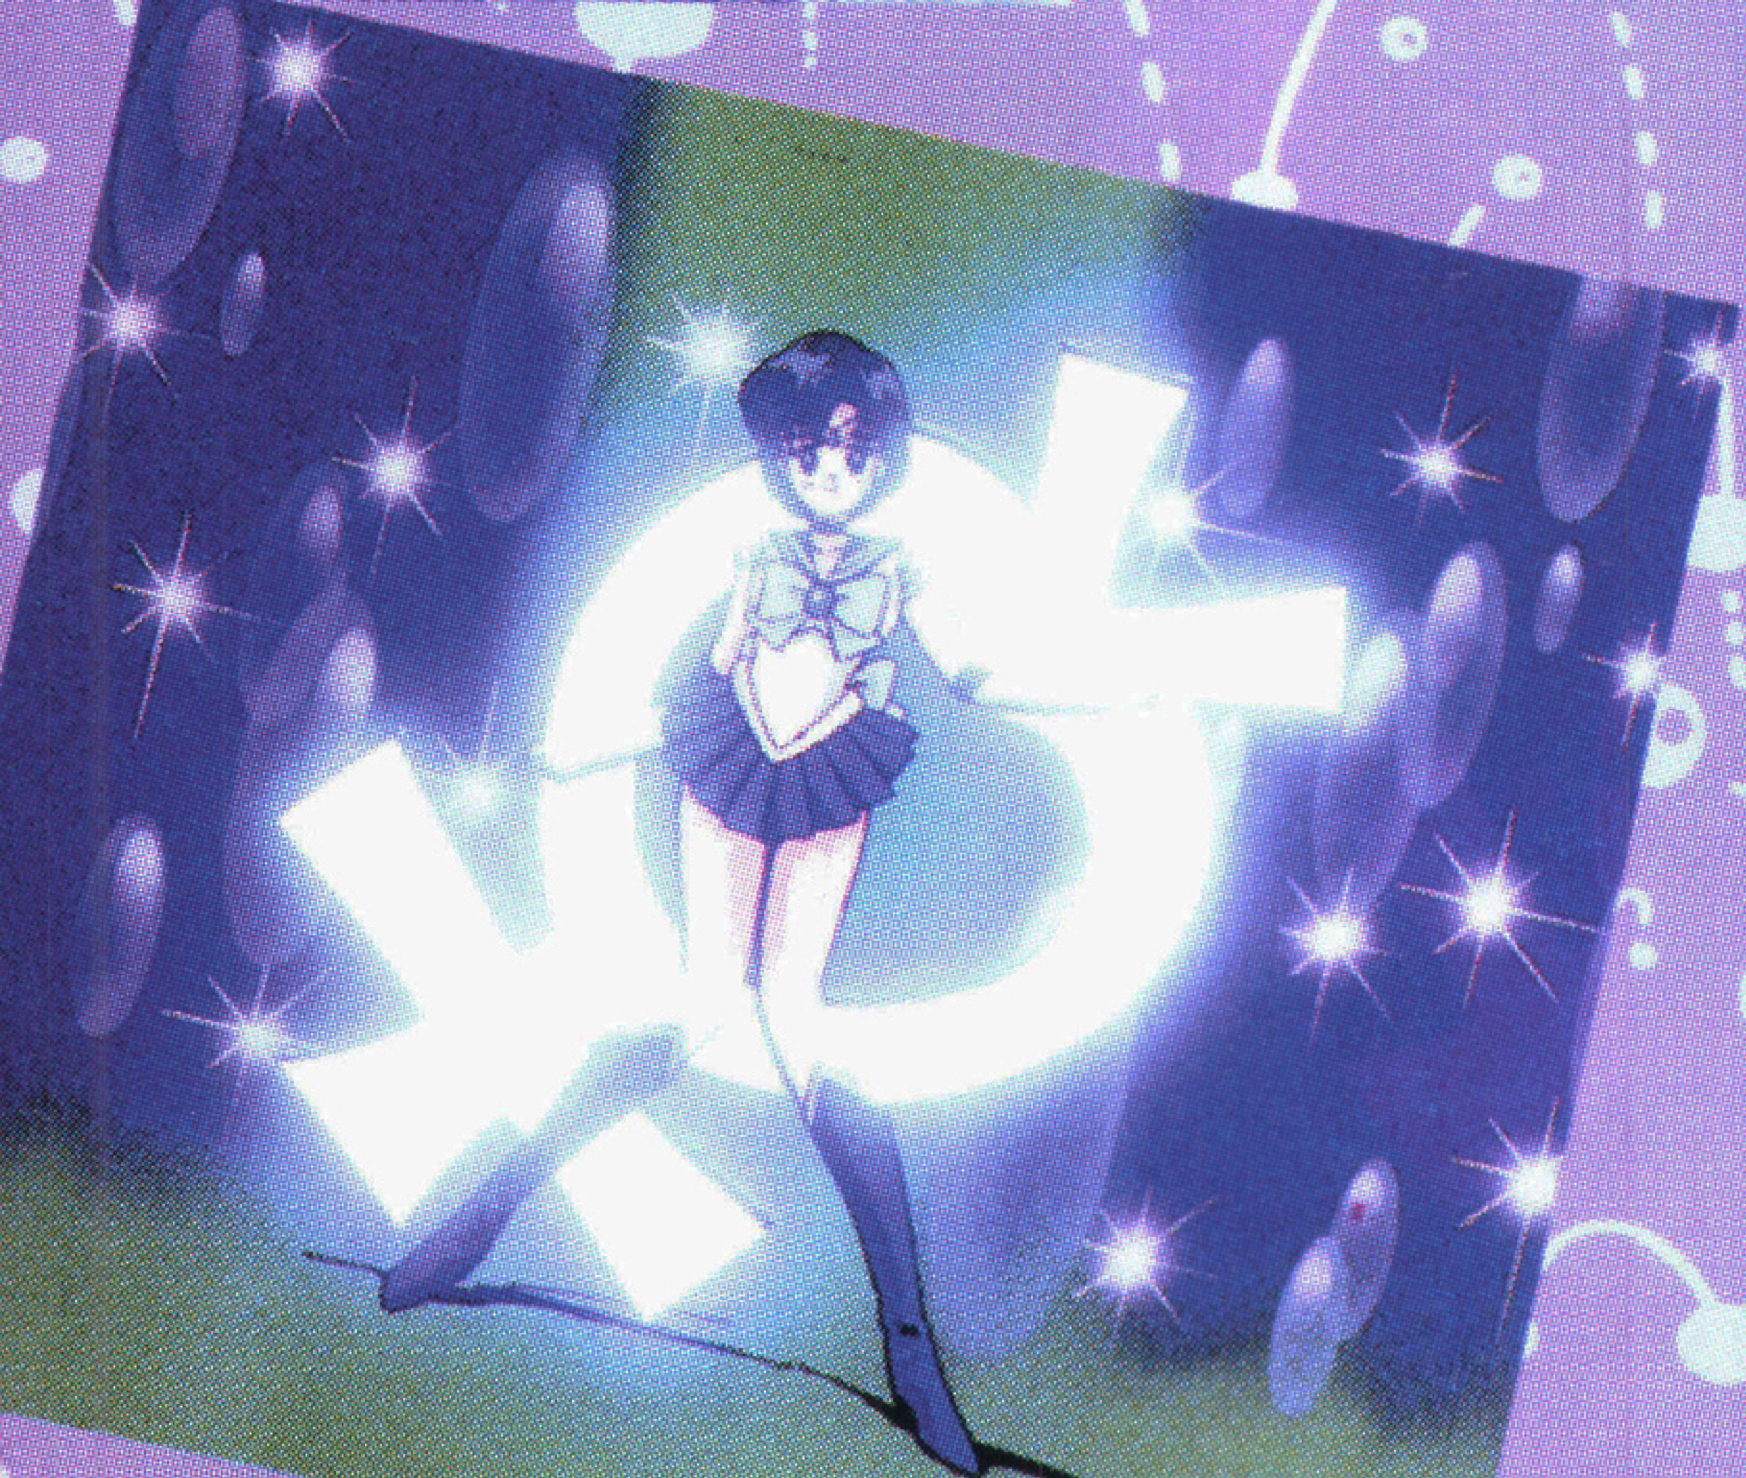
This is my new, powered up Transformation pen.

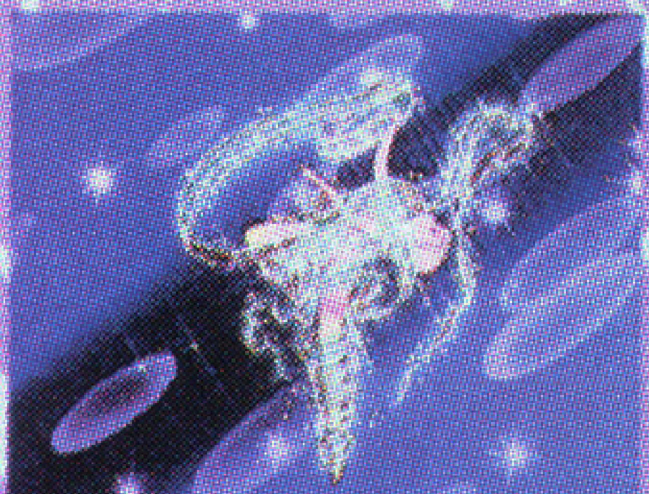


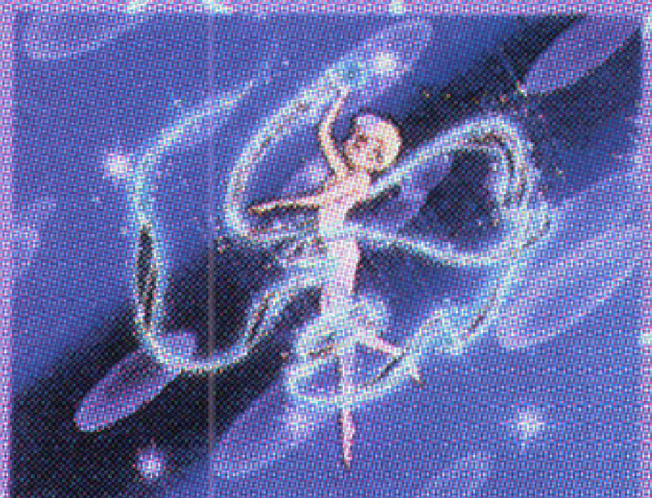
Using the magic aura of Pegasus, I do the next level transformation into Super Sailor Mercury!

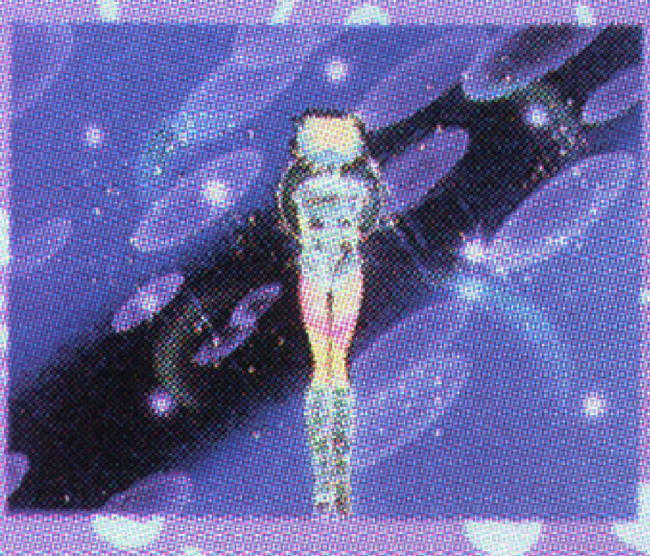
# MERCURY STAR POWER









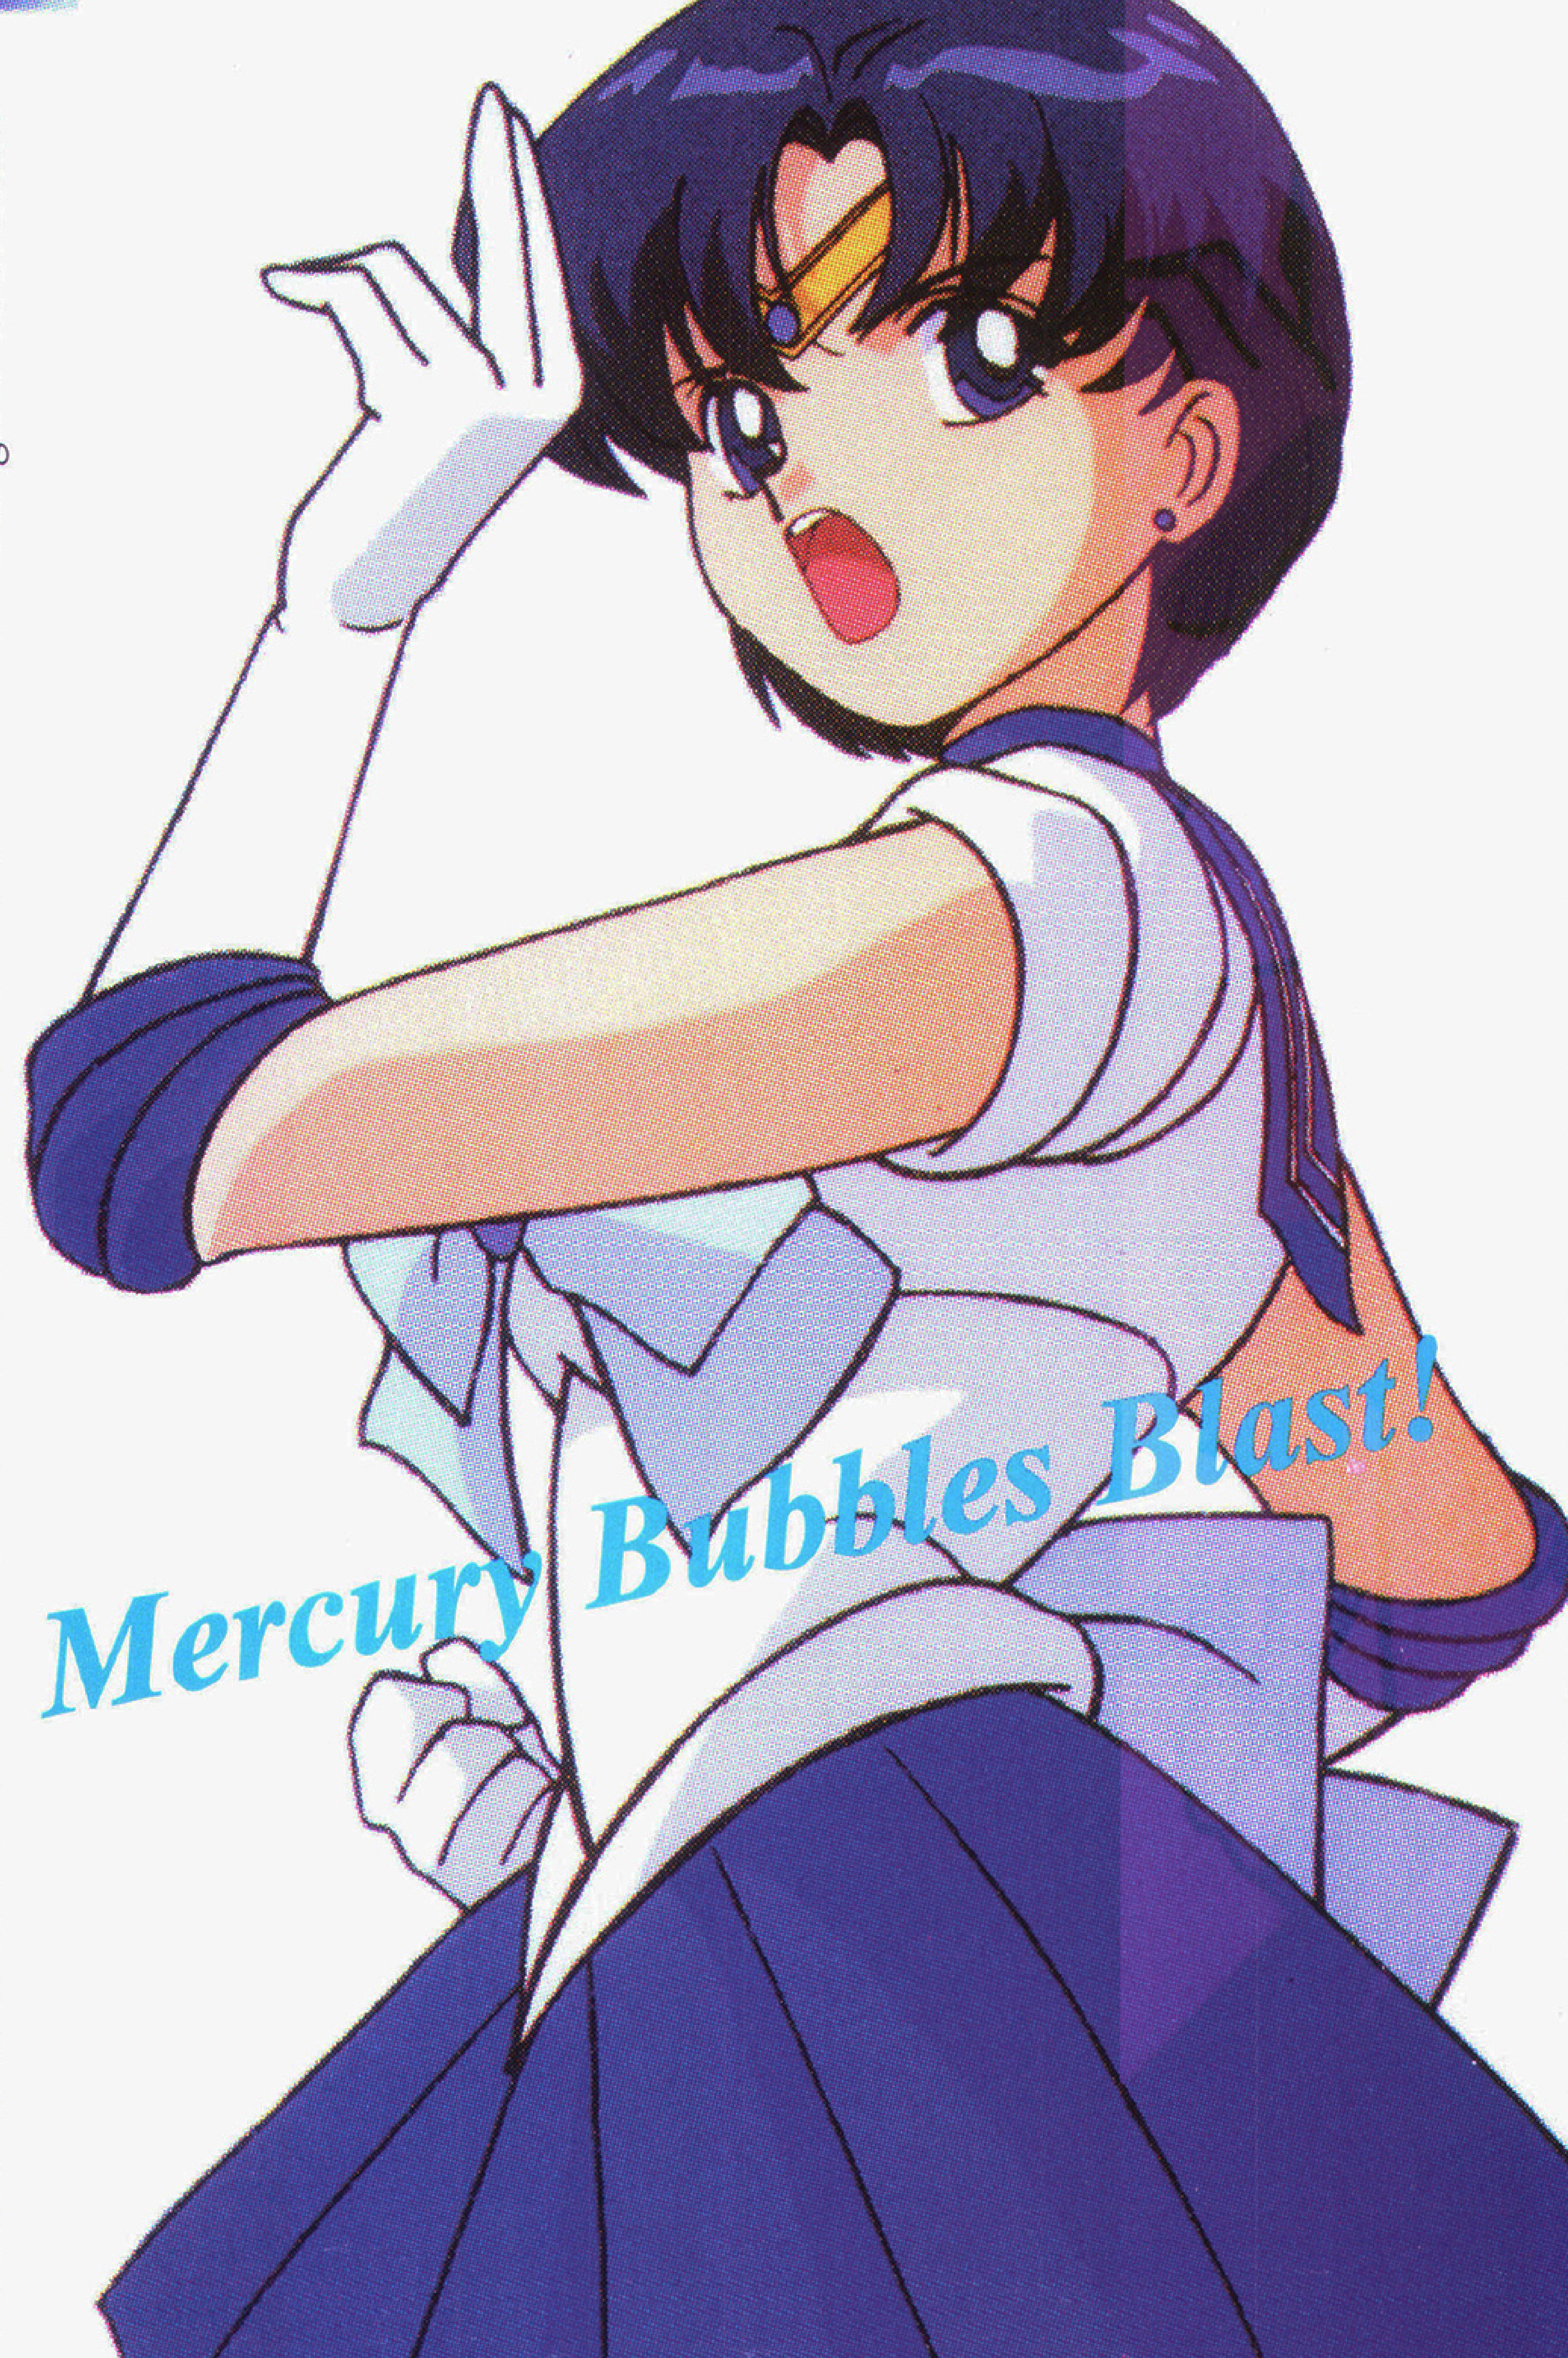


# Sailor Mercury in Action

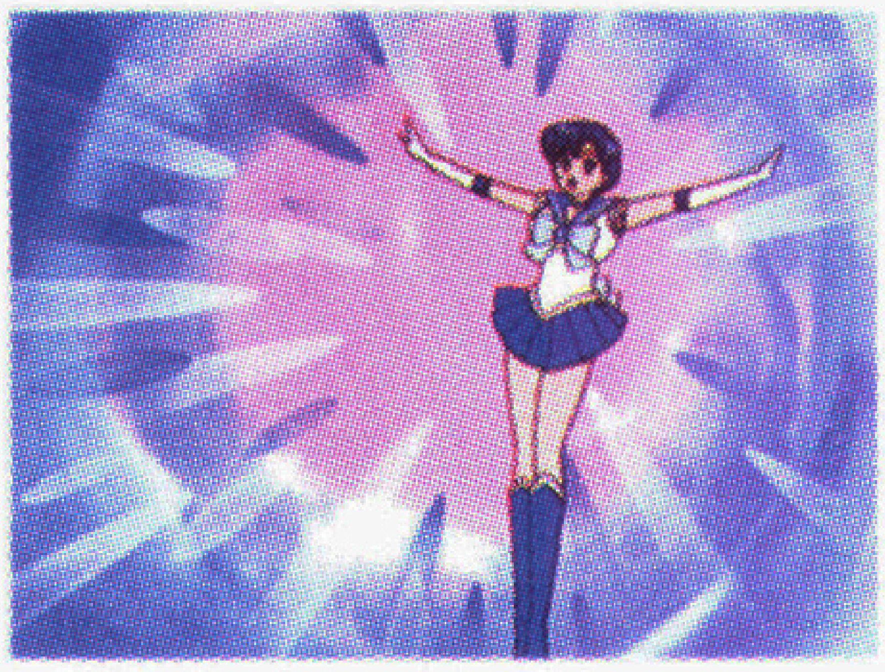
***Even though Sailor Mercury has the lowest fighting ability in the Sailor Team, she still has her special attacks. Do you remember them all?***

## Scout Guide

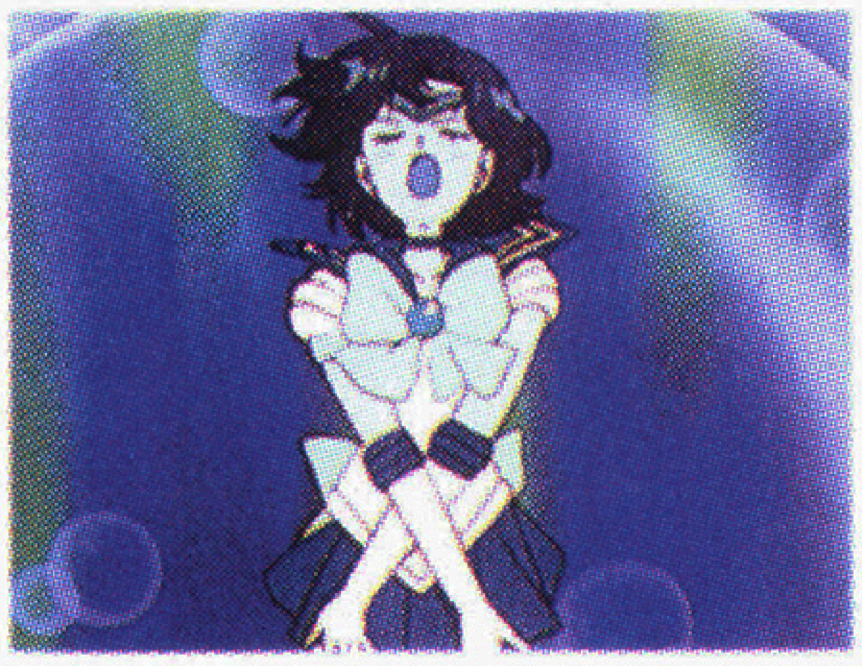
My first special attack--this special attack doesn't do much damage, but it acts as a smoke screen and has a cooling effect. My special attack has the most variations of all the Sailor Scouts' attacks!



Mercury Bubbles Blast!

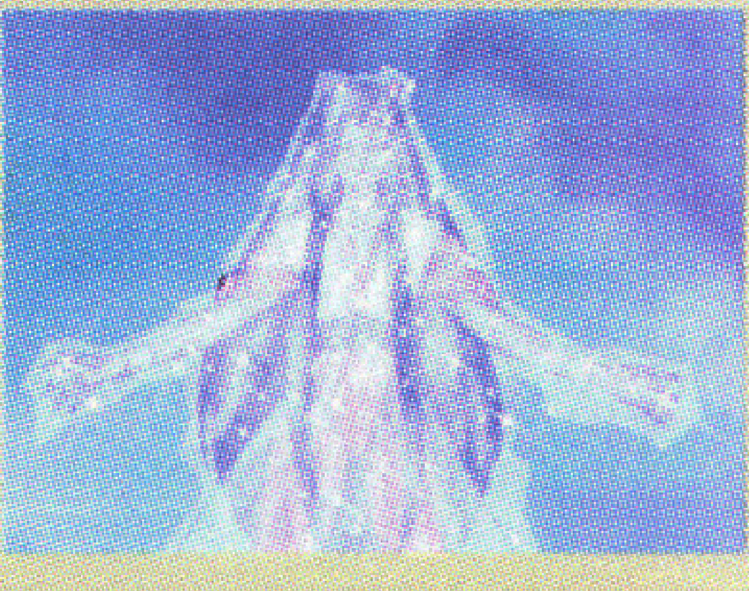


Here's the suprise attack I used when we took on the brainwashed Darien.



This is the barrier that protected me from the DD girls' heat blast.

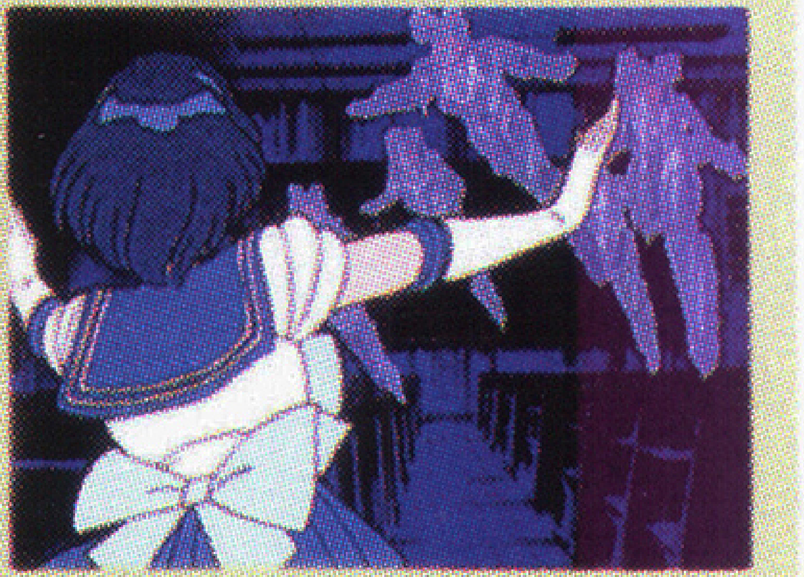
### Mercury Ice Bubbles Freeze!



It froze Skulker.

It's a powerful attack that freezes instantly.

### Double-Bubble Spray

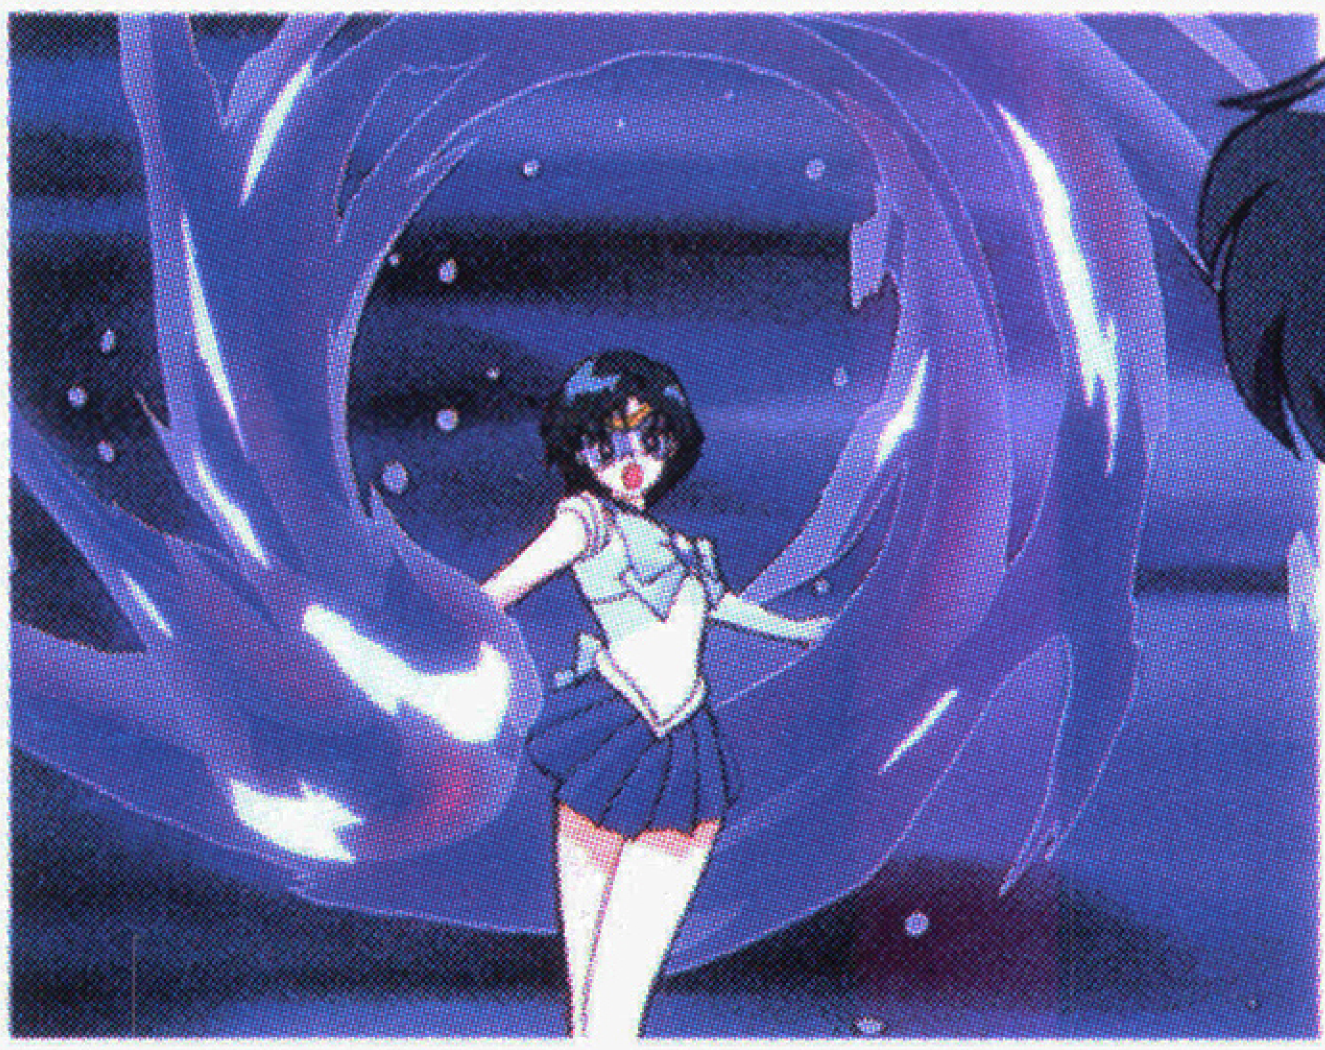


Here I am attacking a monster.

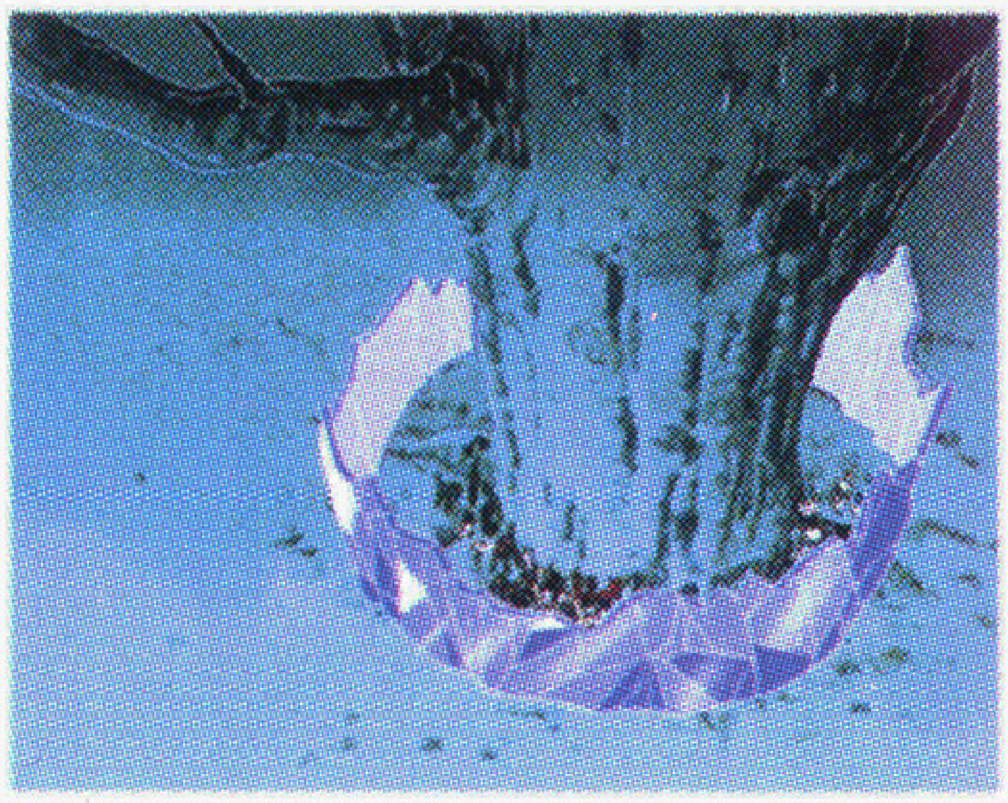
The powered up version can take on several enemies at once.

# *Shine Aqua Illusion*

It's my second sure-fire technique. It freezes the enemy with a powerful current of water.



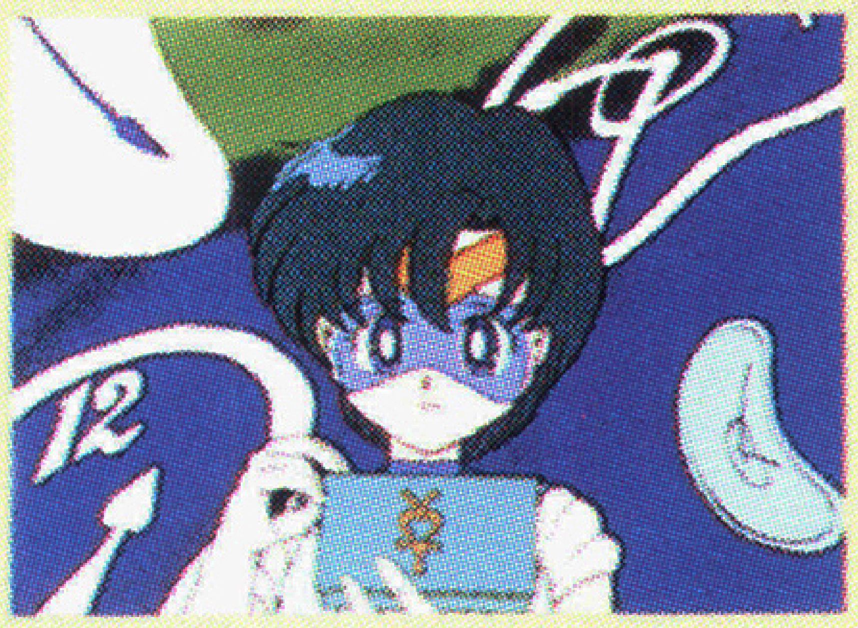
After I gained the Mercury Star Power Transformation, I aquired my second overwhelming attack. No matter what we end up fighting, this attack will freeze it solid!



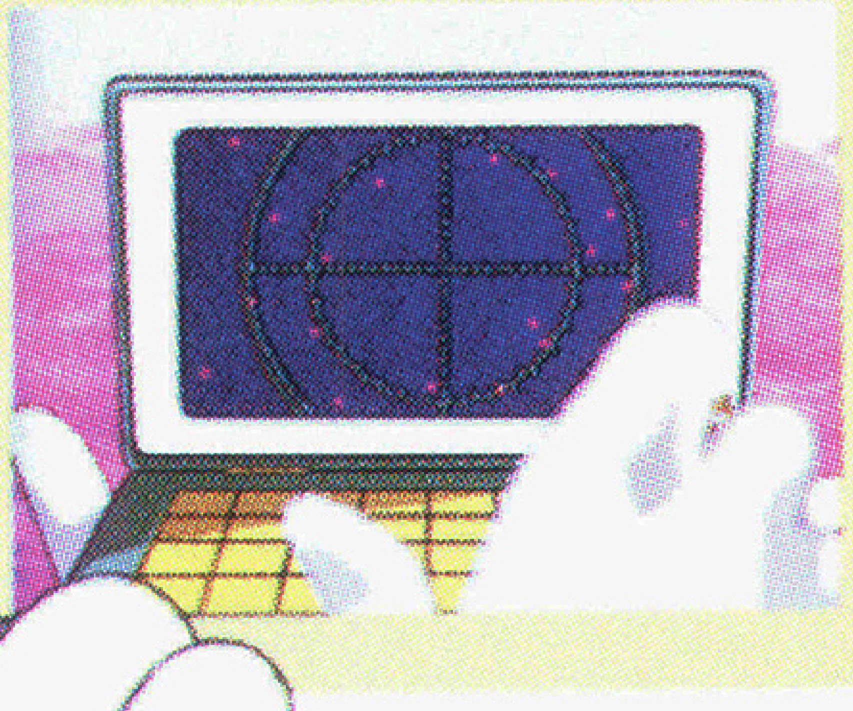
I trapped these mind-controlled dogs inside a fence of ice.

## *The Super Computer*

Sailor Mercury's pocket sized super-computer; it can plan attacks and track enemies.

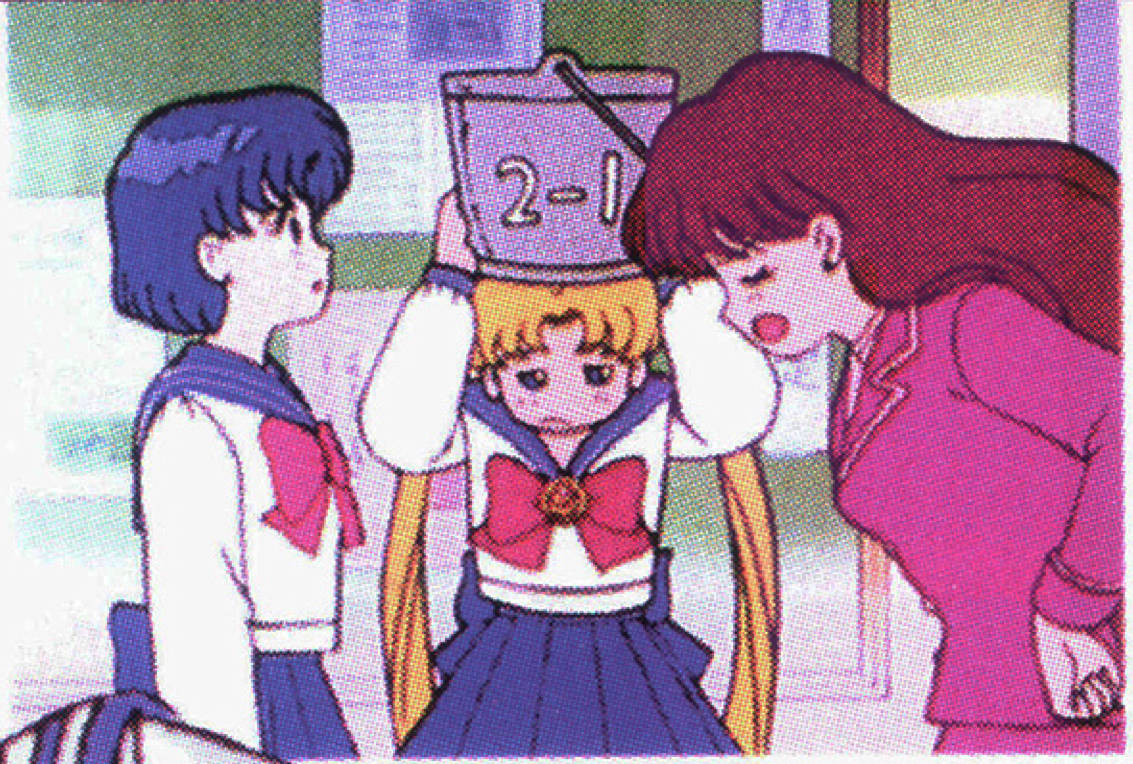


The Super Computer first helped me fight Ramua and solve the mystery of the clocks.

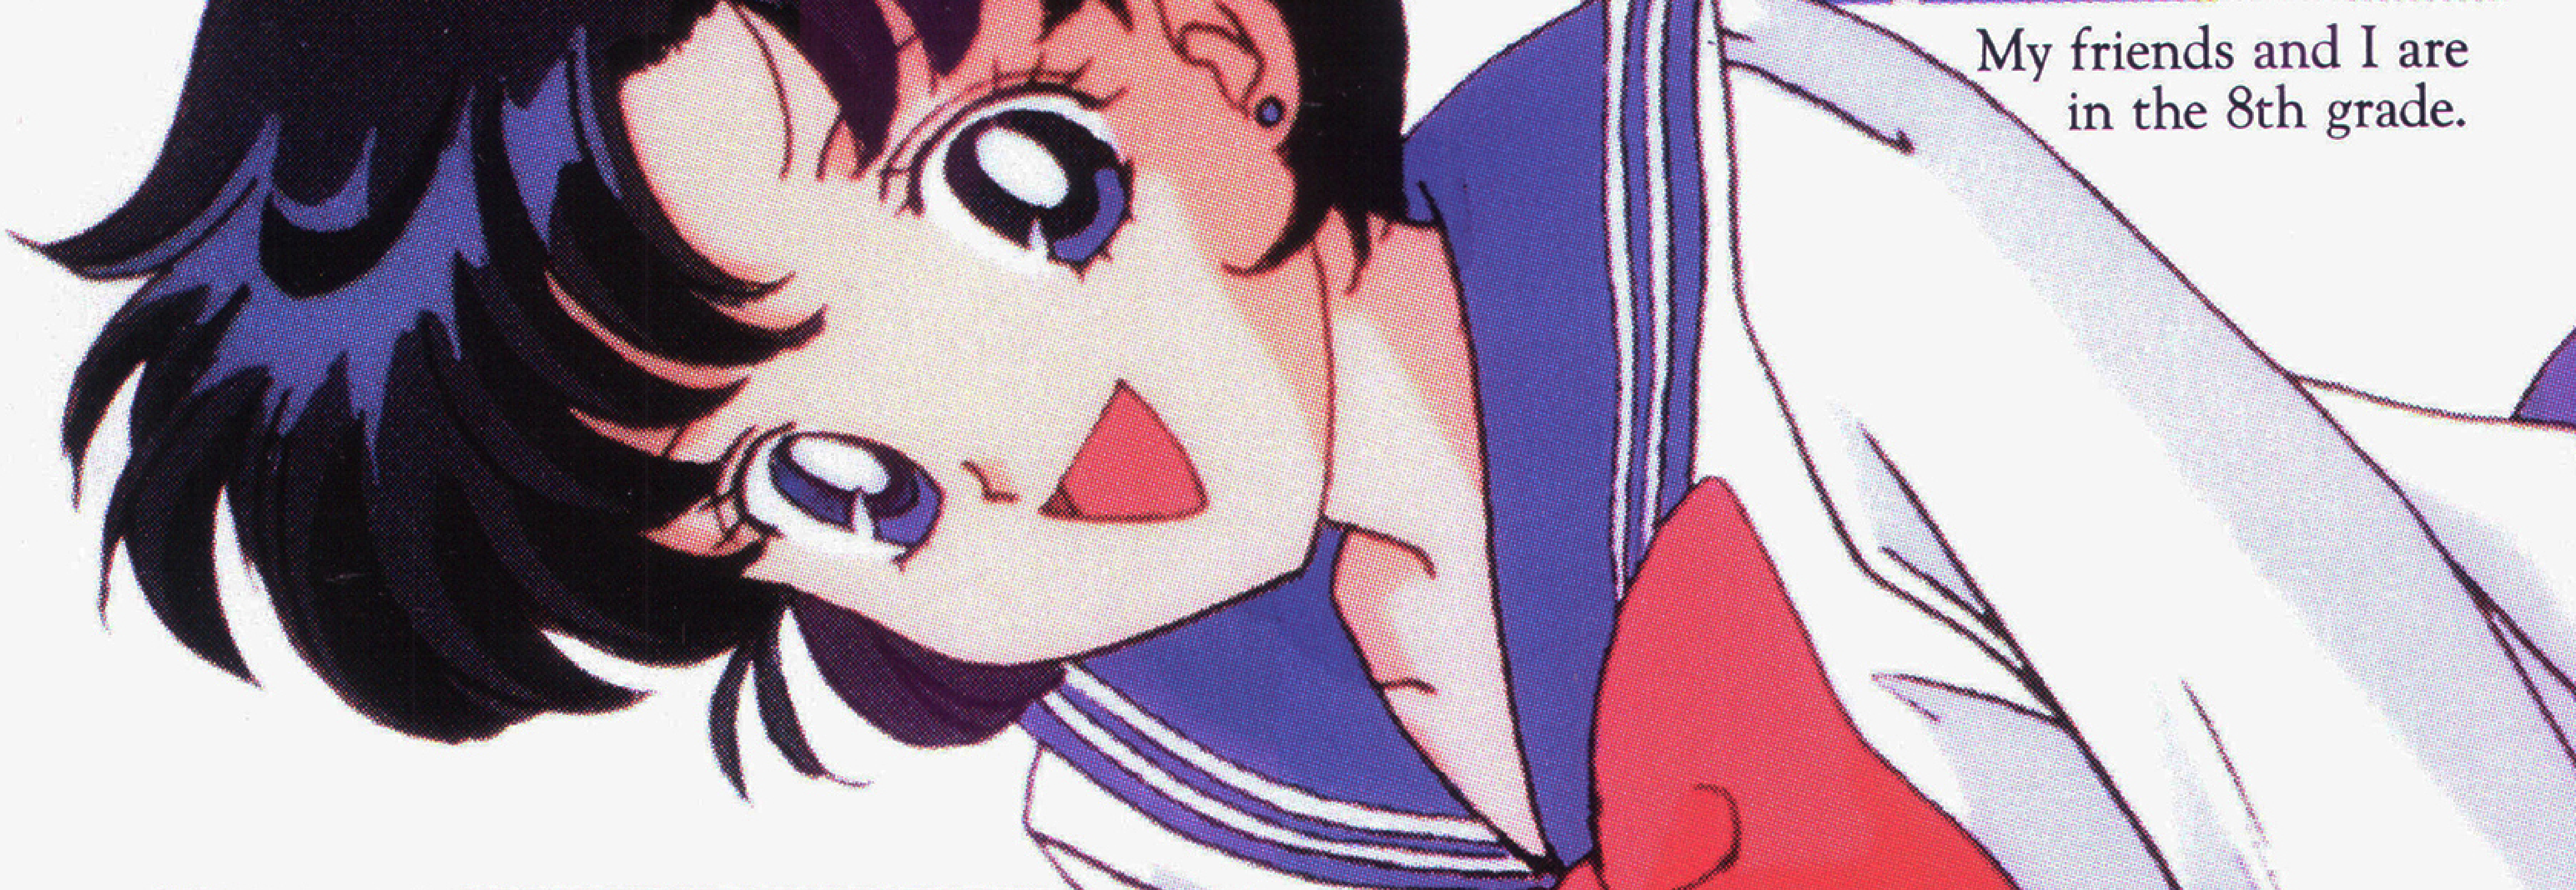


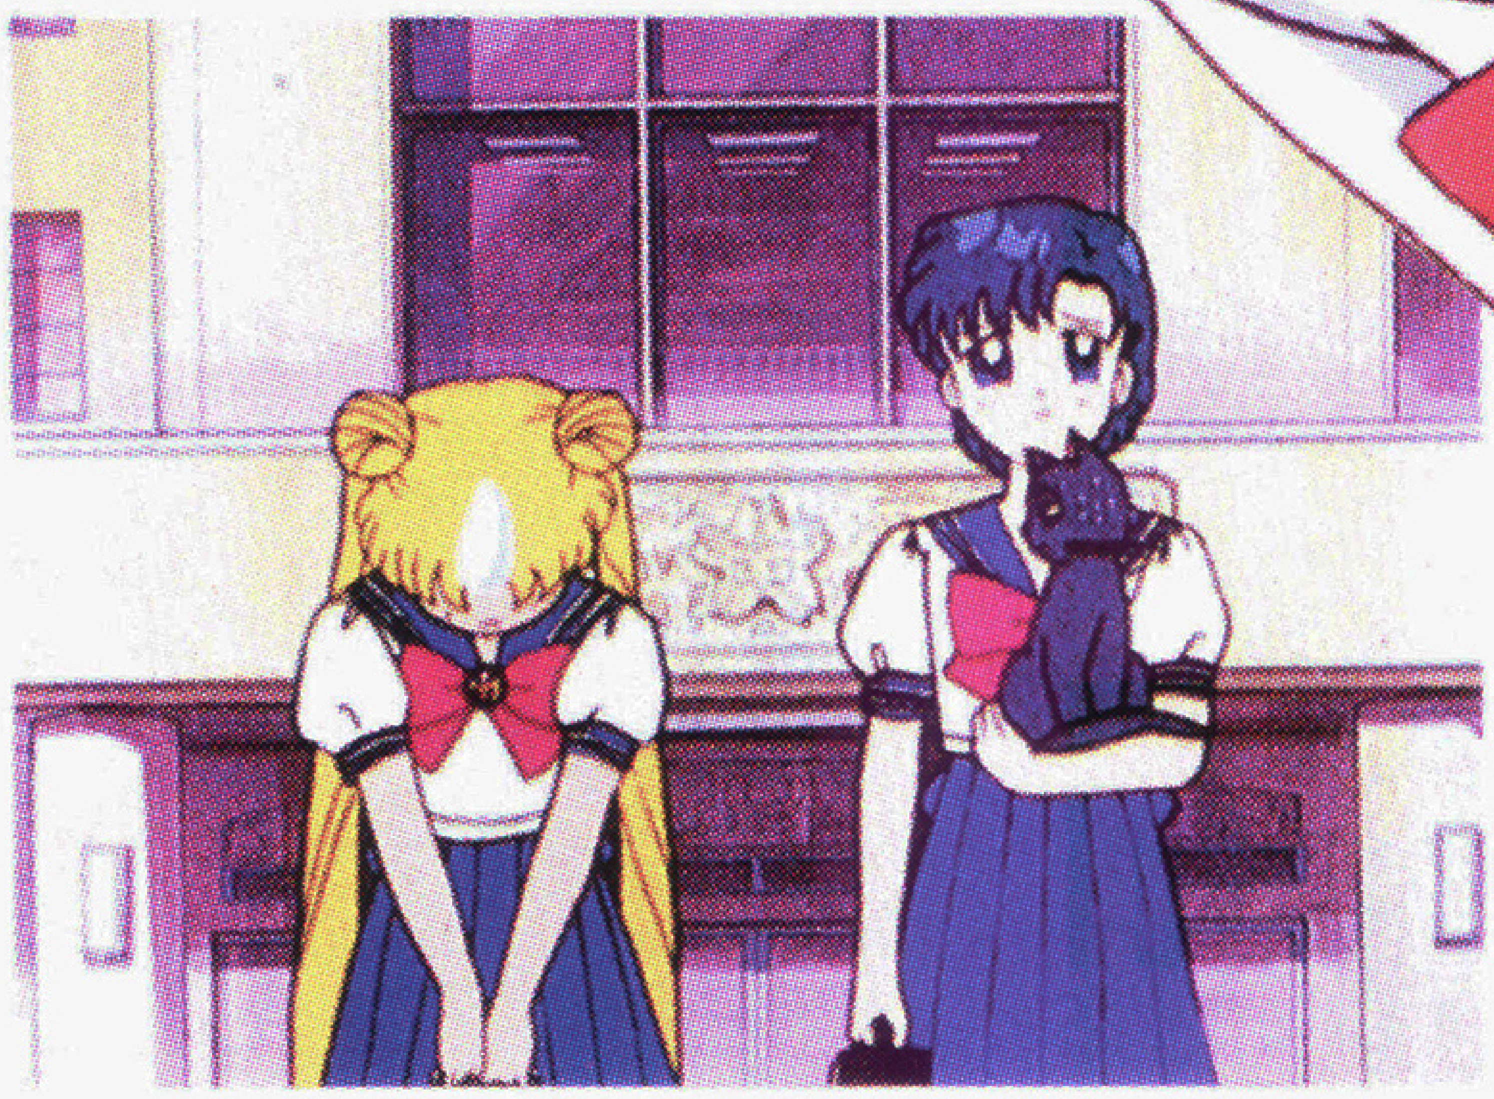
It's linked with the monitor inside my goggles, and helps me predict the actions of an enemy.

# I'm Amy Anderson.

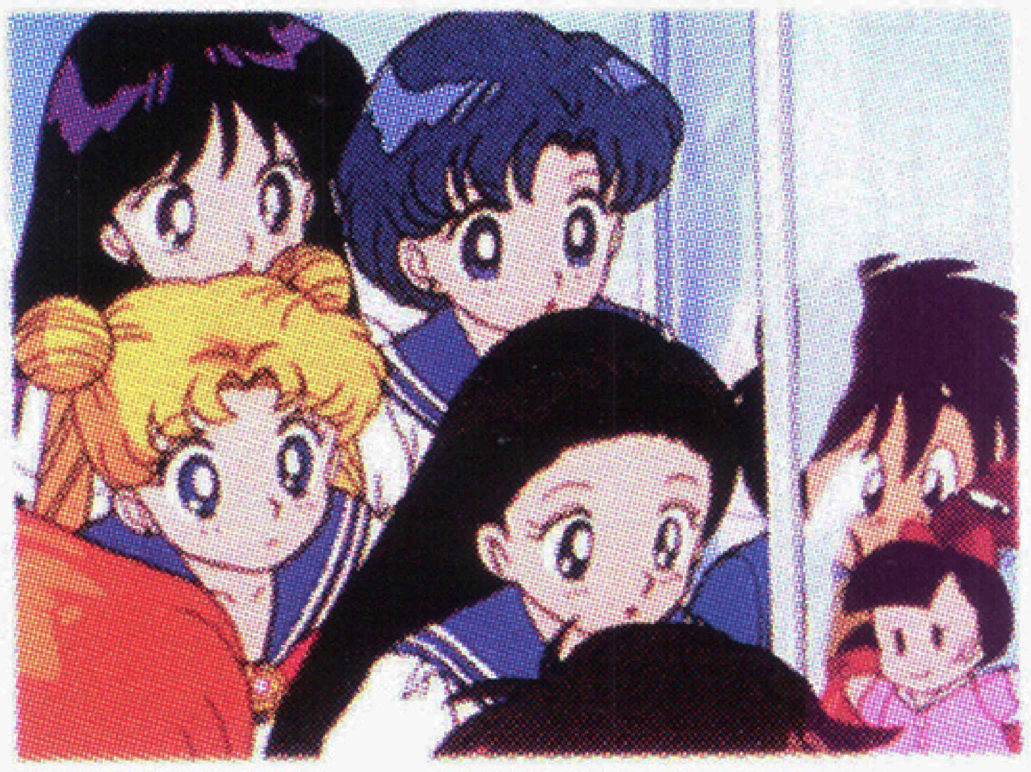


My friends and I are in the 8th grade.

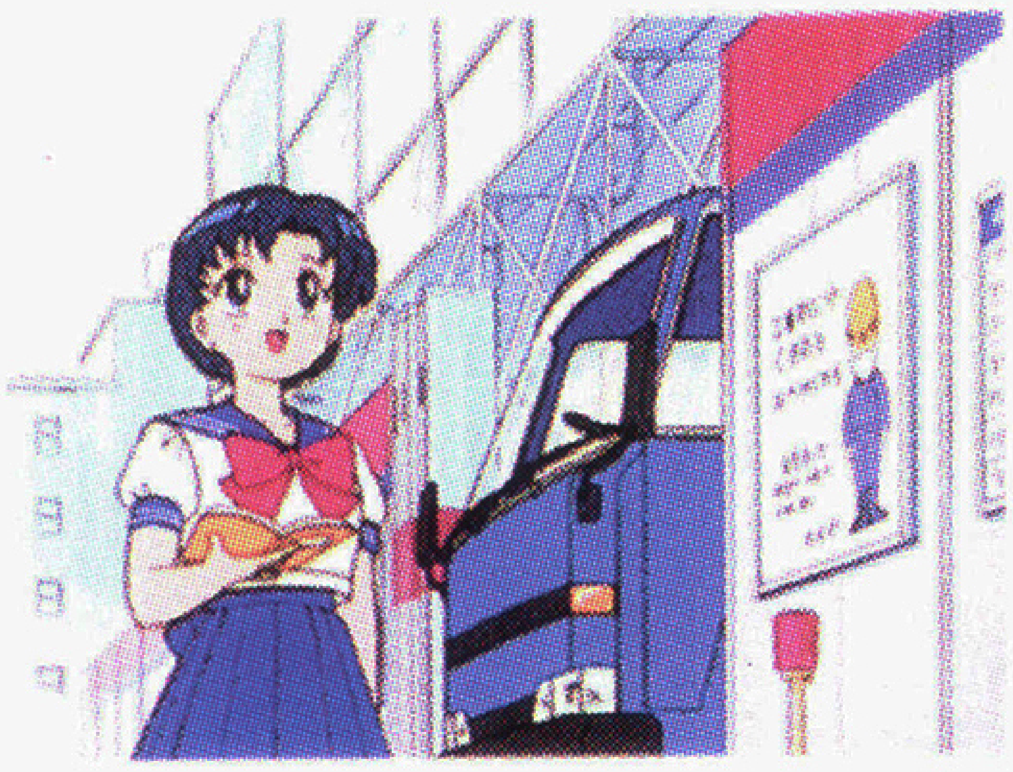




Right now I attend Crossroads Middle School with Serena. I'm not worried about getting into college when the time comes.



Sometimes I take a break from studying to be with my friends.



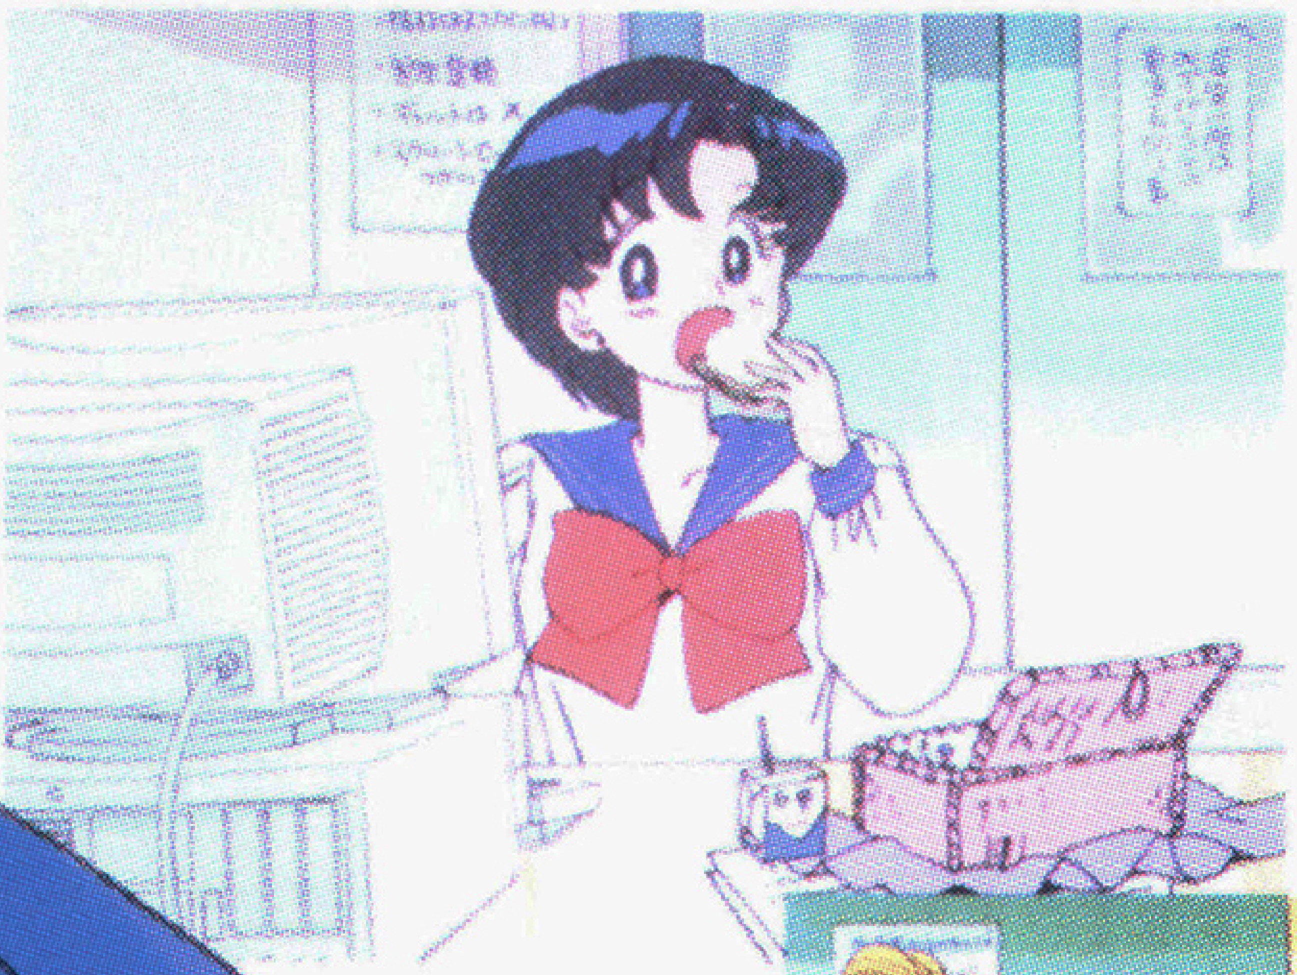
It's a waste if you don't take advantage of your time in school by studying.

# Introducing the Sailor Team

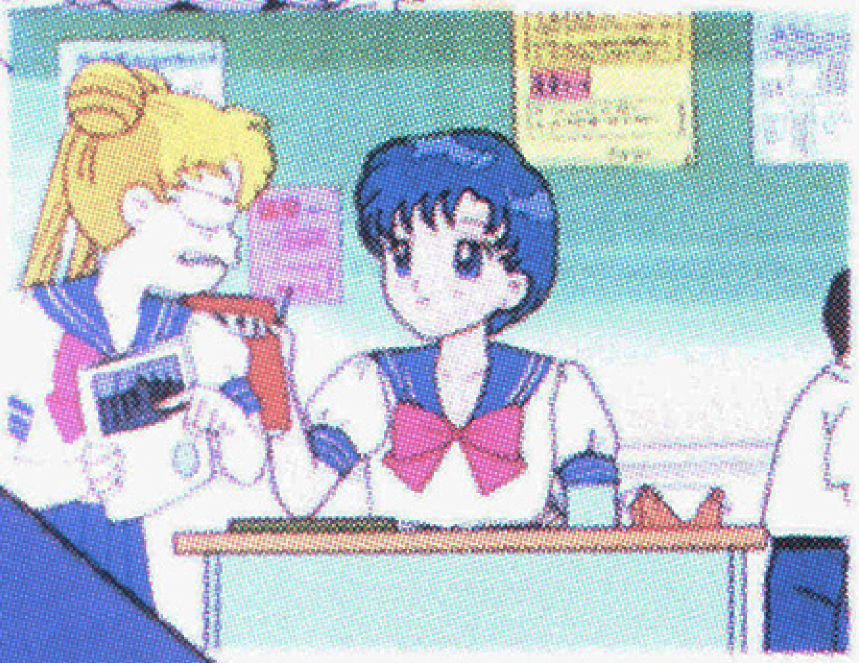
***Have you heard much about me? If there's something you don't know, here's your chance to become better friends with me!***

## Scout Guide

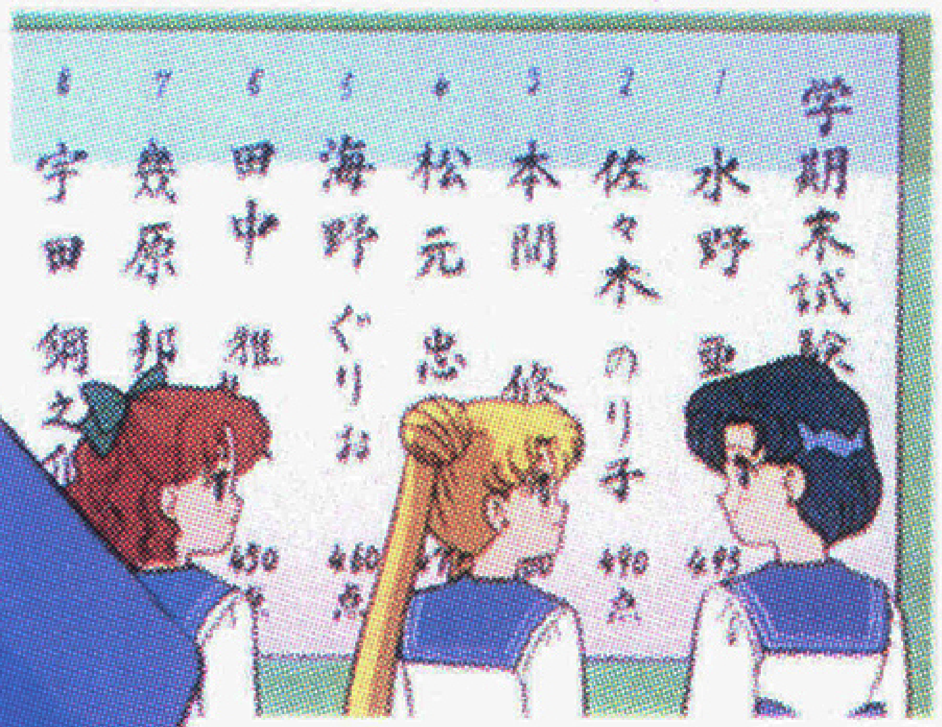
I transform from Amy Anderson into Sailor Mercury. I want to be a doctor someday, so I study day and night.



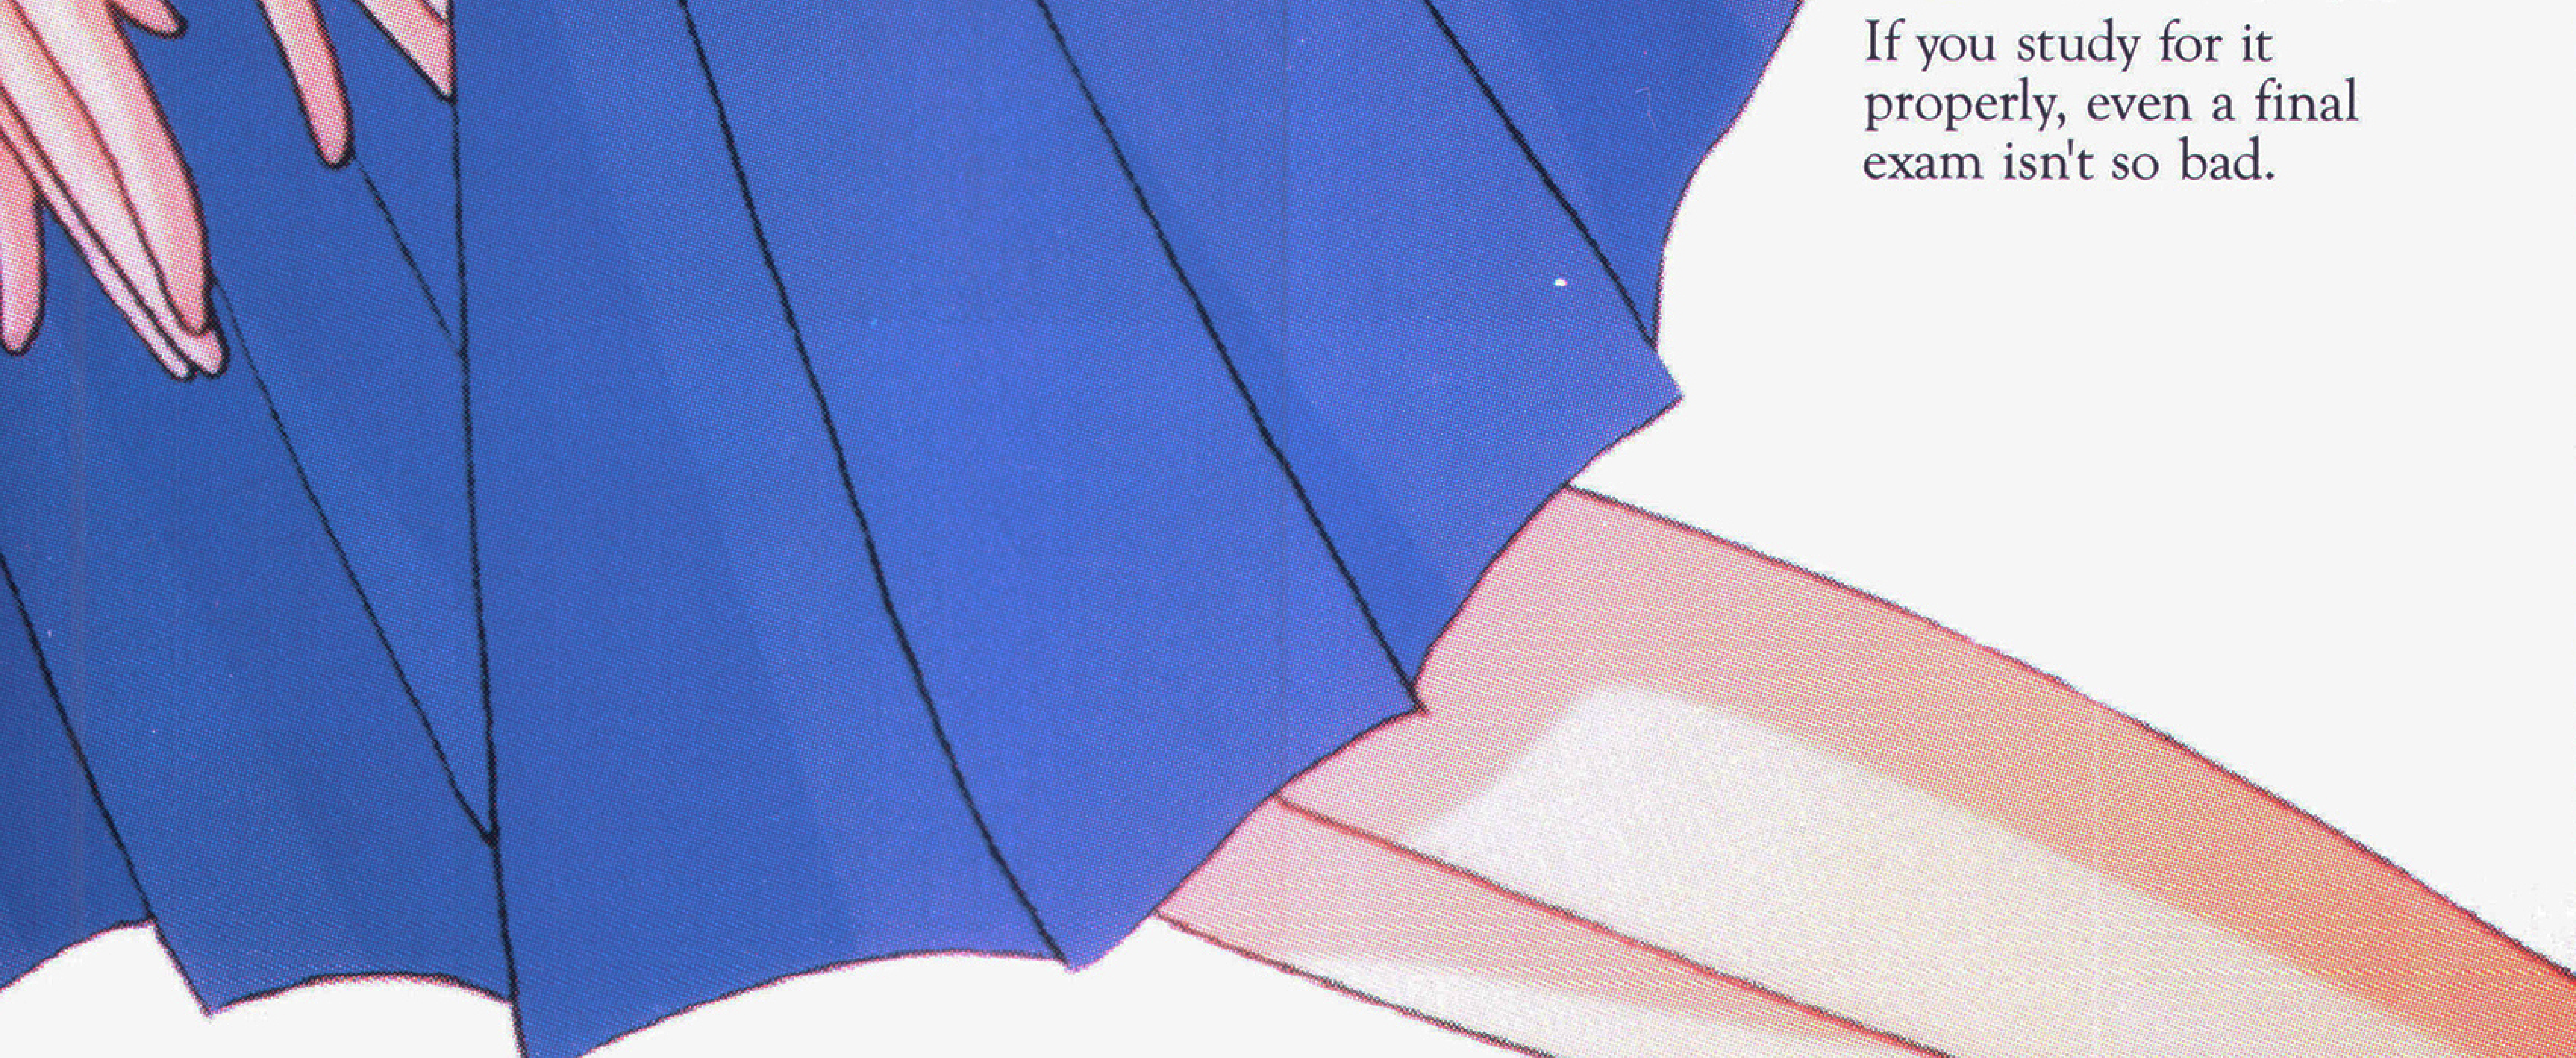
During lunch break, I borrow a computer in the audio-visual room and use it to study.



Even during lunch period, I don't give up on my studying.

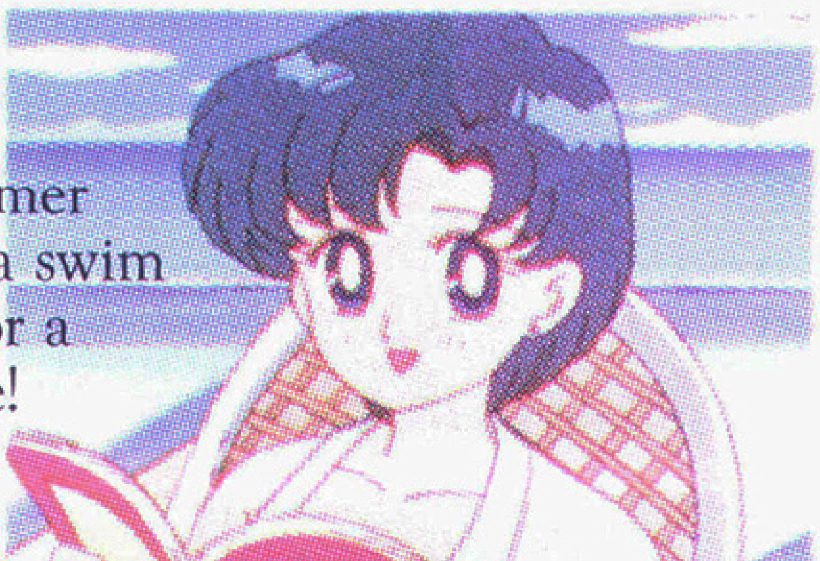


If you study for it properly, even a final exam isn't so bad.

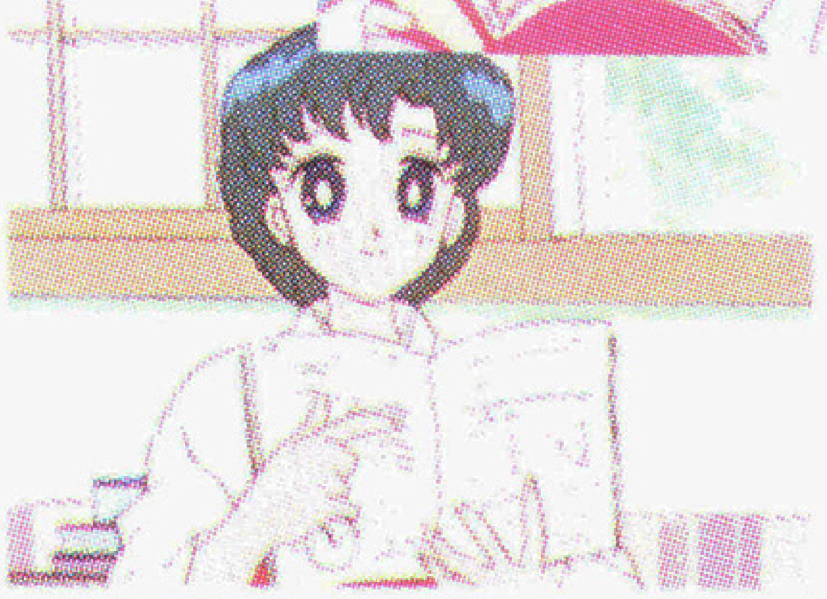


# Amy's Days Off

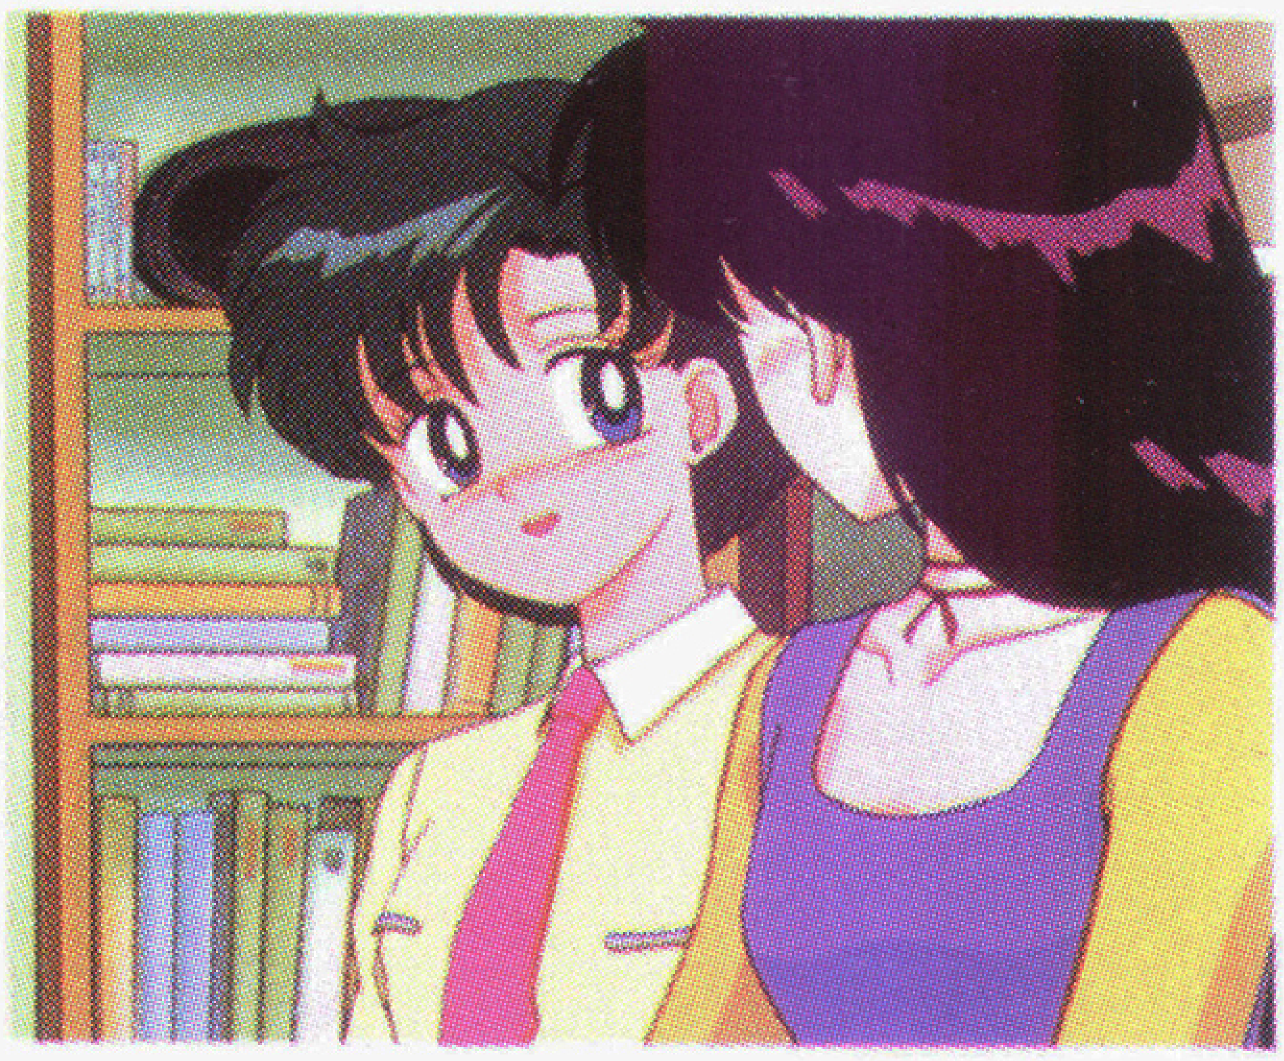
Studying is important, but it's even more important to spend time with friends. I especially value my time with Serena. She opened her heart to me when everyone else just ignored me because I was kind of a nerd. I treasure every moment we get to spend together. Now I'll introduce you to the ordinary, everyday me.



When summer comes, it's a swim in the sea or a pool for me!

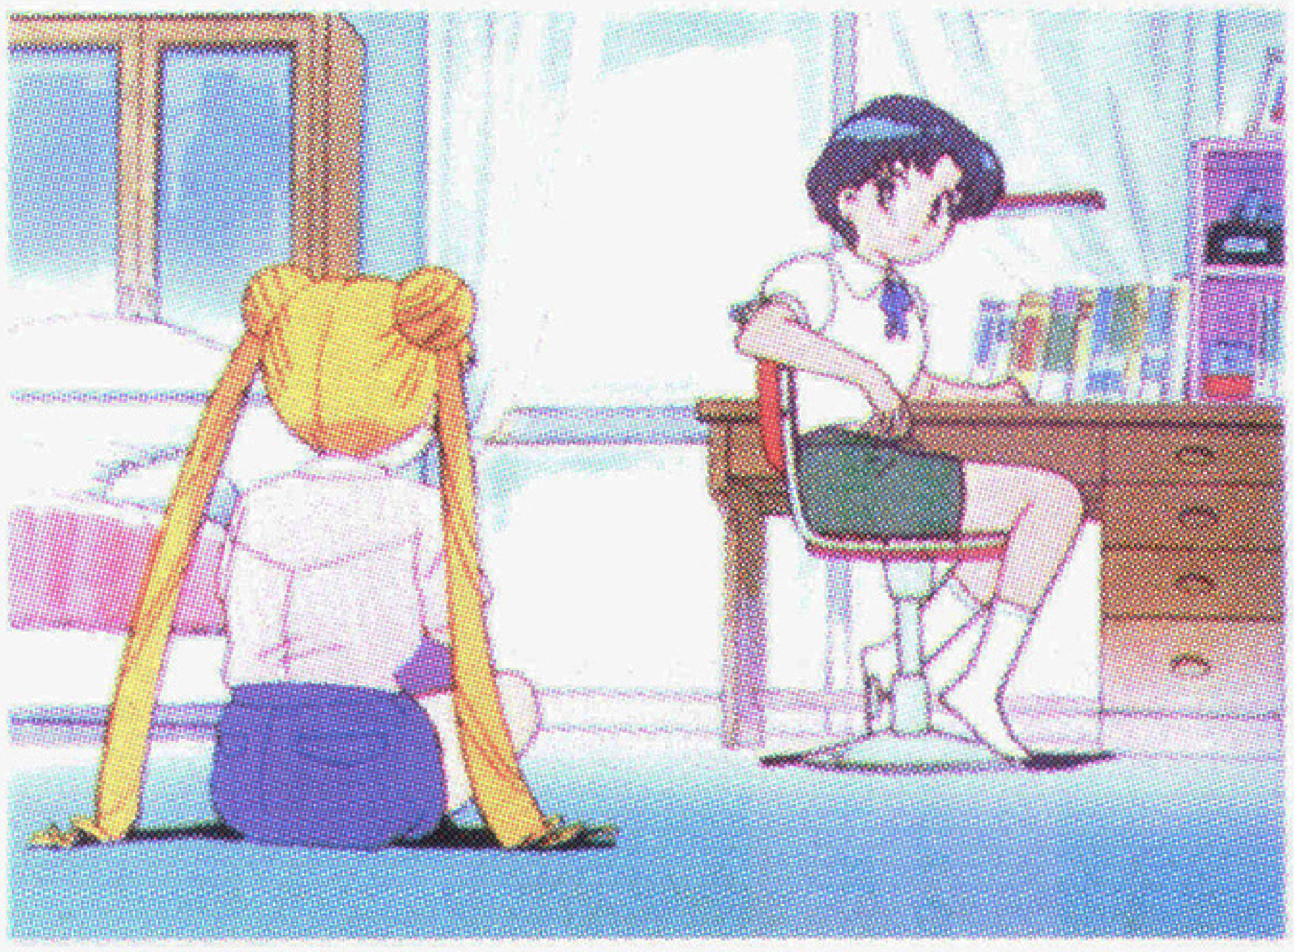


I work part-time at the Hikawa shrine, but I don't forget to study!

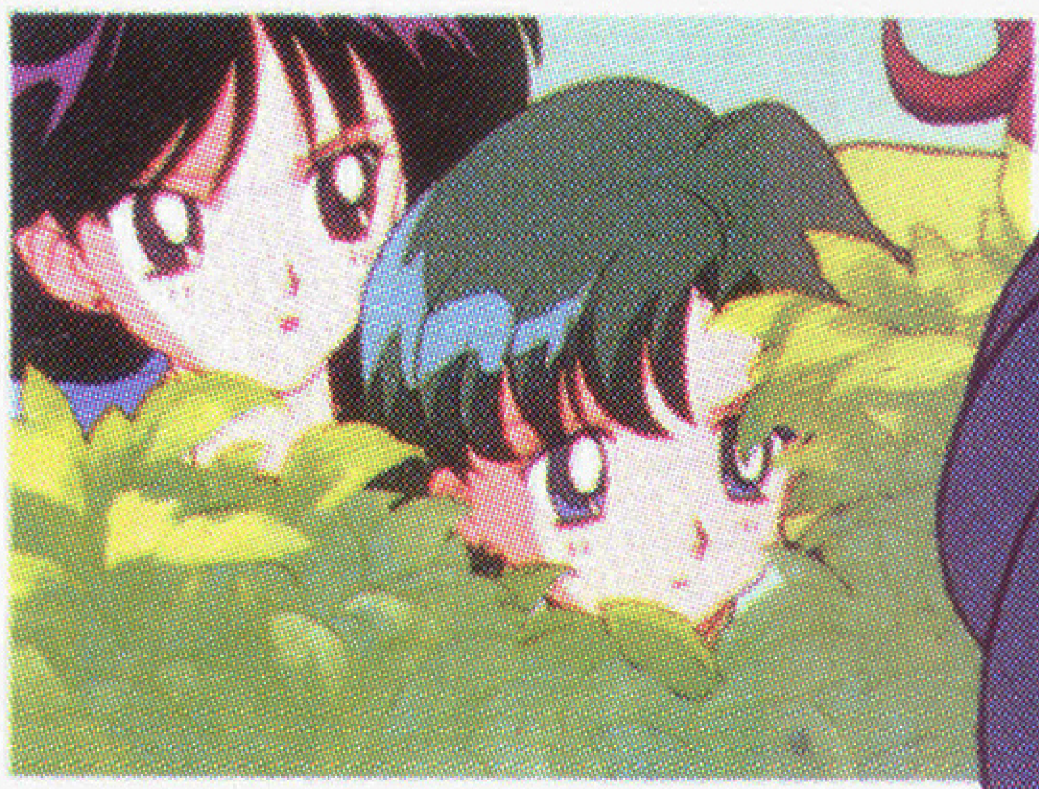


When I said Darien was popular with other boys, everyone laughed. Did I say something wrong?

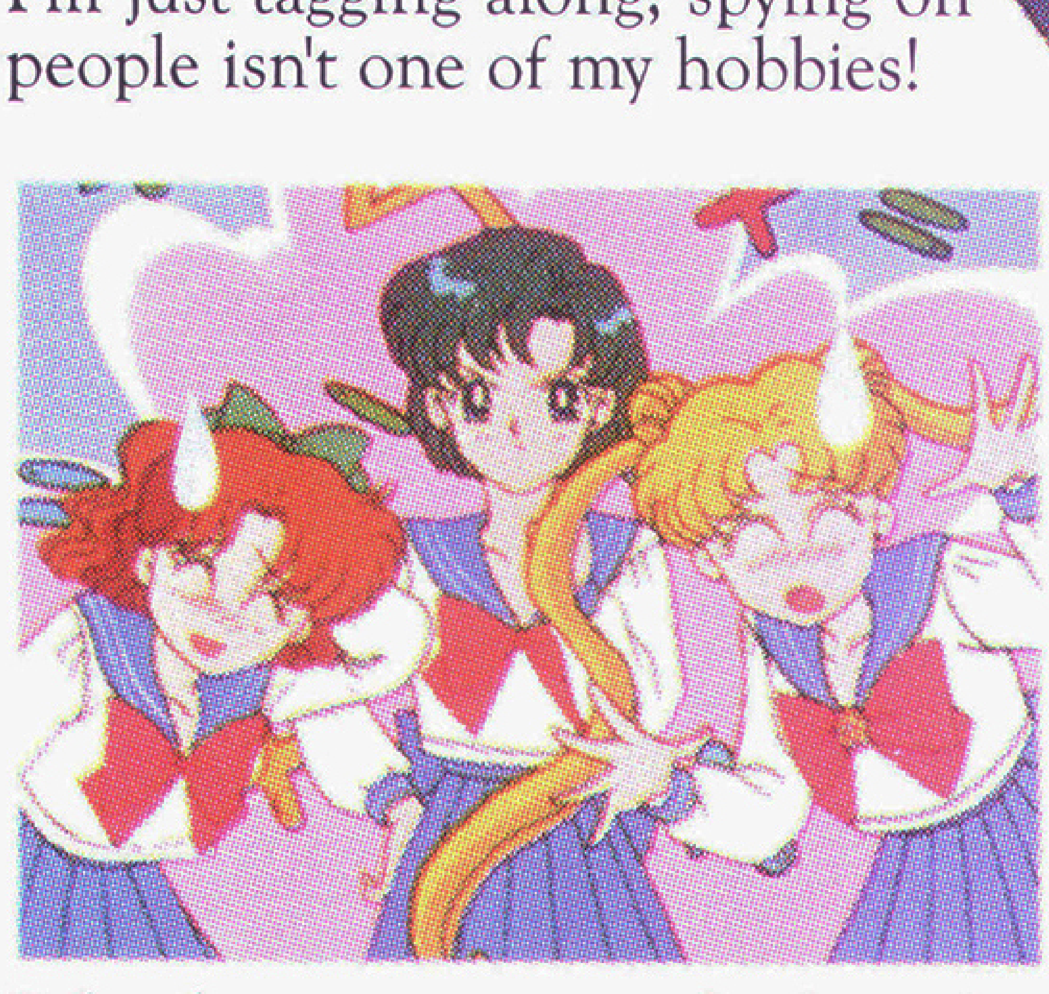
Serena is the first friend who came to visit my house.



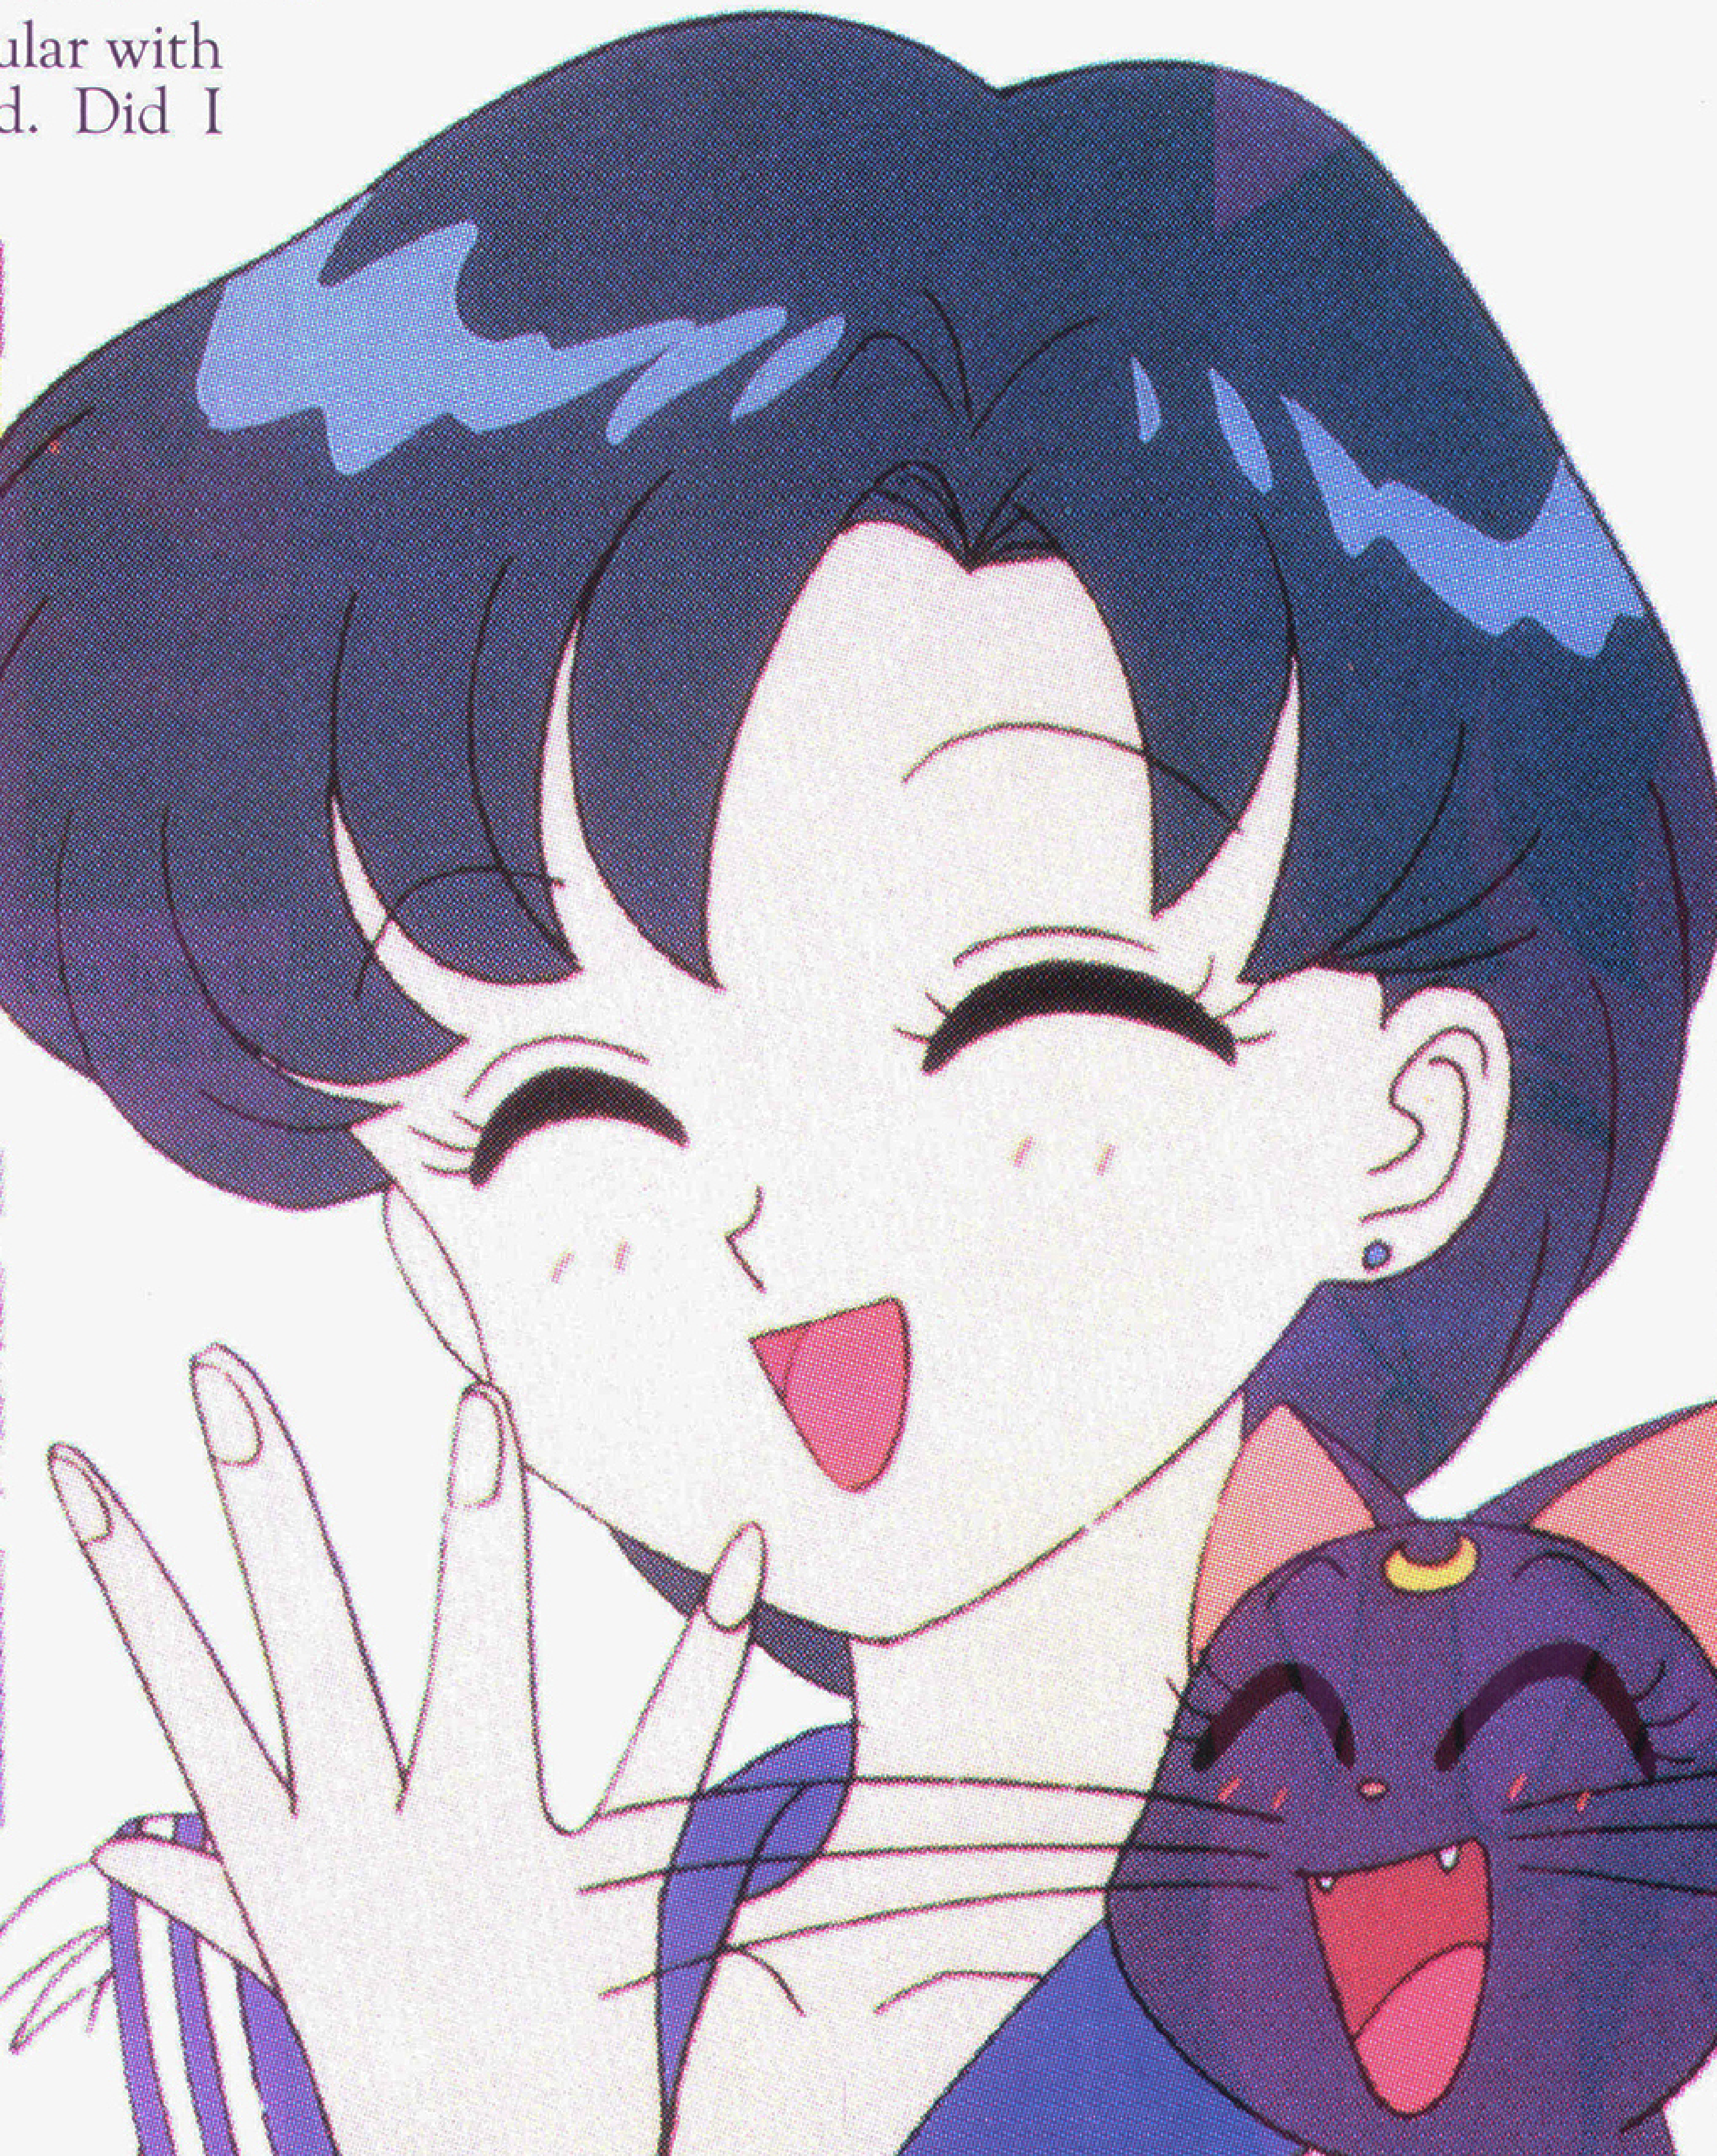
I'm also very close to Luna. Our conversations are lively, because she's really smart.



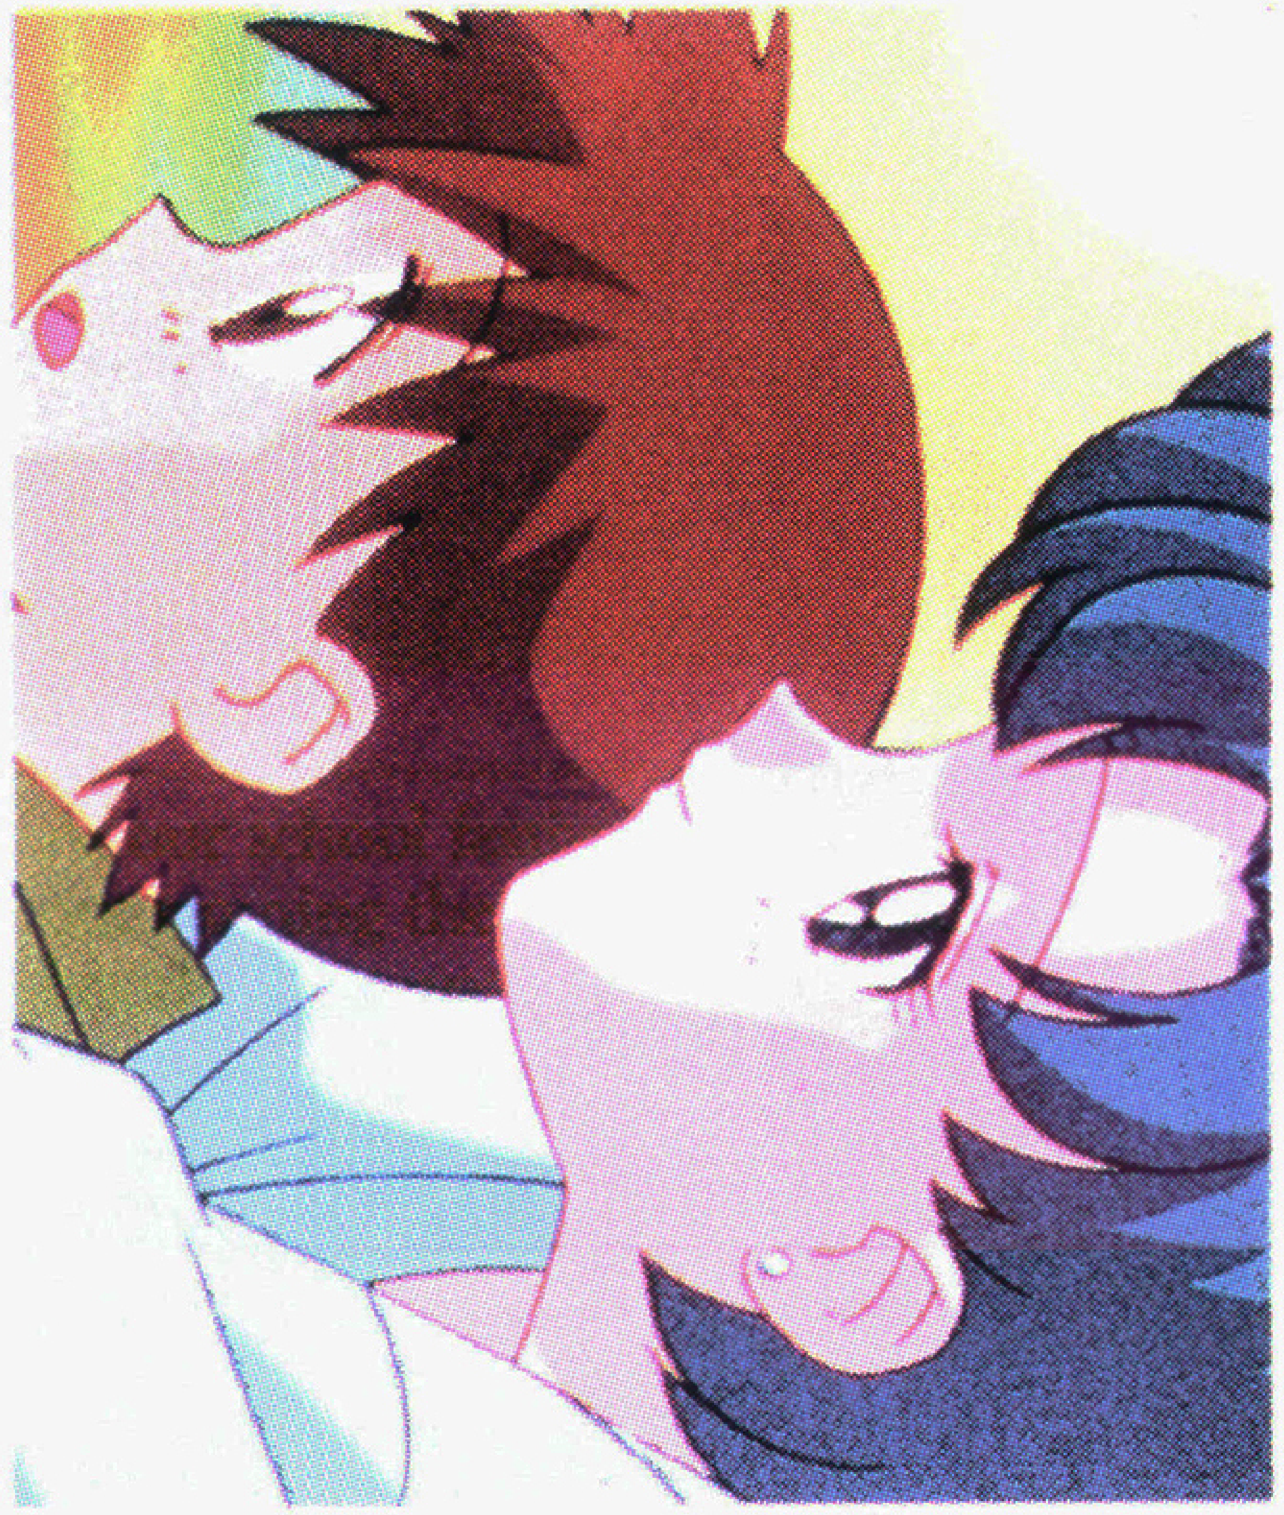
I'm just tagging along; spying on people isn't one of my hobbies!

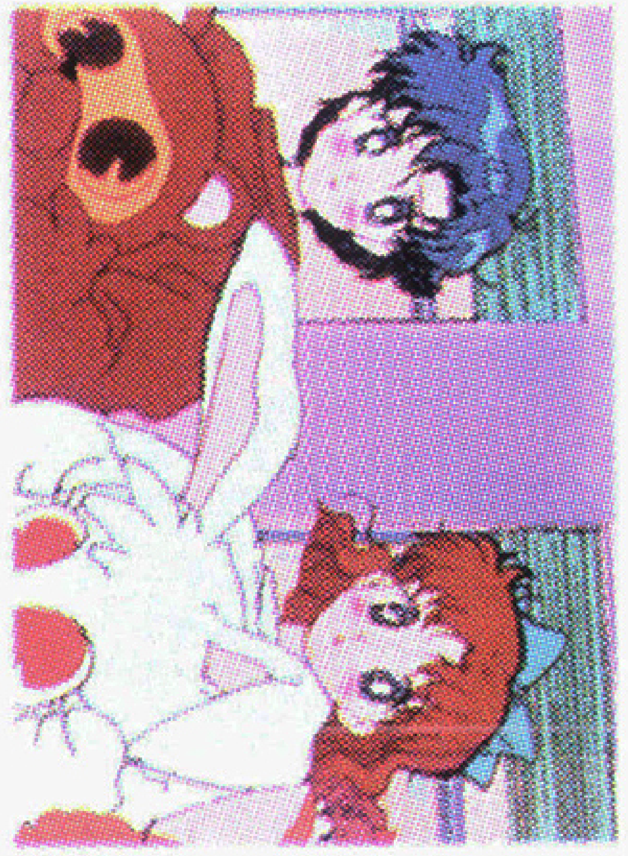


Why does everyone make fun of me when I'm trying to be serious?



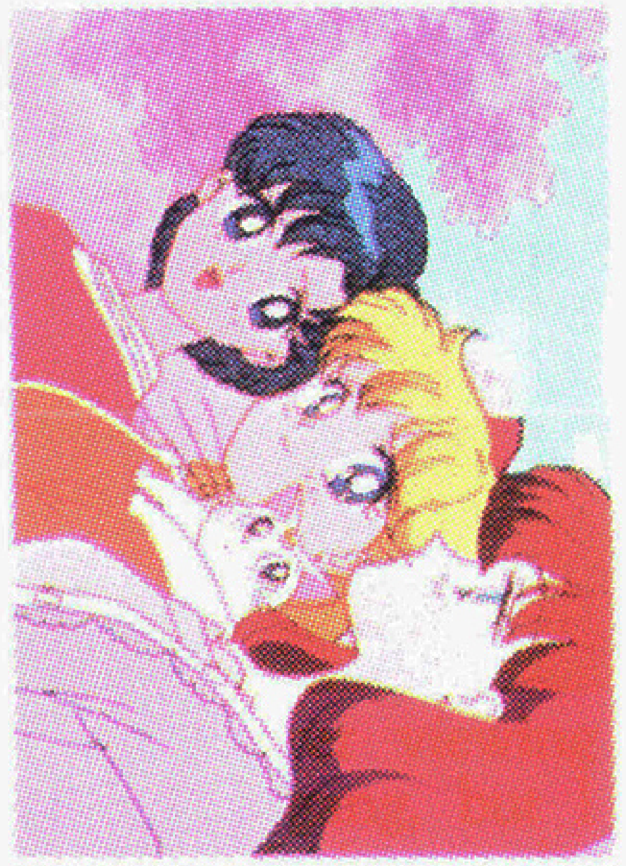
At our school festival, we all helped out running the 'Catch the Goldfish' booth. That was fun!

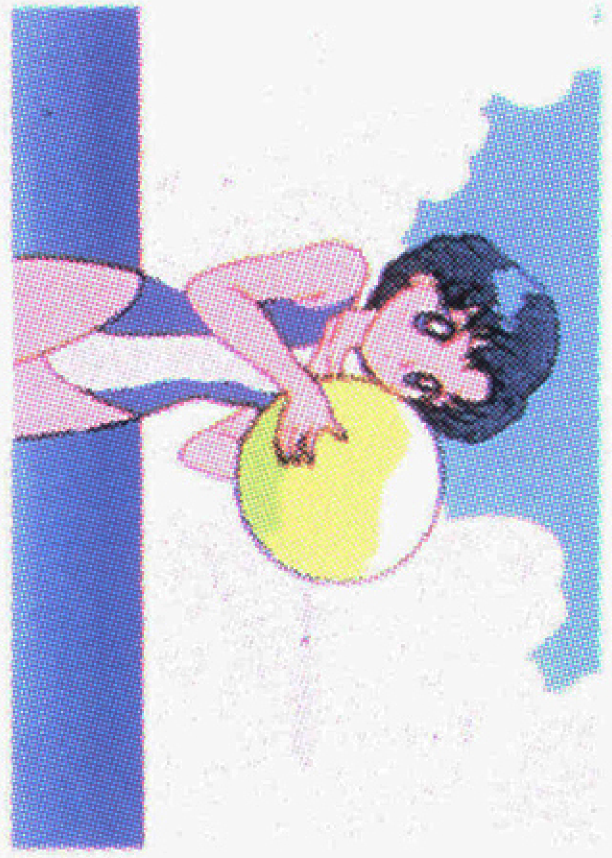




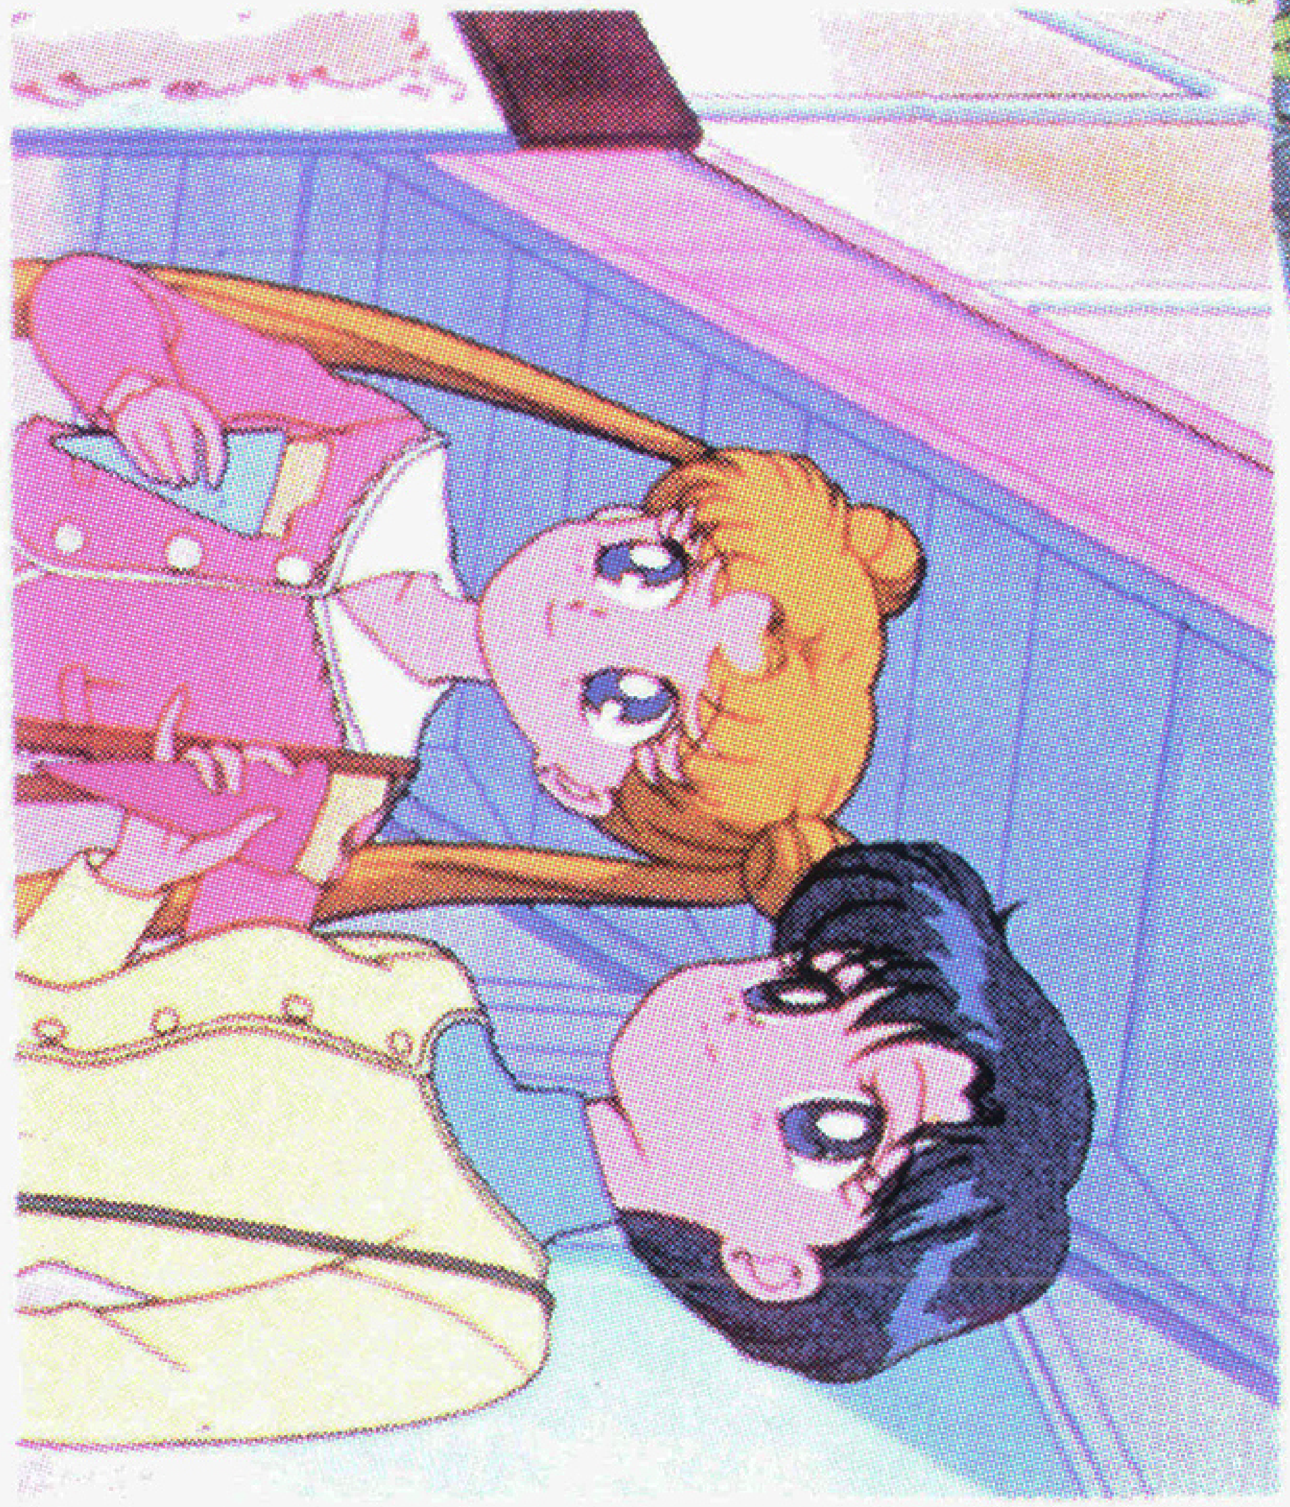
Rehearsing a play is fine with me, but does it have to be for this role?

I go flower viewing with the gang, but I wonder if it's not the great box lunches that I'm really after.



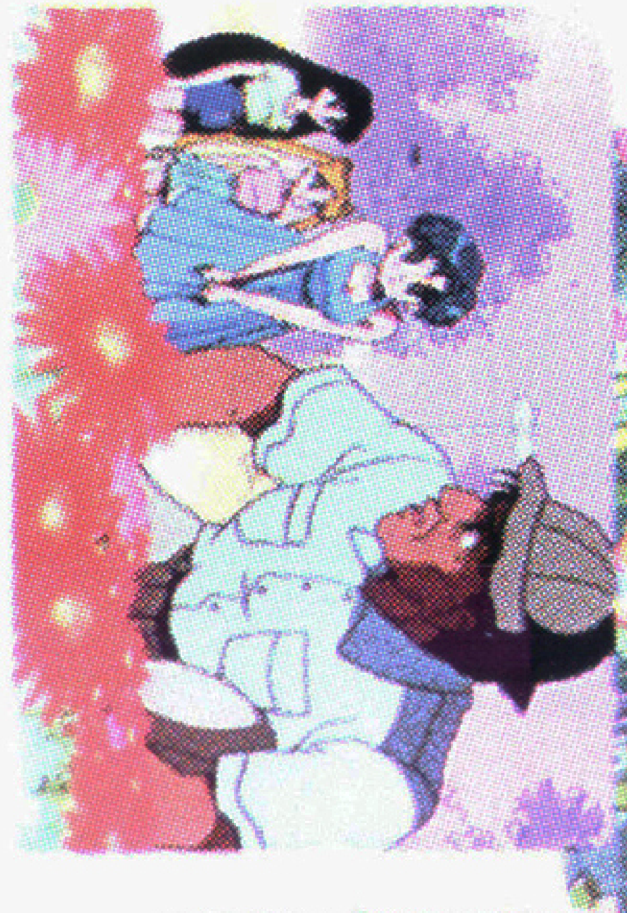


Once I stayed at a beach house with my friends.

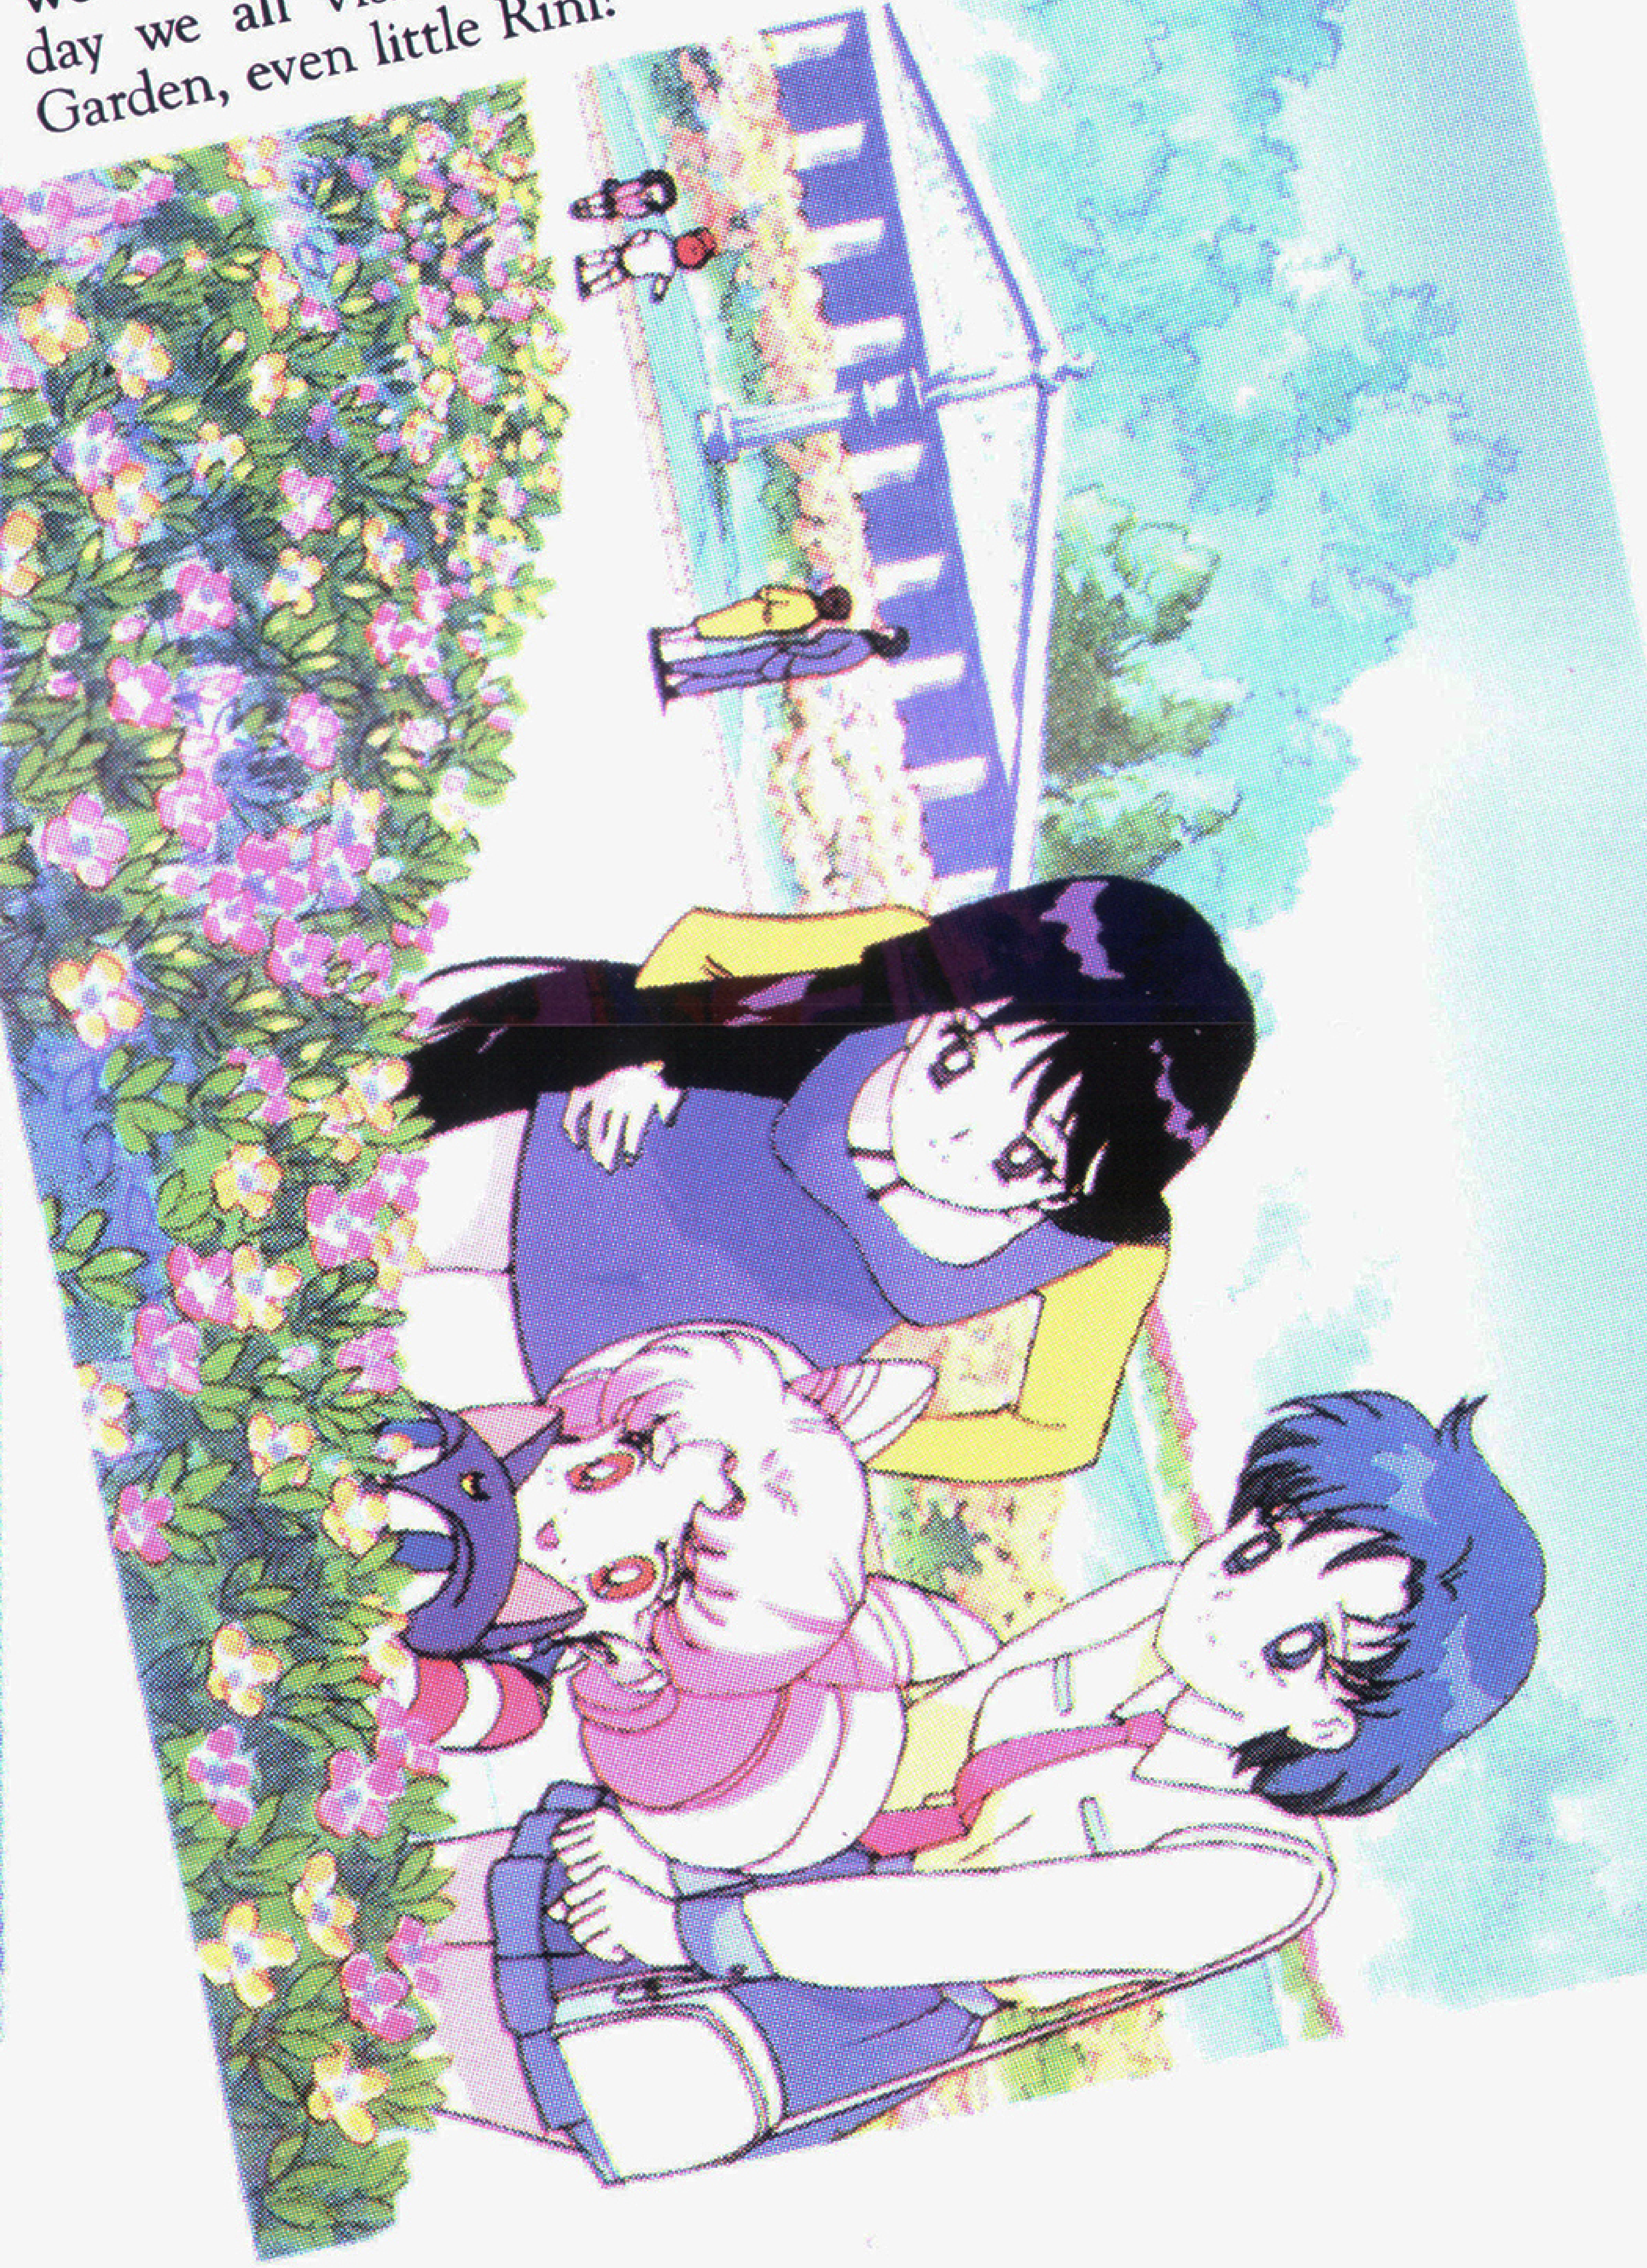


Here I'm seeing the sites of a new city with Serena. It was really crowded and bustling.

When I get tired of studying, I go to a nearby park to relax.

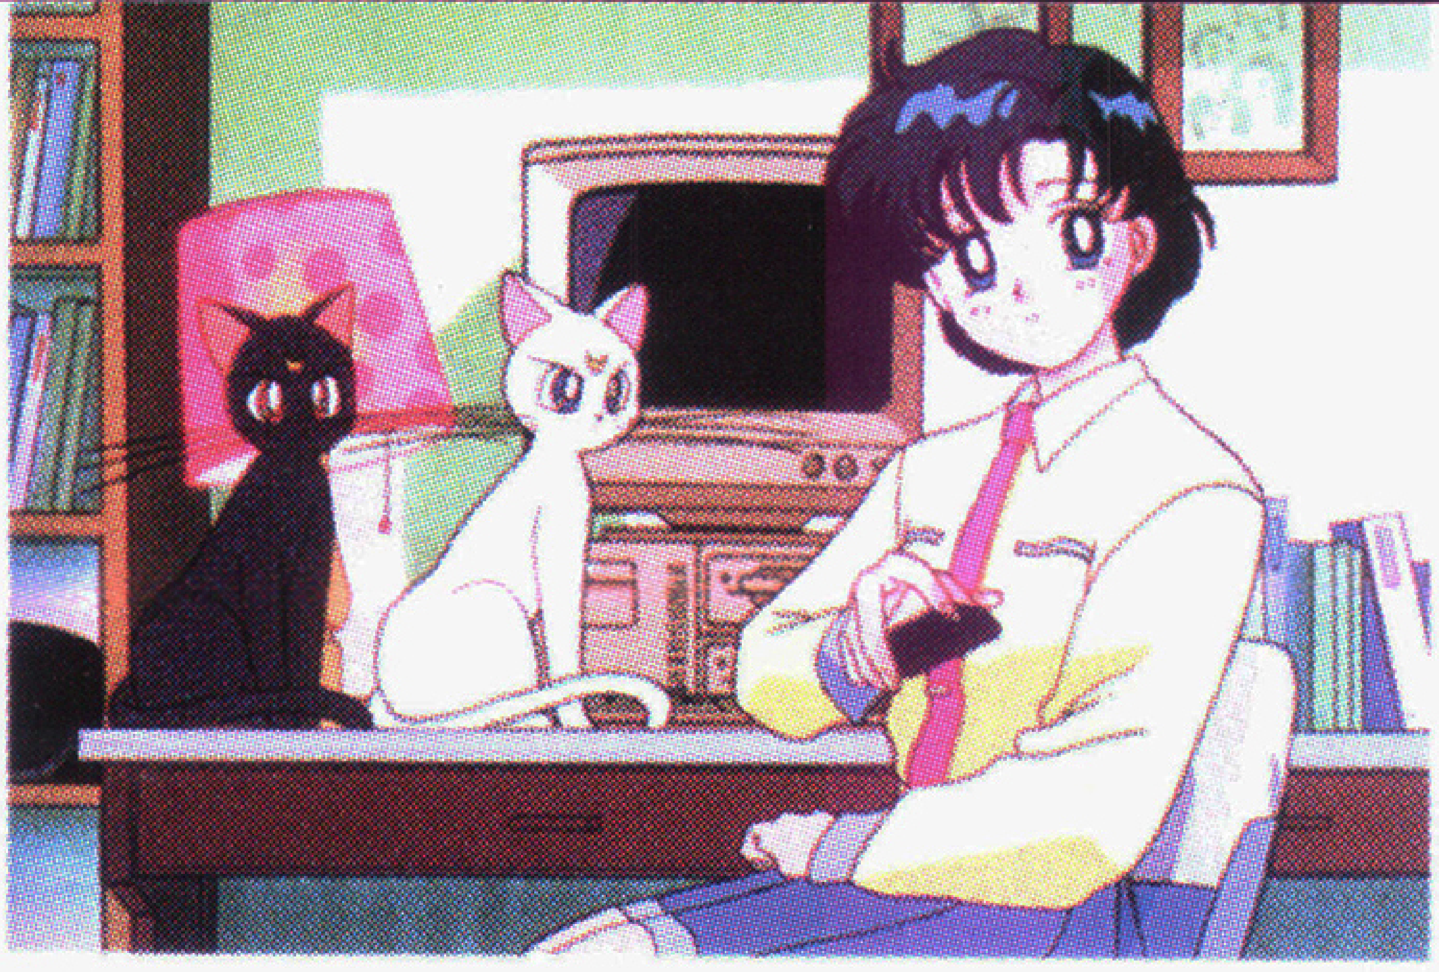


We do everything together! One day we all visited the Botanical Garden, even little Rini!

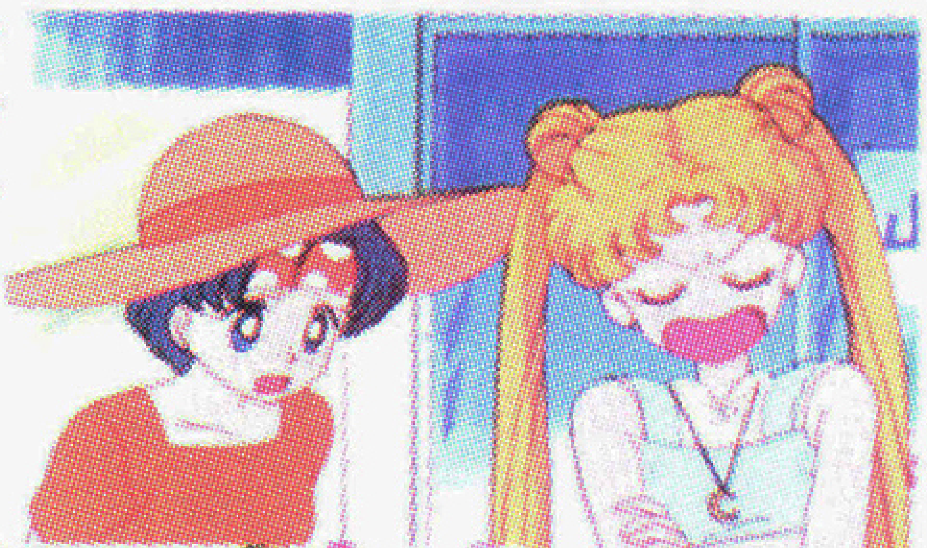


# Amy's Fashion Scrapbook

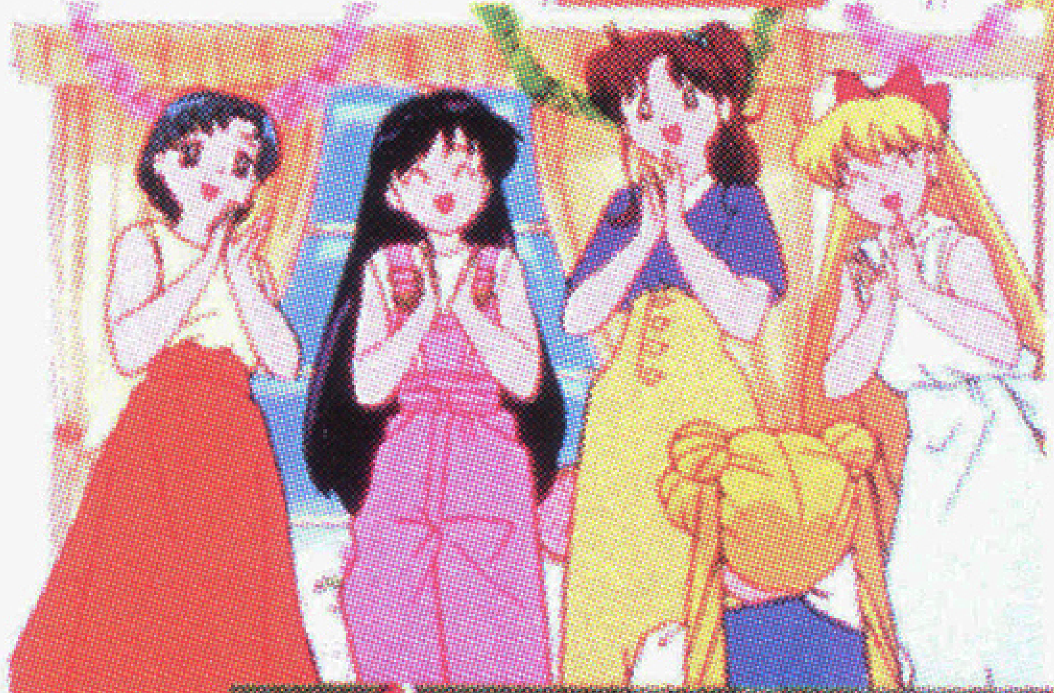
Just because I'm a workaholic when it comes to school doesn't mean I'm not fashion-conscious. I'm still a girl, you know, so when I put together an outfit, it's impressive and beautiful! "Impressive and beautiful!" That's my fashion motto. Don't my outfits look lovely? What do you think?



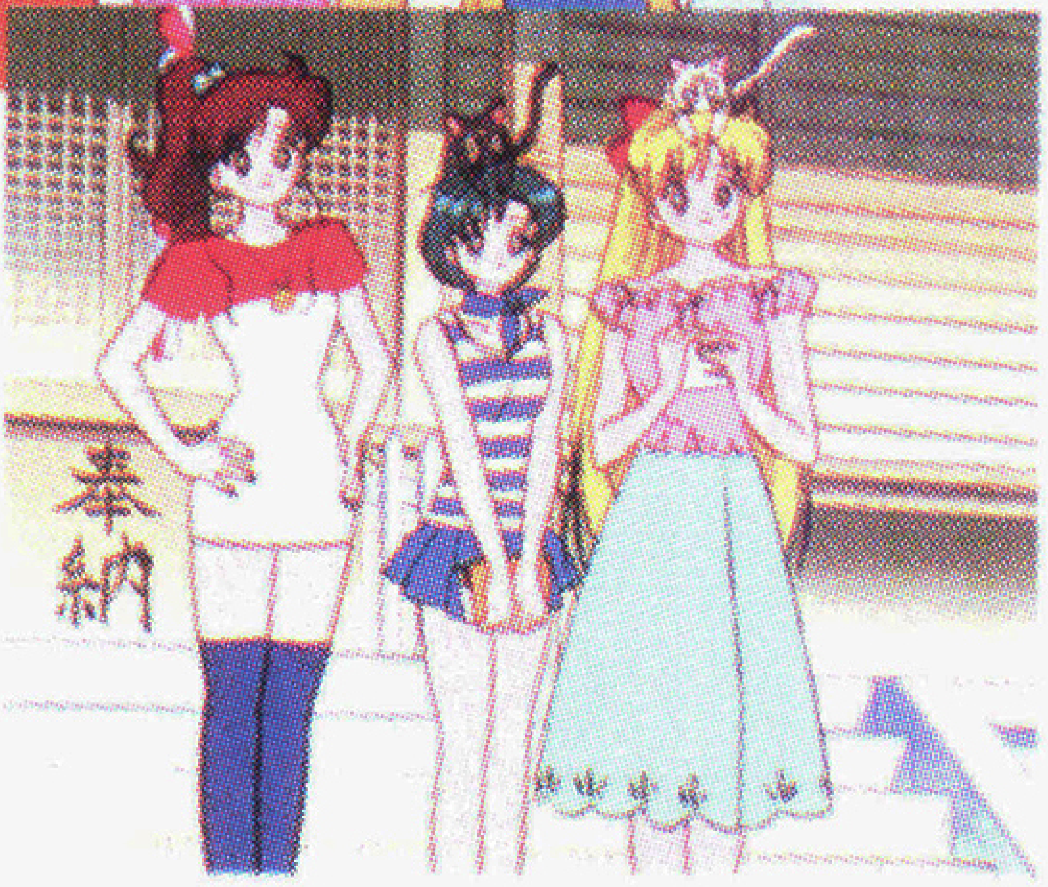
Here I combine a slim tie with a favorite blouse, for more of an adult look.



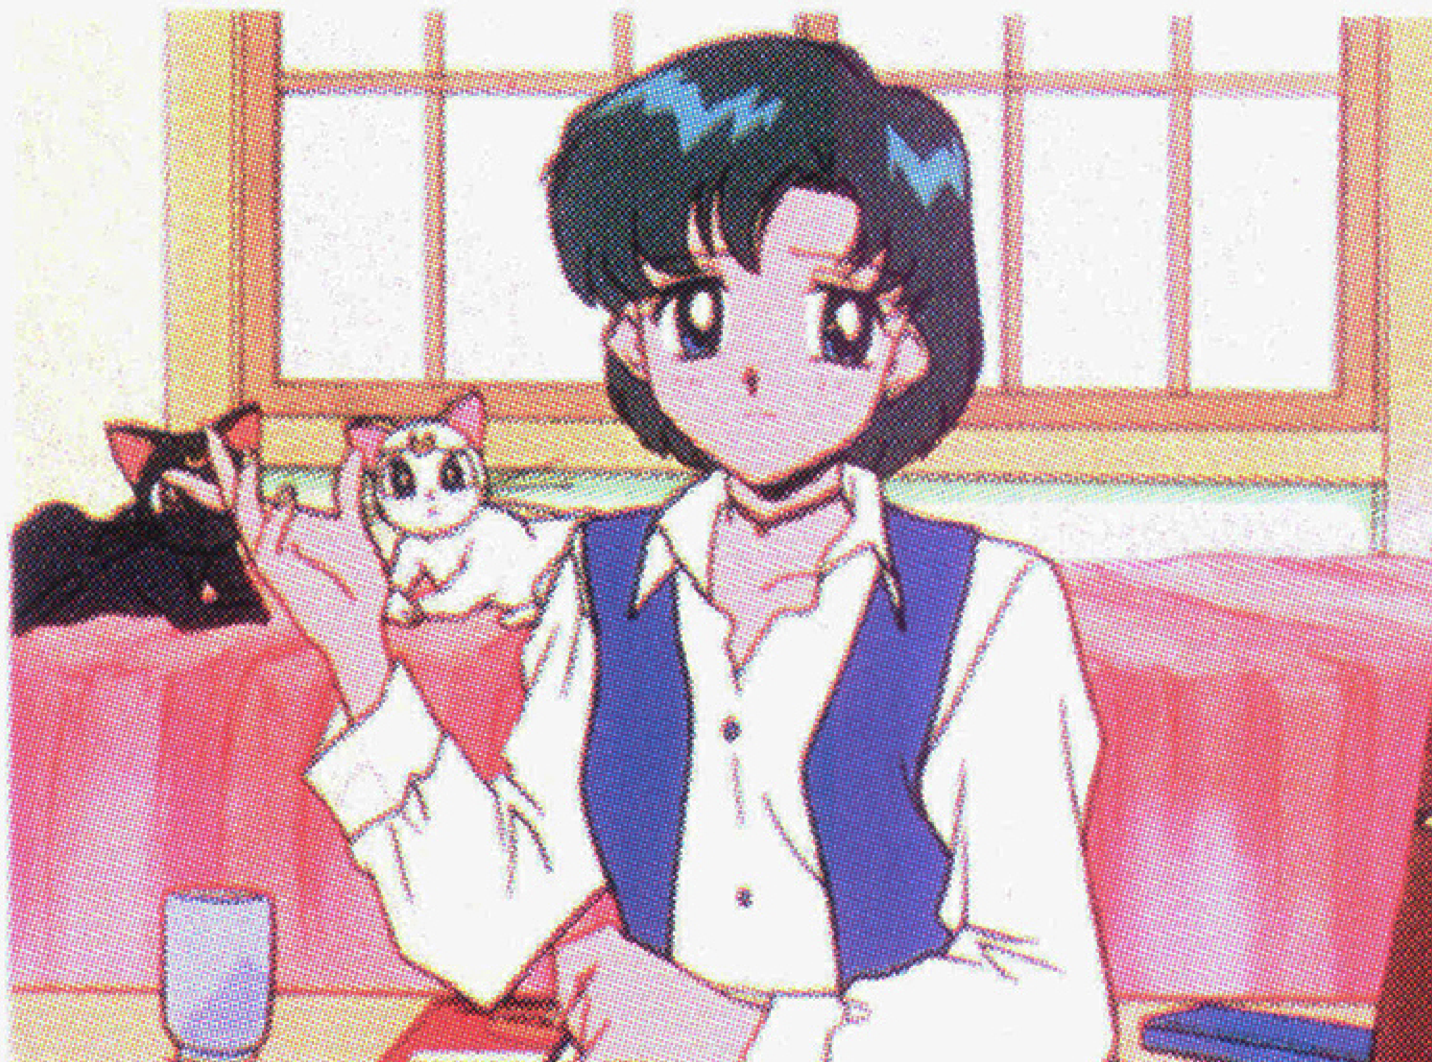
This is my summer outing outfit. Below the T-shirt is a circular skirt.



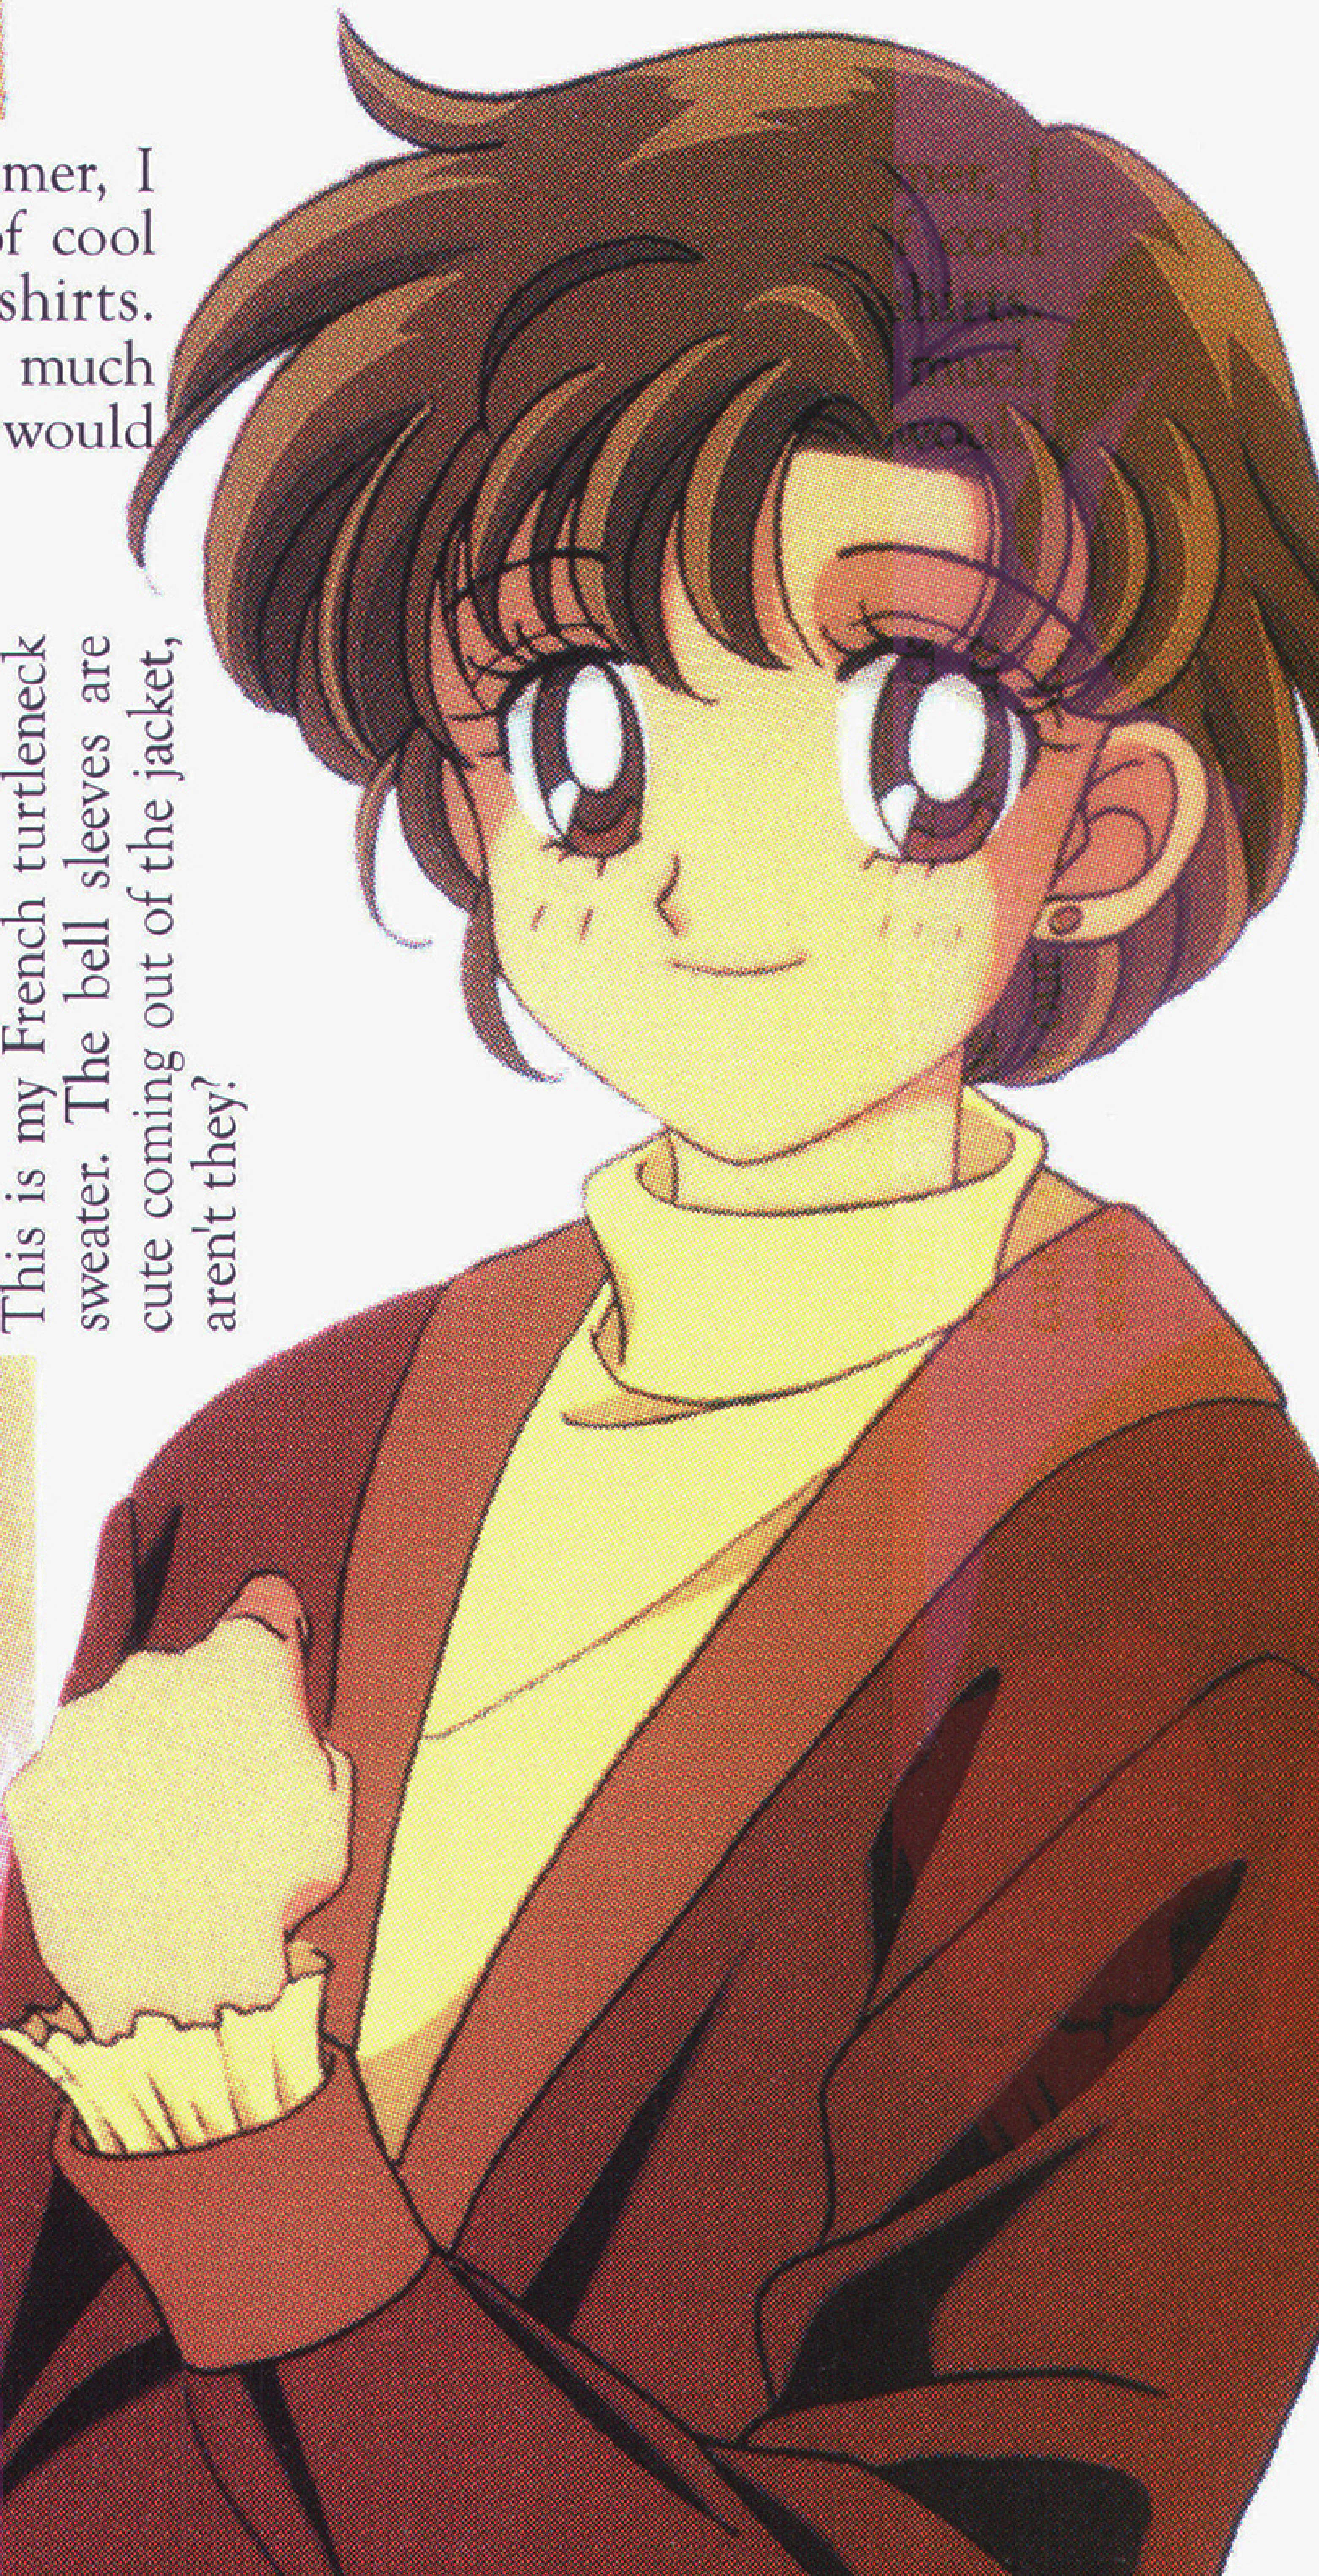
In the summer, I wear lots of cool sleeveless shirts. It's pretty much what you would expect.



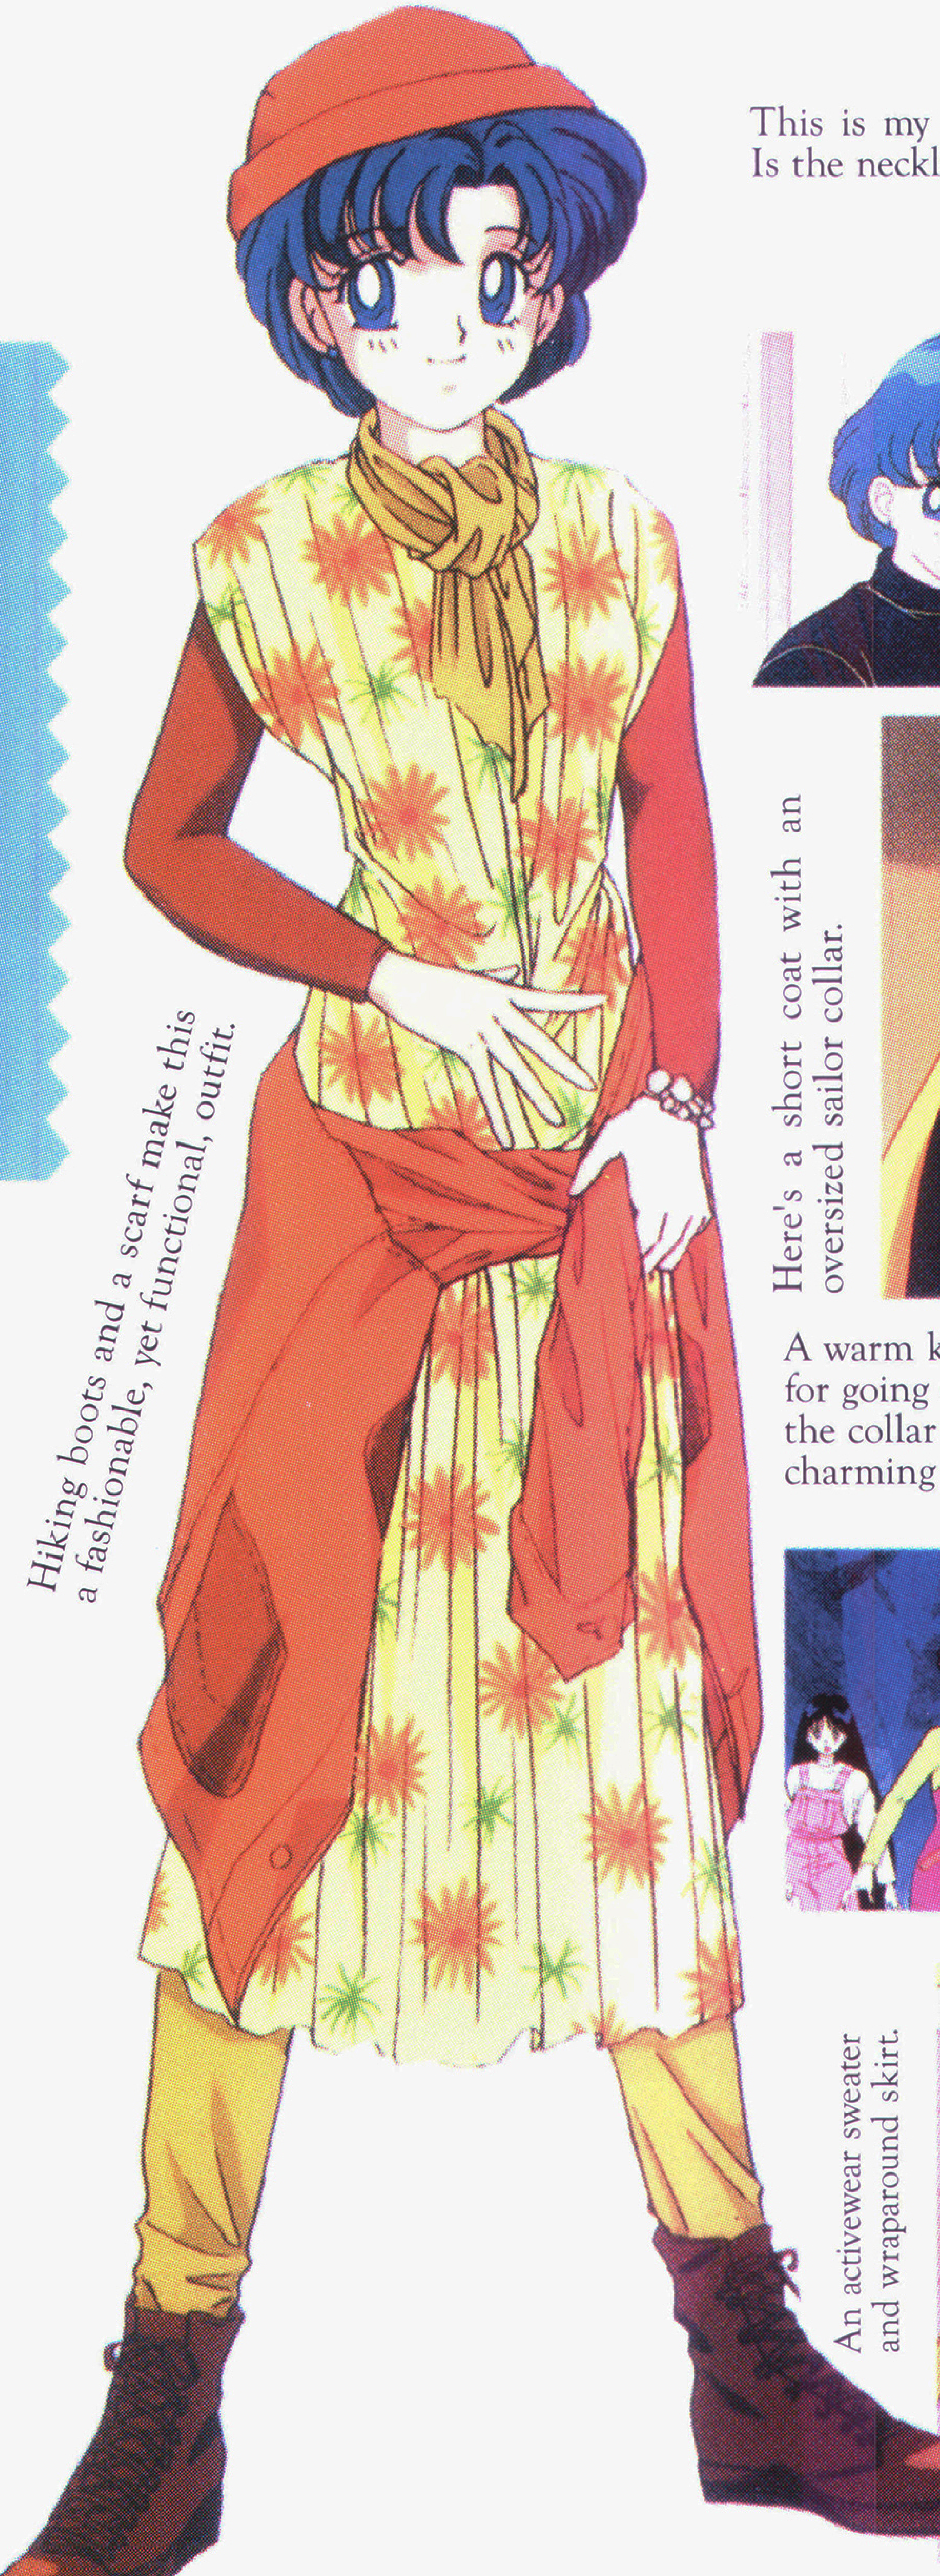
The scarf serves as a casual neck tie for the weekend.



Here I'm coordinating a vest and matching choker. Even when I study, I'm a smart dresser!

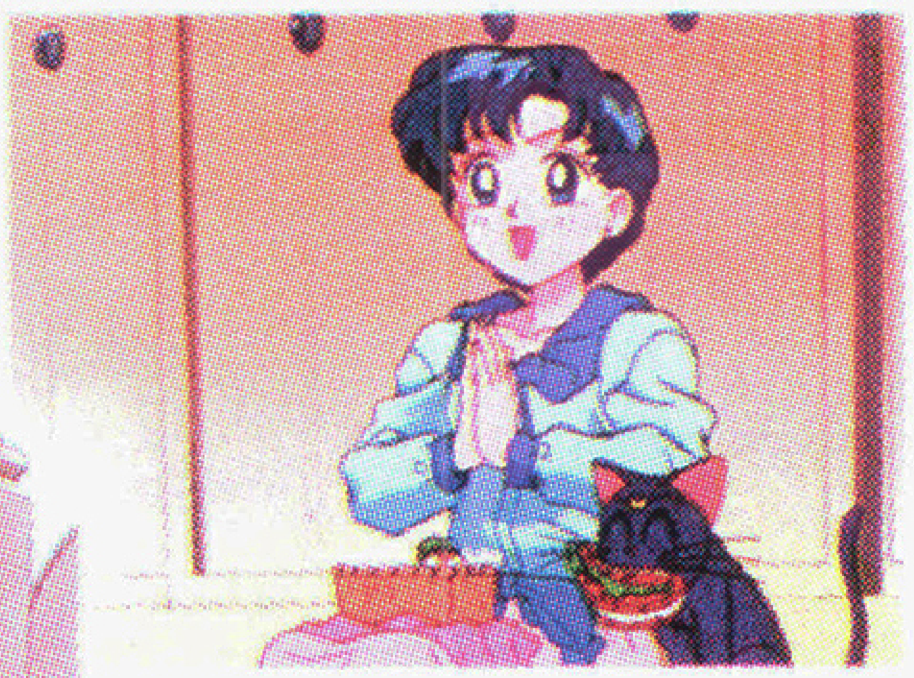


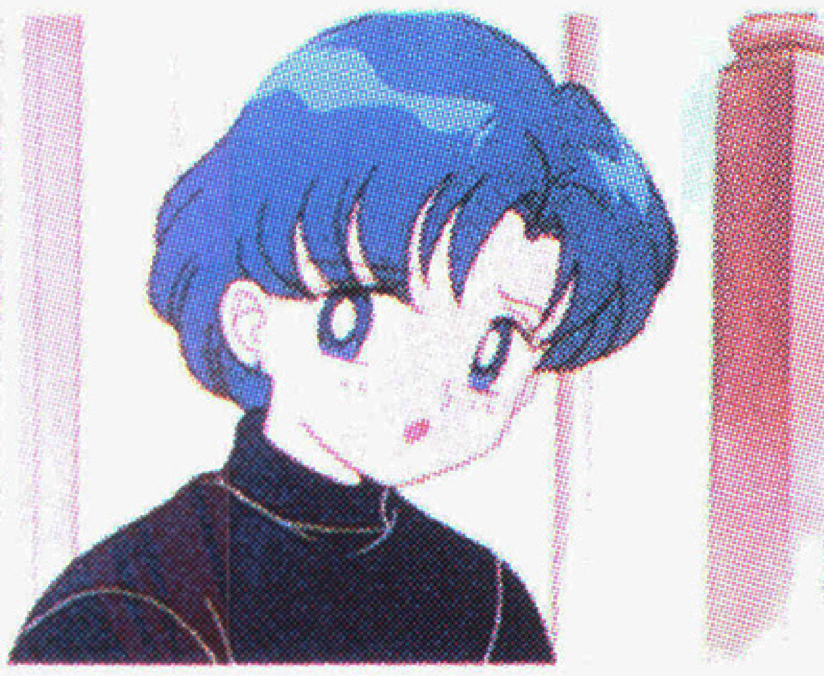
This is my French turtleneck sweater. The bell sleeves are cute coming out of the jacket, aren't they?



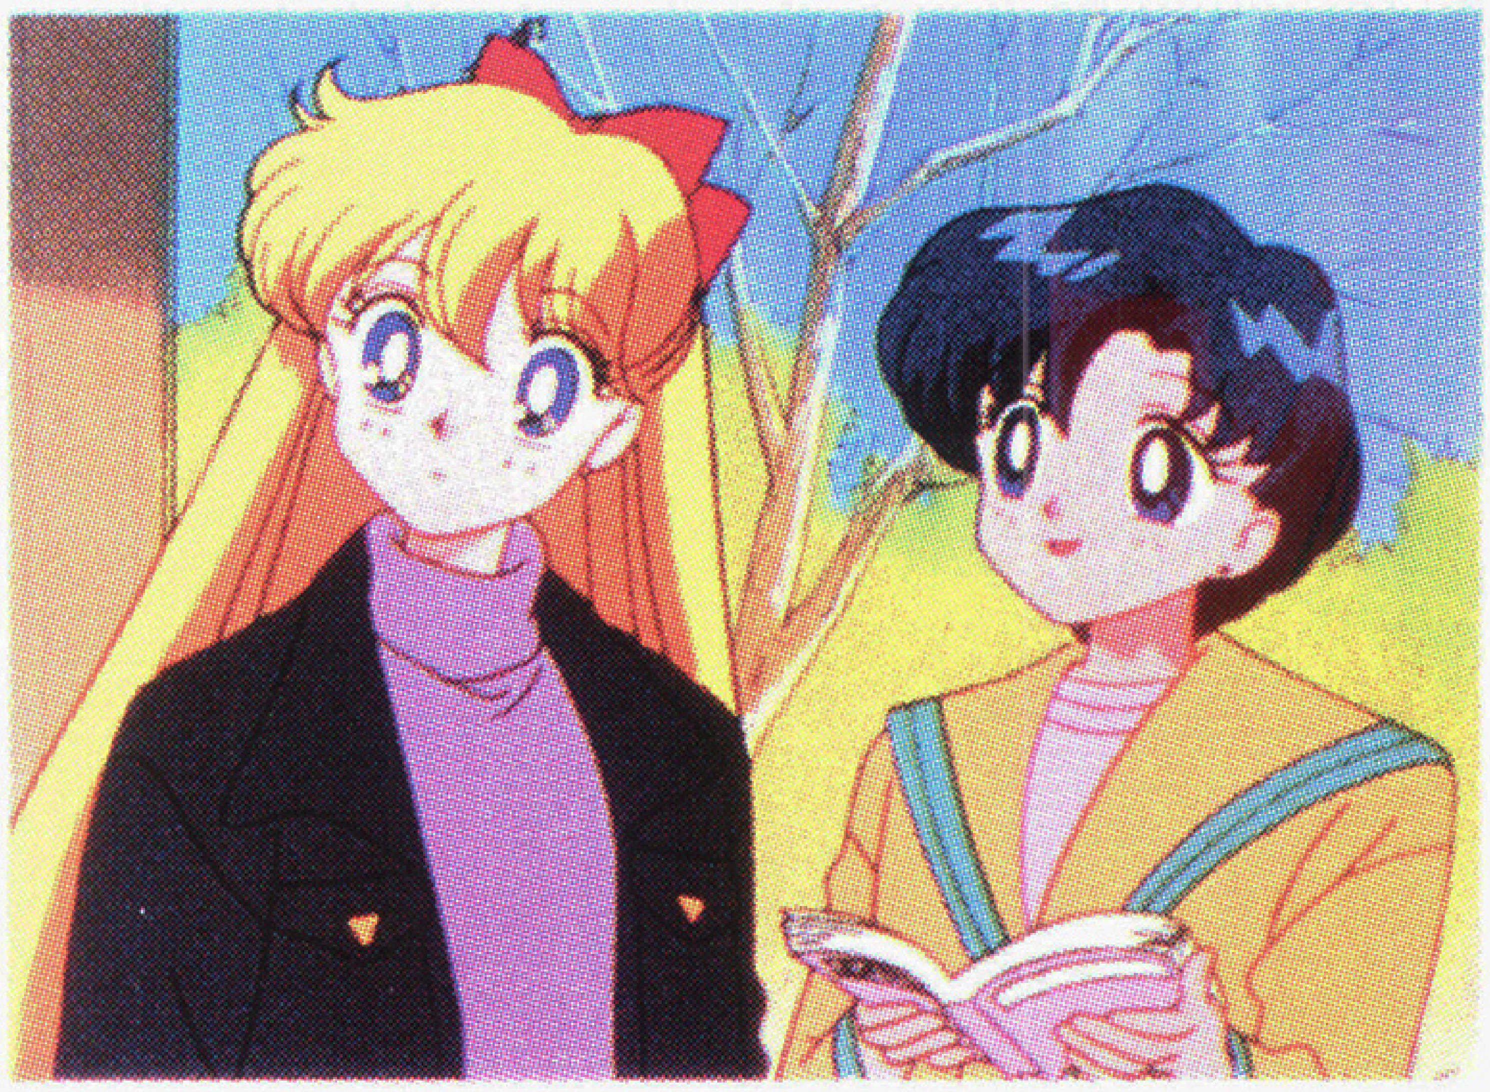
Hiking boots and a scarf make this a fashionable, yet functional, outfit.

This is my sky-blue parka. Is the neckline too low?



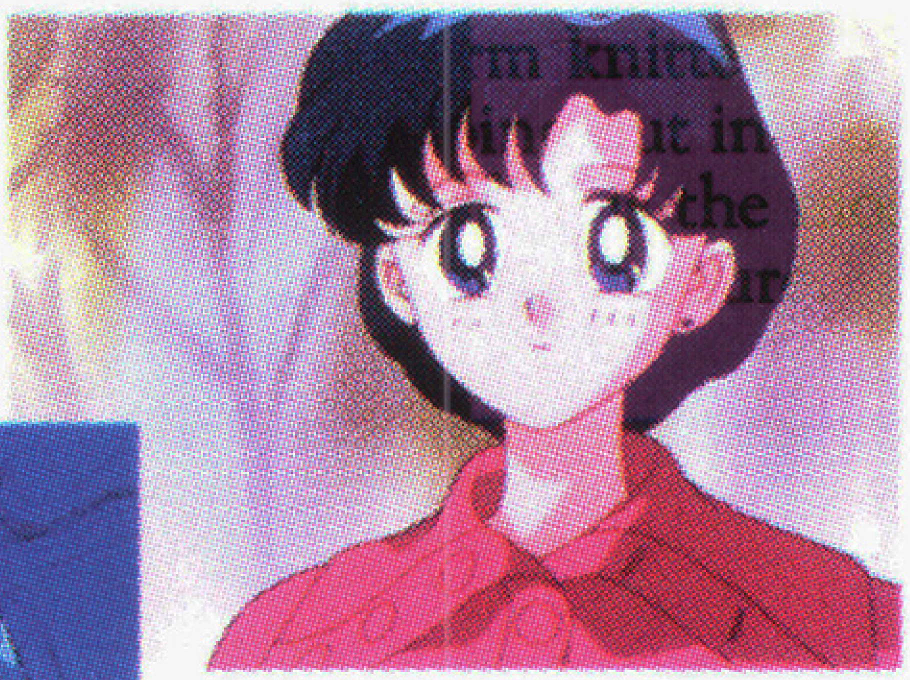


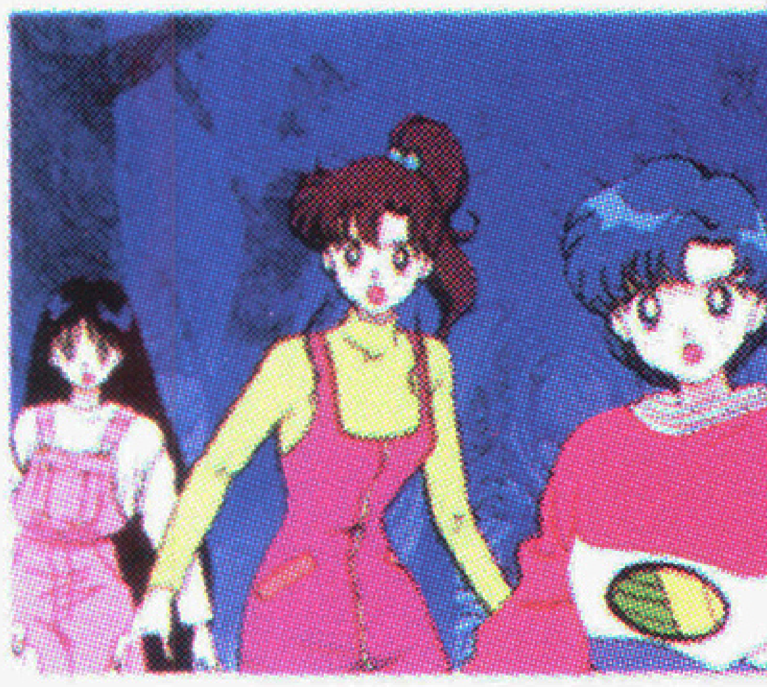
I like to wear this simple turtleneck while relaxing around the house in the winter.



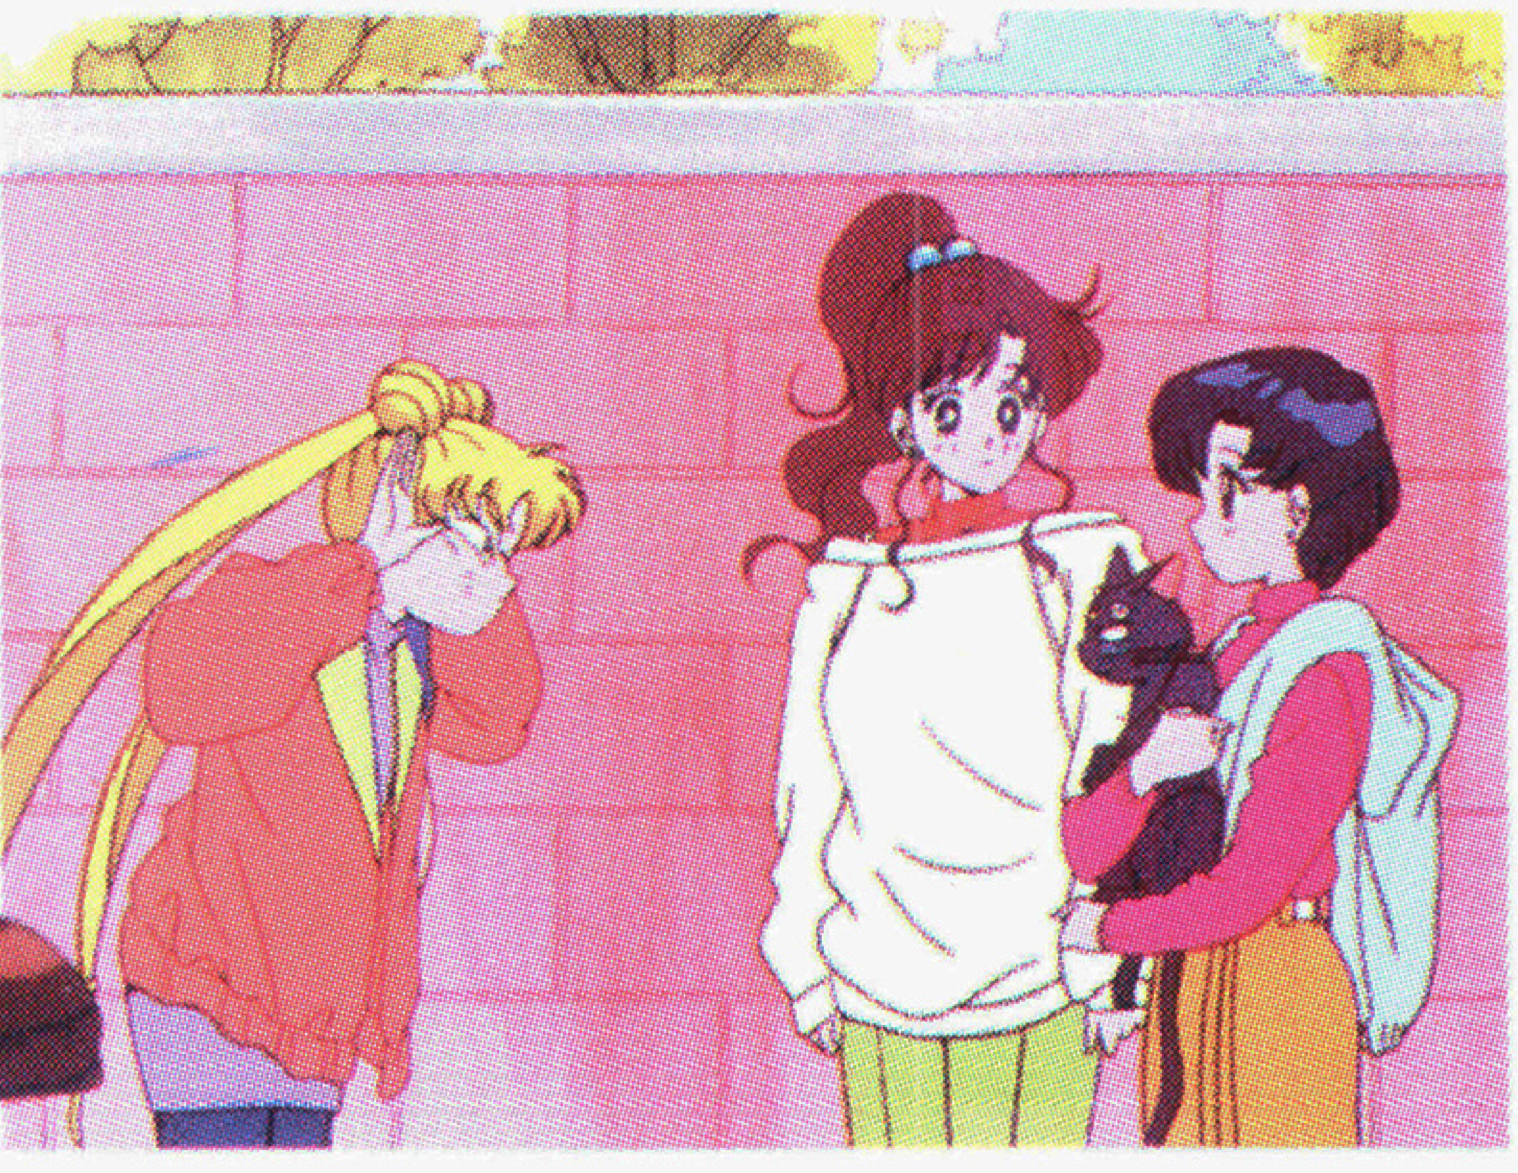
Here's a short coat with an oversized sailor collar.

A warm knitted sweater for going out in winter--the collar is the most charming feature.

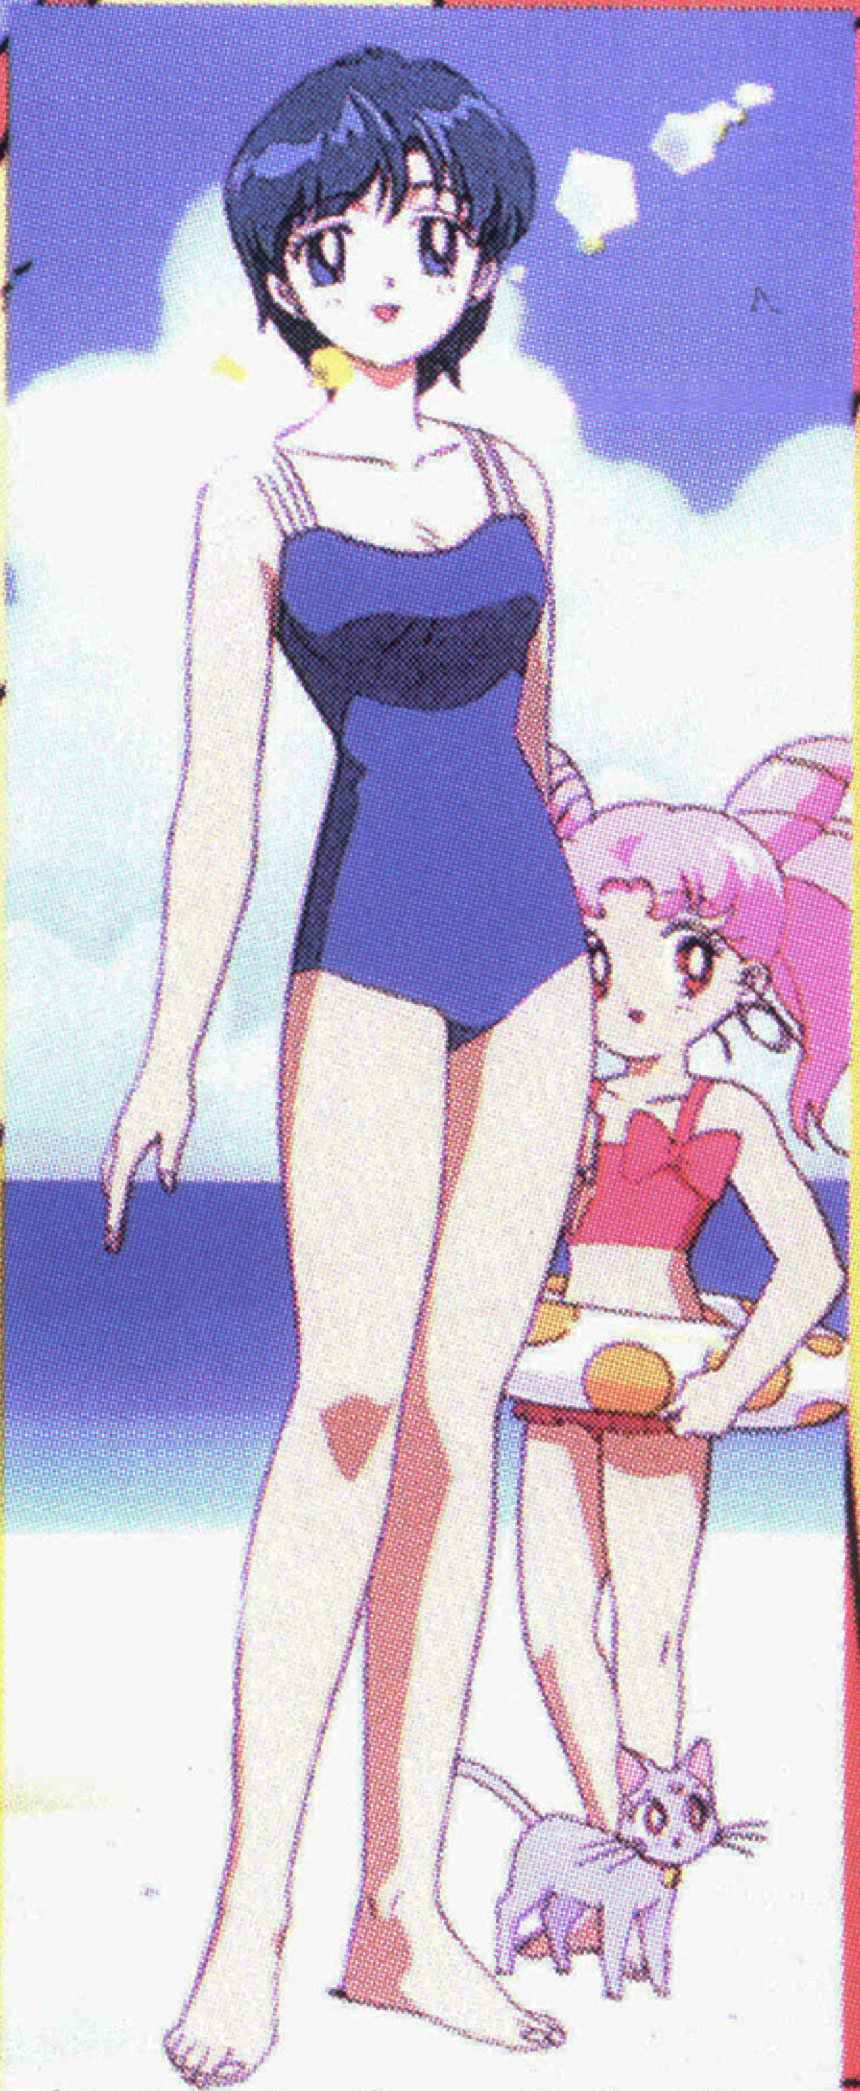




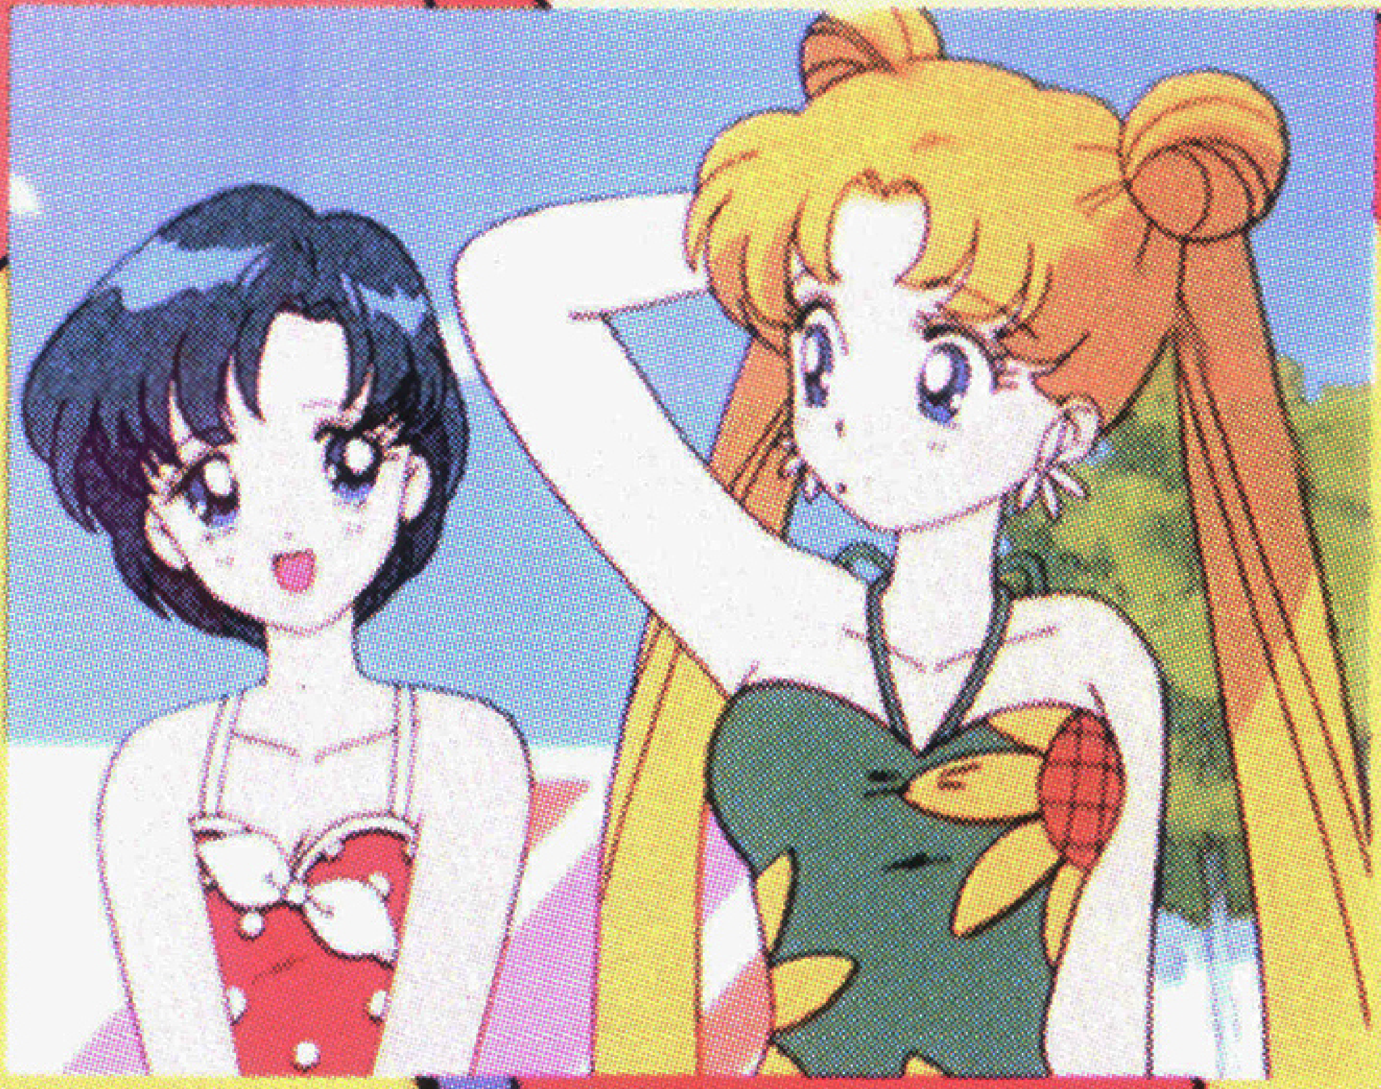
This is a loose, floppy sweatshirt. I like the pattern on it.



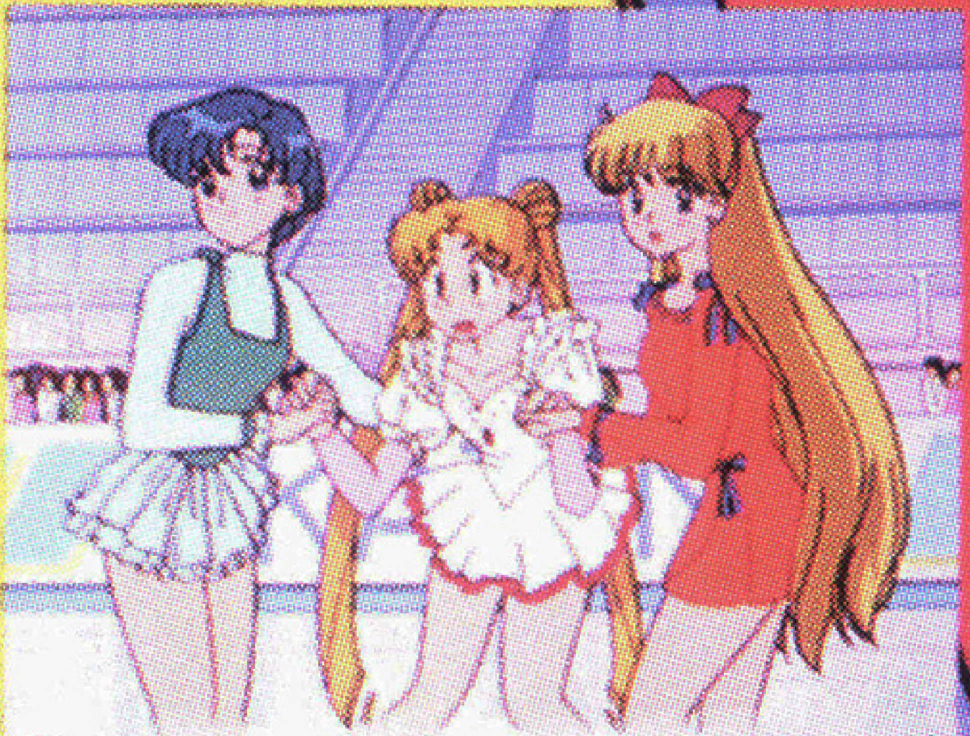
An activewear sweater and wraparound skirt.



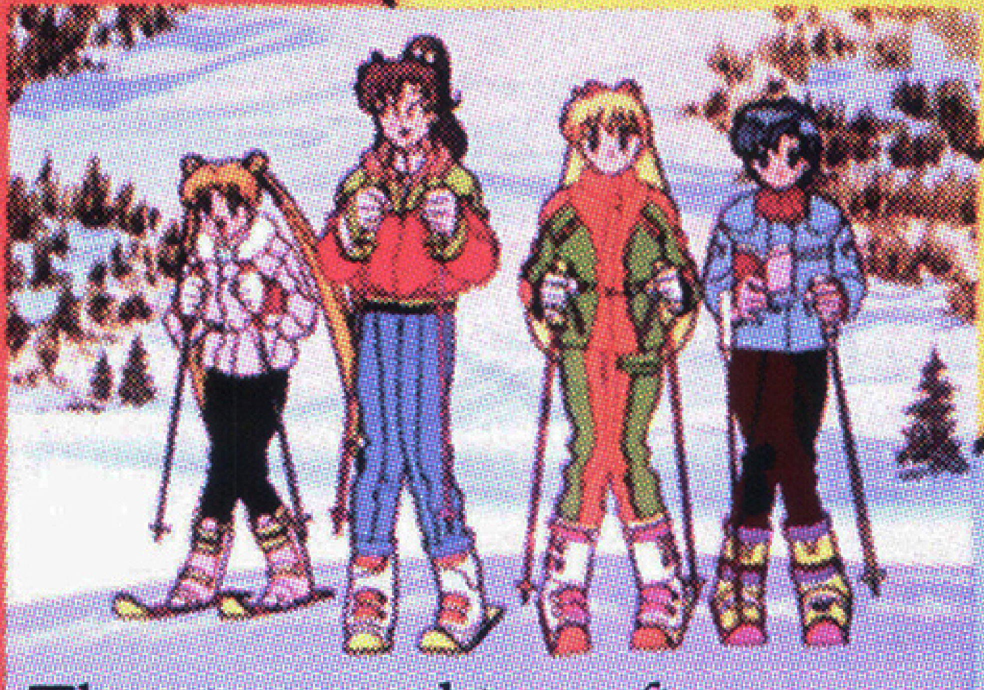
This is a simple outfit, but I can wear it when I swim in a race.



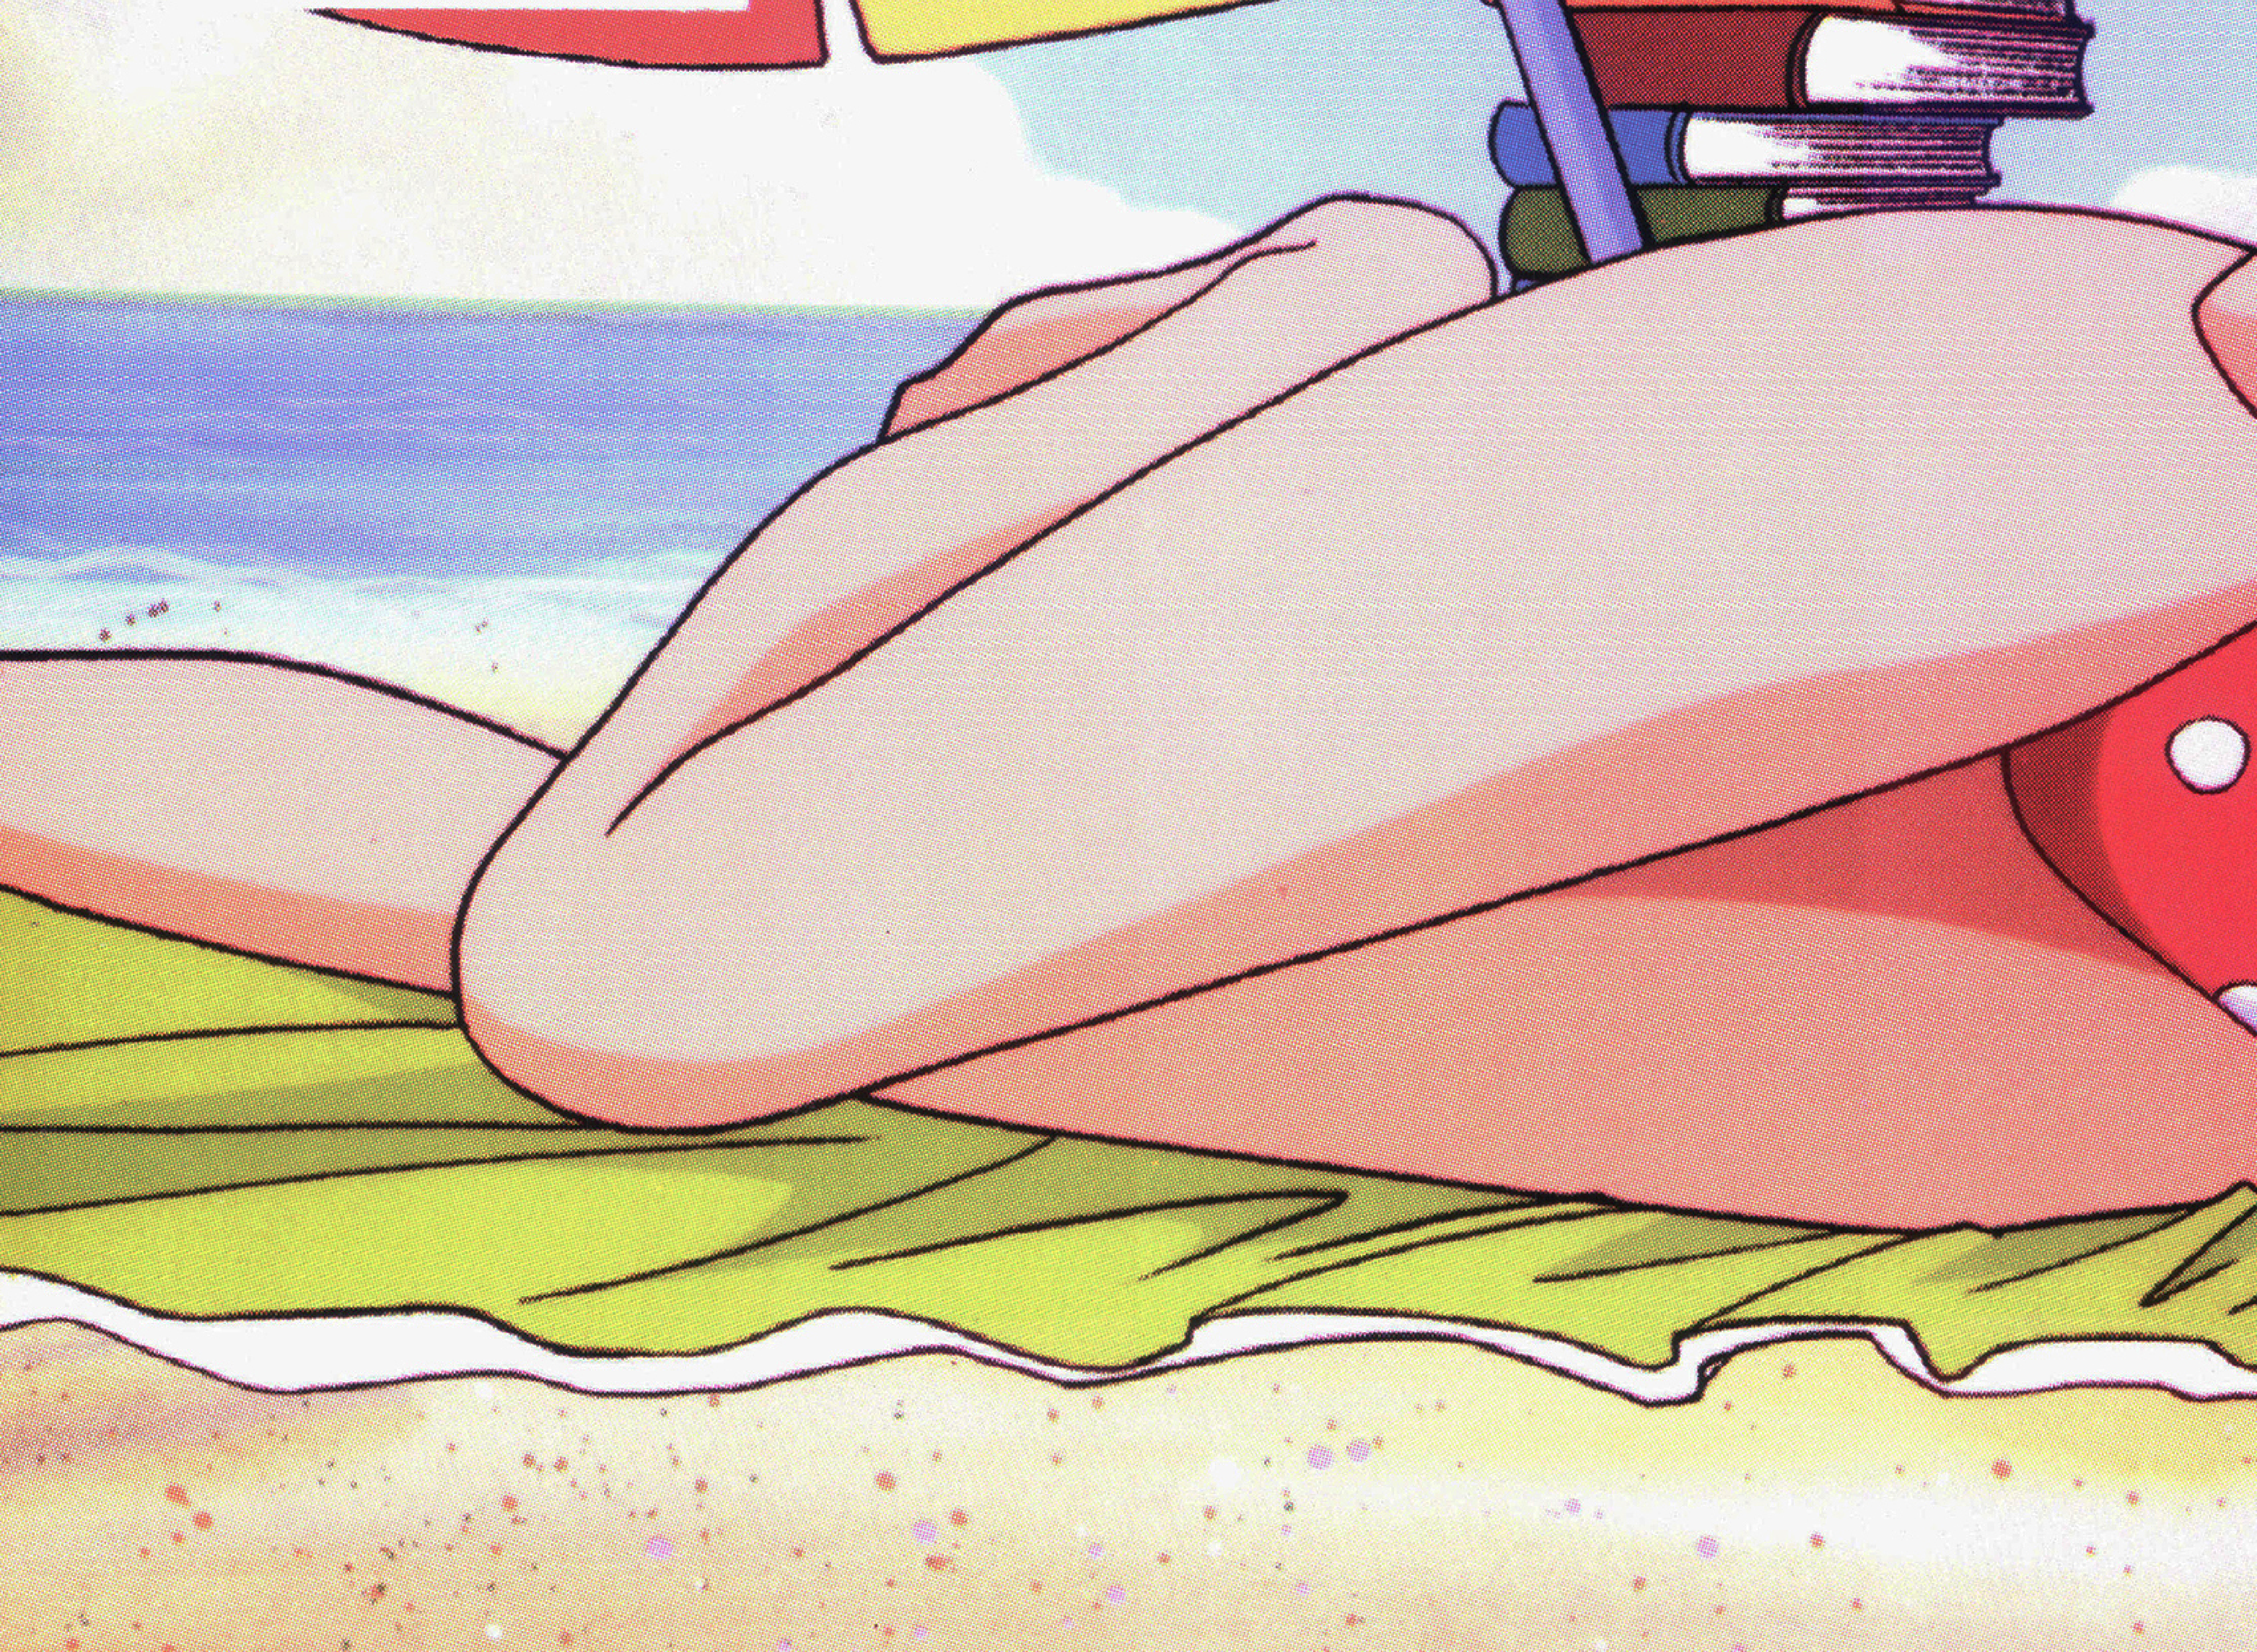
This is the swimsuit I wore when I went to cheer up Lita. It is red with cute white spots!



Even though I'm not a very good skater, I have to look the part.

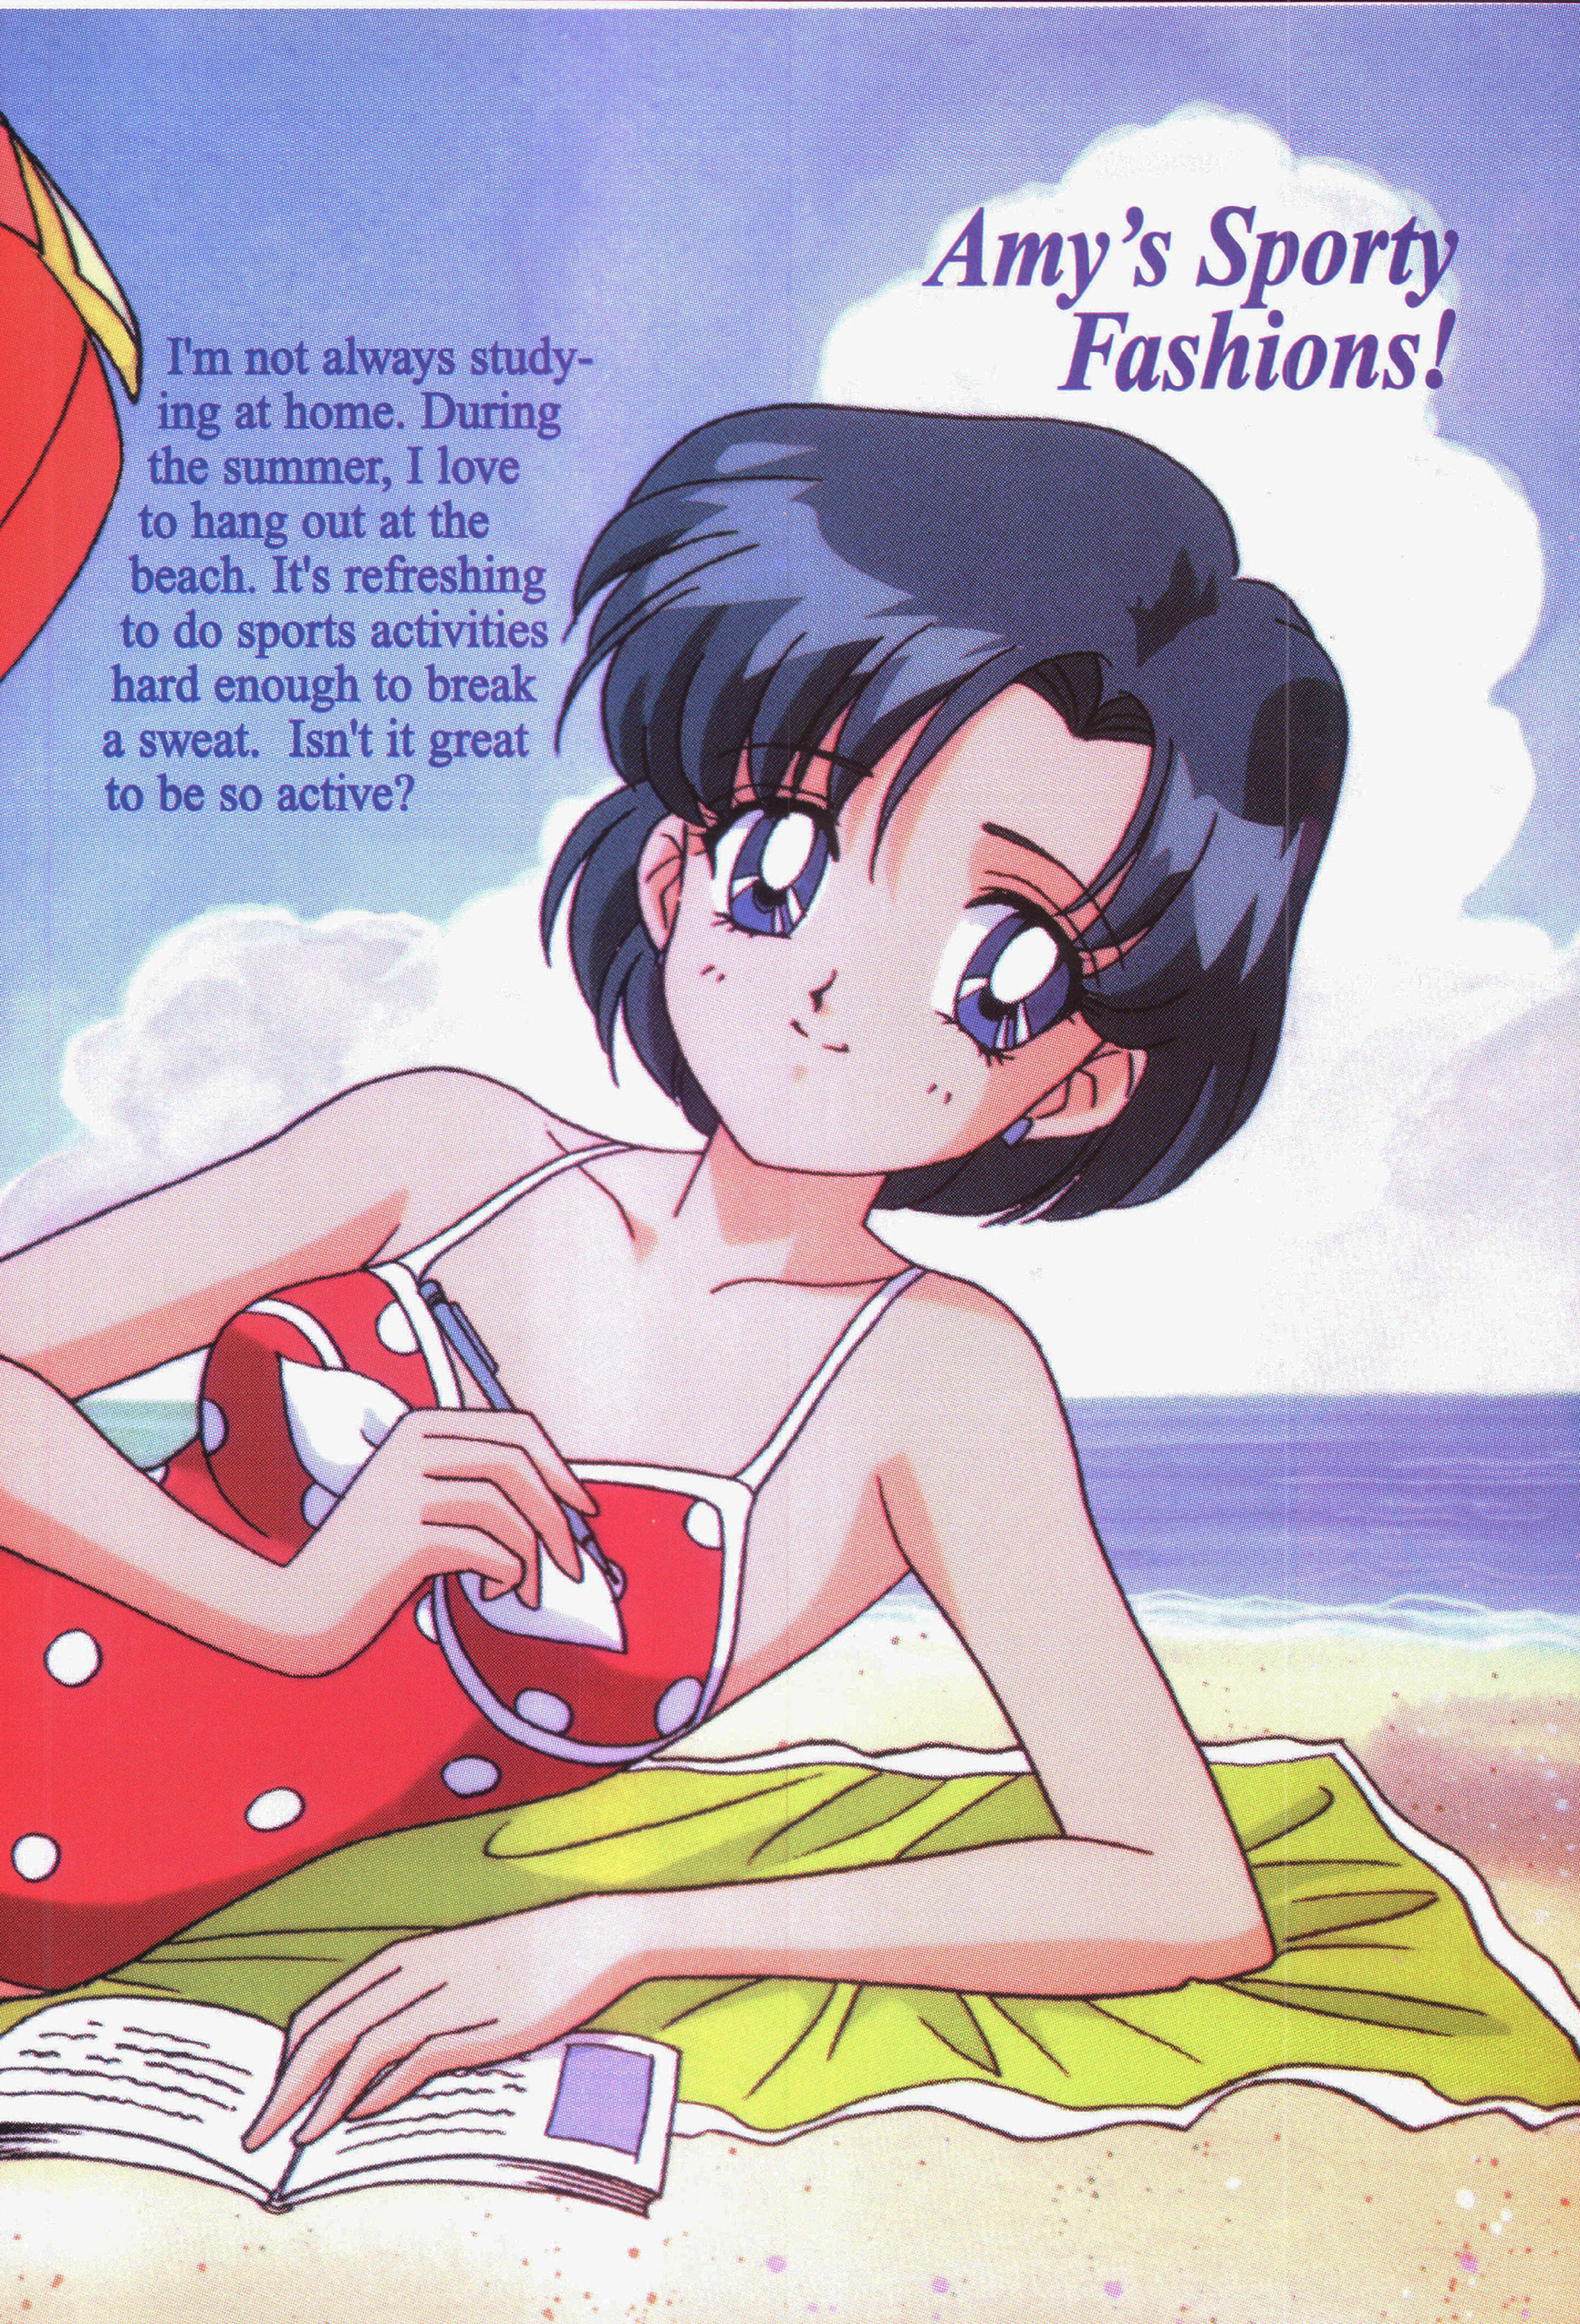


This is my ski outfit: a very warm, light blue down jacket.

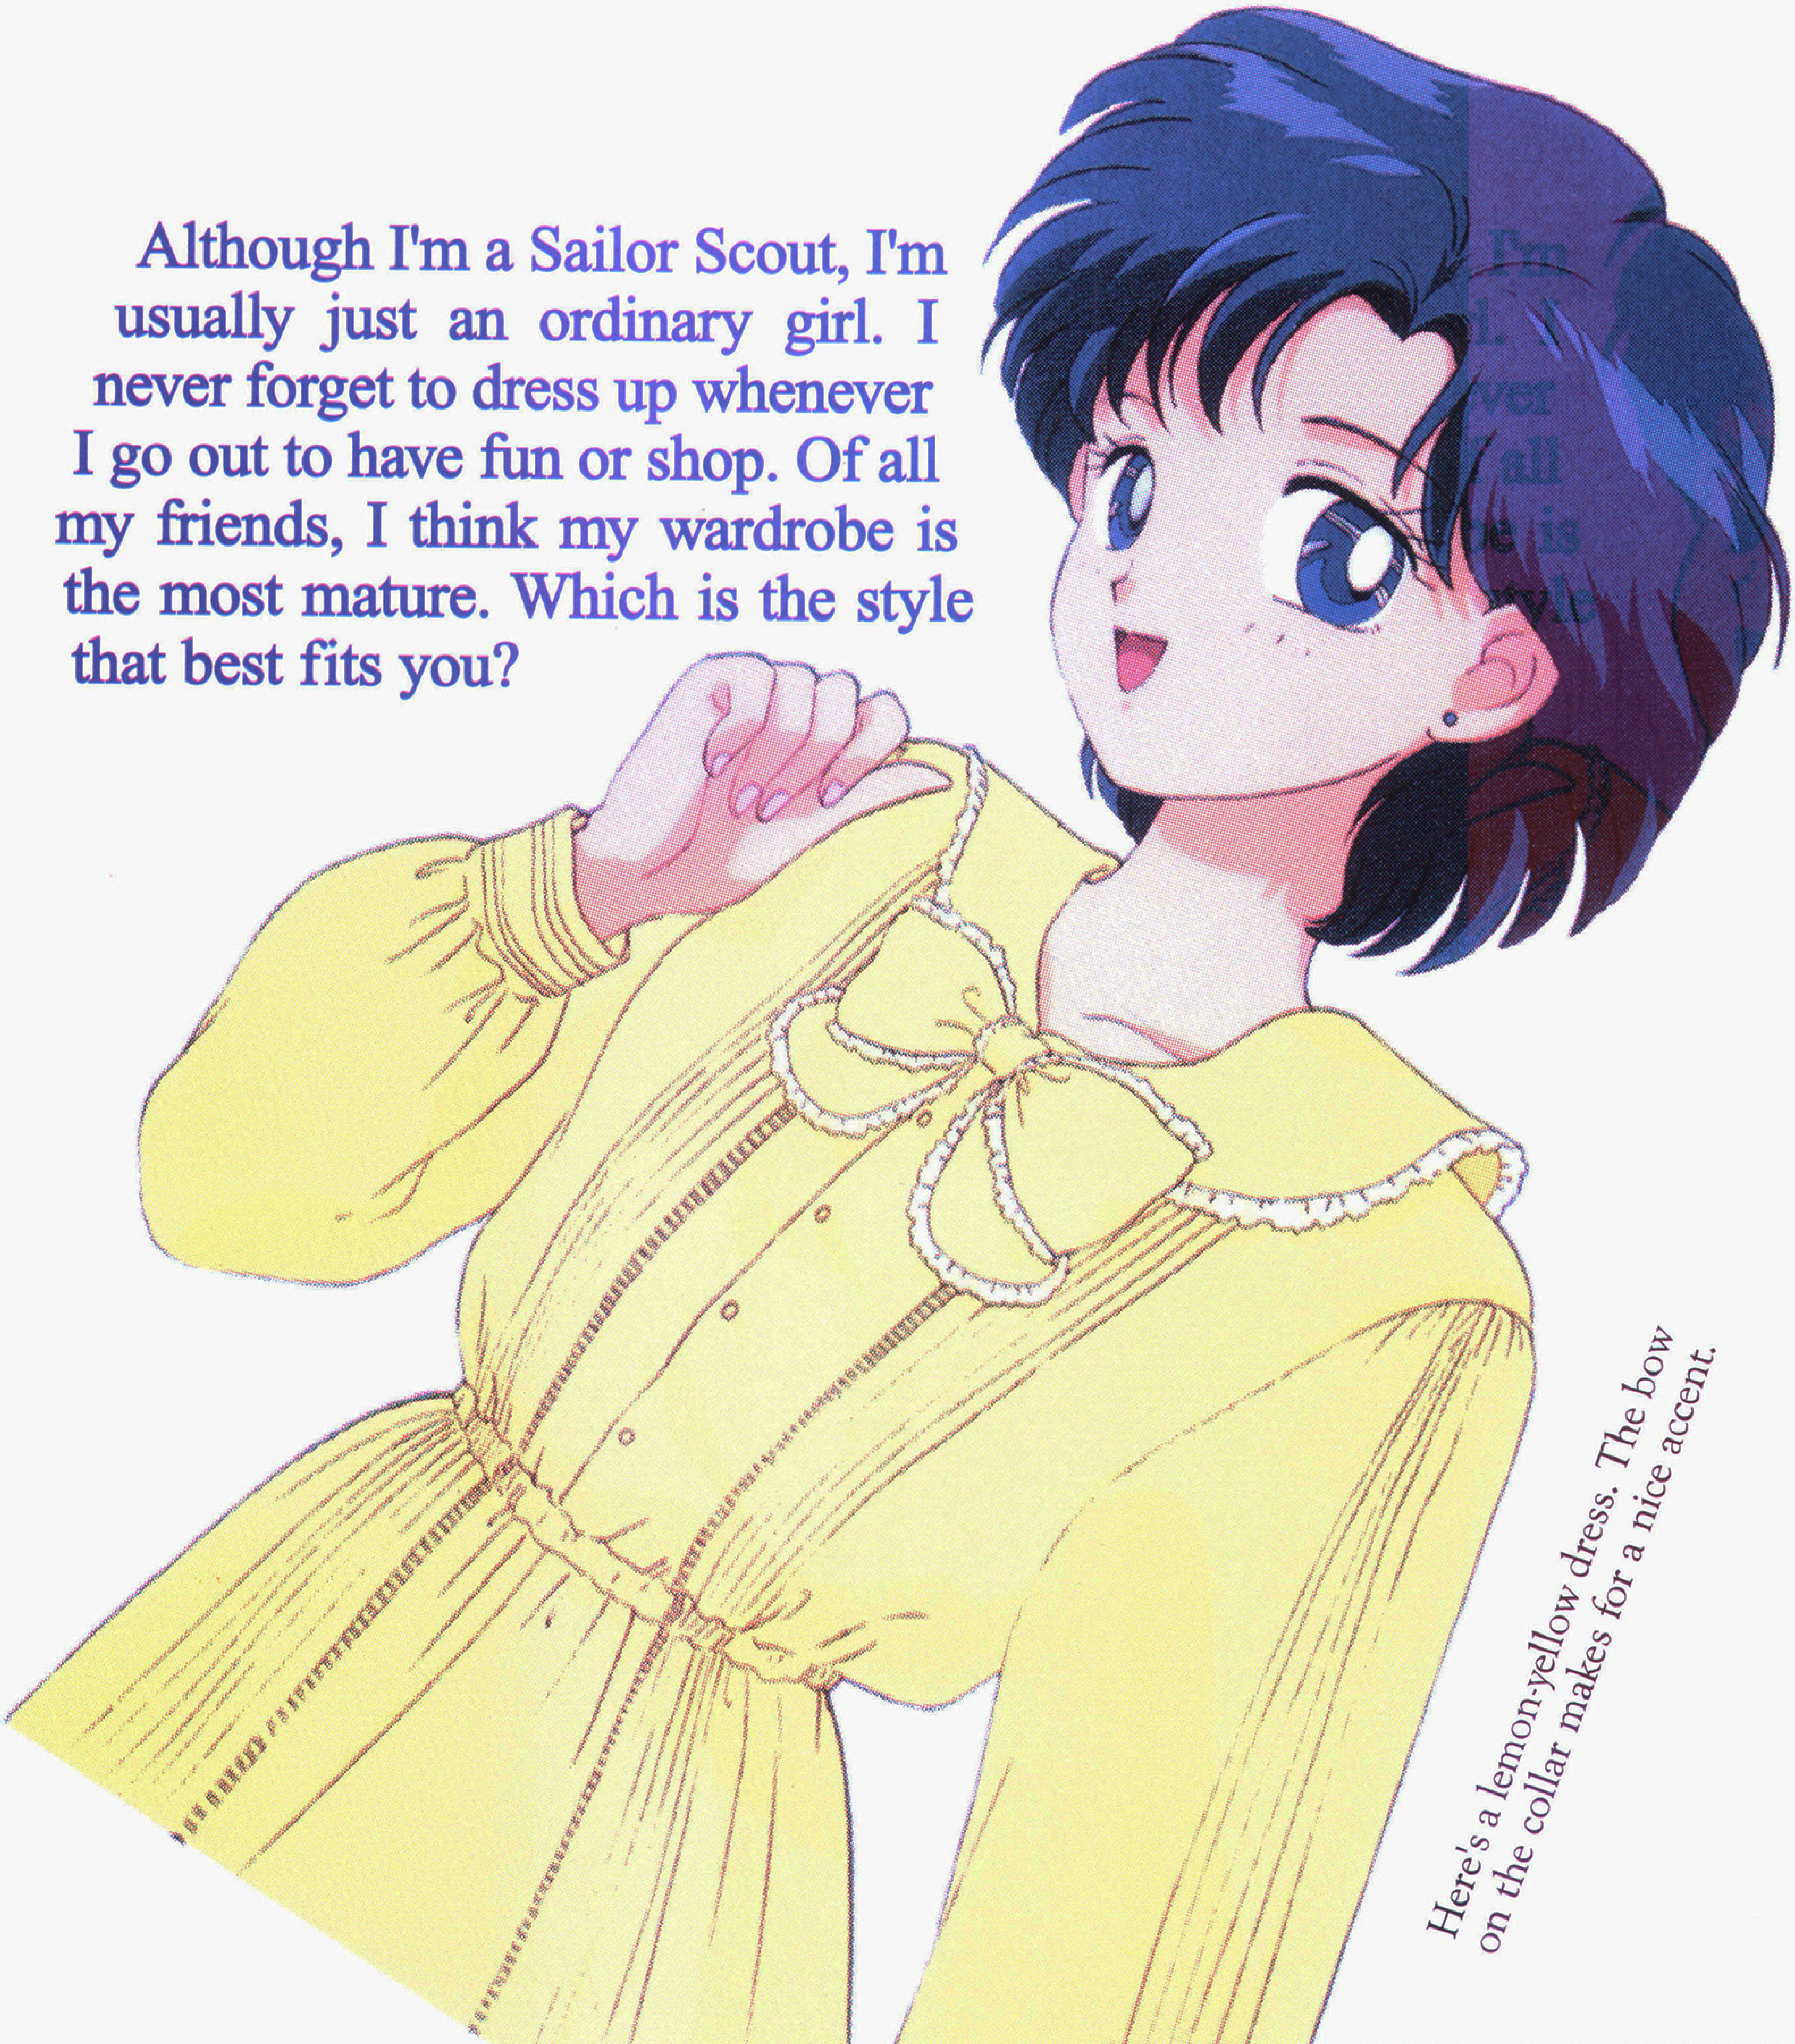


# Amy's Sporty Fashions!

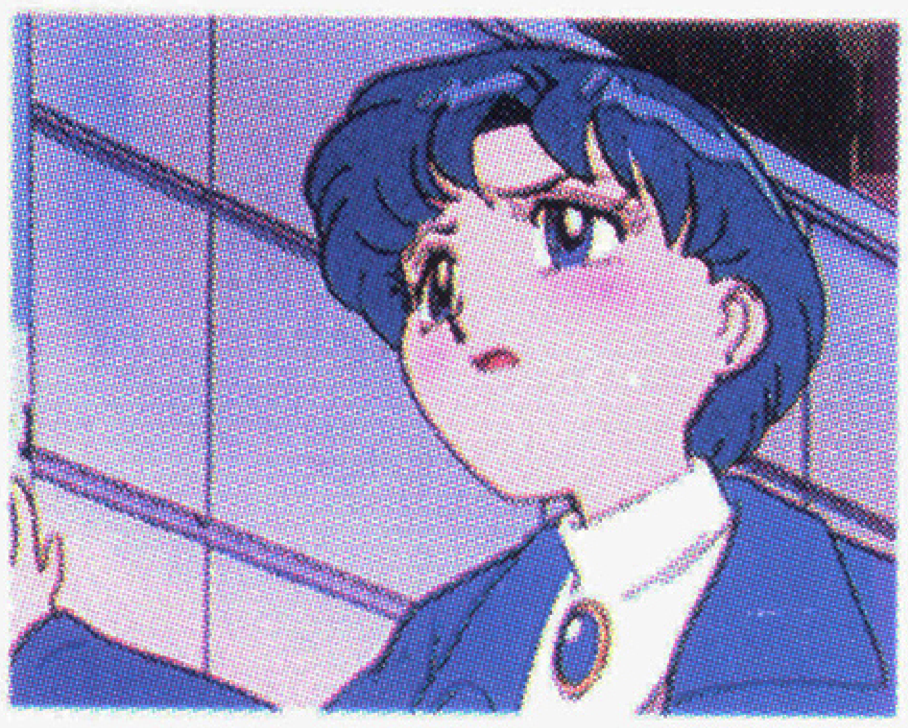
I'm not always studying at home. During the summer, I love to hang out at the beach. It's refreshing to do sports activities hard enough to break a sweat. Isn't it great to be so active?



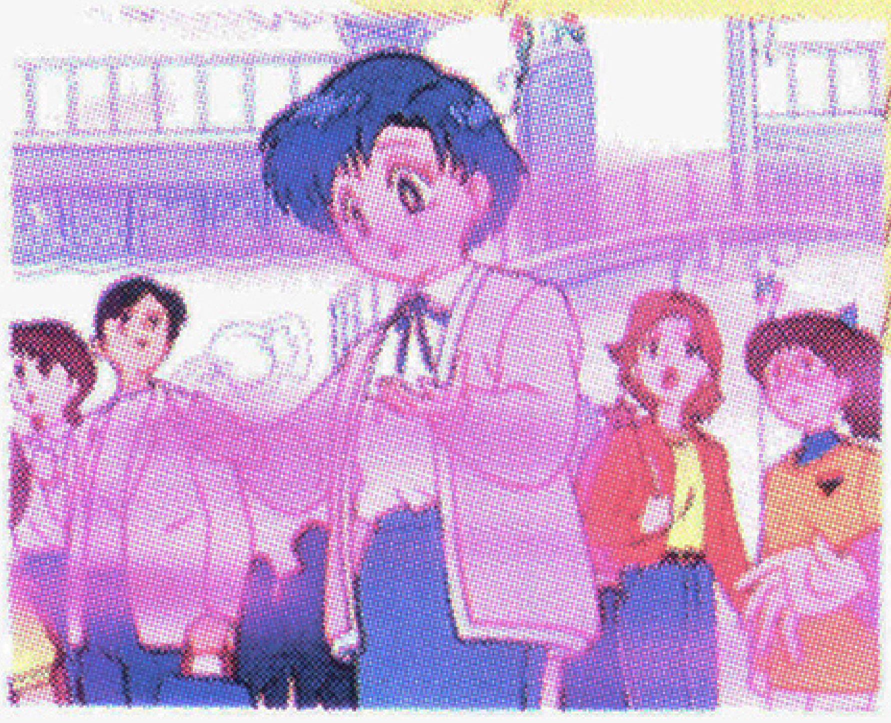
Although I'm a Sailor Scout, I'm usually just an ordinary girl. I never forget to dress up whenever I go out to have fun or shop. Of all my friends, I think my wardrobe is the most mature. Which is the style that best fits you?



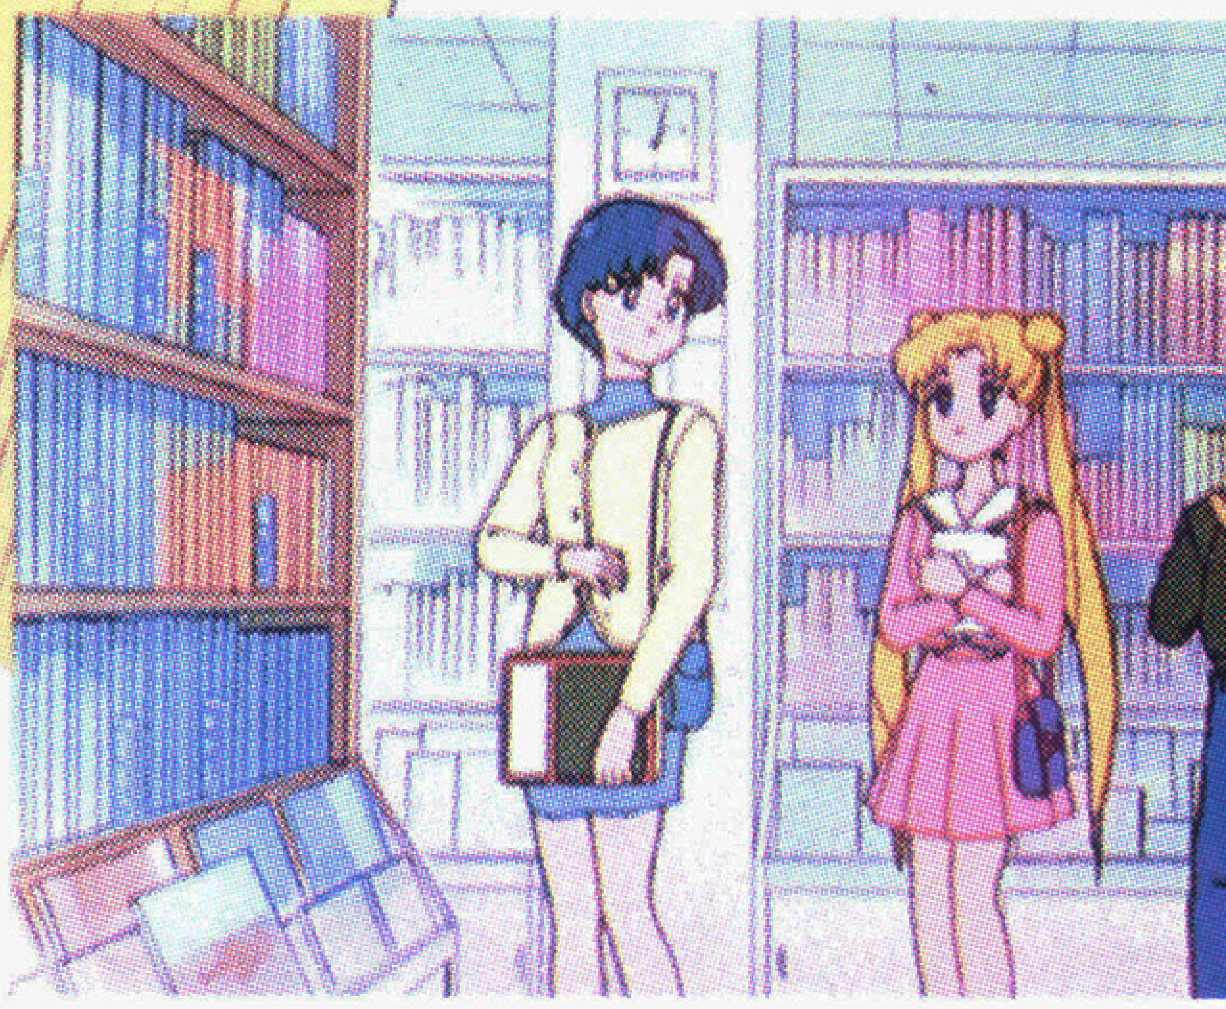
Here's a lemon-yellow dress. The bow on the collar makes for a nice accent.



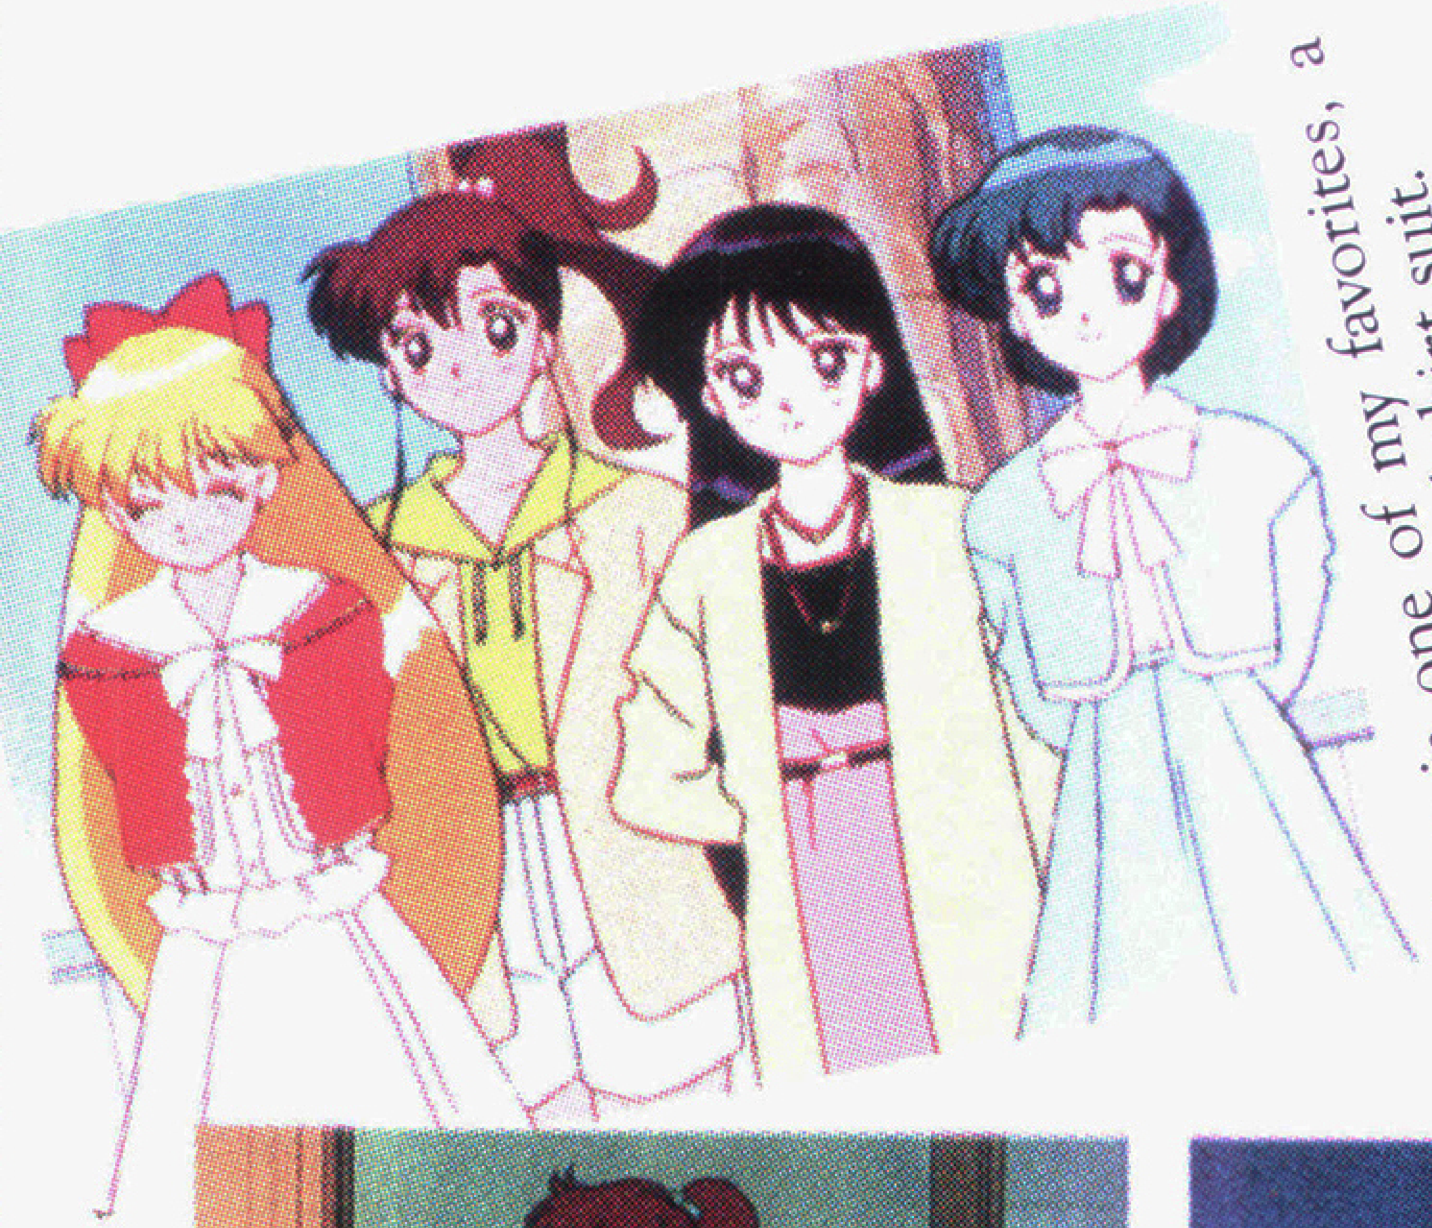
Even though I was feeling a little sick, I still put on a blue brooch to dress up.



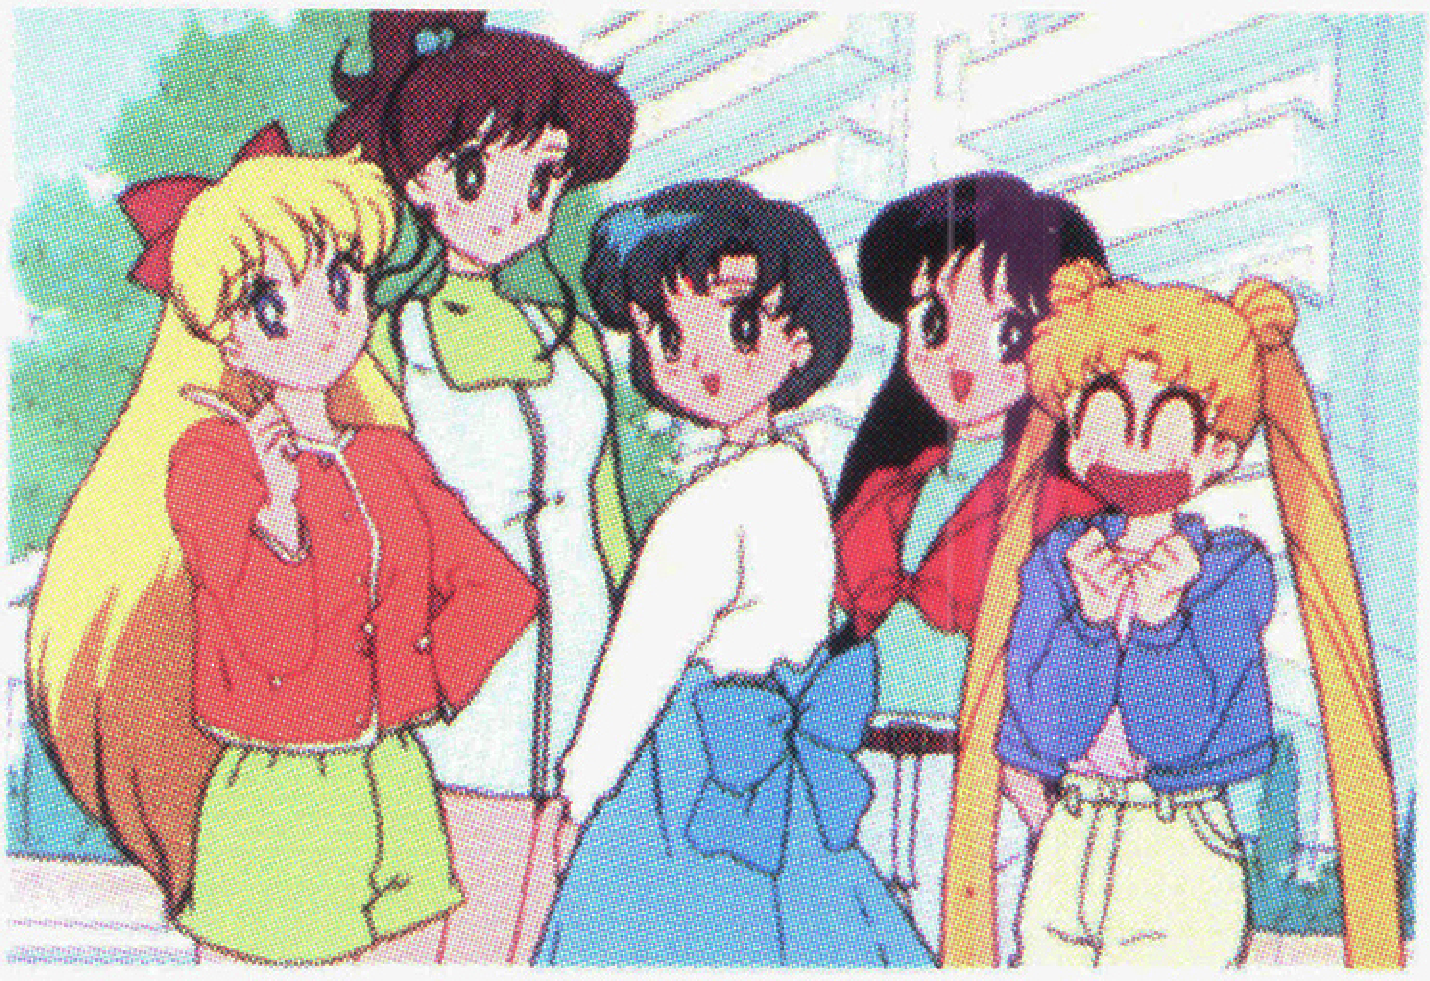
This is my favorite look, a ribbon neck tie with a cardigan.



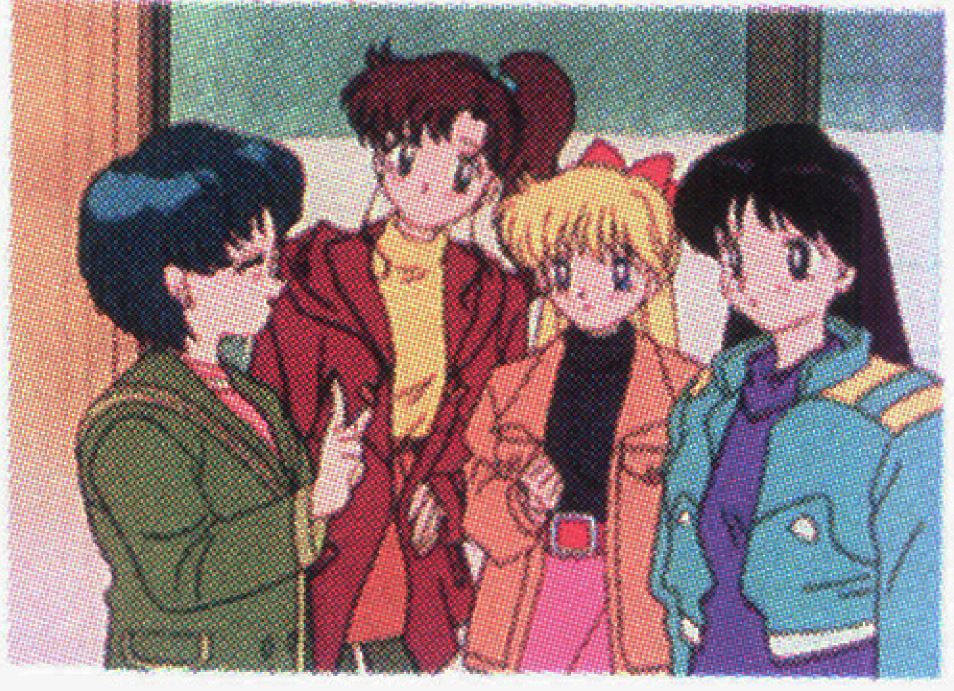
Here's the collarless jacket I wore when I went to Harajuku for the first time.



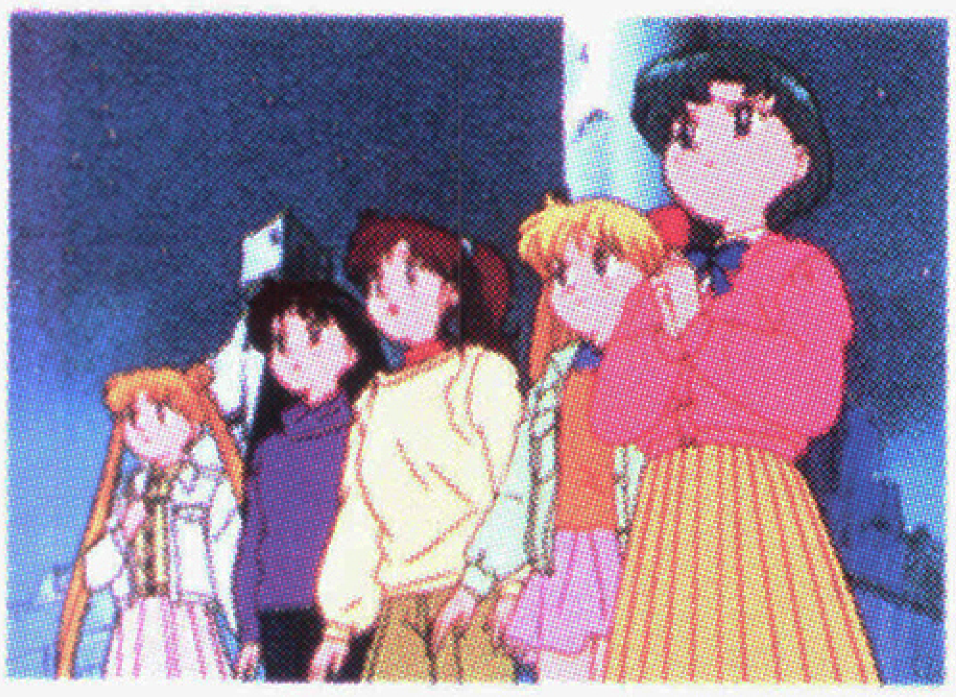
Here is one of my favorites, a light blue flared skirt suit.



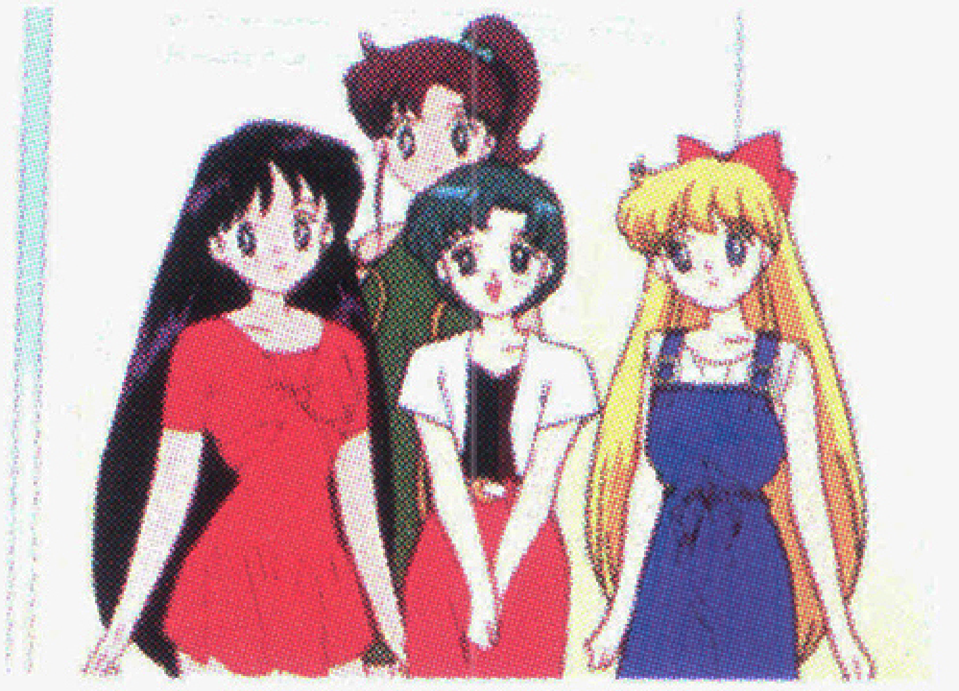
This dress is great for parties. The bow in the back is especially cute!



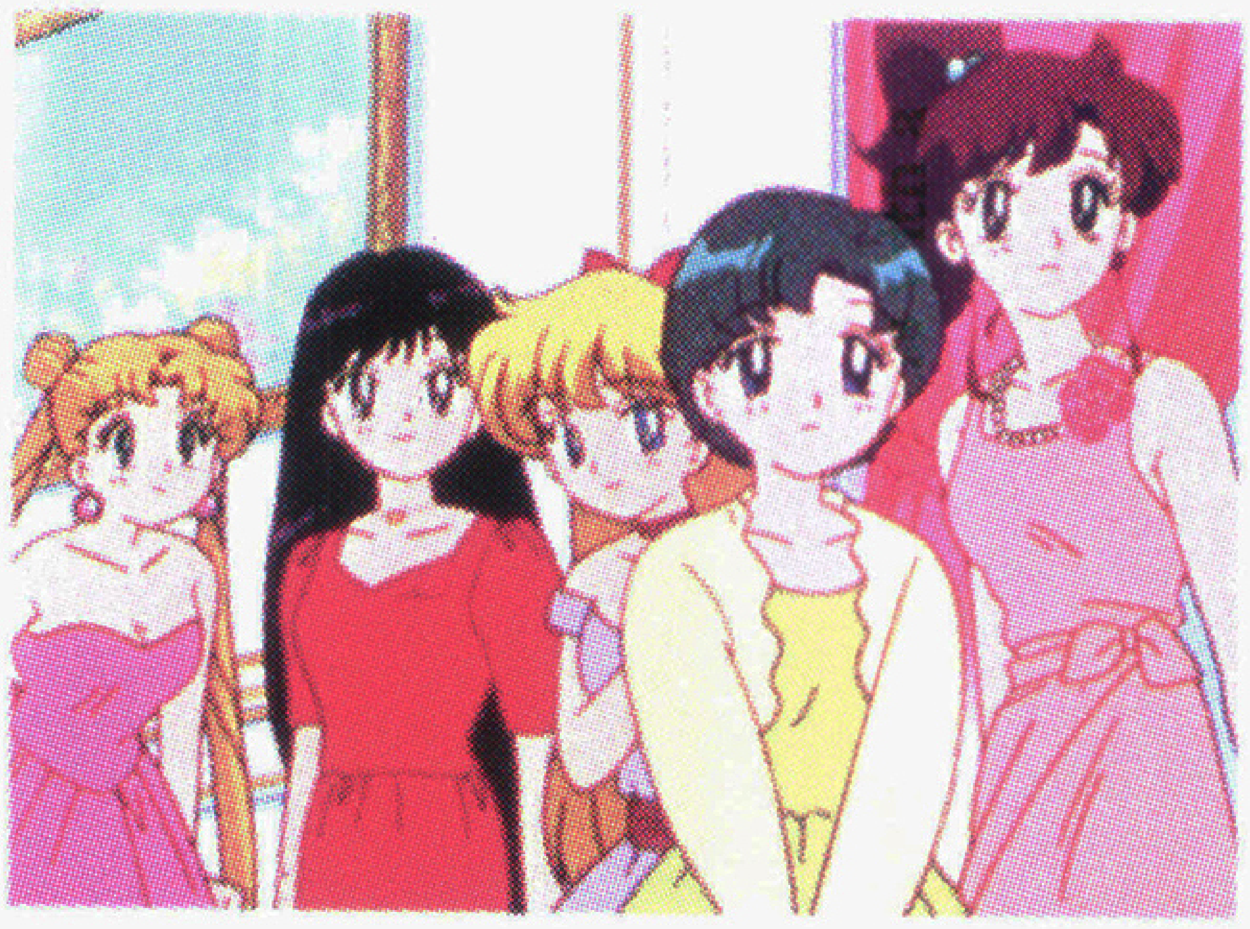
My moss green, short jacket--very professional isn't it?



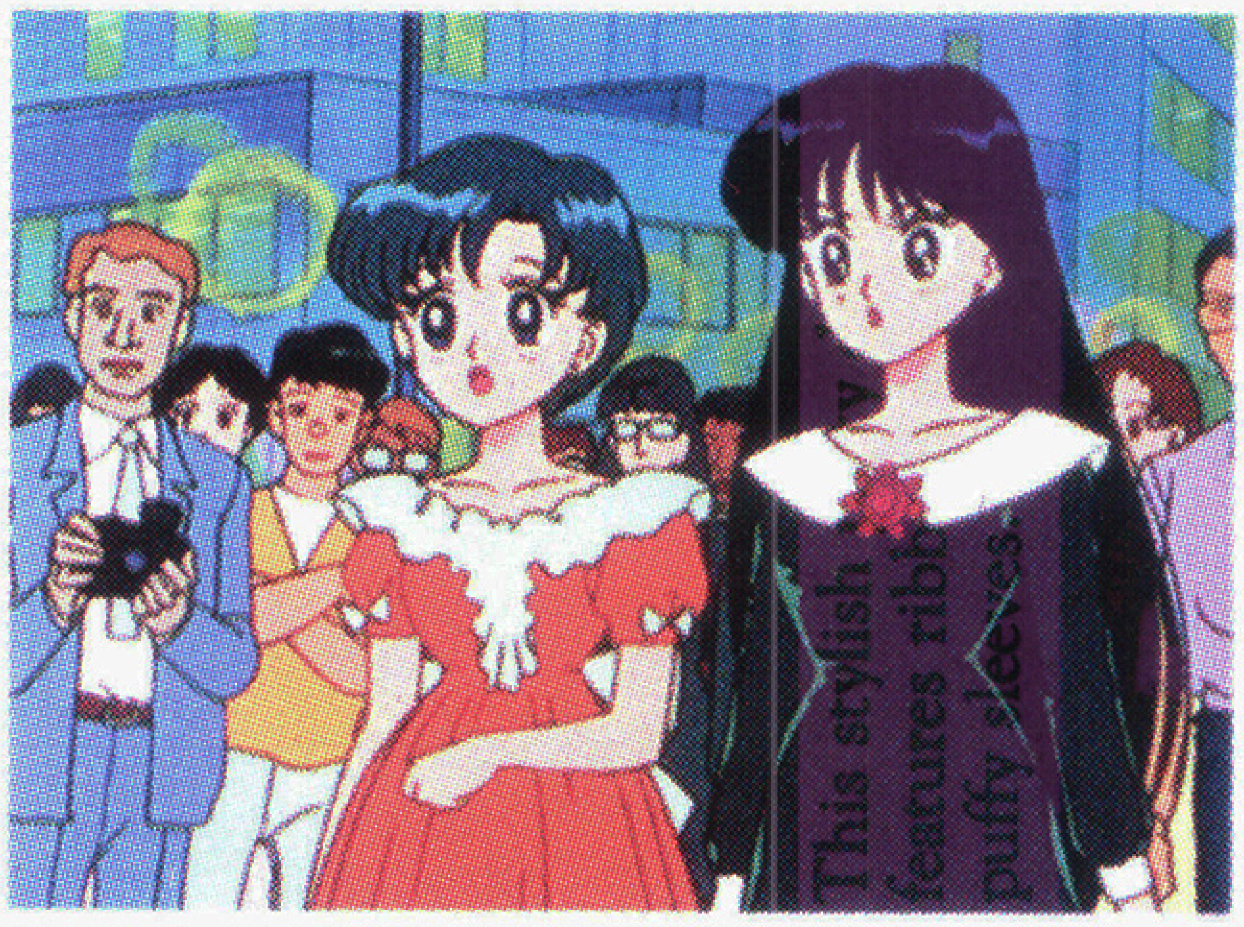
It's nice to wear a pleated skirt like this one sometimes.



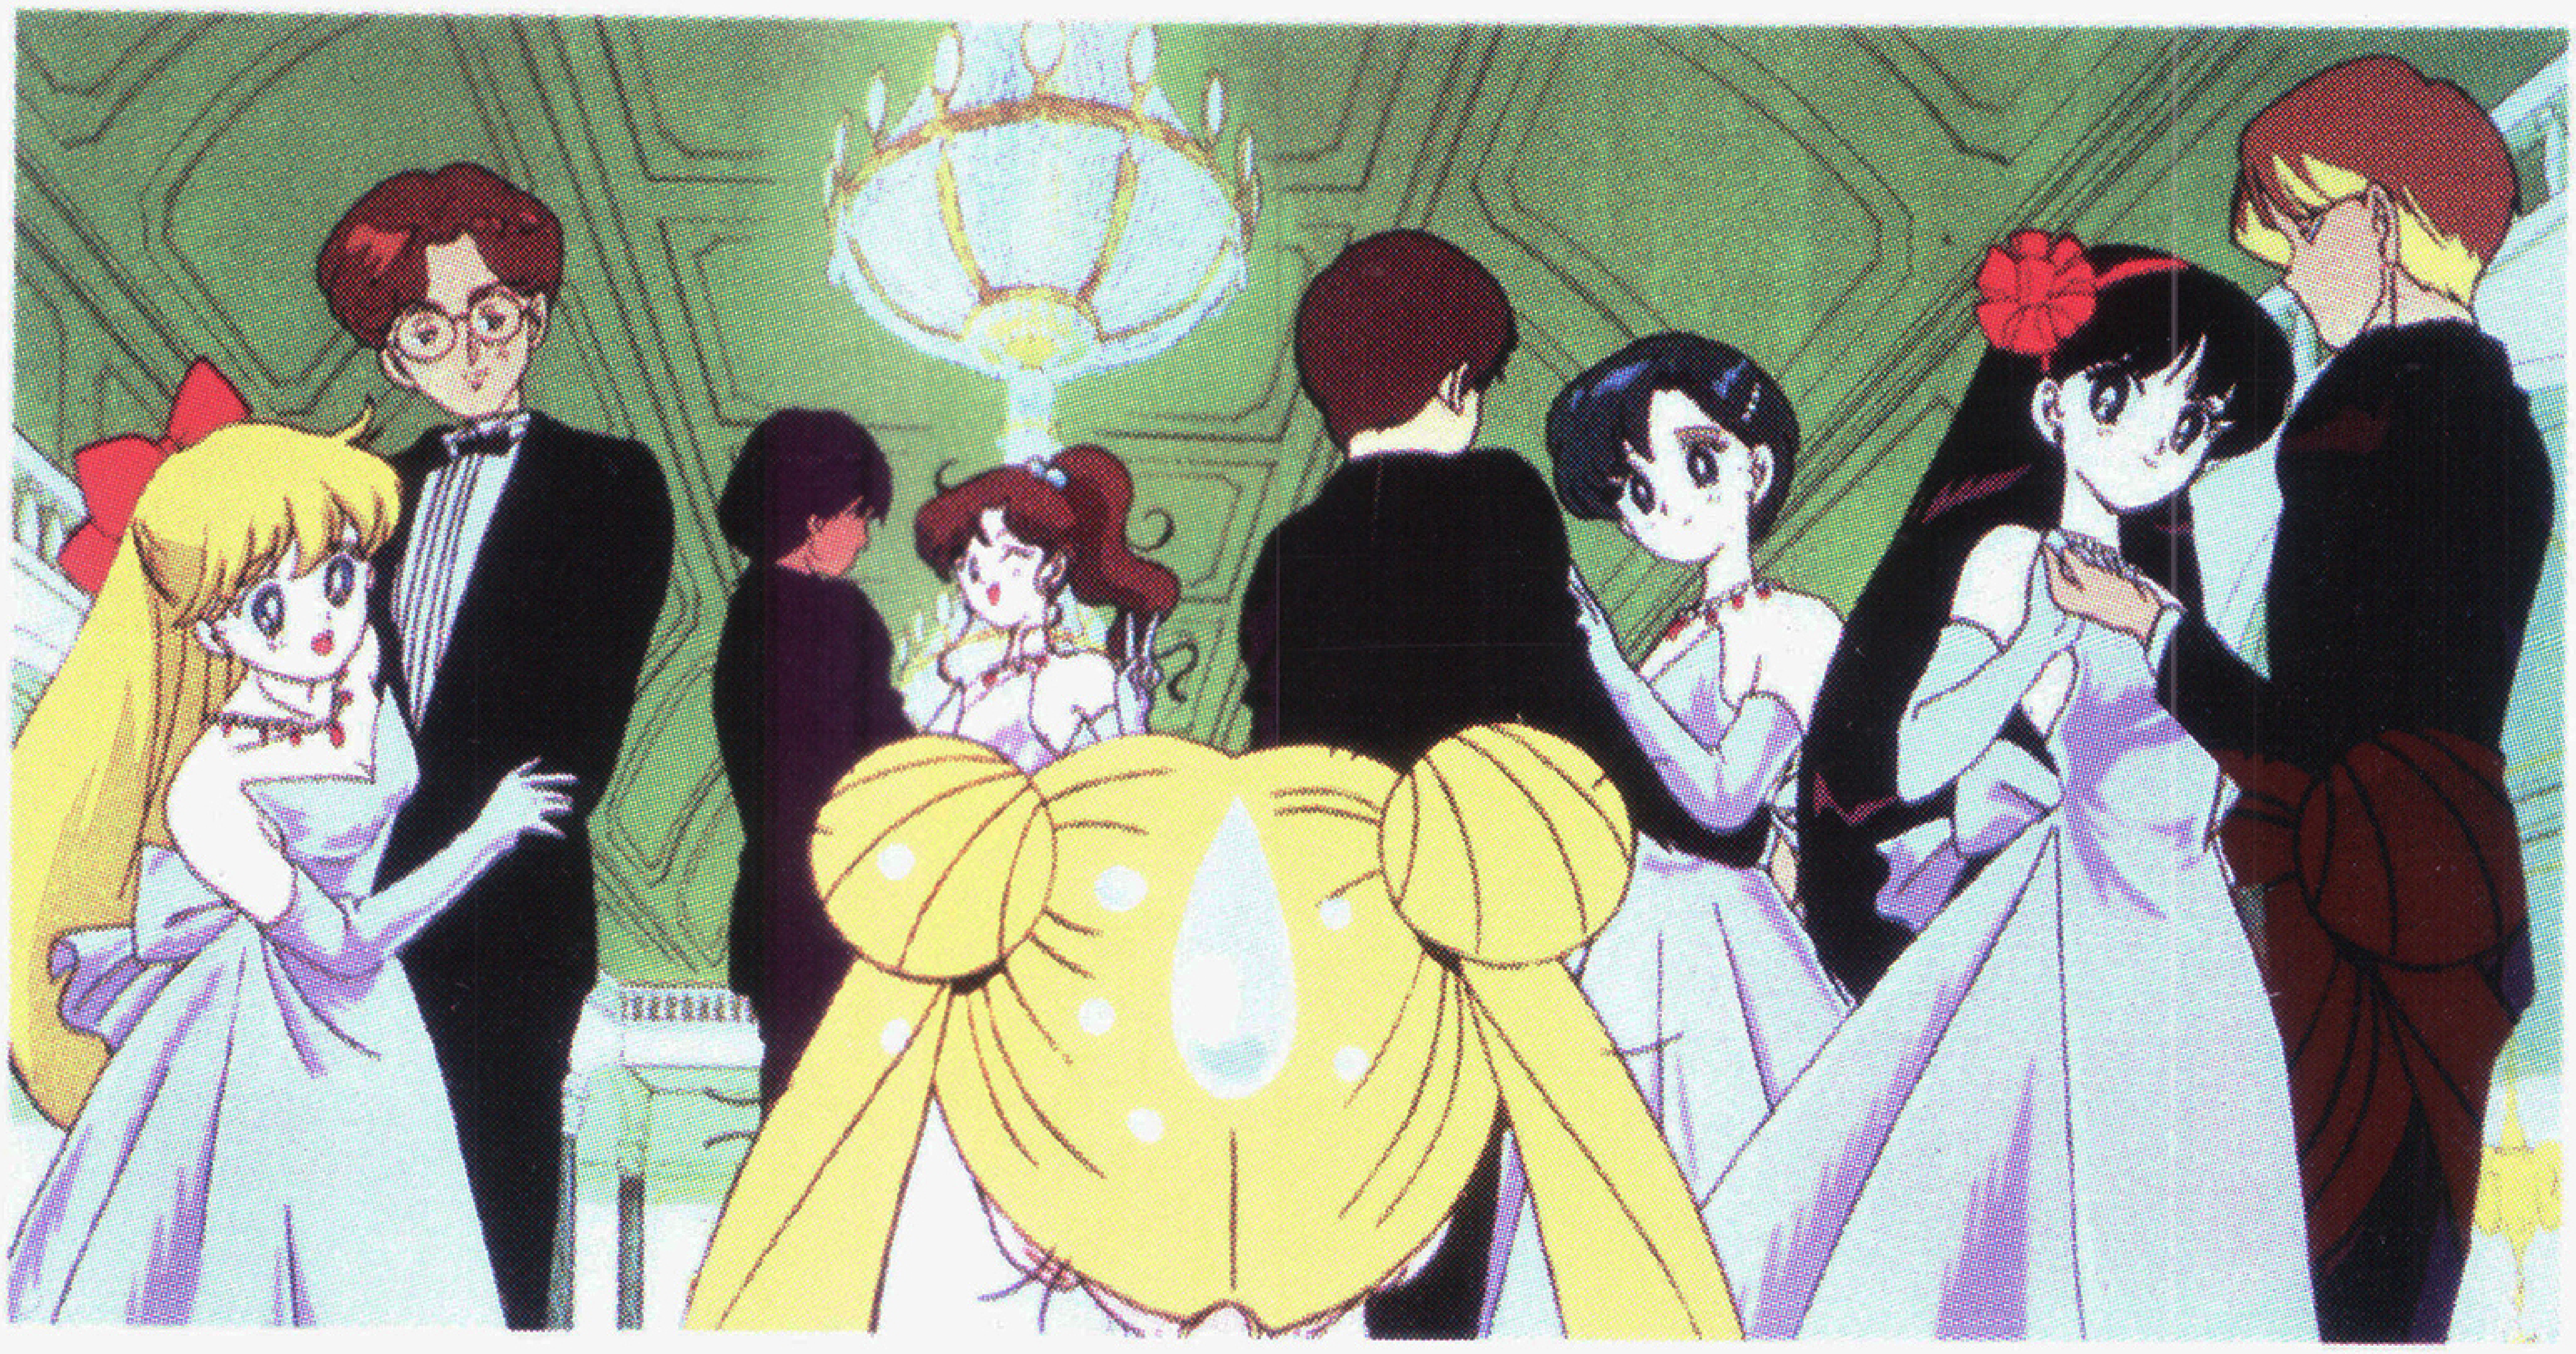
A chic layered dress with a medium collar.



Here's a casual dress with a short jacket over it.



This stylish party dress features ribbons on the puffy sleeves.



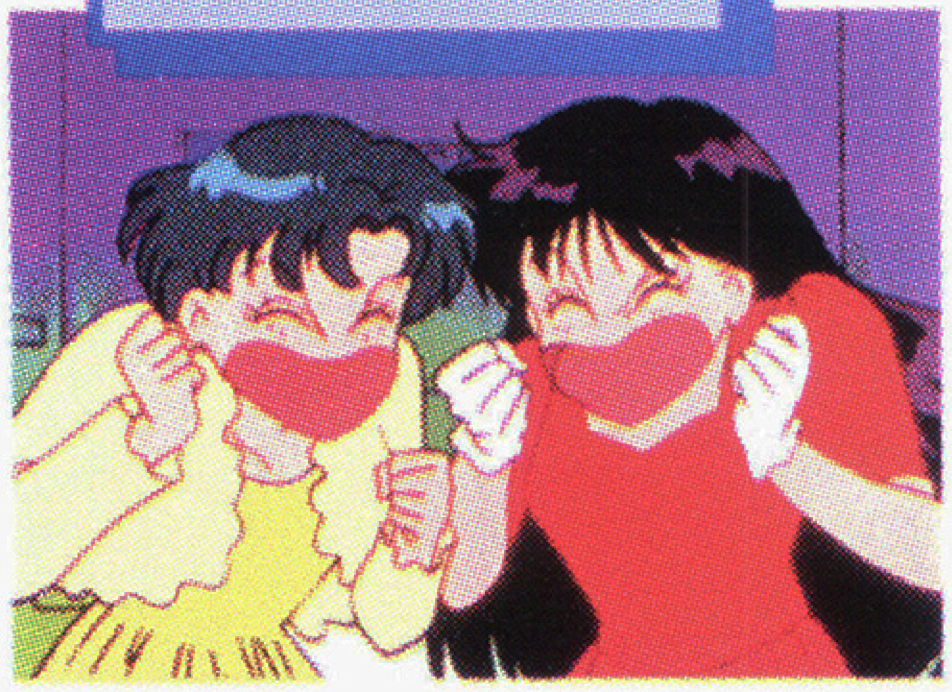
This is a strapless ball gown made of delicate silk.

# Bunny's Snapshot Collection of Amy

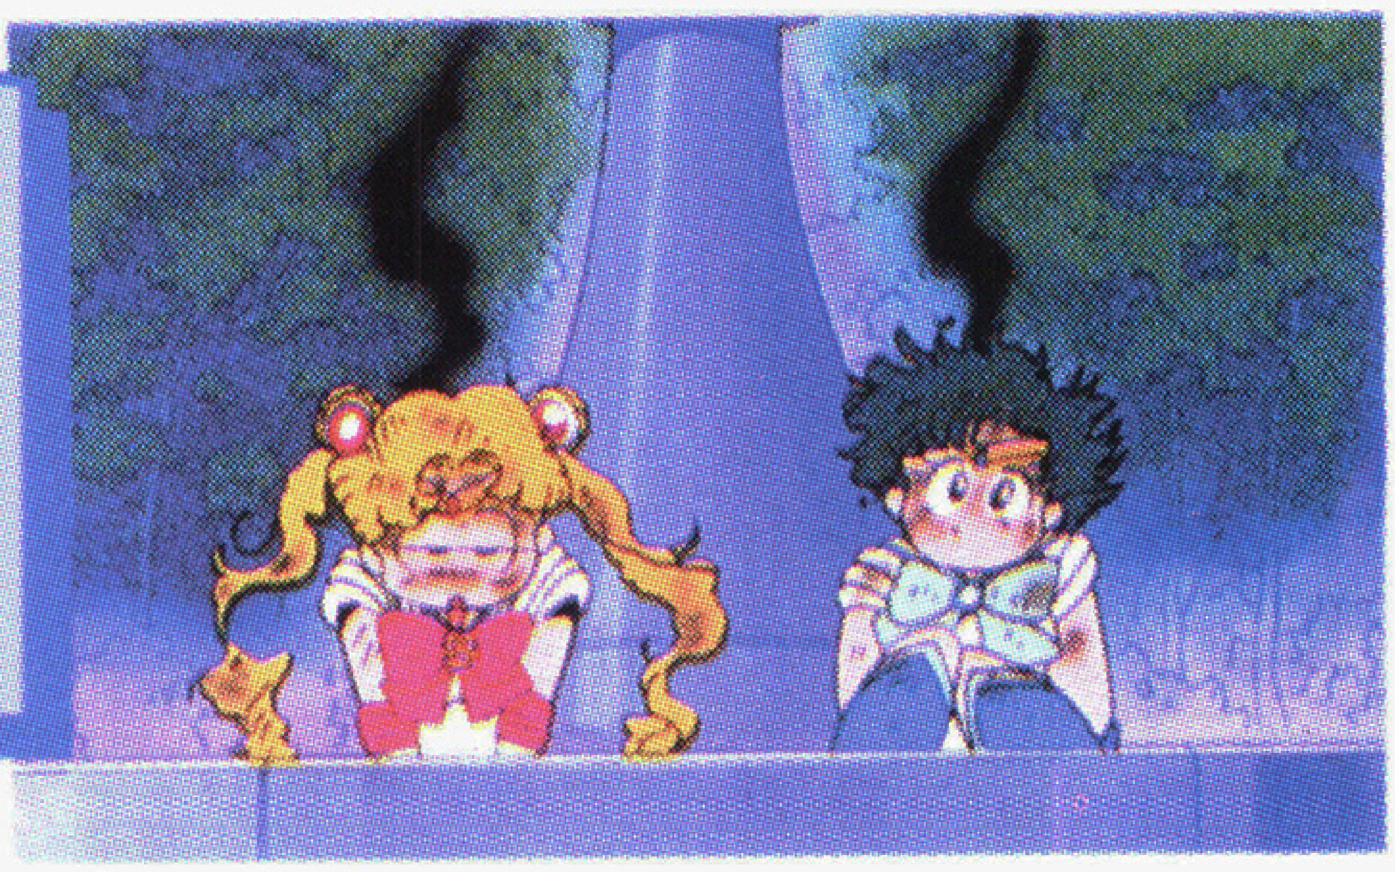
***I, Serena Tsukino, will now introduce to you Amy's "Moments to be Remembered."***

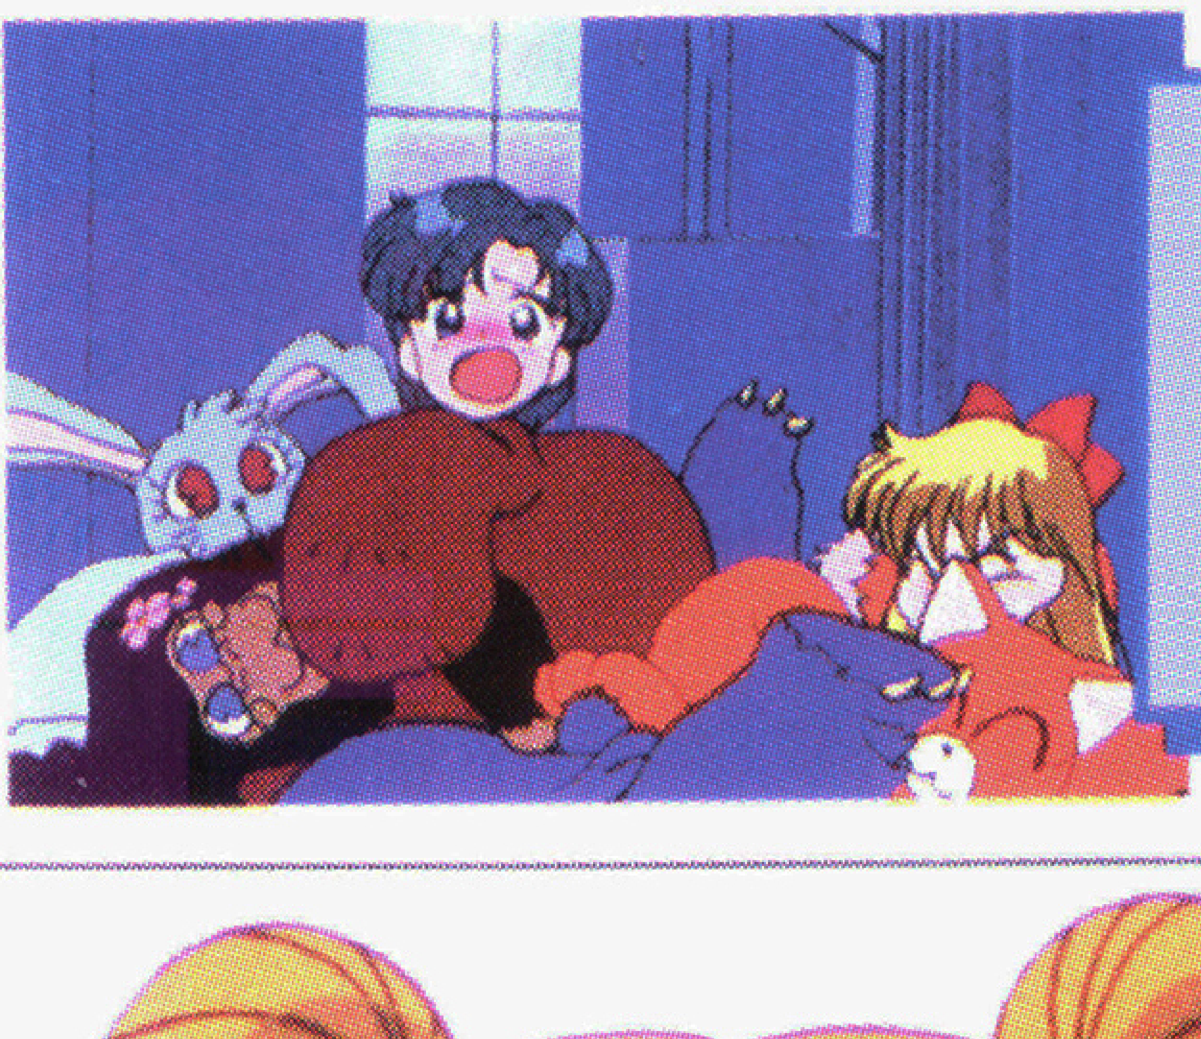
## Scout Guide

Here Amy and Raye are being attacked by a monster while on a fabulous cuise.



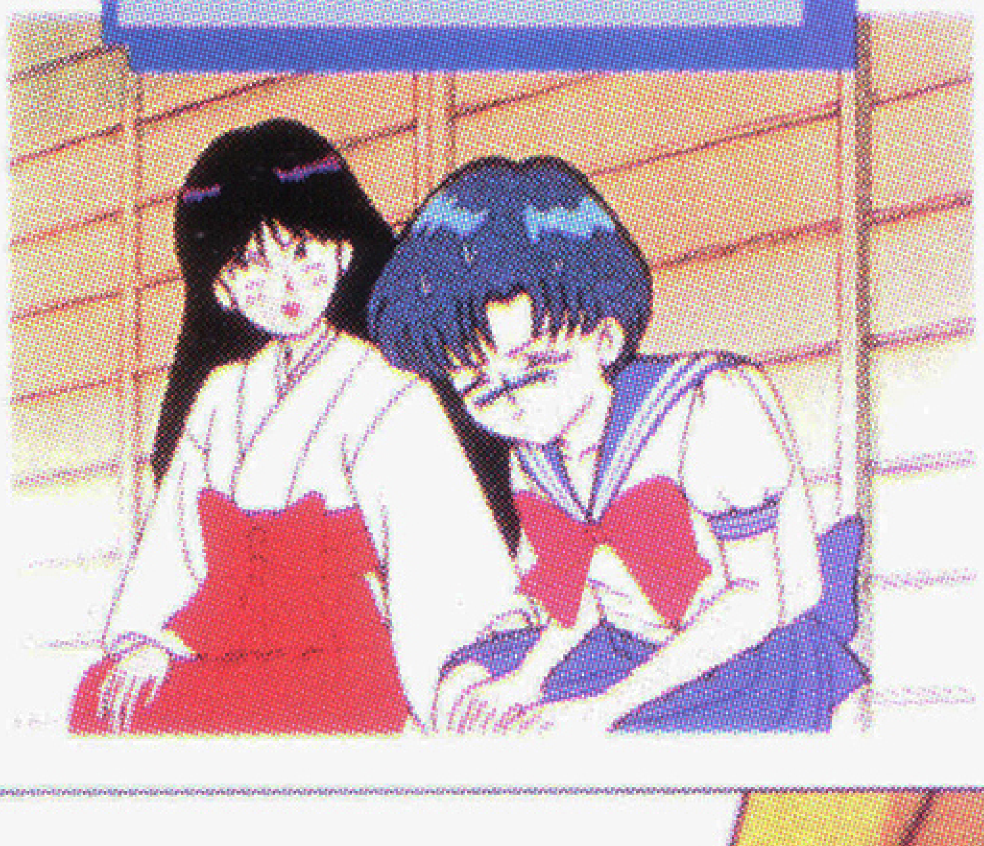
Sailor Mars did this to us; Sailor Mercury and I are totally toasted!

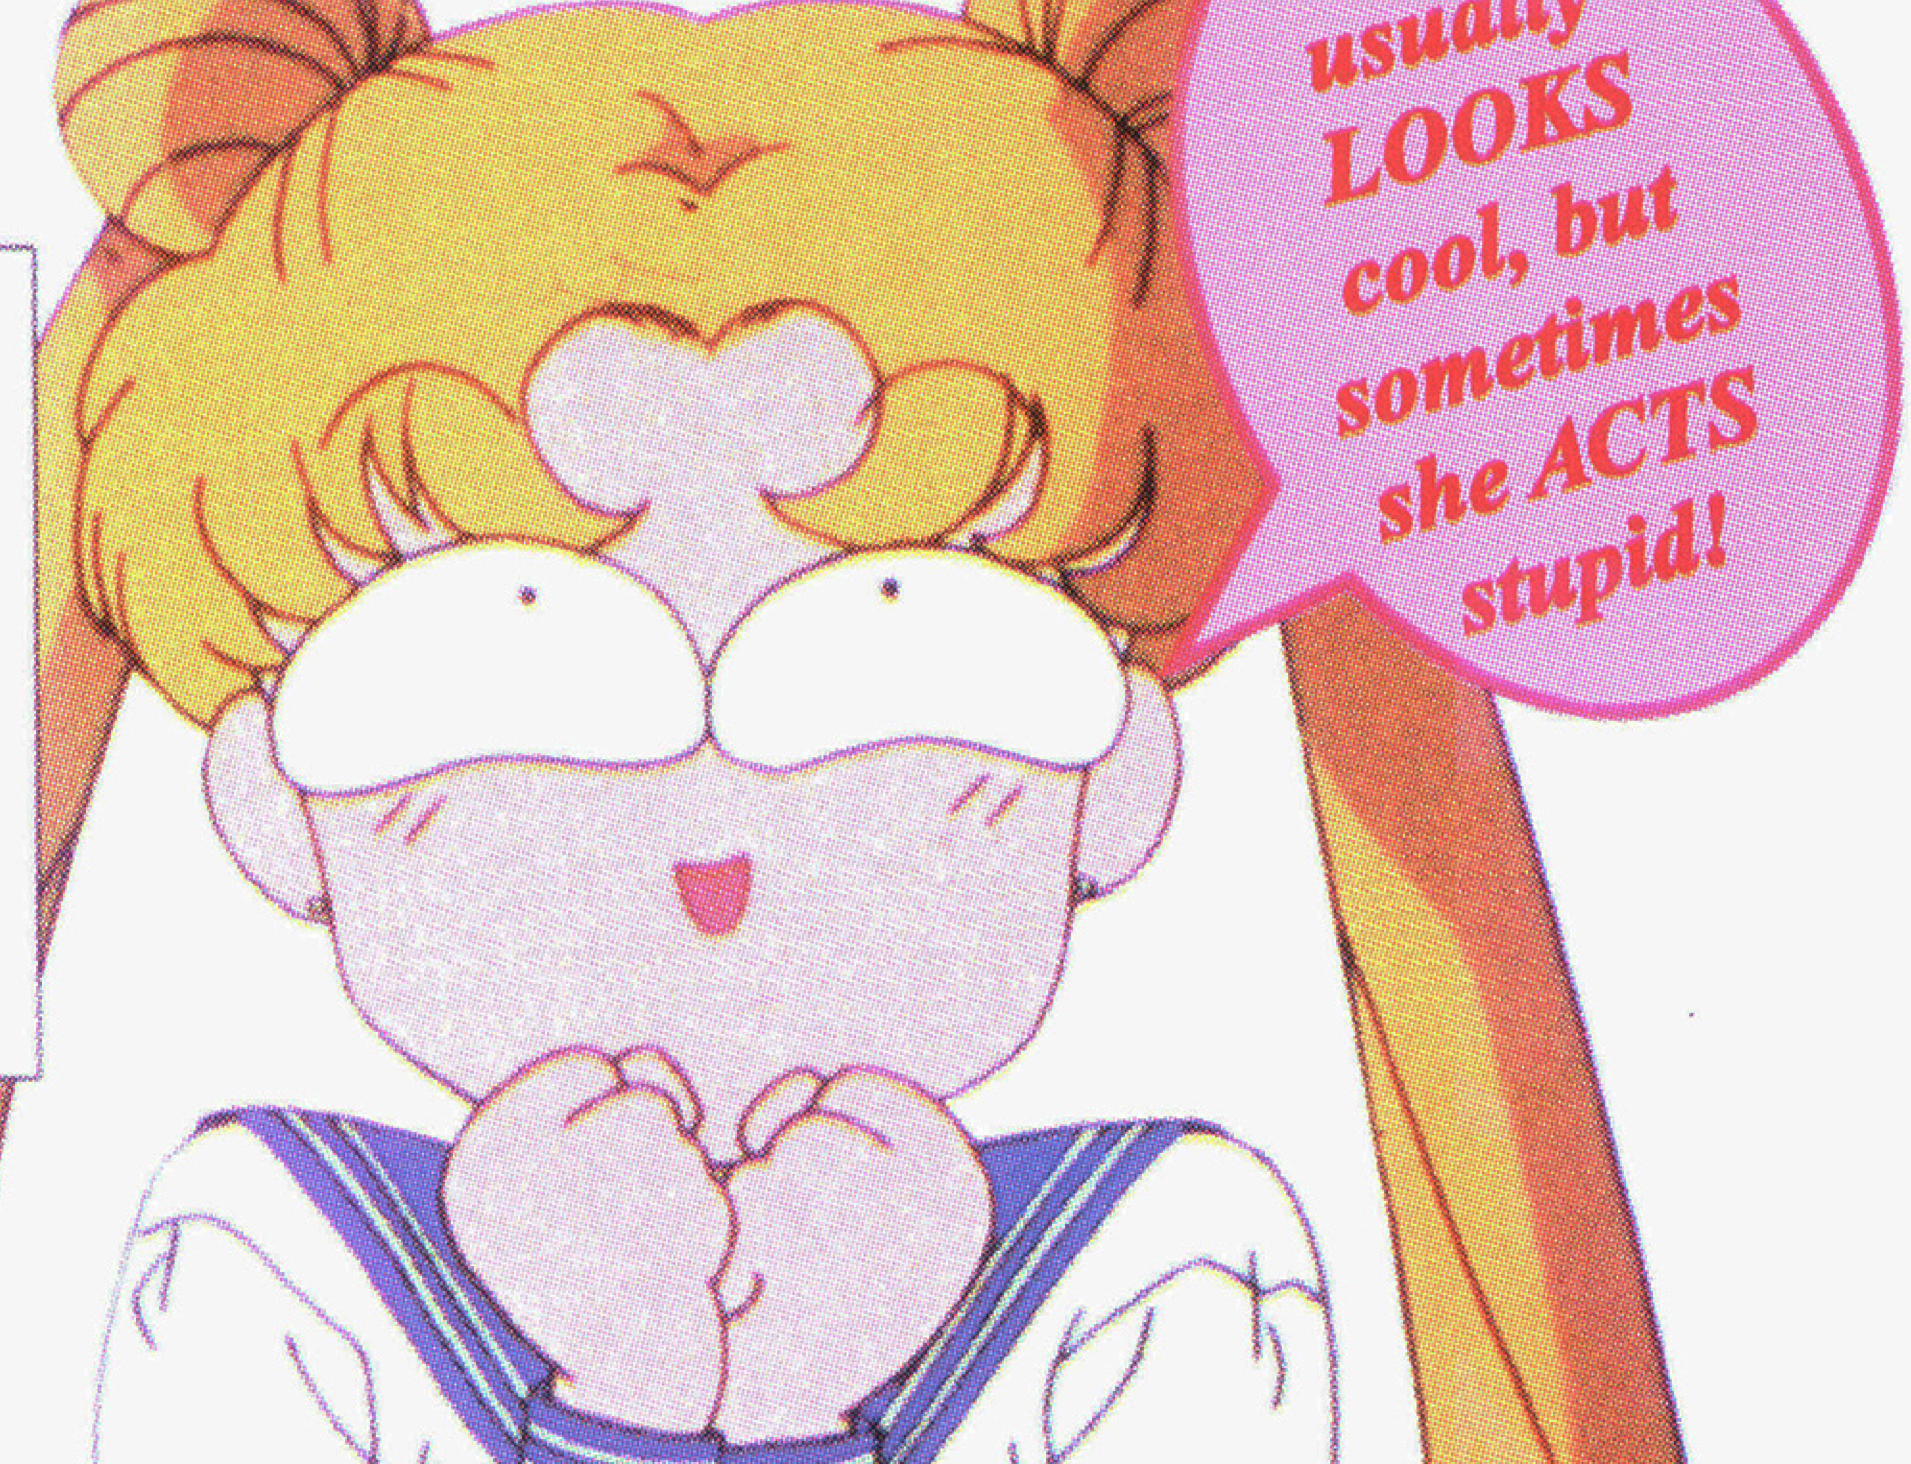




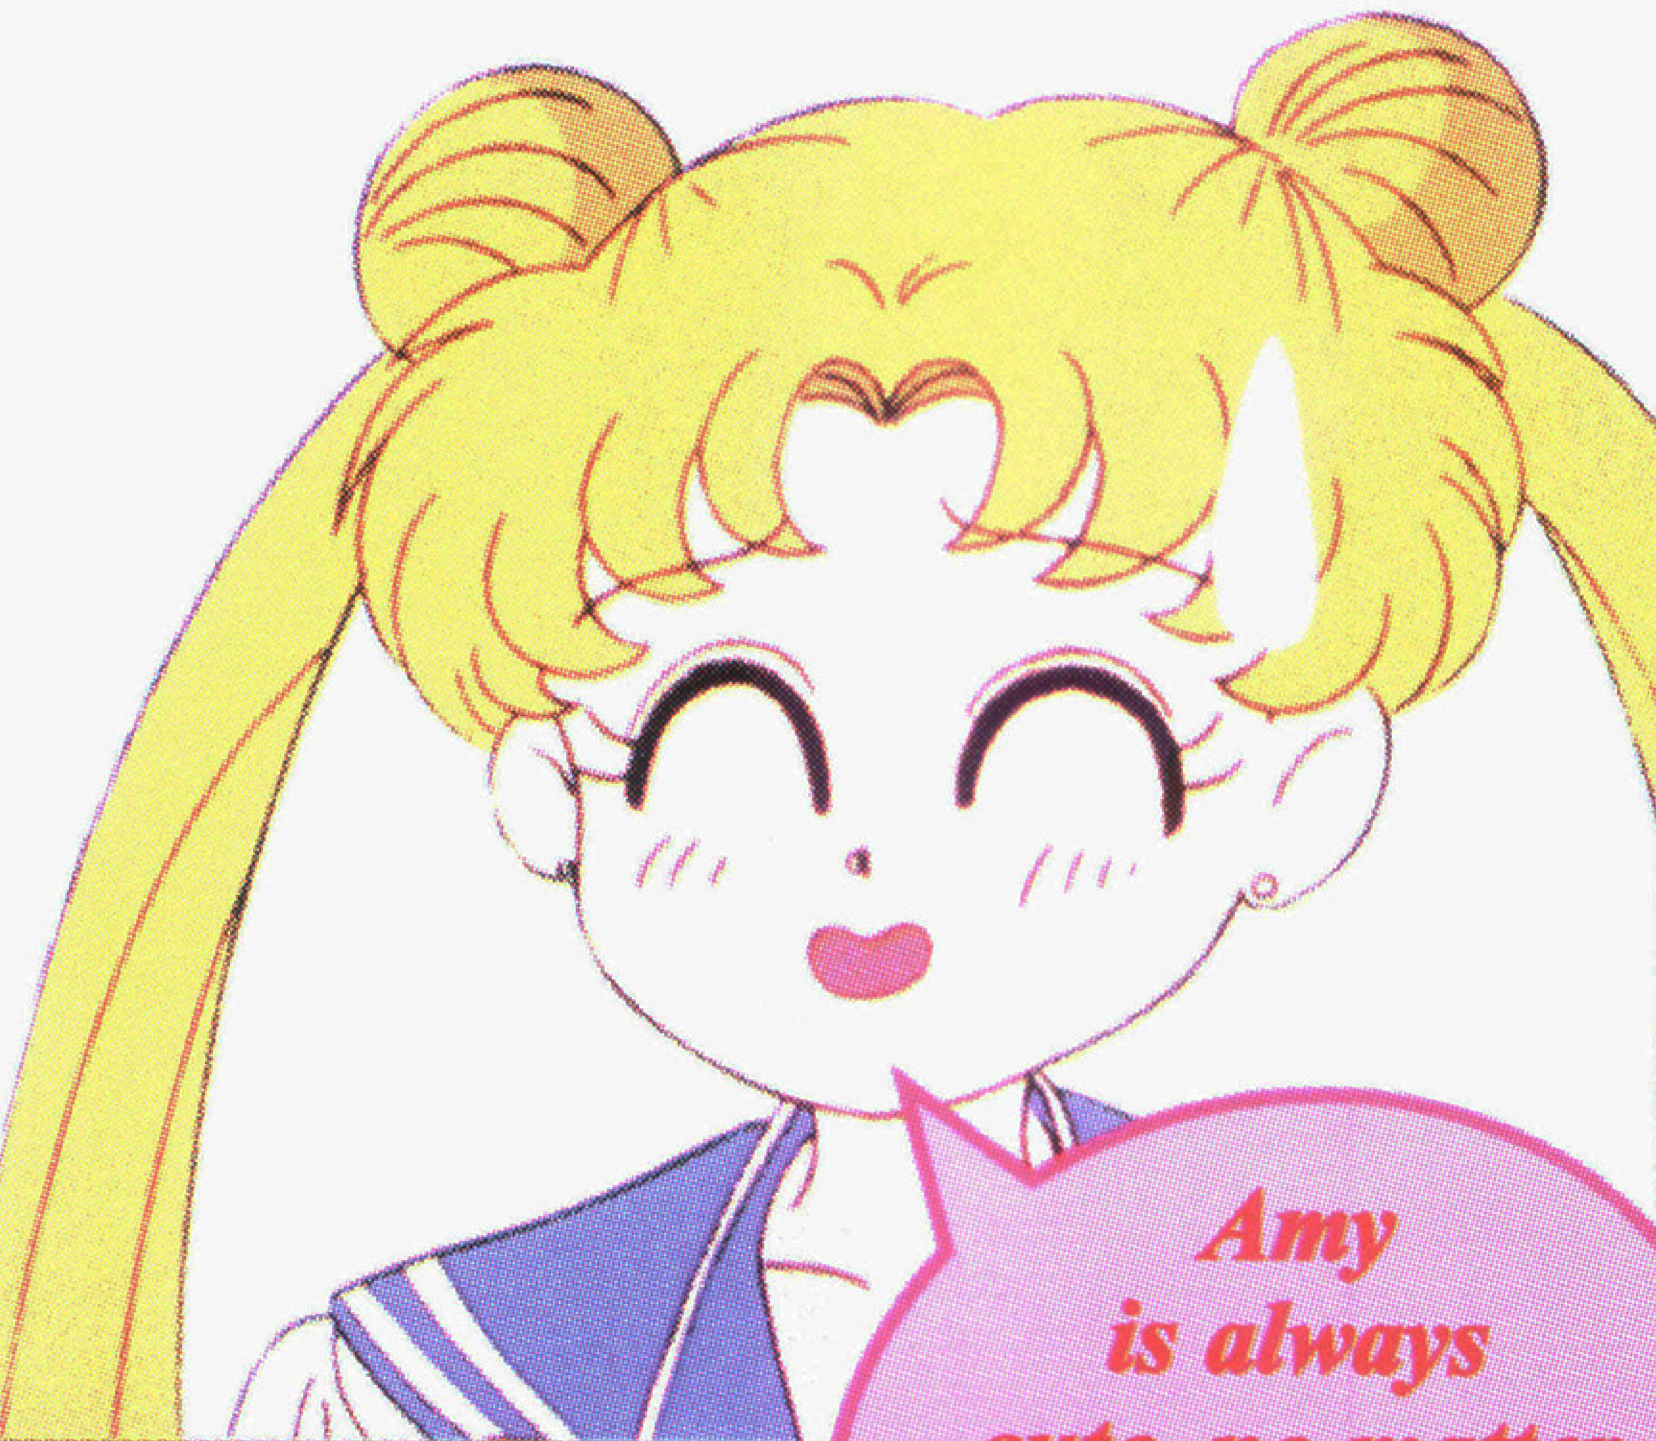
In the school play Amy had to play a raccoon. Doesn't she look happy!

Amy is being pinched by Raye. Hey Raye, you can tease me, but you can't tease Amy!



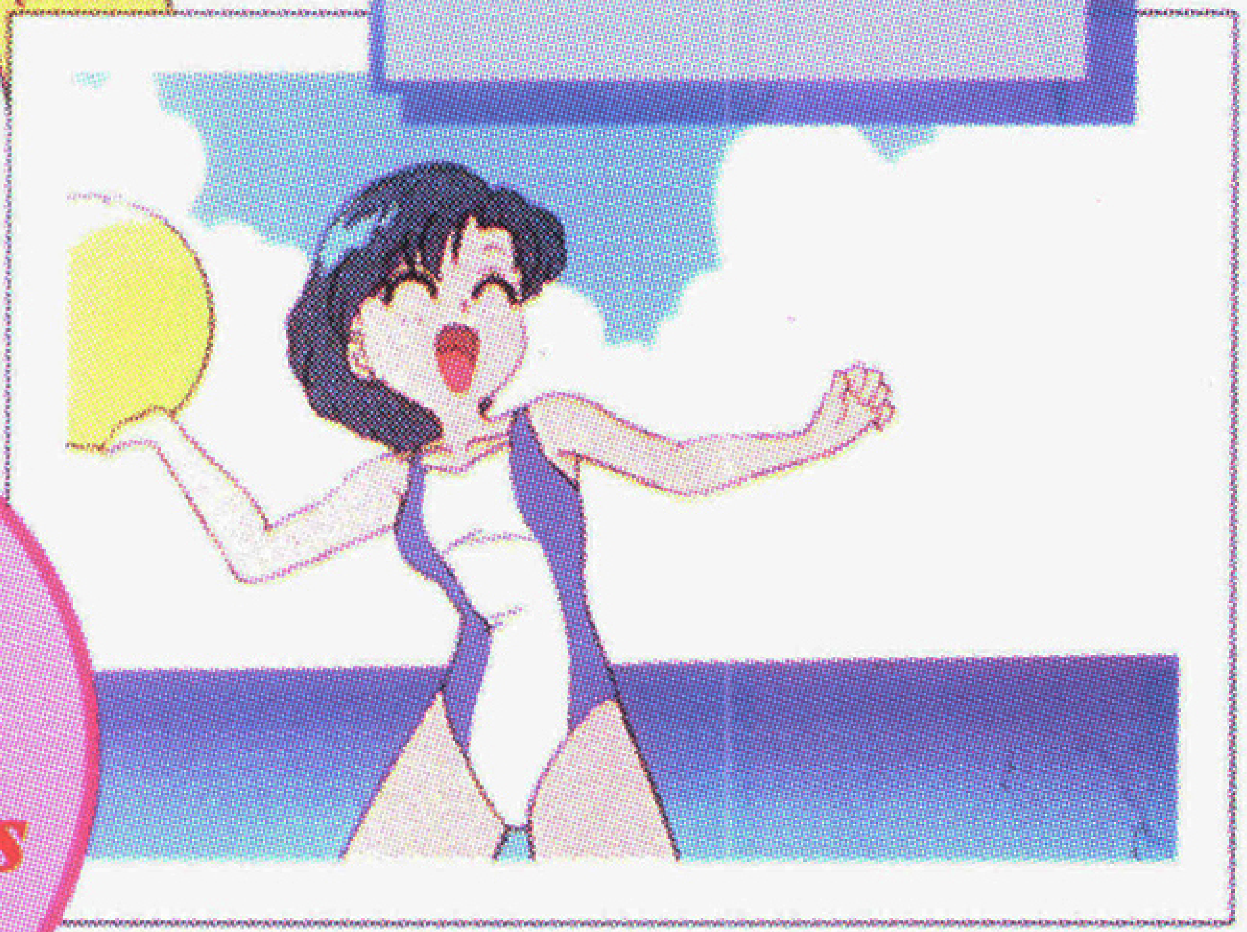


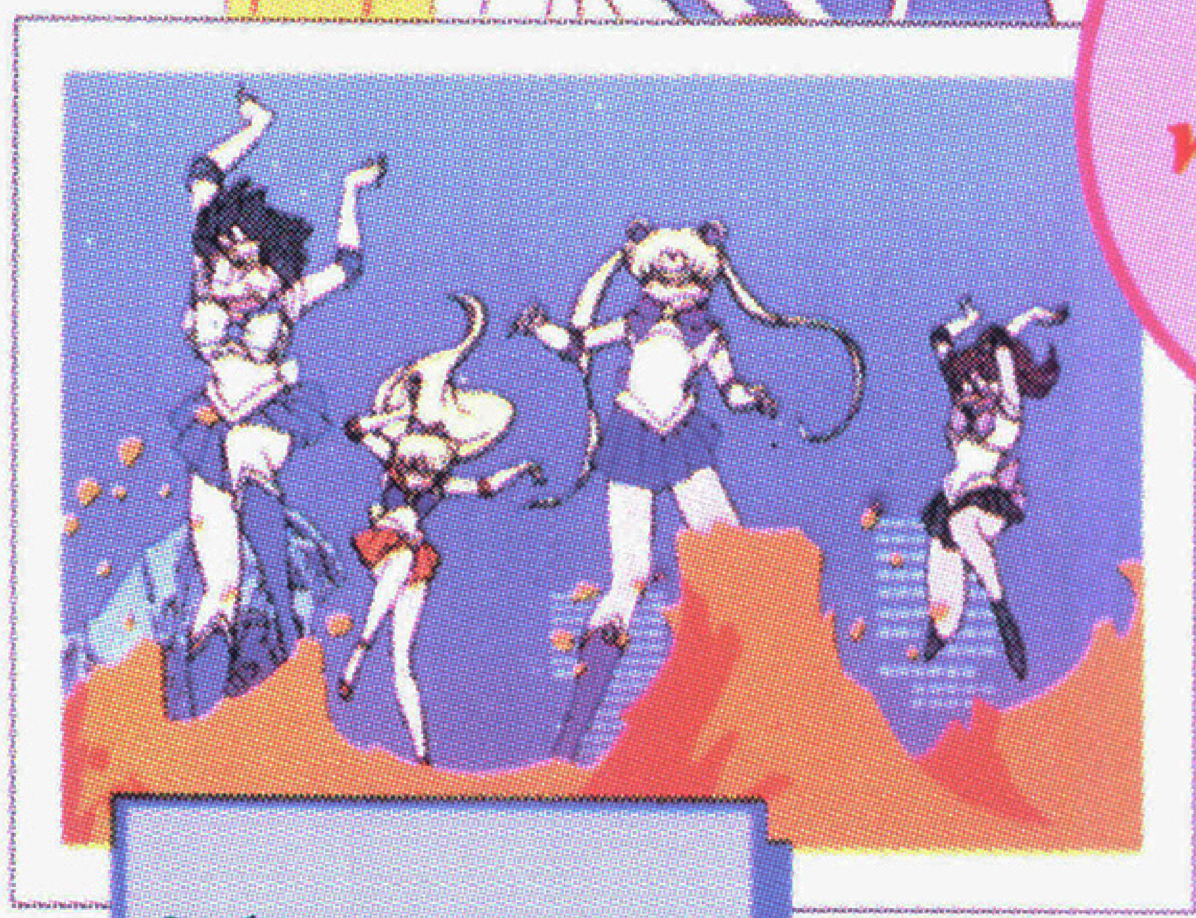
Amy usually LOOKS cool, but sometimes she ACTS stupid!



Amy is always cute, no matter what look she has on her face.

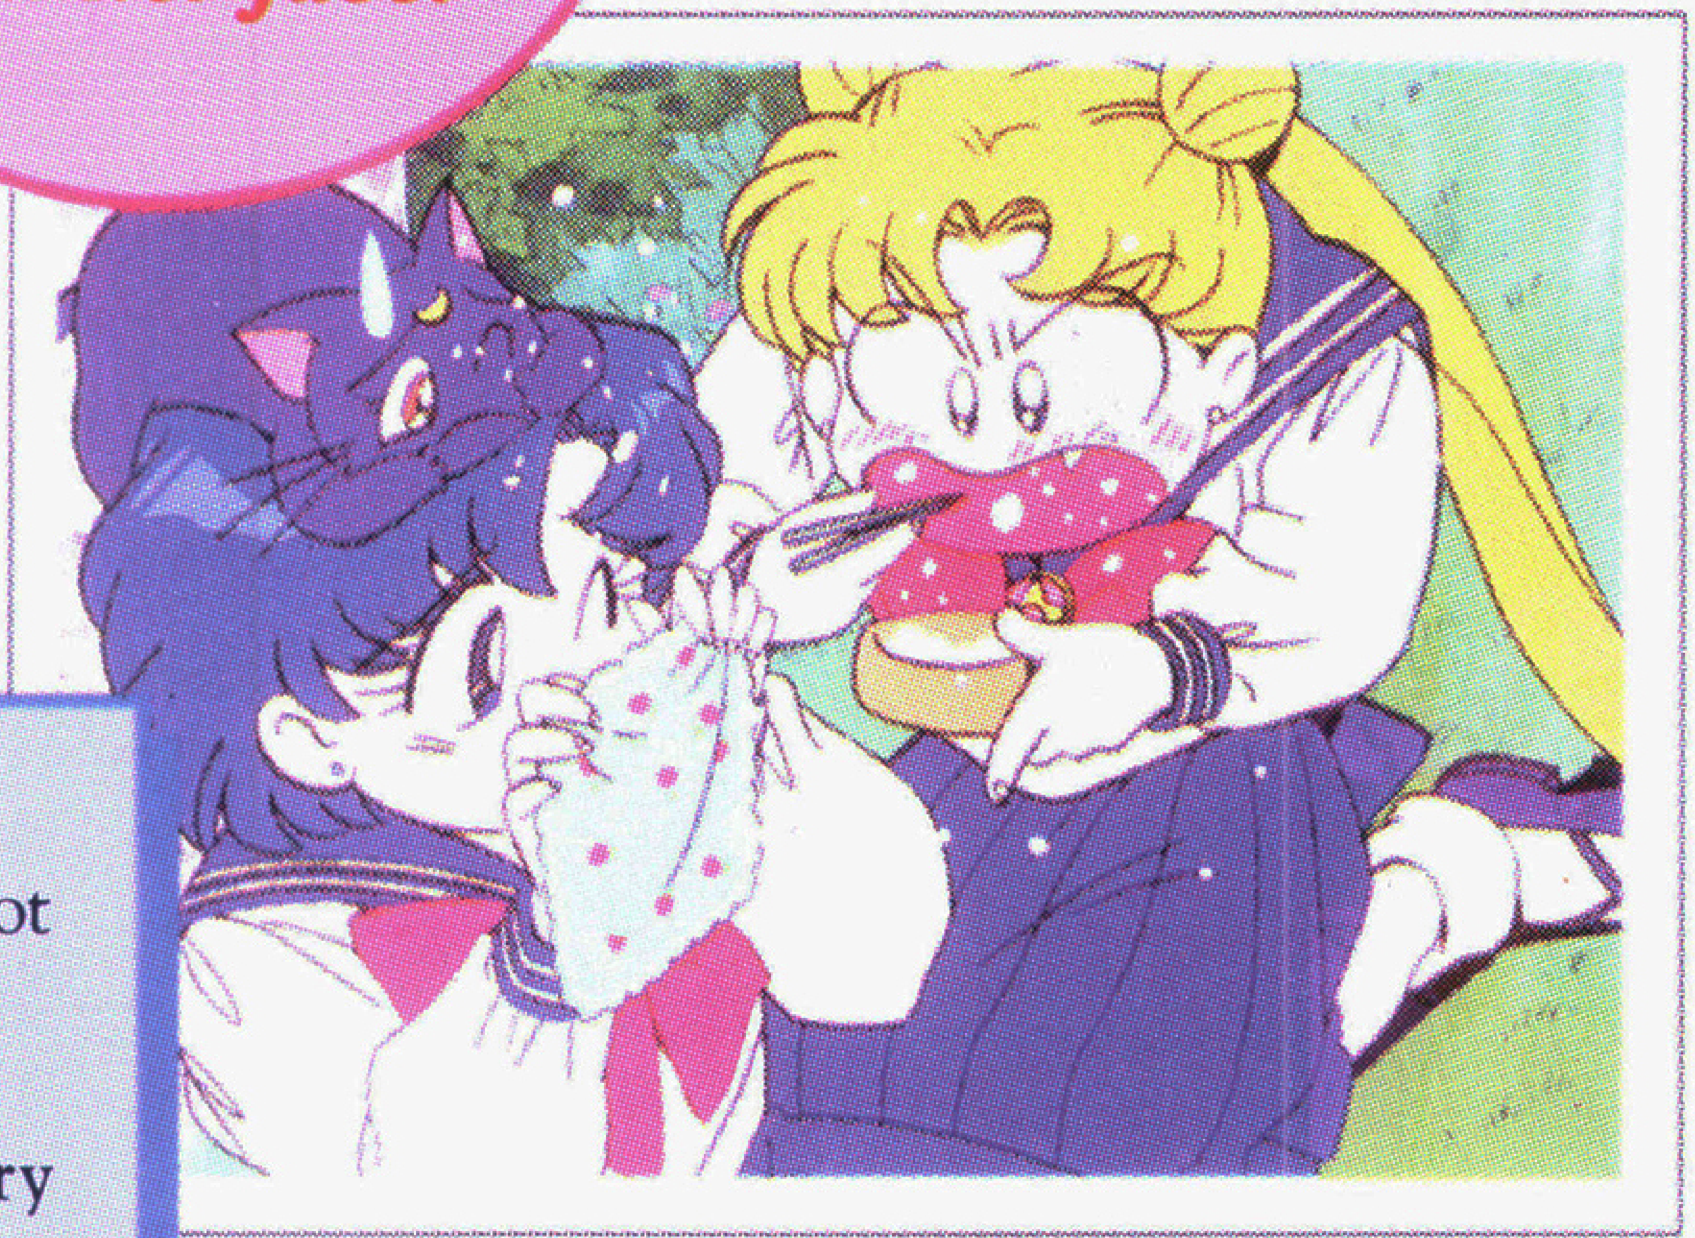
Amy may be cute in her swimsuit, but she shouldn't tease me about it like Raye does!

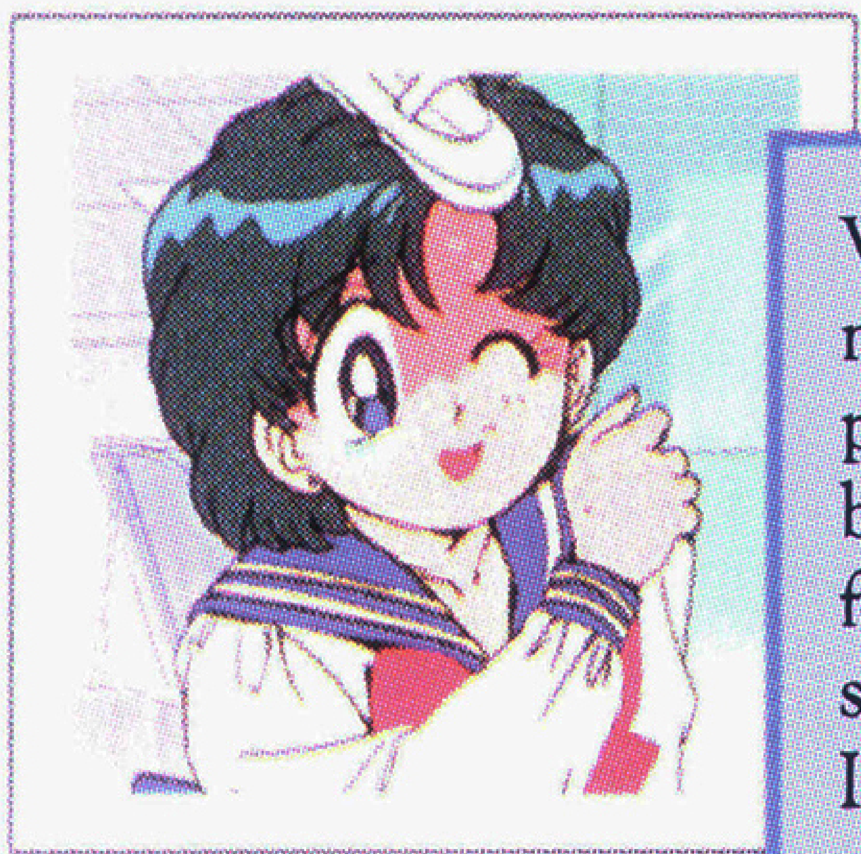




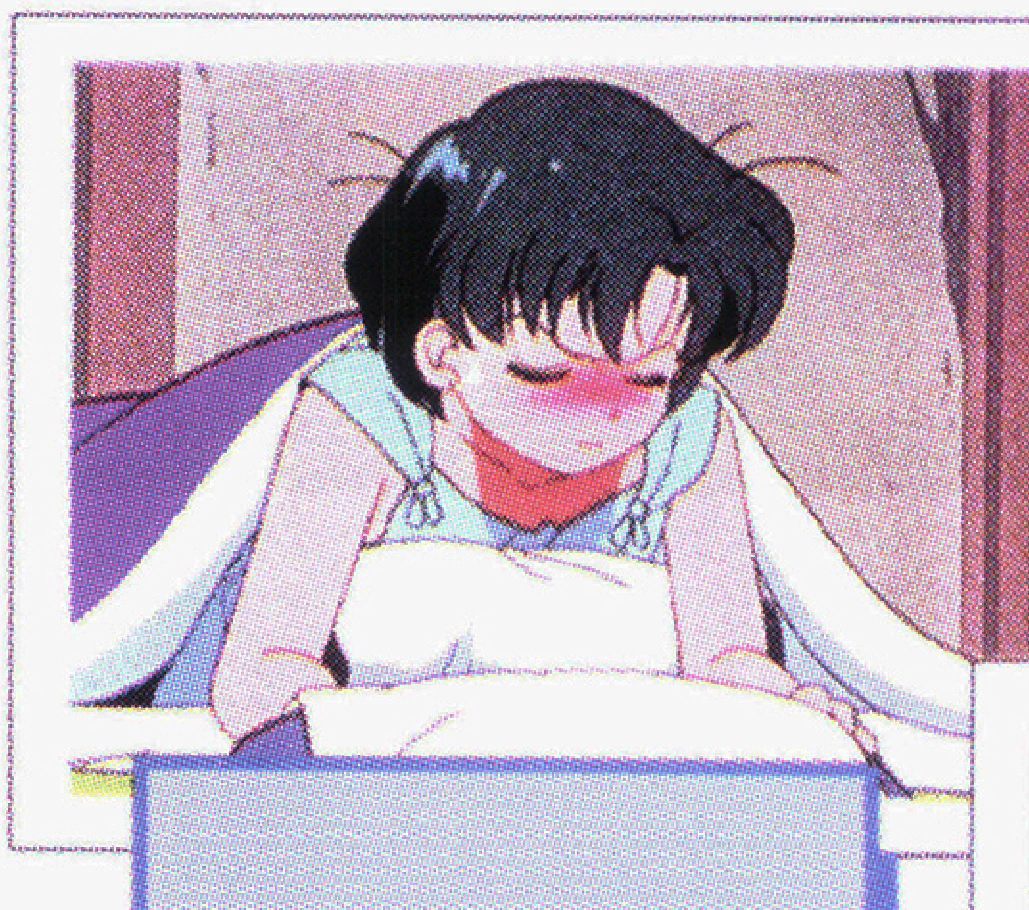
Sailor Mercury is usually very calm, but sometimes she gets embarrassed. Isn't she cute when she's embarrassed?!

I'm sorry, Amy! I forgot to bring my lunch, and I was so hungry that I just couldn't stop!

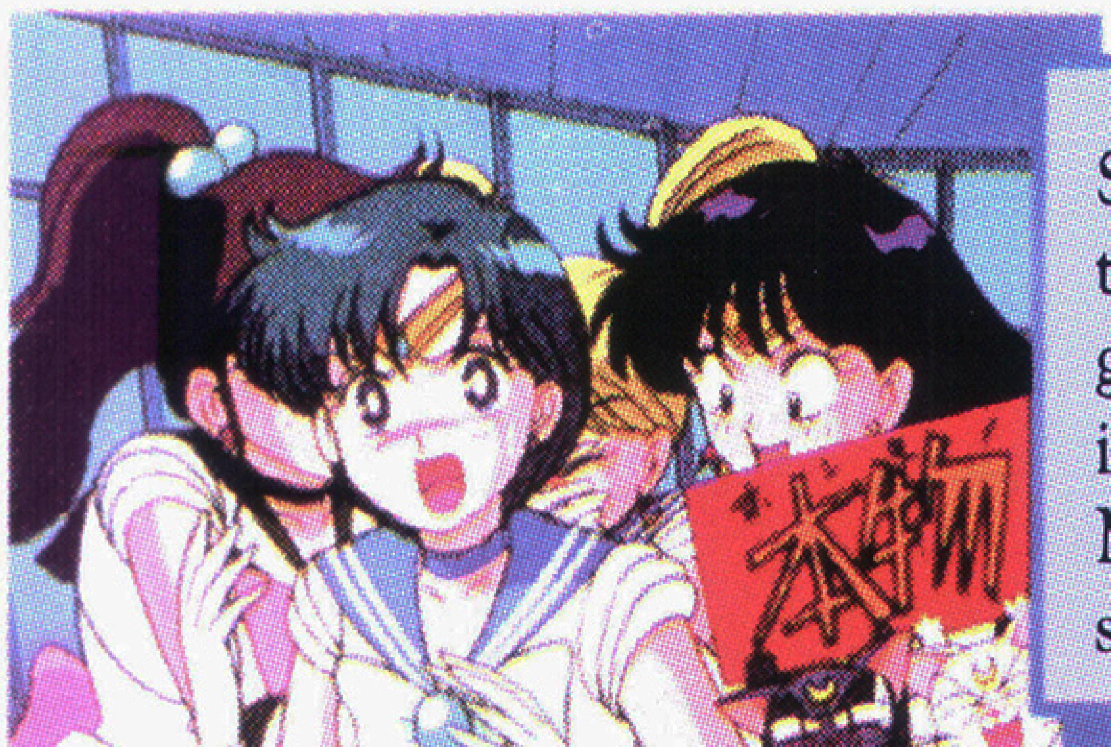




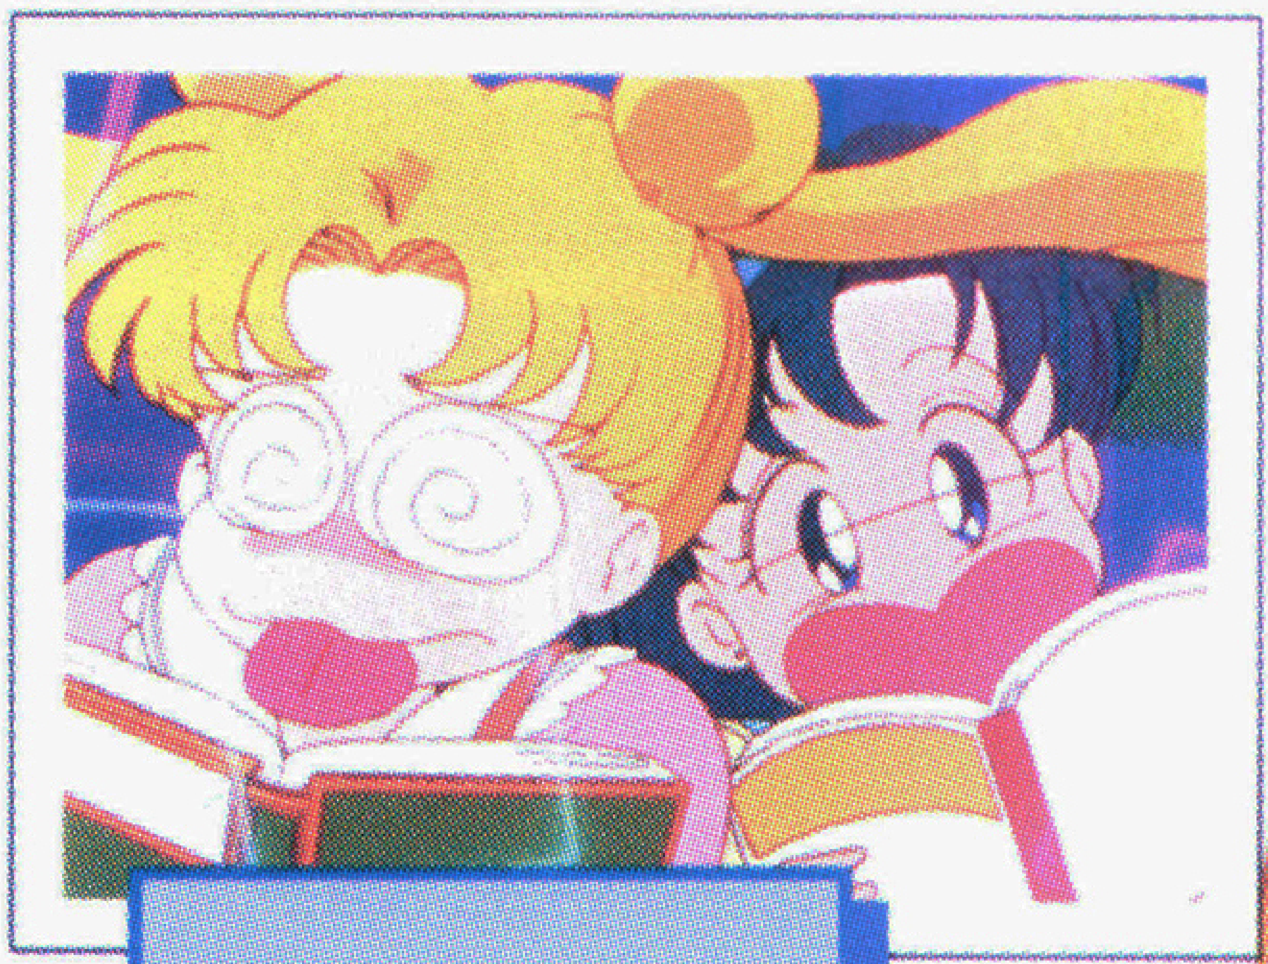
When Amy makes a joke, people laugh, but not always for the reason she intended. Isn't she goofy?



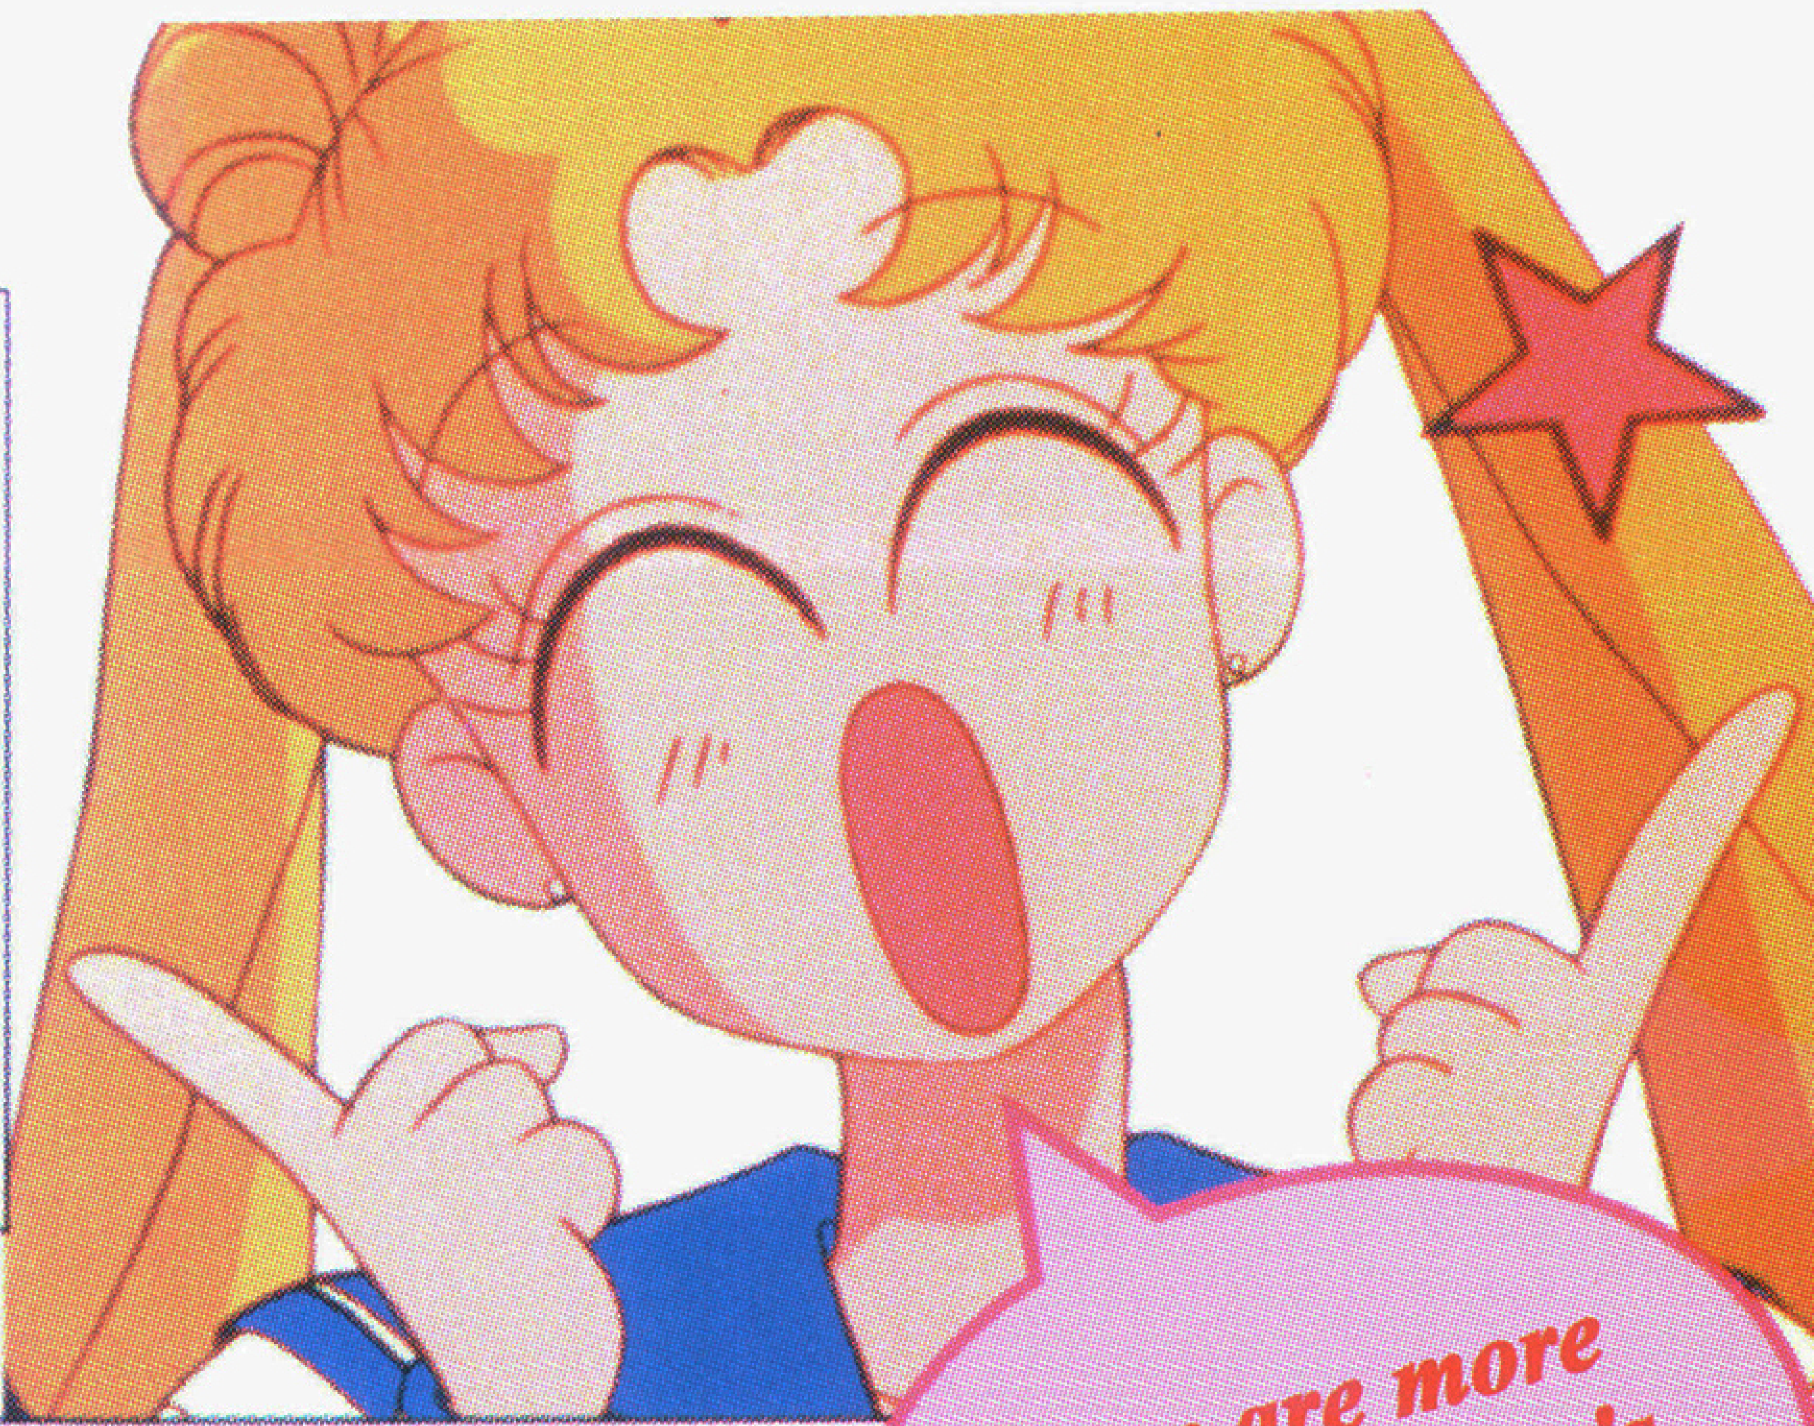
Here's Amy when she gets mad, which is rare. She's still pretty, even when she's angry.



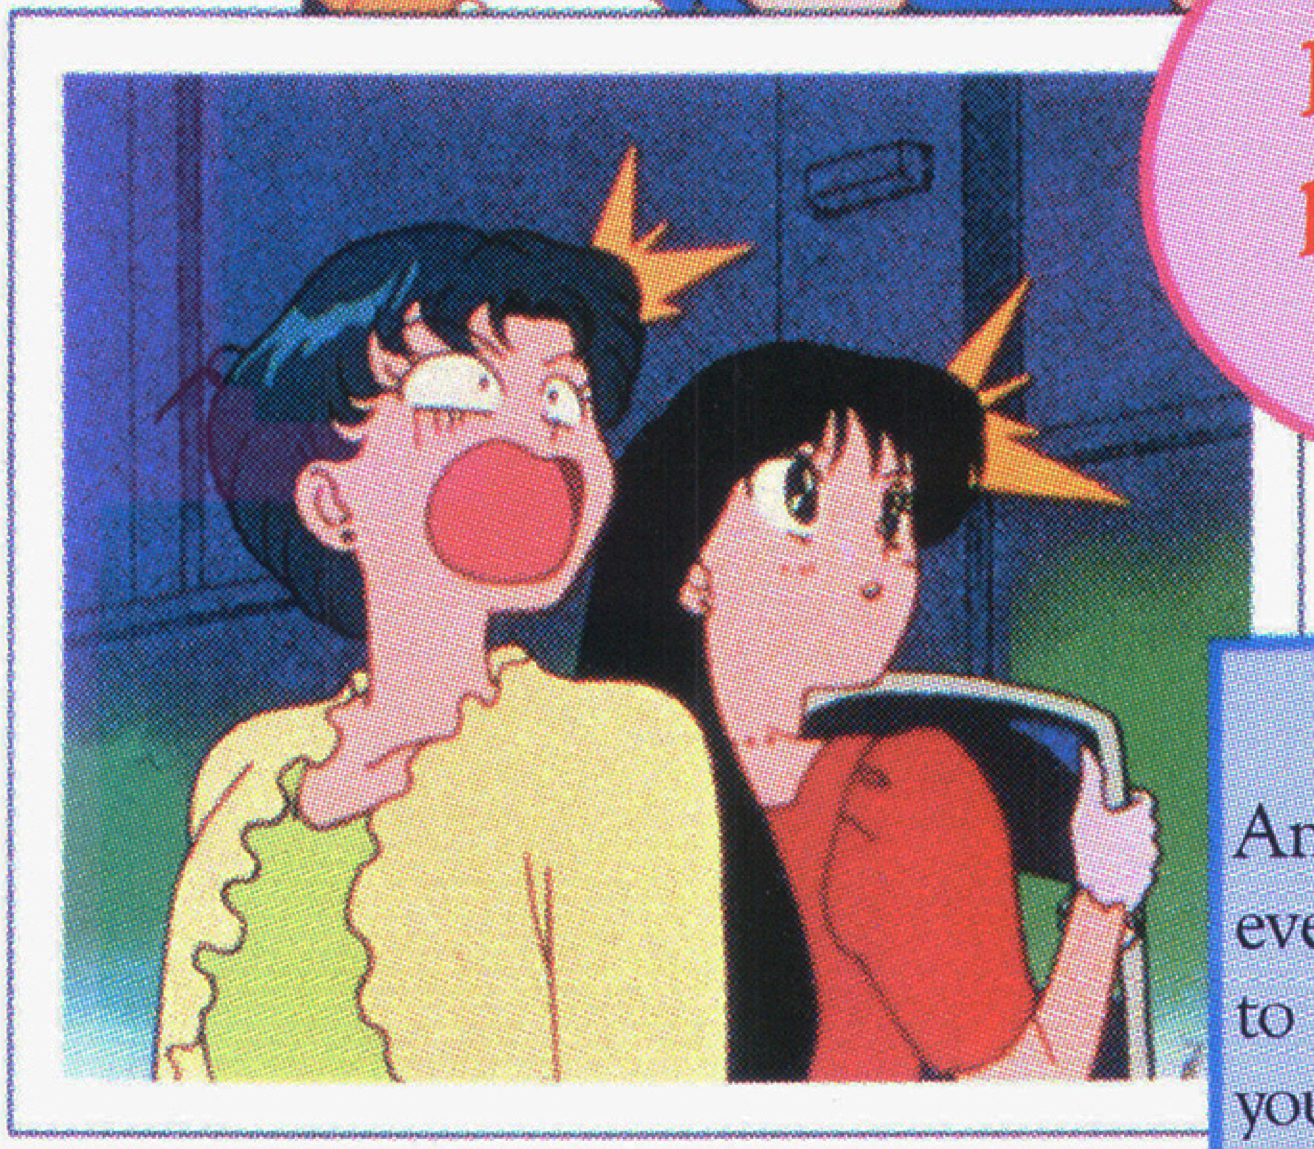
Sailor Mercury thinks that the disguised Sailor Venus is the real Sailor Moon. Obviously, she's not!



Amy was surprised that I'm always reading comics. What's so strange about that?

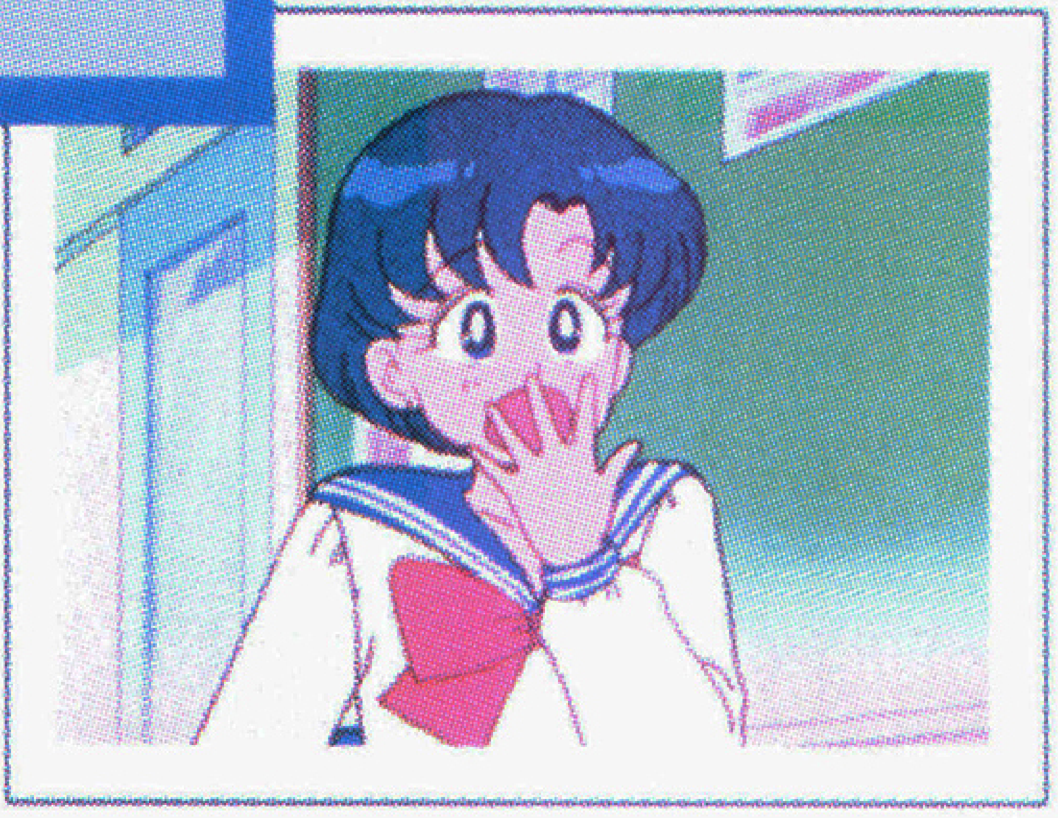


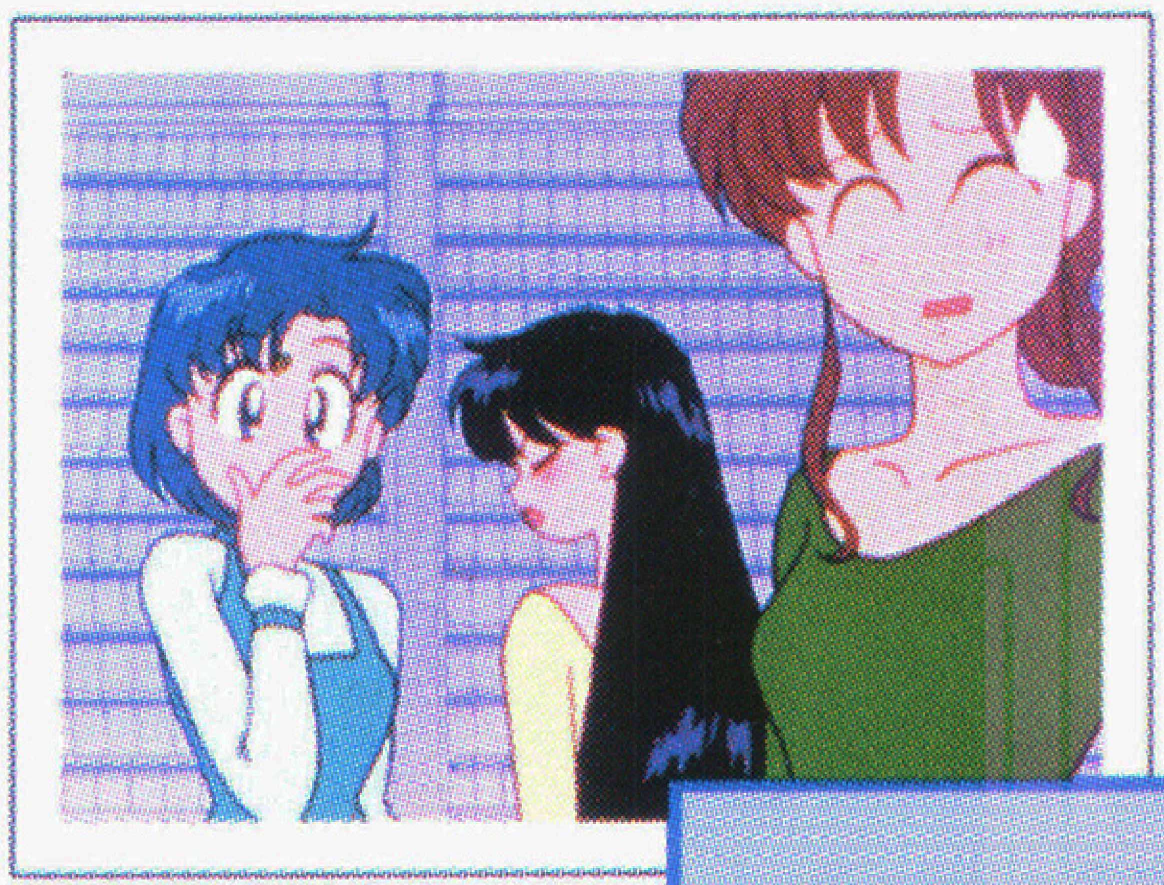
Here are more photos of Amy's everyday life.



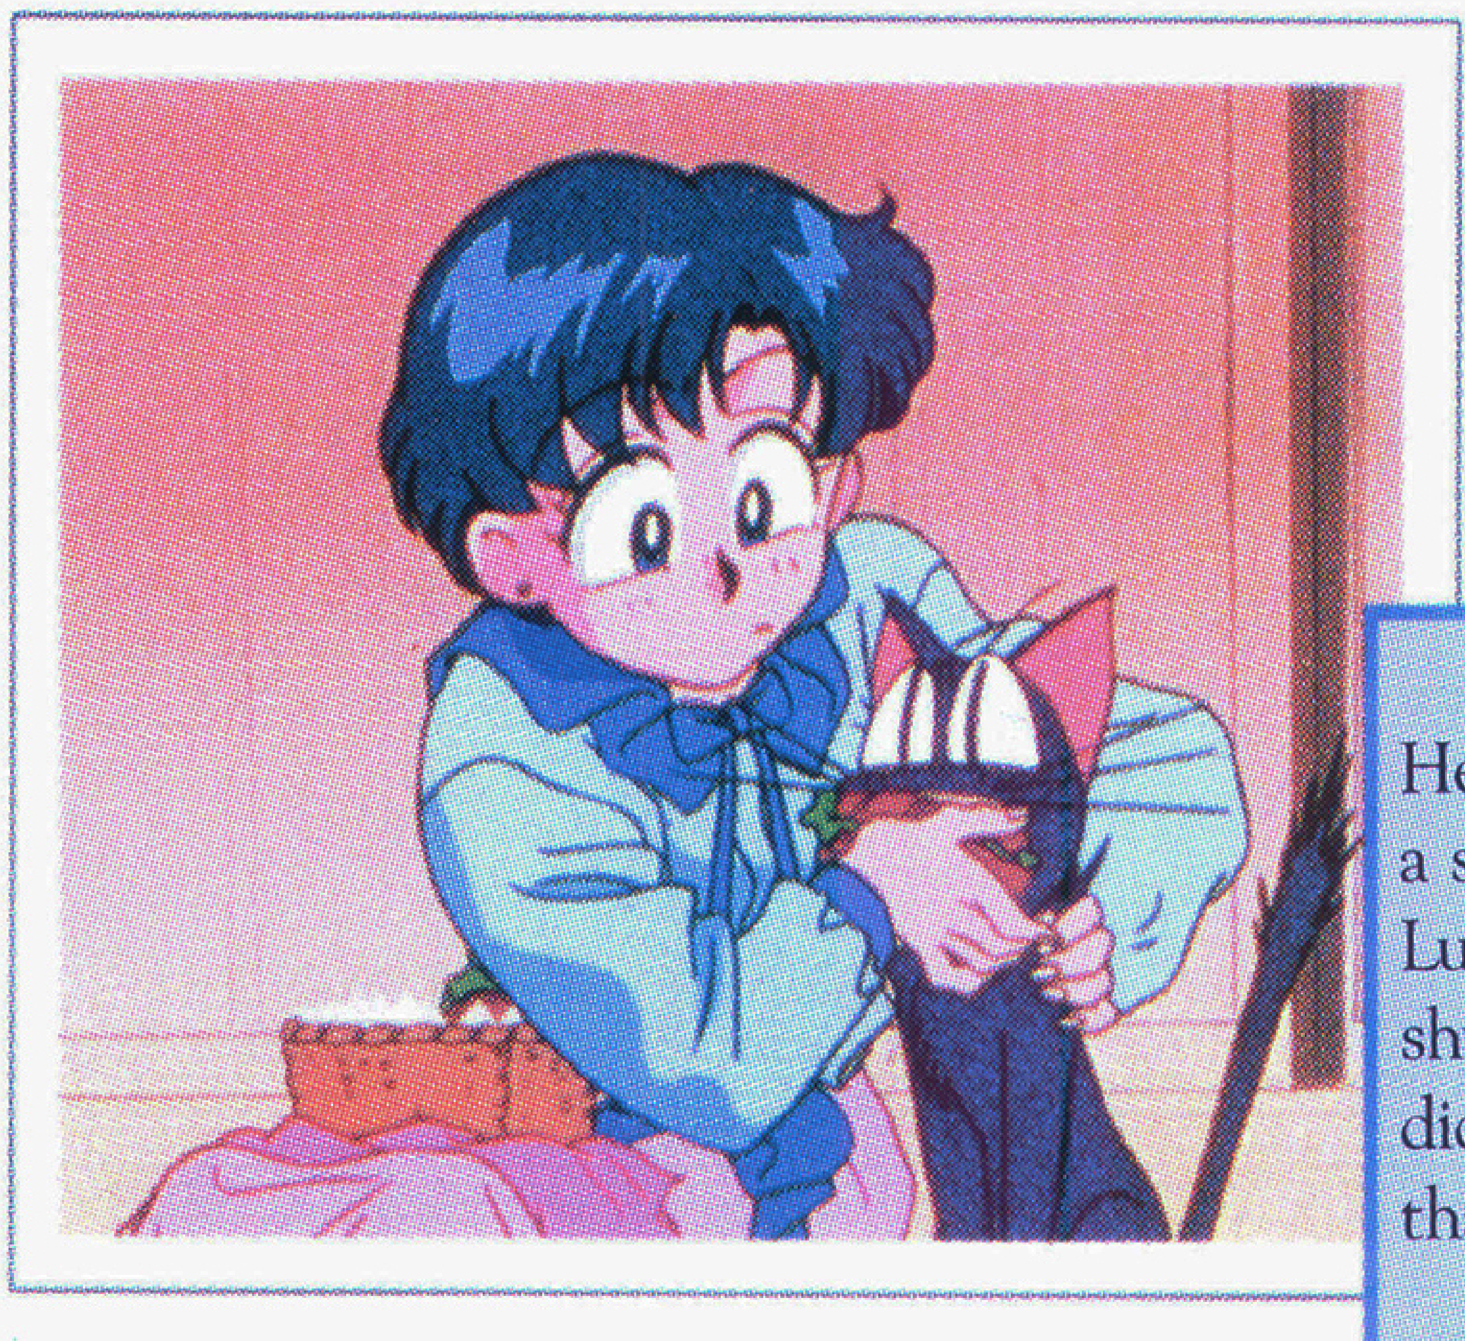
Amy isn't happy, even though I came to save her! Can't you be a little more grateful?

I really envy her elegant manners. Amy even puts her hand over her mouth when she's surprised.

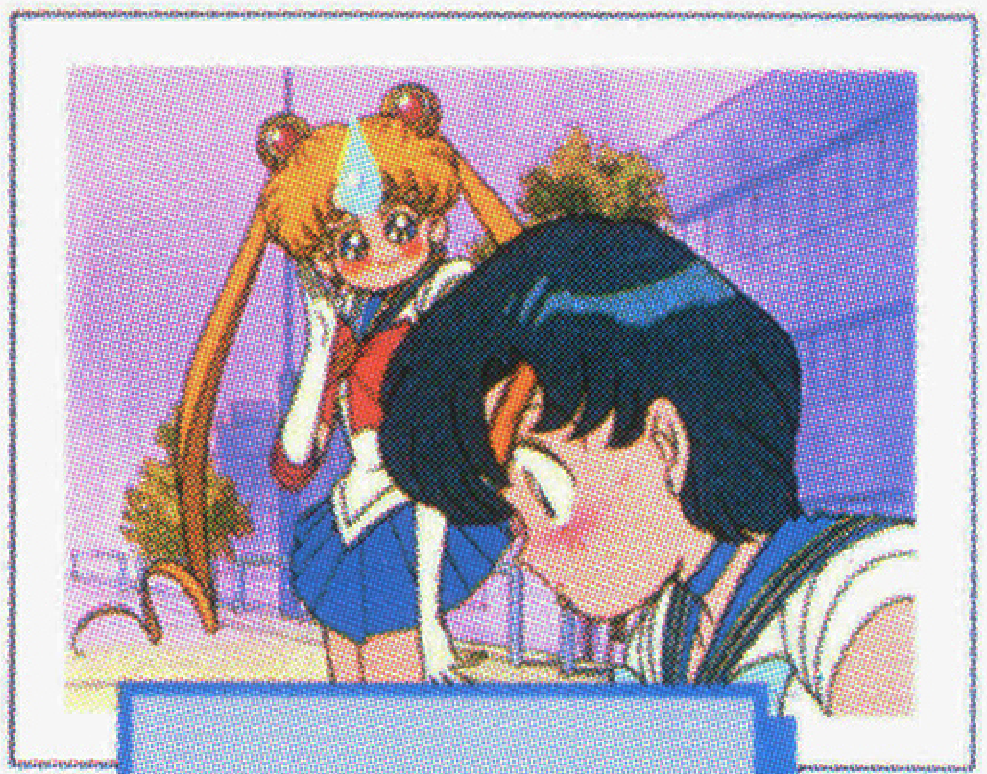




Here's a photo from our ski trip. Please don't laugh at me, just because I can't ski very well!

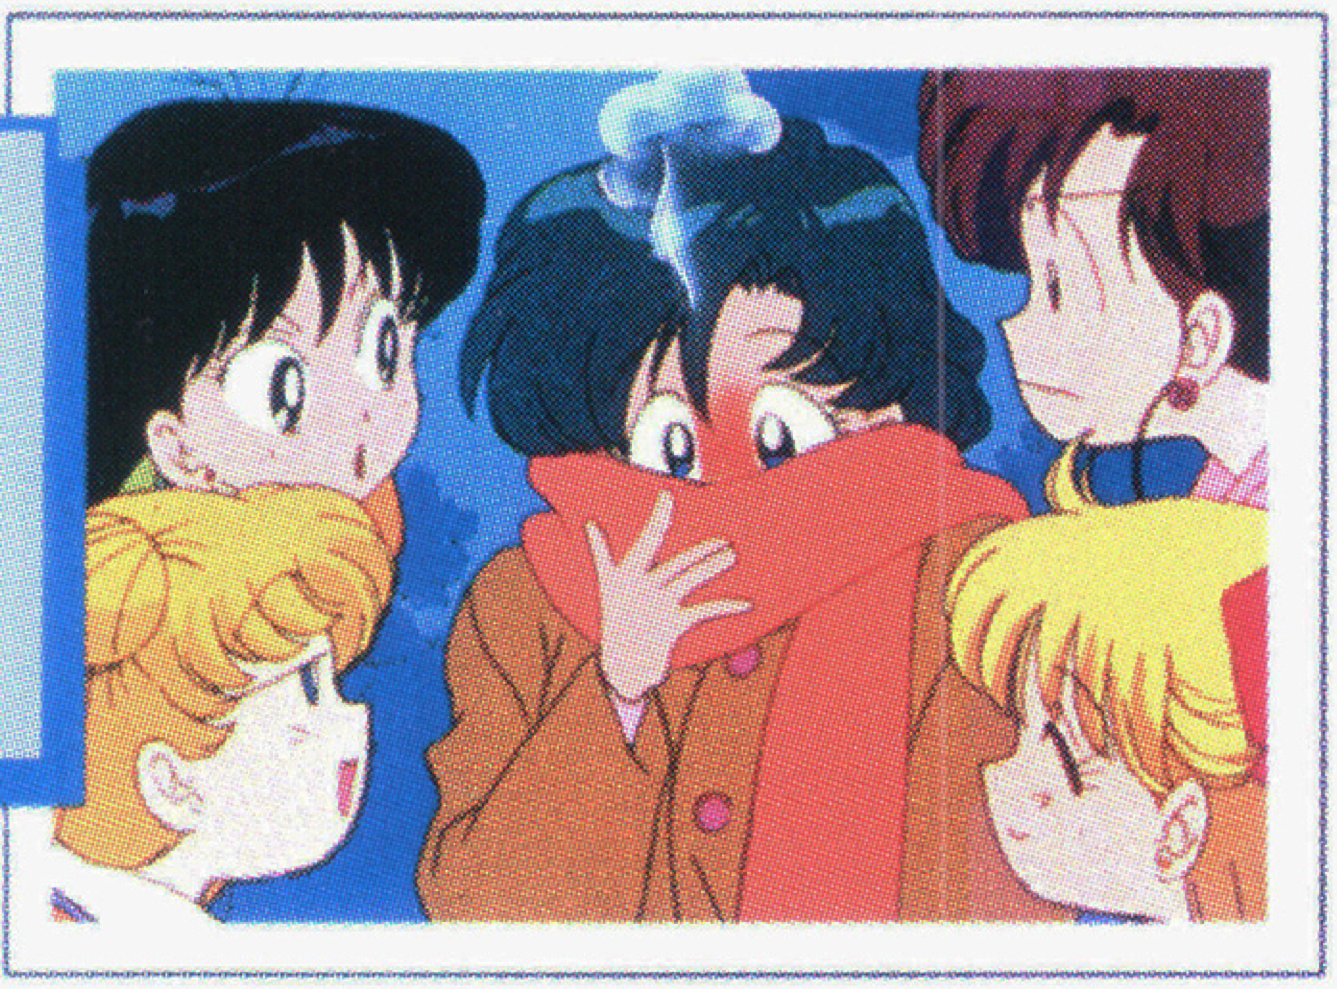


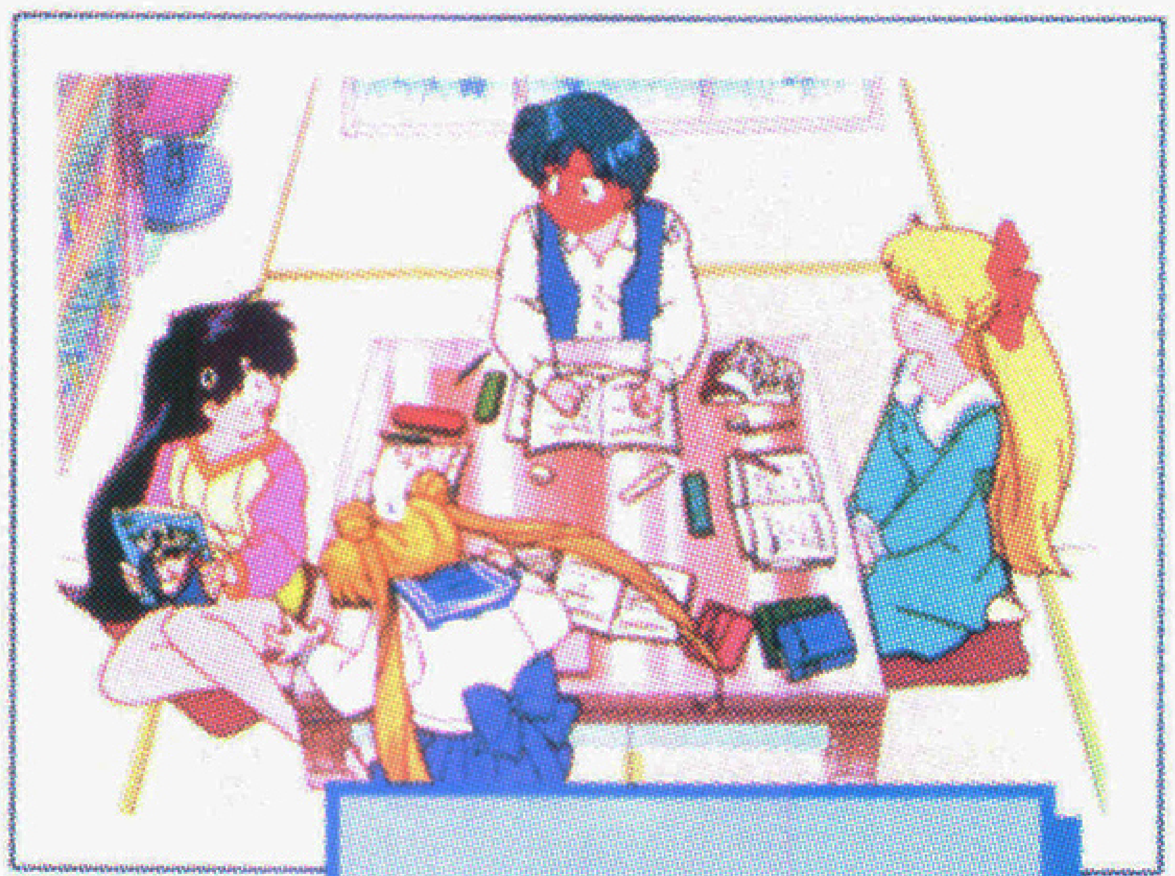
Here's Amy stuffing a sandwich into Luna's mouth to shut her up. Why didn't I think of that?!



Sailor Mercury is serious all the time and she never lies; so let's just not mention my laziness!

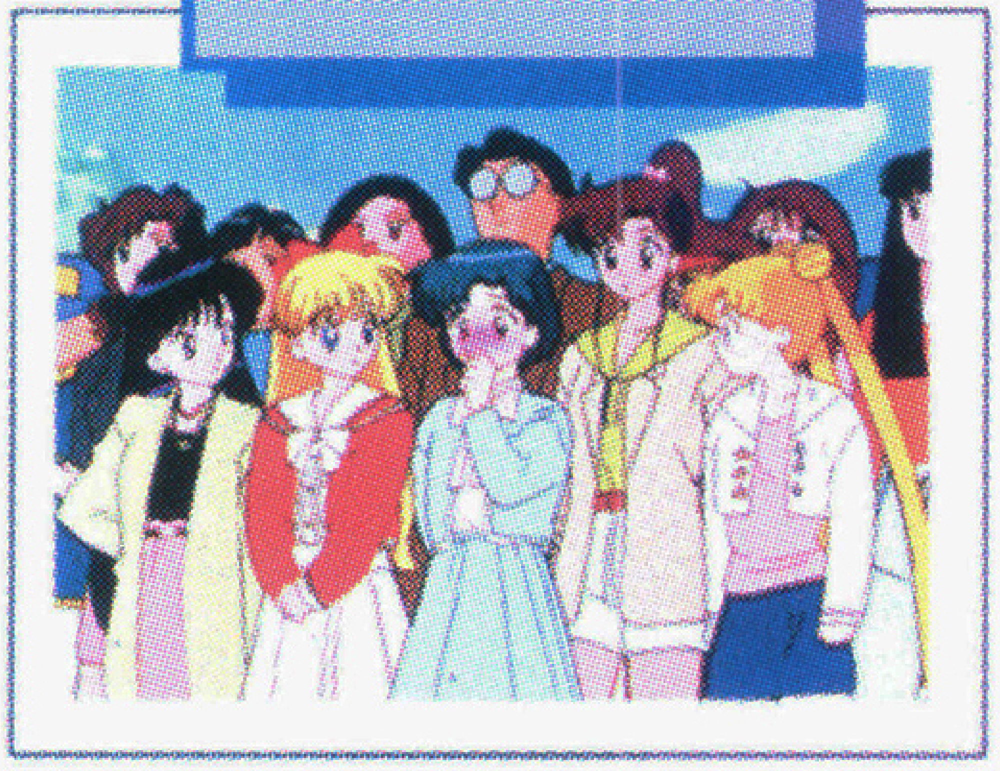
Amy blushes when she talks about her ideal guy. She is so cute sometimes!

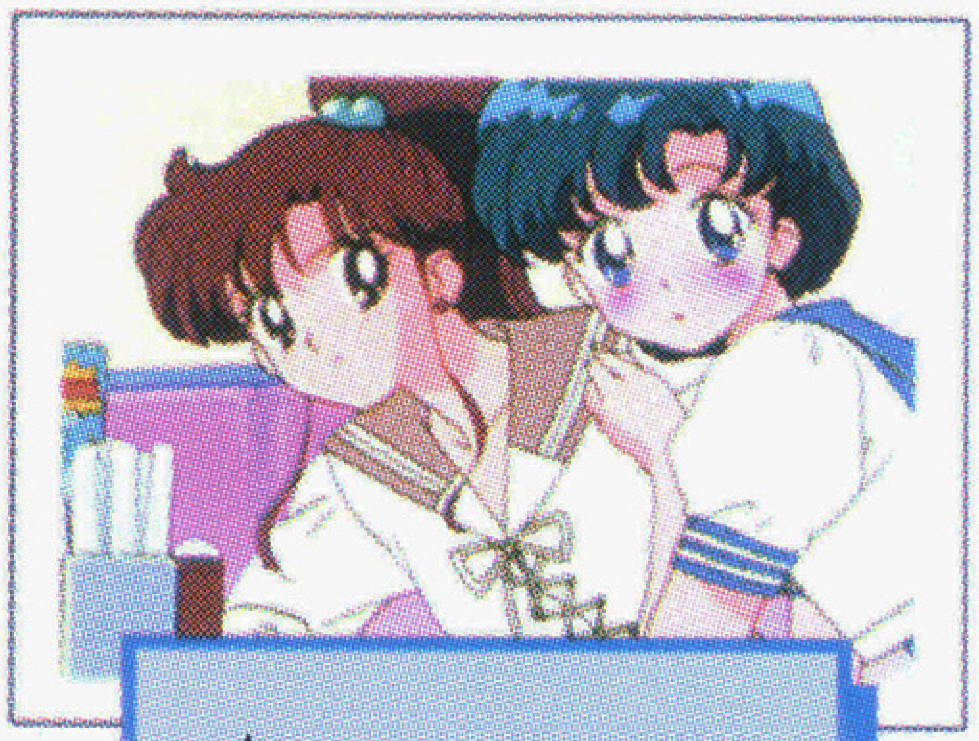




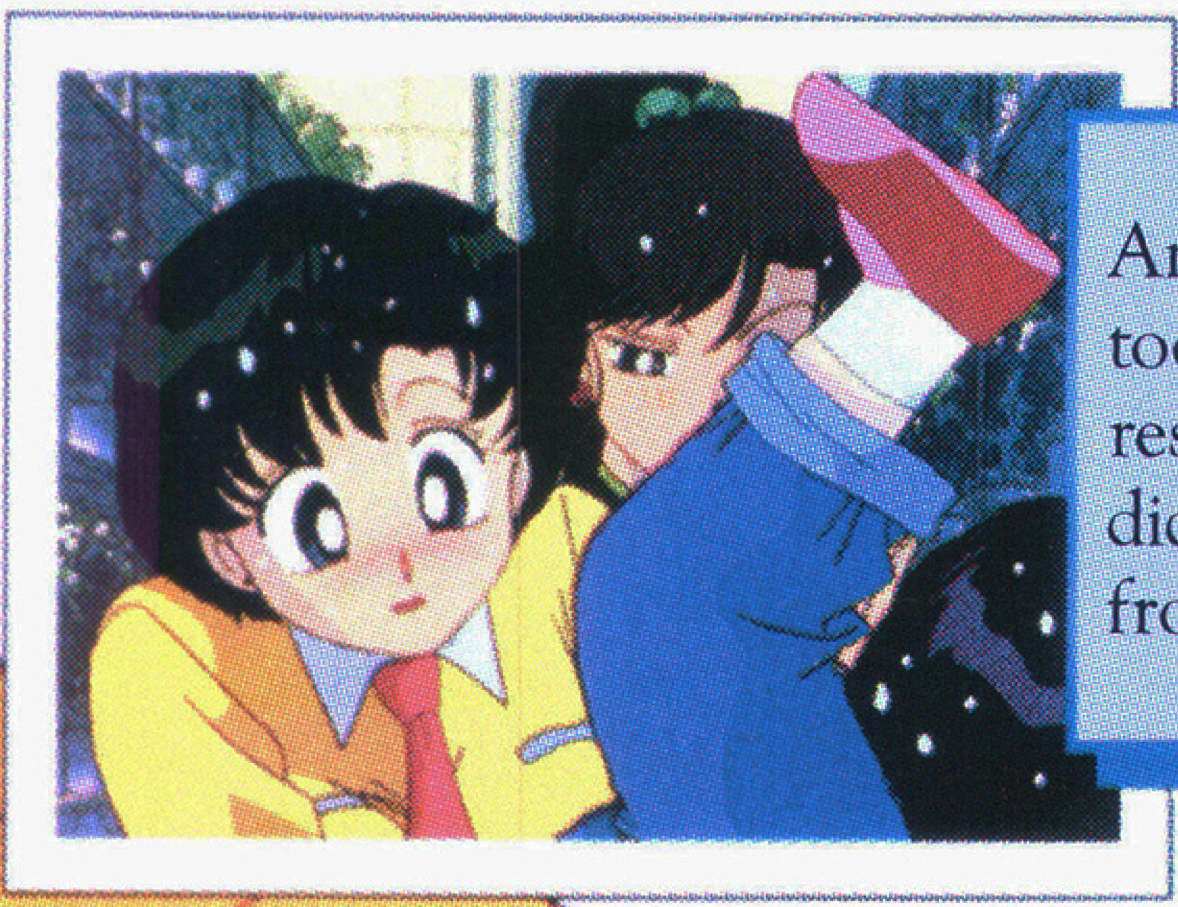
Because Amy is so shy, she blushes easily; she turns red as a lobster.

Amy thinks there's something funny about Haruka and Michiru's relationship. What does THAT mean?

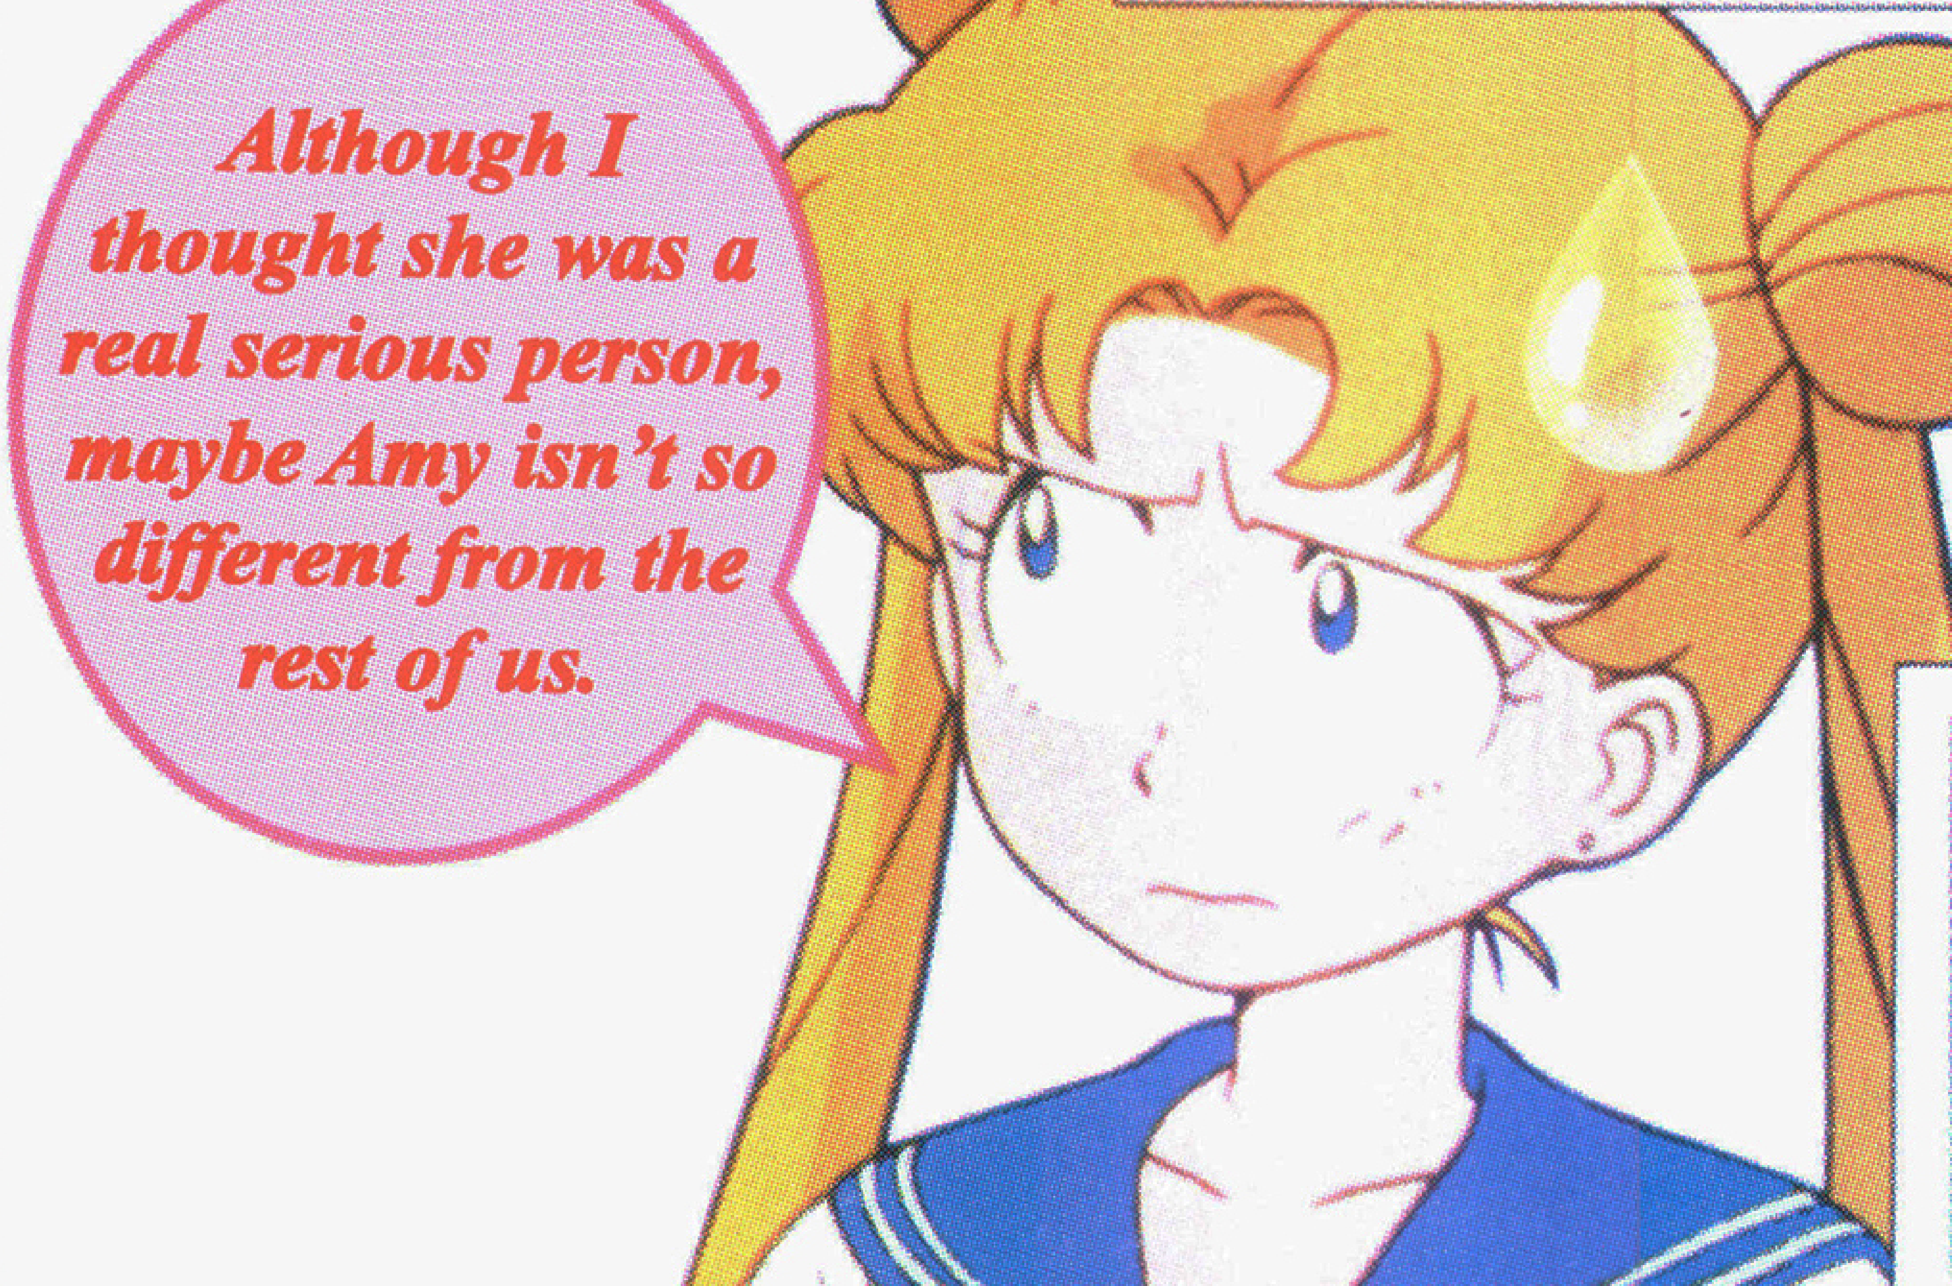




Amy spys on a meeting between Raye and Maya. Surprisingly, she snoops like this a lot.



Amy finds snooping too tempting to resist. I wonder, who did she get THAT from?



Although I thought she was a real serious person, maybe Amy isn't so different from the rest of us.

Amy waited by the pool hoping to meet someone, but nobody talked to her. Don't give up, Amy!

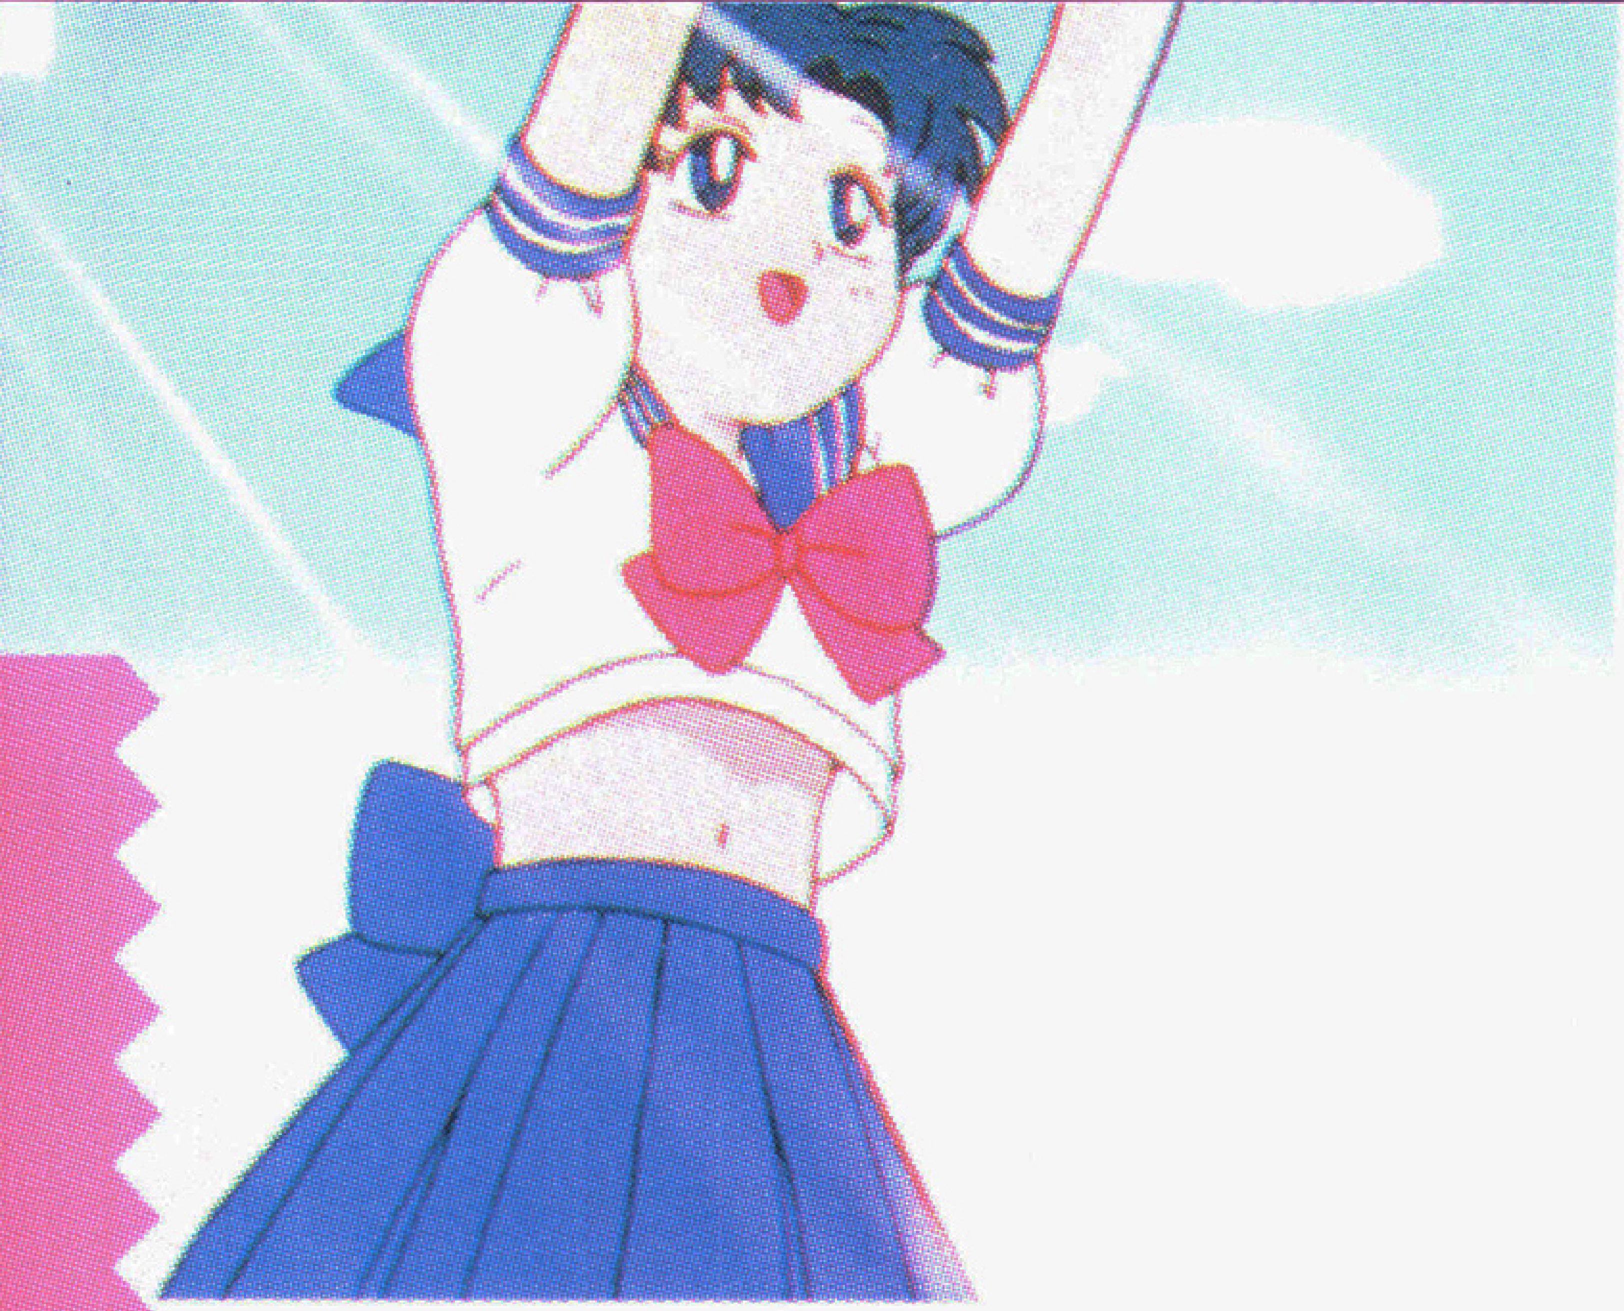
Greg is a transfer student at Crossroads Middle School. On his first test he scores higher than Amy! He's still impressed enough by Amy that he pours his heart out to her in a love letter. When Serena notices Greg's crush, she decides to cheer him on. But Greg has another secret; he has the ability to see into the future. His power made him sense that inside his body he is really a monster! As he predicts, Zoicite comes for him and turns him into a monster. Amy and Serena transform and come to Greg's rescue, but in the process, Greg discovers Amy's secret identity.



Amy doesn't realize the way Greg feels about her.

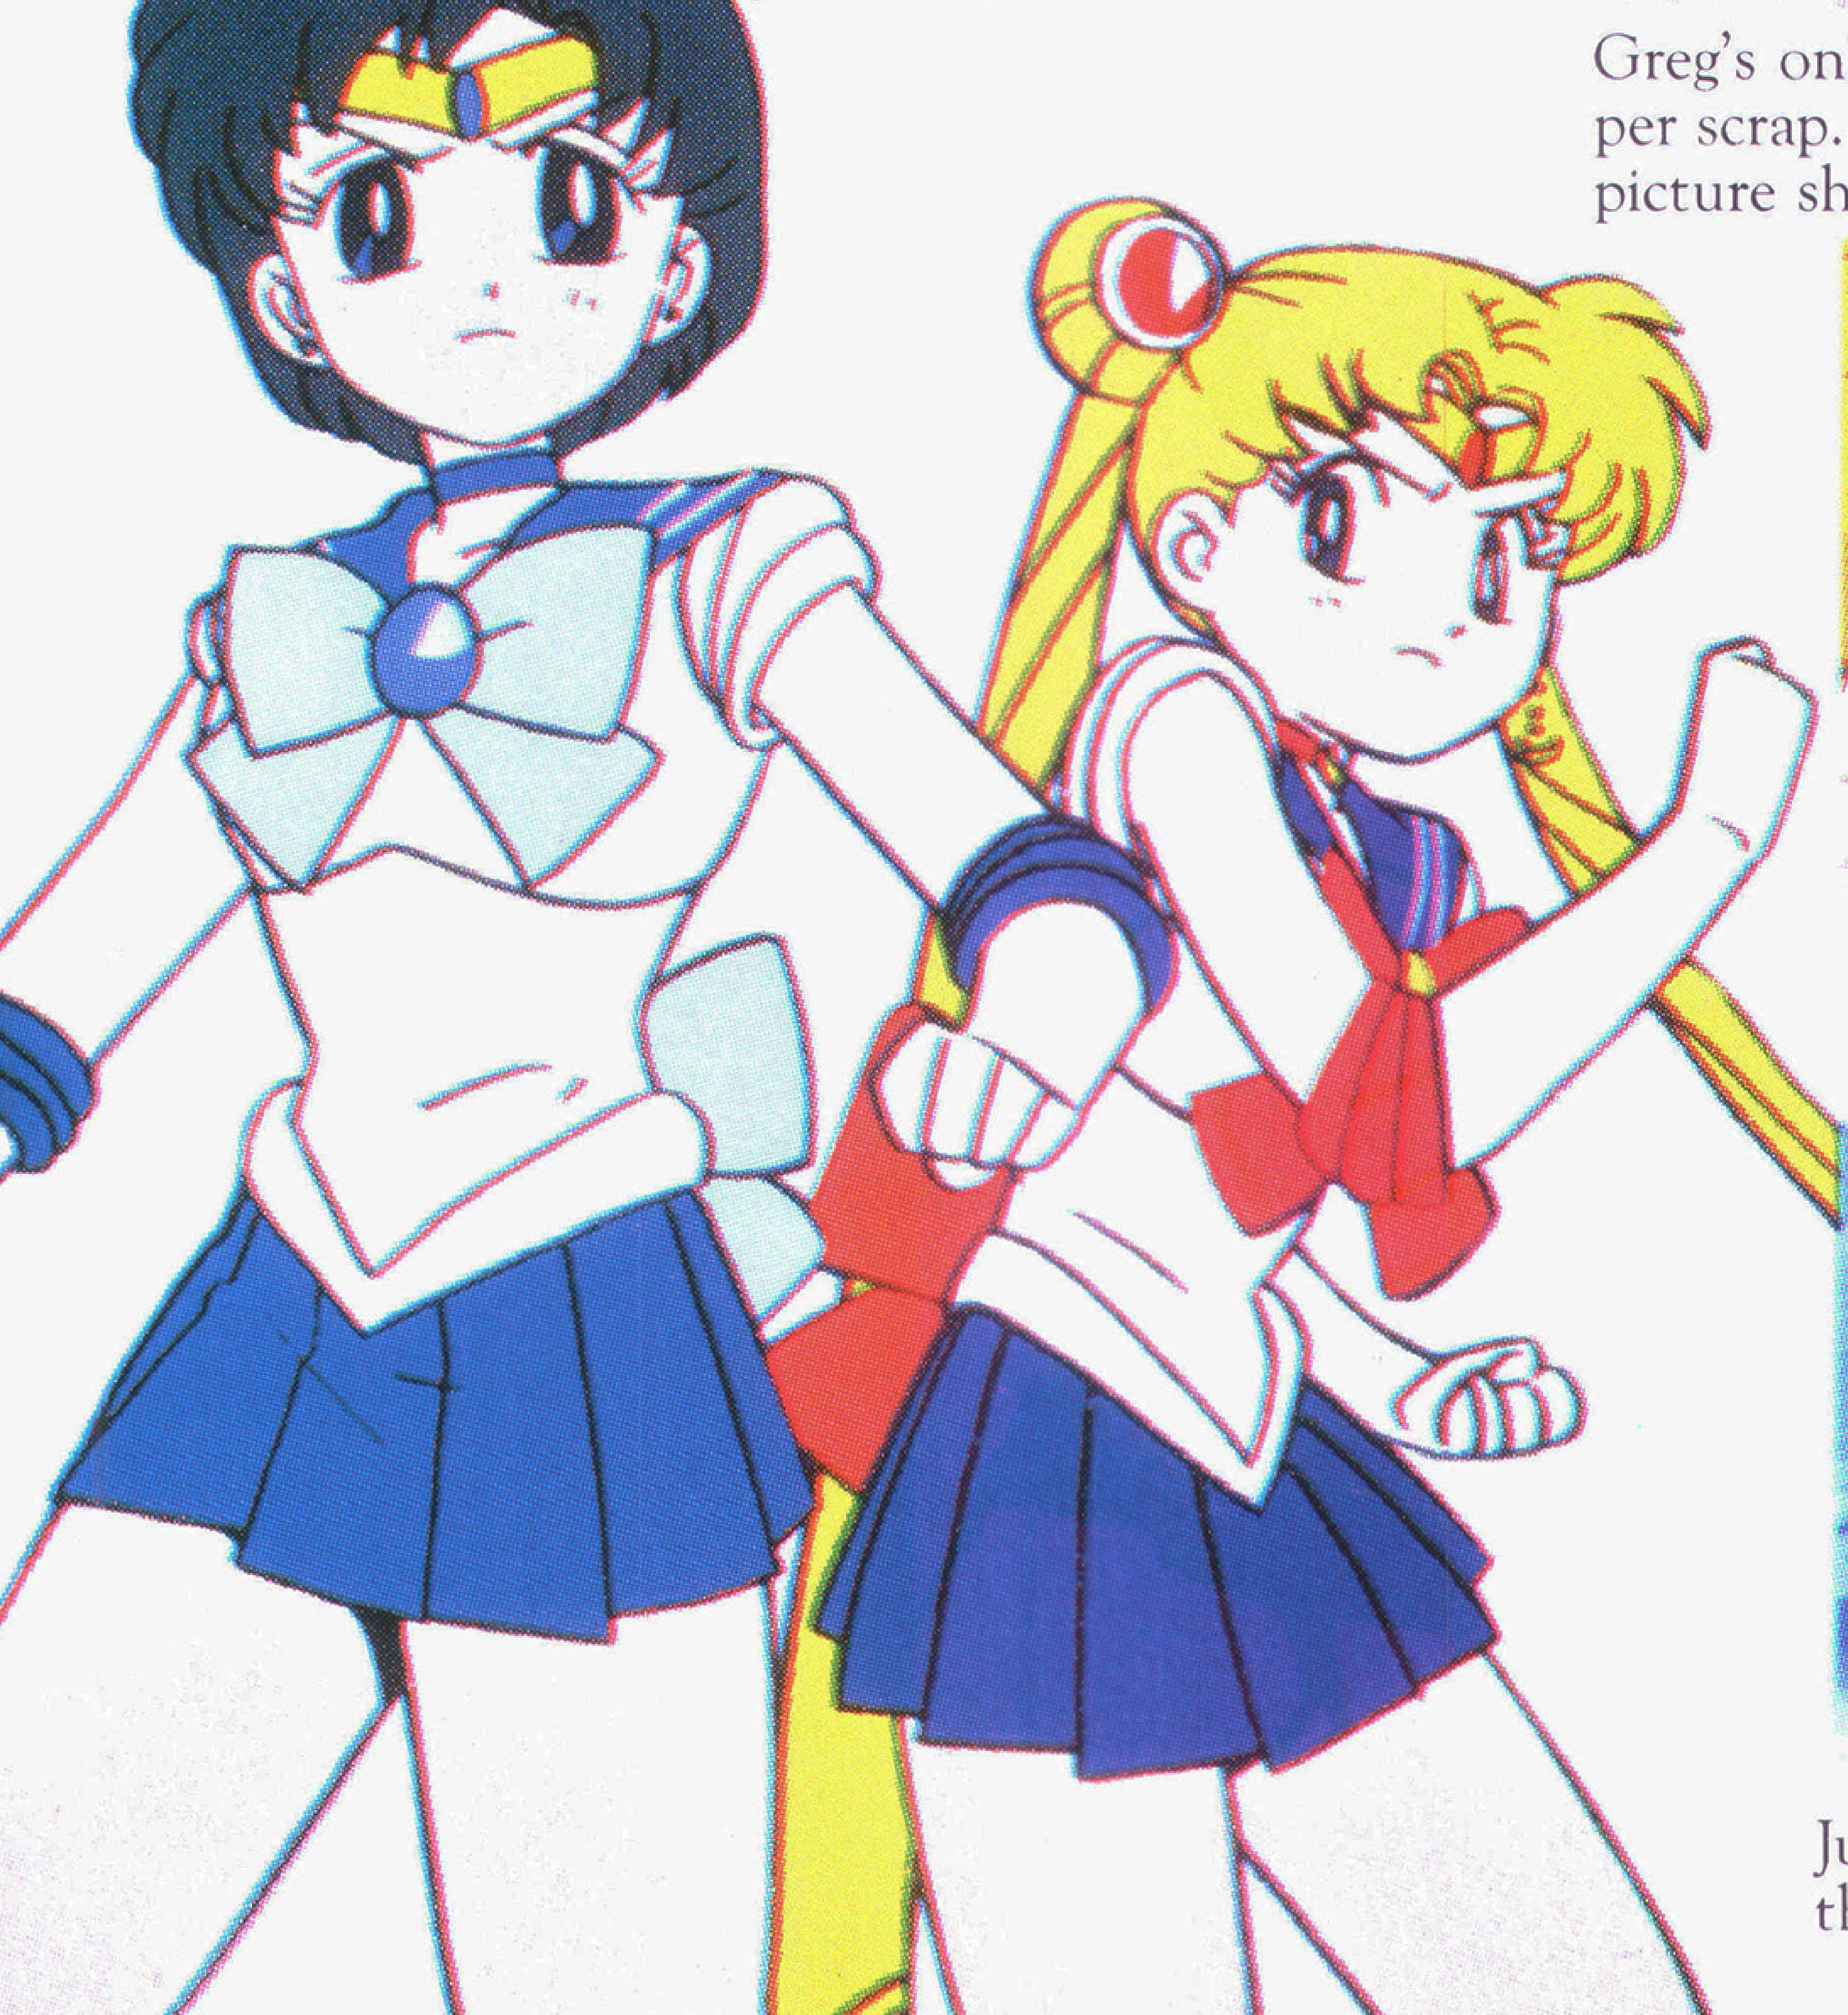
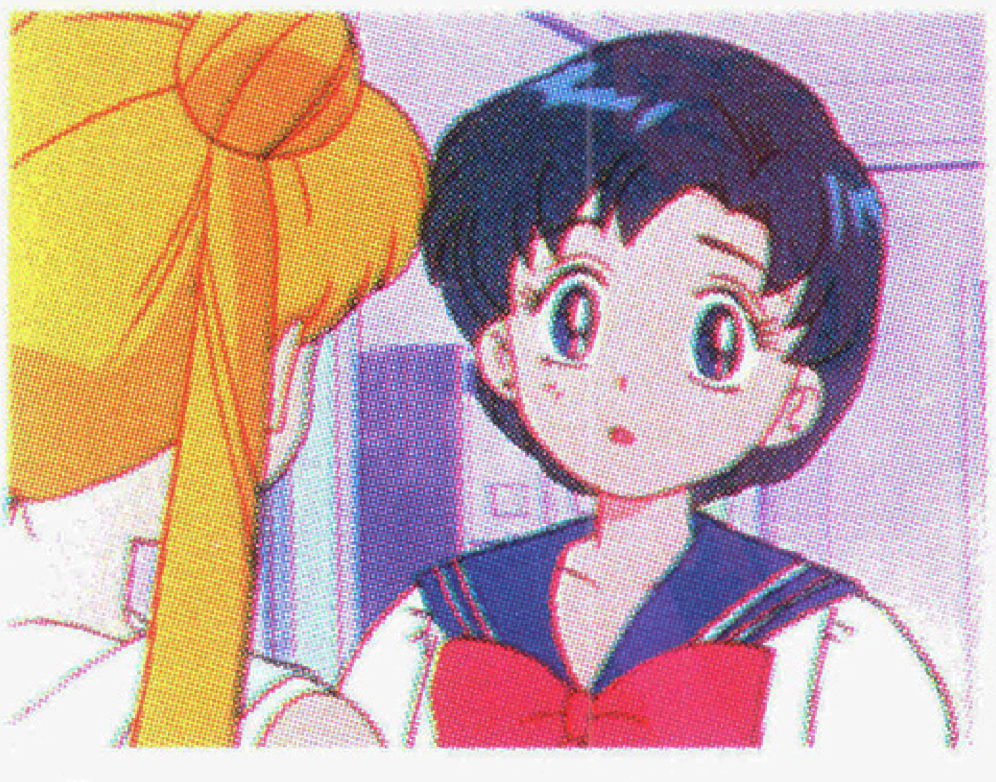
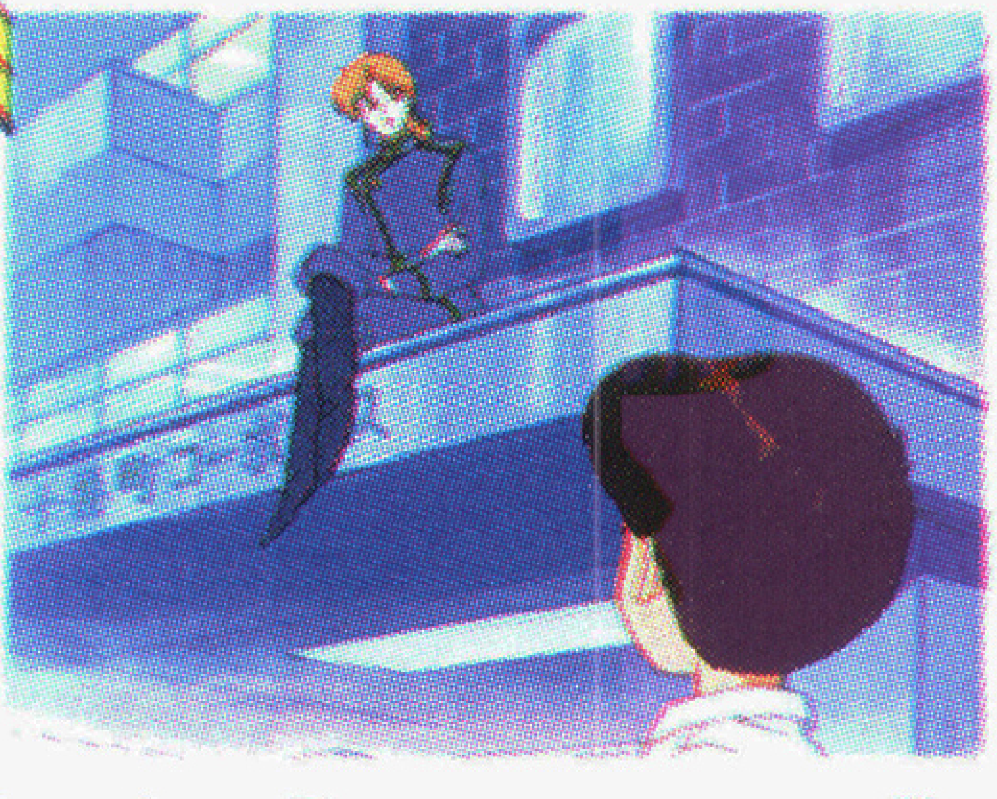
Greg is in great danger, but the Sailor Scouts appear just in time to save him.

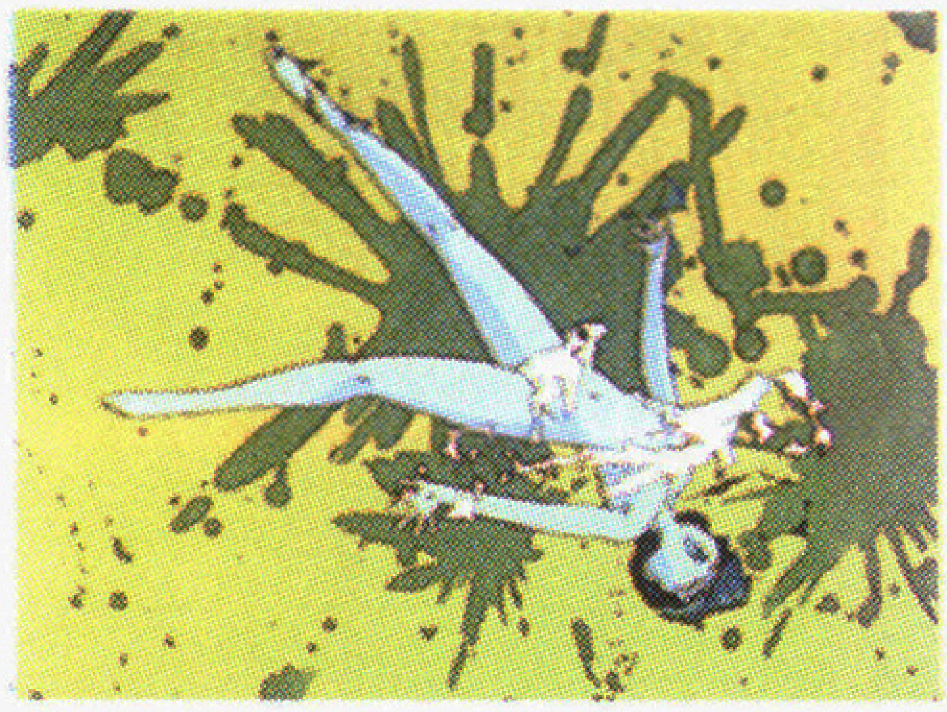




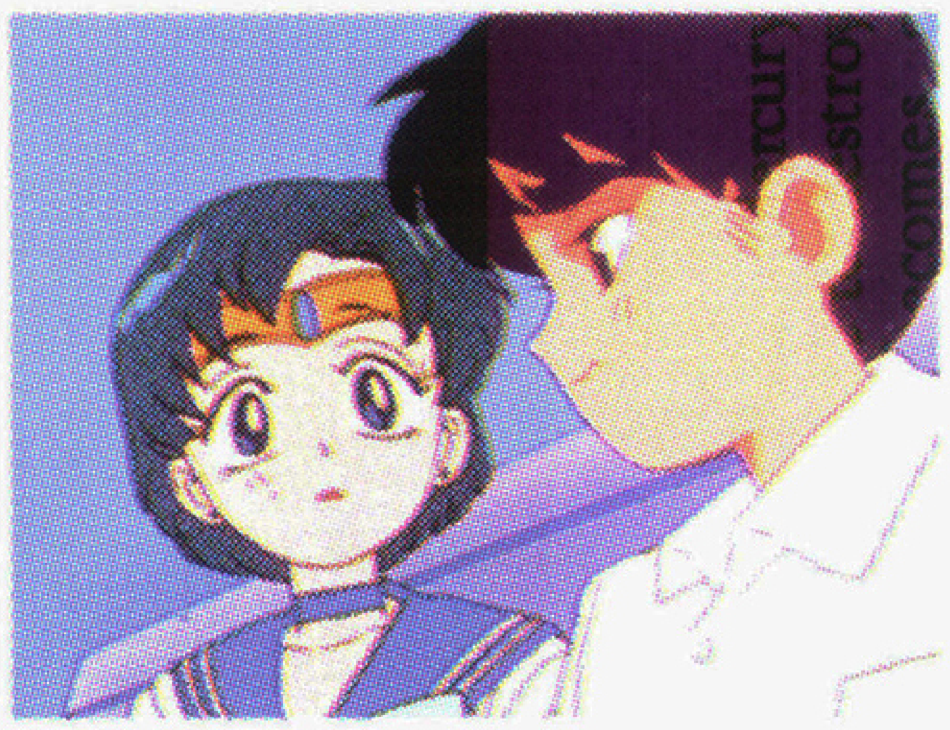
Serena tries to get Amy to go meet with Greg.



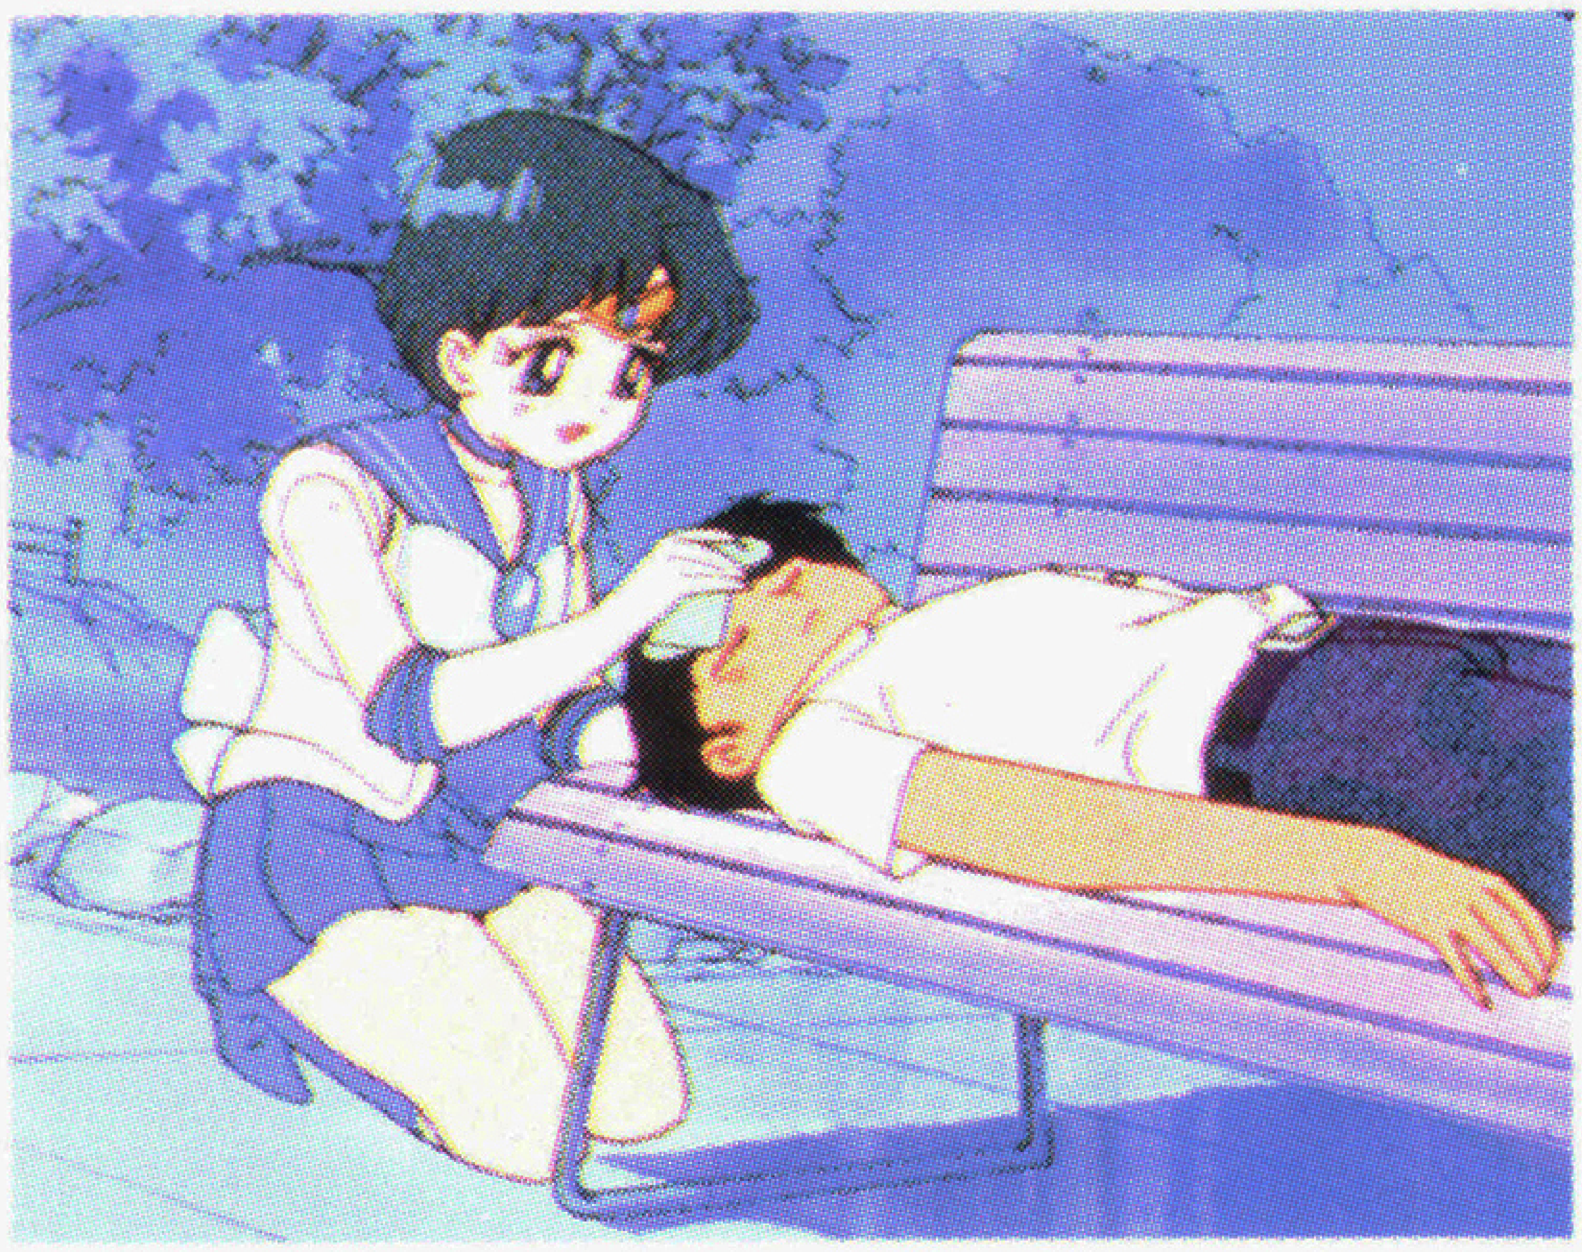
Just then, Zoicite appears to collect the rainbow crystal inside of Greg.



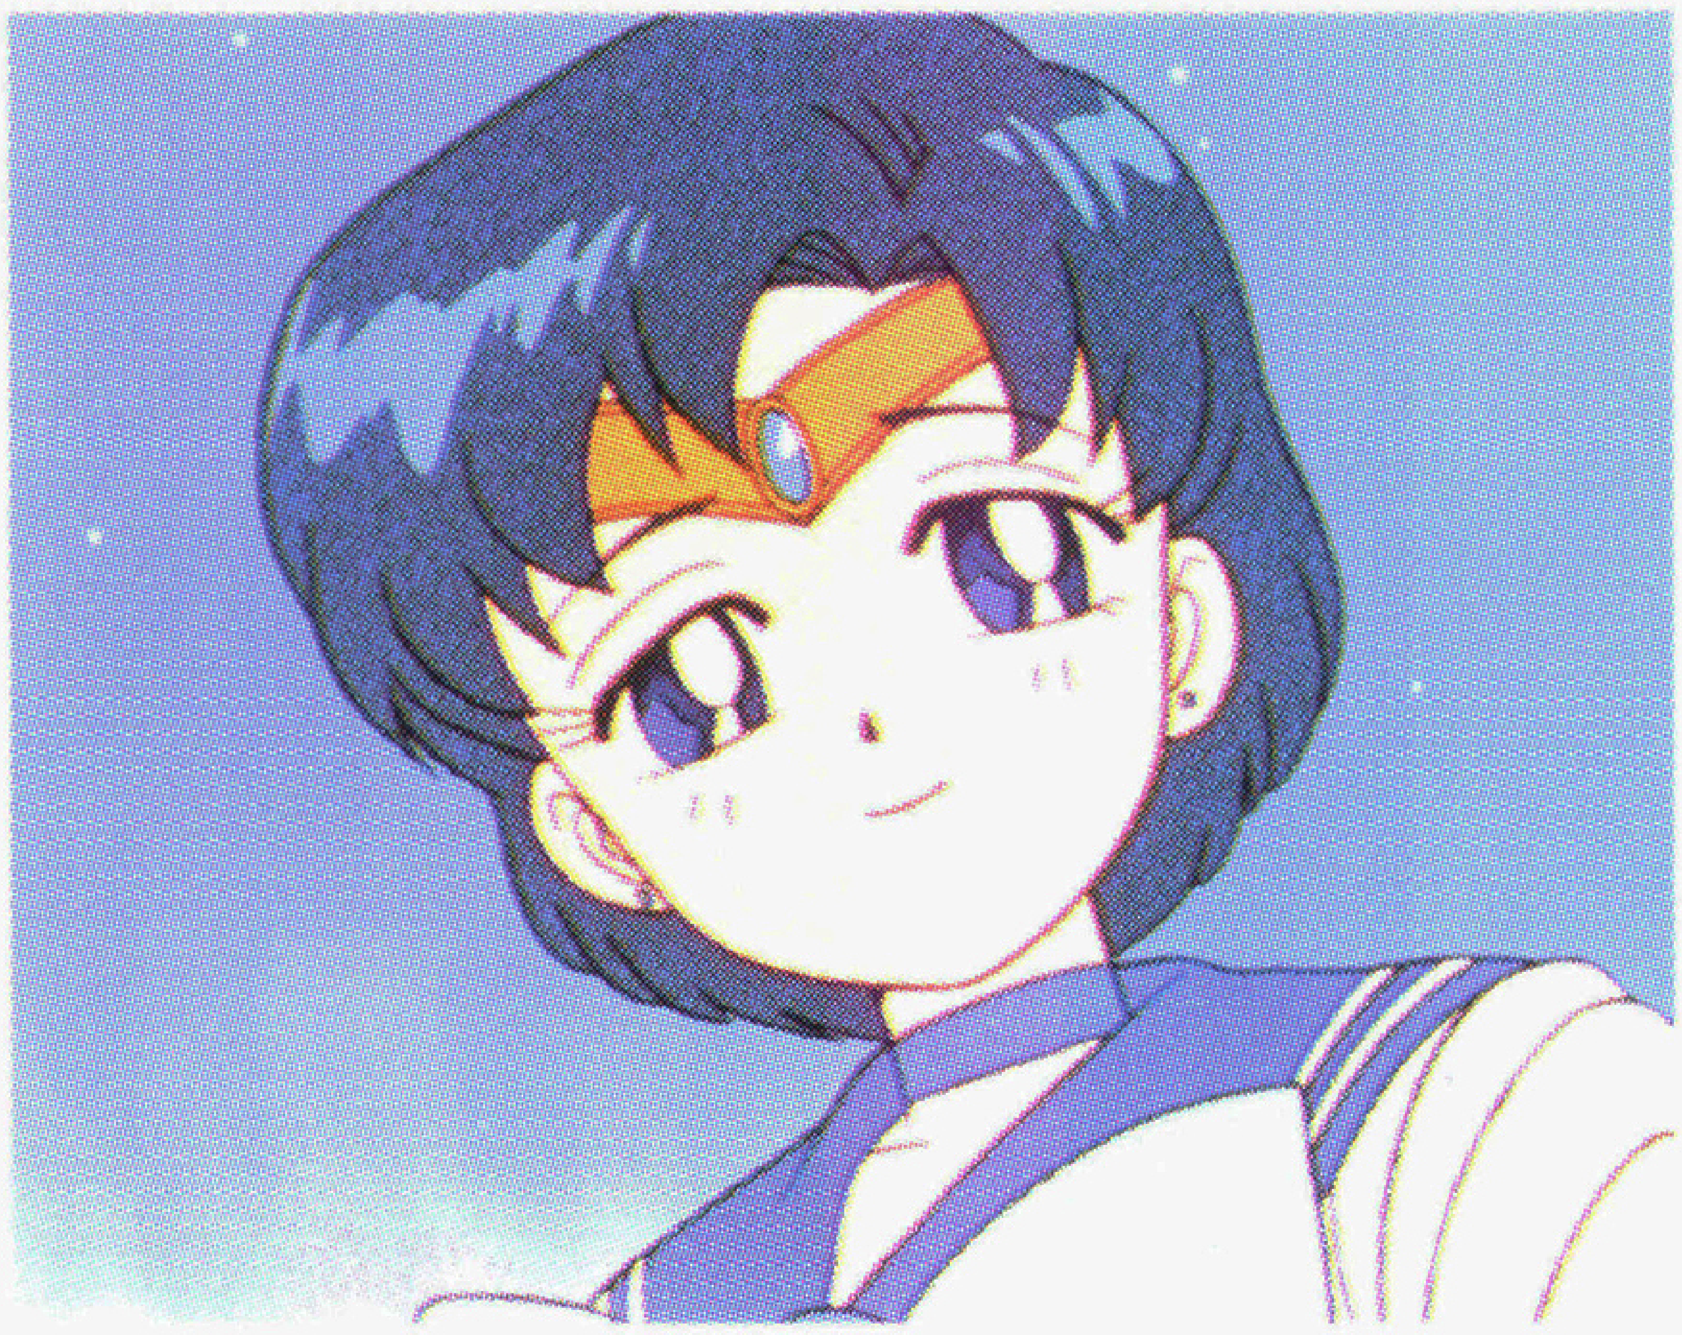
Greg has a nightmare: he sees himself attacking Amy/Sailor Mercury!



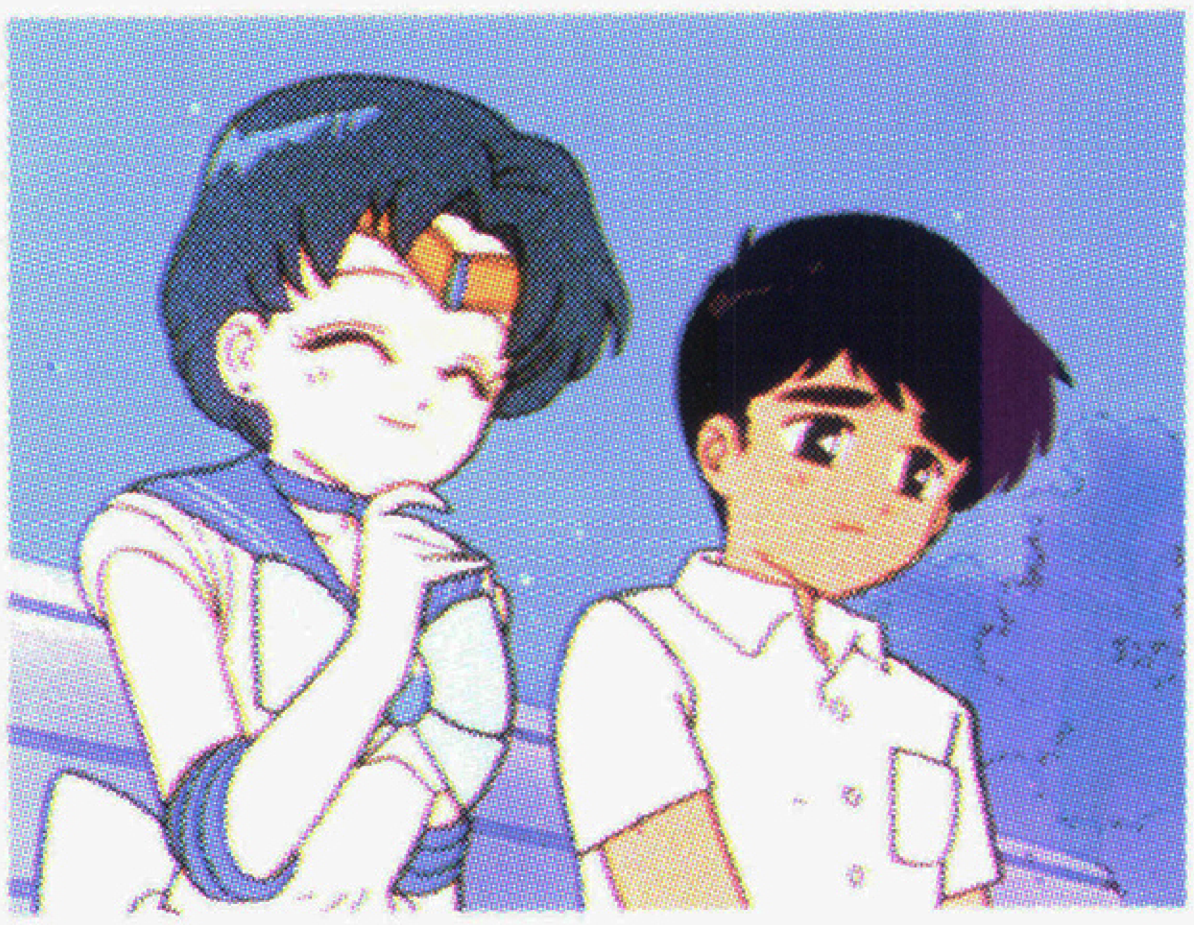
Greg tells Sailor Mercury not to hesitate to destroy him if he becomes a monster.



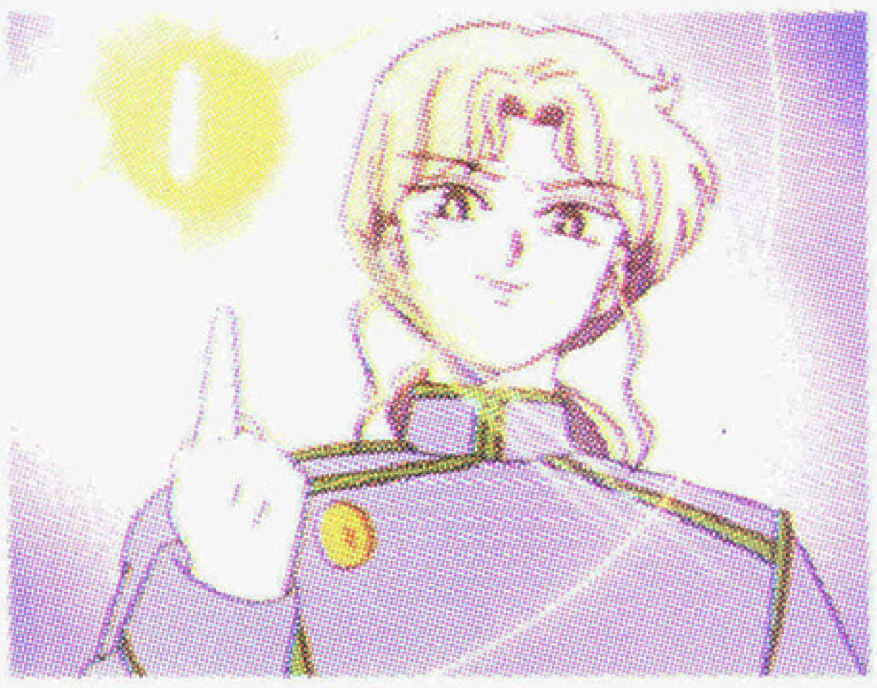
Sailor Mercury takes Greg to a safe place in the park to watch over him while he's unconscious.



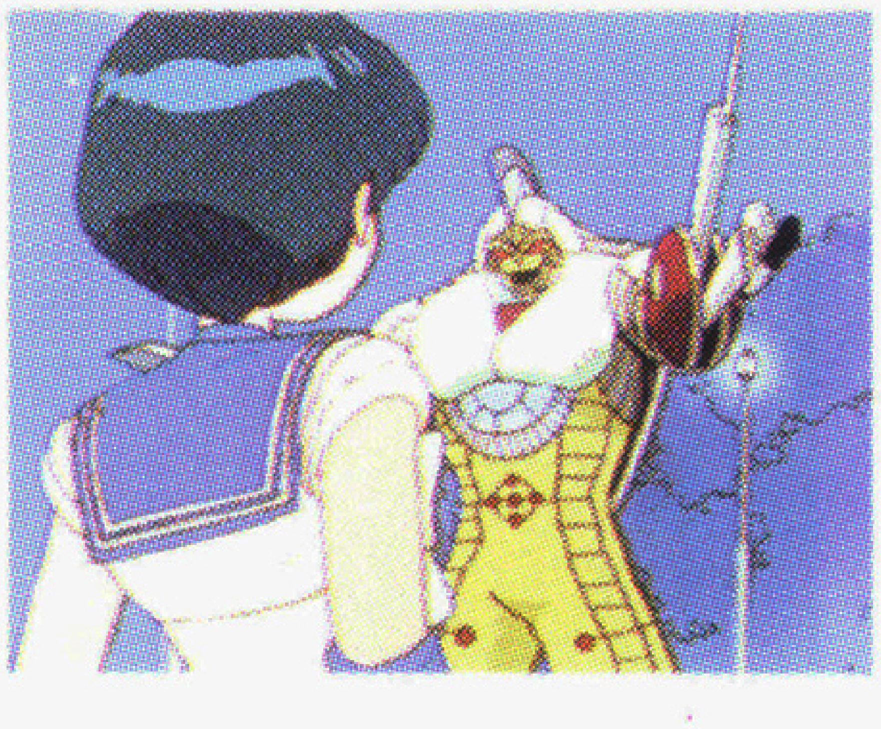
Sailor Mercury tries to cheer Greg up by telling him that everyone decides their own path through the future.



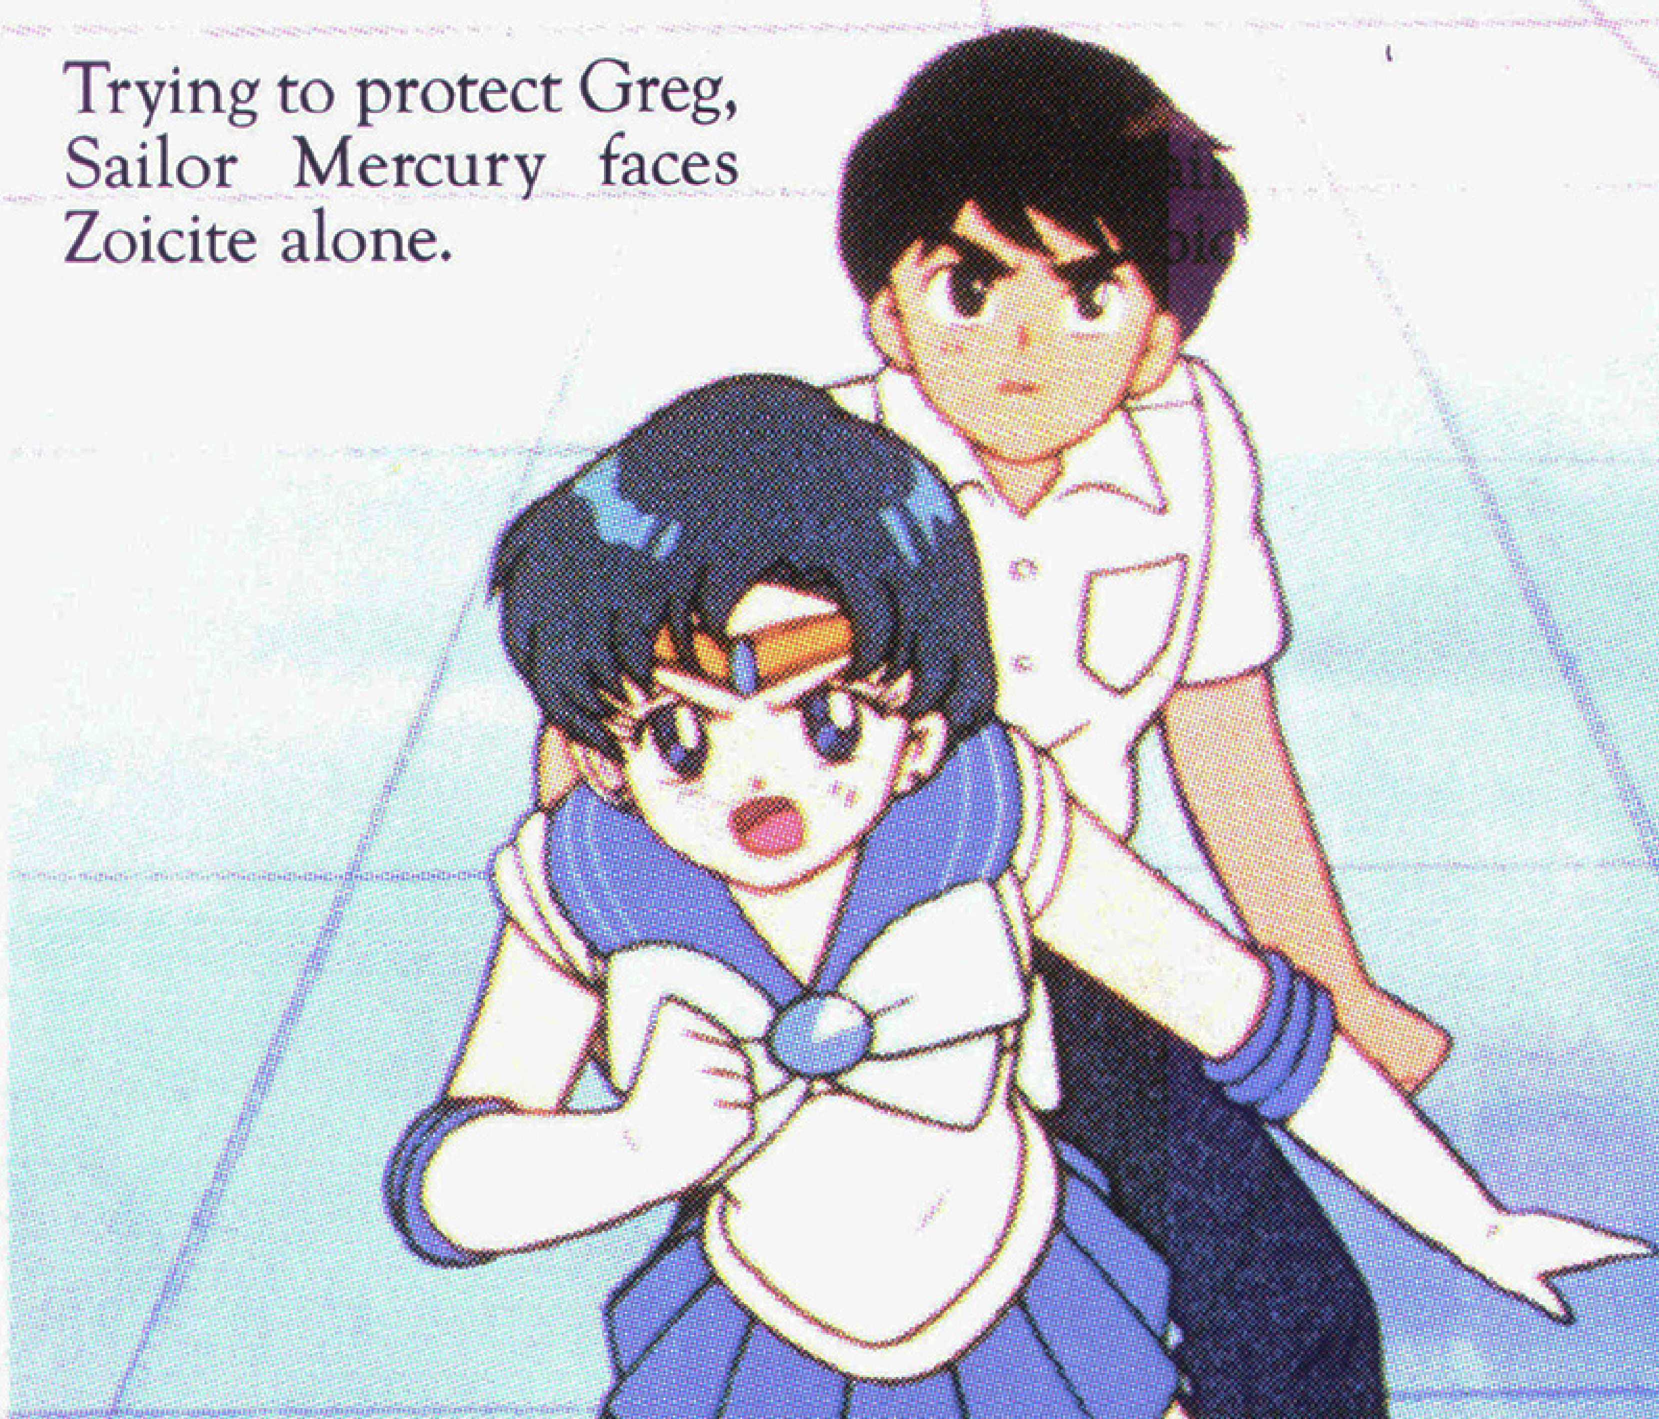
Greg's obsession with his dream about the future leads him to a dicision.



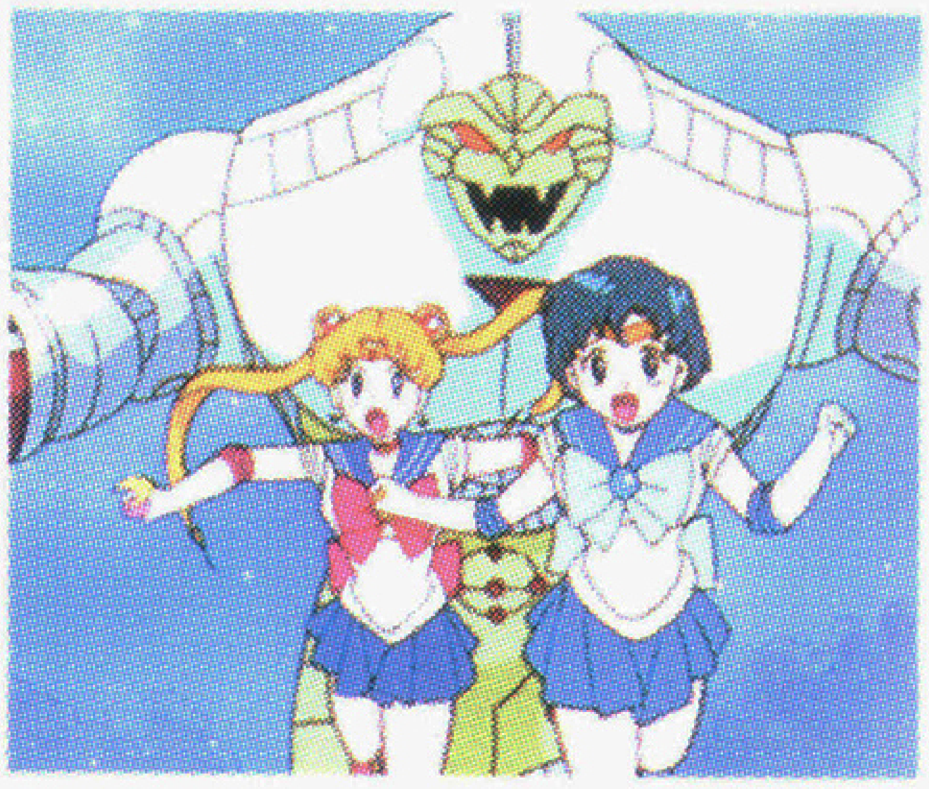
Zoicite turns the black crystal's ray at Greg.



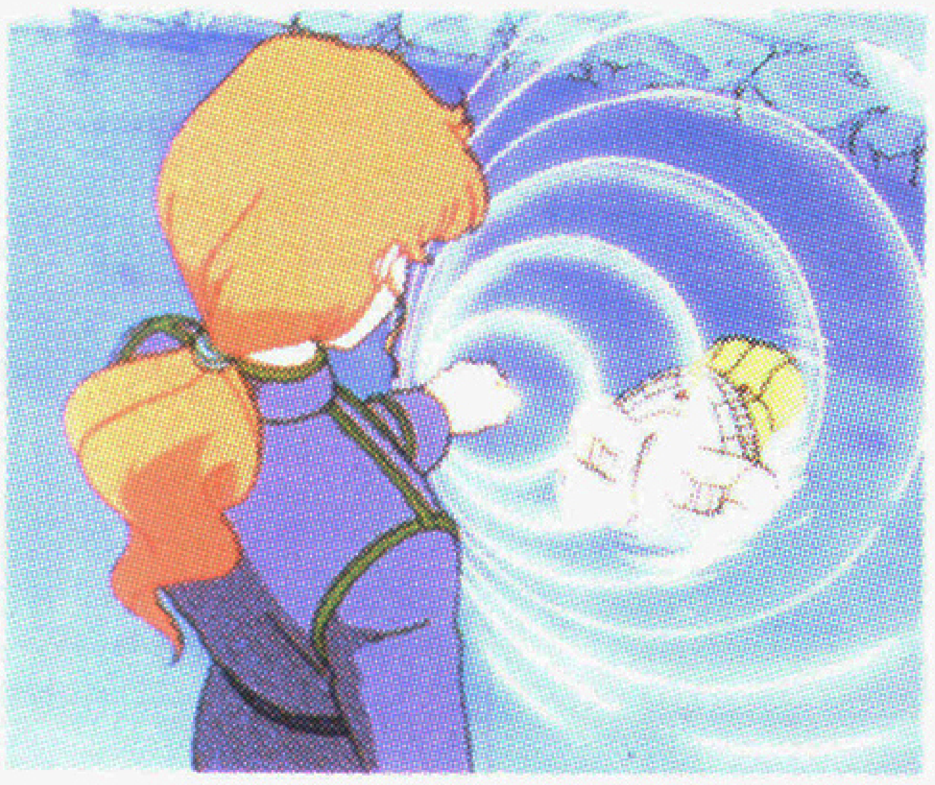
In the end, Greg is changed into the monster, just as he feared.



Trying to protect Greg, Sailor Mercury faces Zoicite alone.



None of Greg's heart is left in the beast; it is just a raging monster.



Zoicite uses the power of the Black Crystal to control the monster's mind against his will.

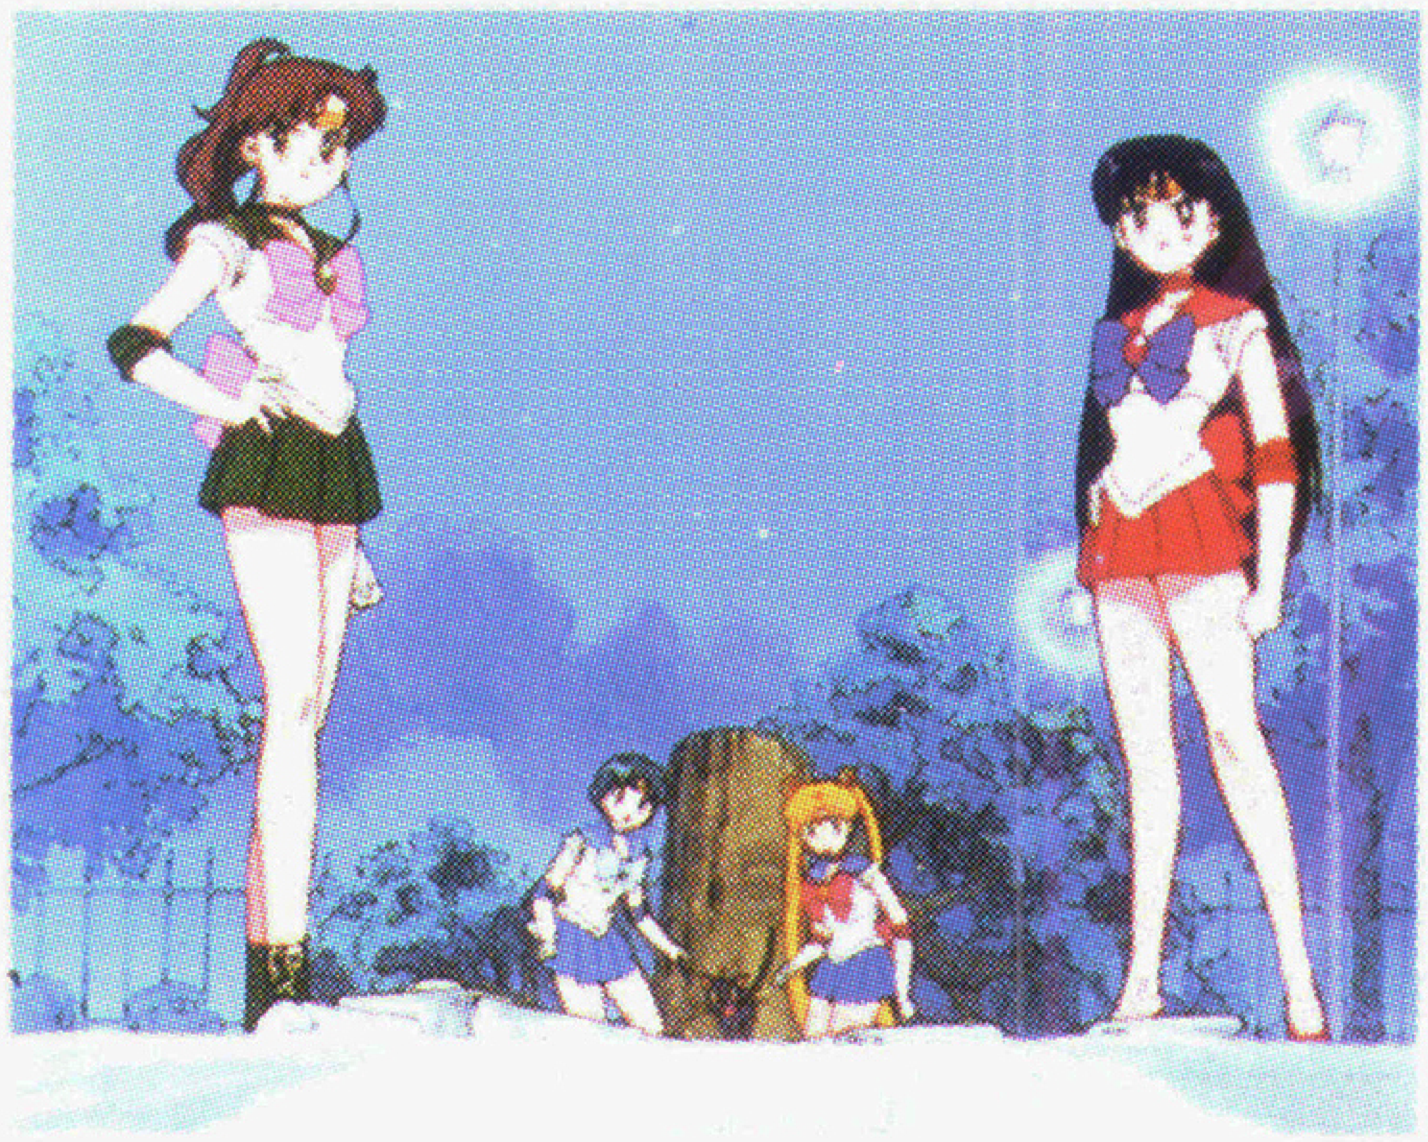
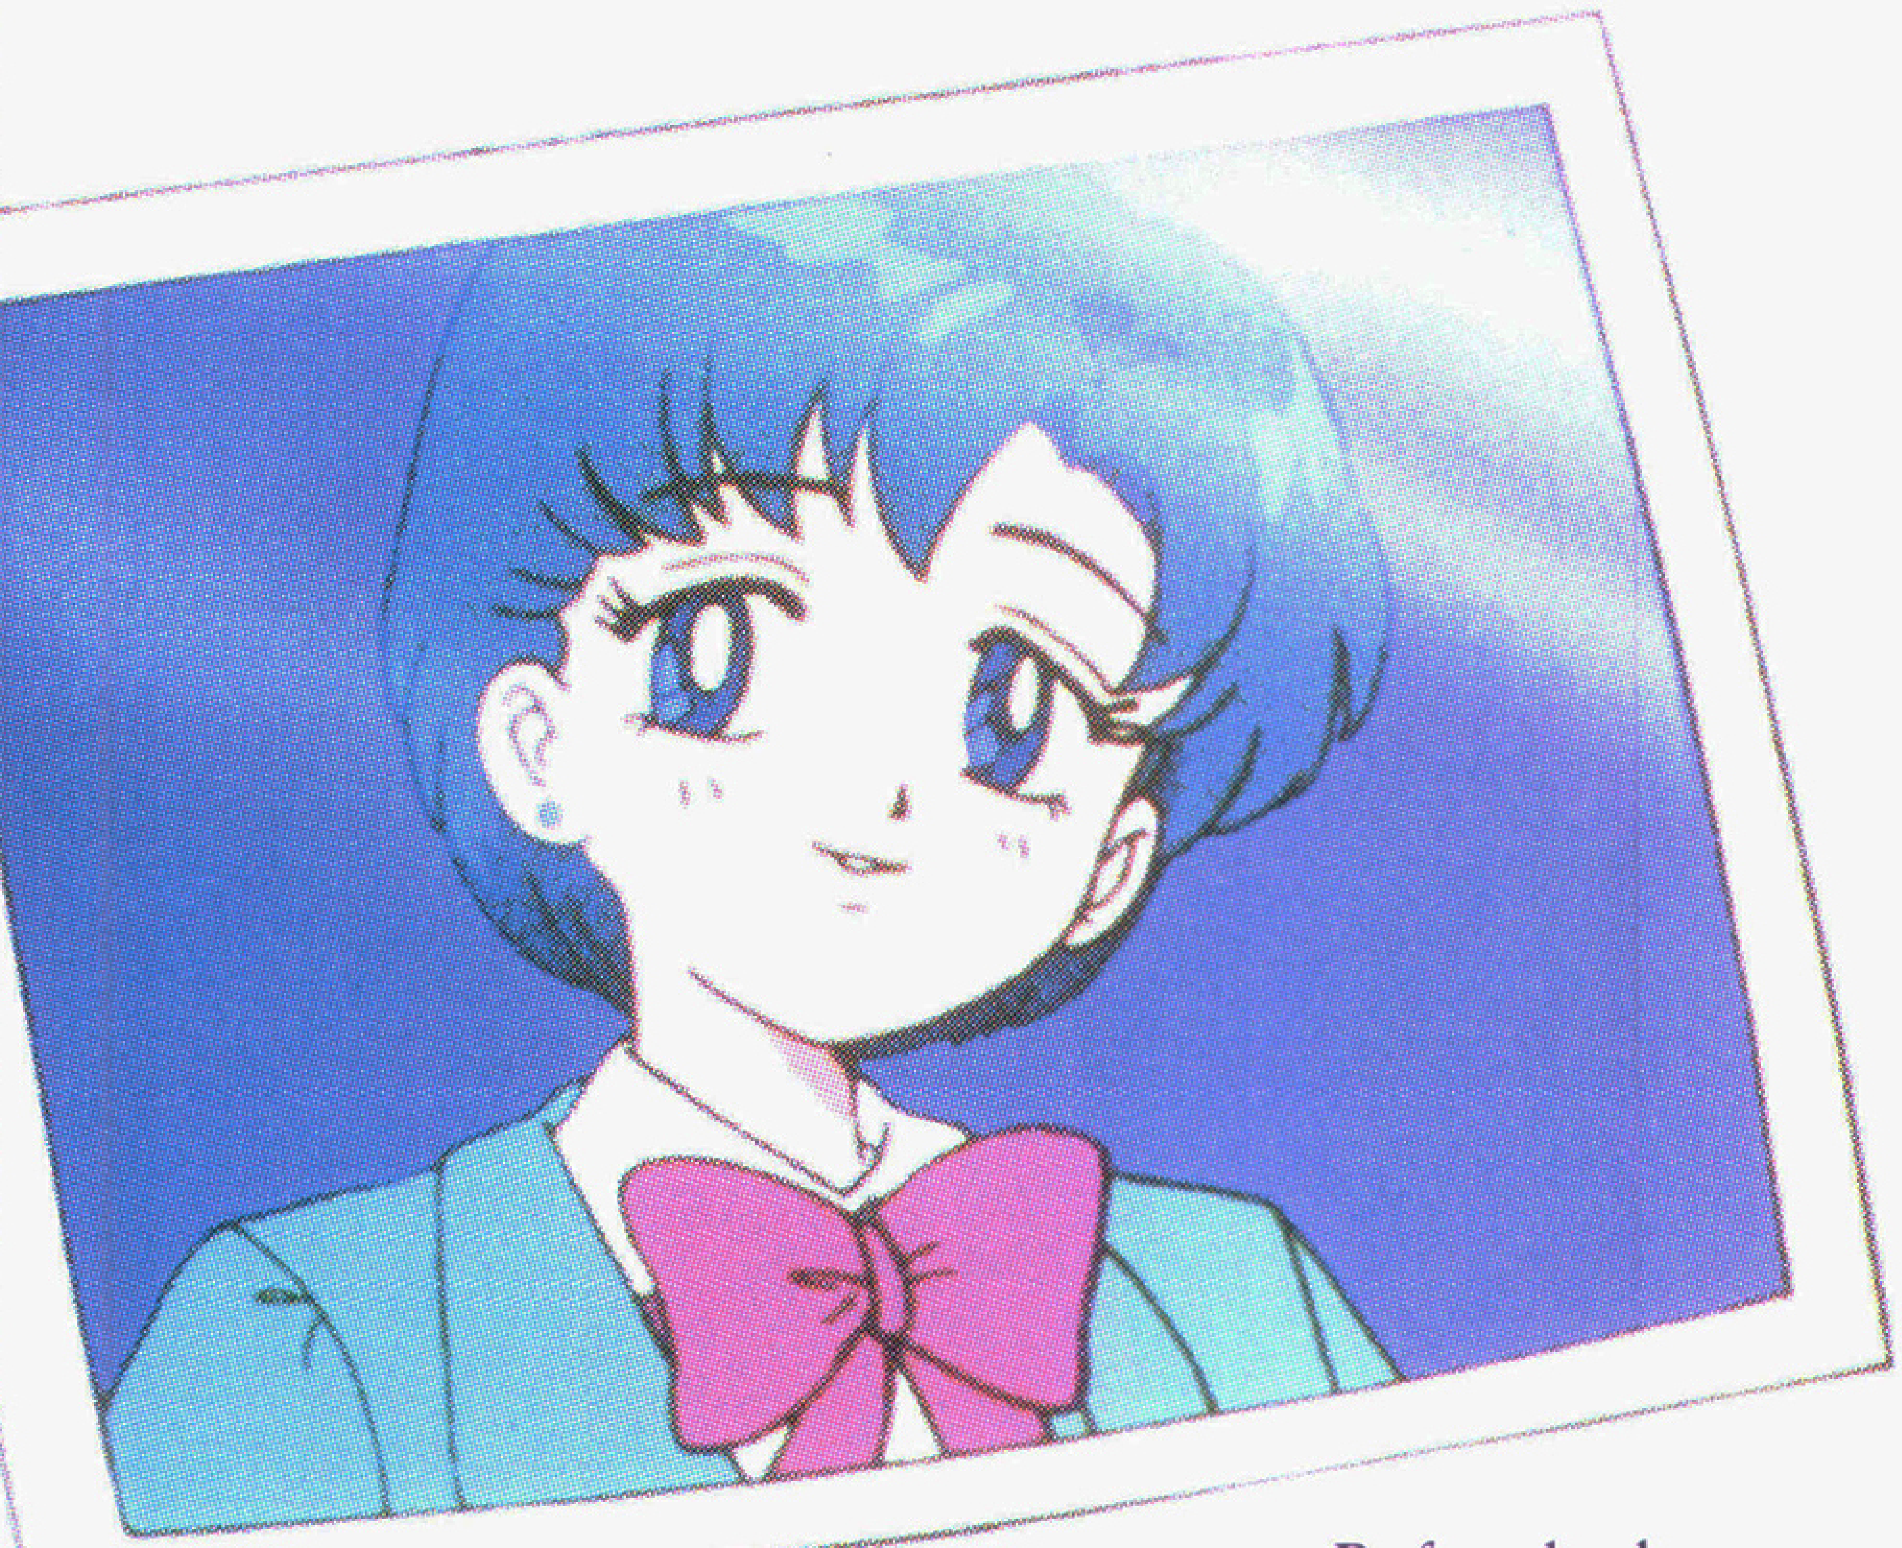
With the help of the four Sailor Scouts, Greg returns to normal. Sailor Mercury is truly happy that he's safe.



Sailor Mars and Sailor Jupiter run to help, and the four Sailor Scouts confront the monster together.



Before he leaves, Amy gives Greg a picture of herself for him to remember her by.

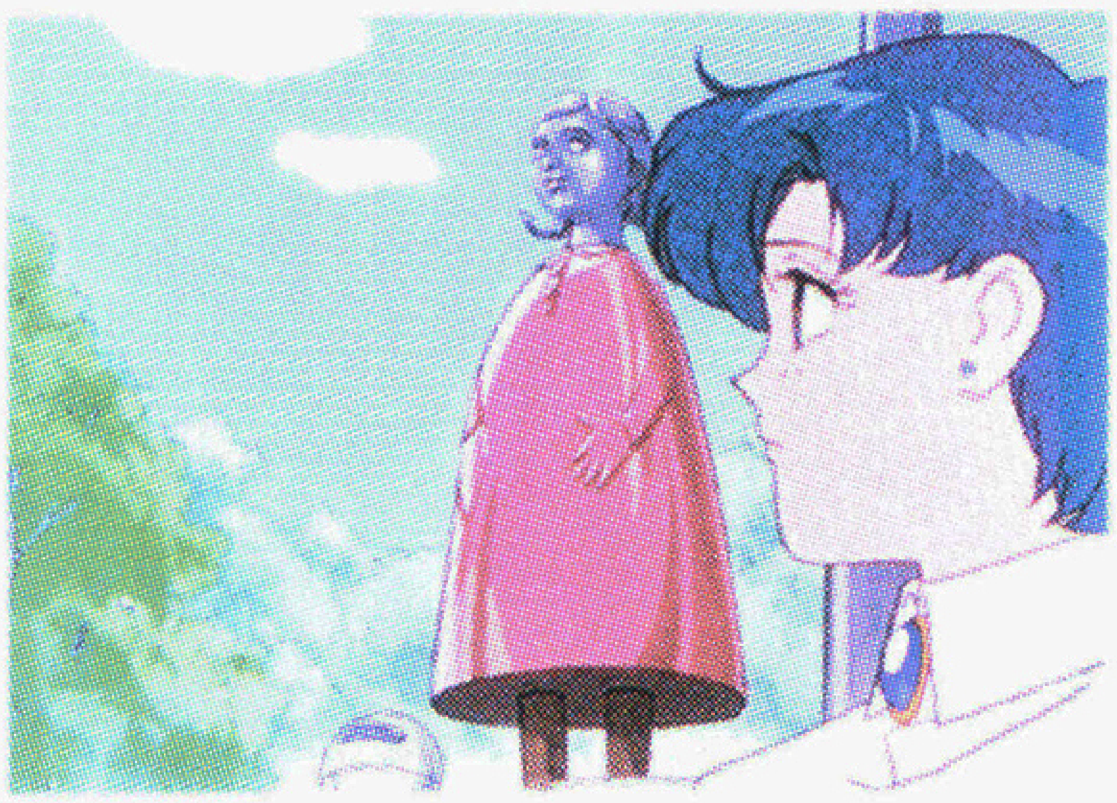
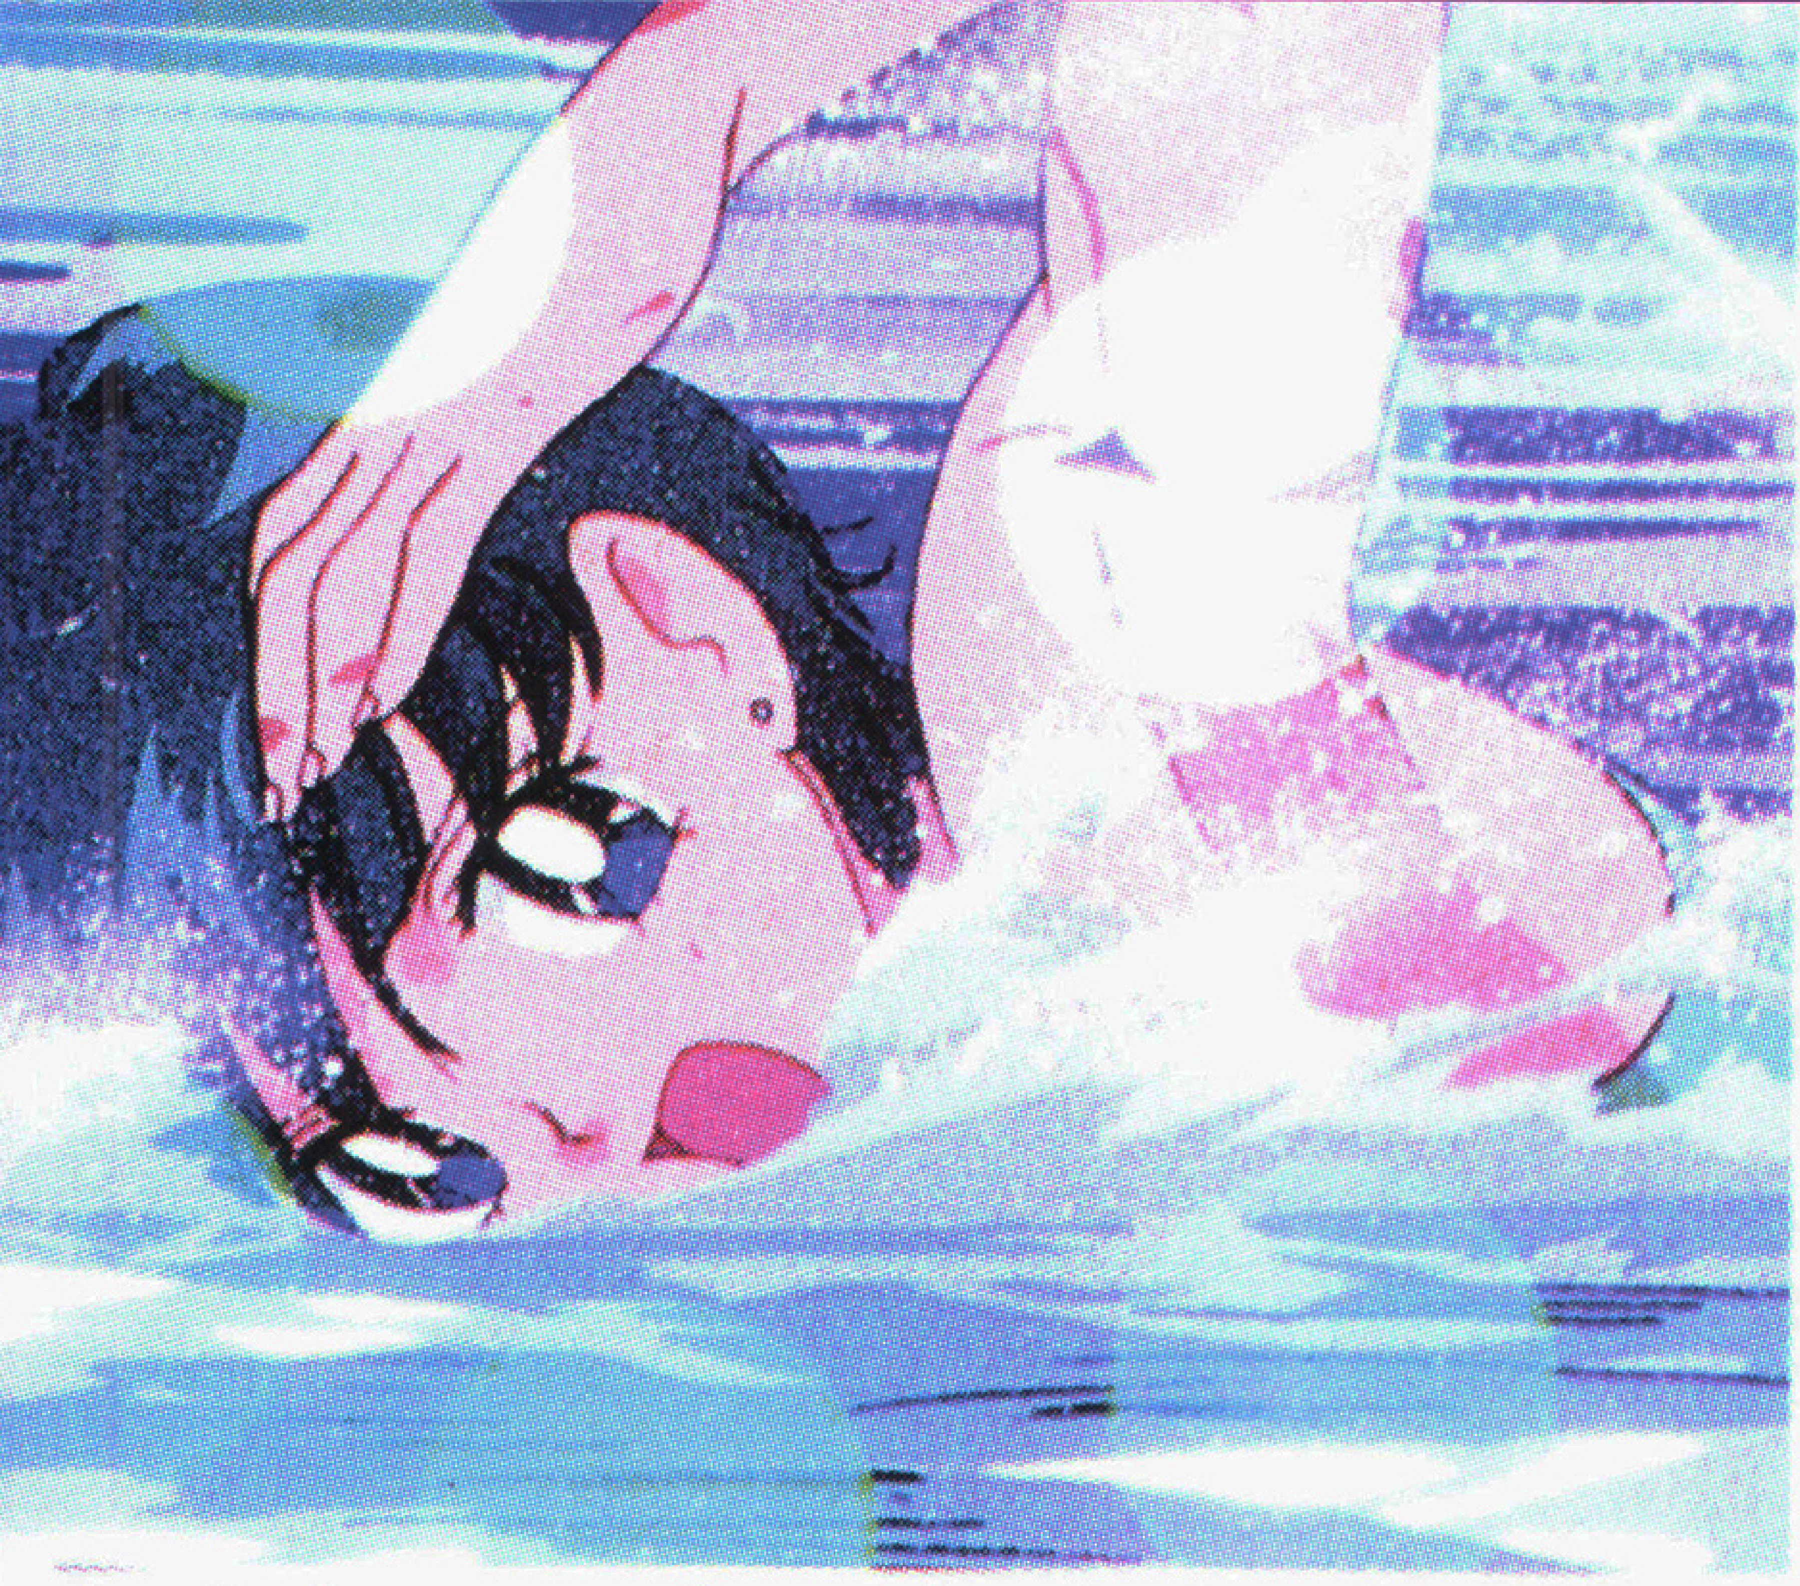
Darien tries to cheer up the disheartened Amy.



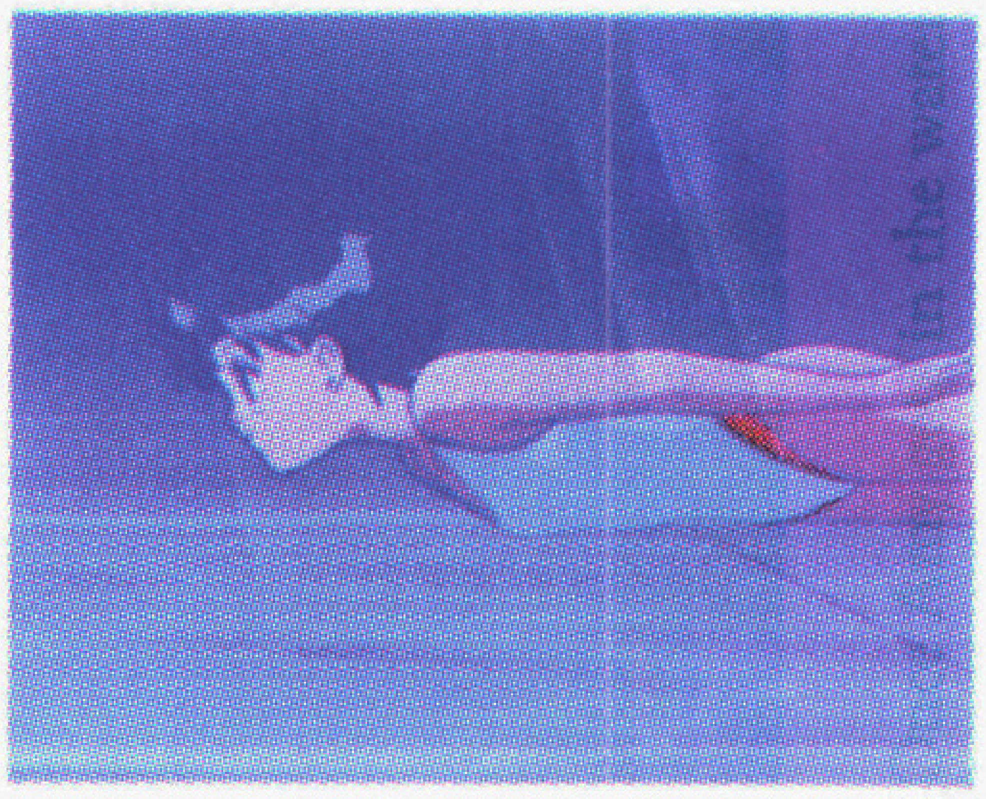
Amy wishes she could be more like Serena, who seems so carefree.

***I'm through hesitating!, determines Amy.***

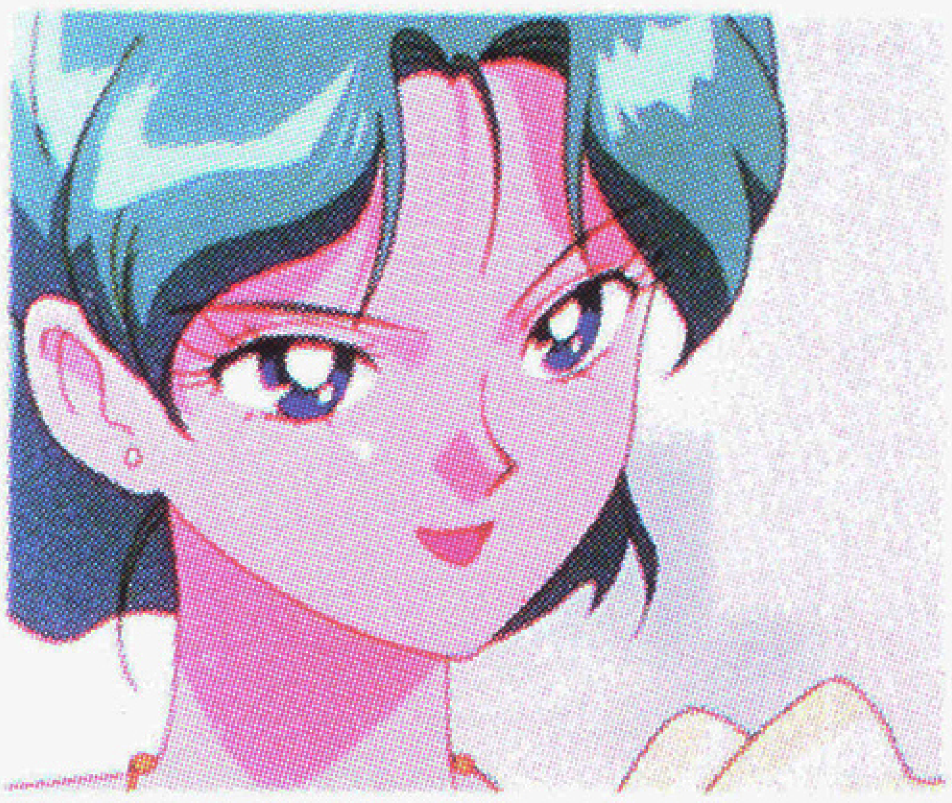
Amy goes to the swimming pool to relax and take her mind off her worries. She meets Michiru at the pool and the two decide to race. Amy is about to win, but she slows down at the last minute, ending the race with a tie. Michiru is furious that Amy let her catch up, even though Amy meant no harm. Meanwhile, dark agents are stalking Amy to steal her Pure Heart Crystal.



Amy is about to win the race, but she slows down near the end because she doesn't like competition.

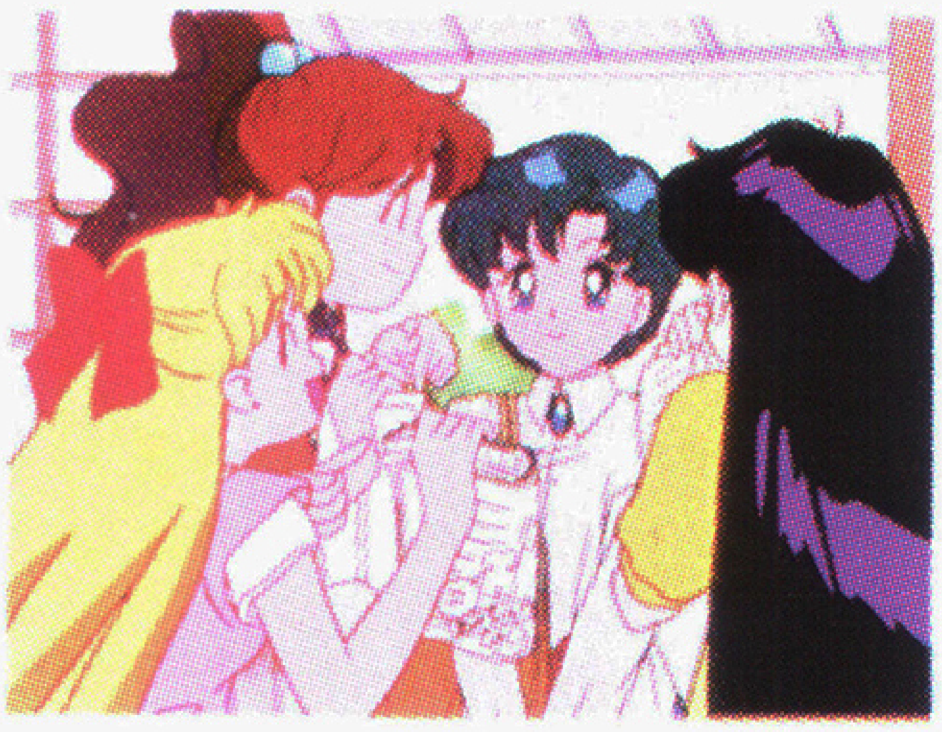


Once Amy gets in the water, her worries drift away.



After Amy starts her swim, Michiru challenges her to a race.

"Nothing but study, study, study." These words struck Amy like a blow.



Amy is mobbed with questions at study group, as usual.

# My Favorite Episodes: Focus on Sailor Mercury!

***Were the episodes I starred in interesting? Actually, there are lots of stories I had a big part in I haven't mentioned yet!***

After my big introduction, the next episode where I leave an impression would have to be episode 6. In that story I used the Super Computer for the first time, and if I do say so myself, even then I acted very much like Sailor Mercury.

After that one, it would have to be episode 12, in which I fought Petasos, a monster who was wrecking the park. That was one time I really got angry!

Next, I recommend episode 21, in which I confronted the twin monsters who were hanging around the animation studio. I was chased away by Nephrite, but if you're a Sailor Mercury fan this one is a must-see!

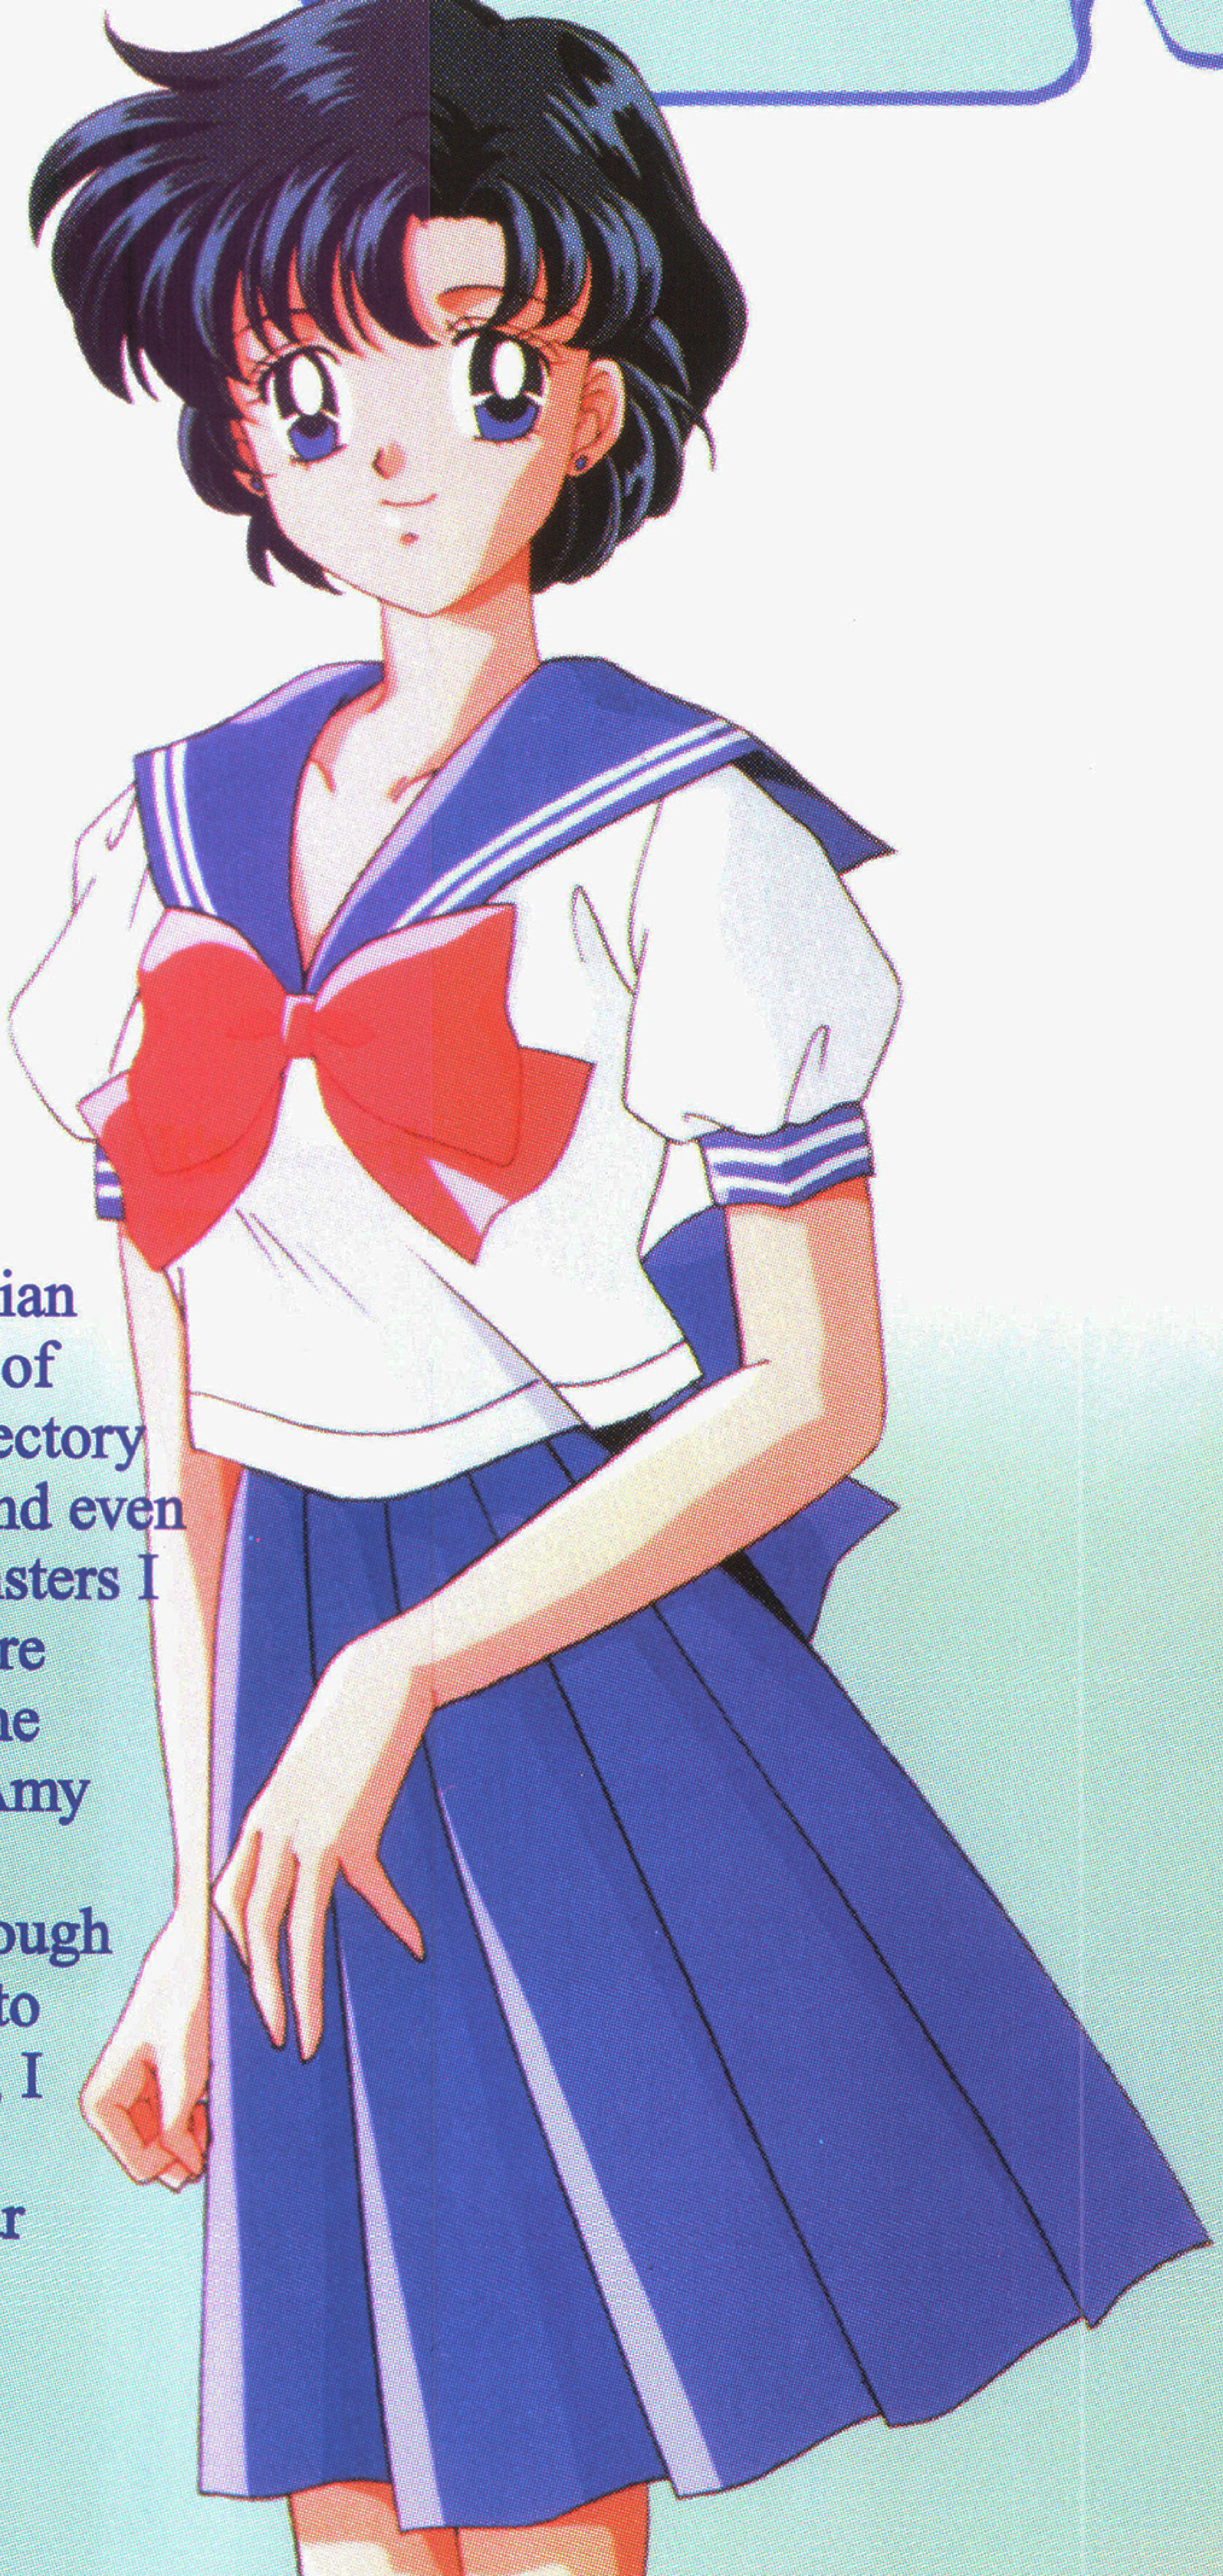
In episode 37 I had a reunion with Greg. I think Greg was reminded of his true nature when he saw me battling Prince Endymion (Darien had been brainwashed by the Dark Kingdom!)

Then there was that time in episode 47 when we had a run in with that babysitter. I couldn't allow such a cute baby to be in danger! That's also when I mastered my sure win attack ability.

The next episode that comes to mind is episode 80; it was a painful fight, even for me. I fought Mistrust, a monster that made fun of the Sailor Team. But it wasn't long until we had that guy beat!

The last episode I can think of is episode 122, where I fought the witch Vilyui. I know there were a lot more, and hopefully many more to come. Please cheer me on!

# Sailor Mercury Encyclopedia



It's everything you want to know: the secrets of my guardian planet, a collection of my best lines, a directory of all my friends, and even a list of all the monsters I fought. This is where you'll learn all of the secrets about me, Amy Anderson: Sailor Mercury! Even though I'm glad you want to study all about me, I don't want you to forget to study your schoolwork, too!

# Secrets of the Guardian Planet

*How much do you know about*
*my gurdian planet, Mercury?*
*If you don't know much, just study this section!*

## Sailor Mercury Encyclopedia

Moon Princess Kimiko -- Fortune Teller

## *Mercury the planet*

Mercury is the planet closest to the sun and its orbit is faster than any other planet. In ancient times, people worshipped the small, but quick planet as the god of wisdom.

The planet is named for the Roman god Mercury. Mercury's wisdom was even recognized by the king of the gods, Jupiter. There is also a tale of him making a magnificent harp shortly after birth, and being greatly admired by the music-loving sun god Apollo.

Mercury protects two constellations: Gemini and Virgo. Gemini represents twin brothers who lived by supporting each other. Virgo represents Demeter, goddess of the harvest, who made the earth fruitful. Gemini gave Mercury the skill of speech and a love of travel, while Virgo gave Mercury calm and kindness.

In astrology, Mercury is associated with success in school and friendship!

## Personality

Being born under Mercury, my personality has two aspects to it. From Virgo I get grace, composure, and level-headedness. I am also kind, caring, and sensitive of other people's feelings. It's also the Virgo side that helps me study so hard. Unfortunately, that's the side of me which can be overly cautious and shy. It can be very frustrating! Don't worry, though. My heart is strong and I'm always there for my friends when they need me. My advice to other Mercury types--if you're bad at something, try your best and you can steadily improve. Mercury types are also naturally good at computers and language, like me!

My Gemini side is more assertive than the Virgo side. Gemini are very sensitive to trends and have excellent fashion sense. Another strongpoint of Gemini is their ability to make friends easily. If there's a downside to being a Gemini, it would have to be that they are a bit careless and have a tendency to brag.

## Love

When it comes to romance, Mercury girls tend to be pretty specific in what they like about a boy. When asked, "What do you like about him?" the answer won't be, "Everything!" We are attracted to the things that make a boy unique, like his style or his intellect. Romances tend to develop either from intense friendships or rivalries. But both Virgos and Gemini tend to be pretty rational in their relationships. No matter how much in love a Mercury girl is, she can always look at herself honestly. We aren't as troubled by petty things like jealousy. We Mercury types tend to be very blunt so you shouldn't be taken aback if we don't sugarcoat everything we say. When we're unhappy we try to fix the problem by ourselves, so that when we're with our special someone, nothing will get in the way of a beautiful love. As for marriage, Mercury personalities want it to be a partnership, with both people sharing work and responsibilities.

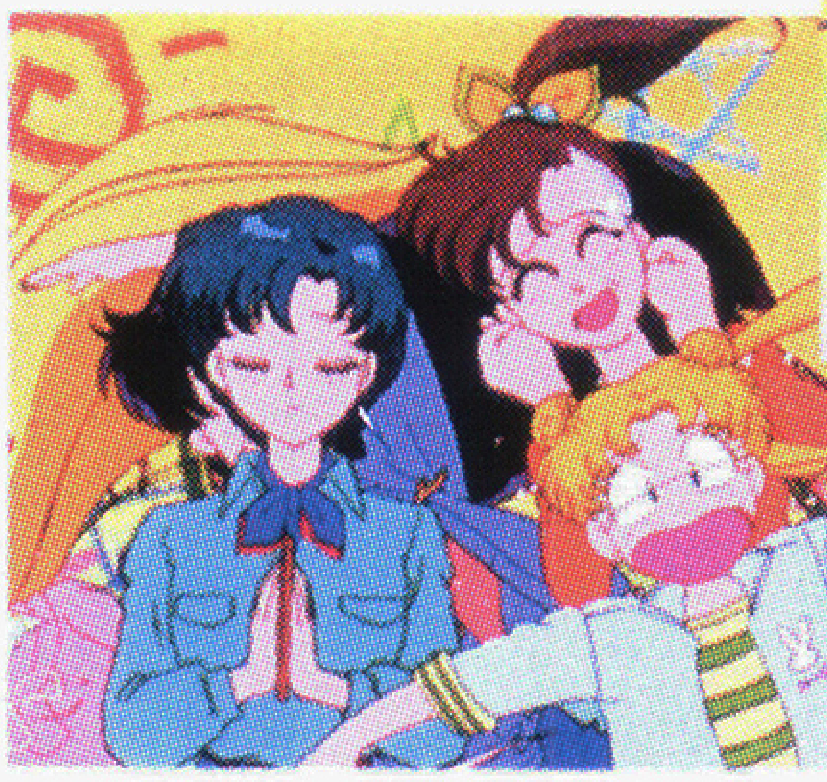
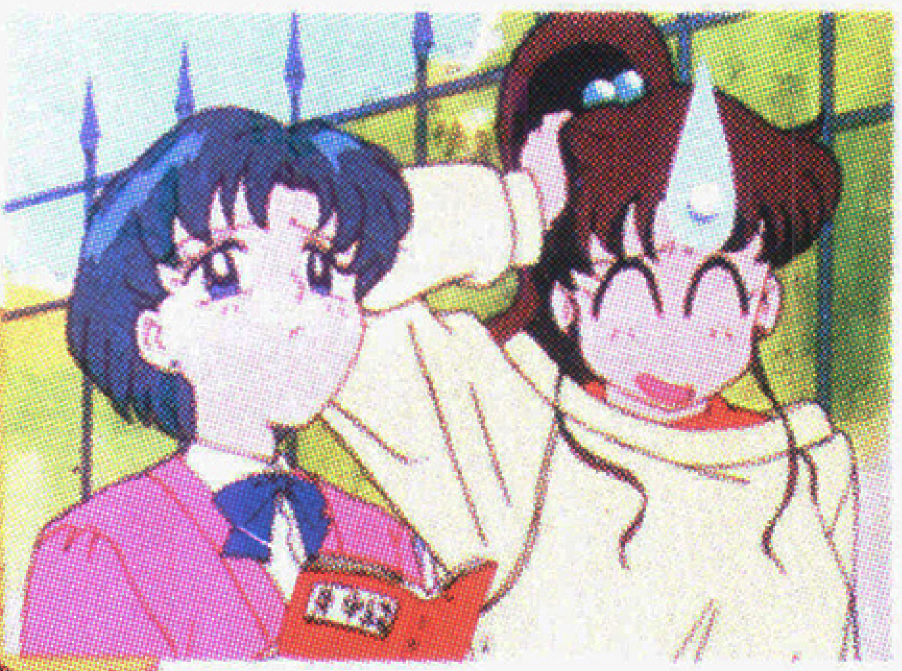
## Why are you so smart?

A true Scout must balance fighting and study.



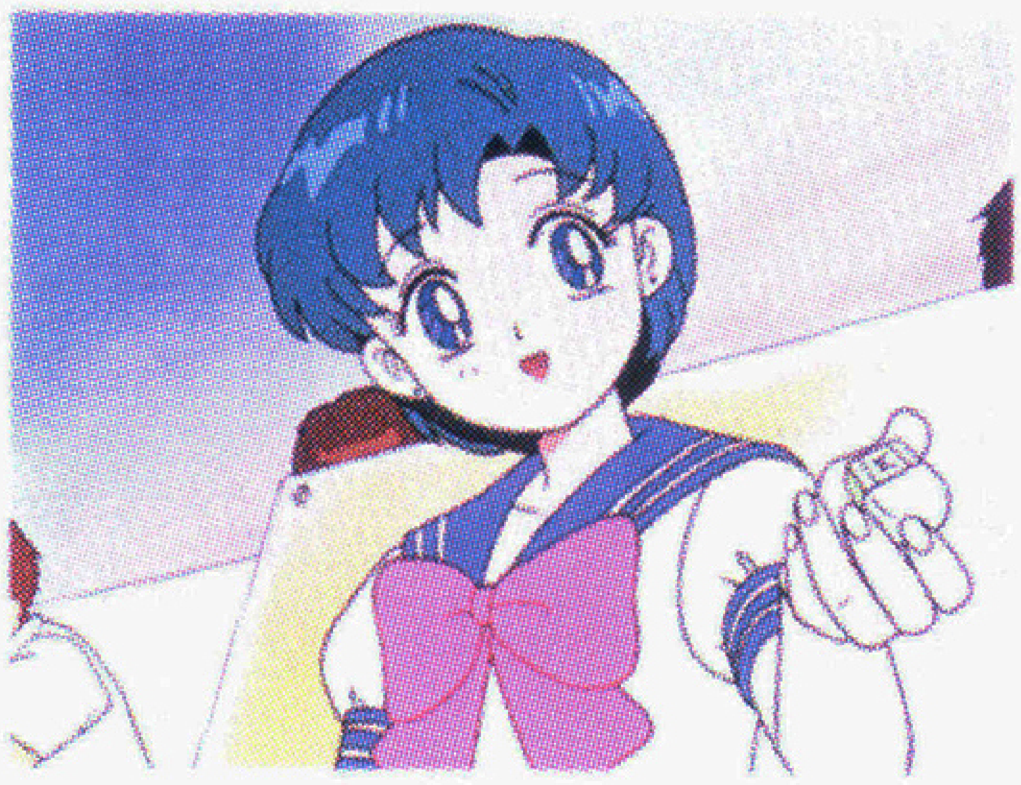
Daily preparation and practice are a must!



I can only memorize about 100 English words a day, so I'm not really that smart! I guess that the most effective thing I do is to just study regularly.

## National test scores?

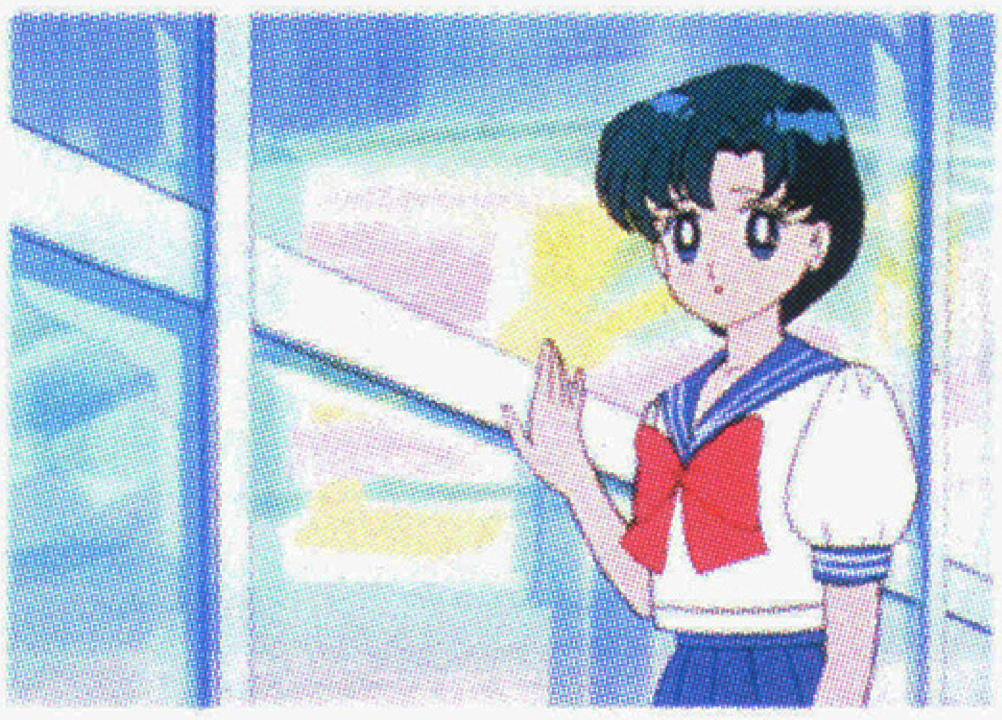
I ranked at the top a few times, but it was just luck! I know there are lots of students out there who are better than I am.



I had a rival in the prep school exams named Mercurius.

## Why did you want to go to Germany?

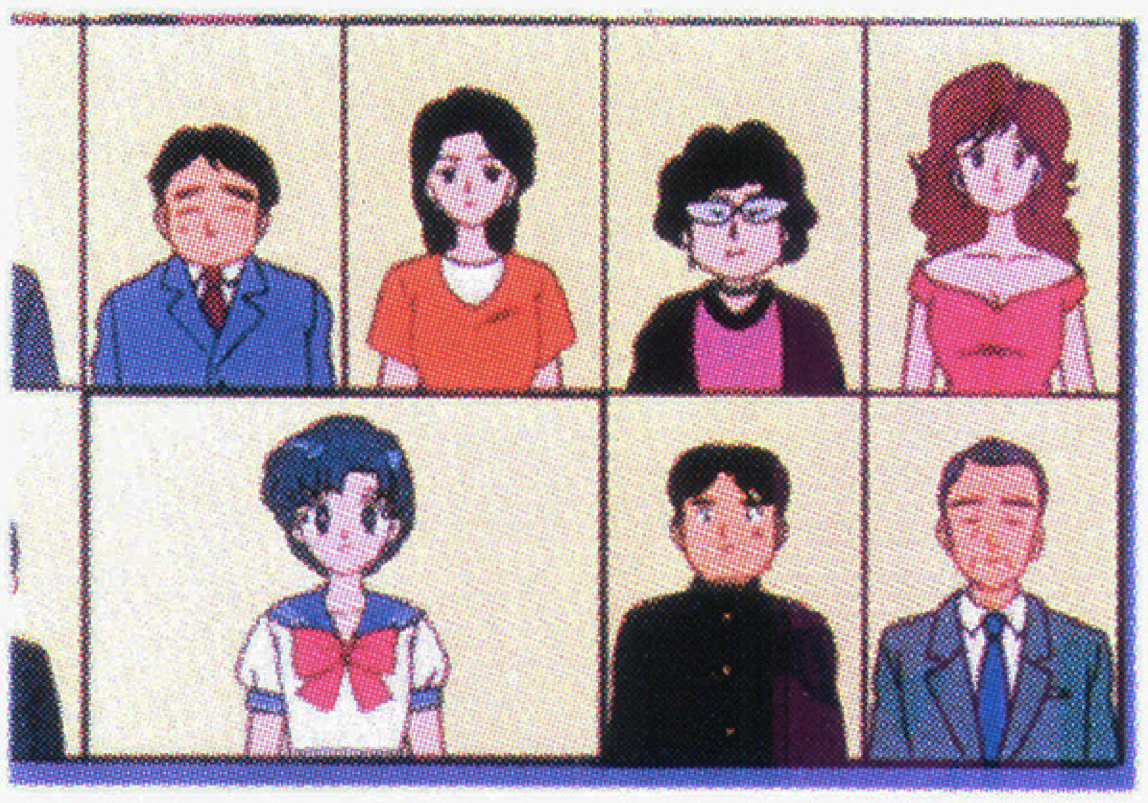
I thought that Germany would be the best place to study advanced medicine; but then, I remembered something more important and I cancelled my trip.



At that time I still didn't have a clear idea of my duty as a Sailor Scout.

## Good at chess?

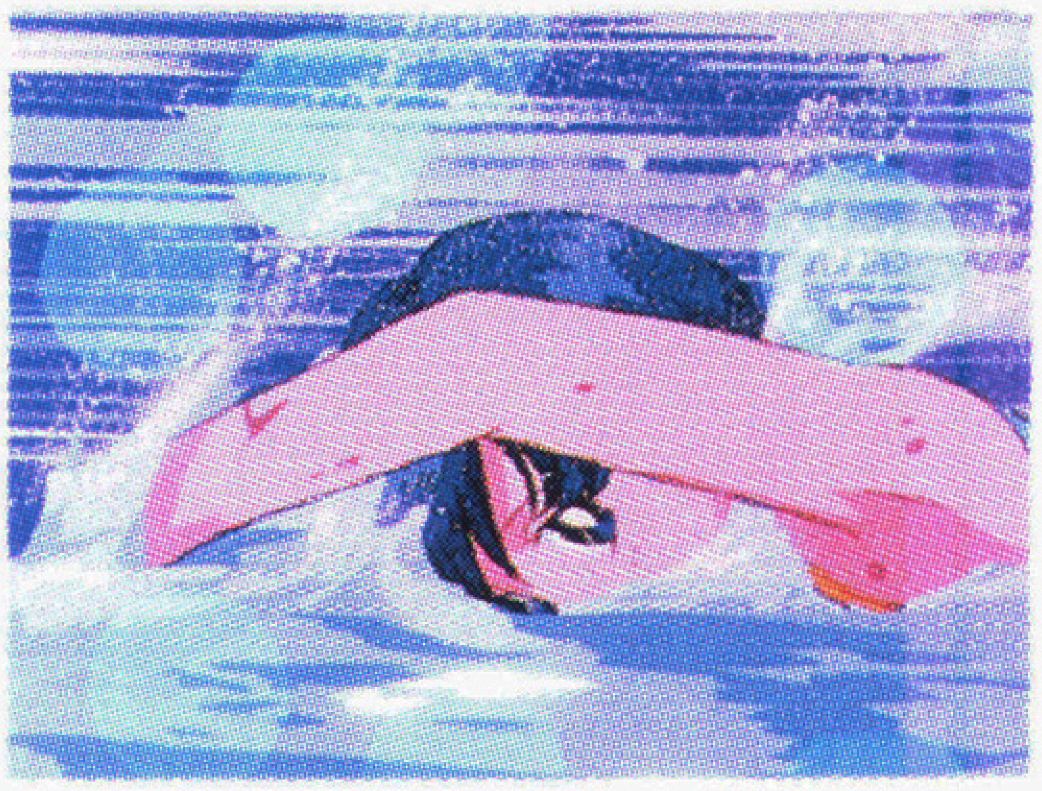
Well, I'm a Japan Junior Chess Champion, but I still don't think winning is all that important.



Once I even made it to the finals in the World Chess Tournament!

## Best swimming style?

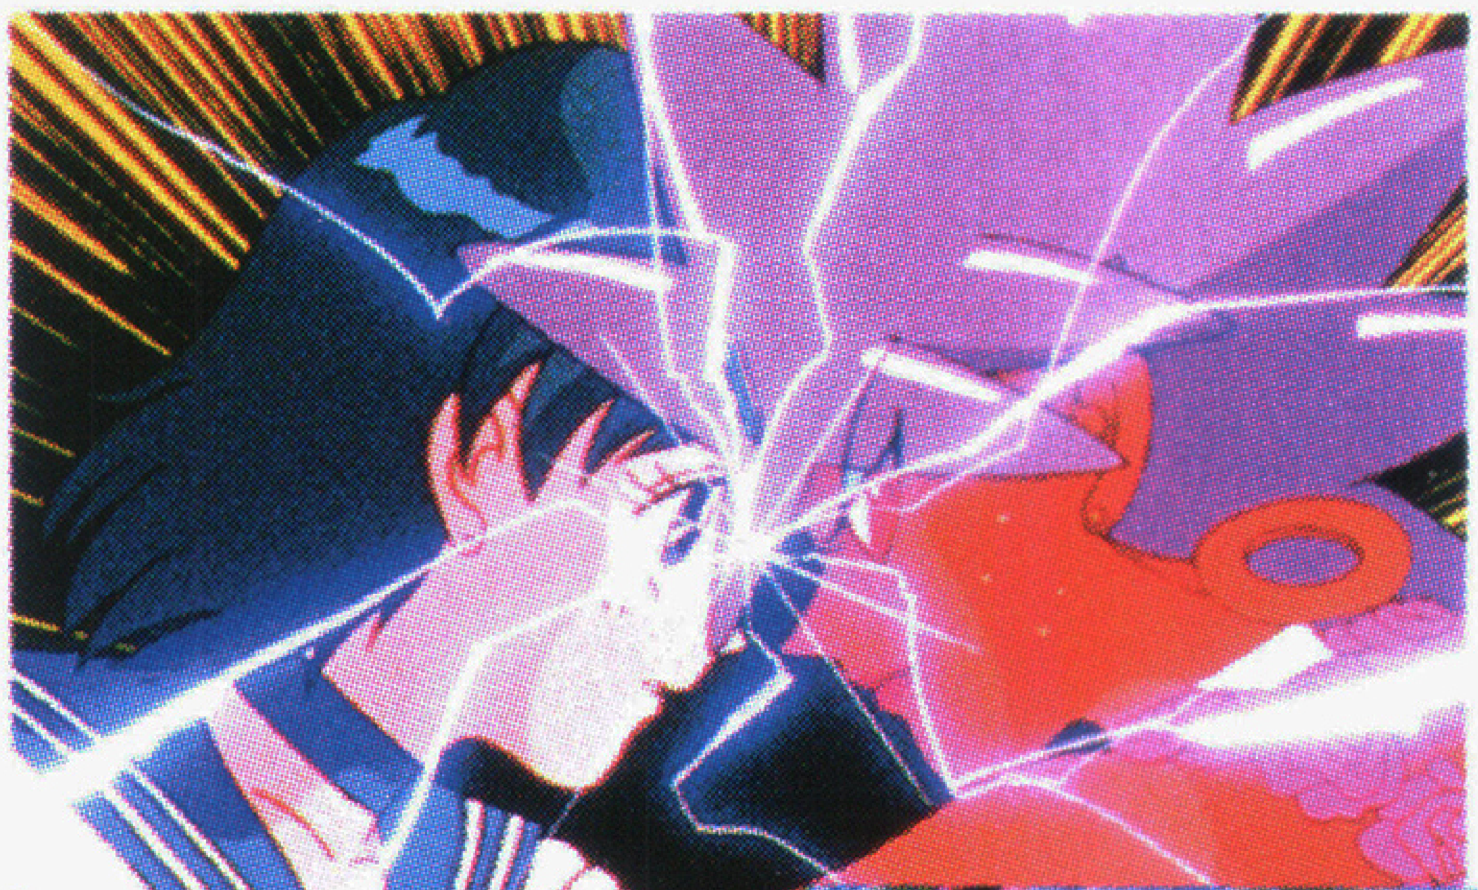
For competition, the crawl, maybe? That's my fastest stroke, but I'm also good at the backstroke and the butterfly.



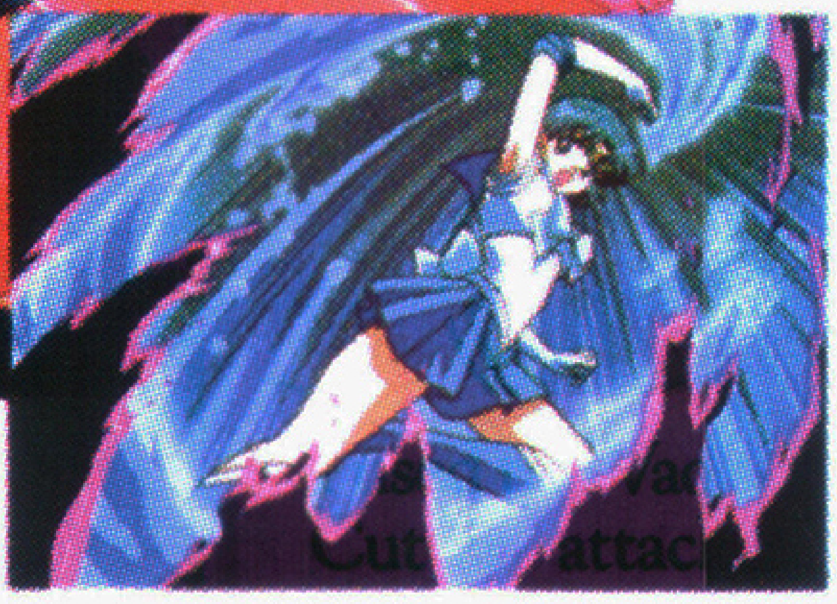
When I raced against Michiru, it was a close race swimming the crawl.

## Special Attacks?

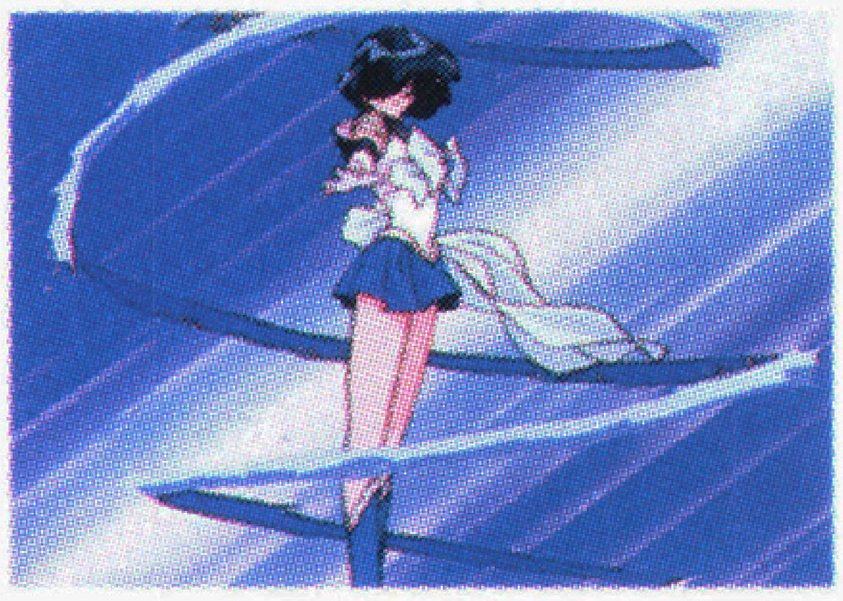
Mercury Bubbles Blast and Shine Aqua Illusion are my main ones, but I have a new attack called Mercury Aqua Rhapsody. I have other attacks too.



I used the Vacuum Mist Cutter attack against Marzipan.



I once used a continuous attack to fight off a horde of monsters!



Mercury Aqua Mirage is my fourth special attack.

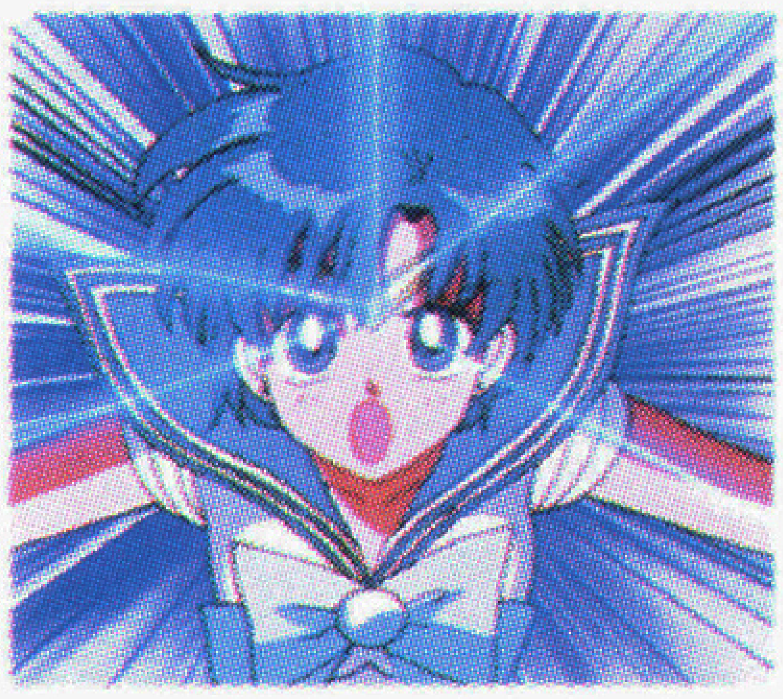
## First Transformation?

I was surprised at first, but somehow I understood immediately what I was supposed to do.

Actually, at the moment of transformation I was dazed!

## What's the secret of Mercury Star Power?

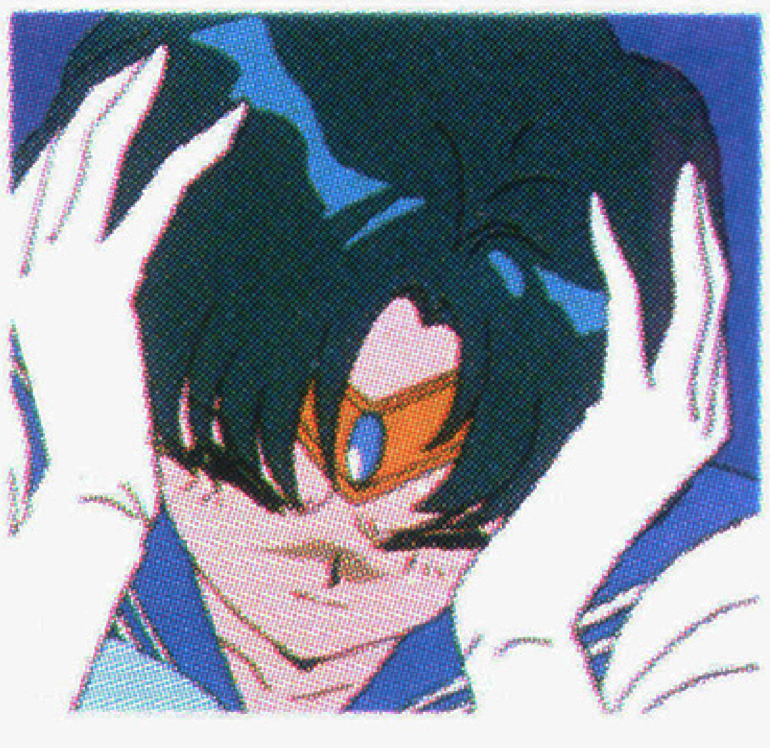
I collect energy in the gem in my tiara, and unleash it all at once. I use this to support Sailor Moon.



All the Scouts must concentrate together for it to work.

## Most painful battle?

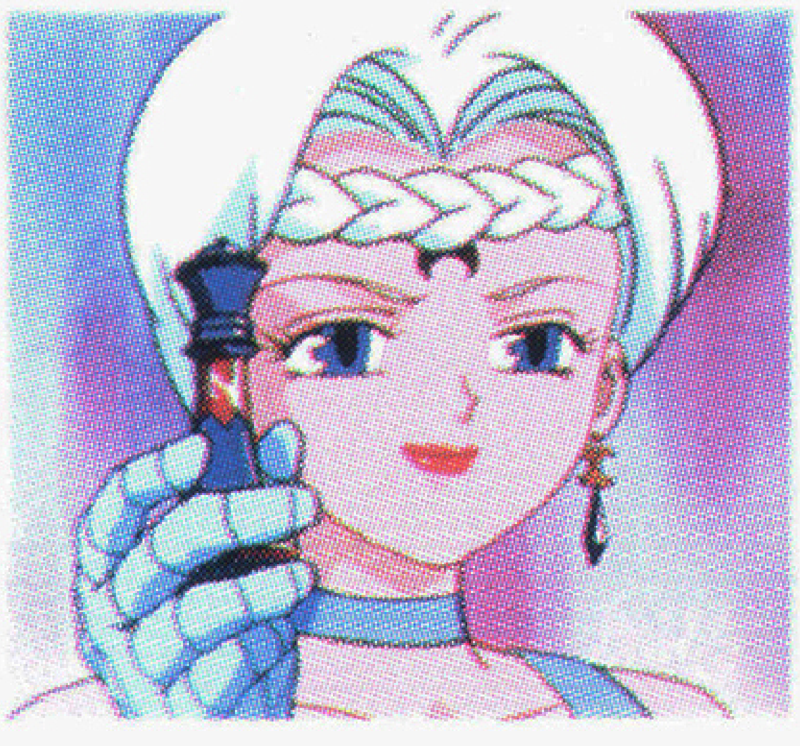
The battle with Mistrust was my most painful because his Illusion Pulse attack made me think everyone was my enemy!



In the end, the power of friendship turned the tide.

## Strongest enemy?

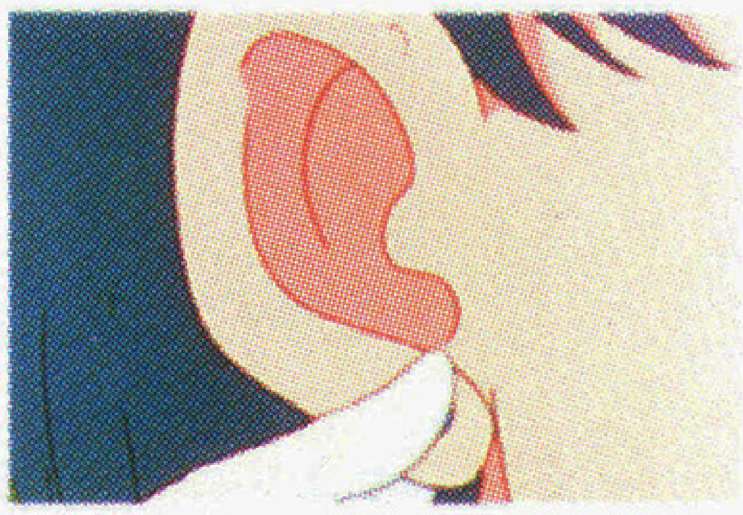
There was Bertie, one of the Negamoon sisters; and there was Vilyui, one of the Five Witches. They challenged my mind, too! They were both tough customers.



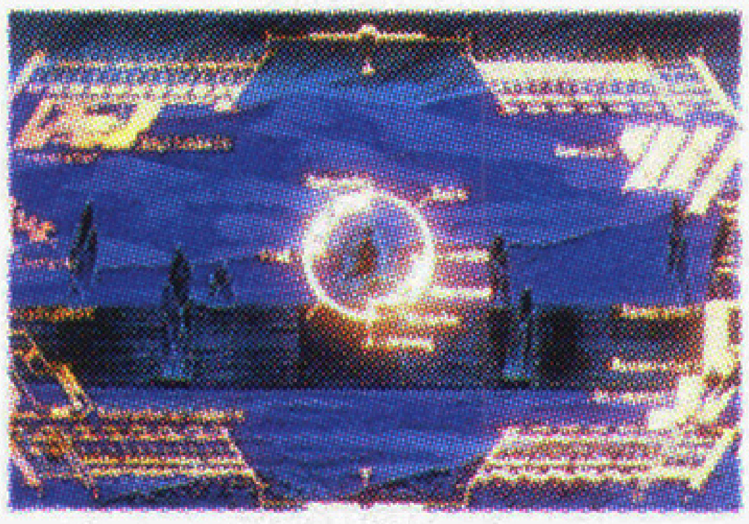
My chess battle with Bertie was the first time I played chess to win.

## Why the goggles?

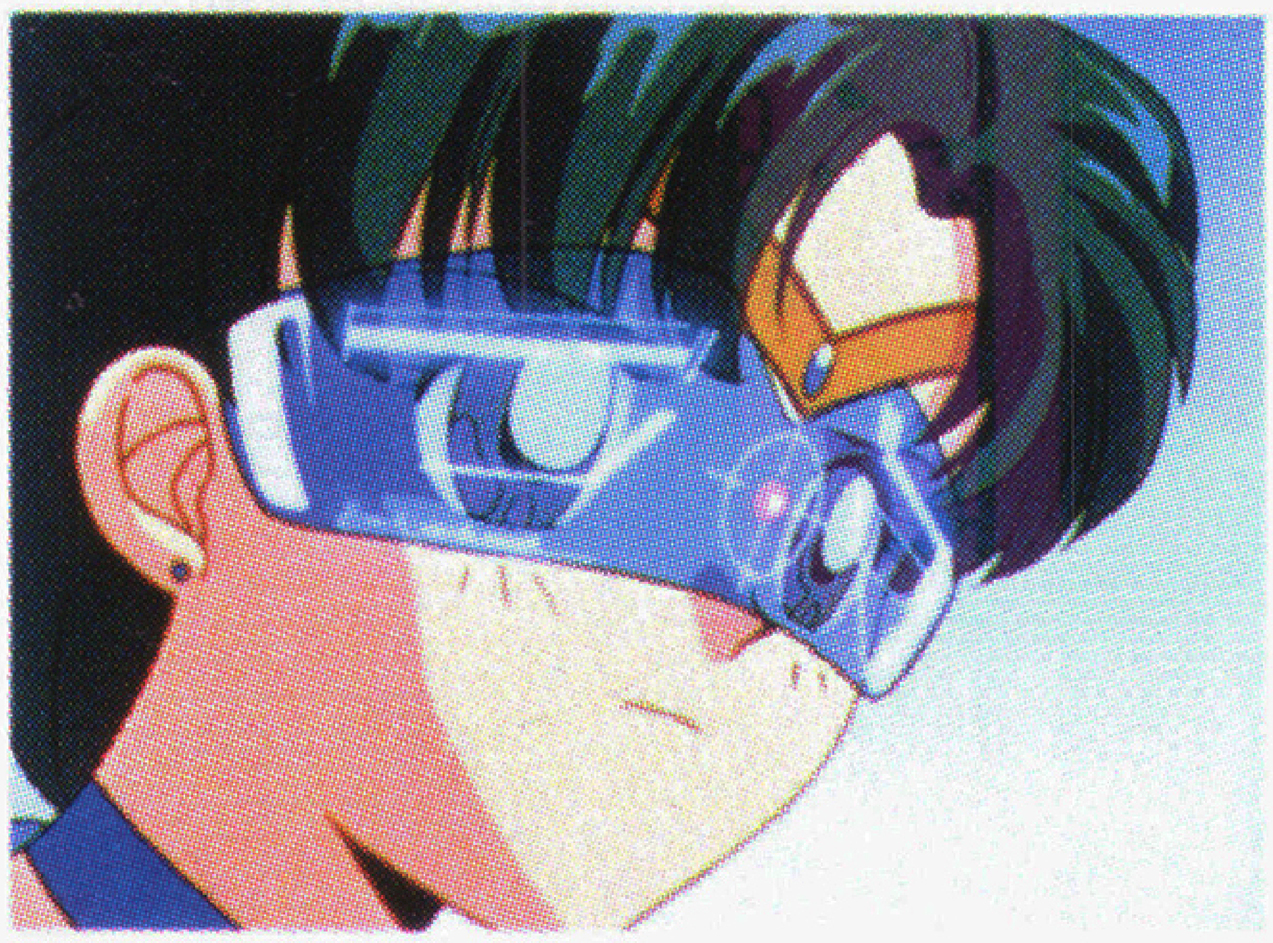
The goggles are a display linked with the supercomputer; the computer displays visual data on the inside of the visor. I use them in battle when I can't afford to take my eyes off the action.



My right earring is the set button.



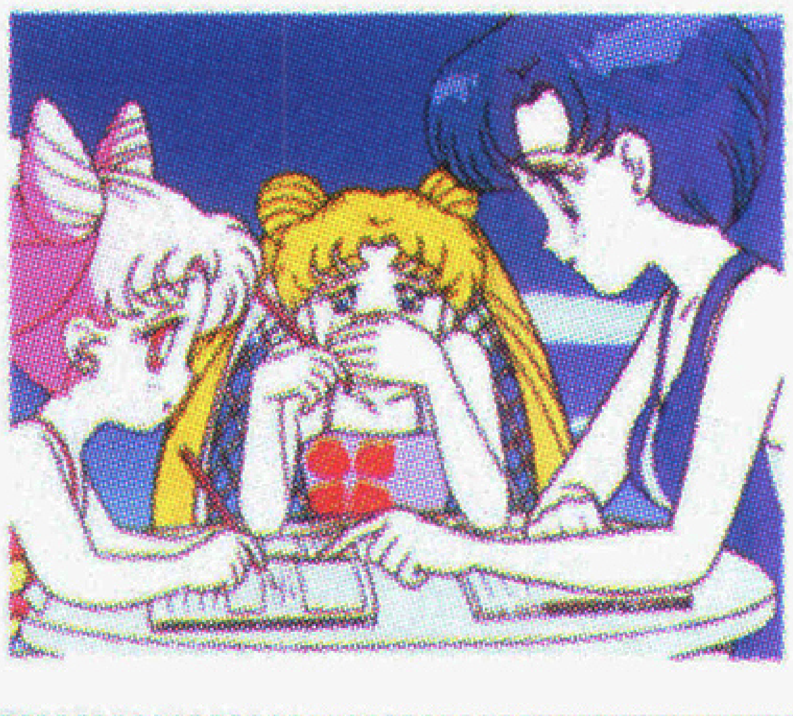
This is how the data is displayed.



I can use the goggles or take them off any time I'm transformed into Sailor Mercury.

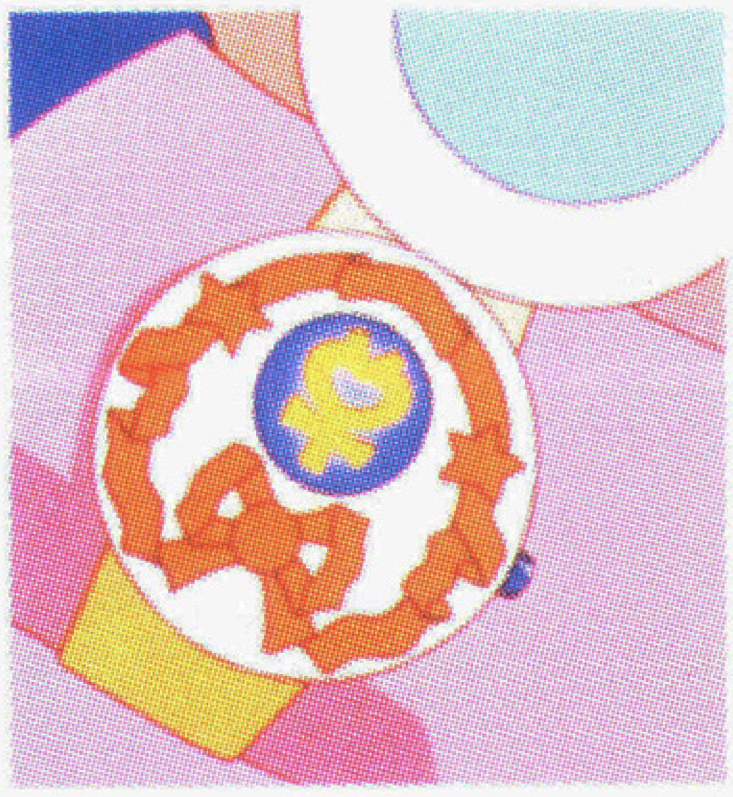
## What's your connection to your guardian planet?

My guardian planet is Mercury, who is the god of wisdom in Roman mythology. There seems to be a connection between the attributes of my guardian planet and my personality, which is calm and studious.



To live up to my guardian planet, I've got to study, study!

## How does the communicator work?

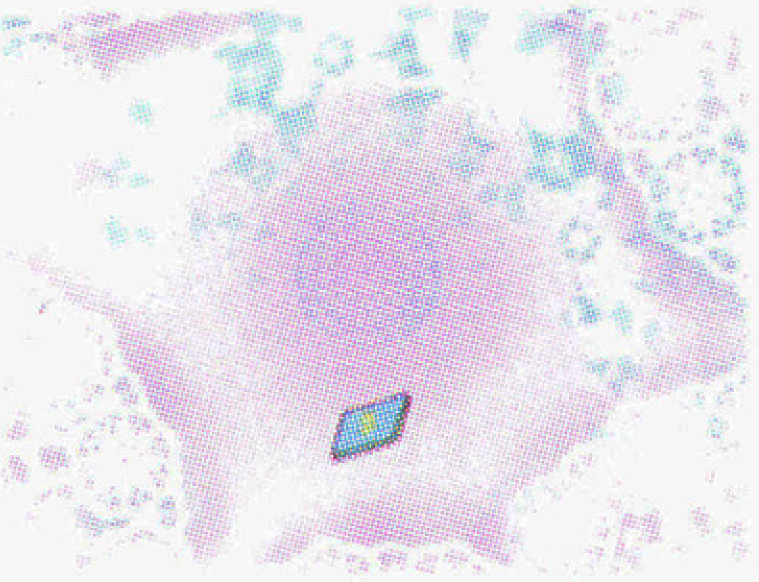


It used to be a handheld, but now we have a bracelet version.

It allows me to contact the rest of the Sailor team in an emergency. We can all talk to each other at the same time!

## How does the Super Computer help?

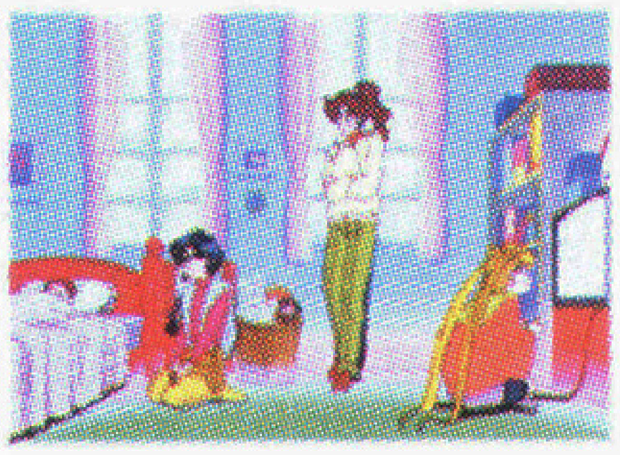
It's an extremely powerful computer that tracks the bad guys, and predicts their next move. It was given to me by Luna for Sailor Mercury alone!



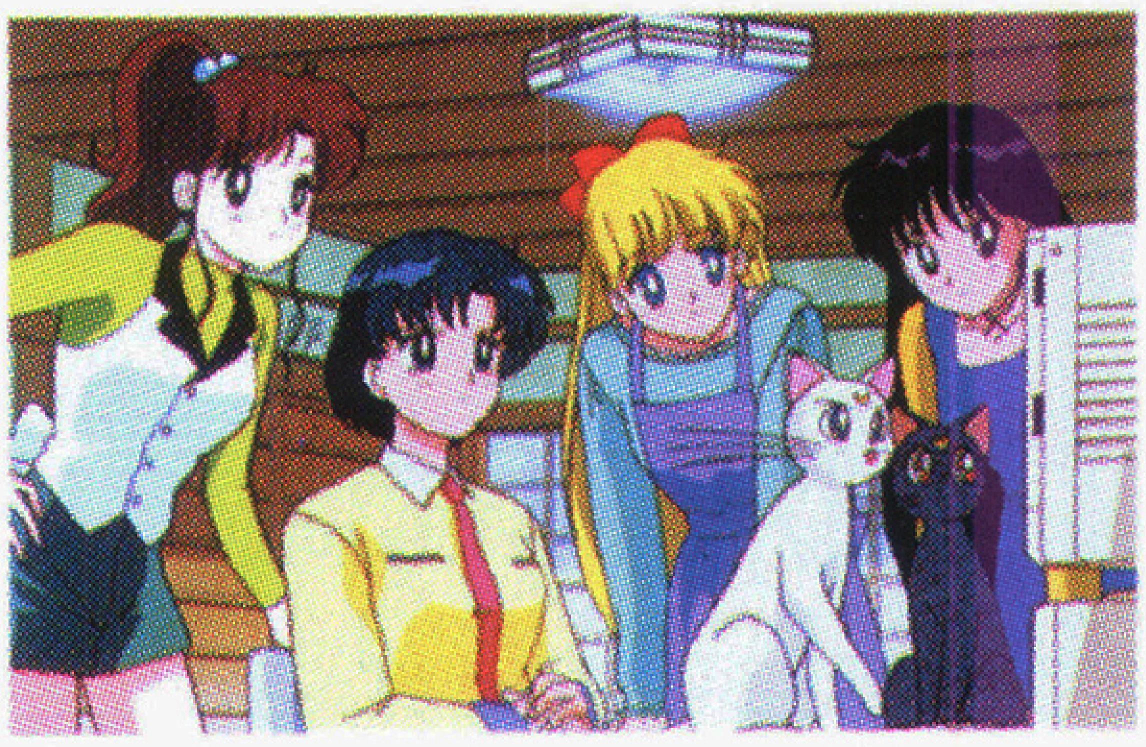
It's powerful, but easy to use, like an electronic notebook.

## What is your role in the Sailor Team?

Strictly speaking, I'm the strategic advisor for the team. In other words, I figure out how everyone can fight to the best advantage with the least possible danger. So, it's my job to come up with a strategy.



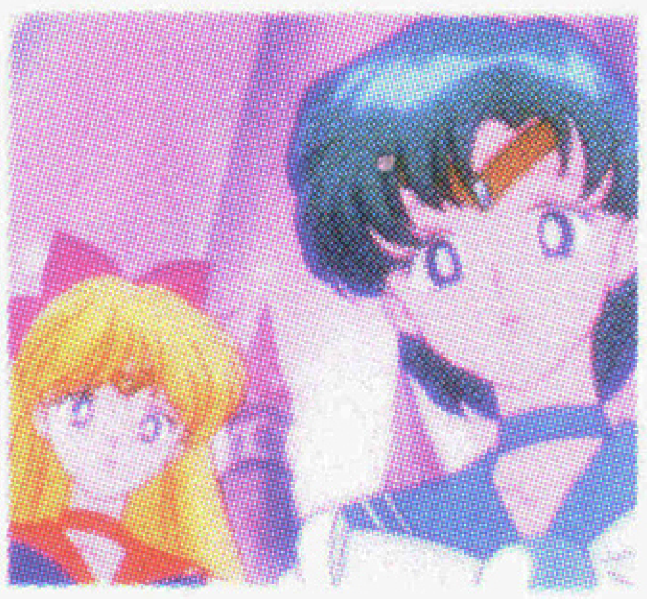
We do everything together!



With Luna and Artemis' help, I analyze different incidents.

## Crystal Tokyo?

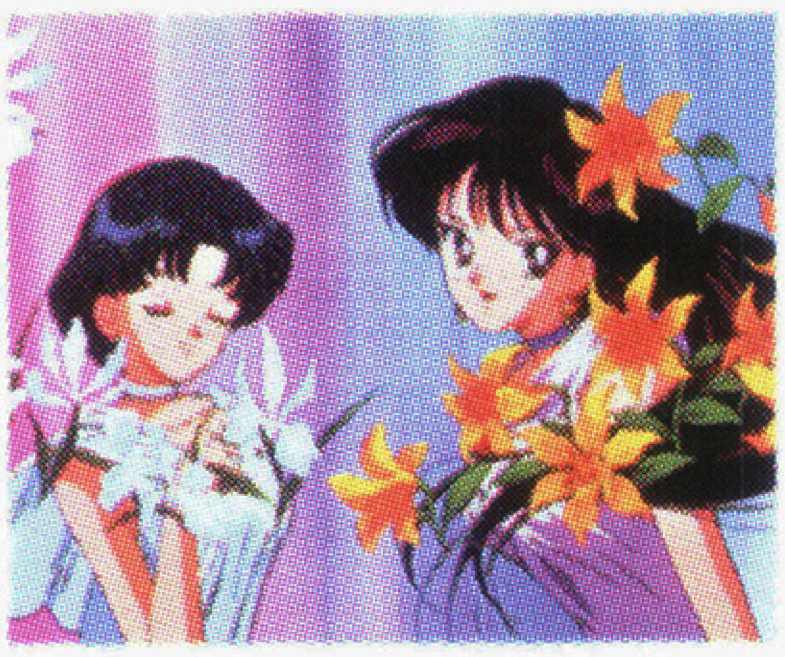
I lived quietly with everyone, taking care of Small Lady and protecting the palace against Black Moon's attacks.



I was so grown up there!

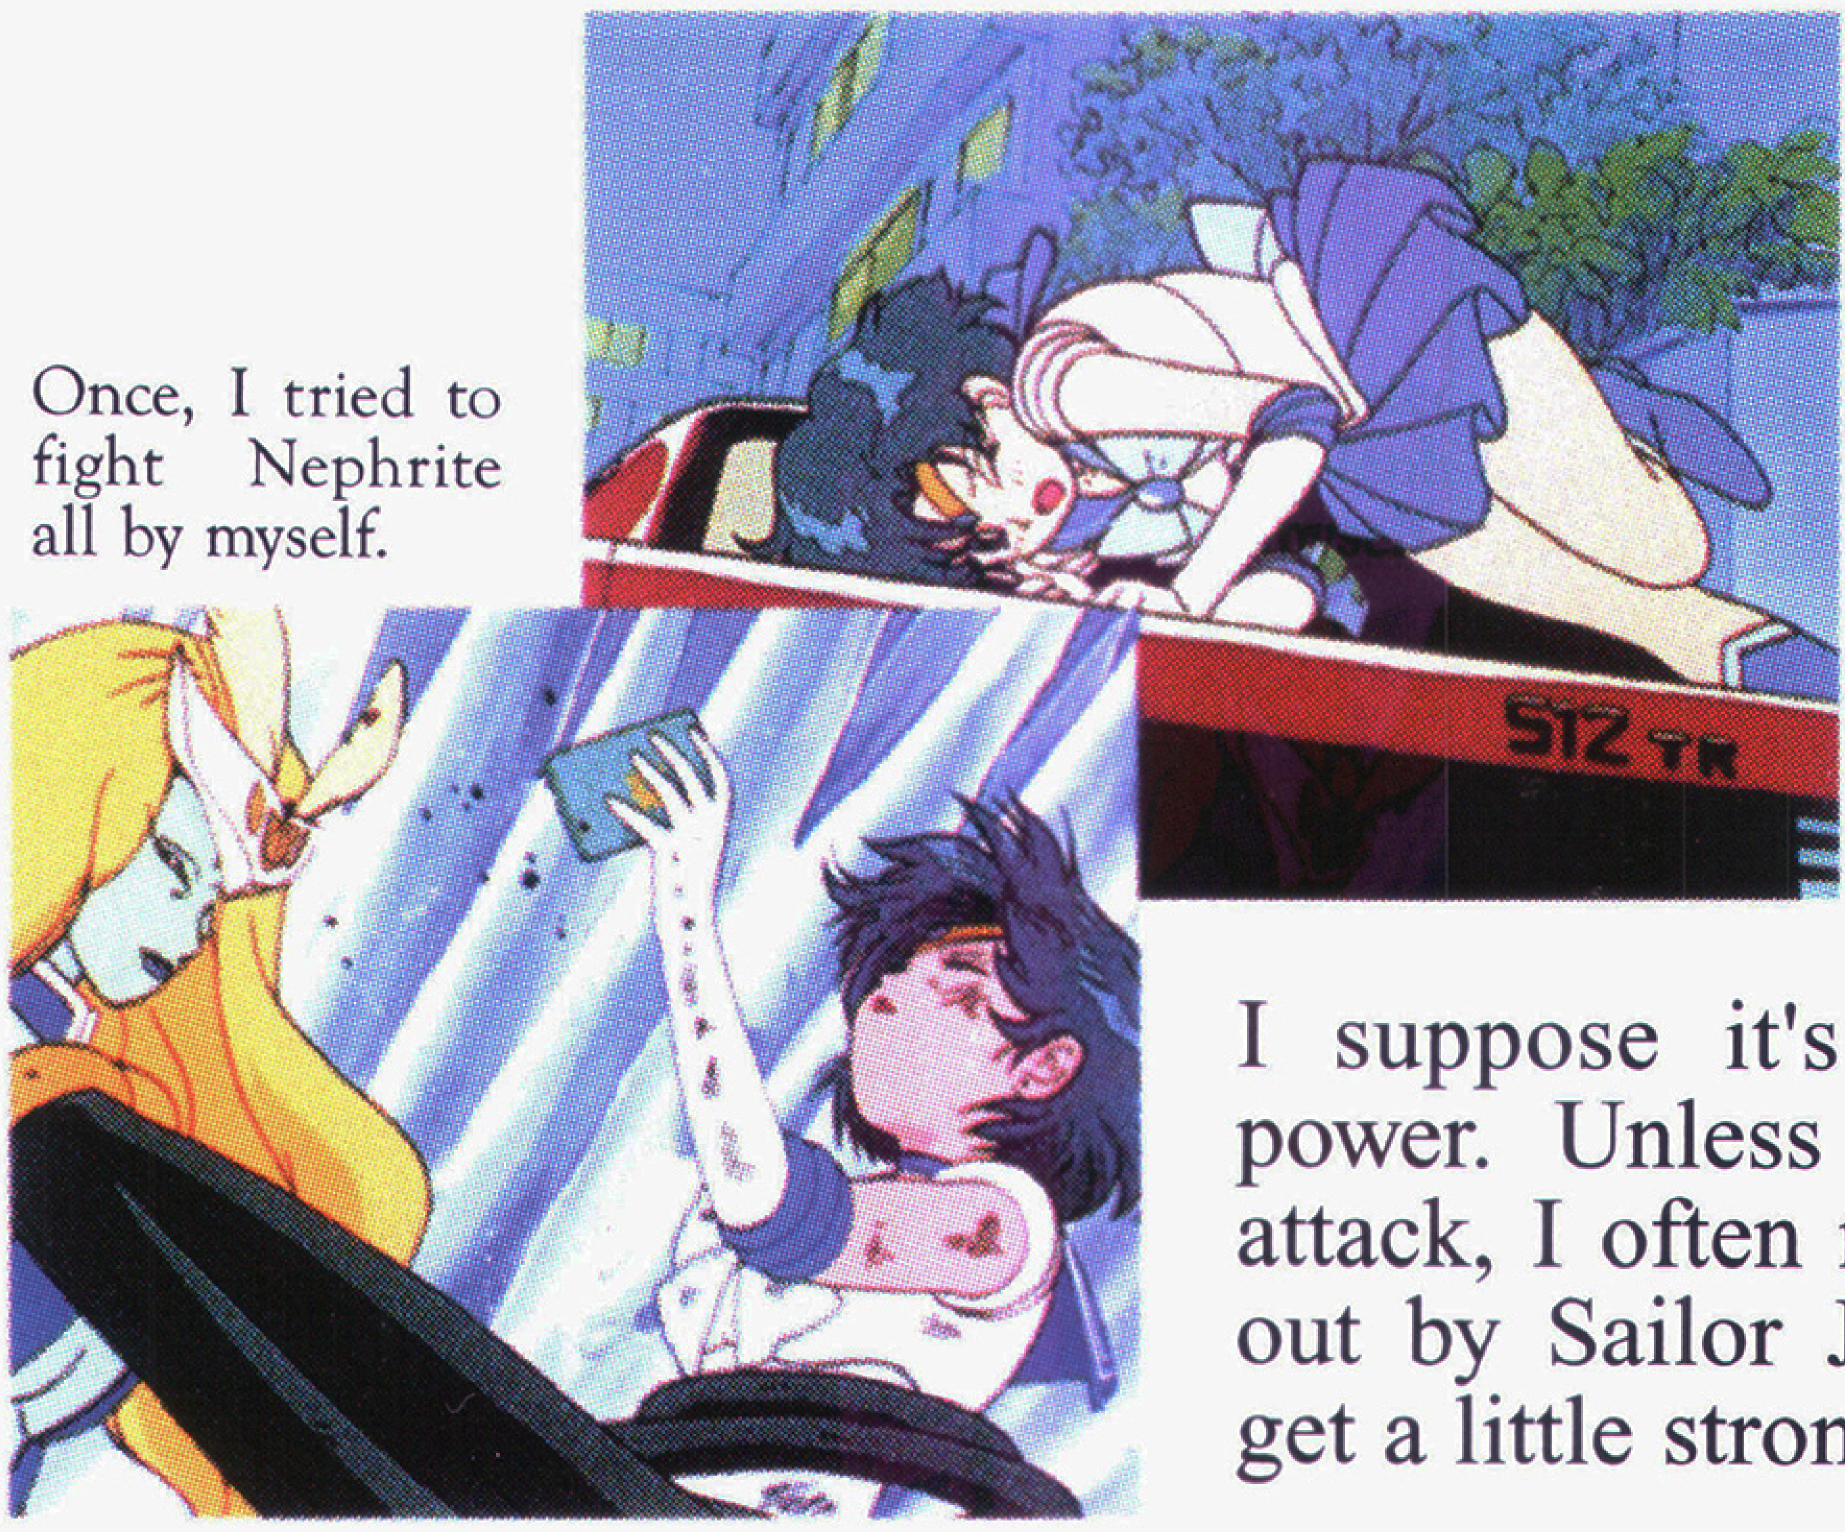
## Silver Millennium?

I was a warrior under Princess Serenity, like now. But it was a peaceful time, there were fewer battles.



It was a lovely place with flowers blooming everywhere.

## Sailor Mercury's weakness?



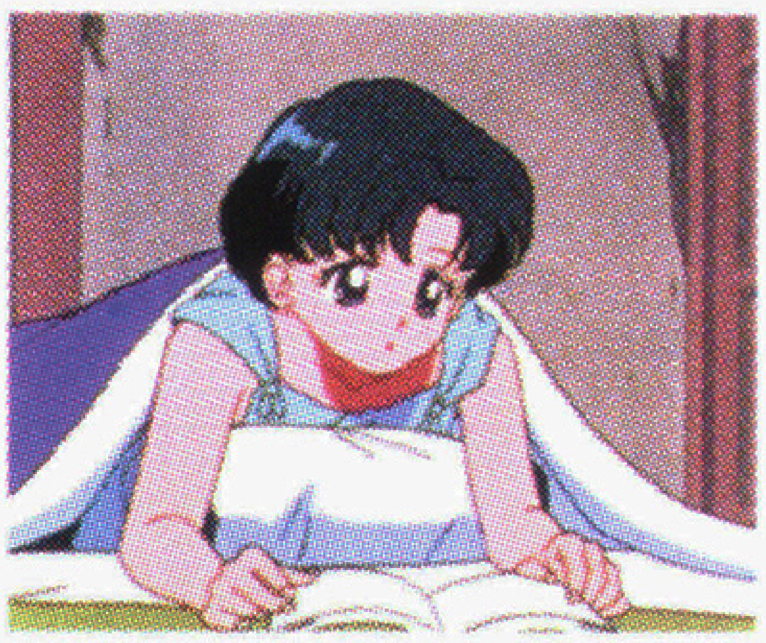
I made a heroic attack in the fight with the DD Girls, too!

Once, I tried to fight Nephrite all by myself.

I suppose it's my low attack power. Unless I use a special attack, I often need to be bailed out by Sailor Jupiter. I need to get a little stronger!

## Sailor Scout difficulties?

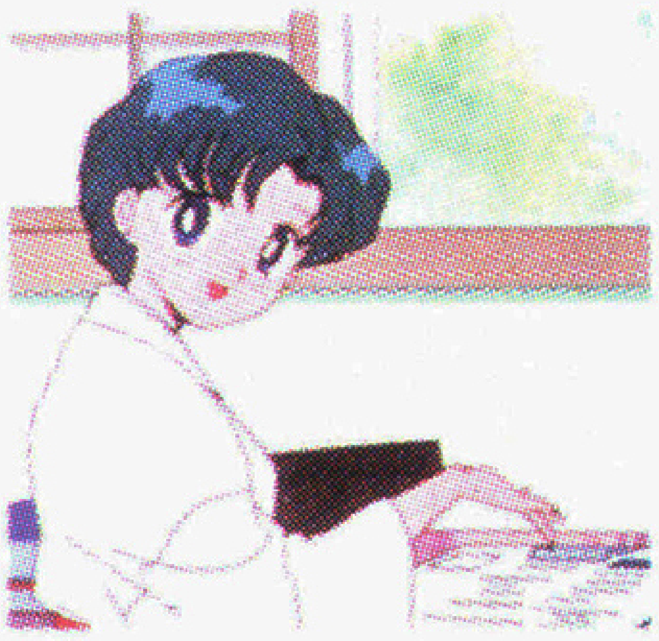
Well, since my duty as a Scout comes first, I don't have much time to study, so things get a bit hectic.



I have to sacrifice sleep to get my study time in.

## Sailor Scout Advantages?

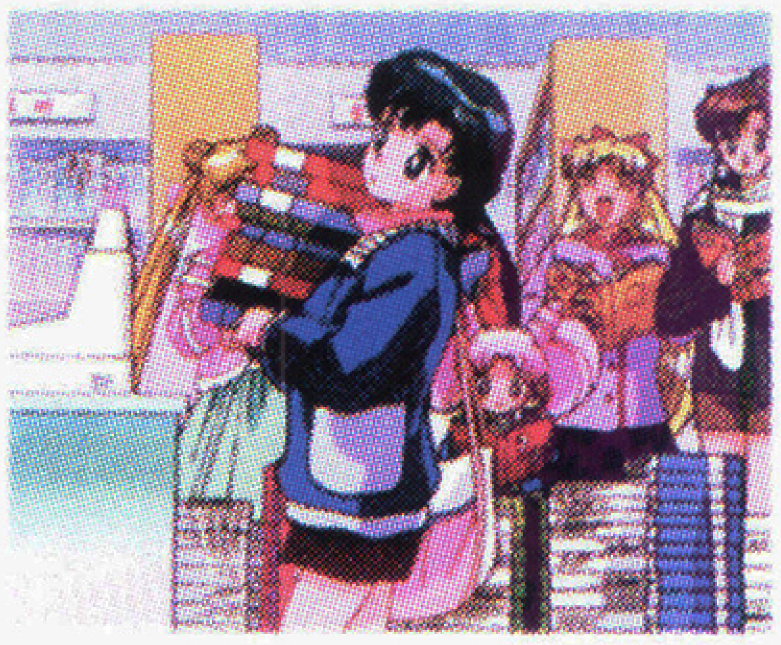
I enjoy the various social activities we do together, like playing video games with Serena or working in the temple with Raye.



Do I look as good as Raye?

## If I had $10,000?

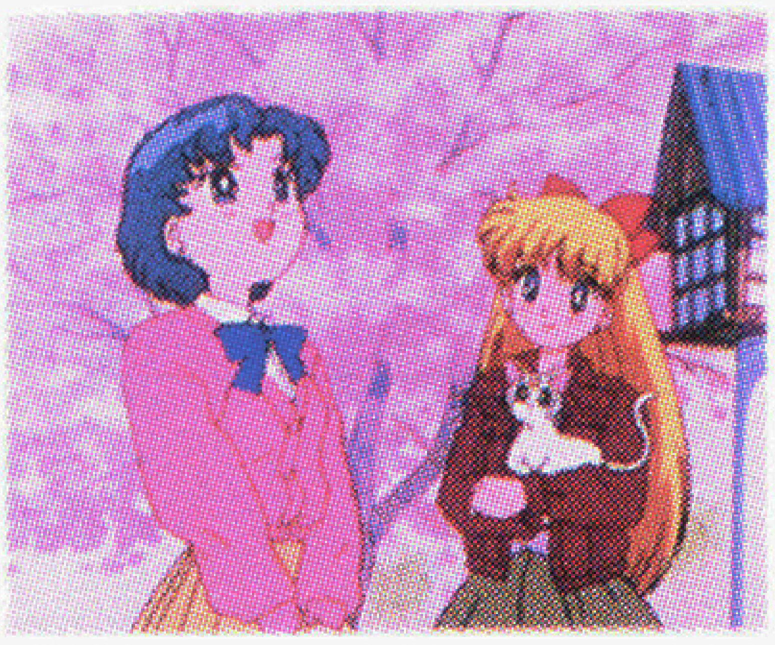
Well, medical textbooks are surprisingly expensive, so if I had that kind of money, I think I'd spend it on a mountain of textbooks and reference books!



That's where all my spending money goes.

## What if you weren't a Sailor Scout?

Well I suppose I'd be studying hard to become a top-notch doctor about now. I still haven't given up that idea altogether.



My life used to be a bit boring!

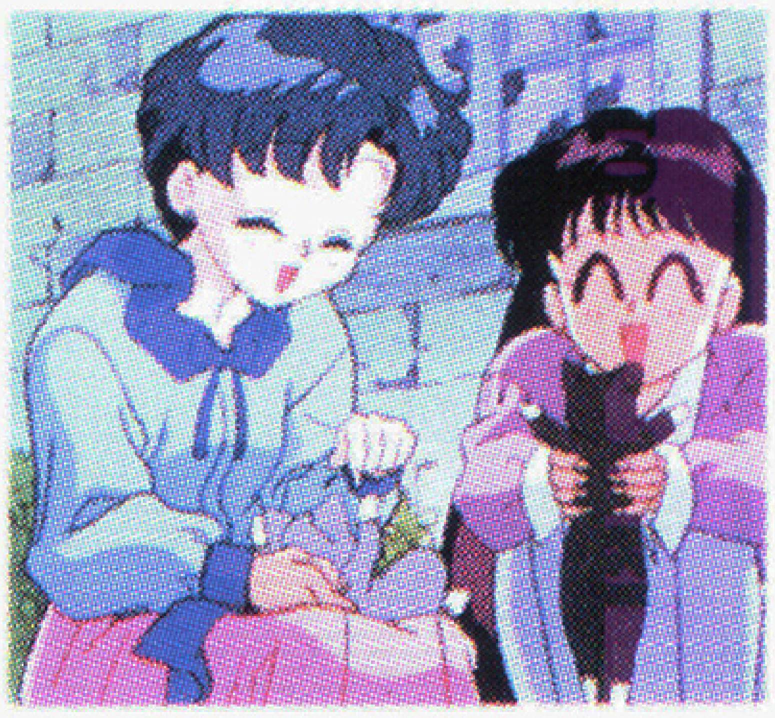
## What if you were the last Sailor Scout?

I'd keep fighting, even if I was completely alone. I'd prove to myself that I'm not a coward.

I'd just try and do my best.

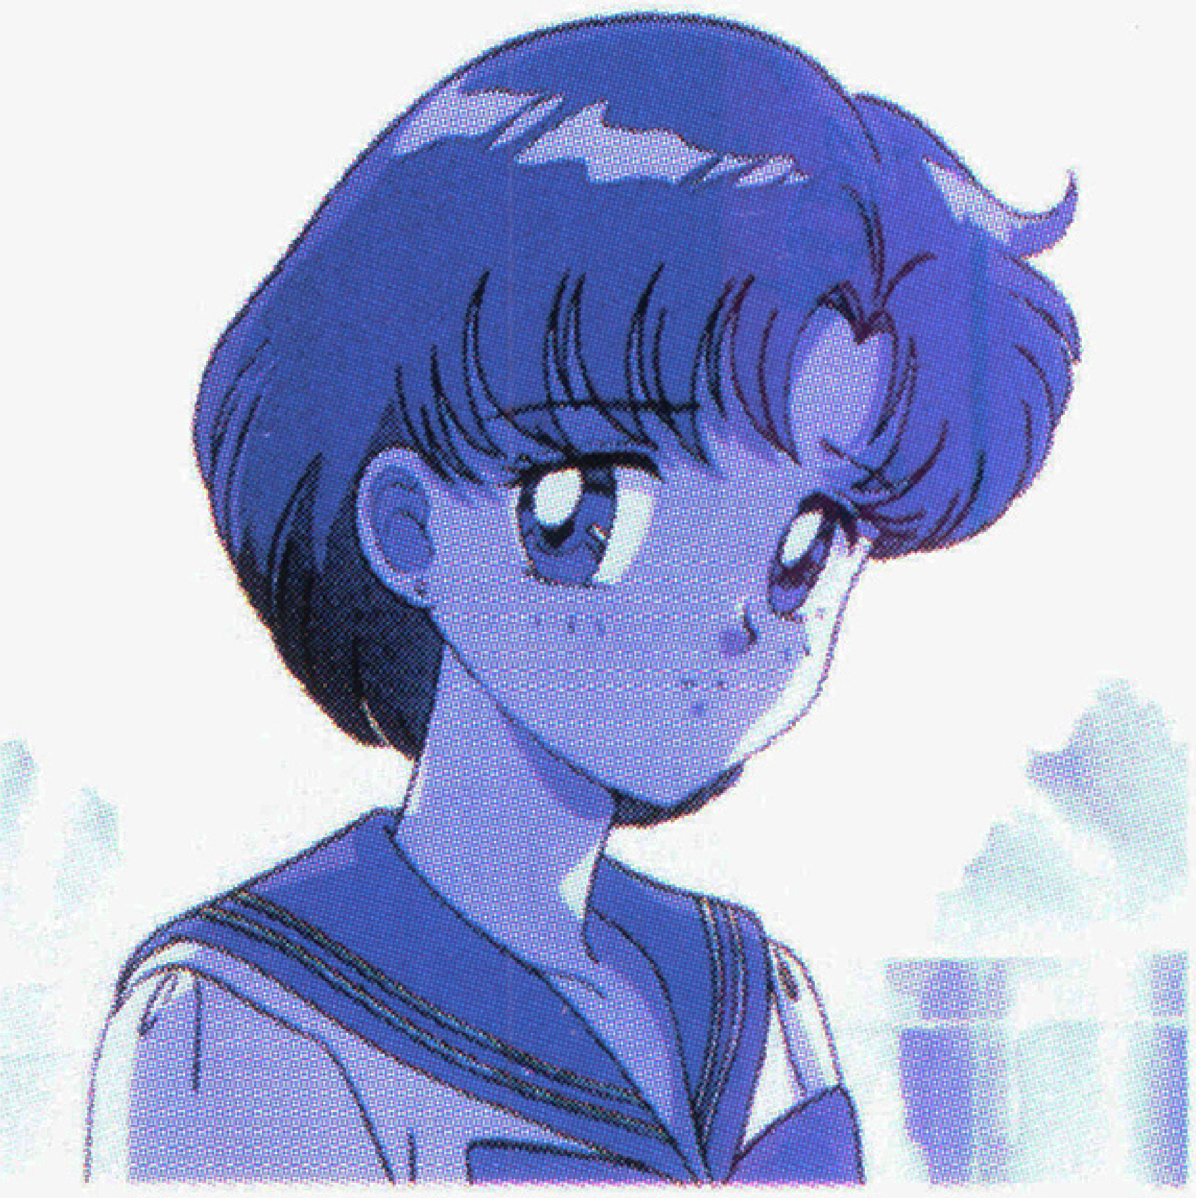
## What kind of pet?

I'd love to have a cat as clever as Luna, but since I live in a high-rise building, I can't have any pets.



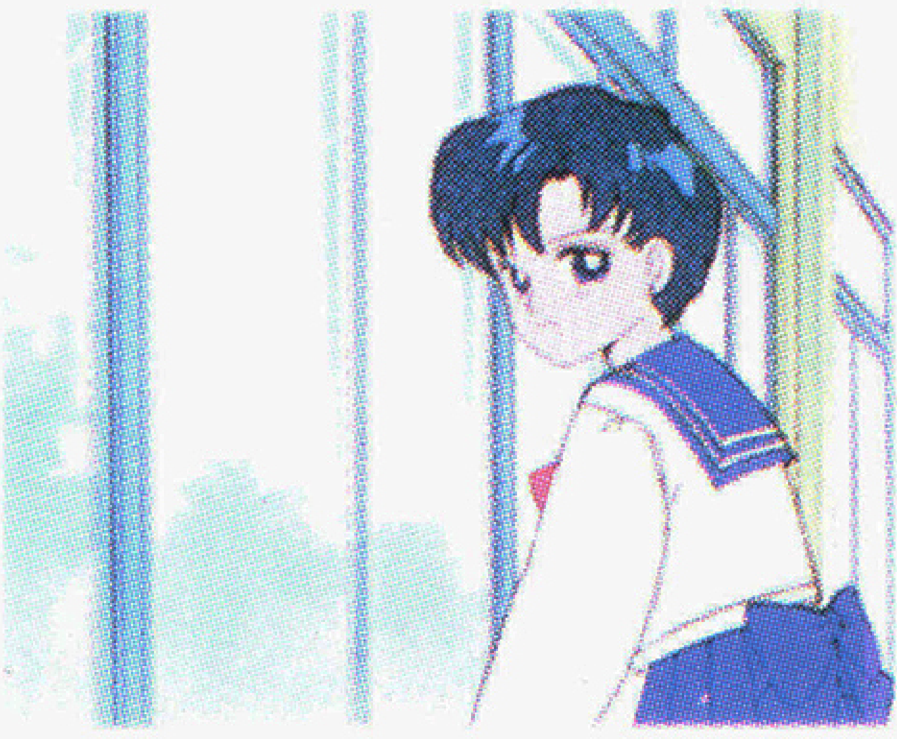
I love all animals, not just cats.

## What were you like before you met Serena?



Everyone thought I was only interested in studying, so nobody talked to me!

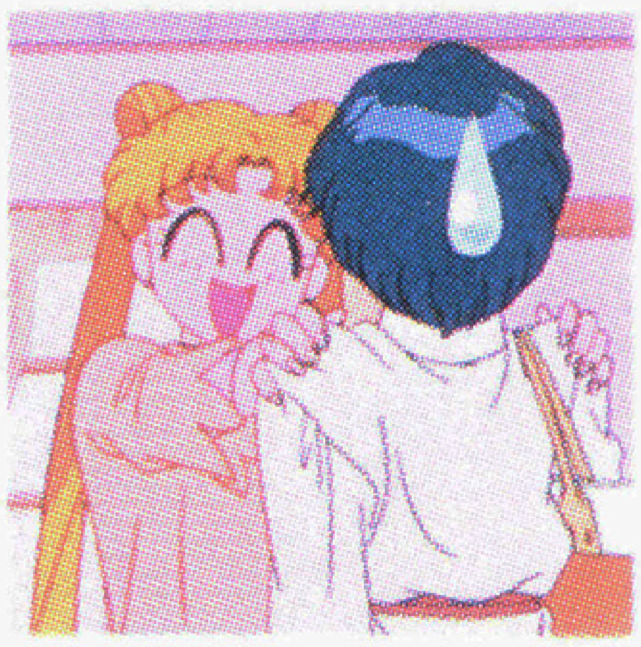
Everyone thought I was stuck up because of my good grades, so I was all alone. That's why I was so crazy about chess; it helped relieve the loneliness.



Even at school I was always alone.

## Is there anything she's better at than you?

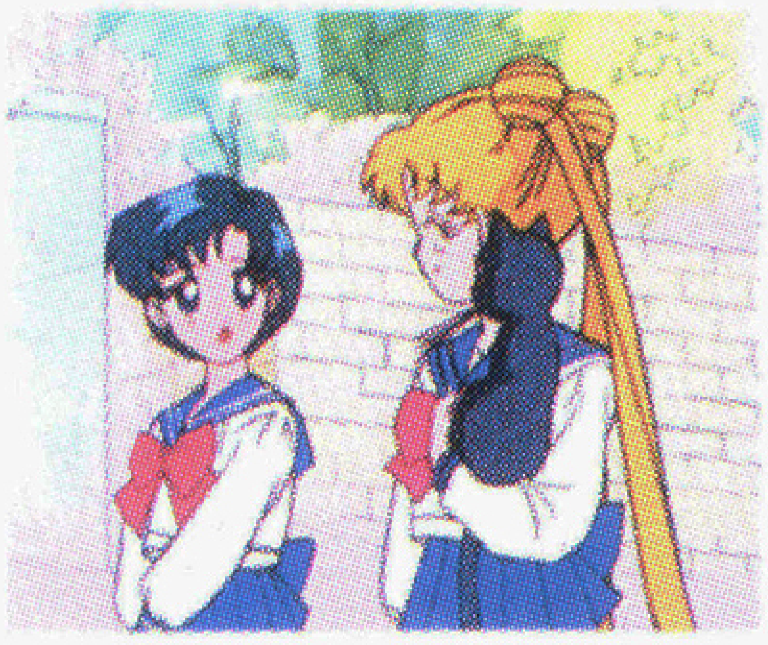
She's got such a strong personality, she can become friends with anybody. I wish I could be as aggressive as her sometimes.



Maybe she's got a little too much energy.

## How did you meet Serena?

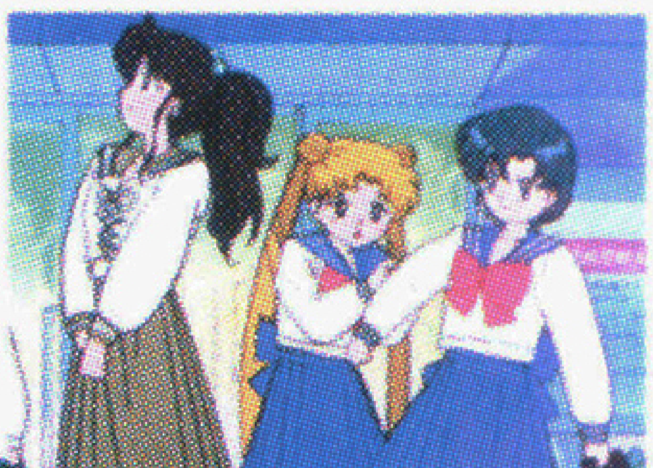
On my way home from school one day, Luna jumped onto my shoulder. That was when Serena introduced herself. I was really happy.



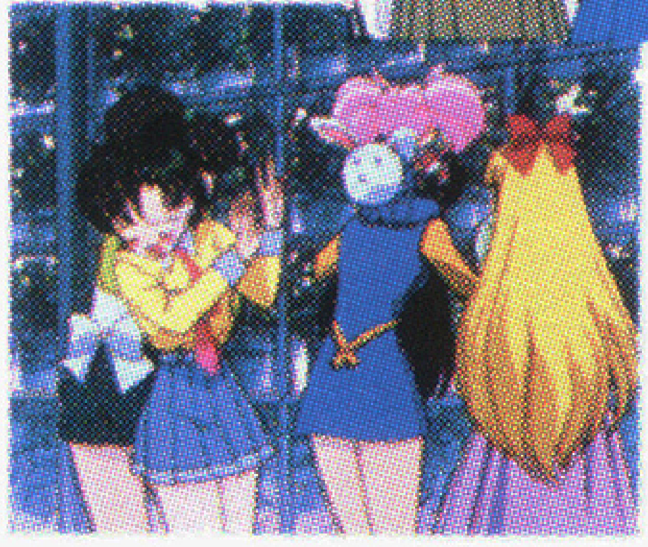
At first I thought Luna was an angel.

## My motto?

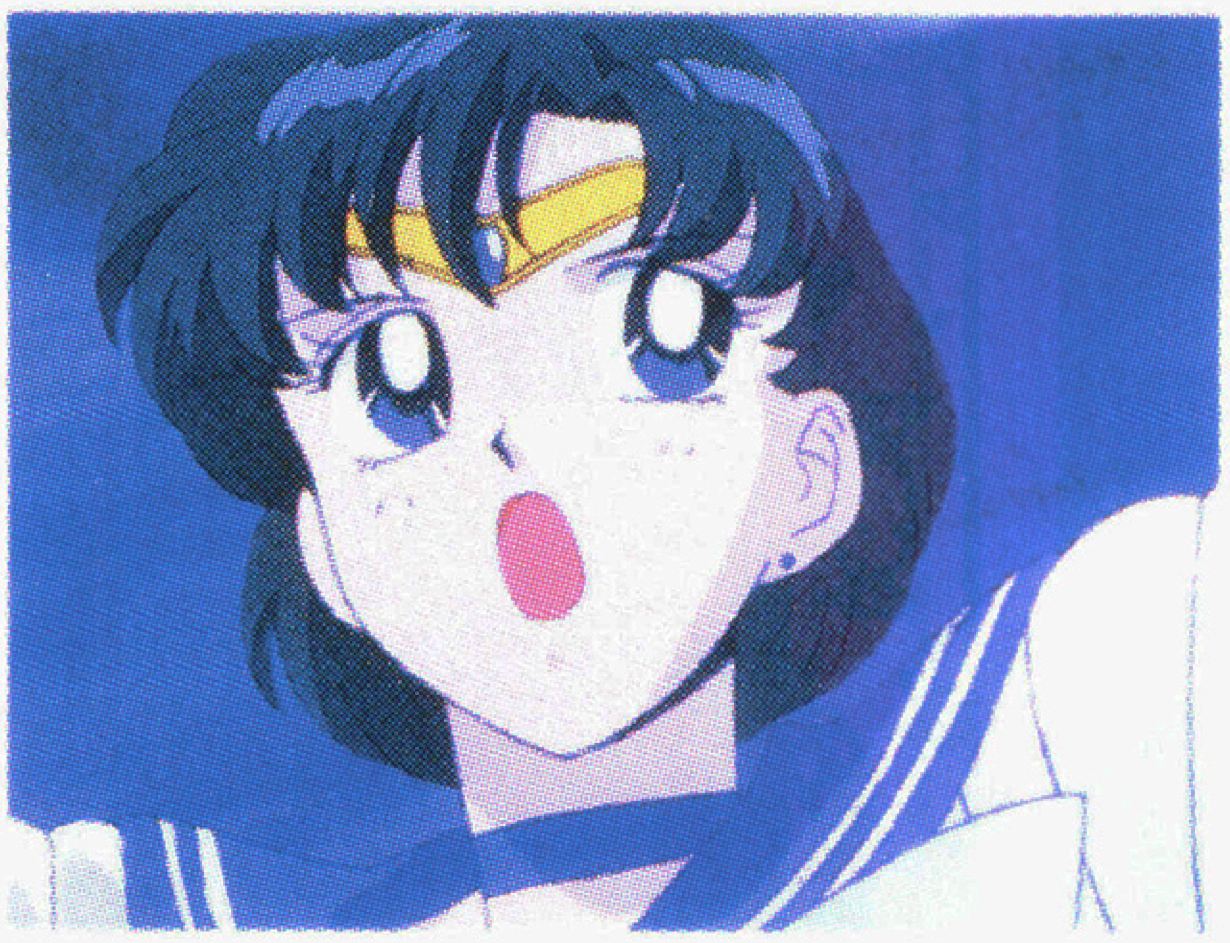
Be noble, be honest, be pure. Not just because I'm a girl, but as a human being. I think these are qualities that everyone should emulate.



I like to dress properly.



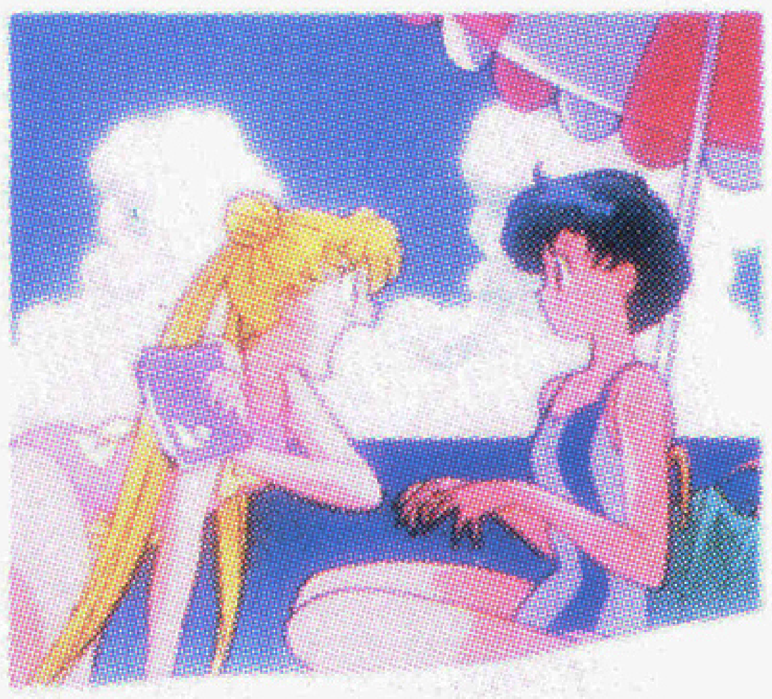
Don't be a peeping tom!



I think I'm most proud when I battle as Sailor Mercury.

## How would you like to be like Serena?

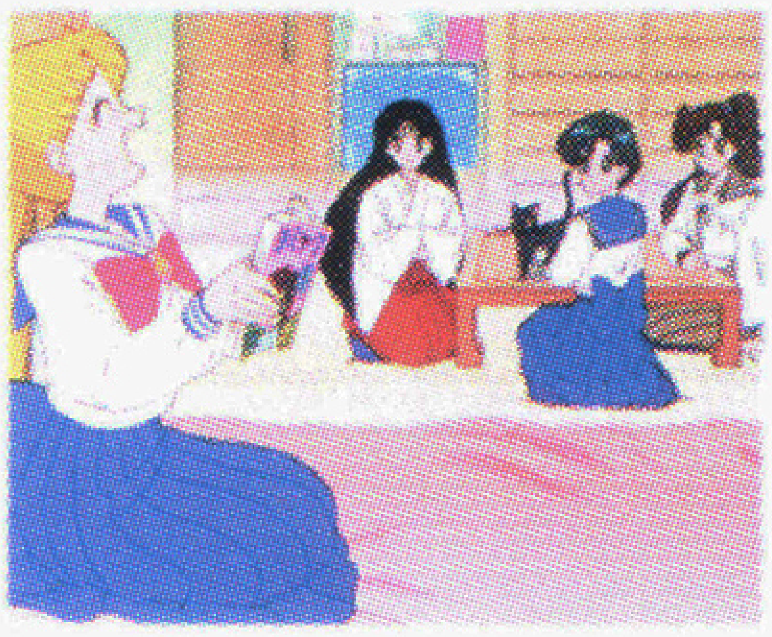
She has that ability to make everyone around her happier. She's very thoughtful. I'd like to be as nice a person as she is.



It's probably more important than studying.

## Serena should stop...?

I wish she would stop reading comics during planning meetings. And I wish she would do her own homework instead of relying on me so much.

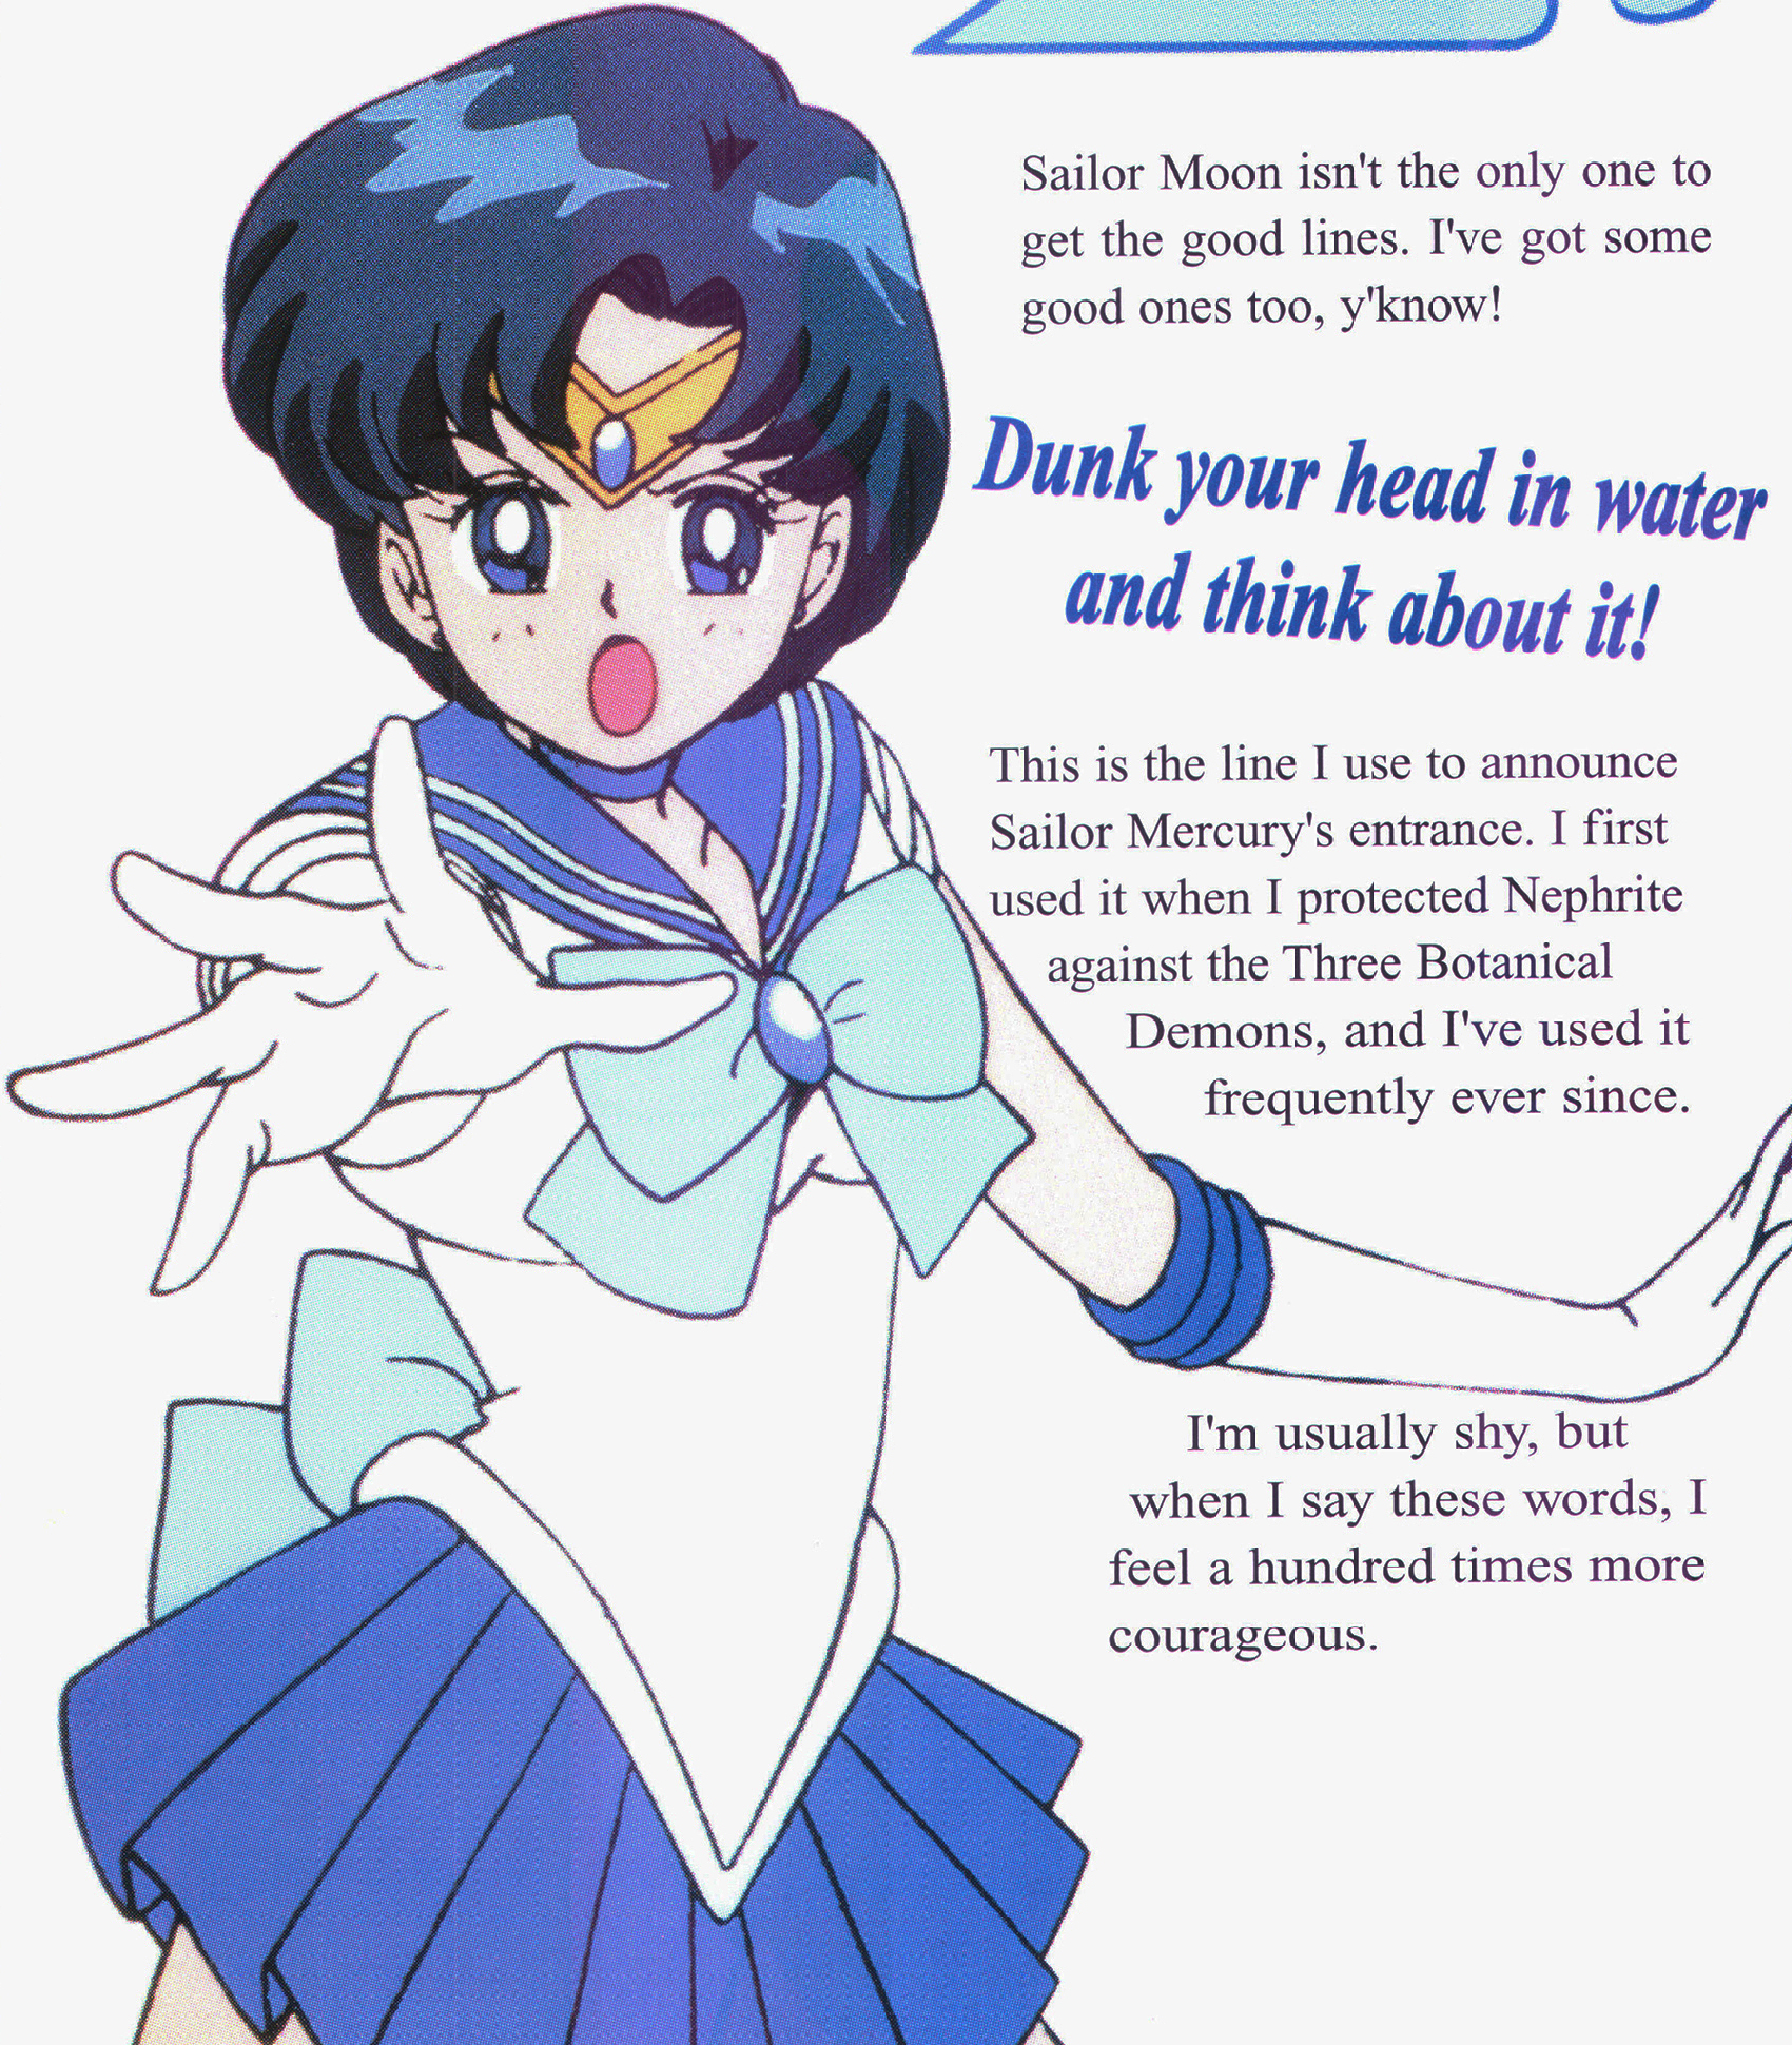


She needs to get a little more serious.

# Sailor Mercury's Greatest Lines

***Here's where I divulge my favorite lines for you. I think they all reflect a part of me.***

## Sailor Mercury Encyclopedia

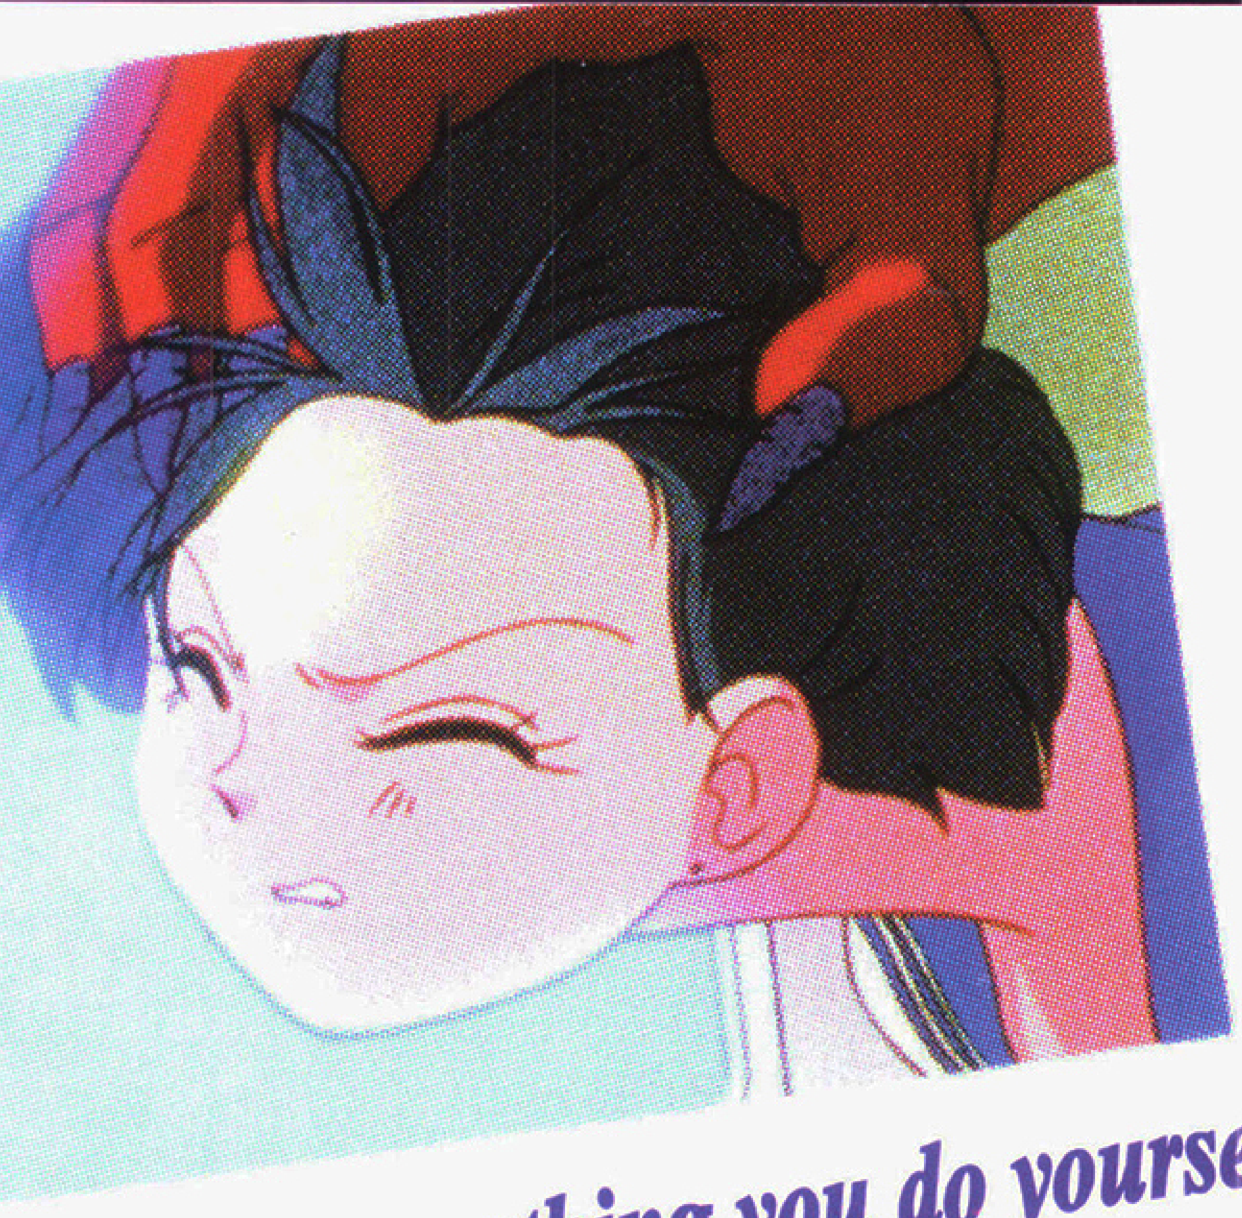


Sailor Moon isn't the only one to get the good lines. I've got some good ones too, y'know!

### *Dunk your head in water and think about it!*

This is the line I use to announce Sailor Mercury's entrance. I first used it when I protected Nephrite against the Three Botanical Demons, and I've used it frequently ever since.

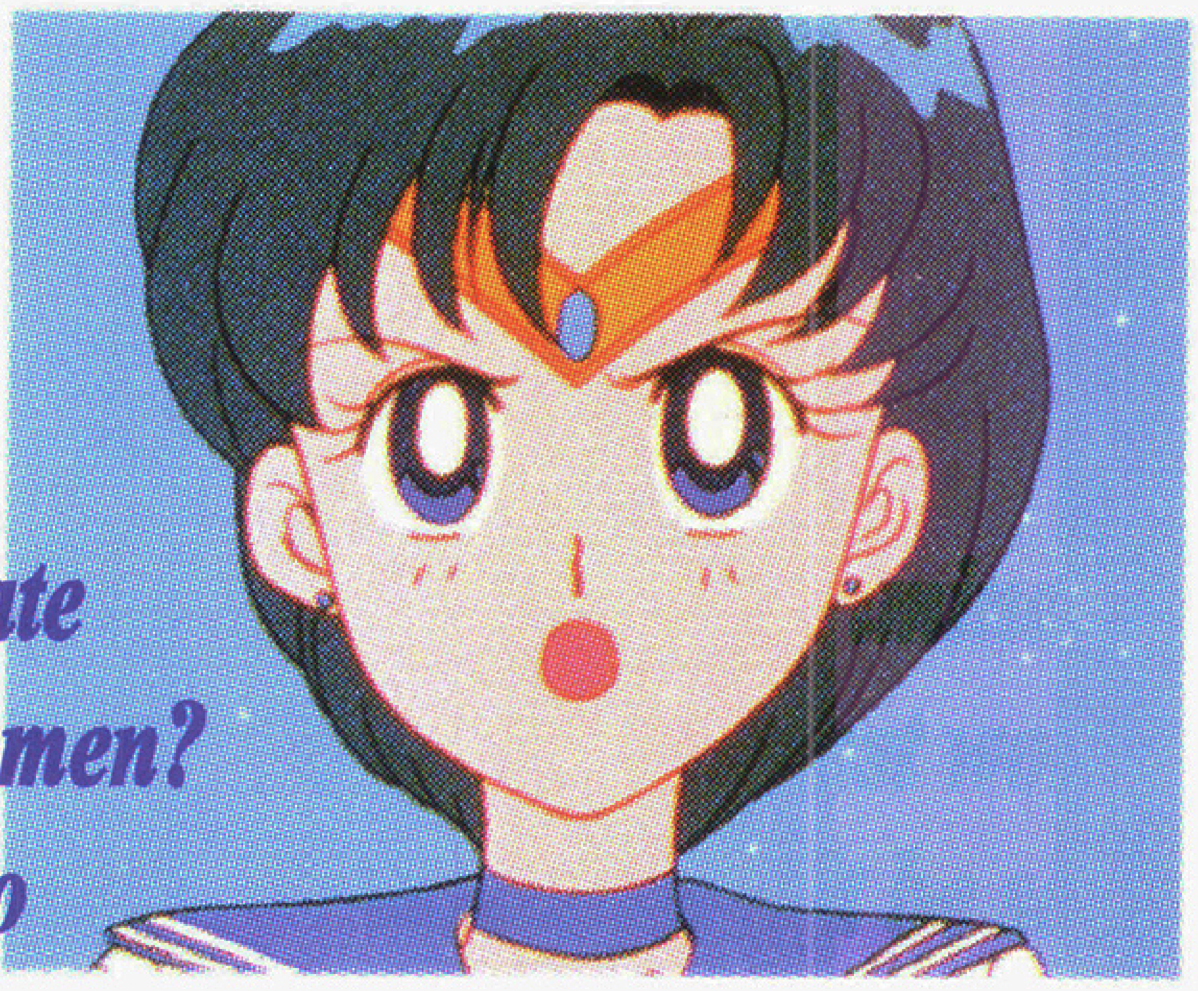
I'm usually shy, but when I say these words, I feel a hundred times more courageous.



***Learning is something you do yourself, not with the help of machines.***

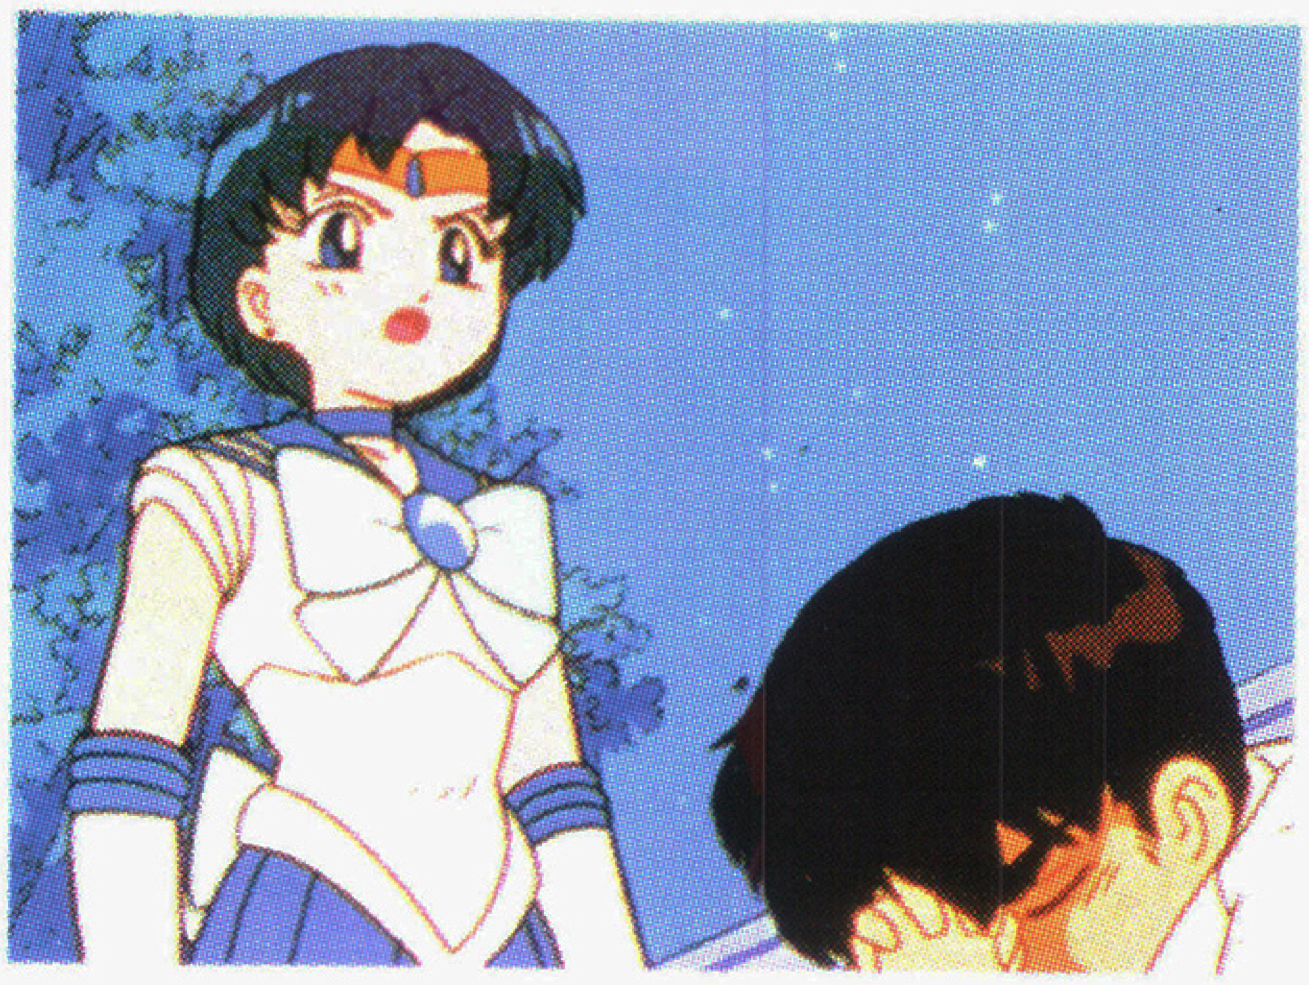
We teamed up against the treacherous Jedite. Sexual discrimination is so old-fashioned.

***We're going to be in the Ninth Grade next year!***



***Discriminate against women? Don't be so medieval!***

I used this line the first time I fought. I'll never forgive those who would try to exploit our academic energy.

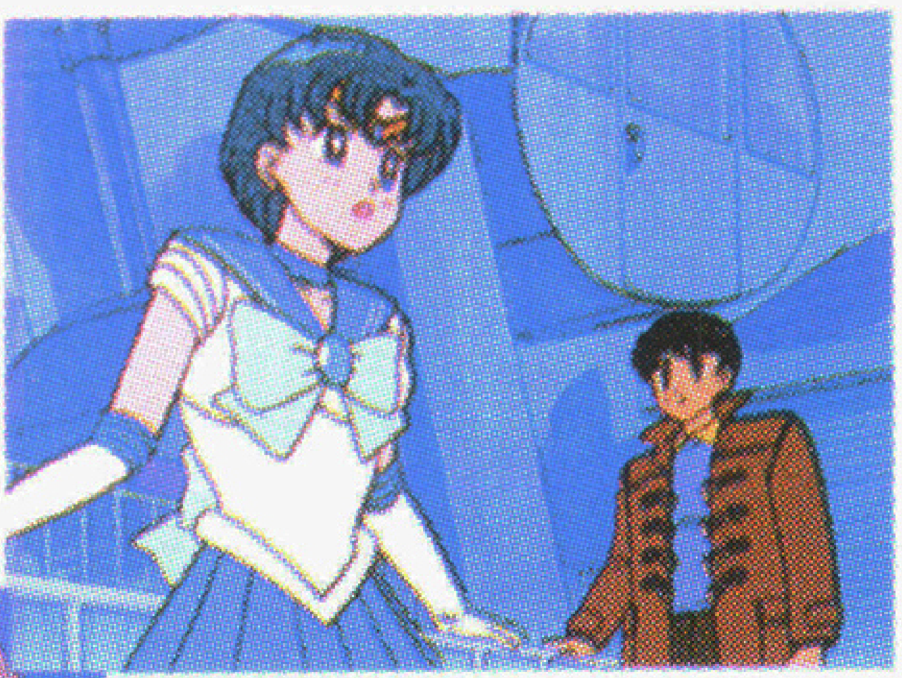


***The future is what you make of it. If you give up, that's what you get.***

Greg had given up on the future. But with these words, he found the courage to protect us. I was really happy!

Raye's so happy-go-lucky. You've gotta get serious.

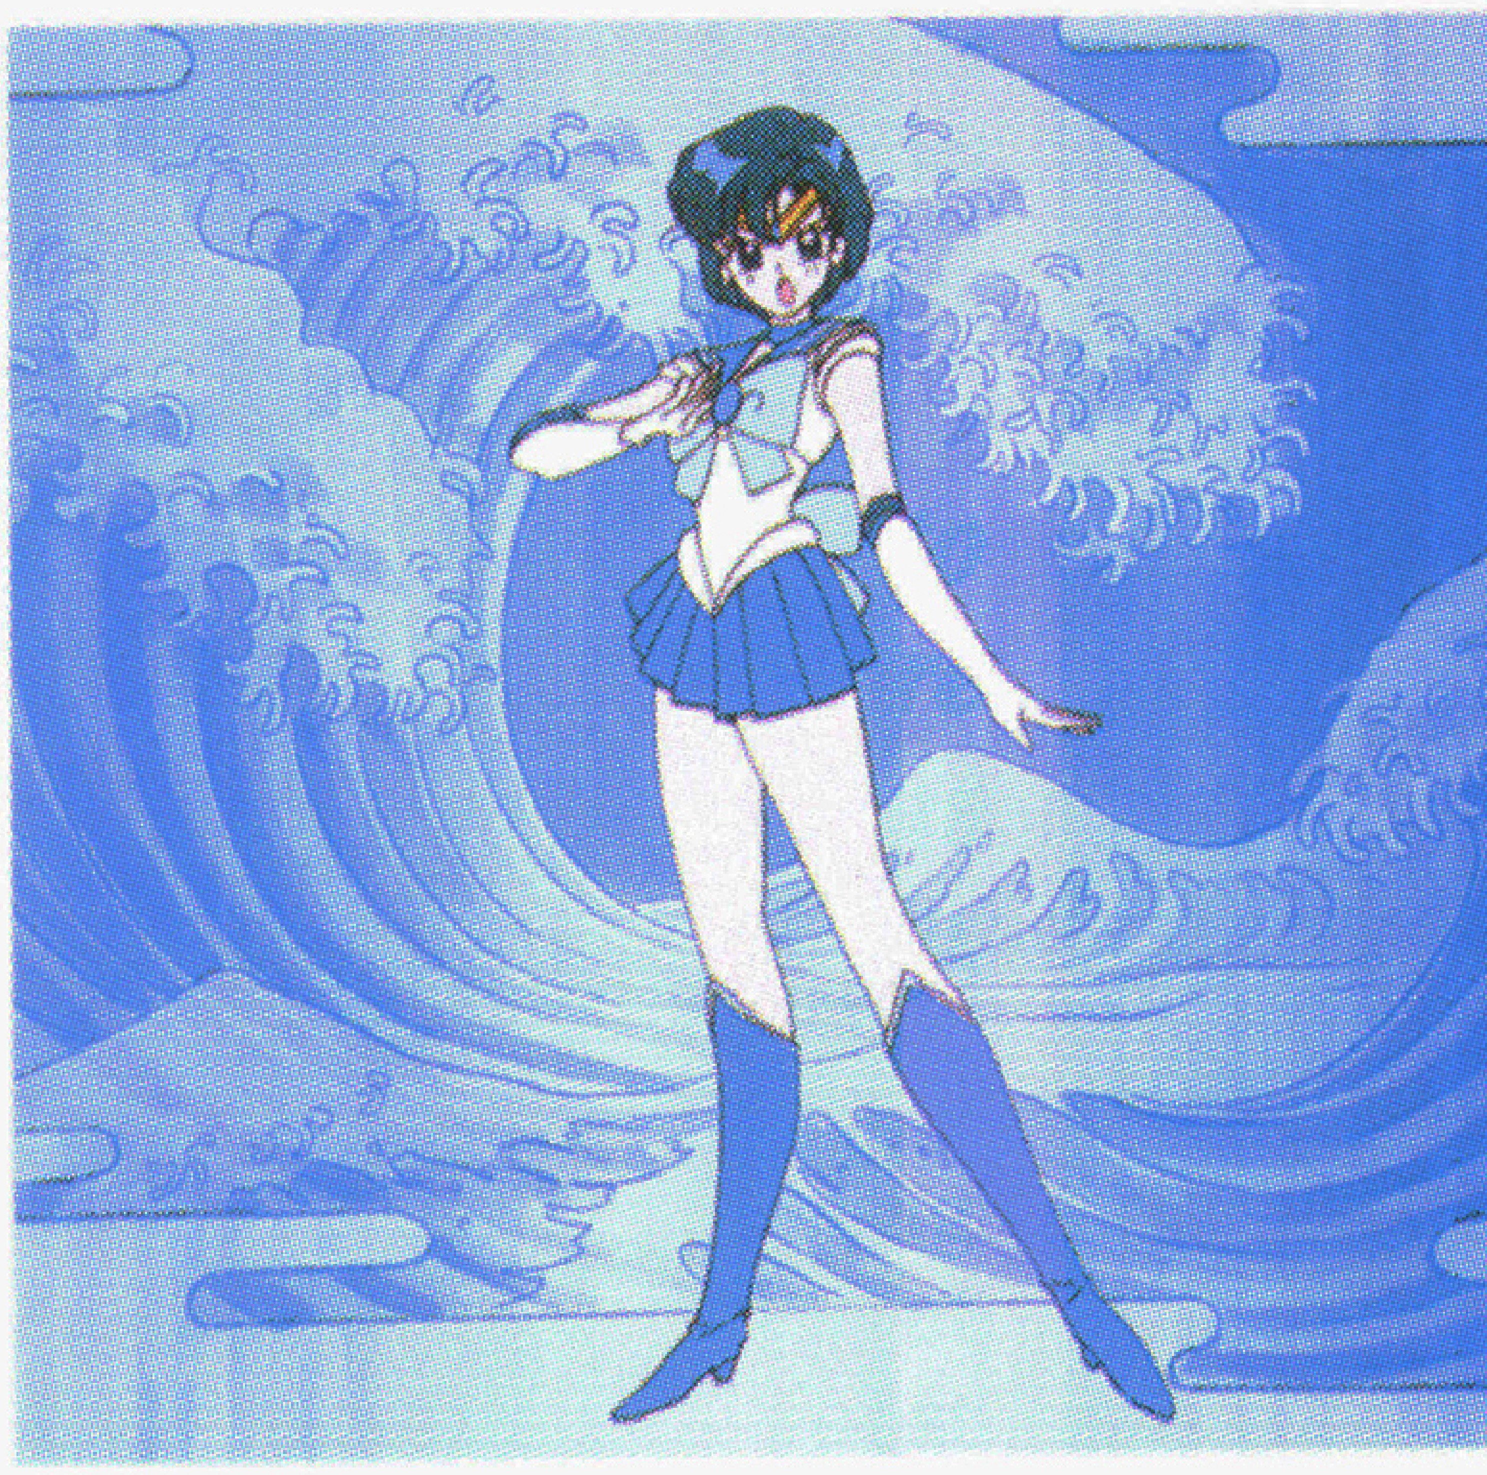
***I guess we're testing our limits...***



***Sacrifice is noble. But in your heart, don't you want to continue living?***

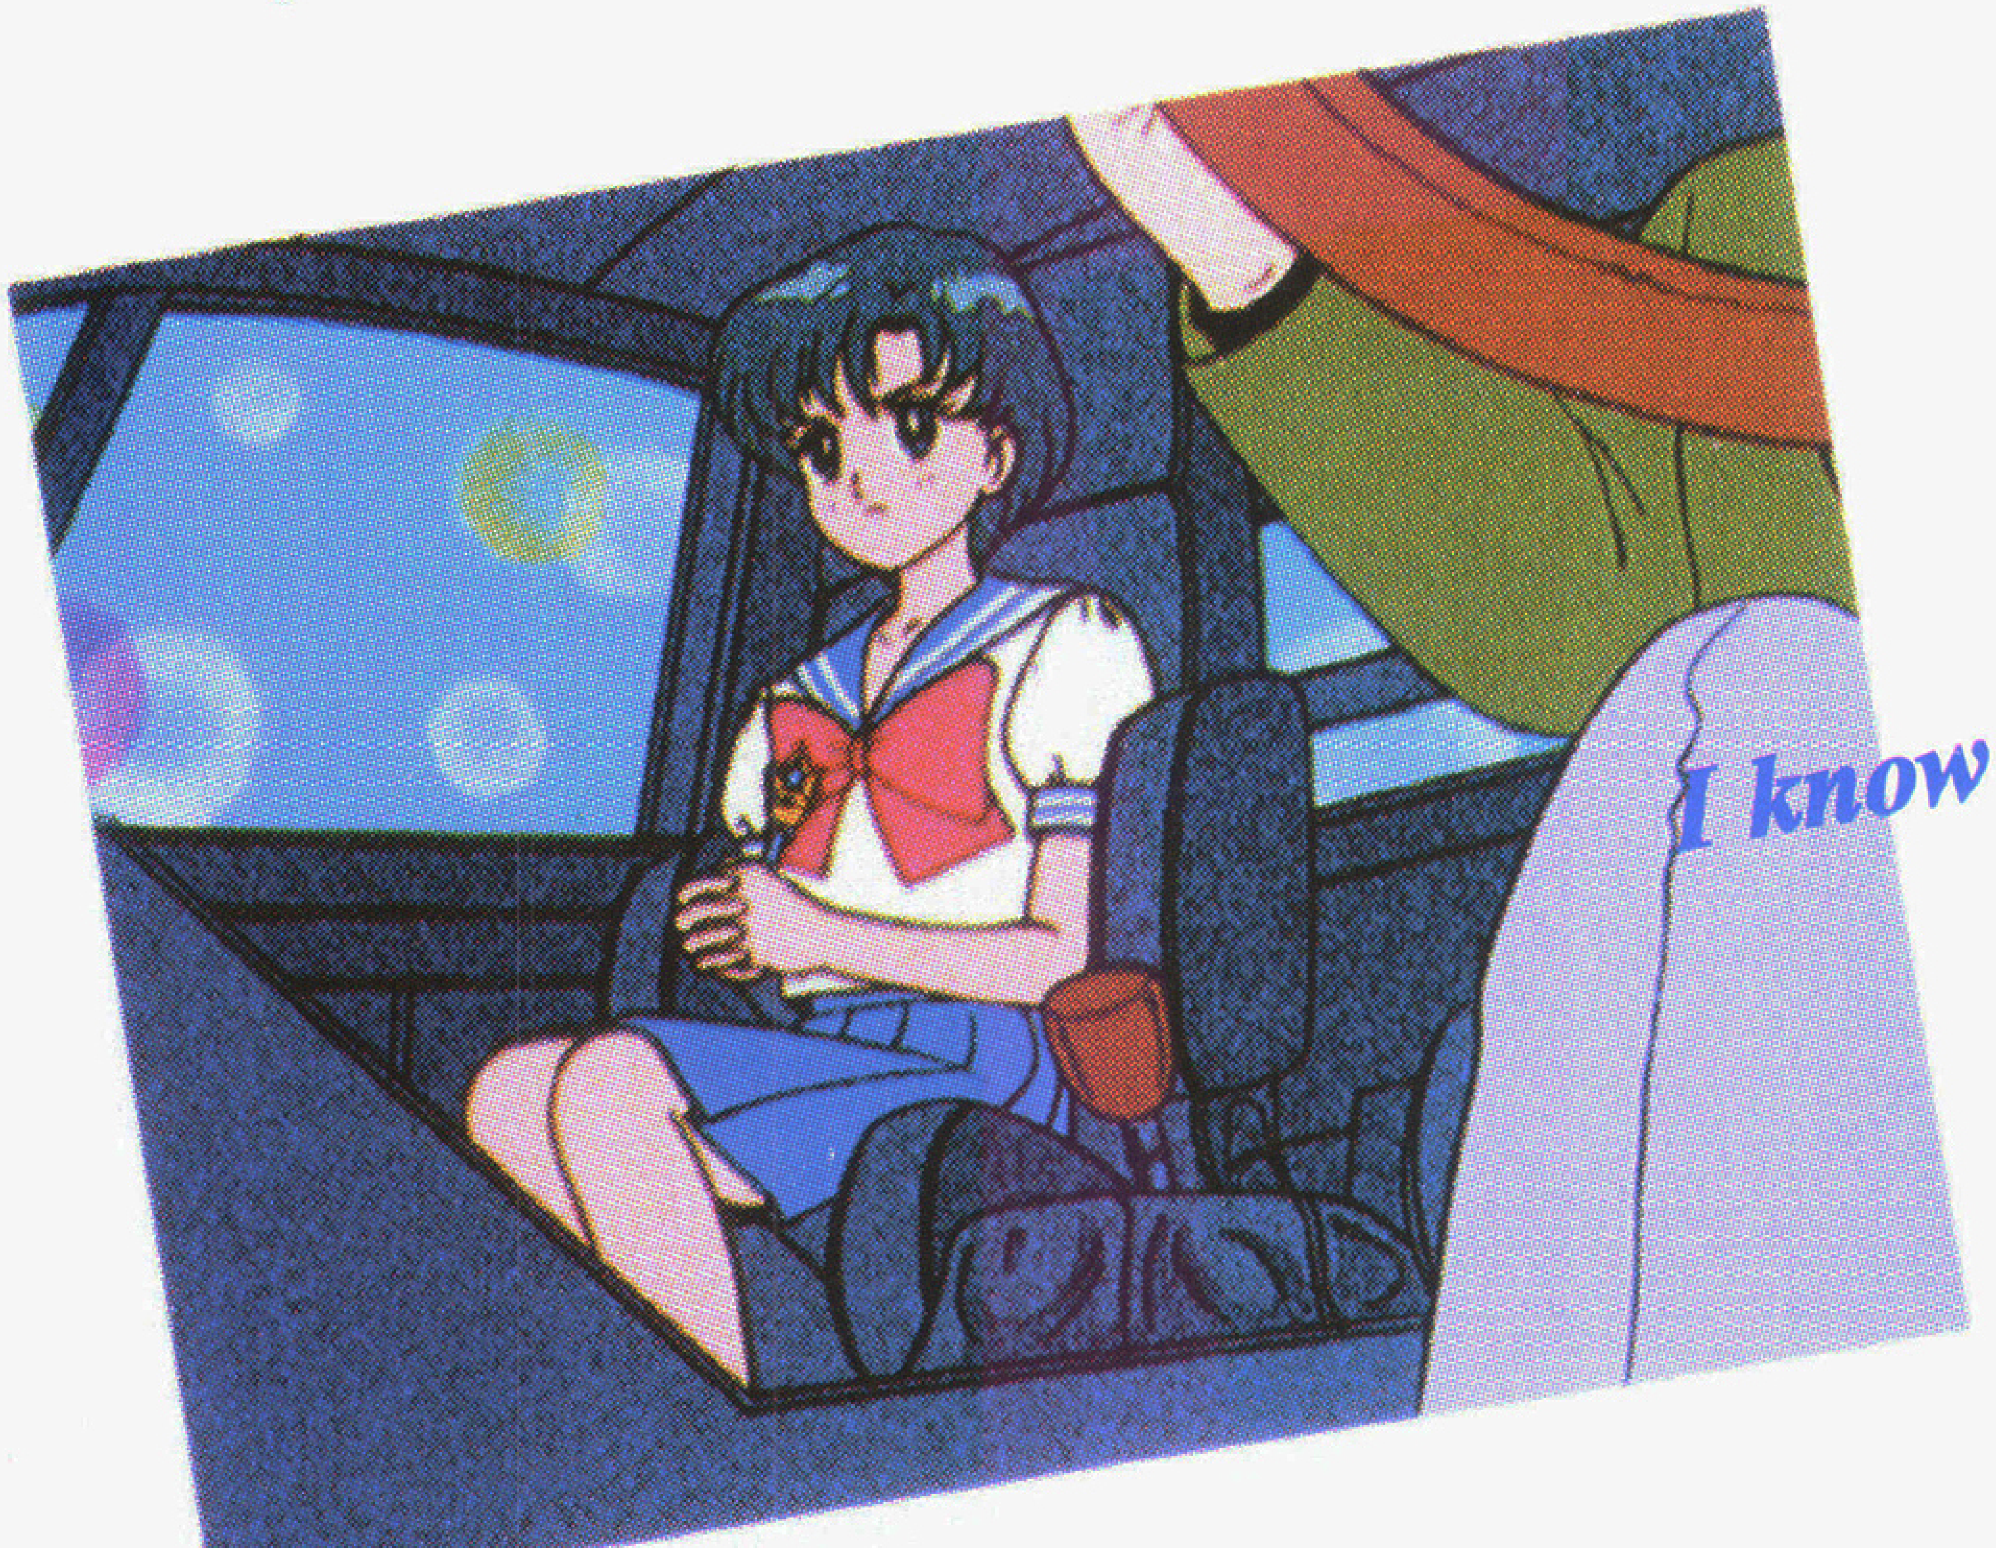
Nothing is gained by running away. You have to face your own fears first.

This was during the ultimate battle against the Negaverse. I fought harder than I've ever fought before.



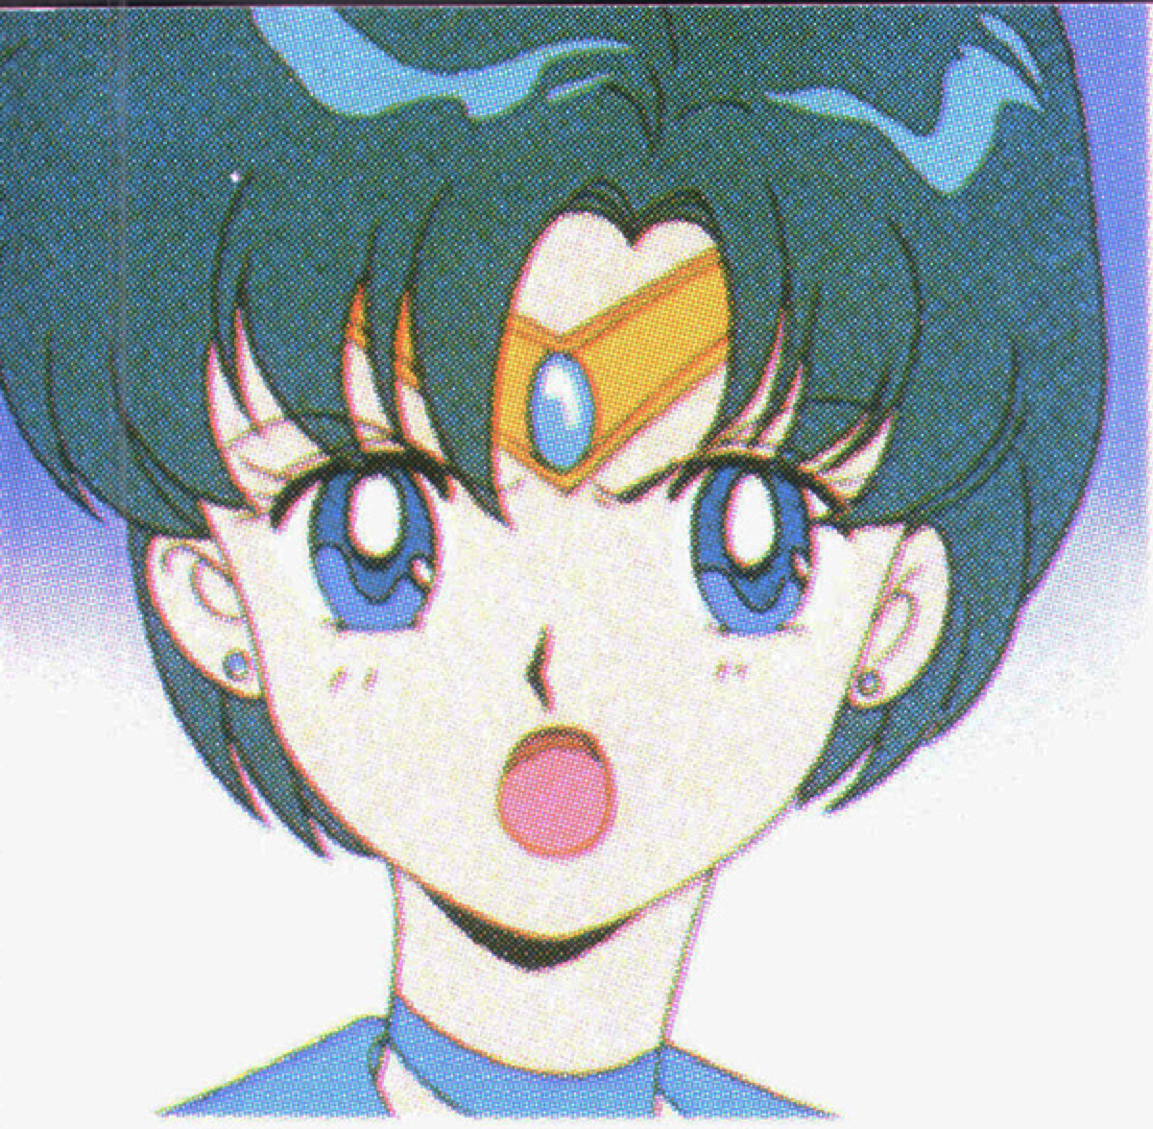
***I always study my textbooks to excel in school. The top score in the National Trial Exams belong to, the one and only, Sailor Mercury!***

It was when we were performing onstage, so I was a bit dramatic. But still I think I made it pretty cool. What do you think?



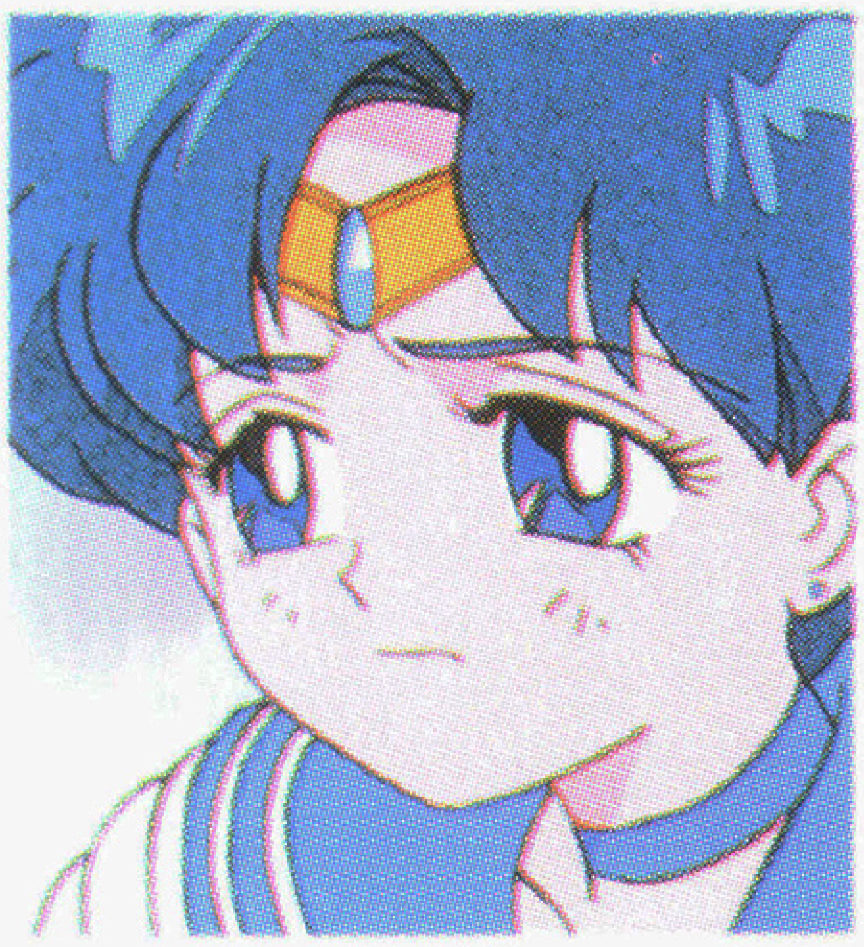
***I know what to say. I am Sailor Mercury!***

Somehow, I knew just what to say when I first held the transformation pen. I felt strongly that it was my destiny.



***You'll never understand the trust and bond we share!***

Mistrust's Hallucination Pulse isn't enough to destroy the Sailor Team's friendship!

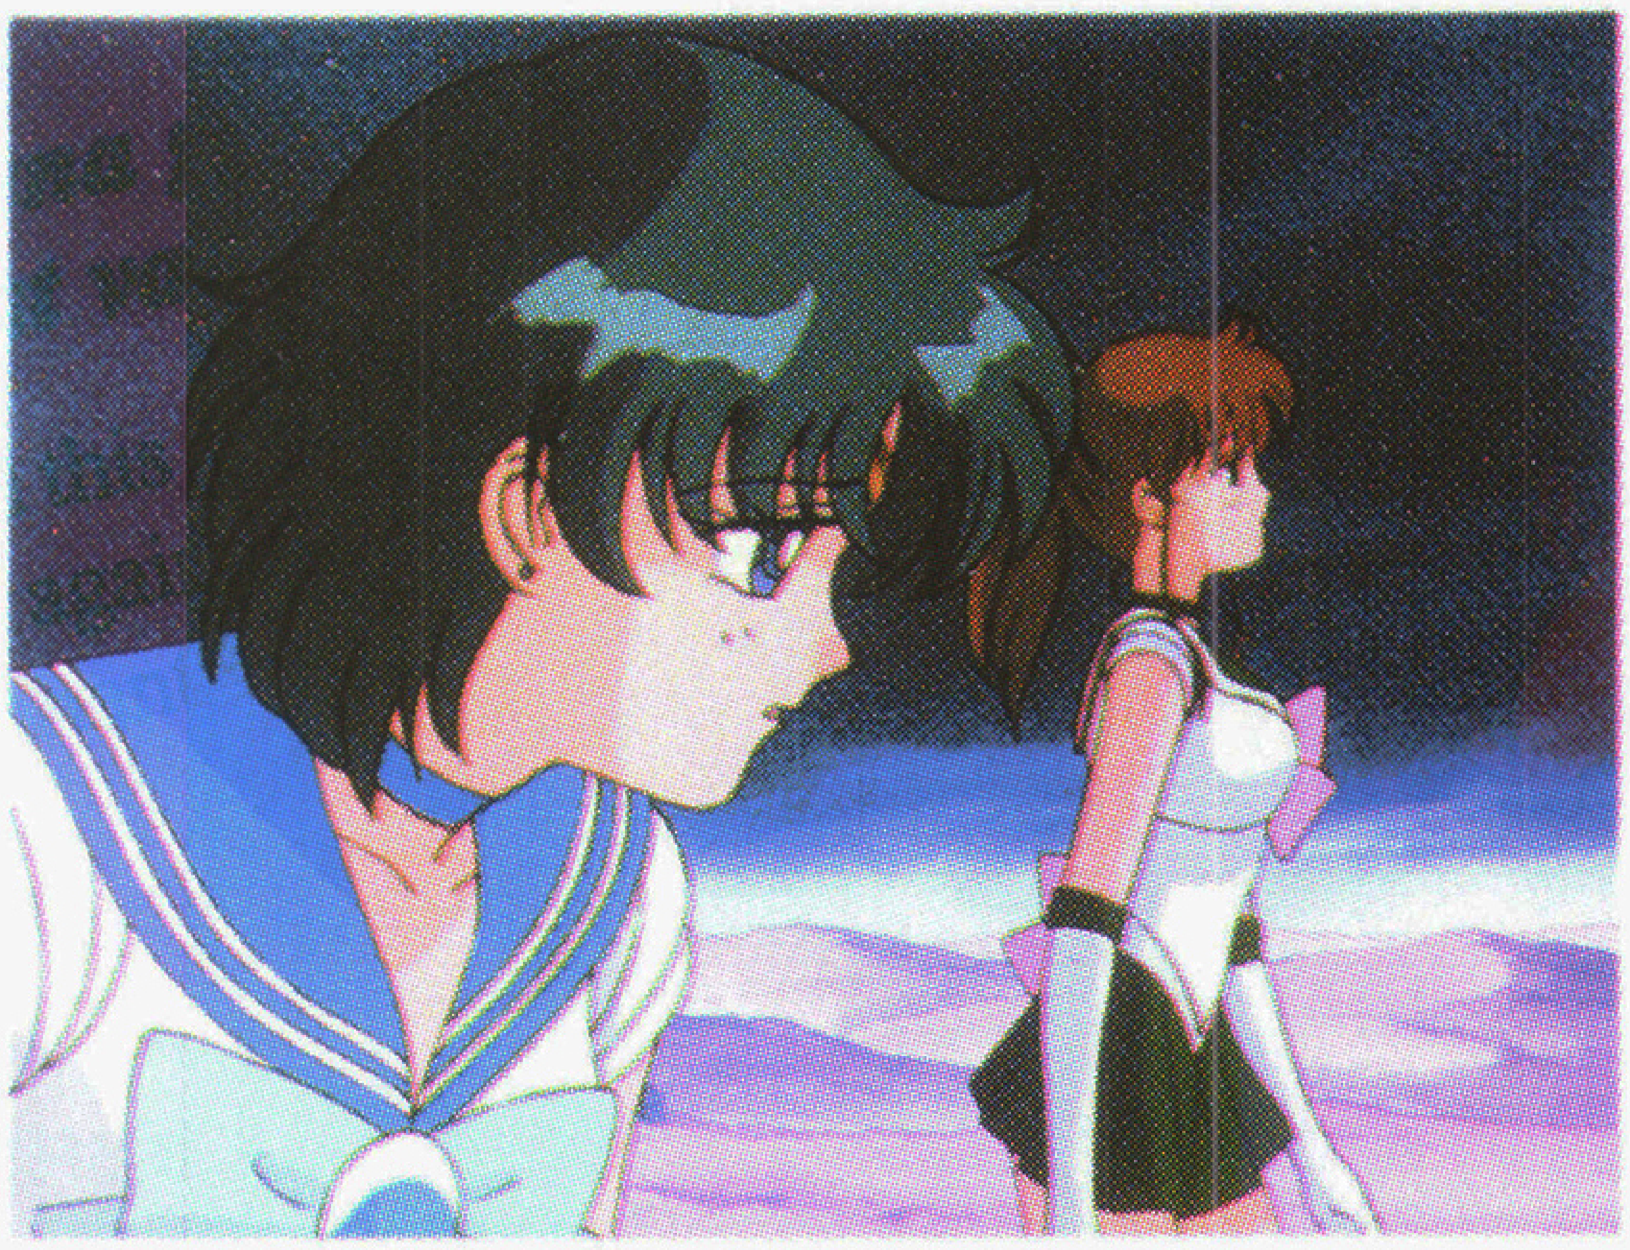


***They're not strangers, they're your friends. Even if you have to risk your life, you must protect your friends!***

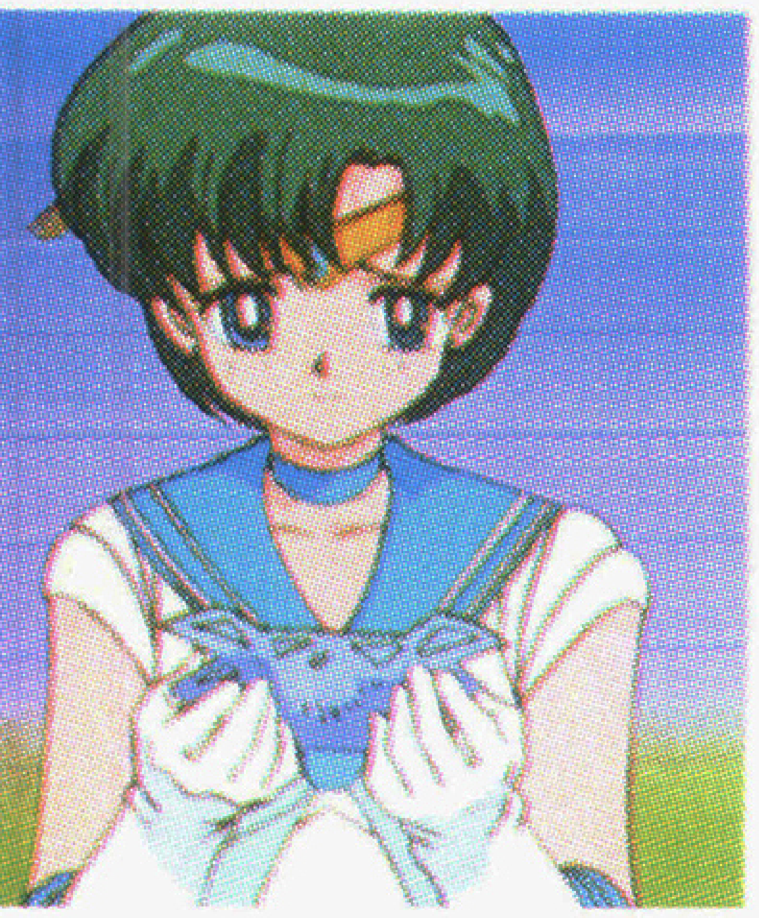
Seeing me risk my life for my friends, even Velchea had to open up her heart.

***Serena gave us the most valuable gift.***

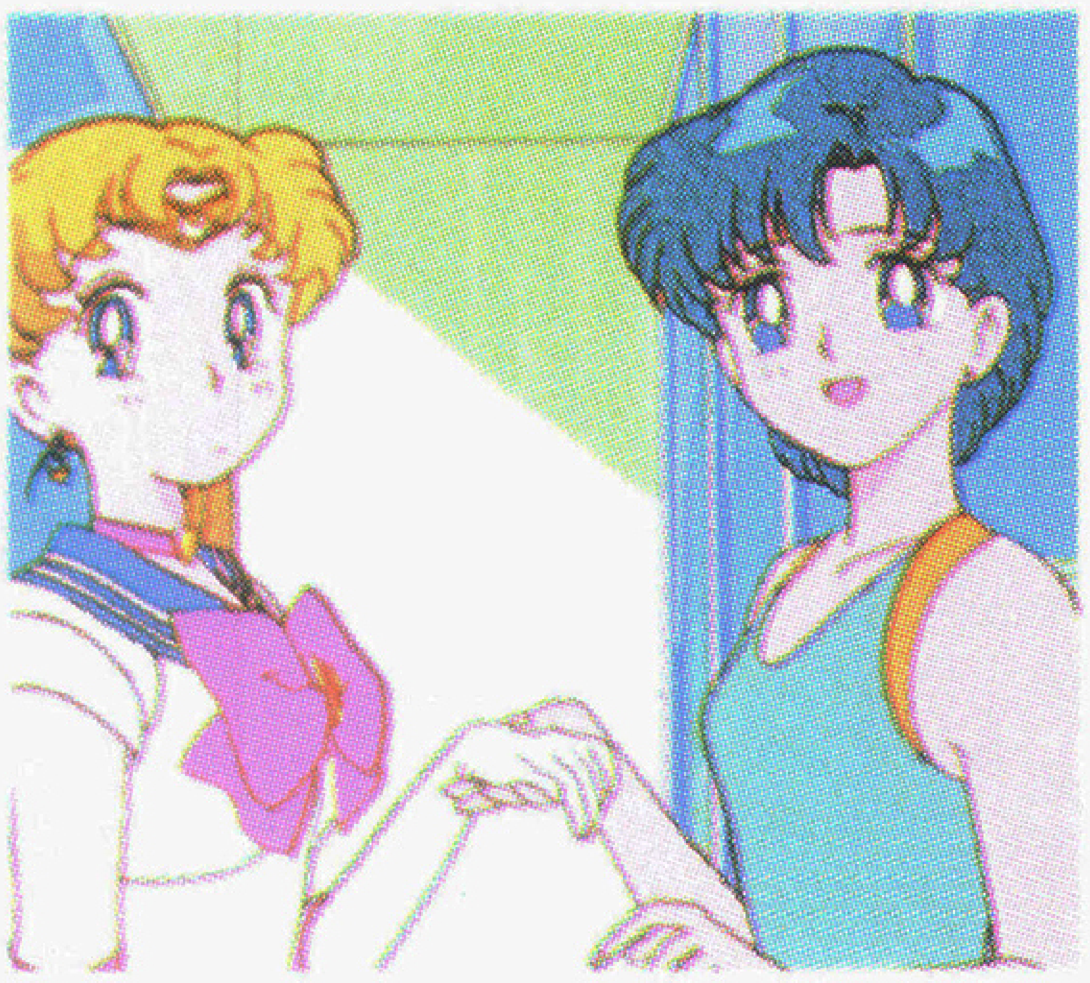
I realized this watching Sailor Moon struggle against Fiore. She was such an important person to us.



***You abandoned love to believe only in science. I pity you...***



If only Vilyui knew what love was, she could have avoided this tragedy...



***To hesitate is to quit. Never run away!***

I had always avoided confrontation. But I realized that it was sometimes important.

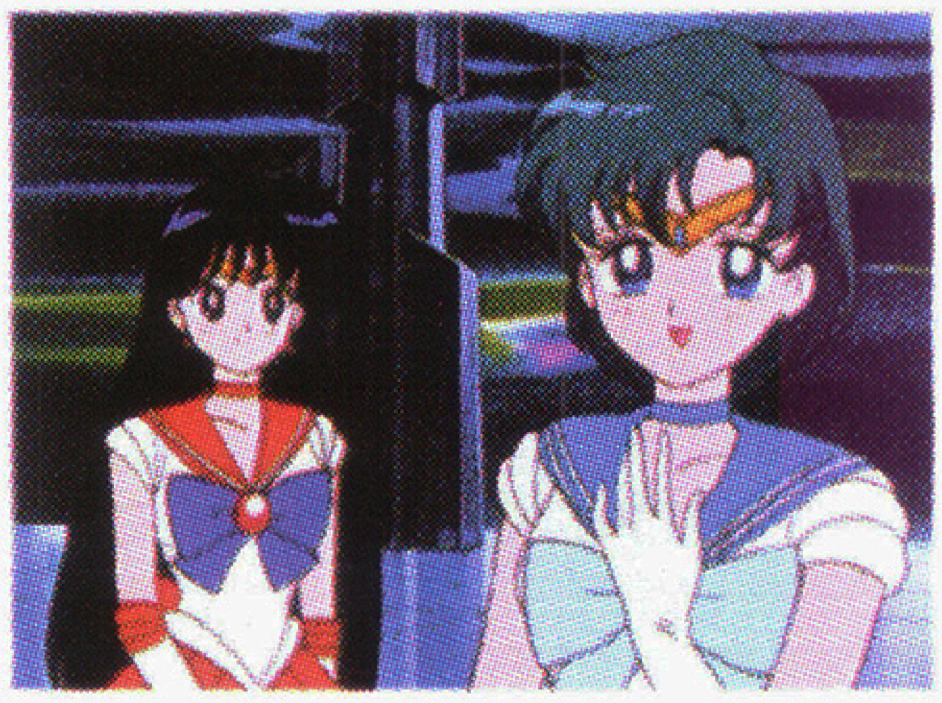
# Amy's Friends

***Since becoming a Sailor Scout, I've made so many friends. Now I'll introduce them to you!***

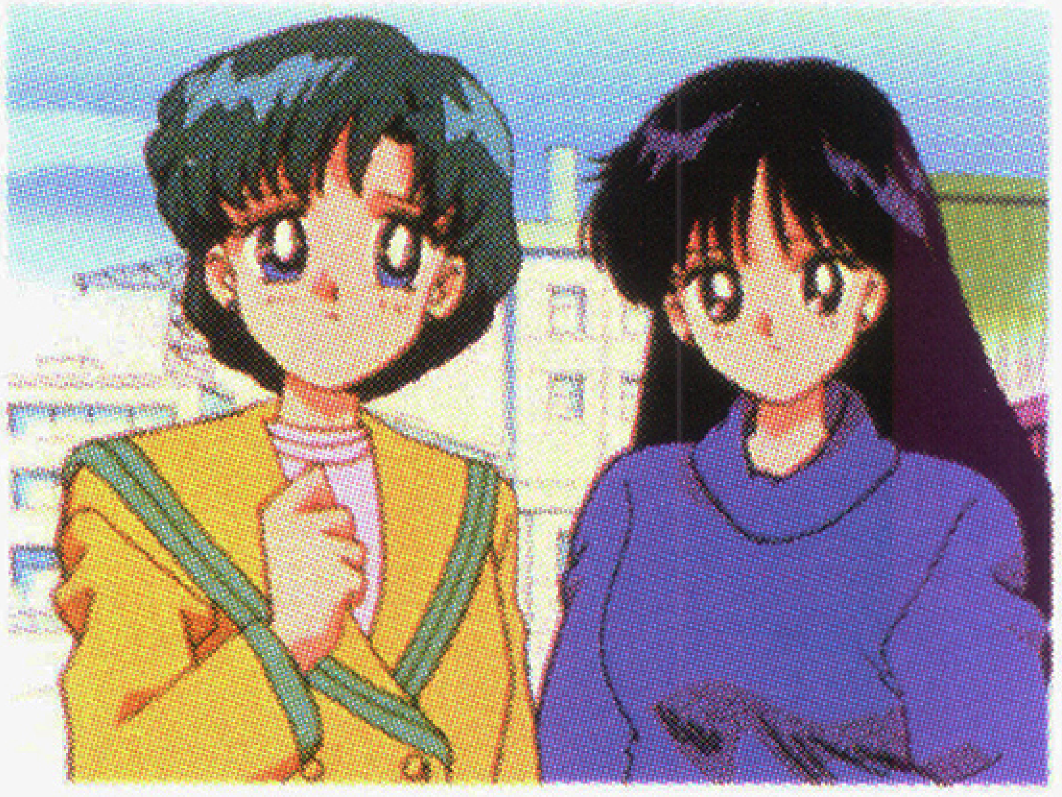
**Sailor Mercury Encyclopedia**

## The Sailor Scouts

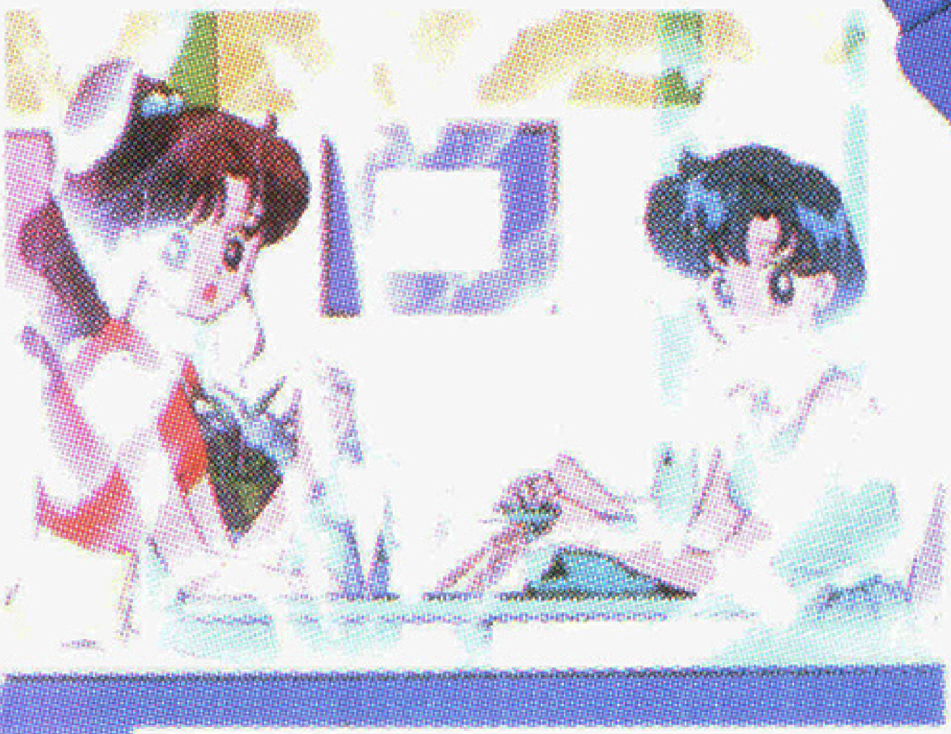
We are the four warriors who protect Princess Serenity, the Sailor Scouts! Of course we don't just fight evil together, we're good friends too!



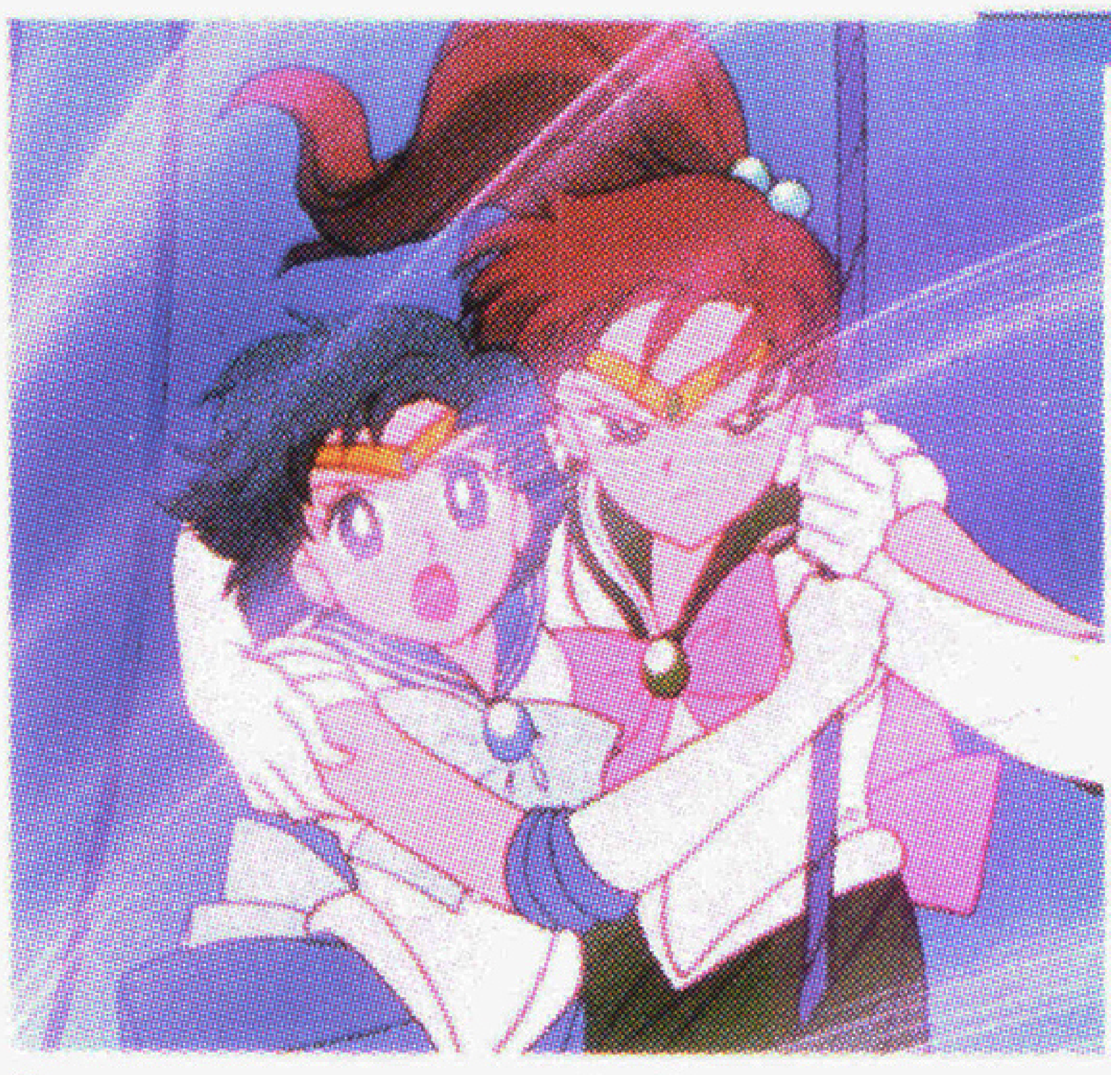
This is Raye Hino, who transforms into Sailor Mars. She has strong intuition!



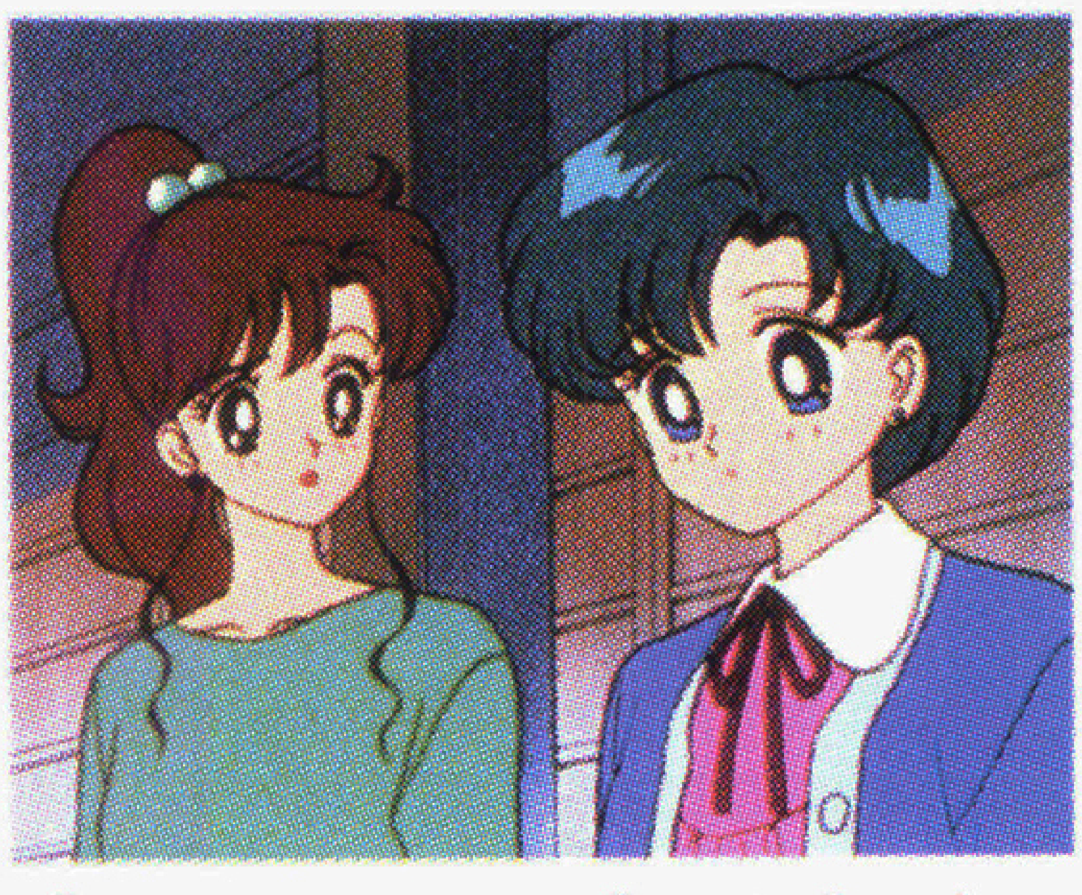
Raye's personality is the exact opposite of mine, very bold!



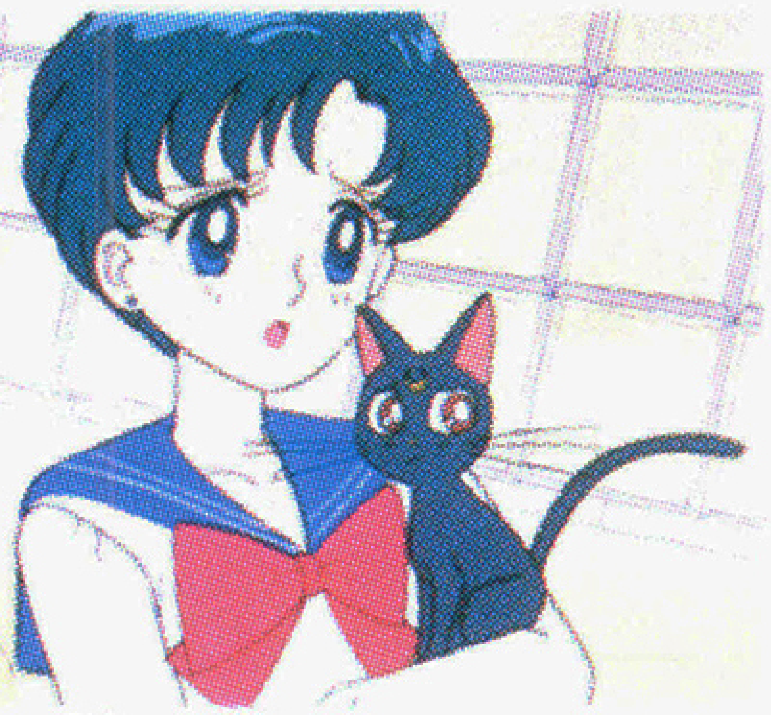
This is Lita Kino, who goes to the same school as I do. We often work together.



Lita turns into Sailor Jupiter. Sailor Jupiter is the strongest of the Sailor Team, so she often helps me out in a fight.



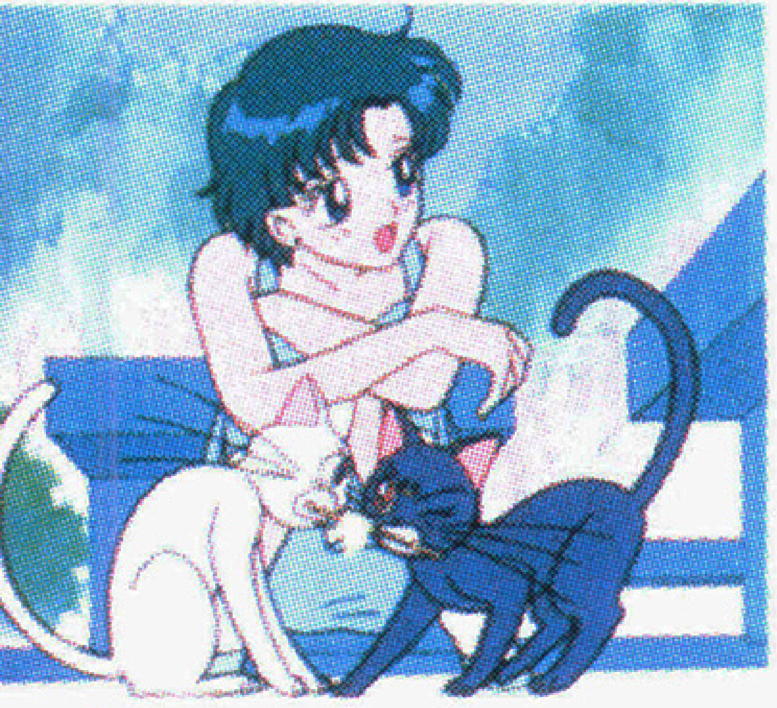
Lita acts as an advisor for the team.



Luna often spends time with me.

### Luna

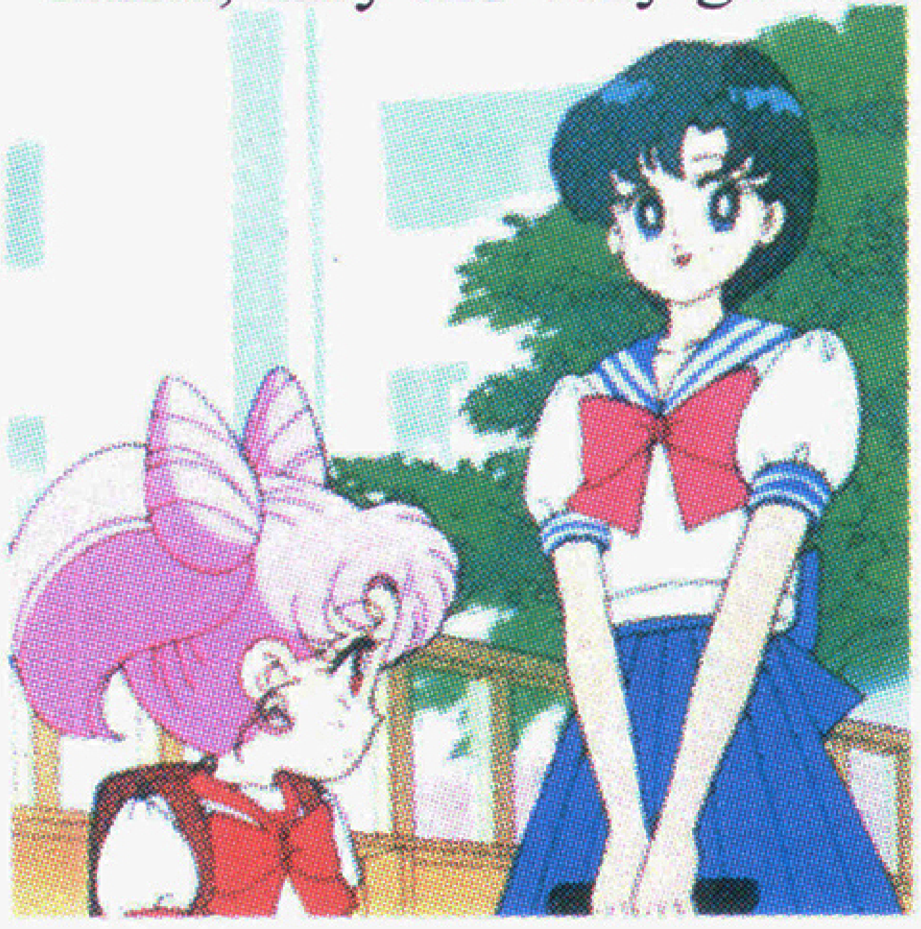
She lives as a pet at Serena's house, but she's really a messenger from the Moon Kingdom.



Like Luna, he came from the Moon Kingdom.

### Artemis

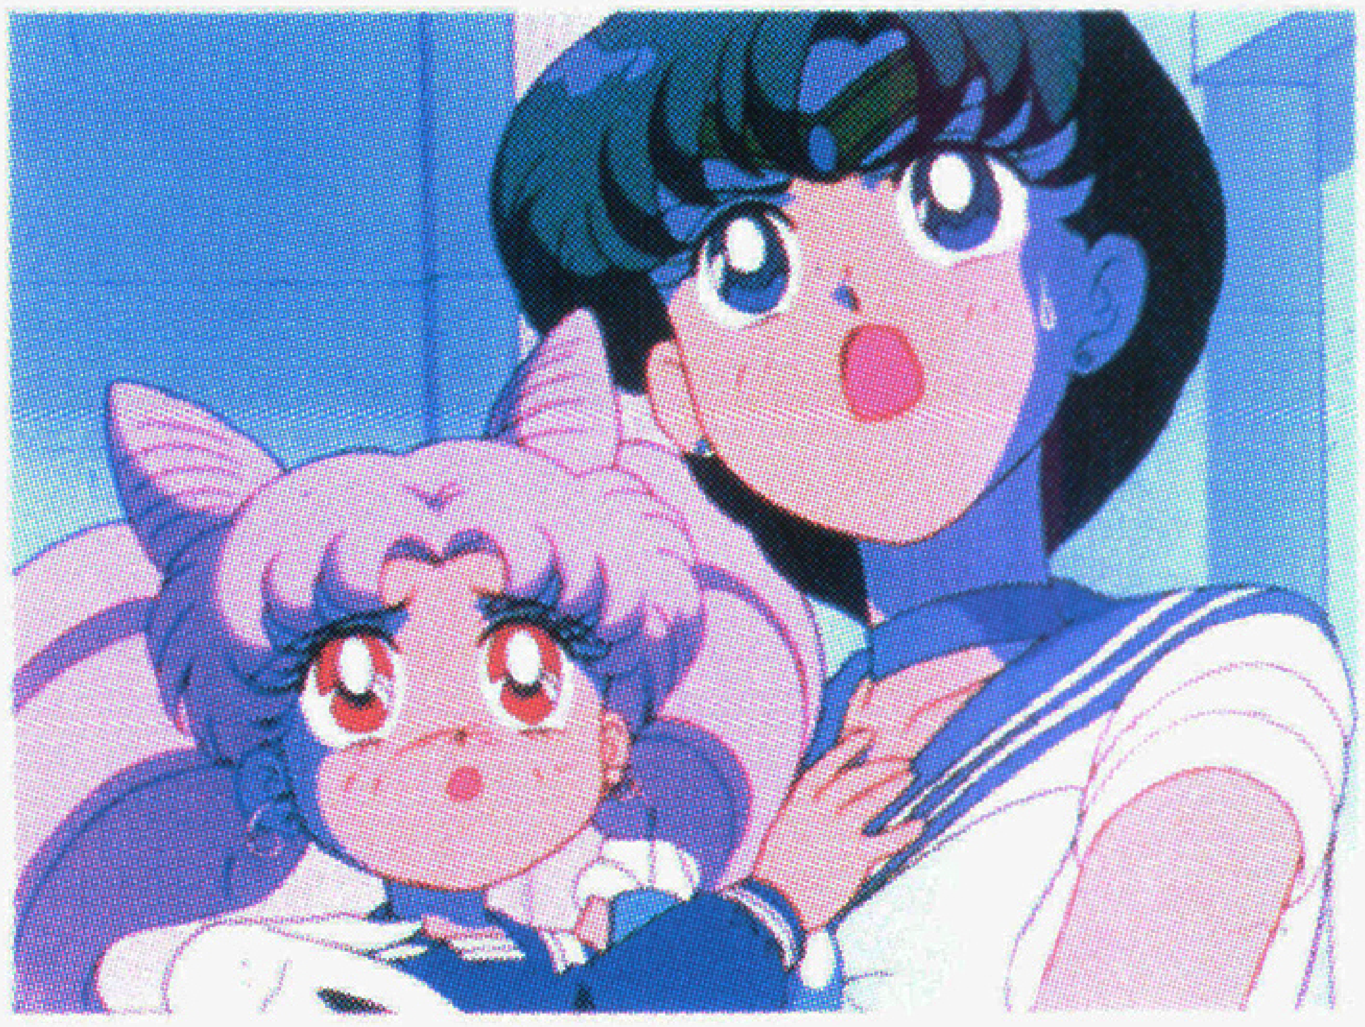
He is Mina's partner. Even though he argues a lot with Luna, they are very good friends.



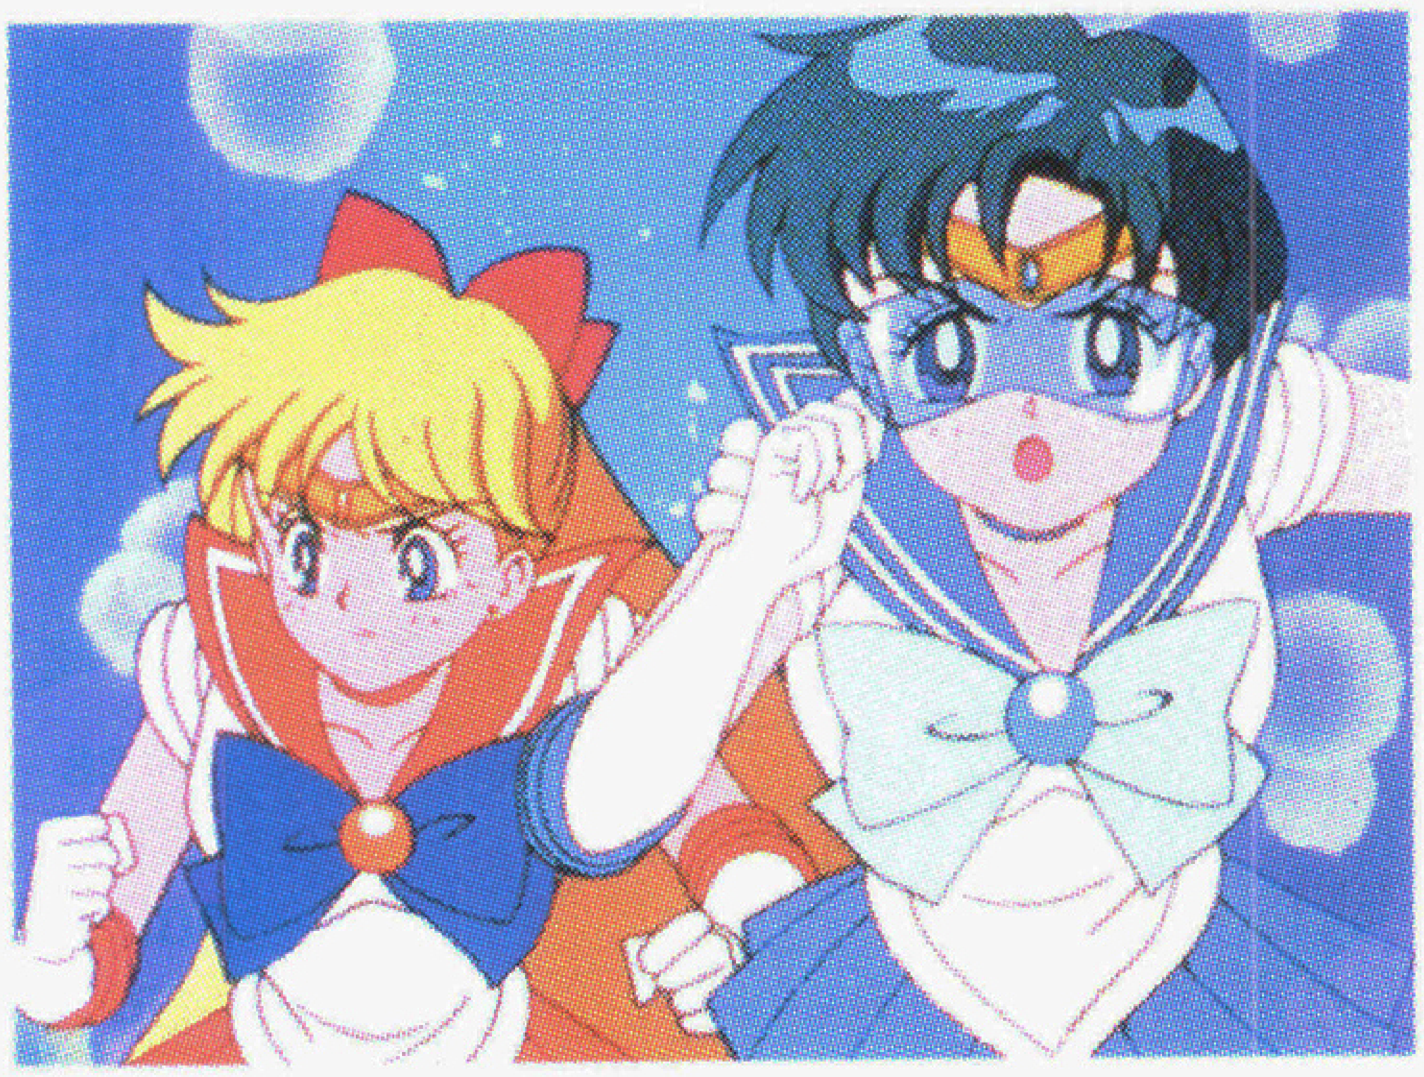
Rini came all by herself from the 30th Century to search for the Silver Crystal.

### Rini

Rini is a little girl who came to the present to try and save the Earth of the future. She's a Sailor Scout in training, and transforms into Sailor Chibi Moon.

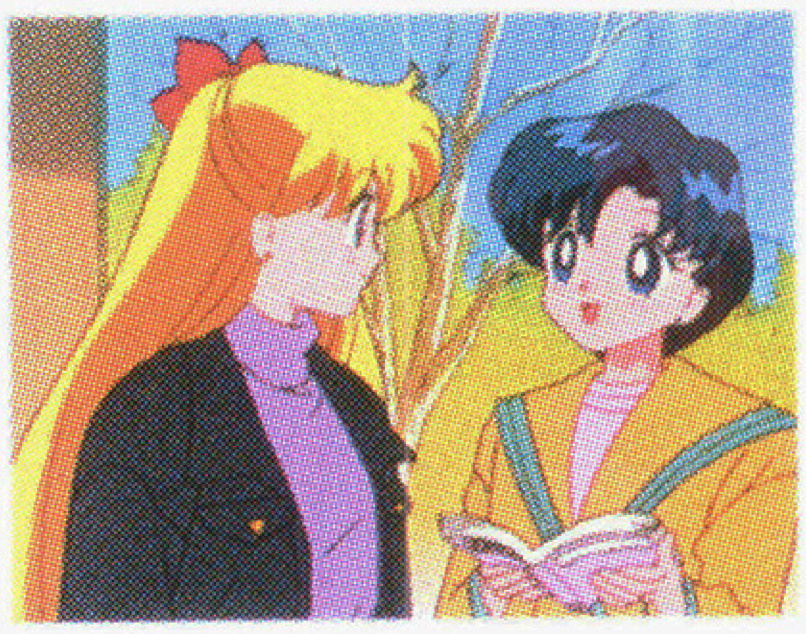


Rini is also called Small Lady because she's the future princess. She's often the target of the Negamoon.

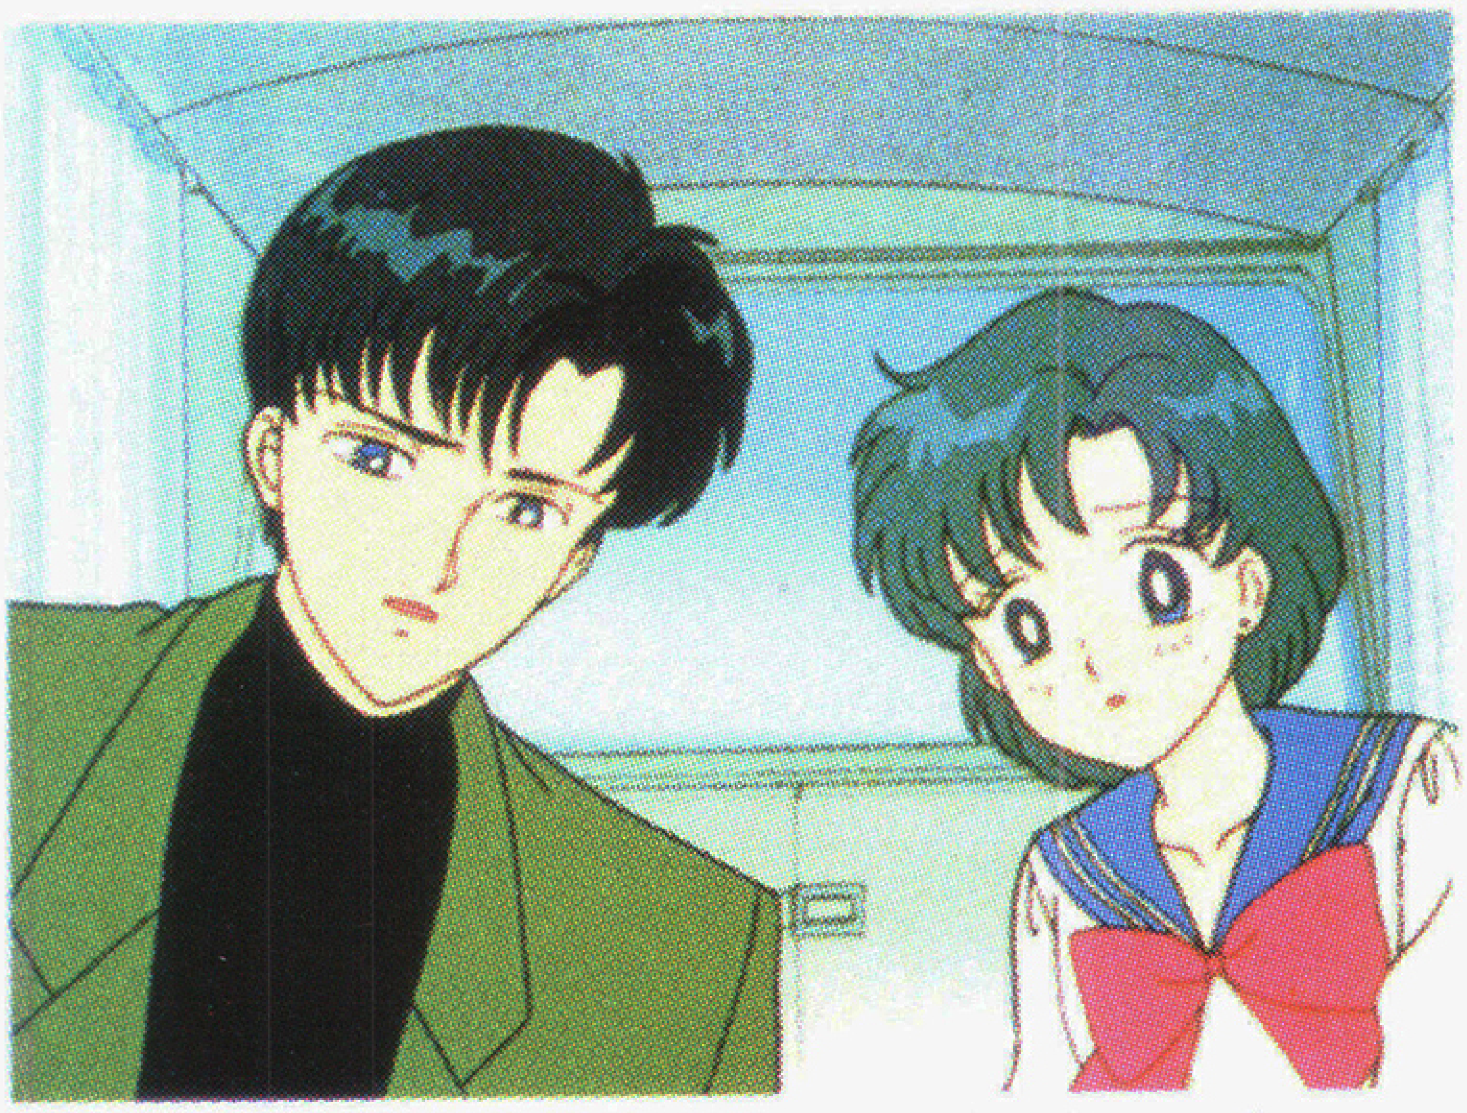


Sailor Venus is the leader of the Sailor Scouts under Sailor Moon.

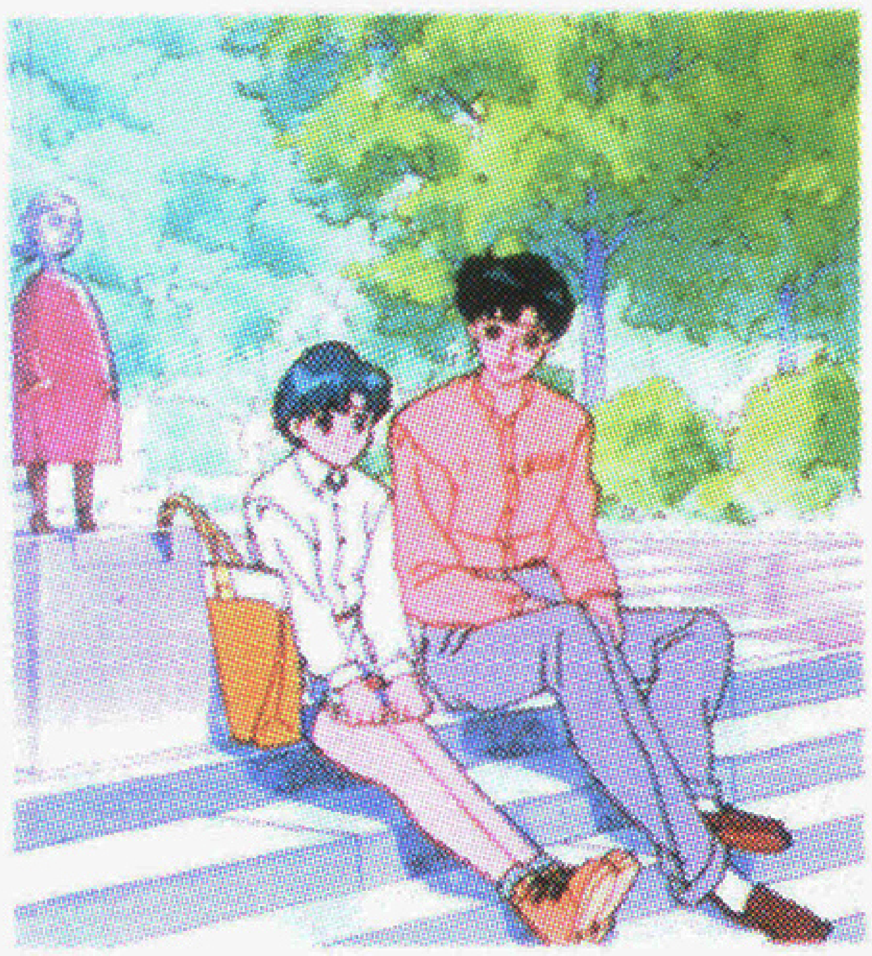
Mina was the first one of us to become a Sailor Scout.



Sometimes Mina doesn't know what she is talking about.



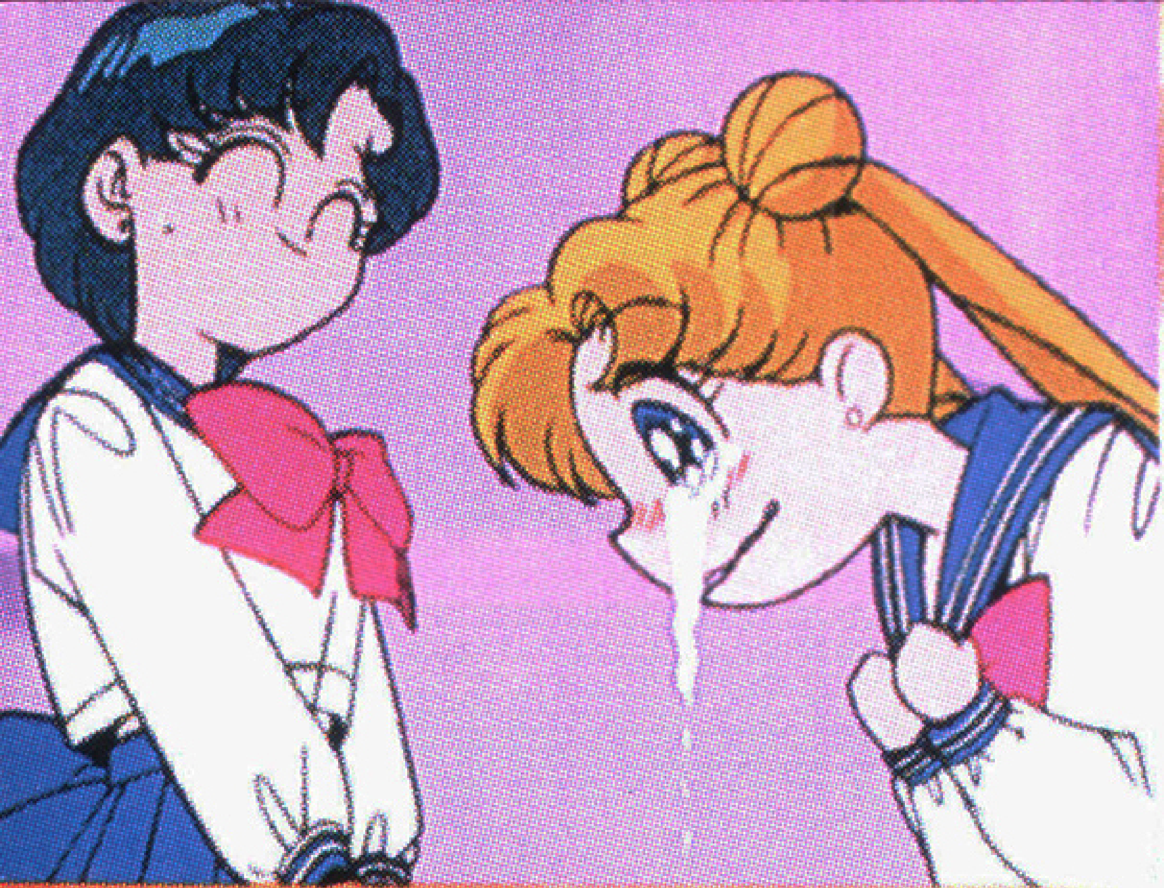
People say that Darien and I are both prodigies. Because we are both so serious, our opinions often match.



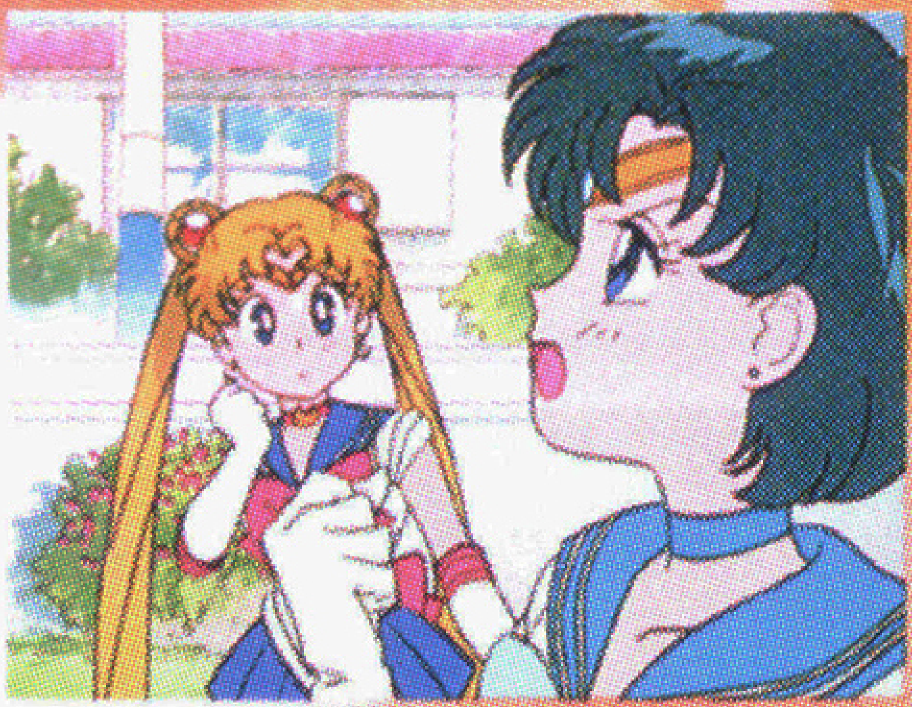
Darien cheers me up when I'm feeling down.

### Darien Shields

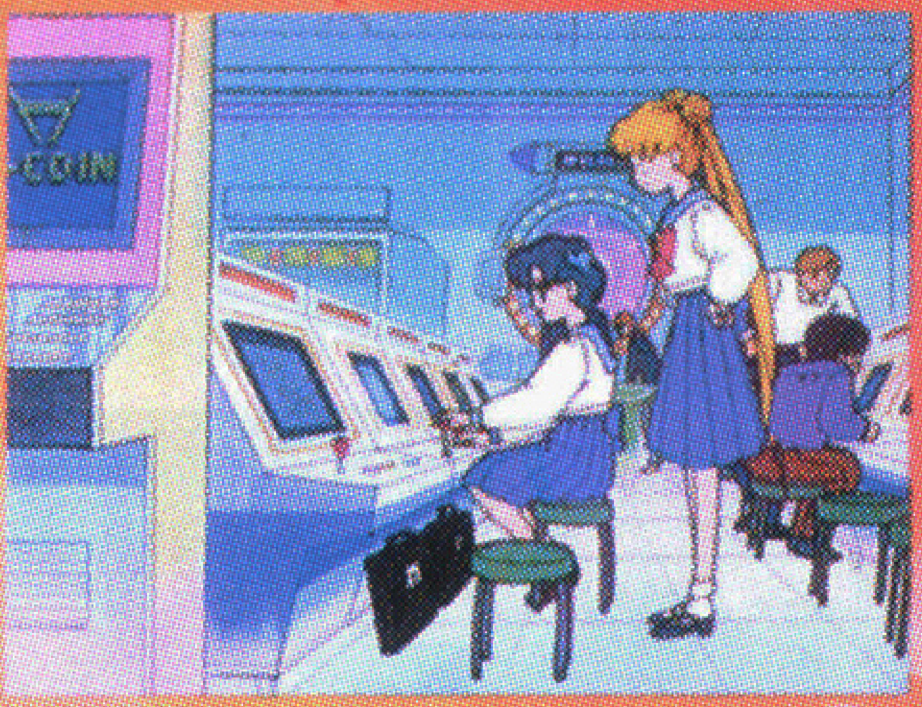
Darien is the man behind Tuxedo Mask! He is always helping us out when we're in trouble.



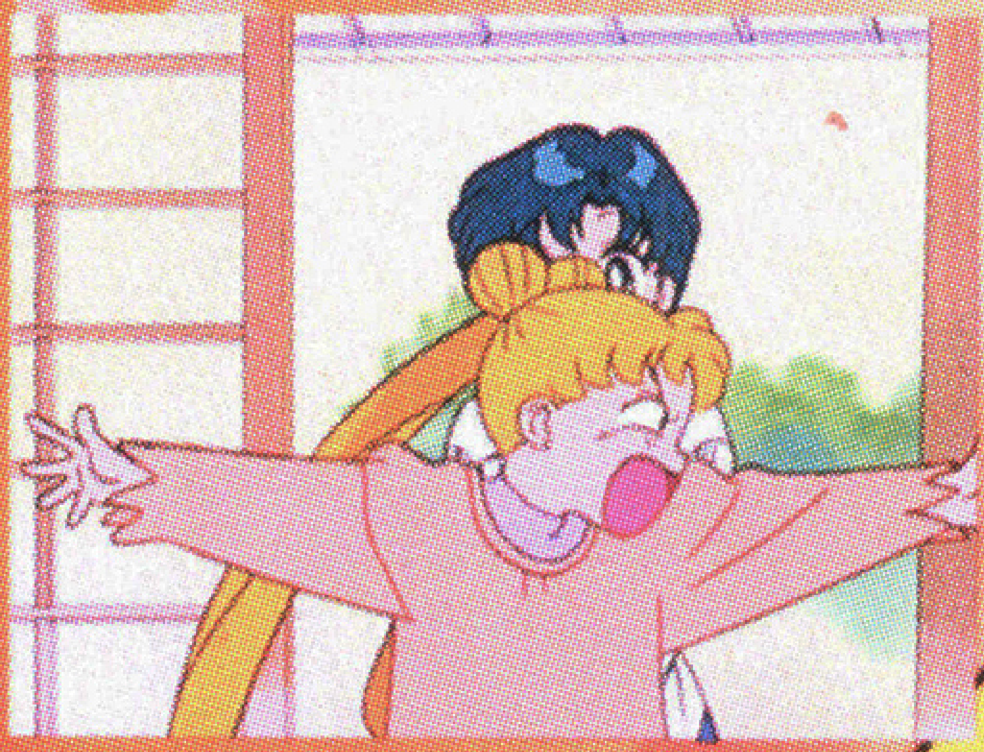
Sometimes Serena is just too much!



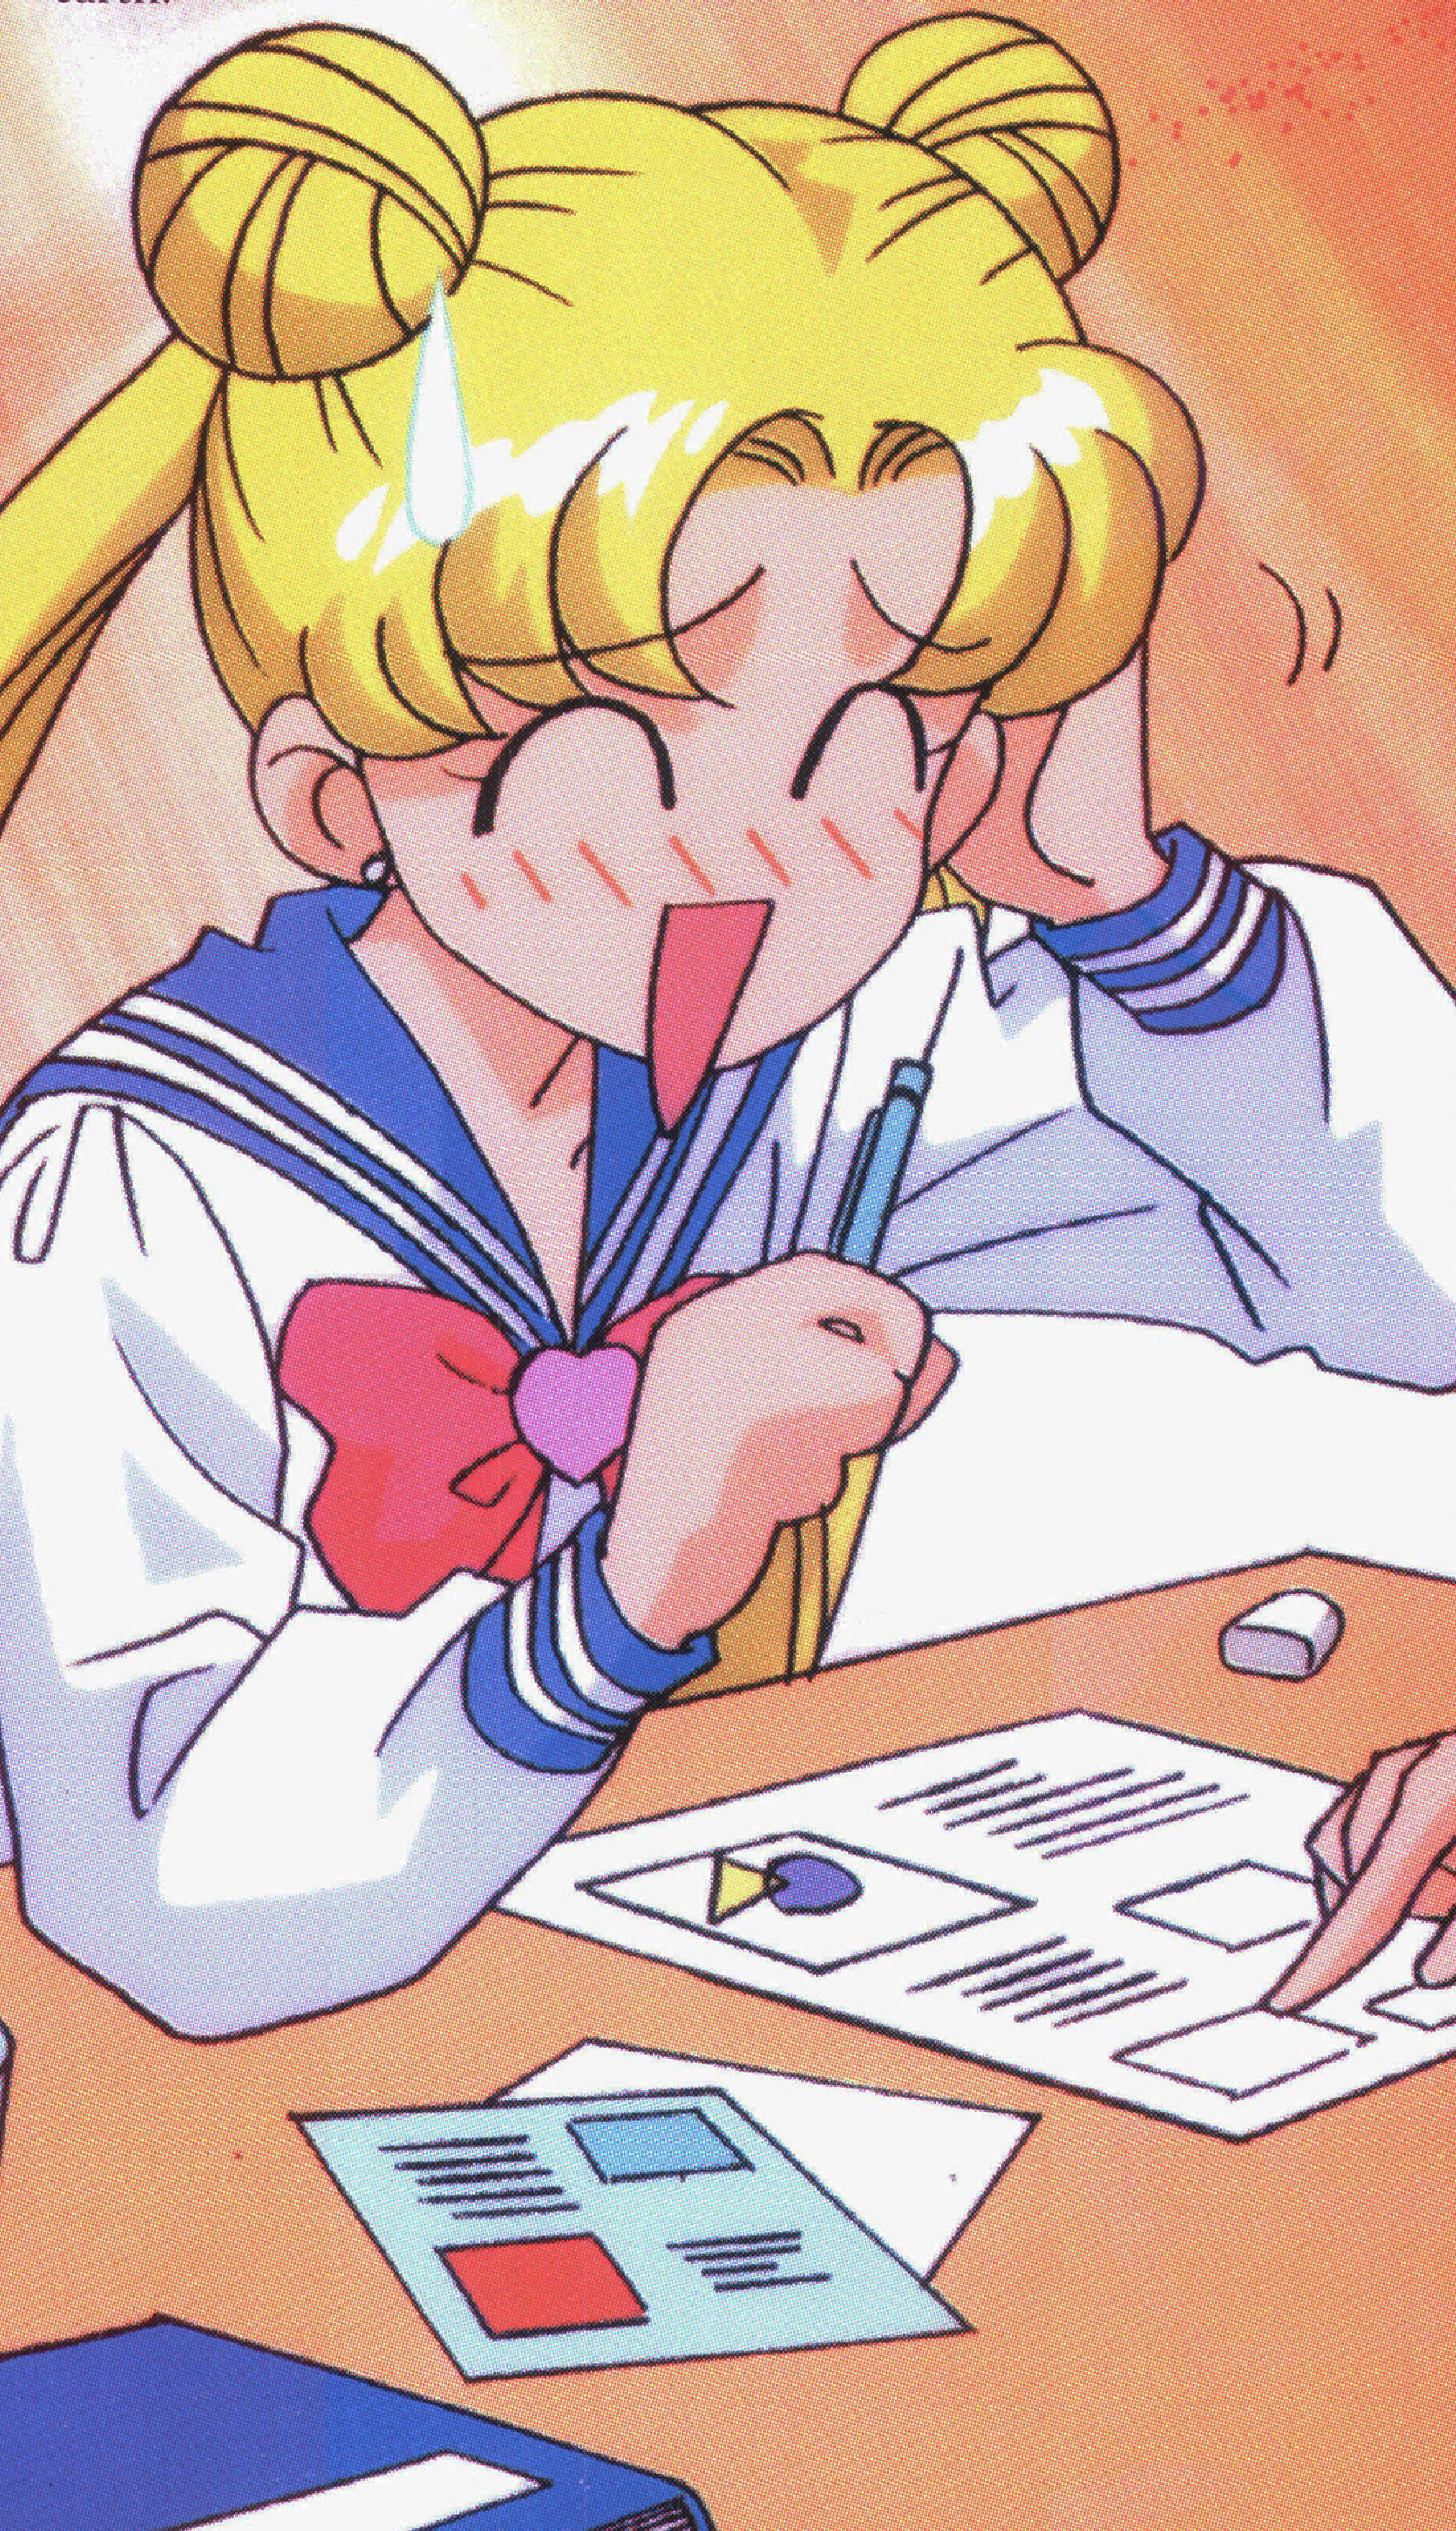
I often have to keep the scatterbrained Serena down to earth.

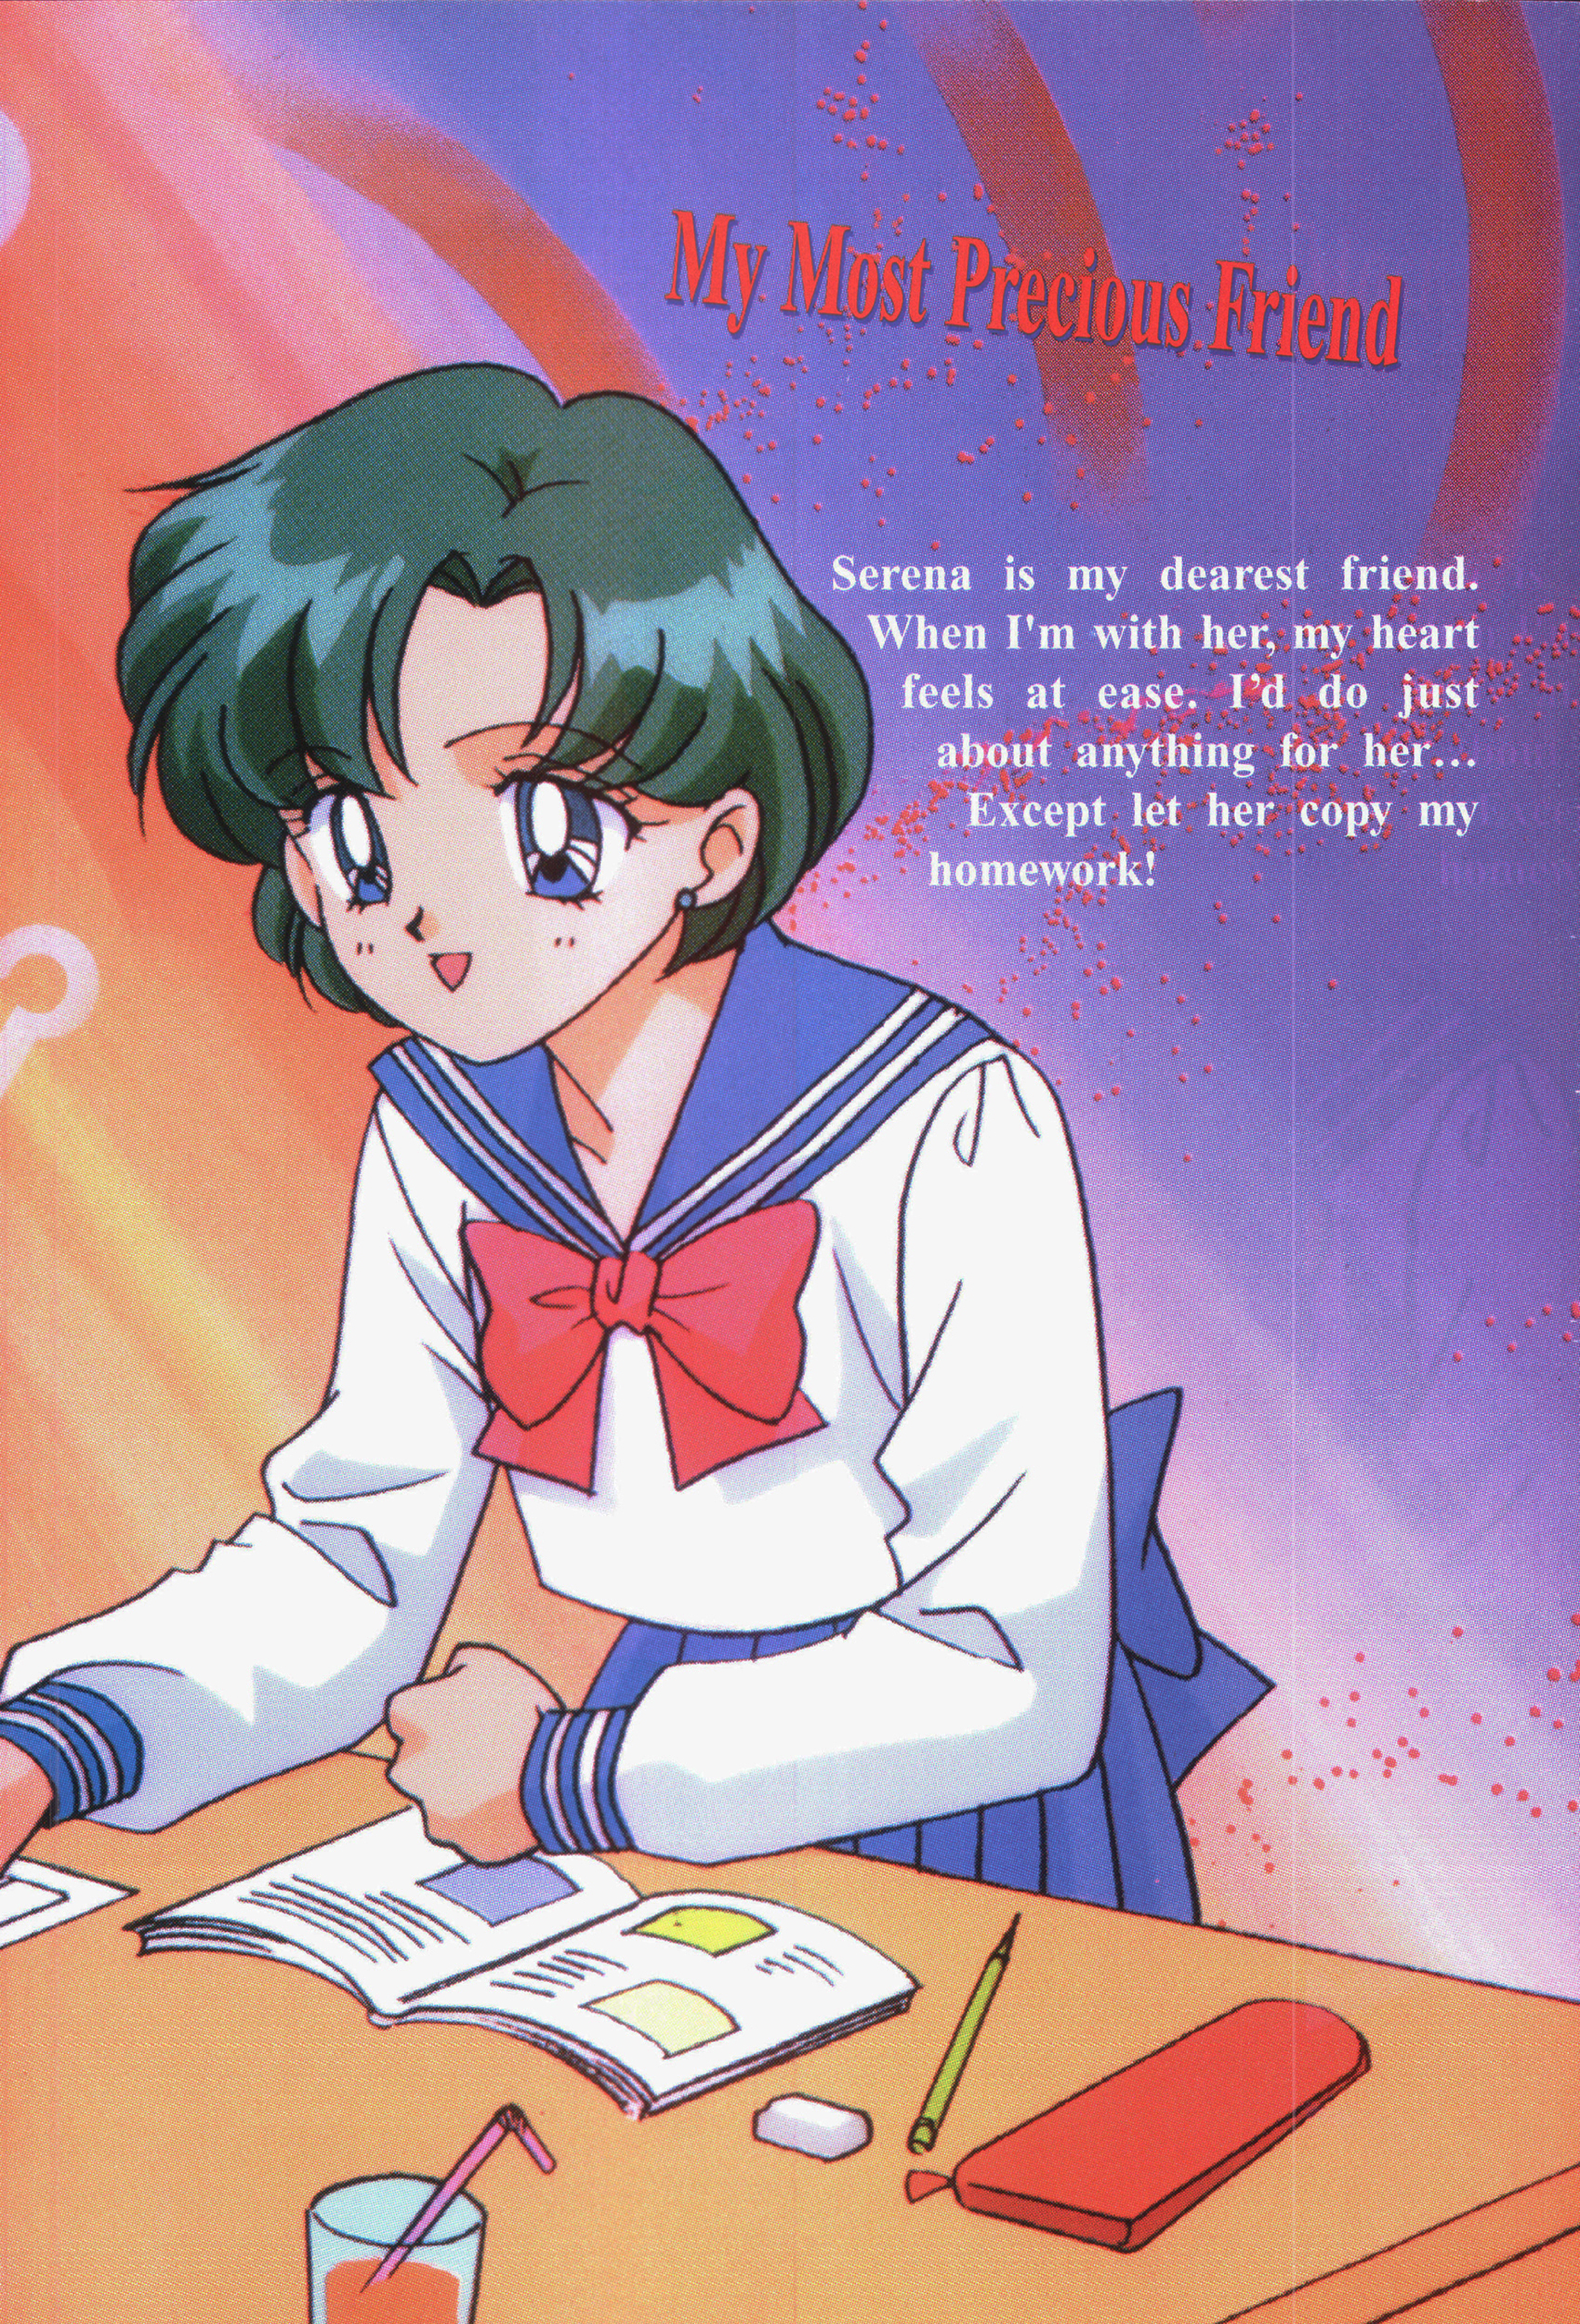


Serena taught me the fun of playing video games.



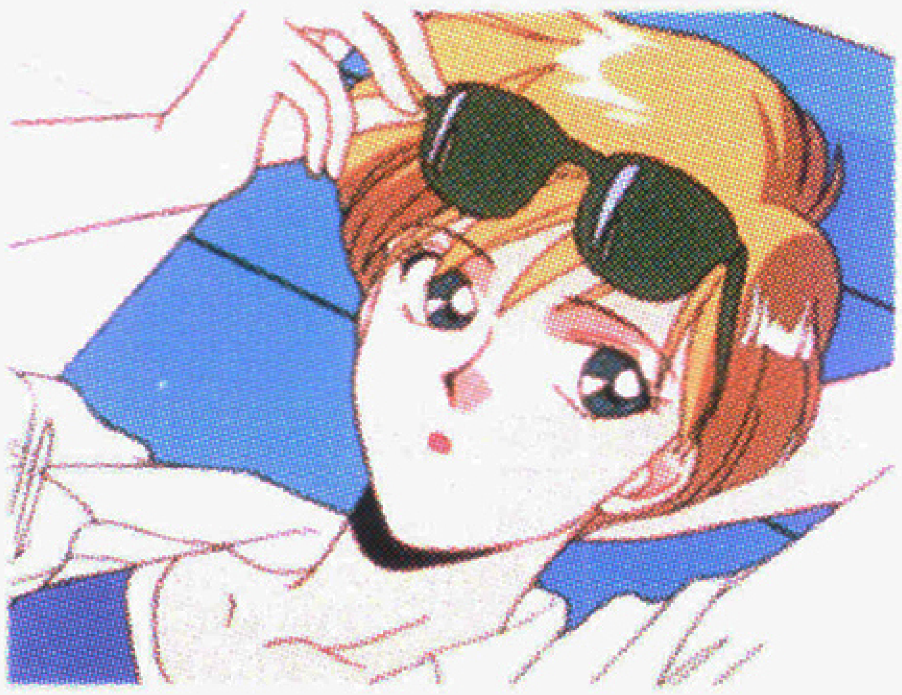
Sometimes Serena has to protect me from the barrage of questions from others.





# My Most Precious Friend

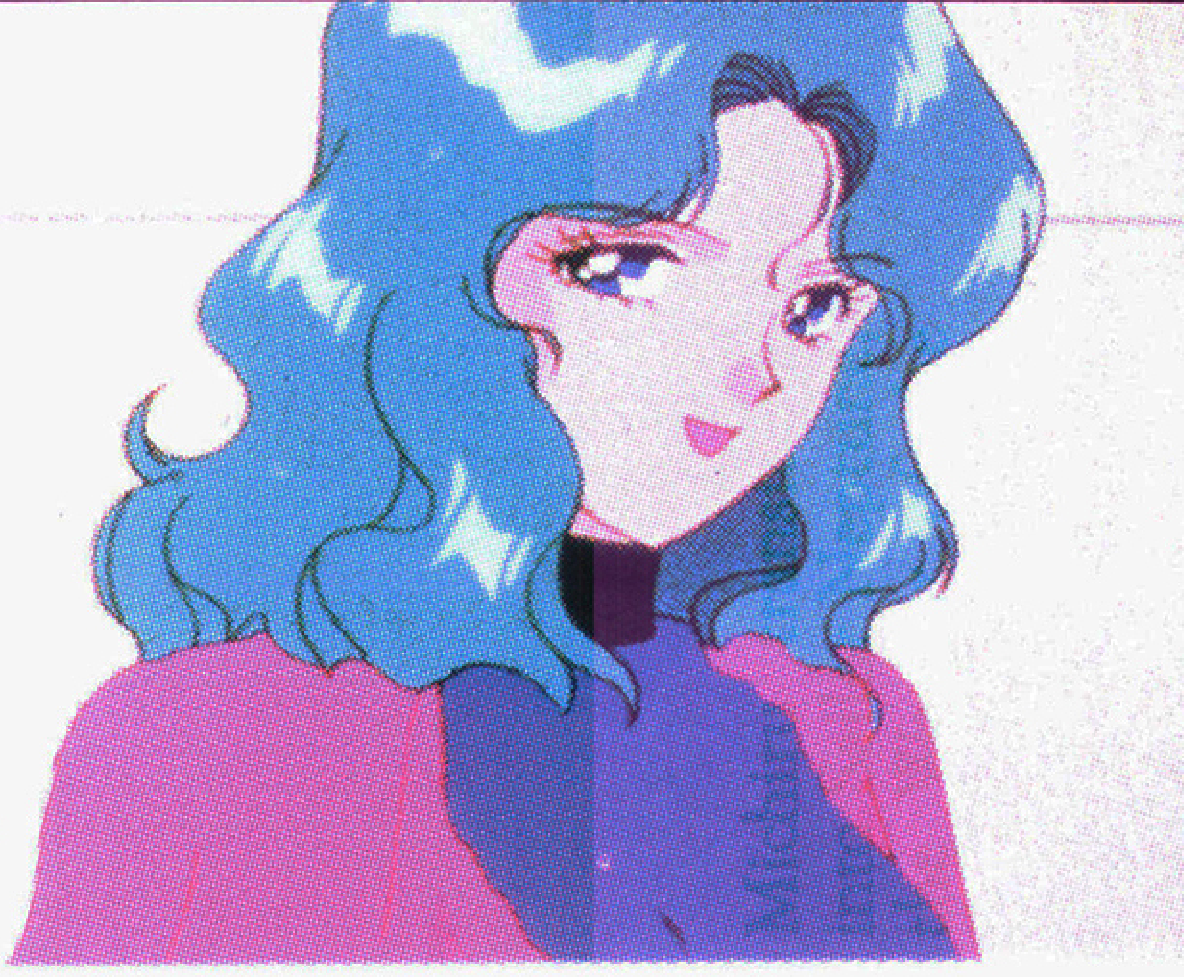
Serena is my dearest friend. When I'm with her, my heart feels at ease. I'd do just about anything for her… Except let her copy my homework!



Haruka is a high school student who transforms into the Scout of the sky.

## Haruka Tenou

Haruka is Michiru's partner, and a very cool customer!



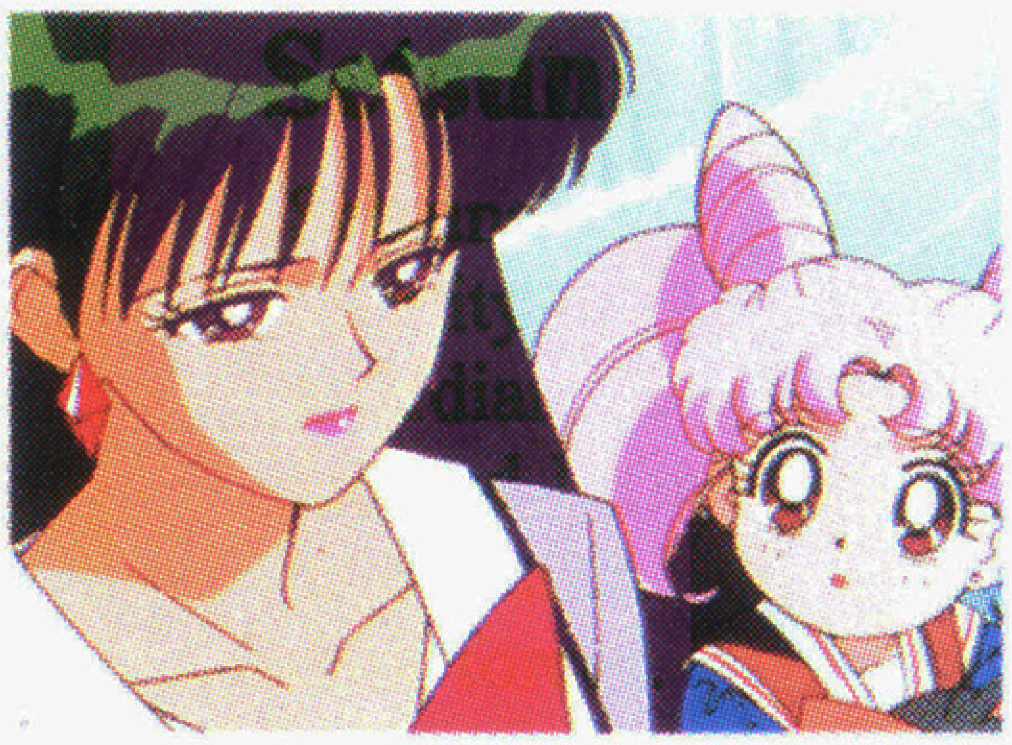
Michiru transforms into Sailor Neptune, the Warrior of the deep blue sea.

## Michiru Kaiou

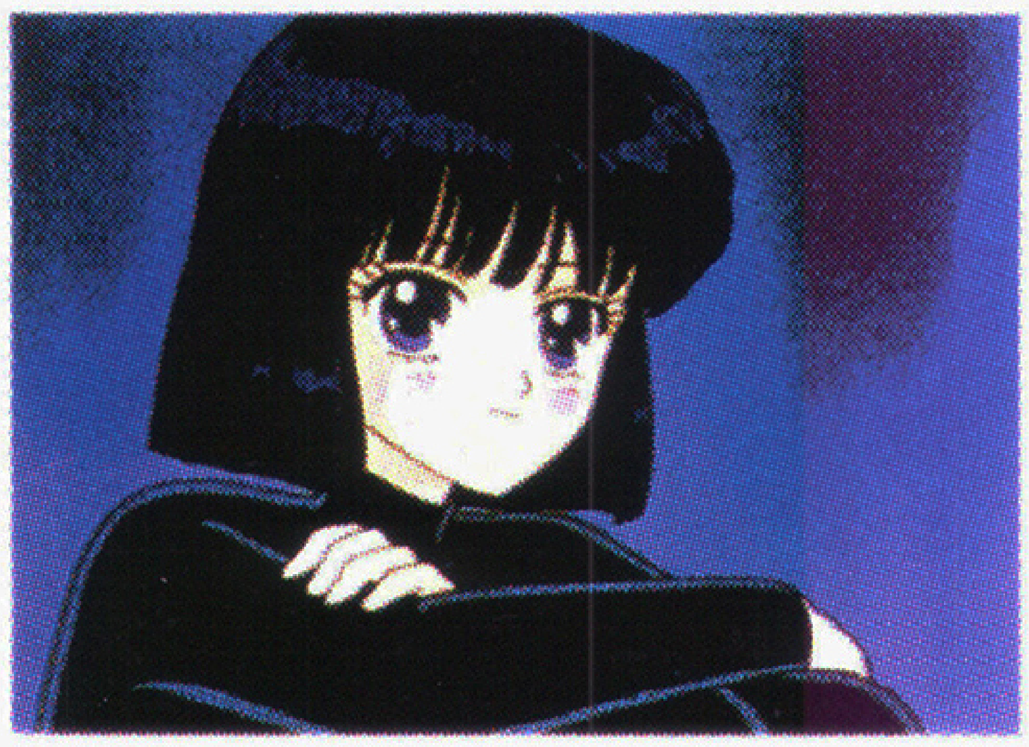
Michiru is an expert swimmer. She taught me the importance of fighting with all my strength.

## Setsuna Meiou

Setsuna is the secret identity of Sailor Pluto, guardian of time. She entered Infinity School as a student to find the dark forces.



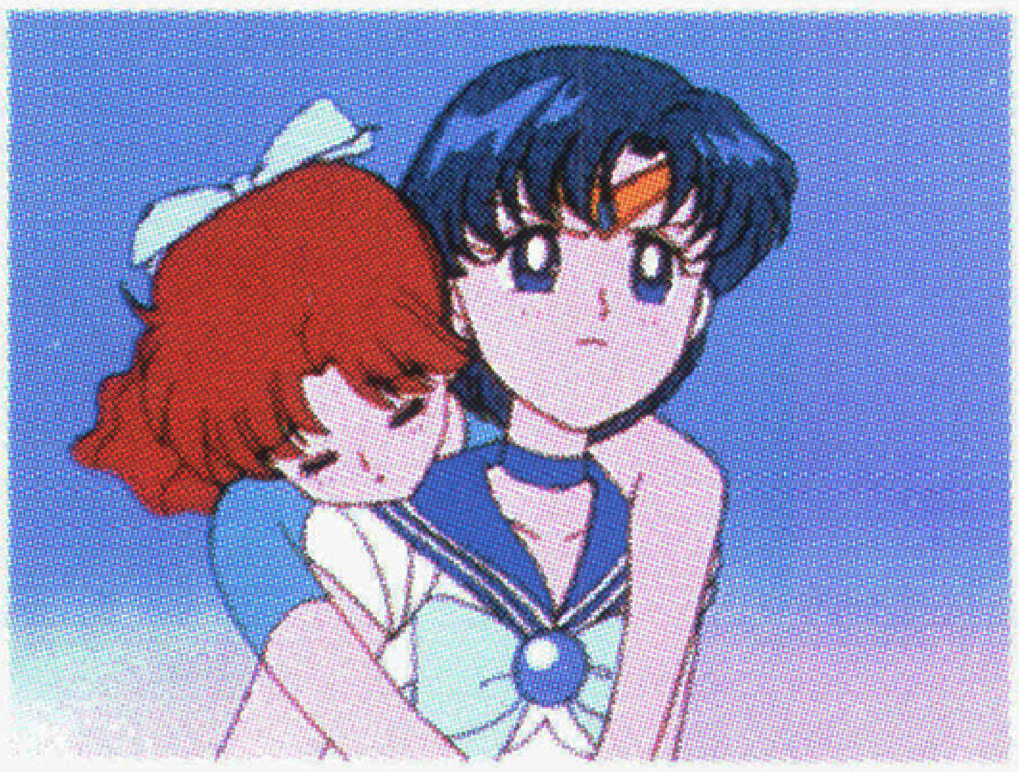
Rini always calls Setsuna 'Poo'! The two of them are close friends.



She sacrificed her own life to save the Earth.

## Hotaru Tomoe

Hotaru is a sixth grader in the Infinity Elementary School. She is a reincarnation of Sailor Saturn, the Scout of destruction.



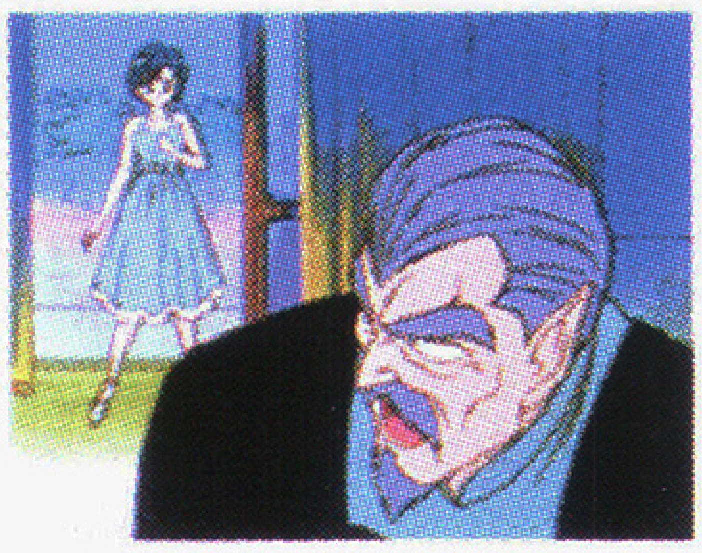
Sailor Saturn was caught in the rivalry between Nephrite and Zoicite.

## Molly

She's a girl in Serena's class. It seems like the Negaverse is always trying to steal her energy!

They are all precious friends!

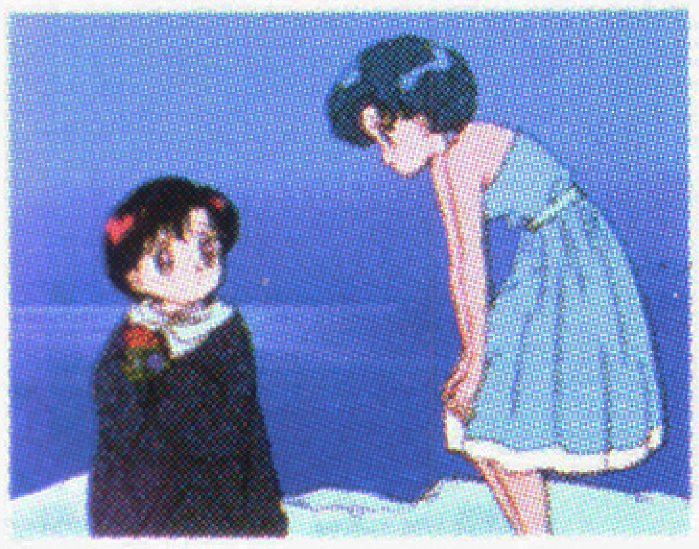
### Sakiko's father



He is very strict with Sakiko.

Sakiko's father tried to hypnotized her, in order to control her powers.

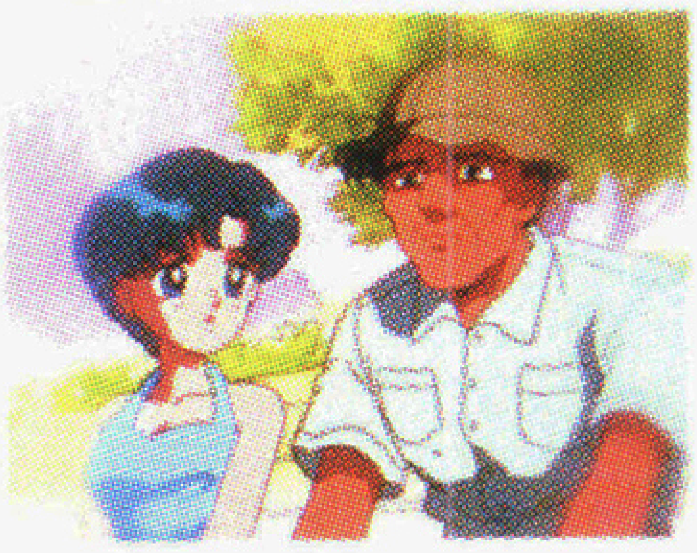
### Sakiko



Sakiko is a kind and gentle girl.

Sakiko has very strong psychic powers, and was very lonely when we first met her.

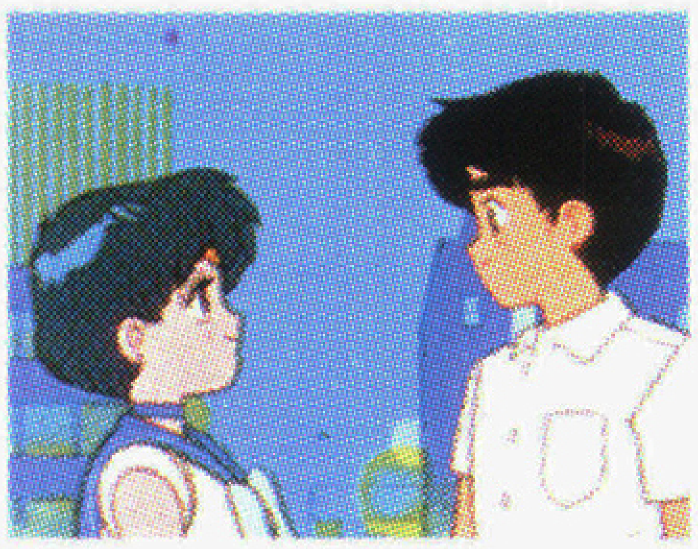
### Kunitachi



Kunitachi loves nature.

Kunitachi is the manager of a park that I visit often, and he's very nice.

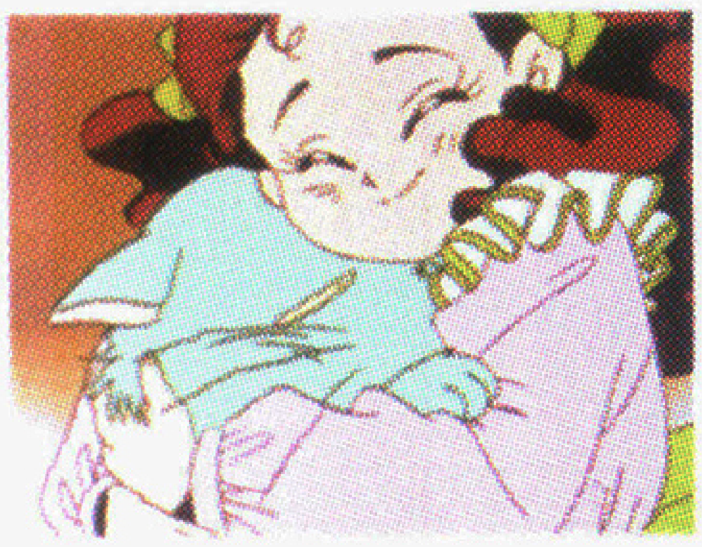
### Greg



Greg was temporarily transformed into the monster Bumboo.

Greg really liked me… I hope we meet again someday.

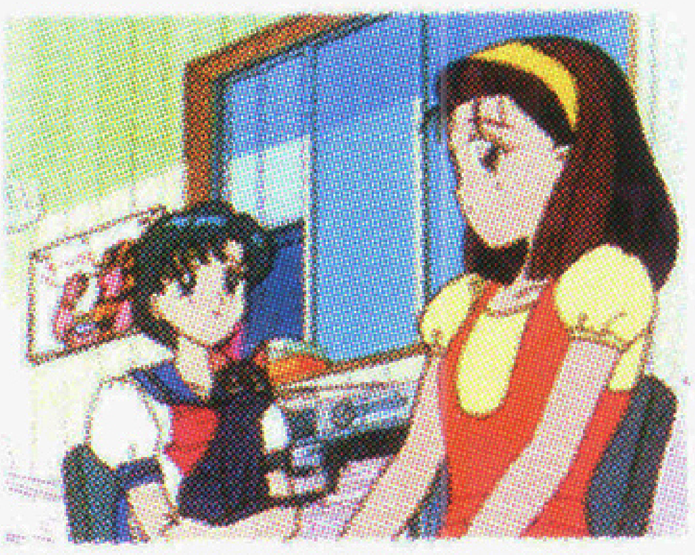
### Ann Ohara



She didn't have the rainbow crystal.

Ann owns a pet cat named Red Butler, and she was once attacked by Zoicite.

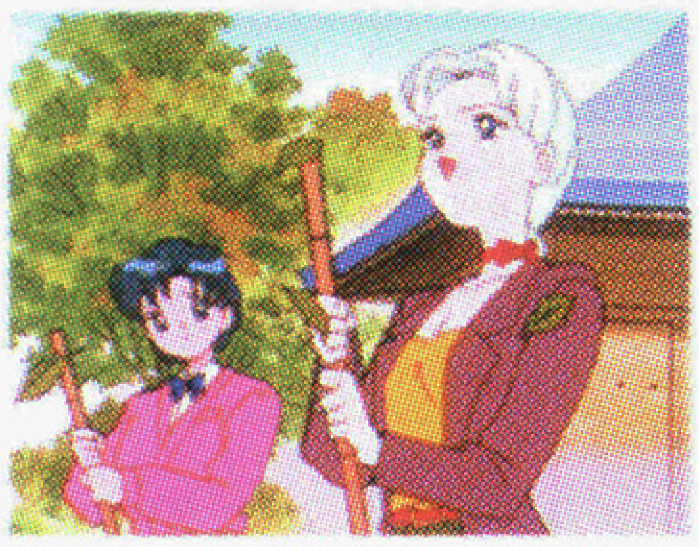
### Cassie Tadashita



Cassie was worried about her close friend, Lori.

I met Cassie at the Studio Dive animation house-she's an animator!

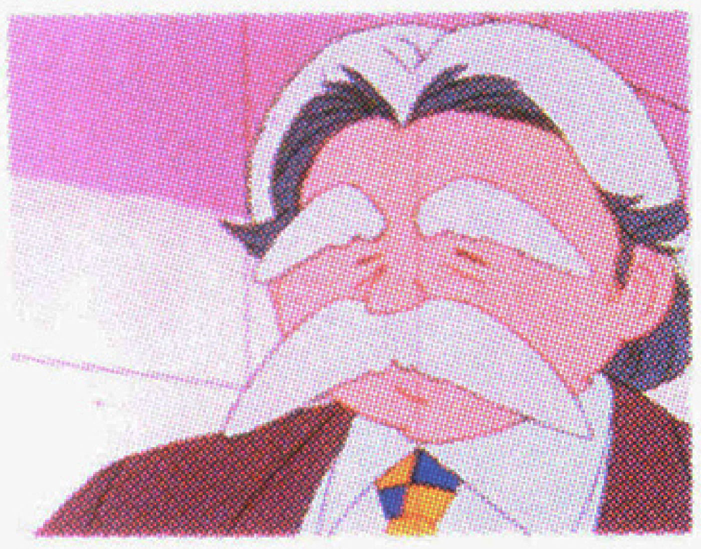
### Bertie



She was reborn as a human being.

Bertie was an enemy at first, but she had a change of heart. Now she is my friend.

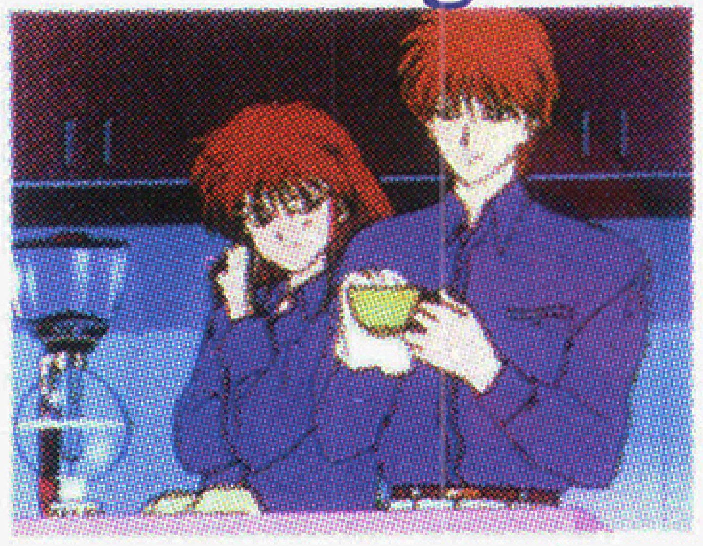
### The old chess player



He and I are old acquaintances.

He was one of my grandfather's chess buddies, and owns the Chess Tower.

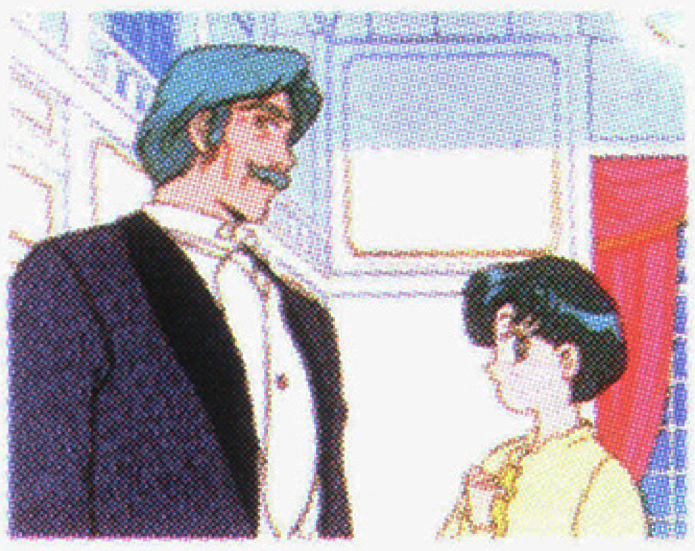
### Alan and Ann Granger



They pretended to be brother & sister.

I thought there was something fishy about them, and it turned out they were really aliens!

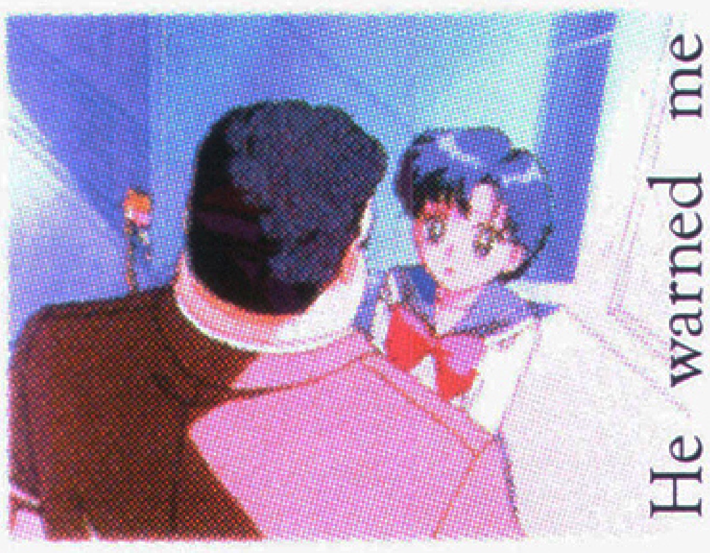
### Edward



He and I got along well.

Edward is a millionaire friend of mine and a real English gentleman!

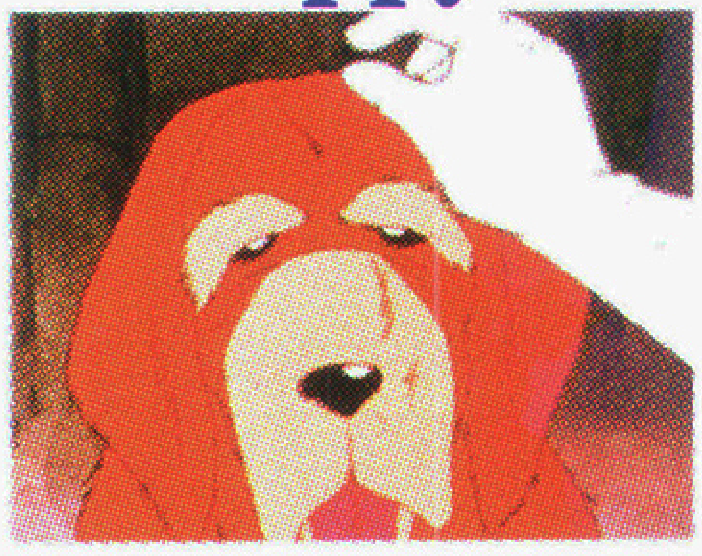
### Vice-principal



He warned me about Serena.

This is the vice-principal of Crossroads Middle School. Even from the back, he's unmistakable!

### Puppy



He was being controlled by the Negaverse.

We saved this dog from the enemy's control. It's weird, but he's the spitting image of my teacher!

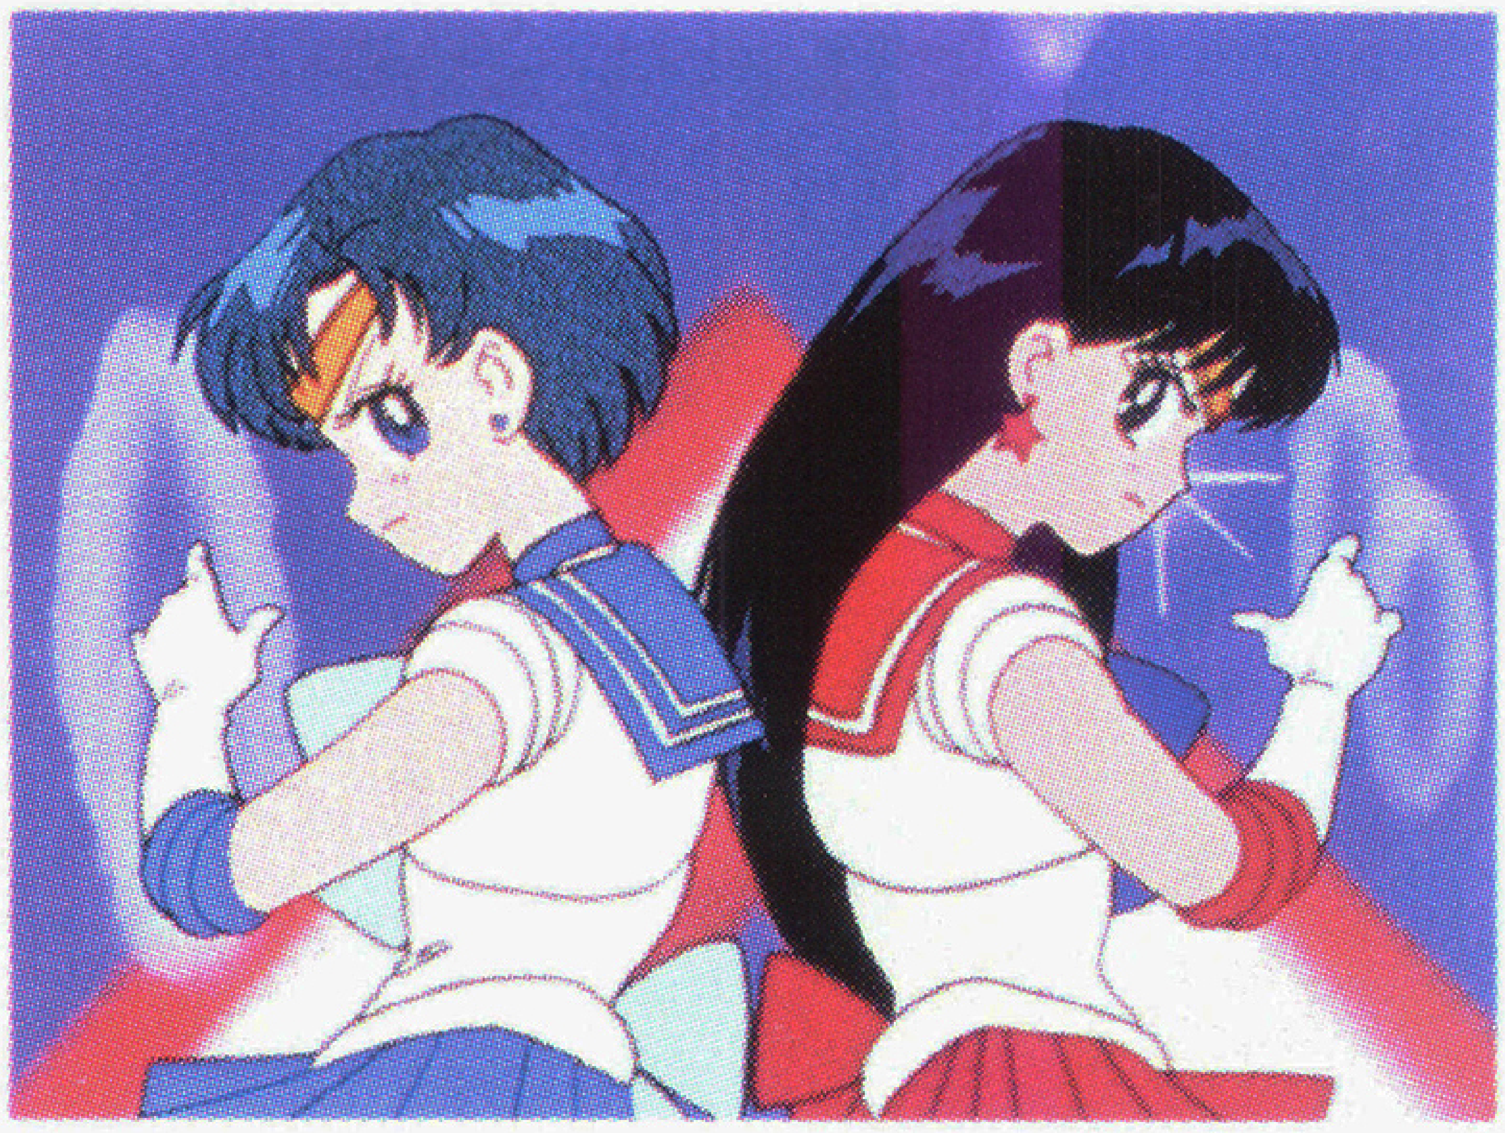
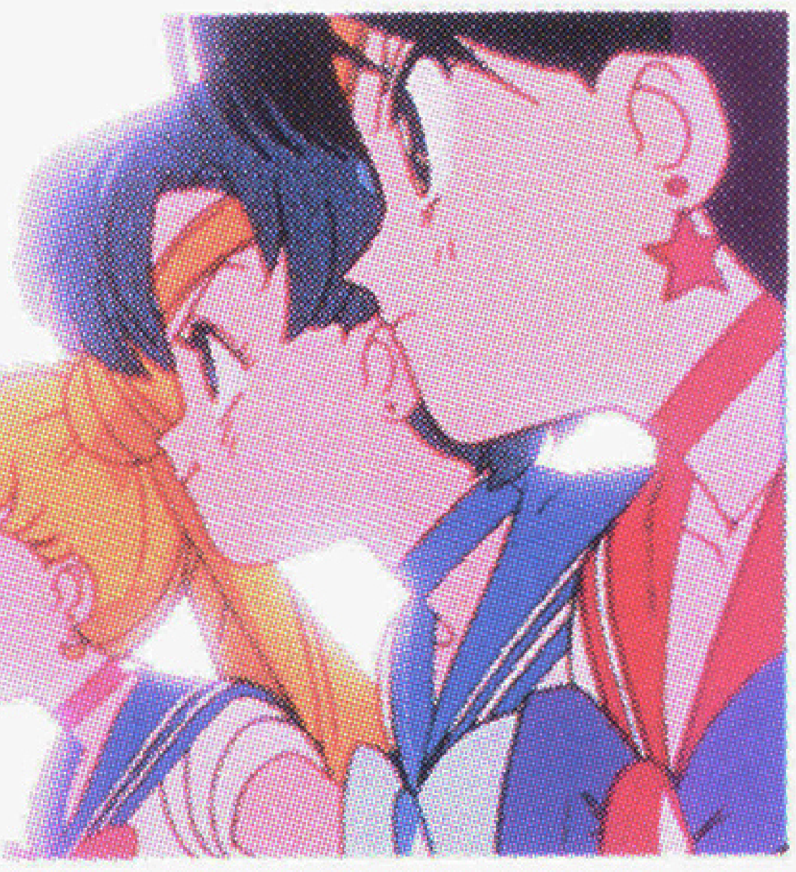
# Sailor Scout Pose Gallery

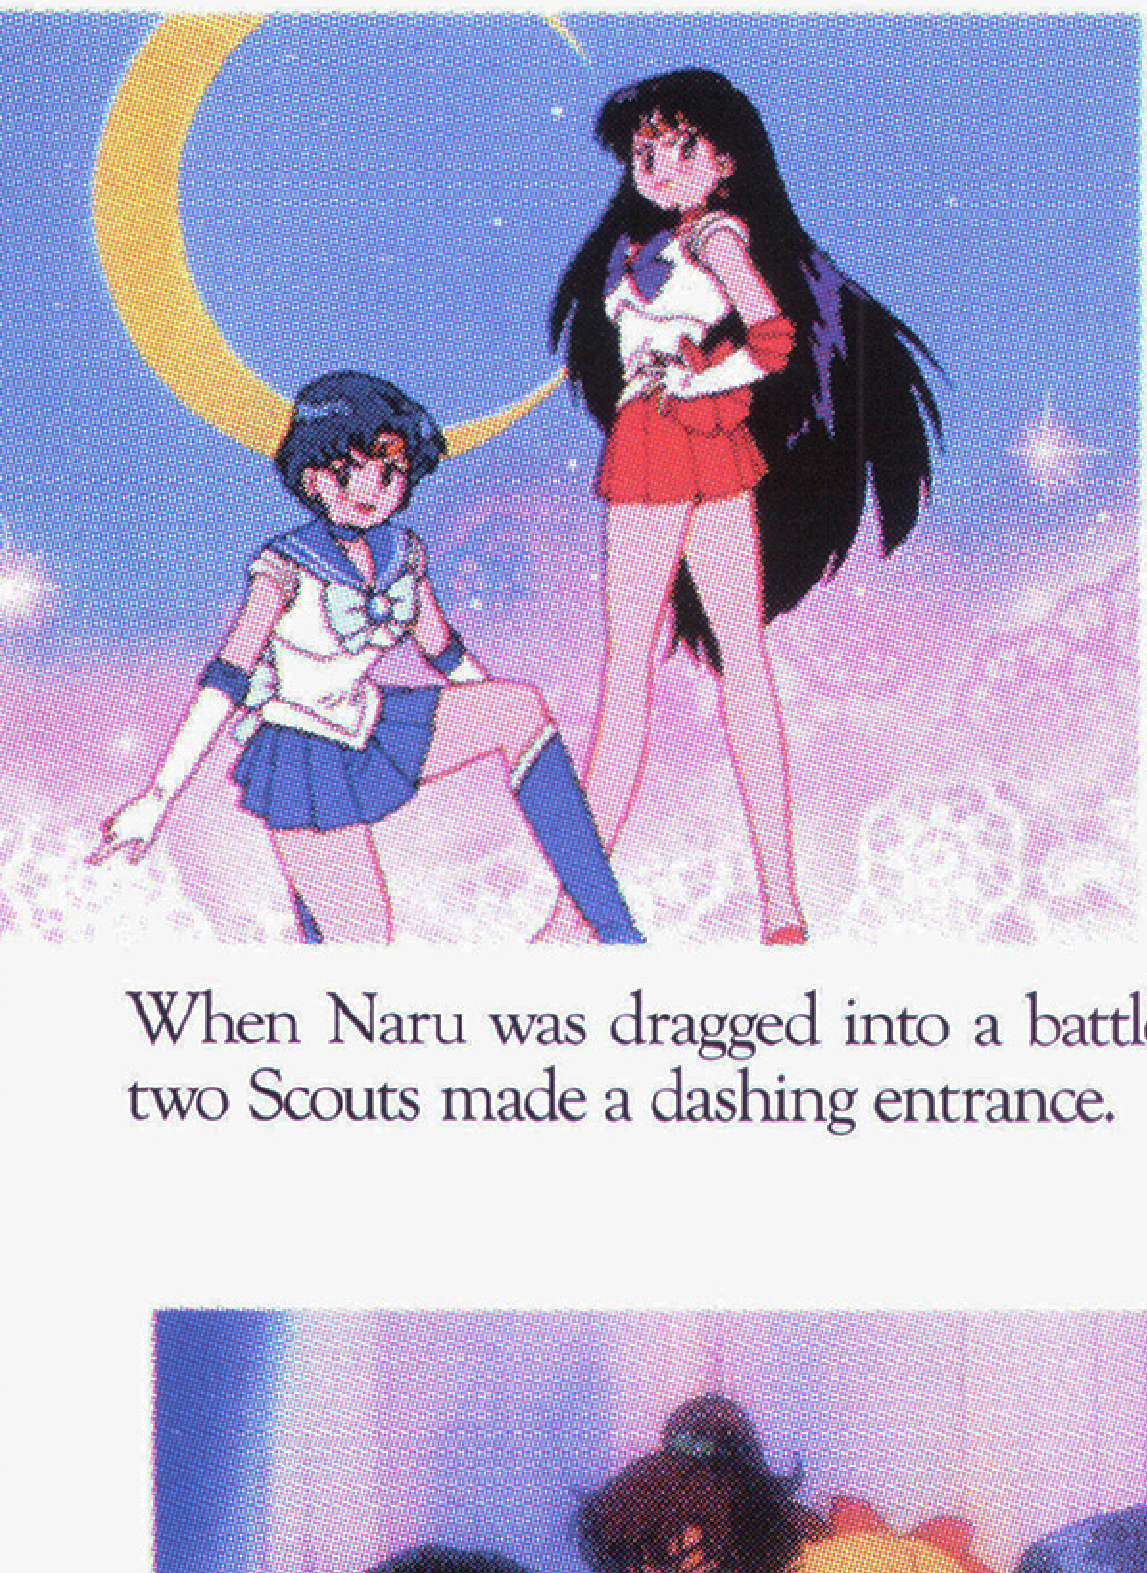
We look good as a team, don't we? Here's a collection of my favorite fighting stances. Try them yourself, but it's probably best not to do them in narrow alleys!



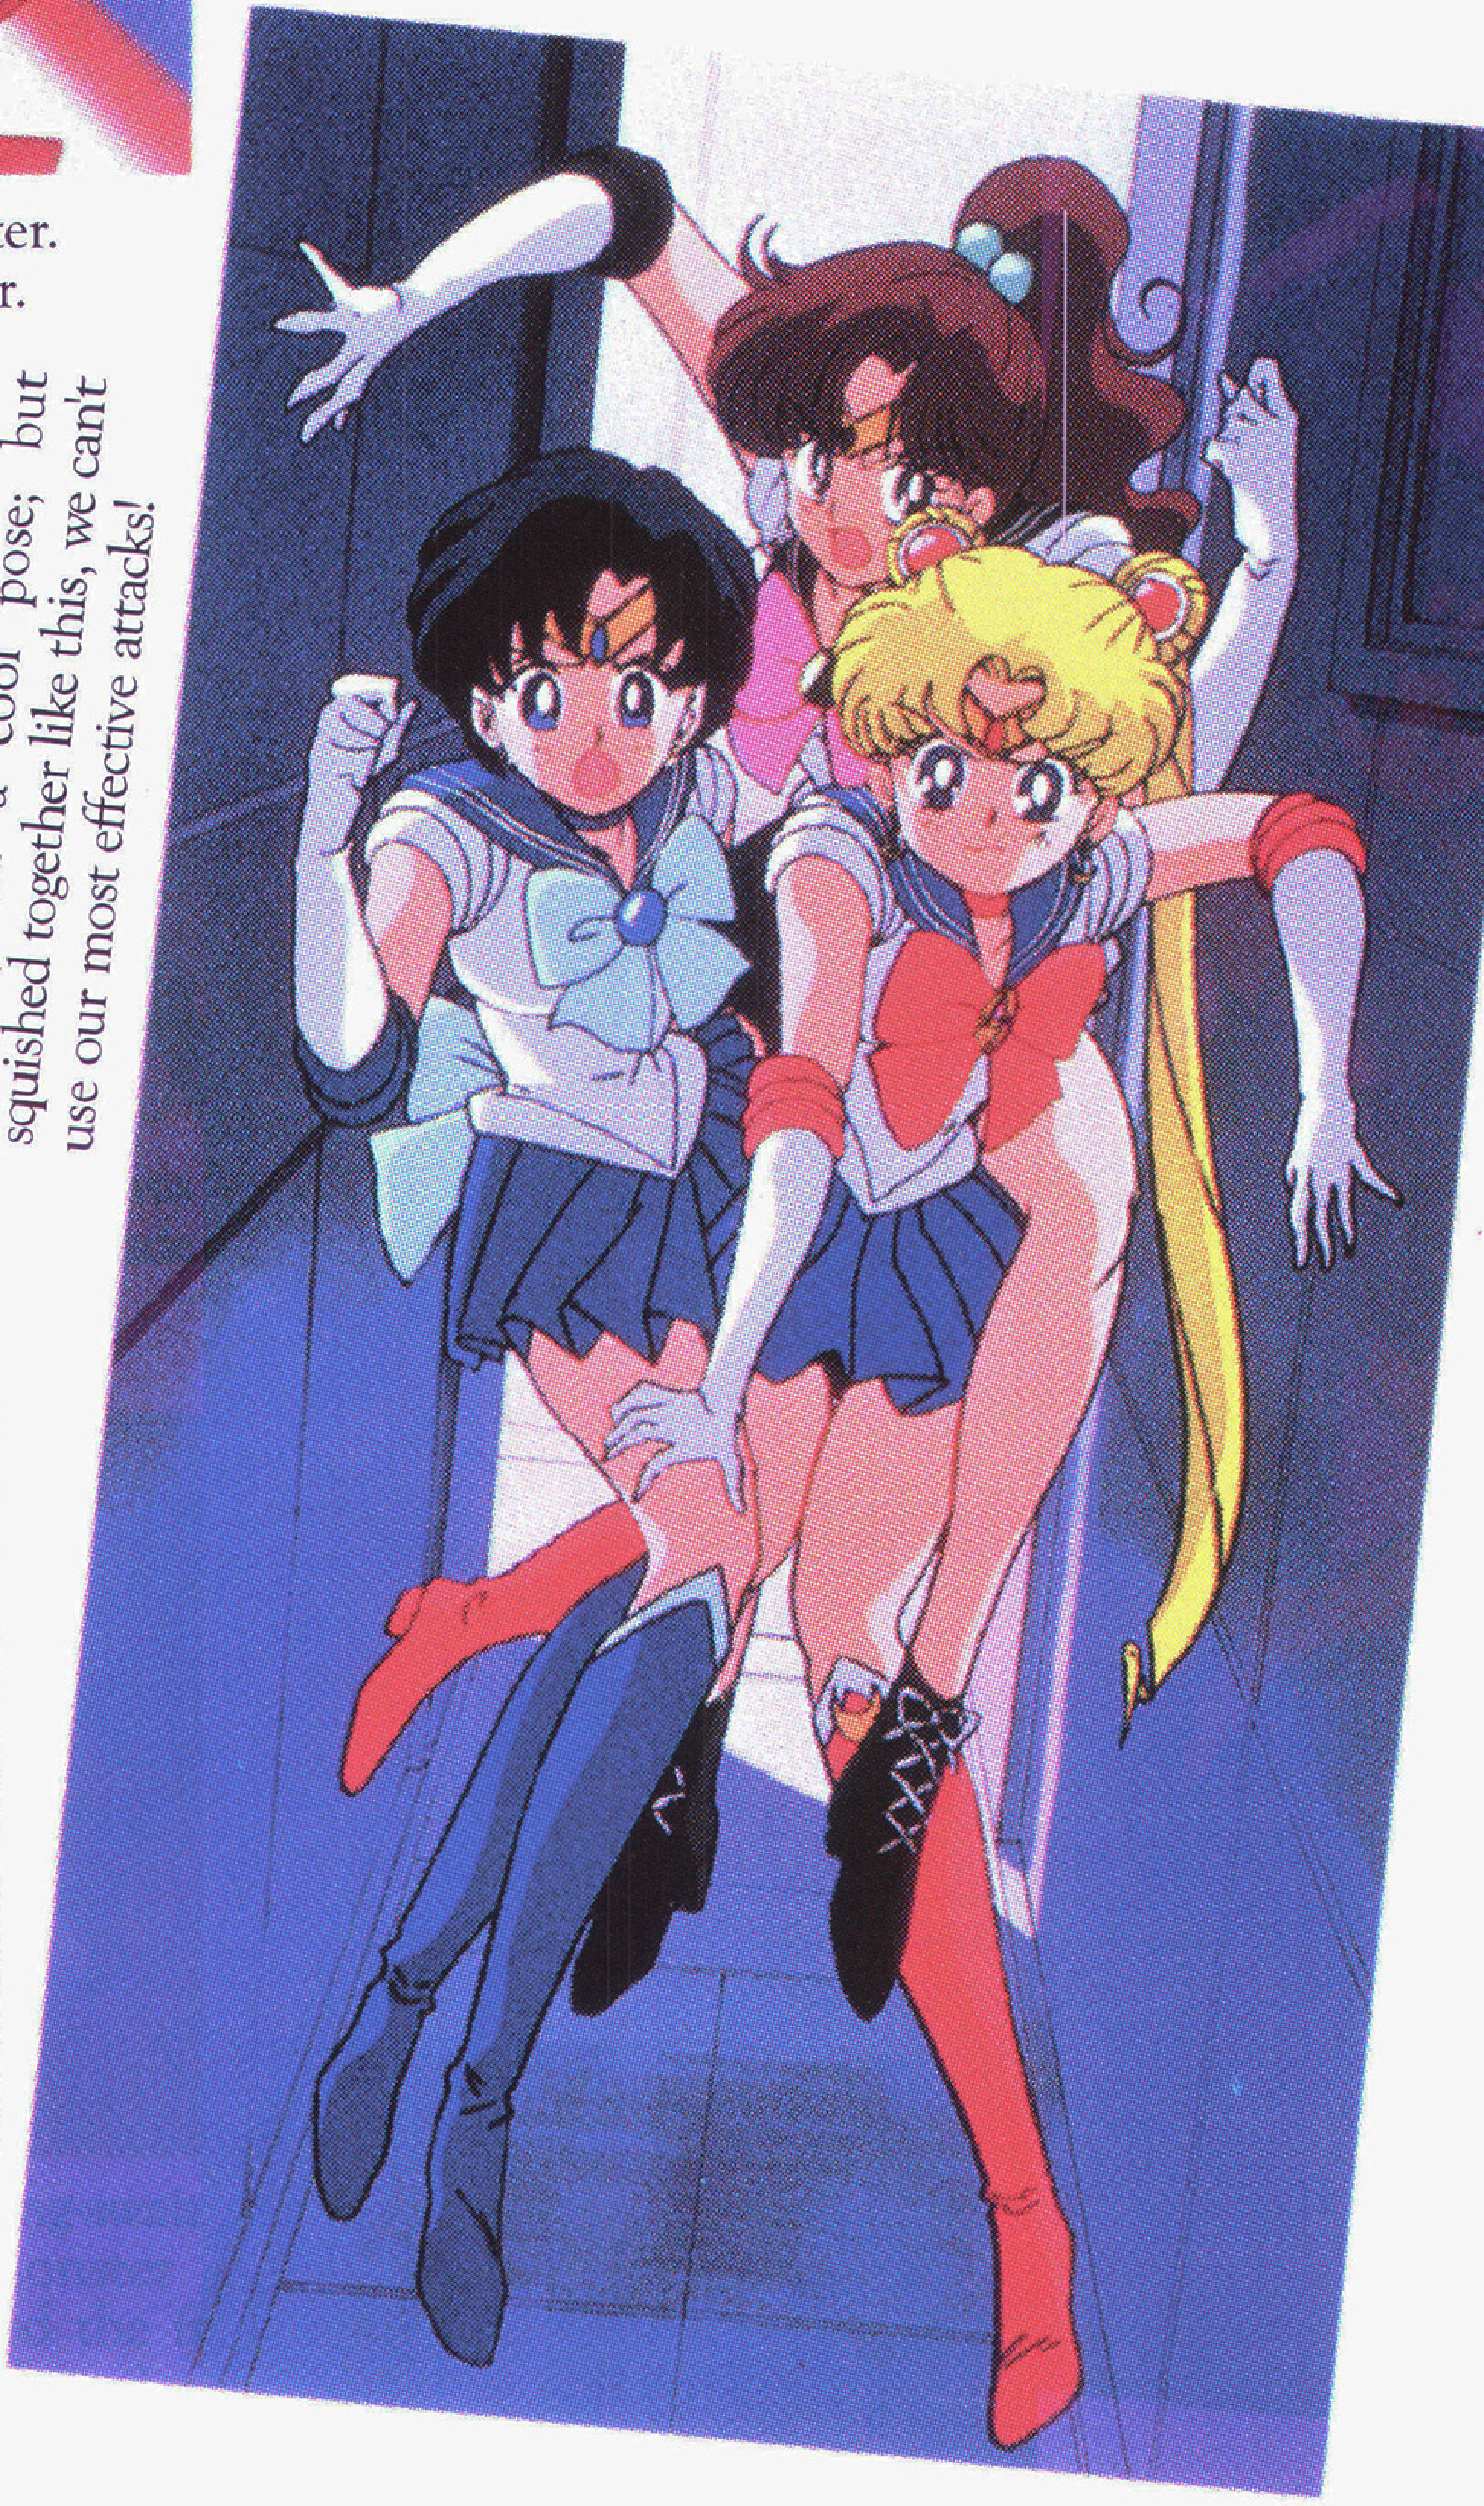
Sailor Mars and I pair off against a monster. Even Serena thinks we look great together.



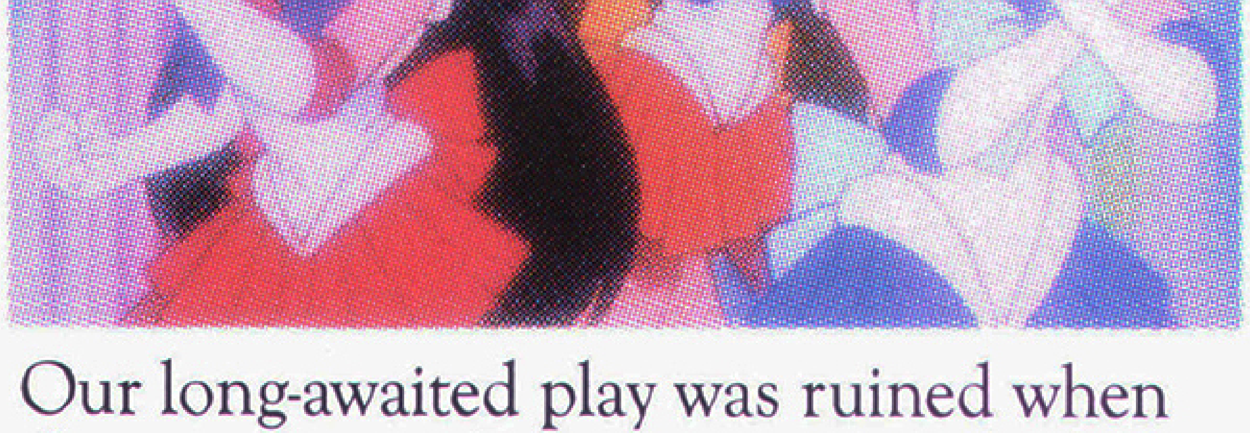
At the amusement park, the three soldiers lined up for the first time.



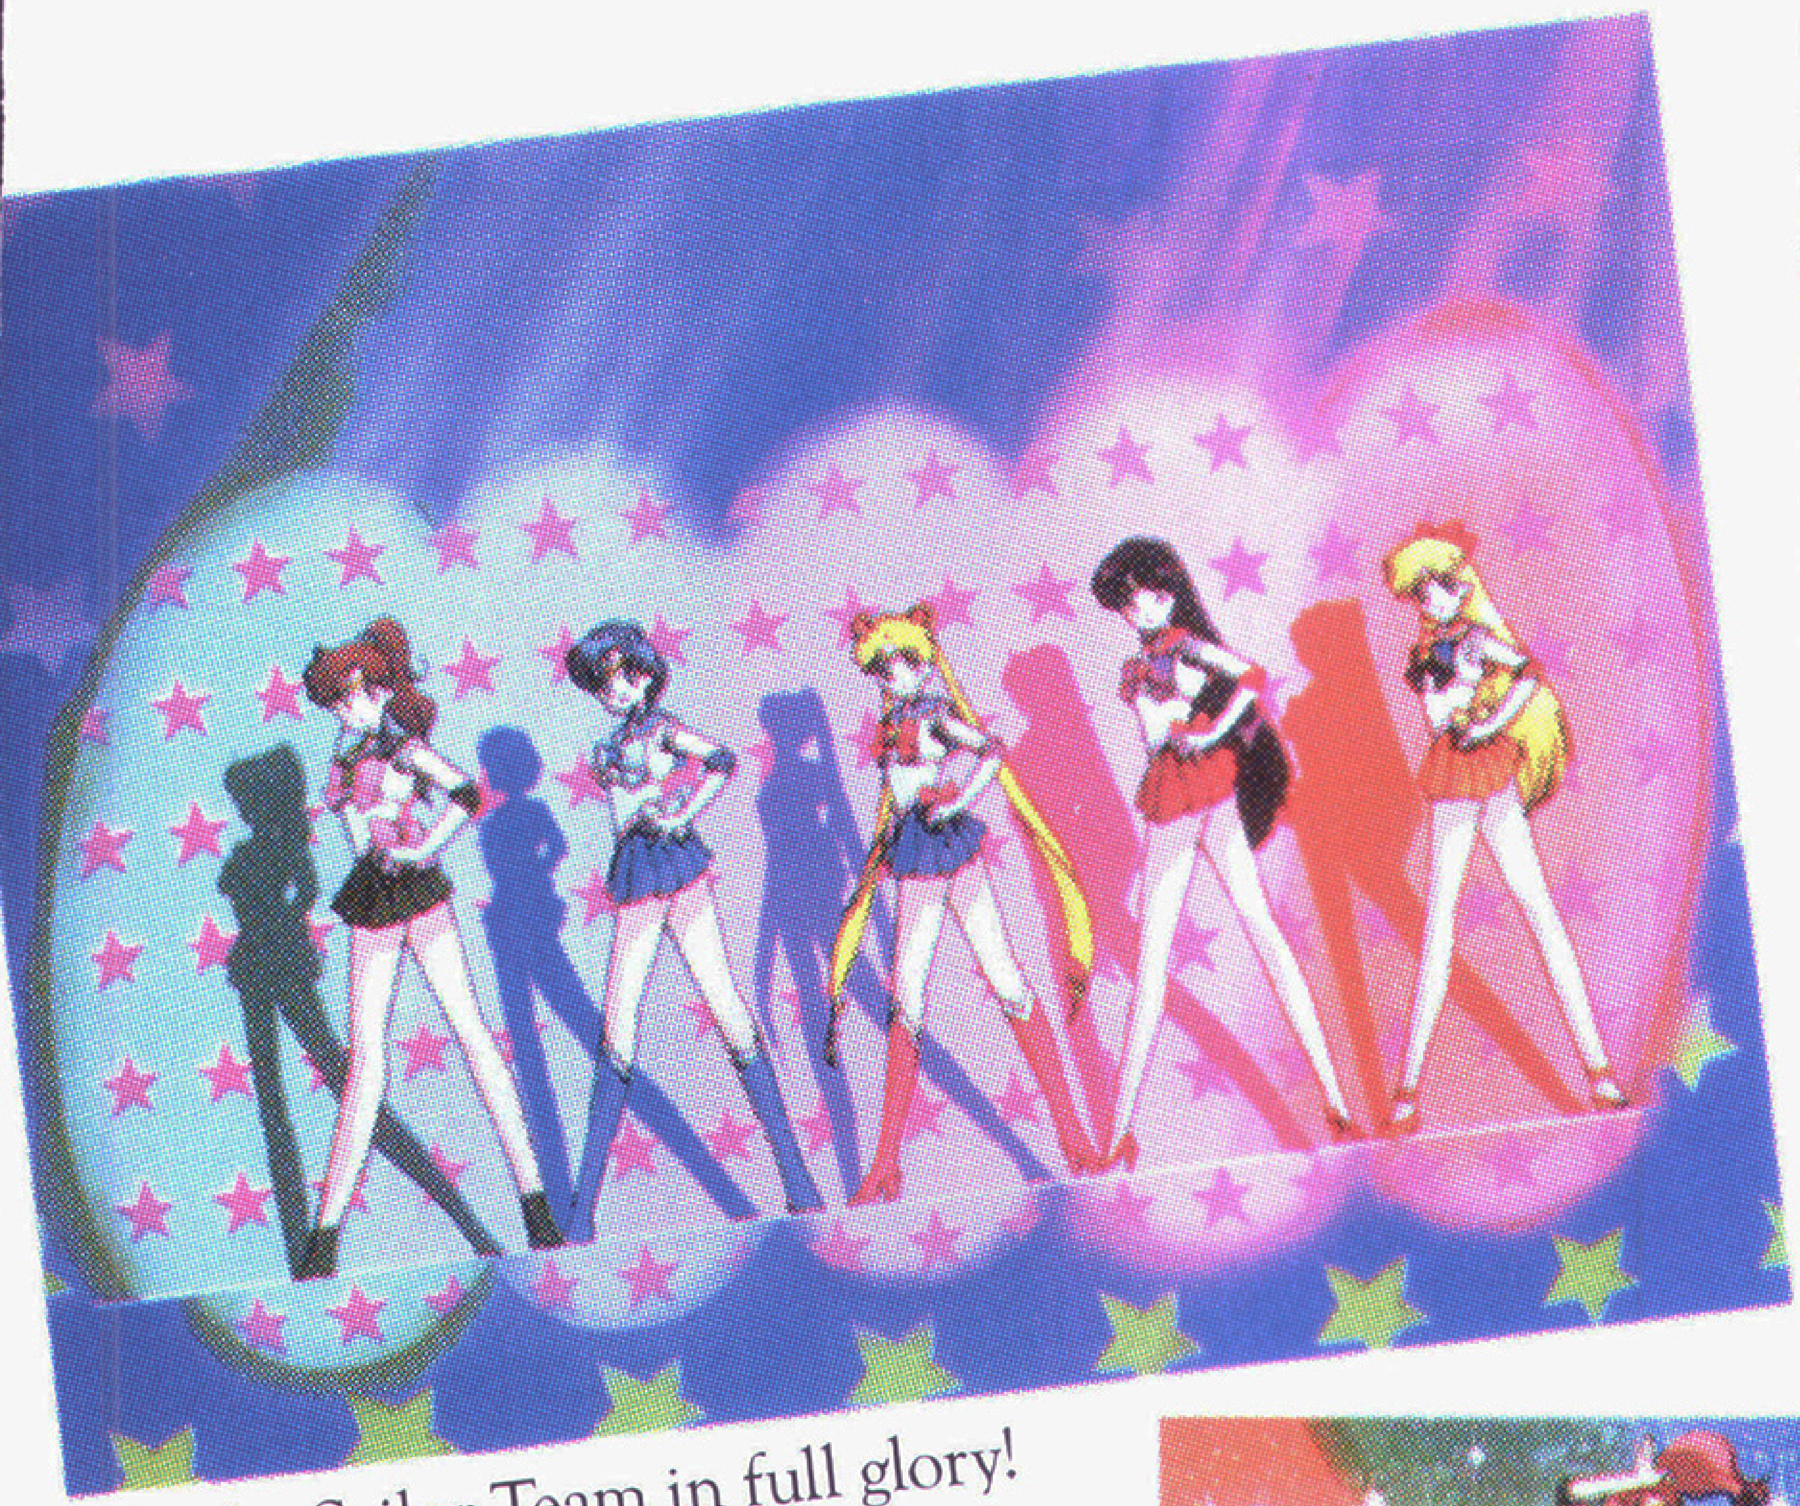
When Naru was dragged into a battle, two Scouts made a dashing entrance.



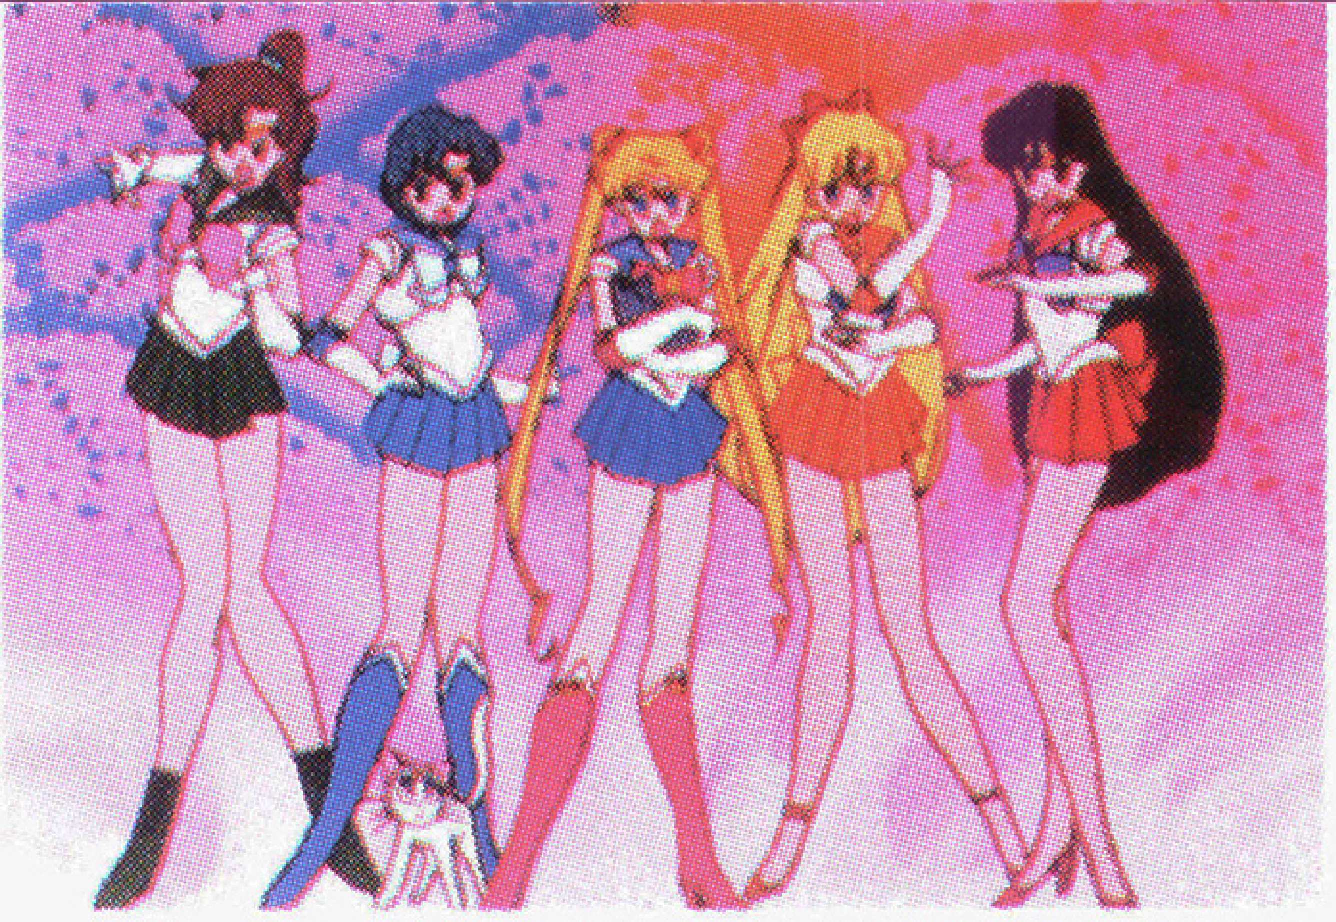
Even in tight places, the Scouts will still try for a cool pose; but squished together like this, we can't use our most effective attacks!



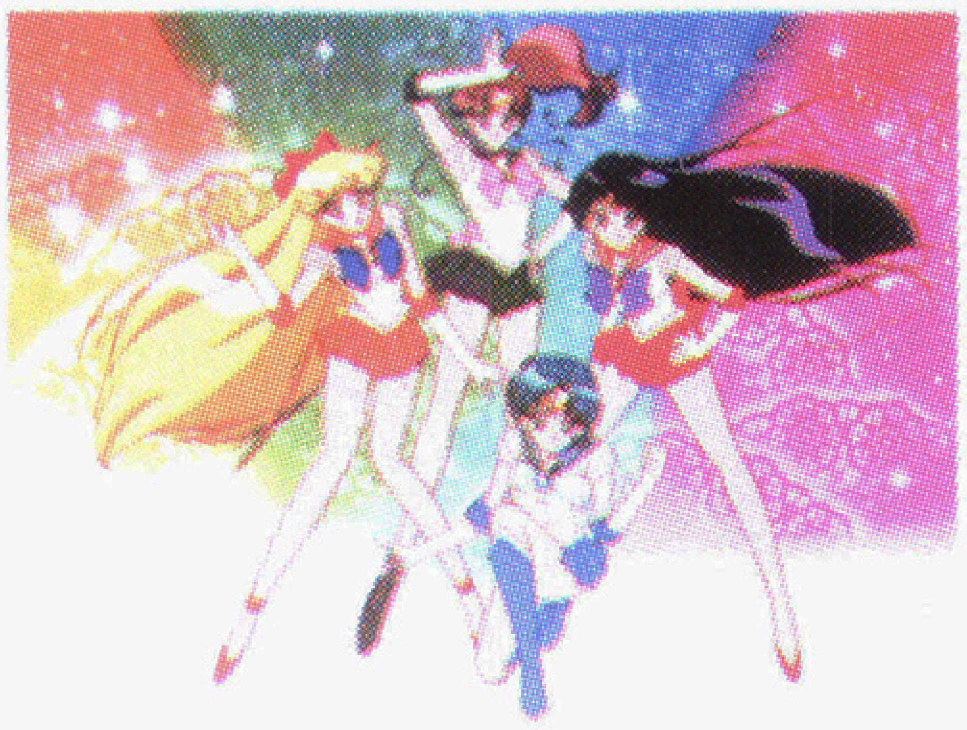
Our long-awaited play was ruined when the monster Pierrot appeared. We endured the fight, and then we called for make-up!



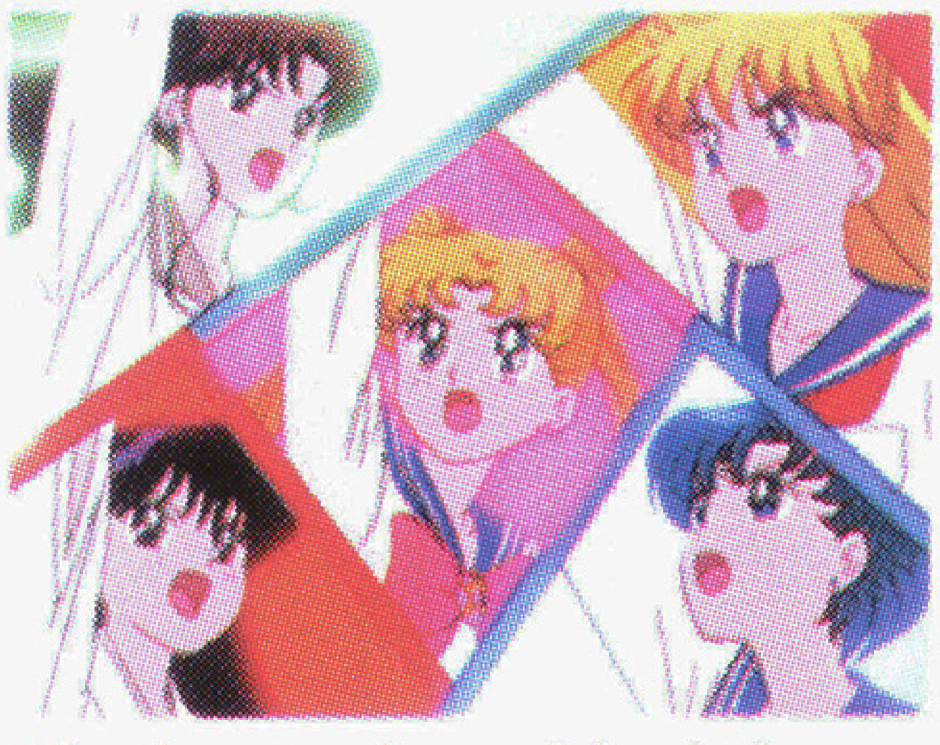
It's the Sailor Team in full glory! Nothing can stop us when we are joined together by the strength of friendship.



The five scouts do battle with Malachite, who is blocking their way as they try to rush the Dark Kingdom.



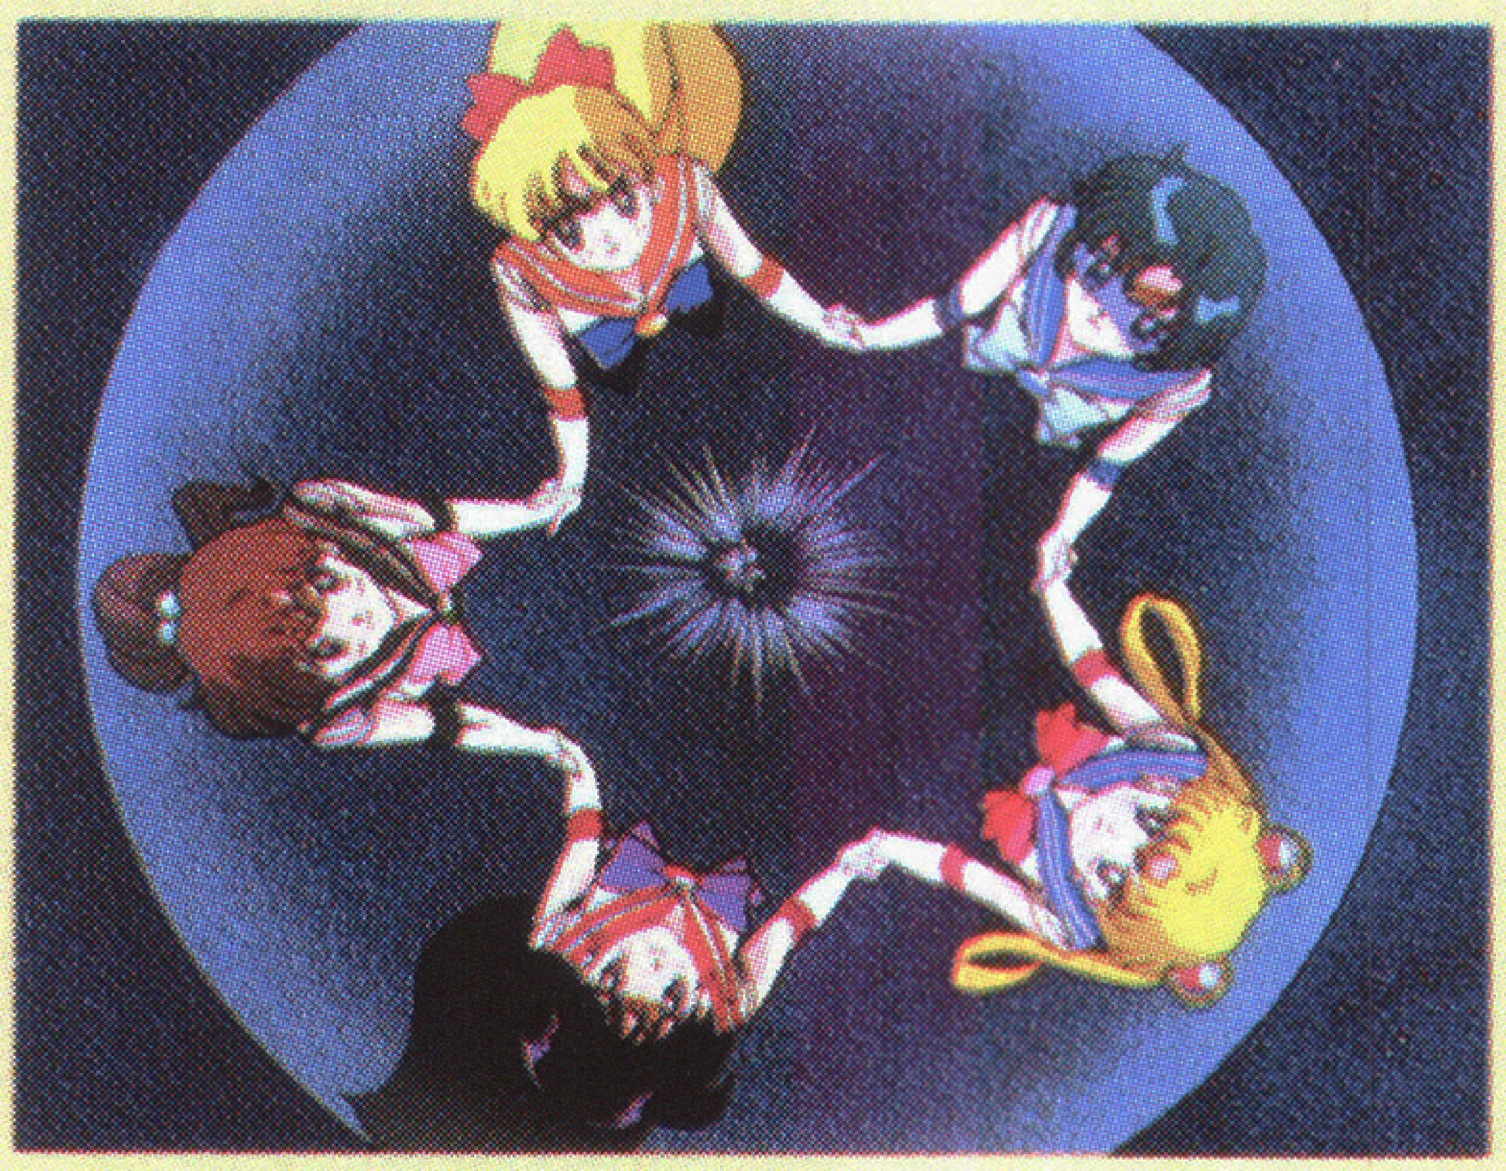
The four Sailor Scouts save Rini from the four Negamoon Sisters!



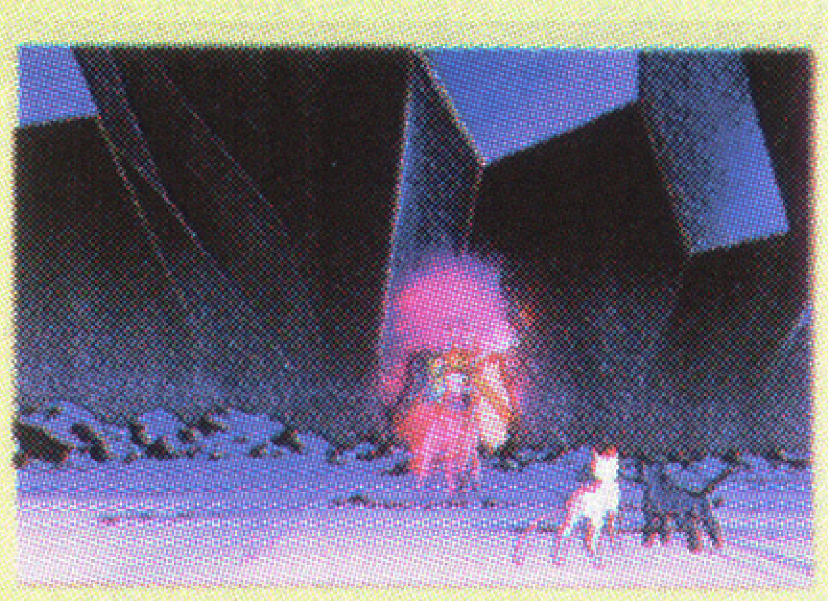
The five members of the Sailor team vow to survive together, and charge into the fray!

## The Sailor Team Combined Attacks

### Sailor Teleport

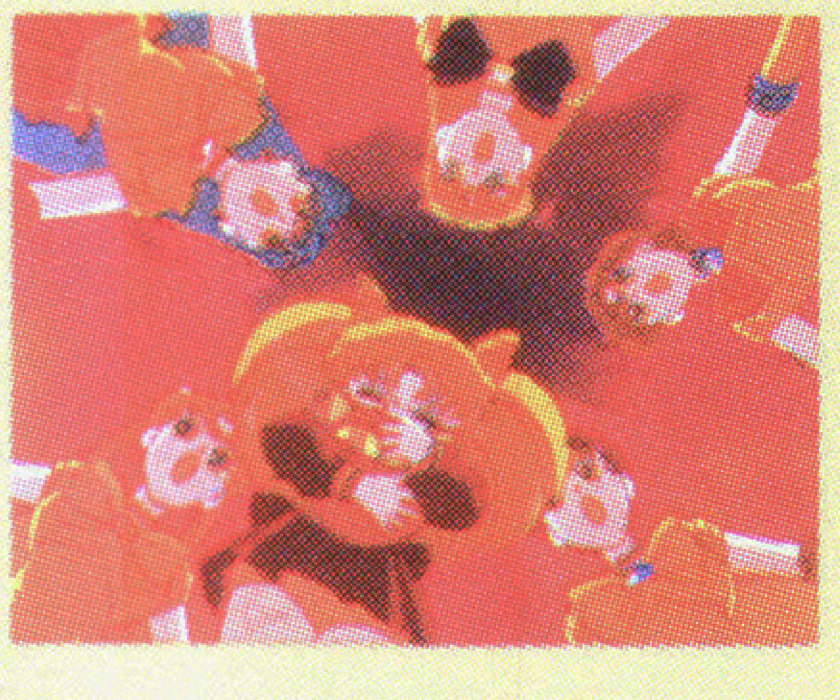


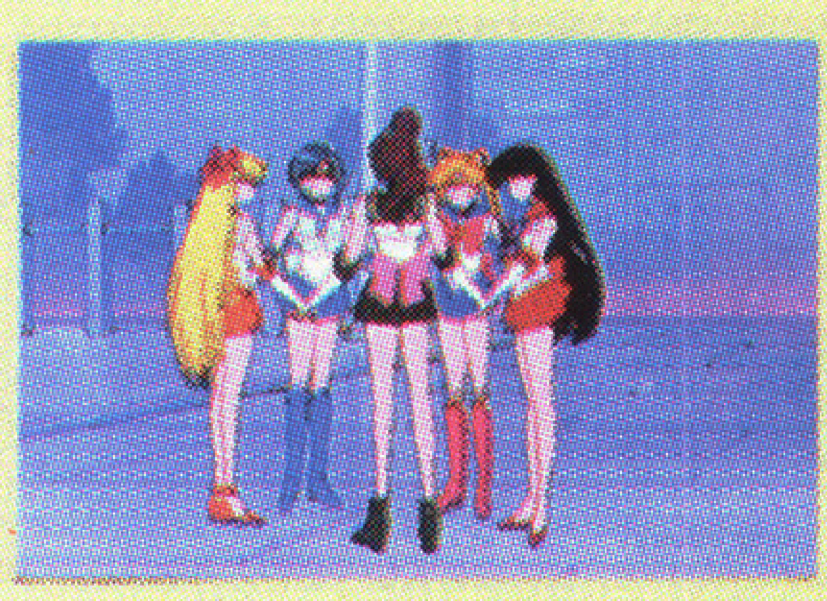
By joining hands and concentrating our powers, the five of us can teleport to far away locations in an instant. The first time we used it was in the fight against the Dark Kingdom, and we've used it occasionally since then. The only problem is that we can't use it unless all five of us are present.



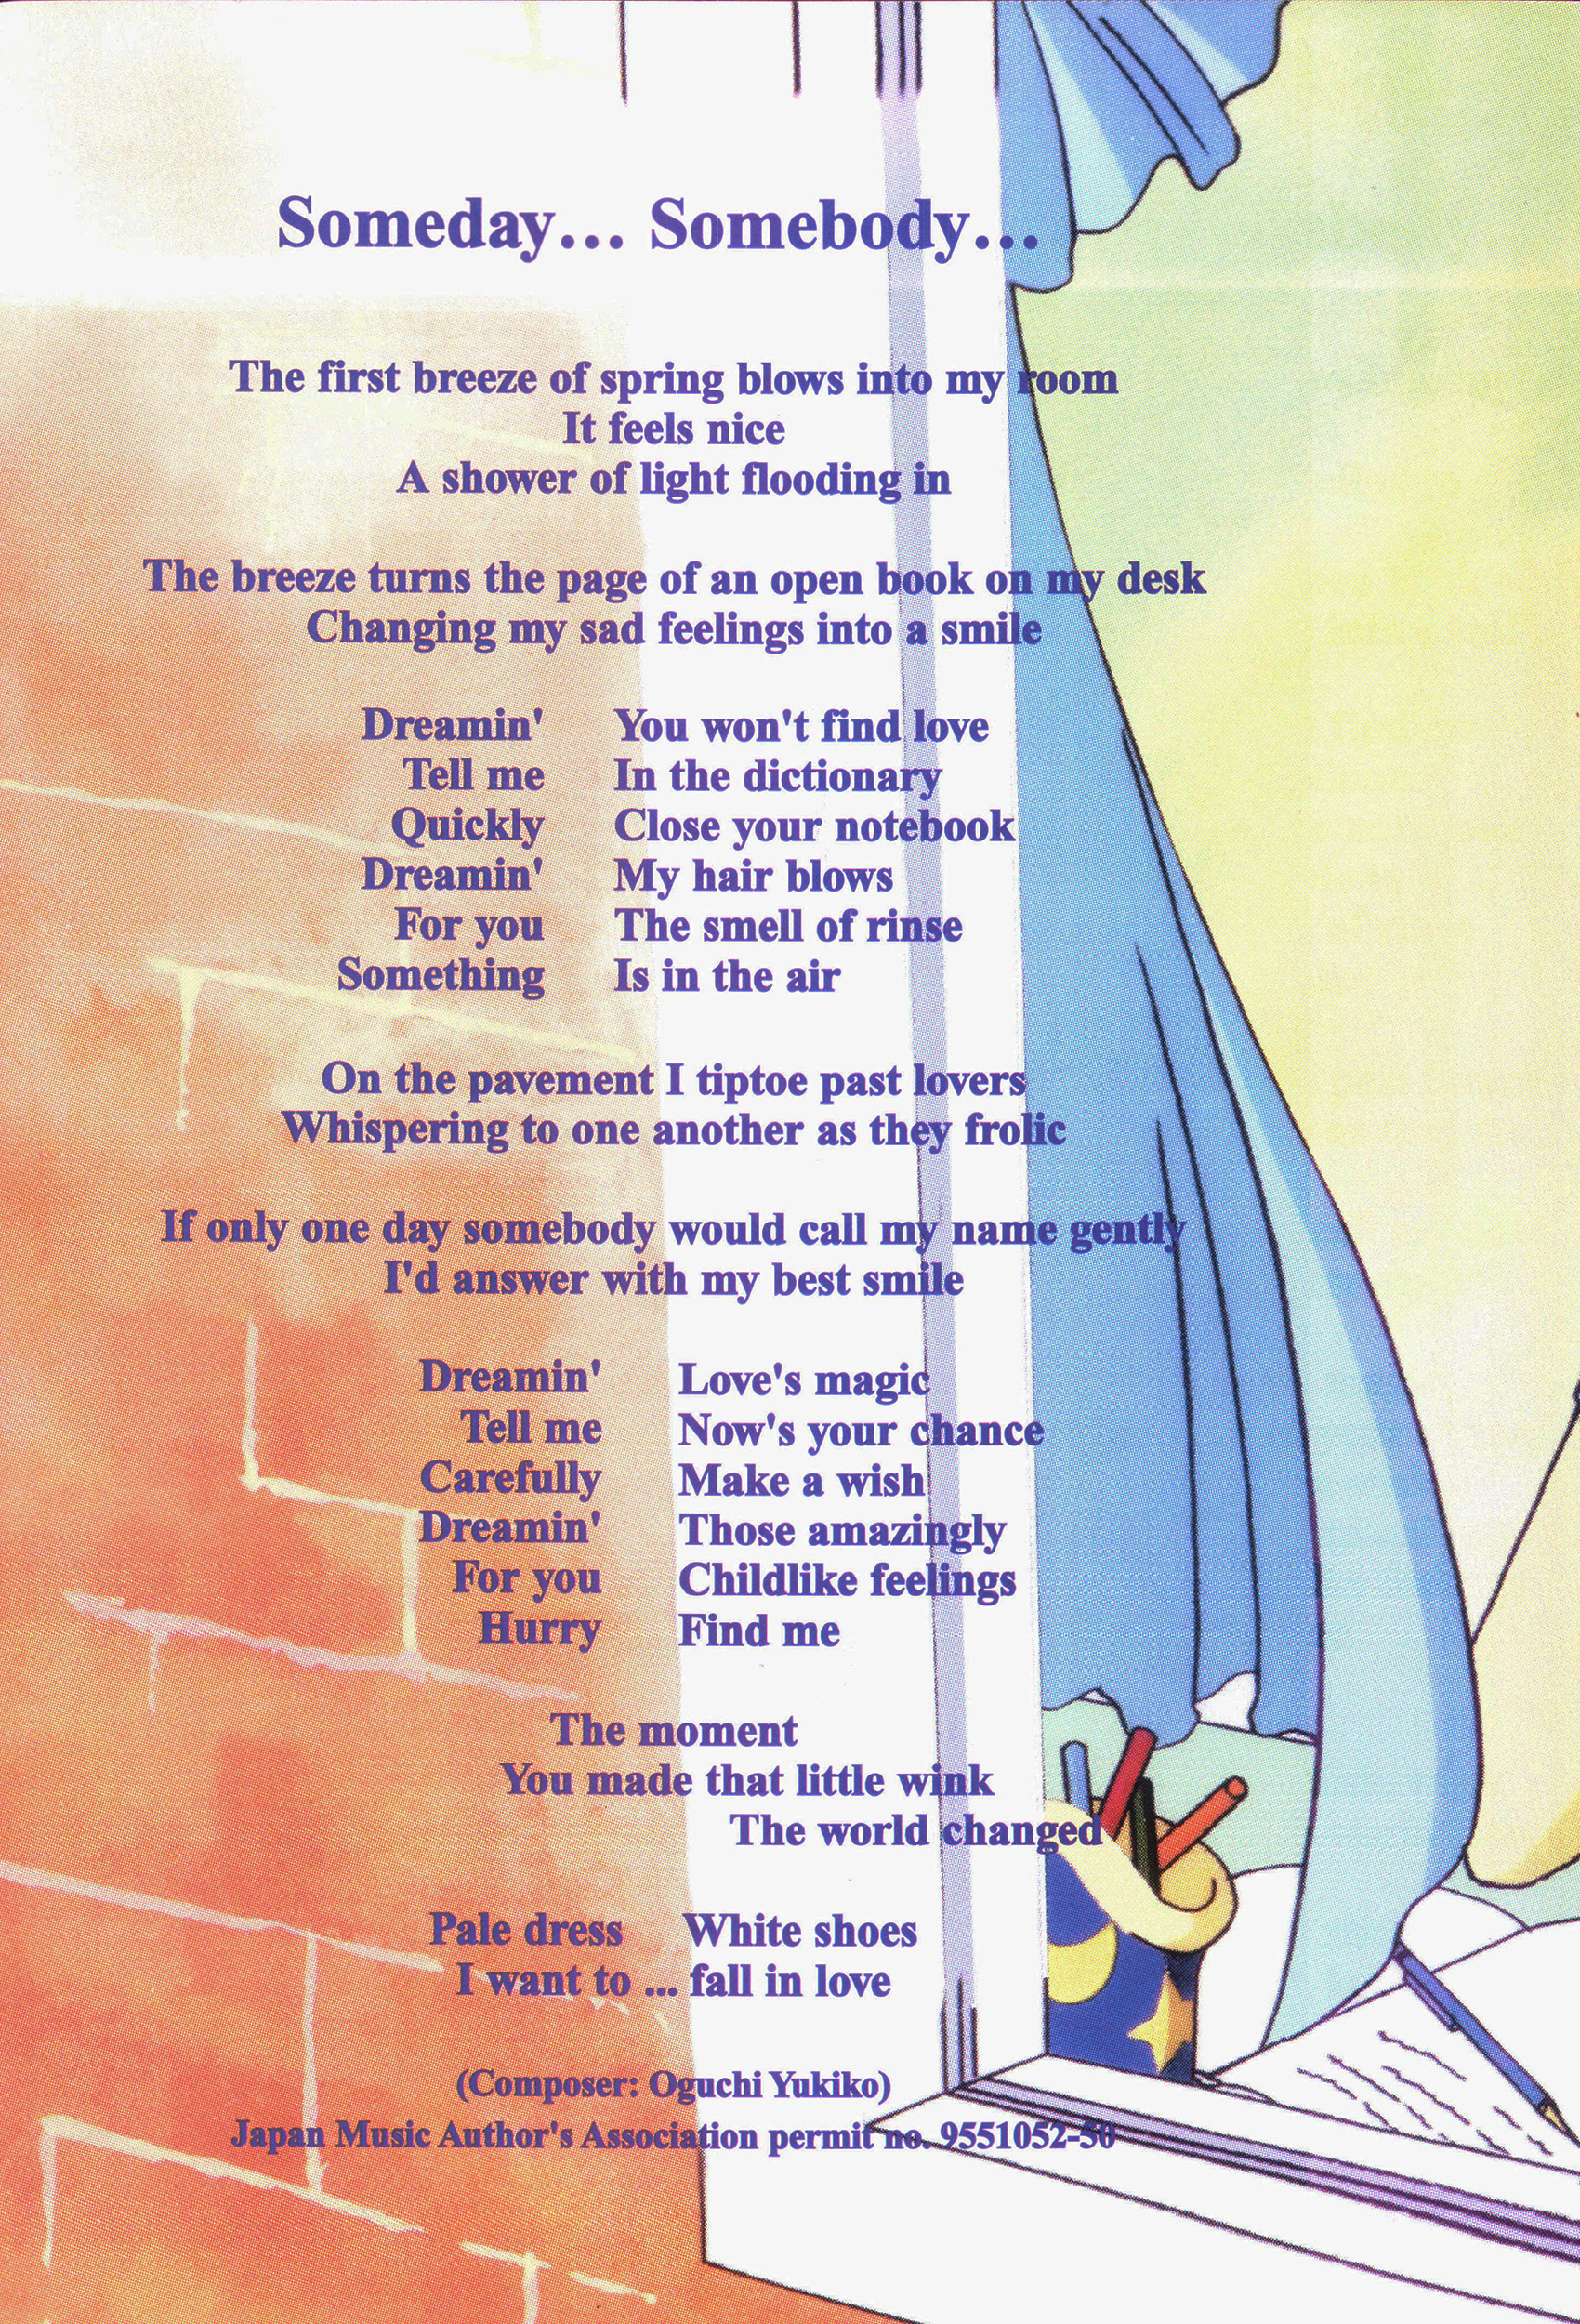
The Sailor Teleport is exhausting, so it is difficult to do more than once.

We escape with Rini from Rubeus' spaceship.





We teleport for the first time by combining our powers into one burst.



# Someday… Somebody…

The first breeze of spring blows into my room
It feels nice
A shower of light flooding in

The breeze turns the page of an open book on my desk
Changing my sad feelings into a smile

Dreamin'    You won't find love
Tell me    In the dictionary
Quickly    Close your notebook
Dreamin'    My hair blows
For you    The smell of rinse
Something    Is in the air

On the pavement I tiptoe past lovers
Whispering to one another as they frolic

If only one day somebody would call my name gently
I'd answer with my best smile

Dreamin'    Love's magic
Tell me    Now's your chance
Carefully    Make a wish
Dreamin'    Those amazingly
For you    Childlike feelings
Hurry    Find me

The moment
You made that little wink
The world changed

Pale dress    White shoes
I want to ... fall in love

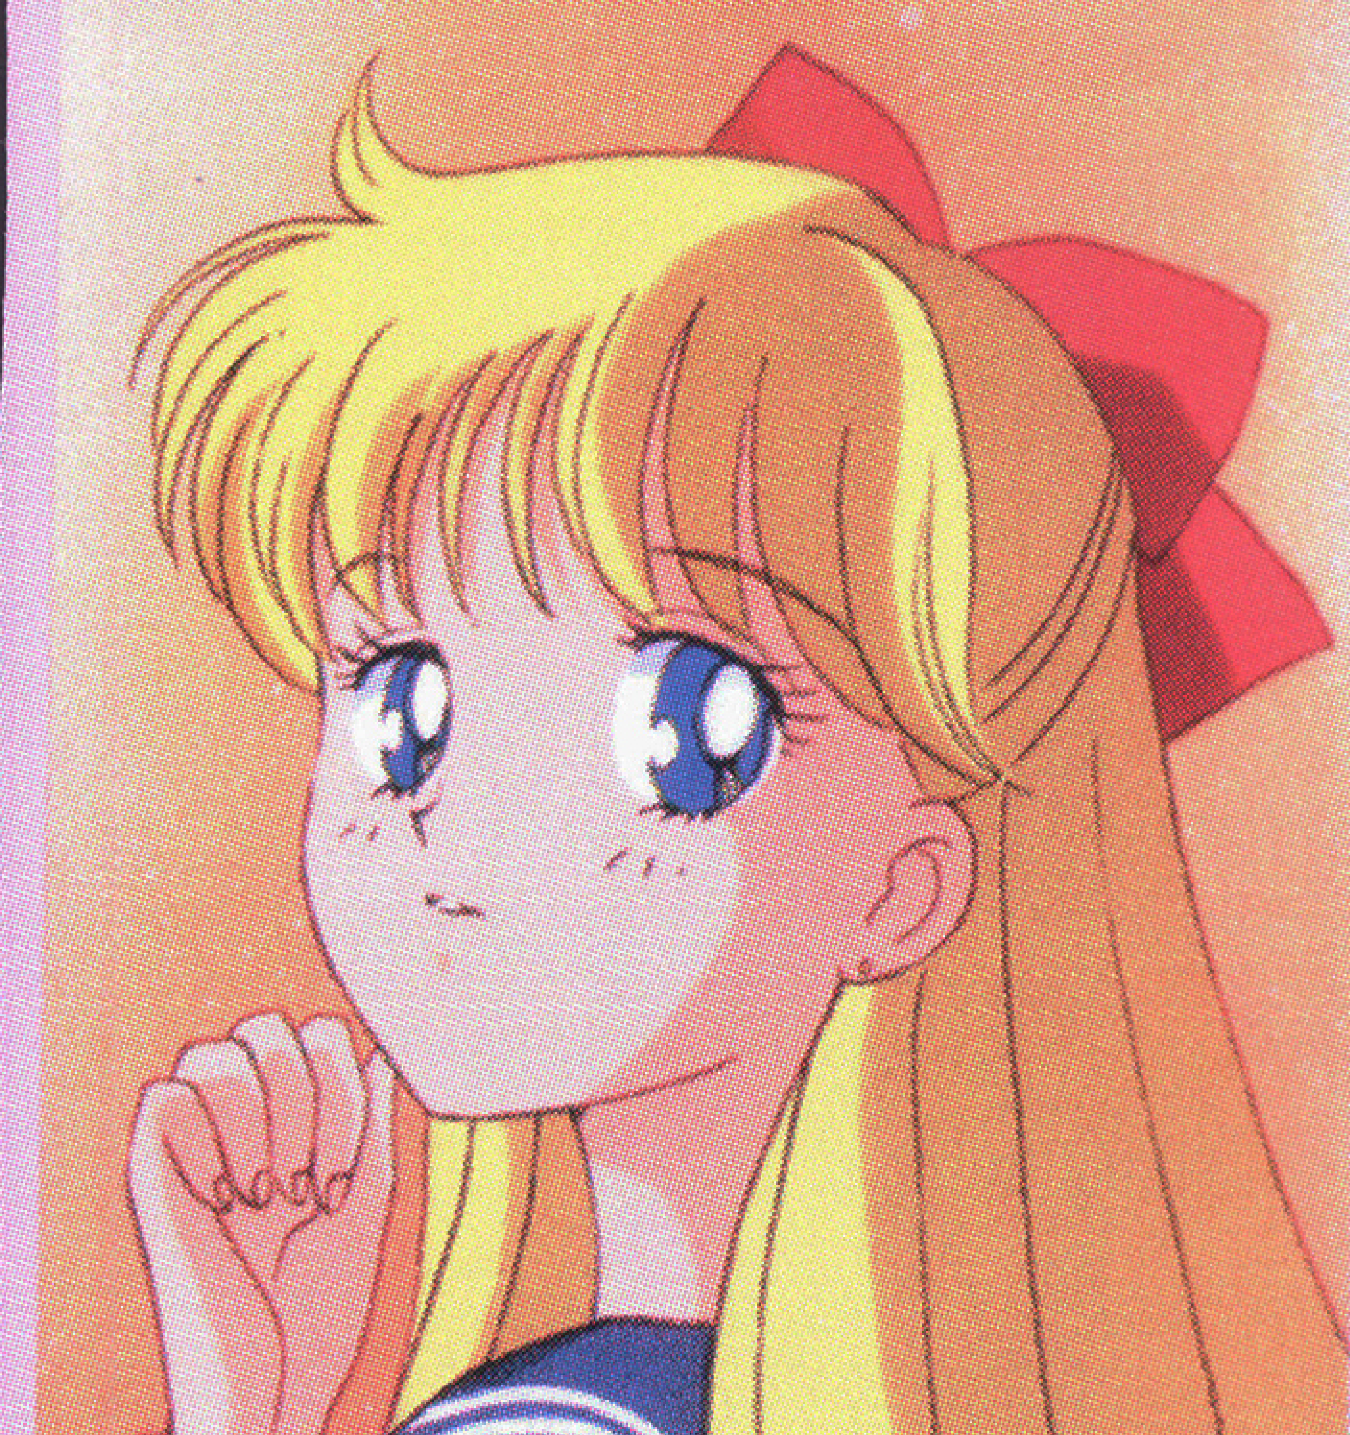
# Sharing Our Tears

For a while now
You've been sad
You stand still
The windy sloping road
You always
Keep it inside
When you're troubled
It makes me sad
Leaning on my shoulder
Just for a bit
And being soft
Is not to admit defeat
No matter what
No matter what
Comes between us
Together
We'll be OK
Like this
Like this
Sharing
Our tears
Always together
Let's stay this way forever



In the photo booth we acted silly
Closed our eyes, looked at our strip of pictures
Making fun of each other, and laughing
If struggling all alone
Is right
That's too lonely
Anywhere
Anywhere
I can get to like it
Together we'll be OK
Like this
Like this
Facing each other with the same smile
Never change
Let's stay this way forever
No matter what comes between us
Together we'll be OK
Anywhere
Anywhere
I can get to like it
Together we'll be OK

A deserted beach
Pure white sand dunes
Up early after studying all night
Feeling the salt wind blow
Would surely make me feel
Invigorated

The waves surge
Over my bare feet on the sand dunes
As if to carry me off
Into the sea
Where I want to be carried off

By some wonderful person I'm bound to meet
Somewhere, sometime
I want to be carried off

Last night I closed my notebook
And as I was snoozing
I had a dream
It was hazy and I couldn't see him clearly
But his light brown skin and white t-shirt
Those long legs in a pair of jeans
He was wonderful
I had a feeling it was love
But
As if blown away by the wind
His silhouette disappeared in the blink of an eye

I want to be called softly
Just one word is enough
Amy-chan

By some wonderful person I'm bound to meet
Somewhere, sometime
I want to be carried off

# Though we can't be lovers

I looked for you all day on that bench
You sat down
That afternoon on the dazzling riverside

Yesterday when I had the blues
You understood
It made me happier than anything

You've got another girlfriend but still
Stay here like this
by my side, forever

Heartbreak, unrequited love
Without saying anything
Just a bit longer   Like this
That's just fine
Looking up at the sky it pierced my heart

Suddenly you crack a joke, start whistling
That smile
Finally I'm feeling good again

Field baseball in summer
Your scolding eye
Is kinder than anyone else

I don't need words of consolation
I just need you
I don't want you to change

Heartbreak, unrequited love
If in this world
There was one more you
That's just fine
Though I'm afraid we could only be friends

I like you     I like you a lot
I want to tell you
Just a bit longer    Like this
That's just fine
Looking up at the sky it pierced my heart
